The Most Desirable Property in the Vicinity of Portland for Sale.
WE offer the Property situated on Ocean Street, Woodford's Corner, Deering, and known as the Phiney Property, consisting of about 11½ acres of finely located land, in the highest state of cultivation, having cut 30 tons of Hay in one season. There is abundance of choice Fruit. The buildings are ample, thorough and substantial, consisting of a large and finely arranged House, with wood-shed, carriage house and barn connected. The barn is one of the best and most conveniently arranged in the State. There is also a large hay barn on line of street, recently built, at considerable expense. The late Mr. Phiney spared neither time nor money to make this a first class property. It is situated within 15 minutes' ride of Portland, most of the way over a shell road. Horse Cars, Maine Central and Portland & Rochester Railroad Cars stop at Woodford's, a few minutes walk from the property. Across Back Bay you get one of the finest views of the city to be obtained. Church and School privileges excellent. For further information inquire of

All railway, steamboat and hotel managers will confer a favor upon us by demanding credentials of every person claiming to represent our journal, as we have information that several "bummers" are seeking courtesies in the name of the PRESS, and we have no disposition to be, even passively, a party to such frauds.

We cannot undertake to return or reserve communications that are not used.

Livingstone and Kirk.

Elsewhere will be found a letter, now for the first time made public, from Dr. David Livingstone, the great African explorer, to his brother, Mr. John Livingstone of Listowell, Ontario. The pretensions of Dr. John Kirk, H. B. M. Consul at Zanzibar, to great friendship for Dr. Livingstone, his accompanying the body to England and acting as a pall-bearer at the funeral were naturally very offensive to the Doctor's brother, in view of the statements made in this letter. Mr. Livingstone says that had timely notice reached him he would have gone over to the funeral and protested, with his brother's letter in his hands, against Kirk's acting as pallbearer. The indignation of Mr. Livingstone at these assumptions on the part of Kirk—who had represented that Dr. Livingstone was living like an Arab and traveling aimlessly through Africa—has led him to consent to the publication in the PRESS of this letter, which shows the strong feeling of the writer at his ill treatment by one who was officially—as well as morally and humanely—bound to furnish the intrepid explorer with all possible aid and comfort.

It will be remembered that Stanley in a letter to the *Herald*, dated Sept. 21, 1871, makes a set arraignment, with specifications, of Dr. Kirk for his improper conduct toward Livingstone, which is here very thoroughly substantiated by the sufferer himself. It remains now to be seen whether Dr. Kirk can give any satisfactory explanation of his conduct, or must stand pilloried for all time as a man who intensified neglect of official duty by the desertion of a friend and fellow countryman in distress. Stanley says in summing up: "The story is told. This is the case—a case as I understand it of the British Public vs. John Kirk. Does it not appear to you that Dr. John Kirk never had a word to say, never had a word to write to his old friend Dr. Livingstone all the time from Nov. 1870, to about Feb. 15, 1871; that, during all this period of three and a half months, Dr. John Kirk showed great unkindness, unfriendliness toward the old traveler, his former companion, in not pushing the caravan carrying supplies to the man with whom all, who have read of him, sympathize so much? Does it not seem to you, as it does to me, that had Dr. John Kirk bestirred himself in his grand character of English 'Balyuz'—a noble name and great title out here in these lands—that that small caravan of thirty-three men might have been despatched within a week or two after their arrival at Bagamoyo, by which it would have arrived here in Unyanyembe long before Mirambo's war broke out?" This language was written before Stanley reached Livingstone, and must of necessity have been based on his own observation of the situation.

Stanley parted from Livingstone March 14, 1872, nine months before the writing of this letter, in which the Doctor avails himself of the freedom of fraternal correspondence to declare his grief and indignation at the shabby and inhumane treatment which he had encountered at hands from which he had reason to expect only kindness and help. It is a pitiful tale, and we may charitably hope that Dr. Kirk, for his own credit and that of the nation, will be able to offer some explanation or excuse in extenuation.

Current Notes.

The New York *Tribune*, after looking over the list, says that the inflationists in the New York delegation to the National House can be got clear of by rejecting those who voted for the salary grab.

The New York *Times* pronounces the housefly the pest of the period. It also wants a new panic, concluding that the hydrophobia scare is becoming stale.

The Democrats of the third district in this state are so cruel as to have appointed a meeting to nominate some victim to run against Speaker Blaine. One bright horse-tamer in that district, a political opponent of Mr. Blaine, recently surprised his acquaintances by naming a very promising colt James G. Blaine. On being asked why he did so, he replied: "Because it is a dreadful lucky name."

Forney and Cameron are reconciled. Mercy and truth have met together. Righteousness and peace have kissed each other. The spirit of Penn looks down upon the city of Brotherly Love, and weeps, and feels for his pockets.—*New York Graphic.*

The Boston *Herald* thinks one good result of raising the national revenue by direct taxation would be the general reduction of the expenditures of the government, as no administration could be sustained in asking so large sums from direct taxation as are now raised by the present tariff. This is a novel way of putting it.

The Montreal *Witness* has no faith in the attempt of the government to get the Canadians to return to the province of Quebec. They find good homes and employment in the states, and these afford greater attraction than any sentiment of nationality.

THE WOOLWICH ABDUCTION.—Sometime ago a brief item appeared in the Bath Times stating that a Miss Ella Brookings, a respectable young lady of Woolwich, had mysteriously disappeared, and a few days after the announcement was made that she had returned, giving evidence of foul play. The sequel shows that she was the victim of a well laid abduction plot. Her story is that a little after 7 o'clock on the Friday evening while returning from her aunt's, when near her own house, she was confronted by a man who remarked that he believed he had met her before, and then waved a handkerchief repeatedly over her face. She thinks the handkerchief was saturated with chloroform, at any rate she lost her senses, and when she recovered her consciousness found herself locked in a room, which she thinks was in Bath. She was finally liberated by an elderly man, who thwarted the design of her captors.

Miss Brookings had been waited upon by a young man by the name of Edward A. Gray; and sometime before the abduction she received two letters, both anonymous, the first dated Bath, both purporting to come from a woman who claimed to be engaged to Gray, and warning her against him. The second letter seems to have been addressed to Gray, but somehow came into Miss Brookings' possession. Therein some young man announces his intention to abduct Miss Brookings and carry her where she couldn't be found.

There are some who think Miss Brookings' story is somewhat improbable, but the Times assures its readers that those who know her best fully rely upon her story. A reward of $200 has been offered for the capture of the perpetrators of the outrage.

Middletown, Conn., has a patient and painstaking young woman who undertook to collect a million postage stamps in two years—just as a good many other sweet silliuesses have. But this young woman wasn't so easily chocked off as the rest, and now she has 900,000 stamps and three months left in which to get the balance.

The compositors throughout the country have entered into a competition to mispell caterpillar. At last accounts the catterpillar party was beating the caterpillar faction.—*Boston Globe.*

An Important Revelation,

UNPUBLISHED LETTER FROM DR. LIVINGSTONE.

Serious Allegations against Consul Kirk.

LAKE BANGWEOLA,
Central Africa Dec. 1872.

My Dear Brother:

You may have heard how I was baffled and nearly taken by a coterie or ring of slave-trading Arabs and Banians, the latter our Indian fellow-subjects, by whose money, arms and ammunition the Arab agents carry on all the cruelties and murders necessary in their enterprises. I lost two years in time, about a thousand pounds in money, had two thousand miles of useless tramping and was subject to the imminent risk of a violent death four several times,—all through my agent, in killing simplicity, handing over the affair of supplying me with men and goods to his friend Ludha Damji, the head and chief money lender of the ring. He sent his own and other Banian slaves instead of men, and at three times the highest freeman's pay. Then the goods were placed in charge of a thief by name of Shereef Bosher, and he sold all off for slaves and ivory to himself. The Banians would not kill a flea for the world, but by their money means they are the worst cannibals in all Africa. Their slaves came, loudly declaring that they were ordered by the English vice consul to force me back. This was of course false. He could not be such a fool as to place himself in their power. But slaves are in some respects like children, and quite overacted their part. This is the way in which I view their asseverations. A little American girl is said to have asked a visitor who was received with great cordiality by mamma: "Is your next door neighbor a fool?" "No, my dear, he is a very sensible man. Why do you ask that?" "Because mamma said you was next door to a fool." Public advice was sent by the English vice consul to the Foreign Office and published by the Royal Geography Society, that I ought to retire and leave the rest of the work to others. That means himself. Astute Banians may have learned the proclivities of my public advisers, and delivered them undiluted to their slaves. When consulted by Sir Roderick Murchison I recommended this same vice consul as a leader of this expedition, and he afterwards told me it was declined unless he had as good salary and position to fall back upon as Speke and Grant had in their pay and commissions. The salary and position he now holds were procured by my own intercession. Then followed the following self invitation: "You cannot imagine how much I long to have a run again with you in the wilds; I feel as if I must have it sometime." No response followed this appeal.

No sooner was Lake Bangweola discovered and announced at the coast, than an official description of it was sent to the Bombay Government, in which it was gravely stated, that it is like Nyassa, Taganyika and the Albert Nyanza, overhung by high mountain slopes, which open out in bays and valleys or leave great plains which, during the rainy season, become flooded, so that caravans march for days through water knee-deep, seeking for higher ground on which to pass the night. Now I found the Lake to be 4000 feet above the sea—the height at which I now write—but the country around is remarkable only for extreme flatness. When I first reached it the only mountain slopes were ant hills, some of them about twenty feet high. Their slopes could scarcely be called high except on the top of the 4000 feet. There was no more slope from the land generally than there is from the Isle of Dogs down to the level of the Thames.

The news I got at Ujiji—to which I was forced back by the Banian slaves—was that the vice consul was in Ludha Damji's hands. I had been plundered of my goods, wholly or partially, four times, but the consular agent, paid expressly to give information, sees us to have been kept silent by the Banians who have the custom house and all the public revenue entirely in their hands. There was nothing immoral in the vice consul's friendship for Ludha, but it was highly impolitic for it gave all the members of the ring the persuasion that Ludha would make all safe. I was in misery. I was still determined not to give in to their villainies; but was resolved to make my way down to Baker for aid.

I have the prospect of going home to poverty, for my salary was stopped by a Mr. Murray, clerk in the Foreign Office, who was put in as a third under-secretary when the slave trade was rife on the west coast, and, now it has ceased, tries to save his own pay by cutting down others'. The superiors know little about these matters. I shall not go a begging, but, as soon as I get a set of new teeth, launch out into foreign parts to seek my fortune,—a nice reward for the discovery of the sources of the Nile, is it not? If the paid consular agents concealed the robberies from the vice consul they are culpable. When my formal complaint of all I have suffered from the people employed by Dr. Kirk came down by Stanley it was like a clap of thunder to him, and before he had collected all his thoughts he raved against me. The English relief and search expedition were strongly advised by him to wait till the rains should cease, and they seem to have dawdled on a most unhealthy island till all their good intentions oozed out at their finger ends. Kirk wrote that he felt the greatest grief and indignation at my losses—the direct result of the misbehavior and dishonesty of those engaged—but nine days afterwards he declared before five gentlemen that he would not send over the consular agent to Bagamoyo to see the men secured by Stanley off (the steamer was starting) nor do anything for Dr. Livingstone, because he believed niggers would only insult him. It was his own belief in Ludha and his slaves that caused all my losses, and it is his own inference entirely, that I believed the slaves when they swore that he instructed them to force me back. But it is my belief that possibly the difficulties may have had a remote connection with his eagerness to share the honor of discovery after I had helped him to his perquisites, position and salary. His wrath and babbling-out that he was charged with the instruction of the slaves is ominous. The fascination of mixing up his name with discoveries seems pretty strong, and there may be a little lurking hope of enhancing his standing in the community. I never said aught to him.

The government also had another plan than sending out the search and relief expedition, which was that if they had no offer for one already out, to take a few Arabs, run in and settle the Nile question by looking at the north end of Tanganyika and call me out of Manyema where his truthful Arabs reported me as living like an Arab. And I went up quite sure that, if anywhere, the Nile was west, at the Lualaba where I was working. The idea seems to have come from Kirk, but it has not prevailed over me, and if the good Lord above gives me strength and influence to complete the task in spite of everything, I shall not grudge my hunger and toil.

Affectionately yours,
DAVID LIVINGSTONE.

Gov. Dingley's Letter of Acceptance.

WATERVILLE, July 6, 1874.

MY DEAR SIR:—I have the honor to inform you that at the Republican State Convention, held at Augusta, the 18th ult., you were unanimously nominated as a candidate for Governor to be supported at the next election.

I herewith inclose to you a copy of the resolutions adopted by the convention.

Very truly your obedient servant,
EDMUND F. WEBB,
President of the Convention.

To Hon. Nelson Dingley, Jr., Lewiston.

LEWISTON, July 7, 1874.

To Hon. E. F. WEBB, President of the Republican State Convention:

DEAR SIR:—I am in receipt of your communication of the 6th inst., informing me of my nomination by the Republican State Convention, as candidate for Governor; and inclosing a copy of the resolutions adopted by the convention. In accepting the re-nomination tendered with such unanimity, and with so flattering an endorsement of the manner in which I have thus far discharged my official duties, I desire through you to thank the convention and the Republicans of Maine for the high honor conferred upon me; and also to express my approval of the principles enunciated by the convention. I should do injustice to my own feelings if I did not also express to my fellow citizens generally, my grateful acknowledgments for the generous forbearance and cordial co-operation which have thus far been extended to me in the official position to which their suffrages have elevated me. So long as I may continue in this position, it will be my aim, to the extent of my constitutional powers, to administer the affairs of the state with prudence and integrity, and fidelity to those principles which have so long made this state a home of justice and equal rights; with a constant recognition of the importance of intellectual and moral culture as a basis of free institutions; with a firm faith in the wisdom of bending our energies to such a development of our magnificent maritime, manufacturing and other natural resources as will give a new impetus to the great agricultural interests which underlie true national prosperity; and with the single purpose of promoting so far as possible the highest moral and material welfare of our beloved state.

Very respectfully yours,
NELSON DINGLEY, JR.

Bowdoin Commencement.

A large attendance—Report of President Chamberlain—The drill matter adjusted, etc., etc.

BRUNSWICK, July 8.

The attendance promises to be larger than at any commencement for years, the matter of the military drill exciting much interest and drawing scores of the alumni to the place. The boards are very fully represented, members being present whose faces have not been seen in Brunswick for years. Opinions on the vexed question are of course divided. A majority perhaps of the alumni believe the drill to be a good thing, but their position is much like that of Ensign Stebbins on the Maine law—"for the law, but agin its enforcement." While holding that the drill is beneficial to the students they fear that its continuance may cripple the college in numbers and prosperity. As evidence of this they point to the fact that but seventeen candidates for admission to the Freshman class have presented themselves at the first examination, against forty last year. Others claim that the college would be lowering its dignity, by abolishing the drill and yielding to the demands of a few rebellious boys. The reply is made that it isn't a question of the maintenance of dignity, but of the very existence of the college. But few approve the revolutionary course of the lower classes.

A COMPROMISE.

At the preliminary meeting last night the boards partially patched up a compromise in accordance with President Chamberlain's suggestion, telegraphed to the PRESS last night. They went into formal session at 9 o'clock this morning.

THE PRESIDENT'S REPORT.

President Chamberlain's annual report, at which a hasty glance was got, begins by lamenting the frequent changes of professors, which tend to greatly impair the efficiency of the college. The institution is congratulated upon the suppression of hazing, which, it is claimed, has been entirely done away with. The subject of the revolt against the drill is next taken up, and rather gingerly treated. A brief statement of the facts in the case is made, and violent measures deprecated. The compromise already mentioned, namely making the gymnasium course and the drill optional, is recommended. The finances of the college are represented to be in a very unsatisfactory condition. All efforts to raise the $100,000 have failed, though thirteen canvassers are at work. It is understood, however, that Hon. J. B. Brown will renew his conditional offer of $10,000. The report closes with the recommendation of a few unimportant changes in the text books and the course of study.

This report was submitted to the board of trustees last evening, and the recommendation in regard to the drill adopted with but two dissenting votes. Attendance on the lectures of the military instructor are made compulsory, however. No strenuous opposition to the compromise was made, though it was debated pro and con at some length.

CLASS DAY.

An attempt was made to induce the graduating class to hold class day before commencement, in order, it is surmised, to prevent any strictures on the faculty creeping into the exercises. The class refused to accede to the arrangement. The meeting of the Phi Beta Kappa has been postponed to Friday, for what reason is not known. The students think the delivery of class parts may have something to do with it.

The exercises of class day have been divided, a part taking place in the church in the forenoon, and the remainder under the tree in the afternoon. The class numbers 35 members.

The class of 1869 holds a reunion at the Tontine Tuesday evening. To-morrow evening the secret societies hold their reunions.

The class oration will be delivered by C. M. Furguson of East Dixmont, the poem by F. W. Hawthorne of Bath, the chronicles by W. T. Goodale of Pittsfield, the prophecies by A. H. Powers of Pittsfield, and the parting address by S. V. Cole of Brunswick. D. O. S. Lowell of Denmark is the class chaplain, and A. L. Perry of Gardiner, the odist.

This morning men with hair and beard streaked with grey were to be seen roaming over the campus, gazing doubtfully at modernized Massachusetts Hall, longingly at the old oak, and wondering very probably who rooms now at No. — Maine Hall. Occasionally one would steal away to the pines, and endeavor there to conjure up the romance of his lost youth. Aside from the campus—which by the way never looked better, the late rains having given the green a peculiar vividness—the narrow footpaths under the shapely elms of "Back" street (Federal street is its stage name) seem to be the favorite promenade. The great square houses with their frontage of lilac and locust are landmarks to the old students, and seem not to have changed a whit since the class of eighteen hundred and ever so many years ago graduated. The town is a lovely vision in green. Of course the mercury has already run up into the nineties, for the great Sun God never fails to shower fervid kisses on the white Brunswick sand during commencement week.

BUSINESS AT THE BOARDS.

At the meeting of the boards the degree of M. D. was conferred on F. A. Anthoine, F. A. Bickford, S. T. Brawn, Roland Curtis, G. H. Emerson, R. E. Forbes, F. C. Gardiner, A. L. Gaubert, I. M. Gilbert, H. P. Hall, E. E. Holt, S. C. Knight, C. F. Leslie, G. H. Sanborn, A. T. Stinson, A. V. Thompson, James Ulley, Albert Woodside, C. E. Young and W. M. Wright.

Charles H. Smith, a graduate of Yale, was elected Professor of Mathematics in place of Prof. Rockwood, resigned.

Mrs. Almira C. Dummer of Hallowell, presents $1000 to found a scholarship in memory of her husband, Charles Dummer.

The following regulation in regard to the military drill was adopted by both boards:

Whereas it is for the good of the students that they take some physical exercise regularly and systematically it is

Voted, That the gymnasium shall be continued as now during the first and third terms of the college year. The instructor shall receive not exceeding $500 besides room rent and tuition in full for his services for the year. The infantry drill by those who elect the drill, shall be continued three times each week in suitable weather through the same terms, and the artillery drill shall also be a voluntary exercise. Attendance on lectures and recitations in military science shall be required as heretofore. Every student shall be allowed to accept for any one year both drill and gymnasium. Every student not excused for a sufficient reason shall elect at the beginning of each collegiate year for that year the drill or the gymnasium, and shall be allowed to change his election at the end of the term only, and by the consent of the faculty. The present gymnasium fee of $1.50 for each term shall not be charged to those not using the gymnasium, nor for the term when instruction is not required. The college faculty may prescribe the uniform for the drill, not to cost more than six dollars, and to be charged in the term bills.

THE ALUMNI ADDRESS.

This afternoon the Rev. John O. Means of Boston, a graduate of the class of 1843, delivered the address before the alumni. The theme of his discourse was the structure of modern society. He remarked that social reforms are the final aims of the most venturesome of philosophical speculations. They constitute the newest religion, and all the religion of not a few men and women of large intelligence and ripe culture. They have founded what they are pleased to term the "religion of humanity." The speaker held that all reforms *de novo* must be failures, and invited his hearers to an analysis of the philosophic ideals of society, continually warring with each other. Politics and institutions are not human manufactures so much as they are natural growths, taking shape from circumstances without much previous theorizing. The true end of the civil polity is the greatest good of the greatest number. Now Plato is the grandest type of the human intelligence. His "Republic" is the masterpiece of speculative philosophizing. It was incubated and brooded over in the years of a long and meditative life. The discussions and criticisms of successive classes of pupils, Aristotle among them, trimmed it into shape. Recast and reconstructed again and again, in the ripeness of his fame, in the height of his genius, Plato launched it down the ages. But what statesman of to-day goes to the "Republic" for models or principles? The true code of international and social polity, to which the world is fast adapting itself, is to be found in the words of the wandering Nazarine delivered to the poor fishermen who were drying their nets by the sands of Galilee. The "religion of humanity" is the religion of Christ. The amelioration of the condition of society is to be found in obedience to the commandment of the Teacher, "Honor the Lord thy God, and love thy neighbor as thyself."

This afternoon the graduating class presented Major Sanger, instructor in military science, with an elegant ice pitcher and salver from the establishment of Abner Lowell. It bears the inscription: "Bowdoin College, July 6th, 1874. Presented to Major J. P. Sanger by the class of '74."

Geo. H. Browne has declined the office of the Supreme Court of Rhode Island, to which he was elected by the General Assembly.

The Fourth.

AT CORNISH.

CORNISH, July 8.

The "Glorious Fourth" was celebrated with more than the usual programme in this beautiful village. Early in the morning the Ancients and Horribles made their appearance in the streets, to the delight of hundreds of people who had crowded in from all the surrounding towns. The column was made up of some of the most grotesque figures one could possible imagine. Nothing short of a very fertile brain could have succeeded in producing such a gathering of horribles.

The trotting at the new park was decidedly interesting, and was witnessed by a very large concourse of people of this and surrounding towns. The horses entered for the first race were Black Diamond, Wonder and Young Morrill, and for the second race, Wild Harry, Wild Bill and Fearless. After the usual amount of scoring the horses got the word go, Wonder taking the lead in fine style and winning the heat in 2.47. The next heat was won by Wild Bild. In the last heat Wild Harry was too much for him, and he won the race. Time, 2.56. In the next race Black Diamond and Wonder would have had it their own way had it not been for Young Morrill, who pressed them hard. Black Diamond won the first heat. Time, 2.52½. The next heat was won by Wild Harry in 2.55. Black Diamond won the next heat in 2.49½. Young Morrill won the next heat in 2.52. In the last heat old Wonder did his best and won, making the best time during the day, 2.47.

AT JEFFERSON.

JEFFERSON, July 8.

Notwithstanding the clouds that lowered above our heads, about 1600 people assembled at Jefferson Park to celebrate the "Glorious Fourth." There was music by the Liberty Cornet Band, a parade of the Antiques and Horribles, other sports, and a good dinner provided in the hall by J. L. Gray. The Declaration of Independence was finely read by R. S. Partridge of Whitefield, and with that as a text an oration was delivered by Miss Hulda B. Lord of Rockland, Mass—the first time, we believe, in the annals of our history, a lady has been asked to give an oration on that day. The oration was a perfect success, and was frequently applauded, and the result of the celebration appeared to be highly satisfactory to all who participated. E.

THE EAGLE IN KENTUCKY.—This is the way the Louisville Courier-Journal editorially ushered in the Glorious Fourth: "This is the Fourth of July. It argues that, being the Fourth of July, it is not the 17th of March. Neither is it the 1st of May, nor Christmas. St. Patrick was not born on the Fourth of July. Queen Victoria was not crowned on the Fourth of July. No thanksgiving has ever been appointed for the Fourth of July; and history has failed to record one single hanging or horse-race. And yet the Fourth of July is honored as the day on which Gen. Jackson signed the Declaration of Independence; as the day on which Dr. Franklin won the battle of New Orleans; as the day the eagle-bird of liberty flapped her wings and exclaimed, in the classic words of Jones' fighter, 'I am the howling raccoon of the mountains.' Shall we omit to honor the day and celebrate it? No. Be there not a fire-cracker the less, or a stripe erased, or a star obscured! Nail to the mast that holy flag, set every threadbare sail, and give her to the God of storms, the lightning, and the gale!"

News and Other Items.

A German being asked how much sauerkraut he had put up for winter use, replied, "i's not got much. Little more as ten barrels—shust for sickness."

Lecompete and Stringfellow, who were leading "border ruffians" in the days of "bleeding Kansas," are now members of good standing in the Republican party.

STATE NEWS.

ANDROSCOGGIN COUNTY.

There is an old lady in Greene, over ninety-two years of age, who walked to a neighbor's, more than half a mile, the other day, to participate in an old-fashioned quilting, where she showed an expertness with her needle which many younger ones might well envy.

The Journal says the prospects of the shoe business in Auburn are improving. Manufacturers are receiving heavy stocks of leather and are preparing samples for the fall trade in anticipation of a better business than has been had the past year.

On Sunday an Englishman, named R. S. Bashing of Auburn, met with a serious carriage and received serious injuries.

Henry Teague escaped from jail in Lewiston last week. He has not since been heard from.

The so-called black grasshopper, which is such a pest to farmers in various parts of the country, has made its unwelcome appearance in Lisbon. Mr. John Goody is the greatest sufferer, he losing his entire crop of winter rye. Even in the grass fields the depredations of the insect has been so thorough that Mr. Goody does not now expect to get a single swath of hay.

AROOSTOOK COUNTY.

A gentleman who has just returned from a trip through Aroostook, going as far north as Lyndon, says that the grass crop will be very light on account of the winter killing.

Our Siamese twins, "Prof. Haynes and Slim Jim," were reported at Houlton, Saturday, where they were waiting for a horse trot.

Workmen have commenced to make the necessary alterations in the Augusta jail in order to provide workshops for the prisoners.

Frank Lowe's house in Clinton was struck by lightning Monday, and considerably damaged.

The Mansion House in Augusta, which has been closed for repairs, was reopened Saturday under the excellent management of Messrs. W. M. Thayer & Son.

The Boston Herald says at the court in Cambridge, Mass., Nathaniel D. Smith of Augusta, was tried for larceny from a dwelling house in Ayer. The defendant defended his case, claiming that he had purchased the stolen clothing and had it for a long time in his possession. He read to the jury certificates from prominent politicians, recommending him as "a staunch and true Republican." The jury spent but a few moments in deliberation and gave a verdict of guilty. He was then tried upon another indictment for breaking and entering at Ayer the dwelling house of C. C. Parsons, and the larceny therefrom of a watch and chain valued at $100, the property of Miss Annie F. Walker.

There was a very enthusiastic meeting held at S. Coburn's office Tuesday, to take into consideration the building of a woolen factory here. Messrs. Christie of Lawrence, Mass., and Odell of New York, were present. Ex-Gov. Coburn was President of the meeting. A committee was appointed to make arrangements, &c., consisting of Gov. Coburn, Gen. R. B. Shepherd, L. L. Morrison, S. W. Lawton and J. P. Blunt. Christie and Odell make the town a good offer, and agree to employ 200 hands. They are to manufacture shawls and woolens. Linn of Hartland, has offered to move his woolen factory here if the people will put him up a building. He will move his machinery himself, and will give the people of Skowhegan his buildings in Hartland. He employs 125 hands. G.

YORK COUNTY.

Cyrus F. Mitchell of Saco, who was under bonds for perjury in the case of the Goose Rock House, has been delivered up by his boudsmen, he having shown signs of an intention to clear out.

The case of Mr. Drew of Berwick, who was arrested by order of Conductor Thomason of the Eastern railroad, some few weeks since, was brought up in the municipal court of Salem, Mass., Tuesday morning. Judge Waters found that the government or the road had no case, that it was an arrest on illegal grounds, the conductor not having anything to justify him in so doing. The court ordered the discharge of the defendant.

IN GENERAL.

The Railroad Commissioners made an inspection of the Knox & Lincoln railroad Tuesday. Col. Wildes of the commission reports that the railroads of the state were never in better condition at this season of the year than at the present time.

Premiums to the amount of $6000, at least, will be offered at the coming State Fair at Lewiston.

Two prizes are to be given for excellence in company drill, and two for individual drill at the approaching state muster.

It is a Crime

To exhaust still further the vitality of an already feeble invalid with sharp evacuants and other strength destroying medicines. No case of dyspepsia, liver complaint, constipation, neavous weakness or periodic fever was ever cured in that way. What the debilitated sufferer needs is a remedy in which the properties of an invigorant, a stimulant, a mild aperient, a sedative, and a blood depurient are combined, and Hostetter's Stomach Bitters is the only preparation before the world in which these essential sanitary elements are united in the proportions necessary to overcome disease without prostrating the patient. This agreeable and potent vegetable elixir is in the truest sense of the word a restorative for it restores the strength of the body, re-establishes the functional regularity, enriches the degenerated blood, and clears the clouded brain.

DR. SCHENCK'S

Pulmonic Syrup, Sea Weed Tonic, and Mankrake Pills.

These medicines have undoubtedly performed more cures of Consumption than any other remedy known to the American public. They are compounded of vegetable ingredients, and contain nothing which can be injurious to the human constitution.

Other remedies advertised as cures for Consumption, probably contain opium, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients, it must do great injury; for its tendency is to confine the morbid matter in the system, which of course, must make a cure impossible.

Schenck's Pulmonic Syrup is warranted not to contain a particle of opium. It is composed of powerful but harmless herbs, which act on the lungs, liver, stomach and blood, and thus correct all morbid secretions, and expel all the diseased matter from the system, when Consumption will follow. Consumption can be cured, and as Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills are the only medicines which operate in this way, it is obvious they are the only genuine cure for Pulmonary Consumption. Each bottle of this invaluable medicine is accompanied by full directions.

Dr. Schenck is professedly at his principal office, corner Sixth and Arch Streets, Philadelphia, every Monday, and at the Quincy House, Boston, on the following Wednesdays June 10th and 24th, July 8th and 22d, and August 5th and 19th.

DR. BICKNELL'S SYRUP

Cures Bowel or Summer Complaints.

Being composed largely of Brandy, Spices and simple astringents, without a particle of Opiate, has proved after a 25 years' trial superior to any other article for Dysentery, Diarrhœa, Cholera Morbus, Cholera-Infantum, Colic, Cramp, Sick or Sour Stomach, Sea Sickness, Dyspepsia, &c., and may be implicitly relied upon in the most severe cases, yet so simple and pleasant that it may be given the most delicate infant. It acts upon the system like water upon a wilted plant.

WHITE'S

SPECIALTY FOR DYSPEPSIA.

This is the only prompt, efficient and safe master of such symptoms as loss of appetite, heartburn, palpitation of the heart, dizziness, sleeplessness, melancholy, costiveness, wind, mental and physical debility, as well as many others, which, if neglected, will soon place "the house we live in" beyond the reach of any remedy.

I had "Dyspepsia" twenty years, sometimes able to eat only the plainest food, and very little of that. I tried physicians and remedies without relief until I learned of "White's Specialty for Dyspepsia," which has entirely cured me. (Signed)

Brief Jottings.

The class of '72 will make their excursion in the Express, not the Gazelle, as stated. Boat leaves at 10.30.

Judge Virgin reserved his decision in the Winslow patent case.

All sorts of stories are being told nowadays about burglars.

A schooner with liquor on board went to Southwest Harbor Saturday night and attempted to land the liquor, but as the officers stood ready to seize it the schooner departed.

To-morrow evening the Little Brown Jug will be produced at Arcana Hall. Don't fail to see it.

Summer boarders have begun to arrive at the hotels at the Islands.

Henry White of this city, reports that he knocked down and robbed of a gold watch and chain, sleeve buttons and $30 in money, in Boston, this week.

The first regular train on the Lewiston & Auburn road will be run next Monday.

The S. P. C. A. will hold a fair in City Hall the first of September.

A span of horses ran away in Market Square yesterday, and ran down Preble street, but they were stopped before any injury was done.

A man came into town yesterday from Scarboro', to get some haying tools, but he struck a rum shop and got dead drunk the first thing, and had to be hauled to the station.

The overalls which the police found Tuesday, still remain at the police station awaiting an owner.

There will be 1200 Knights of Pythias in uniform on the occasion of the anniversary in August.

The contract for furnishing coal for the city schools will probably be awarded to Jackson & Eaton.

People spend pleasant evenings now in looking at the comet.

Post Sheridan of Biddeford is talking of a picnic to Little Chebeague Island, to come off sometime in August.

A package containing silver ware was stolen from a wagon of Prince's Express Company, yesterday afternoon, on Congress street.

A Centre streeter buried his dead dog in the front yard. The heat of yesterday caused his resurrection.

H. H. Rich is a candidate for first lieutenant of the Blues. There will probably be an election Wednesday evening.

A BAD SCARE.—A young lady in this city recently saw a mark on the paint under the door bell at her father's residence. Of course burglars were the first thing thought of, and she hastened to alarm the neighbors. On reaching the next door on the street what should she find but just such a mark, and in exactly the same place. Her next step was to notify the neighbors far and near to look out for burglars. Acting on the impulse of the moment she started for the house of a friend, and what met her gaze upon arriving at the door but the same white mark under the door bell. She of course notified the family that the burglars had been around marking the houses they intended to enter the next night. The whole family then set about nailing down windows, &c. Arrangements were made to watch for the villains at night, but just as they were perfecting their arrangements a modest young canvasser was seen to pass up on the other side of the street and, as he called, to make a little mark under each door bell. It is sufficient to say that the family decided that it would not be necessary to watch for burglars that night.

SAFETY SHOE FOR CARS.—Mr. S. W. Emery of this city has been in Rockland this week exhibiting his safety shoe, which he applies to cars to prevent them leaving the track when one wheel is displaced. The model was on exhibition at the Industrial Exhibition and attracted a great deal attention. It was tried on the Knox & Lincoln road last Tuesday. The following is the test to which it was subjected: An engine was attached to a platform car which had been built especially for this trial by the owners of this patent. This car has but four wheels. The car was loaded with about two tons of ships knees and then placed in front of the engine which started at a speed of thirty miles an hour, upon a down grade. The car was then unshackled from the engine and let go by itself. Near the foot of the grade it was thrown from the track by a switch. It ran about seventy feet and stopped with only the wheel off from the track which had been thrown off. This test was regarded by the railroad men present as a very severe and highly successful one.

GONE.—Some family will miss their sewing machine to day. Yesterday afternoon a job wagon was driving up Congress Street at a furious rate. As it neared India Street, a sewing machine, which was in the rear of the wagon, was seen to rock slightly, but the driver did not heed it, and the rock it made it did not stop until it struck the ground. The driver did not notice his loss for some time, but when he did he hastily retraced his steps and begun to try to put the thing together, but it was slow work, and the knight of the whip scraped up the pieces and drove off.

THE POLICE.—We understand that the Police Committee, after a full examination into the matter, voted to advise the Mayor to dismiss officers Lovejoy and Whitcomb, on the charge of intemperance, and that they have accordingly been discharged. This action is due to the rest of the force, which is generally made up of faithful and efficient men of good character.

Personal.

Gov. Dingley and his competitor, Hon. Joseph Titcomb, are the lay delegates from the Maine Congregational Conference to the National Council to be held at New Haven in September.

Seth L. Milliken, Esq., of Belfast, is at the Falmouth.

Portland District Conference.

SECOND DAY.

The Conference was opened at 9 o'clock with religious services conducted by Rev. W. B. Bartlett.

On due recommendation and examination by the committee, Geo. C. Andrews of Biddeford, and Chas. E. Williams of Kittery, were licensed to preach; and it was also voted that we will license no one to preach who uses tobacco.

A motion to inquire into the expediency of discontinuing the District Conference after this year, was tabled.

Rev. Wm. Baldwin read an essay on "The pastor's duty in relation to conference collections."

The subject was discussed by quite a number of clergymen and members of the Conference and it was voted to request the Zion's Herald to publish the essay.

Rev. Messrs. Luce, Randall and Jones were made a committee to apportion the Conference collections to the several charges.

In the afternoon session it was voted to hold the next Conference at Saccarappa.

Rev. I. Gibbs read an essay entitled "After camp-meeting revival in all our churches."

Rev. D. B. Randall read an essay on the question "How shall we make our coming camp-meeting most successful."

The following resolutions were presented by Rev. Mr. Randall, and adopted:

Resolved, That we rejoice that the national camp-meeting committee are to take charge of the Old Orchard camp-meeting, and we pledge ourselves to sustain the meeting to the extent of our ability, and will use our best endeavors to influence our people to attend.

Resolved, That we consider the Fryeburg camp-meeting as absolutely important to the success of our work in this district, and especially the western part, and we will take special pains to attend it ourselves and influence others to do the same.

Rev. Mr. Ladd offered the following, which was adopted:

Resolved, That we are in hearty sympathy with the state camp-meeting at Richmond and will aid it to the extent of our power by our presence and our prayers.

Resolutions of thanks to those who have so warmly welcomed the Conference were also passed, after which the Conference adjourned with suitable devotional services.

EXCURSIONS.—To-day the excursion to Peak's Island, with the concerts, comes off. It will be given under the management of John L. Shaw, who has been so successful in giving these excursions the past four years. Mr. Shaw will be assisted in the concert by the celebrated young artiste, Sappho, Mr. H. W. Ellis, Tenore Comique and Comedian, Miss A. E. Elden, Soprano of the Cathedral choir, the Misses Leavitt and the Amphion Club. They will give two concerts, the first at 11 o'clock and the second one at 4 o'clock. The tickets for the excursion and the two concerts, including steamer fare, 25 cents.

The annual excursion of St. Lawrence street Sunday school and parish comes off at Cushing's Island to-morrow. If rainy the excursion will be postponed.

The Pine street Sabbath school go on their annual excursion to-day to Little Hog Island.—A general good time may be expected. The steamer Express will leave State street wharf at 8.15 a. m., and from the Custom House wharf at 2.30 p. m., touching the Island.

CITY HALL.—Considering the weather last evening there was a crowded house at City Hall. The performances were long but were good. The Indians in their original garb attracted a good deal of attention. The gymnastic part was well performed. M'lle Victoria is truly a great performer and in the mid-air act did wonders. The whole audience were held spell-bound during her performance.

IMPORTANT SUIT.—The suit of James Knight vs. The Portland & Rochester Railroad Company to recover $15,000 damages for injuries he claims he received by the carelessness of the company's employes at Hollis, was commenced before Judge Danforth as referee yesterday morning. The parties went out to the spot where the injuries were received.

UNFOUNDED.—The statement printed in this and other papers that T. H. Hubbard, Esq., was dead, is now found to be false. Mr. Hubbard is in a very feeble condition, but is yet living and quite comfortable.

LADIES.—Davis & Co. advertise the Marchiness Corset, which is growing in favor each day. *They claim it has no superior.* If you don't find it where you trade, send them one dollar and they will forward a pair by return mail free of charge.

MATTERS IN MAINE.

[Special.]

Bowdoin Commencement.

BRUNSWICK, July 8.—At the Alumni meeting this evening, Thomas H. Hubbard of New York, and Egbert C. Smythe of Andover, were chosen to fill vacancies in the Board of Overseers. The Treasurer's report showed $9000 in treasury; $2600 have been collected for Memorial Hall, most of which goes to pay interest, &c. It will take $40,000 to complete it. Efforts were made to discharge the $6000 debt on the hall, but proved insufficient. The association adjourned until to-morrow.

The Peucinian Society met to-day and chose A. G. Tenney, President; J. D. Lincoln, Vice President; A. F. Moulton, Secretary; J. S. Small, C. W. Moore, J. B. Sewall, Executive Committee. Next year is the 50th anniversary of the class of 1825, of which Longfellow, Hawthorne, Chapin and others were members. It will be the occasion of a great celebration. Longfellow will deliver a poem and Chapin an oration. The commencement concert by Miss Cary, the Temple Quartette and the Germania Band, this evening, was very fully attended.

The degree of A. B. has been conferred upon Oscar A. Billings, Principal of St. Augustines School, Portland, Wm. G. Reed and William Elder.

Dr. John T. Gilman has been elected a trustee.

The time of fall terms has been changed to eleven weeks from commencement, leaving a vacation of two weeks at the holidays and one week in April.

Judge Kingsbury of Portland, was here today seeking to have the time of the state muster changed so as not to conflict with the Odd Fellows celebration in Portland, which is set for the same week. The time of the muster will be fixed a week earlier. M.

Body Found.

EASTPORT, July 8.—A boat here to-day from Grand Menan, reports that the body of a man about 40 years of age was picked up there and towed into Swallow Tail Light. He appeared to have been in the water some time. Nothing could be found upon him to identify him.

Portland Yachts—Ice Business.

BATH, July 8.—The Portland Yacht Club, Commodore Smith, consisting of yachts Ray, Sparkle, Commodore, Idlewild, Gracie, Whisper and Nellie, arrived here this afternoon from Boothbay. They leave to-morrow for Small Point Harbor, where they disband.

Twenty-three vessels were towed up from the mouth of the river this afternoon, a fact indicative of the activity of the ice business this season.

New Steamboat Line.

BELFAST, July 8.—A new steamboat route has been established between this city and the eastern side of Penobscot Bay. The steamer Pioneer now leaves here every morning except Sunday, on the arrival of the Boston and Bangor boats, for Islesboro, Castine and Brooksville, returning to connect with the afternoon train and steamers.

NEW HAMPSHIRE.

The Legislature.

CONCORD, July 8—The House spent a great part of the day yesterday in discussing the license bill. At five o'clock the clerk commenced calling the roll on the question: "Shall the bill be read a third time." The call being completed the Speaker said 160 had voted in the affirmative and 160 in the negative, and added, "the Speaker votes in the affirmative and the bill will be in order for a third reading to-morrow afternoon at three o'clock." Cheers.

On motion of Mr. Sinclair the address of the removal of John Haines, Adjutant General, was taken up.

Mr. Sanborn moved to adjourn at 5.30 o'clock. Negatived.

The address was adopted—yeas 164, nays 121.

Addresses were passed during the day asking for the removal of nearly every Republican office-holder in the state. It being suggested that one victim was old and not much of a partizan, Mr. Bingham, the Democratic leader, said that many of the men turned out of office were personally well enough.

MASSACHUSETTS.

The Brown-Scharff Race.

The Championship of America Goes to Nova Scotia.

SPRINGFIELD, July 8.—The five mile race between Geo. Brown of Halifax, N. S., and Wm. Scharff of Pittsburg, Pa., for $2000 a side and the championship of America, was rowed on the Connecticut, opposite this city, the latter part of the afternoon. Both men were in excellent condition and the water was as smooth as could be desired. Scharff took the lead and held it for about a mile, when Brown overhauled him and thereafter kept ahead until the end of the race. At the turning stake Brown was about a length ahead, and during the first mile of the home stretch increased his lead several lengths. During the last mile, however, Scharff made occasional spirts and somewhat decreased the distance between the two boats, but Brown had the race in his own hands, and came in ahead in 36 minutes, 45 seconds.

The race was perfectly fair throughout and was an honest trial in which Brown proved himself the better man. A large amount of money changed hands on the result of the race. Brown was the favorite in the betting.

NEW YORK.

Hopeful Outlook for Business.

NEW YORK, July 8.—The leading financial paper of this city says as a rule mercantile credits are good, and there is a feeling in every department of business that we are to have an excellent fall trade, and this notwithstanding the persistent efforts in some quarters to croak in the interest of stock speculators who stand to win by further depression. The crops, it is now almost sure, are to be good, and that means a good trade and active business for the transportation lines.

The Police Commission Muddle.

A new phase in the police muddle is presented by the resignation at a late hour last night, of Commissioners Gardner and Charlick, and the appointment by Mayor Havemeyer of Geo. W. Matsell and John E. Voorhees to fill their places. This new move of the Mayor is ascribed to a desire to put a stop to the proceedings before the Governor and save a long investigation that would probably be ordered by him. Also to the fact that it was made manifest at the meeting of the Police Board yesterday that Gardner and Charlick would not be re-elected to their old positions of President and Treasurer, the other two commissioners having voted steadily against it. Whatever were the Mayor's motives, it is understood that the proceedings already instituted to effect his removal will not be abandoned. The committee of Tammany Hall having the matter in charge proceeded to West Hampton last evening to present their case to Gov. Dix.

The last appointees of the Mayor are regarded as personal rather than political. Matsell used to be a Democrat, but is now simply a Havemeyer man, which means in a political sense only an anti-Tammany Democrat. Voorhees was also formerly a Democrat, but late years has had no political status except that of opponent alike of Tammany Hall and custom house Republicanism. He was president of the 9th ward council of political reform, and since has been an excise commissioner. He has favored strong action against liquor dealers.

The morning papers criticise the Mayor's last move almost as severely as they did the previous one, particularly the appointment of Matsell.

Aldermen Call for the Suspension of Havemeyer.

At the meeting of the Board of Aldermen this afternoon resolutions were adopted reciting the action of the Court against the late Police Commissioners and the subsequent action of Mayor Havemeyer, in reinstating them, and closing as follows:

Resolved, That we earnestly request his Excellency, John A. Dix, to prevent the spread of the pernicious influences created by the above enumerated facts, which threaten to sap the foundation of law and order in our populous community, by exercising the power confided to the Governor by section 25 chapter 335, of the laws of 1873, and to suspend and remove Mayor William F. Havemeyer in accordance with the requirements of the provisions of the law.

The City's Health.

Dr. Harris' report to the Board of Health states at no time since 1868 has the rate of mortally been so low and the condition of the public health so good as at present.

Various Matters.

Thomas Dodd, a vagrant, died from the effects of foul air in Jefferson Market prison, where he was committed last week. This is the second death within a week in the same place from the same cause.

Mayor Havemeyer to-day nominated ex-Police Commissioner Hugh Gardner for Excise Commissioner in place of John P. Voorhees, who was last night appointed Police Commissioner.

Judge Orton and John L. Hill appeared before the Attorney General this morning with an application to commence a suit against the directors of the Erie Railway Company on account of their management.

Hugh Kelly was shot fatally yesterday by a neighbor, who fired at a cat.

The President and family with Senator Jones and family were stopping in town to-day

The first new flour from St. Louis was exhibited on Change to-day, and pronounced of superior quality.

The police commissioners couldn't organize to-day, and the department in consequence has no head.

A Tammany delegation waited on Gov. Dix to-day and asked that Havemeyer. The Governor promised to act promptly.

Thomas J. Mason, cashier of the banking firm of Merrill, Filney & Co, has been arrested for robbing his employers of large sums. He speculated.

The Case Against Erie.

ADBANY, July 8.—In the case submitted to the Attorney General to-day against the Erie Railway, the deposition of John C. Angell and affidavit of S. Deman were given. Angell deposes that he is a shareholder. He believes several dividends have been paid out of the capital as there have been no earnings for a long time; that the funds and property of the company to the extent of several millions have been misapplied in several ways; that the floating exceeds $7,000,000, and the available securities and property for its payment is not over $3,000,000—all the other property being mortgaged to its full value, the promissory notes of the company are now selling at 30 and 40 per cent. discount in the market; also that an unauthorized new mortgage has been created; that the directors agreed to lease the Atlantic & Great Western road, which is an insolvent concern, not earning enough to pay the interest on previous mortgages, and such a lease will involve a continual loss to Erie; that the Atlantic & Great Western have purchased large amounts of stock in the Cleveland, Columbus, Cinnati & Indianapolis road, and its obligations are endorsed by Erie to a ruinous extent. Consequently he asks the intervention of the state to save the property for bon fide stockholders, and that the present company be dissolved, and a new company formed, free from such an enormous load of debt.

The affidavit of Ex-Auditor Dunan avers that the Erie dividend of 1872 was made from a fictitious balance; that the current expenses of 182 were underated about $1,500,000 by order of President Watson; that the dividend for six months ending ending June, 1873, was not from any net earnings as the company really made a net loss for that time of nearly million dollars; that Bischoffscheim and Goldsmith had been allowed to retain about $1,500,000 on various pretexts of the proceeds of the sale of mortgaged bonds. He charges that a debt of $750,000 to Duncan, Sherman & Co., was paid in cash and stocks of the Buffalo, New York and Erie Co., was bought for about $40,000 and placed to the credit of the company at $150.

Affleaits of a general nature were read from President Watson, examiners Little and Housen and Messrs. Barlow Dodd and Lucius Robinson, all saying that the statements of Angell and Duncan are malignant falsehoods.

WASHINGTON.

Treasury Balances.

The following are the Treasury balances to-day:—Currency, $12,412,610; special deposit of legal tenders for redemption of certificates of deposit, $59,435,000; coin, $73,385,375, including coin certificates $31,703,600; outstanding legal tenders, $382,000,000.

Various Matters.

The promotions and appointments in the army since April were officially promulgated to-day.

MR. TILTON AGAIN.

Why Don't the Fool Make His Charge?

NEW YORK, July 8—The Golden Age has the following editorial relative to the Beecher-Tilton affair: "The policy of silence." Plymouth church has adopted a policy of silence. It has seen the cunning tissue of misrepresentation and insinuation woven for the injury of one man and the protection of another, swept away at a single blow, leaving its artifice exposed to the naked eye; and in the face of a demand for explanation, it holds its place. It sees the character of one whose good name it is bound to defend from every aspersion brought under grave and terrible suspicion and while millions in an agony of sympathy for him, entreat it to open its lips and speak one assuring word, it persistently holds its tongue. The fact speaks in trumpet tones. The American people ask for one word in behalf of a man they revered and loved more than any other, one single syllable of assurance from lips that have moved millions and have a witchery of persuasiveness possessed by no other on earth, would have satisfied them. There was a splendid occasion and there stood the man to fill it with a voice which would have gone like England's drum beat around the world. They listened in death like stillness and were treated to a silence that was almost audible. The fact admits of only one construction, and whoever thinks, draws the inevitable conclusion there is a silence more oppressive and ominous than that of death. The American people now know what that silence is.

The Wisconsin Railway War.

The Potter Act Declared Unconstitutional.

NEW YORK, July 8.—Advices from Hudson, Wis., say that the conductor on the West Wisconsin Railway was arrested for charging a higher rate of fare than allowed by the Potter act, and was discharged by Justice Thayer of Hammond. A person named Fulton then caused the arrest of the agent at Hammond and brought him before Justice Pattou. A motion similar to the one granted by the Hammond Justice was there made, argued and denied. The case then went before a jury who disagreed, standing four for acquittal and two for conviction. The attorney of the company took the prisioner before Judge Moffat, who decided that the Potter act was unconstitutional and void, inasmuch as it prescribed fixed and arbitrary rates without any reference as to whether they were reasonable rates or not, thereby impairing the value of vested property without providing any compensation therefor. The prisoner was conditionally discharged from custody.

Effect of the Wisconsin Decision Upon American Securities.

NEW YORK, July 8.—The recent decision is being actually discussed among the foreign bankers as to its effect upon the American railroad credit at London and on the continent. In consequence of railroad defaults within a year, Germany has ceased to take any new railroad loans, but not so with London, where a number of leading railways have placed new loans within a few months. It will be interesting, therefore, to hear what response London makes to this decision. Fears are expressed that the decision in the case of the grangers may prevent any further negotiations of American railway bonds in England and also lead to the return of American securities from England and the continent.

Indians to be Punished.

WASHINGTON, July 8.—The report of John D. Miles, Indian Agent at Osage City, Kansas, in regard to the depredations of the Lostile Cheyennes. Camanches and Kiowas, was received at the army headquarters to-day, and orders were immediately telegraphed to Gen Pope, commanding the department of Missouri, directing him to use the 6th cavalry, stationed in Kansas and the Indian Territory, to break up the raid of these Indians and force them upon their reservations.

A Fight.

St. LOUIS, July 8.—A letter has been received from A. C. Meyers of Dodge City, Kansas, stating that his ranche on the Canadian river was attacked by Indians on the 27th, and three men killed. The Indians were repulsed, however, and eleven killed in a three hours fight.

New Telegraph Company.

NEW YORK, July 8.—The Post says that negotiations are nearly completed for the formation of a new telegraph company by the principal trunk railways from the Atlantic seaboard to the west, erecting telegraph lines on their routes and leasing such as a continuous line to the new company for 999 years, the railways as part compensation to use the telegraph without expense. The report states that Peter H. Watson, President of the Erie road, is to be President of this new company, which it is believed will connect with the New Atlantic Cable now being laid to Portsmouth, N. H.

METEOROLOGICAL.

PROBABILITIES FOR THE NEXT TWENTY-FOUR HOURS

WAR DEP'T, OFFICE CHIEF SIGNAL OFFICER, Washington, D. C., July 9, (1 A. M.)

For New England,

partly cloudy and warm weather will prevail with south or west winds and no decided change in the barometer.

FOREIGN.

The French Assembly.

Defeat of the Ministry—Great Excitement.

PARIS, July 8.—The Assembly opened to-day amid intense excitement. The floor was completely filled with deputies and the galleries were crowded with distinguished spectators. Lercien Bryn moved that the Assembly regrets the suspension of the journal L'Union by the government. This motion was rejected by 80 yeas to 379 nays. The Left generally abstained from voting. Thereupon M Paris, a member of the Right Centre, moved the following: That the Assembly resolving to energetically uphold the septennial powers conferred upon Marshal MacMahon, President of the Republic, and furthermore reserving the questions submitted to the Committee on constitutional bills, passes to the order of the day.

Gen. Decissey, Minister of War and Vice President of the counsel, announced that the government identified itself with the motion.

The question was taken and the motion of M Paris rejected, yeas 331, nays 368. The majority in this vote was composed of three factions of the Left and 80 members of the extreme Right.

LONDON, July 8.—A despatch from Paris to the Pall Mall Gazette says a complete understanding has been effected between Gabetta and the legitimists for a coalition of the extreme Left and Right on the vote in the Assembly to-day on the interpellation in relation to the suspension of the L'Union. The Left centre is divided, but the majority of deputies belonging to that party will vote against the ministers.

The authorities are making preparations to speedily quell any demonstration of a riotous character that may be made.

FINANCIAL AND COMMERCIAL

Review of Portland Markets.

WEEK ENDING July 8, 1874.

Despite the stormy weather for the week past business transactions have been fair in volume. The sudden buoyancy in the markets is indicative of a return of easy times, and most industries are fast recovering from their depression. The July dividends have made money quite easy and bank accommodations on good paper are not refused. Gold has been dull during the week, ranging from 110@110¼, and closing on Wednesday, July 8, at 109¾.

Beans are a little firmer, yellow eyes being quoted at 3 62@4 00. Butter is unchanged; supplies come in freely, but the large demand keeps the price of nice lots at 35c. Cheese is weak at last quotations. Coal is without change. Coffee is dull, but holders are firm in prices. Copper is unchanged, but there are prospects of an advance. Cordage is a little more active. Drugs and dyes exhibit no change. Dry goods are quiet, but stocks are low, and must soon be replenished from first hands at advanced prices. Duck is steady. Fish show a little advance, the bad weather retarding supplies. Fruit still rules high. Hay is weakening. Iron is very dull. Lard is firm. Lead is quiet. Leather shows a better feeling in the best grades. Lime is unchanged. Lumber is very dull. Molasses shows no change, either in demand or prices. Nails have fallen, and are now quoted at $4 10. In naval stores there is very little doing. Oils are unchanged, linseed falls a little. Paints are steady. Produce is quiet; potatoes are nominally quoted at 50@60c, but there is no movement in the market. Provisions are firm. Salt is steady at reduced quotations. Tin is quiet, but prices are firmer. Wool shows fair transactions with a good demand for all desirable qualities. Grain is a little lower than it was quoted last week. There is a fair demand and the market is steady. The flour market remains the same as last week. There is but a small demand and prices are unchanged. The sugar market shows an increase of ⅛c during the past week. The tone of the market is very strong.

FREIGHTS.—There are but few charters to report this week. The majority of the vessels that take freights from this port are owned, and sailed by their owners, thus the charters reported do not show the business really transacted. We have to report this week: Brig Emma, hence to Montevideo with lumber, $19; ship Transit, hence to Liverpool with deal, 7s.

New York Stock and Money Market.

NEW YORK, July 8—*Evening.*—Money closed easy at 2½ per cent. on call. National bank notes are being sent to Washington quite freely, $500,000 having been received there to-day. Foreign Exchange was heavy and lower with an increased pressure on the market. This afternoon prime bankers sixty days sterling sold direct for 48⅞, less ⅛, which is a fraction under 487; good bankers bills sold at 486¾, and at the close 486¼ was the best bid; demand bills were quoted at 489 @ 489¼. The custom receipts to-day were $304,000. Gold opened at 109¾ and closed at 109¾,—the two extremes of the day; the rates paid for carrying ranged 2, 1, 1½, 1 and finally 2 per cent.; loans were made flat. The Assistant Treasurer paid out to-day $572,000 on account of interest and $21,000 in redemption of 5-20 bonds. Total payments by the Treasury on account of July interest to date are $1,445,000. Towards the close the gold market sudden-ly became stronger and rose to 109¾ bid on some expectation that the Bank of England rate of discount might be advanced to-morrow. The Treasury will sell a million gold to-morrow. Governments firm in late dealings and in good demand at first board.—Southern State bonds closed up quiet and dull. There was some stir in the stock market this afternoon consequent on the announcement that a leading bull operator had been unable to meet his engagements. He states that in consequence of the different constructions now placed upon the currency law, the adverse legislation in the case of the grangers may prevent any further negotiations of American railway bonds in England and also lead to the return of American securities from England and the continent.

No Extra Insurance to Pay!

No Danger from Explosion—No liability to get out of Order.

In short it is the SIMPLEST, SAFEST, most DURABLE and most ECONOMICAL Engine in the world. We fully guarantee them in all the above particulars. COLT'S ARMS CO. have spared no expense in getting up SPECIAL TOOLS AND MACHINES with which to build these engines, so that every part is made up to gauge, and are perfectly interchangeable, the importance of which will be understood by all who are at all familiar with machinery. Thus, every Engine of a given size is an exact duplicate of every other one of that size, and in case of breakage, the broken part can be immediately replaced by its perfect duplicate.

The inventor of this Engine had in view, in its construction, the great need that exists for a perfect Steam Engine—of small power—adapted to all kinds of light mechanical work, and that should also continue all that is good in Steam Engineering.

The first point was, to secure a perfectly philosophical Boiler and Furnace, in order to insure the most perfect combustion, and to take up *the greatest possible amount of heat in generating steam.*

The second point was, to make a perfect cut-off Engine, working steam expansively, and keeping up the temperature of the cylinder to prevent loss by radiation or condensation.

The third was, to combine and make the whole a *mechanically and scientifically correct machine;* all its parts being provided with means to take up lost motion, so that it may be used for any number of years, and always run smoothly. In all these particulars as much care has been taken as in the largest and most perfect engine ever constructed.

The result is—THE GREATEST AMOUNT OF POWER PROPORTIONED TO THE AMOUNT OF FUEL CONSUMED, combining the facts—well known to men of science—*that water is the best medium to transmit the mechanical forces, generated in the combustion of fuel, to the production of motive power.*

Machinery for any purpose furnished at Manufacturers' Prices.

Staples' Compound Tar Ointment cures Piles in 24 hours, cures chilblains, chapped hands, sore lips, sore nose; good for all kinds of sores. Price 50 cents per package. The money will be refunded where it fails to give satisfaction.

The University Medicines cure diseases that physicians cannot cure and consequently pronounce them incurable. Catarrh (the mother of consumption), Sore Eyes, Salt Rheum, and many other diseases hitherto considered incurable, readily yield under treatment of the University Medicines. Some of its great cures are of a nature that will not permit certificates to be made public. Such as Spermatorrhœa, the greatest destroyer of humanity on the face of the globe. How many bewail the loss of precious vitality without having the least idea of the cause. Their manhood is daily vanishing, and they are gliding into a state of hopeless decay. Its victims are among all ages, sexes and stations. It is dragging millions yearly to insanity and premature graves. Mothers, be careful whom you let your children associate and sleep with, lest the viper commence the work of destruction before you are aware of its deadly sting. You cannot exercise too much care to guard against this horrid evil. There is not one family in ten exempt from it. Any one can have a book treating on the malady by enclosing a stamp and sending to me for it. Fictitious names can be used if preferable. I have cured over 2000 cases of this life and soul destroying malady within three years in the New England States and Canada. I have invariably found that the foundation of destruction was laid before the victim was old enough to know of its evils. Do not let false modesty stand in the way of treatment before the constitution is ruined.

The blood is the life, and all chronic diseases come from impure blood, either hereditary or contracted. Then how worse than useless it is to attempt a cure without removing the cause, by purifying the blood. If females, afflicted with diseases peculiar to their sex, will understand this natural law, they will never subject themselves to the use of the speculum or to caustic or drastic injections. An ulcer should be treated by keeping the parts clean and cutting off the fountain-head of the disease by purifying the blood, and it cannot be cured in any other way. If any ladies afflicted with this disease will address me by letter or personally, I will put them in a way to treat themselves successfully. Three bottles of the Extract of Cancer Plant will purify the blood more than all the apothecaries and patent medicines in existence.

For the want of room I can present but comparatively few certificates. Any one wanting more testimony can have it by calling on the undersigned and book.

Kill that Mother of Consumption by curing your Catarrh which, with the right treatment is as curable as any other disease. the opinion of all the doctors in the world to the contrary notwithstanding. In addition to hundreds of testimonials of cures, the following is from one of the oldest and most reliable citizens of Portland:

For two years my health has been failing, and after trying the different remedies and doctors without benefit, three weeks ago I called at the University Branch, 250 Congress street. The Doctor told me that Catarrh was the chief cause of my troubles, and he could cure me. My limbs were stiff and bloated, my eyes and throat sore, and my head felt as if I had a raw mill in it. I could not have believed that three weeks could have wrought such a change in me. I am now free from the above troubles. I would say to those that are afflicted, give the medicine a trial and not be scared by the cry of humbug. I received more benefit from it in one week than I ever did from all the doctors and apothecary medicine, in my life.

CHARLES SAWYER, Commission Merchant,
Aug. 1, 1873. — 123 Commercial Street, Portland.

DR. STAPLES—*Dear Sir;* This is to certify that I have suffered with Scrofula on my leg for the last eight years. I have used almost all kinds of medicine I could think of and employed our best physicians all to no benefit. The doctors said they could do no more. I got discouraged and thought I never should get cured, but at last I heard of your University Medicine. Last Fall I sent to you and got it, and after using only four bottles of the Cancer Plant, with the May Apple Pills and Tar Ointment to go with it, I now consider myself entirely cured. I think the medicine is all that it is recommended to be and the best ever before the public. I would advise all suffering with Scrofula to use the University Medicines. Any one wishing any further proof of the benefit that I have received from your medicine I should be happy to answer all questions

Yours respectfully,
MRS. SUSAN CARTER.
Bluehill Falls, Maine, March 2d, 1874.

Ten years ago I found myself greatly annoyed with Catarrh. For seven years it grew worse and finally unfitted me for business. Its ravages extended to my lungs so that I was continually coughing and raising from a half pint to a pint of consumptive matter daily. I was emaciated, my appetite gone, and my physicians told me they could do no more for me. I considered my case about hopeless when I heard of some of the wonderful cures of the University Medicines. I called at the branch office and the doctor told me my case was not hopeless, and I went under his treatment and in three weeks I was a well man. My vigor and strength speedily returned, and in three months I had gained fifty pounds in weight. Three years have elapsed and I have not had the least touch of the disease since. Any one doubting the statement can address me at my residence 119 Congress street, Portland, Maine.

Nov. 10. — A. M. MORGAN.

Some ten months ago I contracted the Southern fever (fever and ague), in South Carolina. After trying several physicians and getting no better I was obliged to give up my vessel and stopped some time in Philadelphia to doctor, all to no benefit. I then came to Portland and put myself under treatment of Dr. Staples. In 48 hours my disease was broken up. In one week I was as well as ever.

CAPT. H. F. DAVIS, Knightsville, C. E.

This may certify that my little girl, five years old, was afflicted with scrofula swellings on the neck, and inflammation (opthalmia) of the eye, and nearly blind. She could not bear the light without great pain. She has been under treatment of the University Medicines about two months and the lunches have all vanished and her eyes are as well as ever.

ARTHUR A. GREEN,
Nov. 10. 1873. — Small Point, Maine.

For twenty years I have suffered with Scrofula and Salt Rheum. My head, back and legs were covered with scaliness of the skin. Have paid out hundreds of dollars to first class physicians without benefit. About four years ago, I put myself under treatment of the University Medicines and was cured in one month, and there has been no eruption since.

STEPHEN C. MUNSEY, Sailmaker,
No. 3 Commercial Wharf, house 27 Chestnut St.
Portland, Nov. 10, 1873.

For several years I have been troubled with Catarrh and Scrofula. About two months ago, my head was a continual rack of pain. My throat and lungs so badly effected that I could scarcely breathe, with a continued cough. My limbs badly swollen. My right knee was twice as large as the left one. I could scarcely move or bear my weight on it. My physicians said they could not help me. In this condition, (without expecting a cure), but hoping for temporary relief, I employed Dr. Staples. In less than 48 hours after applying the Acupuncturator, I could breathe and walk with perfect ease, and I am now perfectly free from the above mentioned troubles.

MISS KATIE MILES.
Cumberland Mills, Mar. 5th, 1874.

For fifty years I have been troubled with Scrofula. Some fifteen years ago a fearful ulcer broke out on my leg. Three months ago it had extended from the ankle joint nearly to the knee. I could not move without pain. In this condition I commenced taking the University Medicines. At first it drove out a fearful humor all over me. In a few days the humor began to subside, and the ulcer is now healed and I feel like a new being.

DR. FLINT'S
QUAKER BITTERS

These celebrated Bitters are composed of choice Roots, Herbs, and Barks, among which are Gentian, Sarsaparilla, Wild Cherry, Dandelion, Juniper, and other berries, and are so prepared as to retain all their medicinal qualities. They invariably cure or greatly relieve the following complaints:* Dyspepsia, Jaundice, Liver Complaint, Loss of Appetite, Headache, Bilious Attacks, Remittent and Intermittent Fevers, Ague, Cold Chills, Rheumatism, Summer Complaints, Piles, Kidney Diseases, Female Difficulties, Lassitude, Low Spirits, General Debility, *and, in fact, everything caused by an impure state of the Blood or deranged condition of Stomach, Liver, or Kidneys. The aged find in the Quaker Bitters a gentle, soothing stimulant, so desirable in their declining years. No one can remain long unwell (unless afflicted with an incurable disease) after taking a few bottles of the Quaker Bitters.
