Home Market Bulletin.

We have received the first issue of a paper bearing the above title, to be published monthly by the Home Market Club, Boston. The "introduction" says:

The primary object of this publication is to enlist ladies, children and suggestions, illustrating the business effects of the spending or withholding of information in regard to what production has done for the welfare of this country. In the end, and by a natural sequence, it will be found to be the better that similar advantages may be expected to come to boys in the future.

Fish and Fishing.

The first salmon of the season was caught in the Androscoggin river May 7.

Two lobsters weighing twenty-eight pounds were recently sent from Sullivan to Boston.

Beauty's Bower.

Where grace and beauty combine at will,
Where cheeks like the rose in June blend with lilies of the vale,
The gift of ragged health bespeaks,
The artist, Nature's handiwork,
Without a flaw, or blemish of sin,
Disguising, hiding, or concealing,
The time-graven on his brow.
Fair maiden, can this be yours?
Yes, if you will but gently with you bear
Ayer's pills, sweet, without sugar,
With them remove the cause of your pain,
Bad blood, sluggish liver, or worse, indigestion.
Then cease to complain of your ills,
Take Ayer's Pills, and be well.
Remember that Ayer's Cherry Pectoral Pills are a sure cure for all skin complaints and diseases of the blood.

Some girls are like half an onion. They have no end of beaux.

"Waggie, dear, do what makes thee
Sulky, and a prickle weak before thee?"
The boy was a woman and when she is sulky, she makes a prickly pear look like a peach. Dr. Pierce's Pleasant Purgative Pellets are the most perfect cathartic, for orders of the stomach, nervous prostration, and similar maladies. As a powerful invigorating tonic they are equal to the best preparations of iron and quinine, and it approaches a marvel in its wonderful and speedy curative effects upon the worst cases of nervous debility, debility, exhaustion, prostration, nervous complaints commonly attributed upon functional and organic disease of the womb. It improves the appetite, and in the matter of flesh and strength it is unsurpassed. Sold by druggists, under a positive guarantee, from the manufacturers, to give satisfaction.

The passenger boys started Monday, hired, Tuesday, drivers. Wednesday.

They "swore like our Army in Flanders."

may be said of many sufferers from sickness, who have discharged their obligations to nature in such inhospitable comfortless quarters, that, etc. The temptation to inebriate a poor consumptive, or to drug a victim of dyspepsia recently procured by the use of Dr. Pierce's Pleasant Pellets, this, again cannot be sufficiently emphasized. Sugar coated, sold everywhere.

Fish are not weighed in their own scales, but the larger fish scales are sold in bulk that way.

After using Ely's Cream Balm two months I was surprised and delighted to find that the light mottle, which was closed up entirely for over twenty years, had disappeared, and I feel like a new man. Ever thankful.—R. B. Cressingham, 275 Sixth St., Brooklyn.

My daughter and myself, great sufferers from catarrh, were cured by Ely's Cream Balm. Mr. Sinney of the firm of Sinney & Sinney, Shoe Manufacturers, Boston.

Breakers Ahead!—What shall we do with our old clothes? Send a correspondent. Starch your paper to fill a long-felt want; you will need them afterward.

In Guy's London Hospital Reports, one patient is reported as having improved under using Compound Extract of Cubeb, for enlargement of the heart, especially the left ventricle, a form of heart cavitary disorder, in which palpitation is the most prominent symptom, to be followed by dropsy, or some other symptom of heart disease. It is the better that similar advantages may be expected to come to boys in the future.

Home Matters.

COMMONPLACE SUGGESTIONS AND USEFUL RECIPES FOR PRACTICAL HOUSEKEEPING.

To restore gilt frames, rub with a sponge moistened with turpentine.

A wine-glass of strong borax water in a pint of raw starch will make collars and cuffs stiff and glossy.

A sprained ankle has been cured in an hour by showering it with hot water, poured from a height of a few feet.

A transparent and elegant French laundry may be made with a mixture of gum arabic, water, and letting it simmer gently over the fire.

When tapering a room a small apartment can be made to appear much larger by being covered with a paper of subdued color without any particular design.

If you wish to keep a sharp knife don't put it in hot grease; stir your potatoes while frying, or turn meat, with a fork or an old ivory knife kept on purpose.

A little turpentine added as oil to cod will wholly and sweeten them without injuring the most delicate dishes. For garments very much soiled, use spoonful of it to water.

After a painful illness of months with cold water plaster, I put it in my oven for the second time. Set in a warm oven for twelve minutes, and they will seem as nice as if freshly baked and more digestible.

Thick brown paper should be laid under carpets if the patent lining is not to be had. It wears much better and prevents the brood of moths, which, however, will sometimes give trouble if salt is sprinkled around the edges when the carpet is laid.

Paper bags, in which many articles are sent from the grocery store, should be saved for use when baking a stove. Slip the hand into one of them and draw the pan out on it, then through with the bags they can be dropped into the stove.

The white of an egg has proved one of the most efficacious remedies for burns. Seven or eight successive applications of this substance soothes the pain and effectually exclude the air, causing the burn to heal without a blister.

Warm bread or cake can be cut without becoming moist and heavy if the knife, a thin, sharp one, is dipped into boiling hot water, wiped quickly, and the bread cut immediately. Care must be taken to have the knife very hot, and the edge of the knife must be quite smooth and free from nicks when the warm stuff is to be cut.

POTATO SALAD.—Take a quart of the dish, boiled potatoes, a small onion, and the whites of a hard-boiled egg. Dressing: Mix together one stand half teaspoonful of salt, two tablespoons melted butter, one and two-spoon mustard, the yolks of two eggs, one teaspoonful of sugar, half a teaspoonful of pepper. Dressing just before serving.

TO PUT CHICKENS WARM FOR TAFFY.—Take one cup of molasses, one tablespoonfull of butter, a teaspoonful of vinegar, put in a kettle, stir constantly it doesn. to burn. When it begins to boil test it by dropping a little in cold water. When it is brittle it is done, pour out on a large well-buttered dish. When cool enough to handle, take a small quantity in the hands, and pull it in a long rope.

TO PUT UP SAUCE.—Boil up the whites of three eggs and the yolks of five with a spoonful of rosewater, add then half five ounces of sifted sugar, and half a pint of cream. Stir then well for twenty minutes or half an hour, and then add half an ounce of caraway seeds and the juices of the flour. Mix the whole together, drop them on oil papers, and bake in moderate oven. Boiled water.

CREAM SCALLOPS.—Take a quart of the dish, boiled potatoes, a small onion, and the whites of a hard-boiled egg. Dressing: Mix together one stand half teaspoonful of salt, two tablespoons melted butter, one and two-spoon mustard, the yolks of two eggs, one teaspoonful of sugar, half a teaspoonful of pepper. Nobody Knows

What I suffered for years from a bad liver and dyspeptic stomach. Life was a burden to me. I could not sleep nor enjoy food. I would advise you to use Ayer's Pills, for they cured me.—LARA DRILL.

Spanish as and like a brick building. It never crumbles and falls to pieces.

Dyspepsia cannot be prevented, but, with the aid of Ayer's Cathartic Pills, the most obstinate form of this disease may be cured. Dyspepsia is the parent of many other diseases, and, if you would escape the train of ills which follow in its wake, take Ayer's Pills.

The Scotch-Irish in America.

The first Scotch-Irish congress in the history of either side of the Atlantic opened at Columbia, Tenn., May 8th, with a large attendance. The object is to organize a permanent Scotch-Irish Association and to inaugurate the collection of data which shall show the influence of the Scotch-Irish race on American civilization. New England does not appear to have been represented, unless perhaps indirectly, although there is much Scotch-Irish blood in this section, and our own city was founded, first settled, and derives its name from this class. The Boston Journal says that the Scotch-Irish element in the United States is most conspicuous and most distinct, perhaps, in the belt of country running from North Carolina westward, and including parts of Virginia, Tennessee, Kentucky and Ohio. Columbia, the location of the congress, is right in the heart of what may not inaptly be called the Scotch-Irish region. But our Northern New England States, particularly New Hampshire, also possess a hardy, intelligent strain of the same sturdy stock among their population. A colony of Presbyterian patriots, most of them, of Ulster county of the North of Ireland, but of Scotch descent, landed at Boston in a fleet of five ships as early as 1718. Receiving grants of land from large owners, in Massachusetts, they parted hardly not into the wilderness and founded communities, not a few of which stand forward in the complacent light of their zeal and perseverance for the patriot cause in the trying years of the Revolution. The town of Londonderry, in Rockingham county, New Hampshire, was a typical Scotch-Irish settlement. Then Londonderry emigrants went on to other points in the Granite State, and to Maine and Vermont, and it imbued many of its native sons, General John Stark and other brilliant officers of the continental army. No history of New England would be complete without an account of the enterprising of the Scotch-Irish colonists who, though not sprung from the same stock as their Puritan neighbors of English descent, always divided them in their devotion to king, and the young republic.

Associations in attendance at the convention were Hon. J. Proctor Knott, Kentucky, Col. Mc Clure of the Philadelphia Times, Dr. John Hall, of New York, Henry M. Grady of the Atlanta Constitution and Senator Vance of North Carolina. The second day there was a reunion of Union and Confederate soldiers of Revolutionary honor, at which Governor John G. Brown of Nashville presented the Confederate one, Congressman Turner the Union soldiers. In his address the latter said:

We have a good deal to be proud of in the pension bill of the United States. Among the soldiers of Revolutionary honor, at which Governor

Death of Hon. Hiram Ruggles.

We regret to announce this morning, as the wide circle of friends will regret to learn of, the death of Hon. Hiram Ruggles, which occurred last evening at half past nine o'clock, after a prolonged illness. Mr. Ruggles was a man whose rare qualities of heart and head won for him a place in the regards of the people second to no man in the State and his death will be most truly and sincerely mourned. He was seventy-five years of age. He leaves a widow who will receive the sincere sympathies of her and his many friends. His remains will be taken to Carmel, his old home, for interment. Monday's Bangor Whig.

Mr. Ruggles was well known in this vicinity, having long been identified with the Newport Camp Ground, of which he was superintendent until last year, when failing health compelled him to resign the position. He will be missed by many here and elsewhere.

An Interview With Congressman Milliken.

Washington, May 16, "I am going home to Maine as soon as this heated spell is over," said Congressman Milliken, to the Herald correspondent to-day. "I have got about everything I have asked for done for me. I am going back to see my constituents and be seen at home that may they wish. Our New Hampshire friends are anxious for me to come over there. At present only one, I have engaged to speak at Wakefield, in Carroll county, instead of Milton, as I had at first intended. Mr. Tripp was the predecessor of the gentleman from Portland. He was re-elected to Congress, but died before the time came for him to qualify. Mr. Tripp's friends thought he had a right to the nomination, and he was nominated and elected. I am thoroughly satisfied."

NOT A PIMPLE ON HIM NOW.

Bad with Eczema. Hair all gone. Scalp covered with eruptions. Thought his hair would never grow. Cured by Cuticura Remedies. Hair splendid and not a pimple on him.

I cannot say enough in praise of the CUTICURA REMEDIES. My boy, when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctors said was scald head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the CUTICURA REMEDIES, and I am happy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the CUTICURA REMEDIES to mothers as the most speedy, economical, and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing. Mrs. M. E. WOODSUM, Norway, Me.

A Fever Sore Eight Years Cured.

I could extend to you the thanks of one of my customers, who has been cured by using the CUTICURA REMEDIES, of an old sore, caused by a long spell of sickness or fever eight years ago. He was so bad he thought he would have to have his leg amputated, but is happy to say he is now entirely well,—sound as a dollar. He requests me to use his name, which is H. H. CASON, merchant of this place. JOHN V. MINOR, Druggist. Gainsboro, Tenn.

Severe Scalp Disease Cured.

A few weeks ago my wife suffered very much from a cutaneous disease of the scalp, and received no relief from the various remedies she used until she tried CUTICURA. The disease promptly yielded to this treatment, and in a short while she was entirely well. There has been no return of the disease, and CUTICURA Cake No. 1 is our estimation for diseases of the skin.
REV. L. RESSLER EARNETT, D. D., Baltimore, Md.

Cuticura Remedies

Are a positive cure for every form of skin, scalp, and blood disease, from Pimples to Scrofula, except possibly leprosy.
Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.
Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

Sufferers

FROM Stomach and Liver derangements—Dyspepsia, Biliousness, Sick-Headache, and Constipation—find a safe and certain relief in Ayer's Pills. Small doses only are needed, the pleasant cathartic effect being lasting and invigorating.

Dr. T. F. Eastings, of Pittsburg, says: "Ayer's Pills are the best of all cathartics for general use in families."

"For a much-tried family medicine, we find Ayer's Pills unrivalled. I have used them in my family for years, and have never yet met with a case they did not relieve promptly and permanently."—Dr. J. M. Bigelow, Galveston, Texas.

"Ayer's Pills are the best cathartic we have used in our family practice of over forty years."—Dr. Geo. W. Trentman, 2 East Second st., Cincinnati, O.

"I have used Ayer's Pills for the past twenty years, and am satisfied I should not be able to do my work without them. They are the best cathartic I know of, and I take pleasure in recommending them to my friends."—Dr. W. Leffingwell, Galena, Ill.

"Ever since I was a boy I have used Ayer's Pills whenever I needed a cathartic medicine, and they have never failed to do their work."—Dr. T. P. Brown, Chester, Pa.

"During I have used Ayer's Pills in my practice, and have found them a safe and reliable cathartic for my patients."—Dr. W. Tomlinson, 2 East Second st., Cincinnati, O.

"I have used Ayer's Pills for many years, and have found them the best cathartic in use. Being a physician, I prescribe them in my family and among my patients, and they give perfect satisfaction."—Dr. J. Wandelling, Scranton, Pa.

"I have used Ayer's Pills for the past twenty years, and have satisfied I should not be able to do my work without them. Being a physician, I am frequently called upon to prescribe a cathartic, and Ayer's Pills are those I prefer. They are the best cathartic I know of, and I know from experience that they do their work well."—G. W. Trentman, 2 East Second st., Cincinnati, O.

"Ever since Ayer's Pills were introduced I have used them in my family, and have found them a safe and reliable cathartic. I have also used them in my practice, and have found them to be perfectly reliable in their action. I do not hesitate to recommend them to the public as the best cathartic pill with which I am acquainted."—Dr. J. Wandelling, Scranton, Pa.

The Way They Kiss in Franklin County.

Adapted by the Phillips Photographic from a Kodaskill Graphic.

The Farmington girl shows her early breeding
And lines her a-quiver
In firm, hard way, and then proceeds
To smack the little chaps.

The Weld girl rests with her spoons,
And then turn her low with a smile,
And size sticks out her lips like a pair of tongs
And chews her gum meanwhile.

The Kingfield girl says never a word,
And would think her was rather silly
Whether practice or no, she makes no bones
But she gets there just the same.

The Rangeley girl, the pride of the woods,
In her clinging and soulful style,
Absorbs it with a prolonged inspiration
As big as a bass drum.

The Wilton girl, with a crimson crucifix
As she reverently takes off her hat,
Then she grabs at the prize in a fearful way,
Like a ferrier snatches a rat.

The Strong girl, so gentle and sweet,
Listlessly lets the boys have their way,
With a rapturous warmth, as the Jumbo-bee
Flounts away on a rose of May.

We have sung your song of the girls who kiss,
And it sets one's heart a-warbling
But to do the subject right it really lies
You must have a Phillips girl.

With your arms around her waist, her head upturned
In a sweet, coquettish way,
You can't but wonder if she alone was worth,
Though the winds through your air will serve play.

And closer together your lips you draw,
Till they meet in a rapturous gloat,
And the small boy, hidden behind the lilac
Cries: "Gallagher, let her go!"

SONG OF THE SOON.

Soon the sun-skin and hen will be in our reach,
And we'll have some delicious eggs, sez I,

The May Magazines.

The Home Maker has already made a home for itself in many a family circle, and each succeeding issue is warmly welcomed. With Marion Harland at the helm success was assured.

The Cosmopolitan is making steady strides forward, and, except in size, is equal in all respects to the older monthlies. It is publishing articles of decided merit, and its illustrations are good as the best. The May number is one of unusual excellence.

A series of articles on Samoa appear in the May number of The Century. They are written by Dr. Whitaker, of the United States Navy, who recently visited the Islands; by Mr. George H. Bates, the commissioner sent to Samoa in 1885, and since this article was actually written has been called on the Commission appointed by the present Administration and by Captain Henry Leiber, who took the Emperor to Samoa with Standerger on board. The subject is profusely illustrated with magnificent views of the islands, and in addition to the articles given several letters from the Talauma, or governing chiefs of Samoa.

A new serial story, by Edwin Lassetter Bynner, opens the Atlantic Monthly for May. It is entitled "Dr. Lamb's Daughter," the scene of the novel is laid in old New York, and some of the familiar Knickerbocker names appear in it. It is a new field for modern fiction, and a good one. This is followed by a paper on "Temperance Legislation, its Uses and Limits," particularly necessary to be just at present, written by Charles Worcester Clark. Mr. Fiske contributes one of his valuable historical papers on "Brandywine, Germantown, and Saratoga." Mr. W. D. Howells writes a graphic sketch of "The Paris Exposition in Dishdaffe," giving its appearance while the buildings were just being completed. He also discusses the Eiffel Tower, the great landmark of the Exhibition. An amusing article on "The Philosophy and Poetry of Tears" is contributed by J. T. L. Preston; Mr. Frank Gaylord Cook writes about "The Lawyer in National Politics," and reminiscences of famous "Trotting Horses" are given by H. C. Merwin. Josiah Royce contributes the first of two papers on "Reflections after a Wandering Life in Australasia;" another paper of a similar kind, also bearing on the world travel, is "At Sesenheim," by Miss Perry; Sesenheim is the place not far from Strasburg where Goethe wooed, won, and ran away from Frederike. The short story of the number is contributed by Elizabeth Stuart Phelps, and is called "The Bell of St. Basil's,"—a pathetic episode in the history of a deserted Southern college; while Mr. James continues his novel "The Tragic Muse" with his usual art. For poetry we have some extremely bright verses, called "A Marvellous Americaine, 1795 1885," from Frank Dempster Sherman, but a poem on Omar Khayyam (in allusion to Fitzgerald and "Palladis") by a poet brought to Book," has all the grace of lines by T. B. Aldrich, although signed only by the initials T. B. A. Reviews of Morley's Correspondence, etc., and the usual Departments close the number. Houghton, Mifflin & Co., Boston.

Free Ships.

In 1880, 1881 there was a craze in Great Britain for shipbuilding. There was more tonnage on the ocean than could be profitably employed. All ships were tending to depreciation in value. Many ships were laid up in European ports wasting with rust. An Anglo-American lobby belonged to Congress for free ships. The clauses in the American navigation laws which prevent ships built by foreigners from sailing under the American flag or ships owned by foreigners from sailing between two American ports are still intact. English ship-builders would be pleased to build our ships as well as English ship-owners to do our coasting trade, for us. From 1881 to 1886 the carrying trade on the ocean was done at less than cost, entailing heavy losses on shipowners in addition to a large depreciation in the value of their ships. The wreckage, too, was so prodigious that Parliament spent months in an inquiry to find out whether most of the wreckage was not facilitated by discreet negligence in order to convert the ships into claims on the insurance companies.

The United States for many years built wooden ships for foreign buyers. Timber there was, and is, cheaper than in Europe, although labor was, and is, dearer. Sailors' wages are dearer here than there; food supplies are cheaper here than there, as are most naval stores. The wooden ship, it is still claimed, will run longer than iron or steel ships. [American Economist.

If the liver and kidneys are sluggish and inactive, Hood's Sarsaparilla will arouse them to prompt and regular action. Take it now.

Many persons who cross the ocean for the first time pronounce it a very swell affair.

Dr. T. Heman Brehmer, an eminent German authority, says: "Consumption is always due to deficient nutrition of the lungs, caused by bad blood." At the Brompton Hospital for consumptives, London, Eng., a statement has been published that 52 per cent. of the patients of that institution have unsuspected kidney disorder. This explains why the proprietors of Warner's Safe Cure claim that they have received many testimonials which they have not published, because of the incredulity with which they would be received were it claimed that Warner's Safe Cure cures consumption. But the fact is that if your kidneys be cured and put in a healthy condition they expel the uric acid and poisonous waste matter, and prevent the irritation of the delicate substances of the lungs, thereby removing the cause. When the effect is removed the symptom of kidney disease, which is called consumption, disappears, and with it the irritation which caused it.

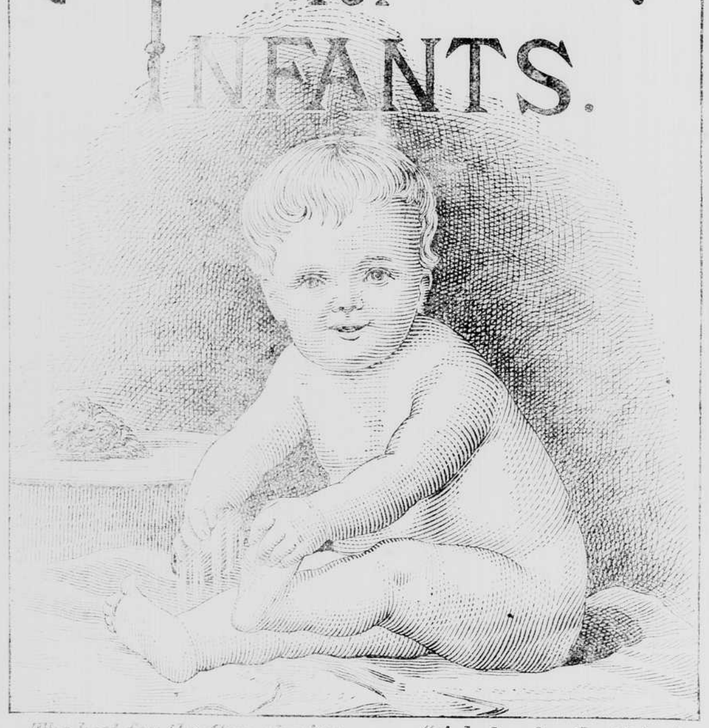
The new British Minister to this country is six feet four inches in stature. He comes high but we must have him.

Is It Safe

To neglect yourself if troubled with any disease of the kidneys? No, it is dangerous; and if you are so afflicted, attend to yourself now. Do not wait, but use Sulphur Bitters at once. They cured me when I was given up to die by several physicians.—JONATHAN HAM, Boston. 2w20

PEARS SOAP

A SPECIALTY for INFANTS.



The best for the Complexion. . . "A balm for the Skin."
The most economical, it wears to thinness of a wafer.

IMPURE BLOOD WILL CAUSE

SCROFULA.

SYMPTOMS.
Swollen Glands, Enlarged Joints, Thick Lips, Inflamed Eyelids, Tumors, Abscesses, Enlarged Neck, Pale Complexion, Wasting of Flesh, Soft Muscles, etc.

The taint of Scrofula exists in the blood of nearly every person. It is developed not only by the hereditary diseases, lack of pure air, good food, and close confinement, but also by the use of impure water, or by the decomposed vegetable matter in the water, which is so prevalent in many localities. Some times these swellings discharge an offensive matter, but healing and often in healing leave an ugly scar.

If glands in other parts of the body become red and swollen, in some persons the skin will become red and inflamed. No disease needs to be more feared than Scrofula, for it is the cause of many diseases of the lungs and liver, and frequently causes death. **Ingalls' Vigorine** is invaluable in purifying the blood, invigorating the system, and thus curing it the better to resist disease. TO REMOVE WHICH, USE

INGALLS' VIGORINE

It purifies the blood, tones up the system, cures Scrofulous disease, and relieves that tired feeling.

RHEUMATISM AND NEURALGIA

These twin diseases, though distinct in name, are so closely allied in their origin and nature that they are treated with the same remedy. Nothing else has been so successful in curing them as Paine's Celery Compound. Long experience in treating these diseases has enabled the manufacturer of Paine's Celery Compound to put into that preparation the very elements needed to cure these diseases.

I suffered with Rheumatism for years, and was so crippled that I was confined to my room for six weeks. I was induced to try Paine's Celery Compound, and was perfectly cured by the use of three bottles. I can now walk as well as ever. I owe my life to Paine's Celery Compound, and will gladly recommend it to all my friends.

A Rare Chance!

A small farm for sale in Belfast, city side Waldo Avenue, a beautiful location, about 12 minutes walk from the business part of the city. A 1½ story house with nine rooms, and a stable in good repair. About 3½ acres of land, 3 acres of cultivated cranberries, Cape Cod vines, about 25 rods from the house, nearly in full bearing, yielding 200 to 300 bushels per year. Apple, pear, plum and cherry trees, also a fine lot of cultivated strawberries, and an asparagus bed, 10 hives of bees, all in winter hives. This property will be sold at a bargain. The net income of the place will pay interest on double the amount for which the place will be sold. A fine chance for raising small fruit and early vegetables. My cause for selling is lameness and inability to take care of the place. For further particulars address McDONALD & BROWN, or apply on the premises to W. H. BROWN.

DYSPEPSIA HAD TO GO.

"My mother is now 72 years of age, and has lived with me for some years. For a long time she has been afflicted with general debility and dyspepsia, of a very serious nature. She was unable to work and obliged to exercise the greatest care in the selection of her diet, having tried many remedies with little or no relief. She was in this condition when she commenced the use of Dana's Sarsaparilla, and received the most beneficial results. For more than a year she has been WELL, able to work, eat now drink coffee, eat hot biscuit, and, in fact, use most any article of food. Dana's Sarsaparilla has been a blessing to her, and I consider it a Remedy of undoubted merit."
CAPT. ANSEL WADSWORTH,
Sheriff of Waldo County, Me.

BRIGHT'S DISEASE CURED.

For nine years have been a great sufferer from Kidney trouble. Several prominent physicians upon examination pronounced it Bright's Disease, and supposed it to be incurable from disease, but without relief. I was nearly worn out, had all the symptoms, appetite poor, pain through my kidneys, would frequently have to pass my water 12 or 15 times a night. I became so low that I thought I would by nothing else. At this time Dana's Sarsaparilla was brought to my notice. Before a third bottle had been taken I could feel better. Three bottles has put me in good health, and I have no trouble with my kidneys. I would recommend Dana's Sarsaparilla to all afflicted with kidney troubles. CHARLES G. PERRY,
Waterville.
