Mary B. Anderson, Publication Coordinator

PUBLIC INFORMATION OFFICER

Stephen McCausland

MANAGEMENT INFORMATION SERVICES

Wayne E. Gallant, Director
Richard Pellegrino, Senior Programmer Analyst

The UCR Program is grateful for the continued support and cooperation from all submitting agencies, Maine Chiefs of Police Association and the Maine Sheriffs Association. We would also like to thank the University of Southern Maine, the Muskie School, and Josephine LaPlante, Associate Professor and Director of Maine Crime & Justice Data Connection, for all their efforts to ensure the accuracy of this publication.

This publication is issued by the Maine Department of Public Safety, Maine State Police, as authorized by MRSA Title 25, §1544, to inform the Governor, Legislature and law enforcement agencies of the nature and extent of crime in the State of Maine. "Printed under appropriation No. 012 16A 925B 012."

Honorable Angus S. King, Jr.
Governor, State of Maine
State House Station #1
Augusta, ME 04333-0001

Dear Governor King:

It is my privilege to present you and the members of the Legislature with "1999 Crime in Maine Annual Report" pursuant to section 1544 of Title 25 of the Maine Revised Statutes Annotated.

This report contains crime statistics which were compiled by the State Police in conformance with the Uniform Crime Reporting Program. The compilation results from the cooperative collection and submission efforts of more than 150 municipal, county and state law enforcement agencies in Maine.

Uniform Crime Reporting data provides law enforcement administrators, lawmakers, special interest groups and the general public with valuable information which facilitates informed decisions effecting public policy in the areas of law enforcement and crime prevention.

This publication is made possible through the continuous assistance and support of Maine's police chiefs and sheriffs. We are sincerely grateful for their participation in this valuable program.

Sincerely,

A handwritten signature in black ink, appearing to read "Col. Michael R. Sperry".

COLONEL MICHAEL R. SPERRY
Chief

DEDICATION

This publication is dedicated to Maine's fallen heroes, the 77 police officers who have died in the line of duty. Their names are engraved in granite on the Maine Law Enforcement Officer's Memorial in Augusta, next to the State House. The memorial was dedicated on May 25, 1991, following a fund-raising effort by the Maine Chiefs of Police Association. Uniform Crime Reporting assisted that effort by providing historical research on each officer.

Three individuals were added this year to the list of fallen officers: Glenn Strange, James P. Robbins, and Charles R. Baker, Sr. The Maine Uniform Crime Reporting Program joins the criminal justice community in the state of Maine in extending sincere sympathy to the families of these law enforcement officers killed in the line of duty in Maine's history.

CRIME IN MAINE 1999 — HIGHLIGHTS

During 1999 the crime clock average in Maine reflected the following:

VIOLENT CRIMES: 1 every 6 hours, 50 minutes 1 Murder every 14 days, 14 hours, 24 minutes
1 Rape every 32 hours, 5 minutes
1 Robbery every 44 hours, 42 minutes
1 Aggravated Assault every 11 hours, 6 minutes

PROPERTY CRIMES: 1 every 15 minutes, 10 seconds 1 Burglary every 68 minutes, 57 seconds
1 Larceny every 20 minutes, 43 seconds
1 Motor Vehicle Theft every 6 hours, 1 minute
1 Arson every 44 hours, 15 minutes

CRIME RATE The Crime Rate is based on the occurrence of an Index Offense per 1,000 residents of the state. Local and county rates are based on their individual populations. The State Crime Rate for 1999 was 29.10 per 1,000. The comparable rate for 1998 was 30.81. The 1999 state population is estimated at 1,235,000 persons.

INDEX OFFENSES There were 35,941 Index Offenses reported by police during 1999 — a decrease of 2,112 offenses (5.6%) from the 38,053 similar offenses reported in 1998.

VIOLENT CRIMES Murder, Rape, Robbery and Aggravated Assault make up the Violent Crimes category. Violent crimes as a group decreased by 287 offenses from 1998 for an 18.3% decrease. During 1999 violent crimes totaled 1,283, compared to a 1998 total of 1,570. Violent crimes accounted for 3.6% of all reported index crimes (4.1% in 1998) and represent a crime rate of 1.04 per 1,000 population.

PROPERTY CRIMES Property Crimes, consisting of Burglary, Larceny, Motor Vehicle Theft and Arson, fell in 1999 by 1,825 offenses (5.0%) from 1998. There were 34,658 offenses reported in 1999 with 36,483 being shown for 1998. Property crimes account for 96.4% of all index crimes with a crime rate of 28.06 offenses per 1,000 population.

MURDER There were 25 murders committed in Maine during 1999 — down by 1 (3.8%) from the 26 murders reported in 1998. Law enforcement cleared 24 murders this year. Maine's 10-year average is 24 homicides annually.

RAPE	Forcible Rapes increased by 44 reported offenses during 1999. There were 229 offenses reported to police in 1998, compared to 273 in 1999. Of the total, 245 were actual rapes, while 28 were classified as attempts to commit forcible rape.
ROBBERY	Robberies decreased by 25.5% (67 offenses) during 1999, from 263 in 1998 to 196 in 1999.
AGGRAVATED ASSAULT	Law enforcement reported 789 Aggravated Assaults during 1999, a decrease of 25.0% from the 1998 figure of 1,052. Simple assaults (a non-index crime) increased by 2.3% during 1999 with 10,539 offenses reported.
DOMESTIC VIOLENCE	All offenses of assault between family or household members are reported as Domestic Assault and account for 35.2% of all assaults. During 1999 police reported 3,986 offenses, an increase of 131 (3.4%) from the 3,855 offenses reported in 1998.
BURGLARY	The number of Burglaries during 1999 fell by 8.2% compared with those in 1998. There was a decrease of 678 from the 1998 total of 8,300. The 7,622 burglaries reported statewide resulted in property loss totaling \$5,894,134. Burglaries represent 21.2% of all reported index offenses.
LARCENY-THEFT	The crime of Larceny decreased during 1999 by 4.1% from the 26,464 larceny offenses reported in 1998. Police reported 25,381 larceny crimes during 1999. Shoplifting decreased 5.4% and thefts from motor vehicles decreased 4.3% for 37.2% of all larceny crimes reported.
MOTOR VEHICLE THEFT	Motor Vehicle Theft registered a decrease of 60 offenses during 1999, from 1,517 in 1998 to 1,457. A high of 2,764 motor vehicles were reported stolen during 1978.
ARSON	The crime of Arson was added to the list of reportable index crimes in 1980. During 1999 there were 198 arsons reported, down 4 (2.0%) from the 202 arsons reported for 1998. Estimated property loss caused by arson totaled nearly \$1.2 million during 1999 — down 47.2%.
HATE CRIME	Beginning in 1992, Hate Crime was added as a new reporting requirement. During 1999, police reported 22 incidents involving 24 victims and resulting in a total of 25 offenses.
STOLEN/RECOVERED PROPERTY	During 1999 law enforcement agencies recorded \$24,635,862 worth of property stolen during the commission of index crimes — an increase of 3.6% from the \$23,785,312 stolen during 1998. Police were able to recover 35.1% (\$8,658,459) of stolen property during 1999.

CLEARANCE RATE	Law enforcement agencies cleared 29.1% of all index crimes in 1999 — compared to 28.1% in 1998.
ARRESTS	The total number of persons arrested, summoned or cited by police, including juveniles and adults, was 56,247 — a decrease of 2.0% from the 57,374 persons recorded in 1998. Drug arrests decreased 3.1% with 3,819 adults and 675 juveniles charged with drug offenses.
OFFICER ASSAULTS	There were 175 assaults on law enforcement officers in 1999, a 29.1% decrease from the 1998 figure of 247.
POLICE EMPLOYMENT DATA	Statewide there were 2,163 full-time sworn law enforcement officers representing a ratio of 1.73 officers per 1,000 population. Nationally the average rate per 1,000 is 2.5.
TRENDS	The chart on the following pages shows the 10-year trend data for the index crimes recorded by Uniform Crime Reporting. Shown are the number of offenses, the crime rate per 1,000 residents of Maine, the percent cleared in Maine, the national crime rate per 1,000, and the percent change in the number of reported offenses in Maine.

INTRODUCTION

The Uniform Crime Reporting (UCR) Program is a nationwide cooperative effort of over 16,000 city, county and state law enforcement agencies voluntarily reporting data on crime brought to their attention. The monthly contributions of Maine's 150 law enforcement agencies represent the initial step in establishing an efficient statewide criminal justice information system (CJIS). Ideally, the UCR data will eventually merge with that of the other major components of the criminal justice system (i.e., prosecutors, courts, corrections) to form an integrated system for the exchange of vital management information. The availability of such data will allow for the provision of complete and timely criminal histories of offenders and their progress through the criminal justice system.

Since July 1973, the State Police have administered the program as a statewide, uniform method of collecting statistics on crime as it is reported to law enforcement and producing a reliable set of criminal statistics for use in law enforcement administration, operation and management. Additionally, Maine's statistics are forwarded monthly to the Federal Bureau of Investigation for inclusion in the annual Crime in the U.S. Report.

Over the years the UCR data has become one of Maine's and America's leading social indicators. Maine's citizens look to UCR as the primary information source on the nature and extent of crime, while criminologists, sociologists, legislators, state and local planners, the media and academicians use the statistics for wide and varied research and planning purposes.

NATIONAL UCR REPORTING SYSTEM

During the 1920s the members of the International Association of Chiefs of Police formed the Committee on Uniform Crime Reporting with the intent to develop a standardized system of police statistics.

After much studying of state criminal codes nationwide and the methods of bookkeeping, the committee completed a reporting plan which identified seven basic offense definitions and data requirements.

In January of 1930, 400 cities representing 20 million inhabitants in 43 states began participating in the UCR program. In that same year Congress authorized the Attorney General to gather crime information. He in turn designated the FBI to serve as the national clearinghouse for the collection of crime statistics.

Since that time the FBI has continued to serve as the coordinator for the UCR program, which has since grown to a system representing over 16,000 municipal, county and state law enforcement agencies voluntarily reporting data on crimes brought to their attention.

The National Sheriffs Association in June of 1966 established a Committee on UCR, serving in joint capacity with the IACP UCR committee in an advisory capacity, to

encourage sheriffs throughout the country to participate in UCR. In 1979 a congressional mandate made Arson the eighth Part I Index offense in the UCR program.

For over 62 years the UCR program virtually remained unchanged in terms of the amount and type of data collected and disseminated. By the 1980s it had become obvious the nature of modern-day law enforcement had outstripped the utilization of UCR system and was in need of a thorough evaluation.

Commencing in 1982 the FBI and the Bureau of Justice Statistics (BJS) began a joint venture to formulate a phased-in redesign effort intent upon meeting the needs of law enforcement into the 21st century. Utilizing the services of Abt Associates of Cambridge, Massachusetts, the joint steering committee produced a draft report entitled *Blueprint for the Future of the Uniform Crime Reporting Program*.

Based on the recommendations of their 1985 report, the FBI and BJS have proceeded to implement significant revisions to the UCR system to include:

- the addition of significant new offenses
- increased information on victims, offenders, arrestees
- improved quality control
- expanded user services

The major point of revision is the change from a summary-based reporting program to incident-based reporting where information on each offense, offender, victim, and arrestee is linked by a common incident number.

Based on the success of a recent pilot project in South Carolina, the FBI released the final data elements and offense specifications in July, 1988. At that time Maine and other state programs commenced a careful implementation of the enhanced program, now known as the National Incident Based Reporting System (NIBRS).

Due to the increased reporting requirements of the new program, the FBI is encouraging a phased-in transition where law enforcement agencies will be able to adopt the new program as they acquire the data-processing capabilities. It is anticipated that many states will be operating a dual collection program with some departments reporting under summary-based guidelines while others with automated records systems will make a quick transition.

MAINE UCR PROGRAM DEVELOPMENT

The Maine UCR Program started July 15, 1973, as a module of the Comprehensive Data System Program. It was originally funded by LEAA Discretionary Grant No. 74-DF-01-0001 to the Maine Criminal Justice Planning and Assistance Agency with the State Bureau of Identification, Bureau of State Police, as the implementing subgrantee.

One year was spent researching and developing the reporting system. The staff was selected, the project researched; a manual was designed and printed; 250 people were trained in regional seminars; standard arrest sheets

and complaint sheets were developed; all reporting forms were designed and printed; staff visits to all operational departments were made; and all objectives of the original grant were completed.

On July 1, 1974, the Maine UCR system was certified as operational by Director Clarence Kelly of the FBI, and Maine became the 22nd state to have a Uniform Crime Reporting System. Forty-one states have state-level Uniform Crime Reporting systems acting as effective intermediaries between the FBI and local contributors.

The success of this program is directly related to the interest and cooperation of the Maine contributors. Indicative of the cooperation is a 100 percent reporting record for all communities with organized departments, the county sheriffs' departments, who are reporting 100 percent, and the state police by county areas. The result is a complete statewide coverage of crime statistics under supervised rules and controls to insure the integrity of the program.

Crime in Maine July–December, 1974 was our first publication. This year we are publishing our twenty-fifth publication. All publications have been well received, and the accumulated information becomes more valuable and widely used each year. *Crime in Maine 1999* itself is a product of new technology utilizing modern desktop publishing software and laser printing to enhance the quality of the print and graphics. Subsequent issues of this report can be quickly produced by maintaining the format and updating it with the new year's data.

Due to problems of abuse and domestic violence between family or household members, the 109th Maine Legislature enacted a law entitled "An Act Concerning Abuse between Household and Family Members." The law, Chapter 578 of the Public Laws of 1979, mandates the reporting of domestic violence data by law enforcement agencies and the collection of such data (Title 19, § 770 [1]) by the Uniform Crime Reporting Unit, State Bureau of Identification, Department of Public Safety. The analysis of 1999 domestic violence is displayed starting on page 32 of this report.

Commencing January 1, 1992, Maine law enforcement agencies began collecting and reporting Hate/Bias crimes as part of the Uniform Crime Reporting System. Reporting is via the submission of specialized supplemental report forms which capture detailed information concerning the offense(s), victim and offender, and circumstances surrounding the incident. The analysis of 1999 hate/bias crime is displayed starting on page 42 of this report.

During 1999, the State Fire Marshal's Office continued direct reporting of arson incidents via the monthly UCR report forms. This effort helped to validate the complete and accurate reporting of all arsons as identified by law enforcement agencies each month.

During the year the UCR Program was represented during guest lectures at the University of Southern Maine's Criminology Program. The UCR supervisor continues to actively participate in the Maine Chiefs of Police Association through his role as Chairman of the Technical Services Committee and as a member of the Law Enforcement

Memorial Committee.

During 1999, the Maine Department of Public Safety continued its automation efforts towards the creation of the state-wide integrated management information system referred to as MCJUSTIS (Maine Criminal Justice Information System). Following the completion of the UCR program's high level design specifications for the FBI's new National Incident-Based Reporting System (NIBRS), Maine identified a software vendor capable of delivering a NIBRS-compliant repository package. During 1999 the UCR staff evaluated the software's ability to allow local law enforcement contributors to submit the expanded crime data to the state program via electronic media. Concurrent with the software testing and evaluation, UCR staff also designed and piloted prototype police field report forms capable of capturing all data necessary for participation in NIBRS reporting.

Once fully operational, the new software will give the UCR staff greater access to the data, provide faster processing of inquiries for information, and generate the more sophisticated analytical reports that today's modern law enforcement executives require.

CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of Maine and represent a spectrum of Maine crime on state-wide, regional, and county levels. Awareness of the presence of certain crime statistics presented is necessary if fair and equitable conclusions are to be drawn. These crime-influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime developments of the community. Comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role as to its suppression and detection, as stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime in a Free Society" (1967 — Page 92):

"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."

Set forth below are some of the conditions which will,

by type and volume, affect the crime that occurs from place to place:

- Density and size of the community population and the degree of urbanization in the surrounding area.
- Compositions of the population with reference particularly to youth concentration.
- Economic status of the population, median income and job availability.
- Relative stability of the population, including commuters, seasonal, and other transient types.
- Modes of transportation and highway systems in the area.
- Climate, including seasonal weather conditions.
- Cultural conditions such as educational, recreational, and religious characteristics.
- Standards governing appointments to the police force.
- Policies of the prosecuting officials, the courts, correctional and probation/parole officials.
- Effective strength of law enforcement agencies.
- Attitude of the public toward reporting crime and participation in the prosecution of the offenders.
- The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime-reporting standards.
- Organization and cooperation of adjoining and overlapping police jurisdictions.

The main goal of this program is to identify crime and related problems. The statistics in this publication should not be used to measure or evaluate the workloads and results of the individual contributing departments. While most police agencies are collectively thought of as crime-fighting units, considerable independent research shows only a small portion of the workload of many departments is spent fighting crime. Because of other assigned duties, the peculiar cycle of crime and clearances, and the different community factors that normally affect crime statistics, no conclusions on individual departments should be reached without consulting their in-house duties and records.

Crime rates in this publication are based on the stable population of the community. Seasonal population figures are too inaccurate and fluctuating to be used as a measurement for determining crime rates. Communities with extra high seasonal populations may show a higher crime rate per thousand than might be normal for a community their size.

This should not impair the ability of the police administrator from using this standard measure for planning and administrative purposes as data is available to him on a monthly basis and months of population influx can be taken into consideration.

UCR POTENTIAL USES

The Maine program was unique from the beginning, as it was dedicated to doing more than just gathering statistics. The program received national recognition when indi-

vidual monthly crime profiles were developed by computer for all contributors. These crime profiles set the stage for extensive use of the data by police administrators and other criminal justice agencies.

This brings us to the question — *what good are Uniform Crime reports and how may they be used?* The initial thought response is limited, but as the information unfolds many various uses are revealed. Foremost is keeping the public informed as to the volume and nature of crime so they may judge and act accordingly.

Actually, UCR is a many-faceted vehicle with many varied uses. Here are a few, but by no means all, of the possible uses as they relate to various groups and agencies.

I. Contributors

Administrative information relating to:

1. Budget — need and justification.
2. Staffing — number needed as to state average employees vs. population and crime rate.
3. Department makeup — Laboratory, Detective Division, Juvenile Officers, as related to particular crime problems in the community.
4. Problem crimes identified.
5. Disbursement of personnel and shifts according to the crime picture of the individual communities. In cases of State Police and sheriffs with concurrent jurisdiction, placement according to need and avoiding duplication of services.
6. Training needs — training according to crime problems in the areas of priority.
7. Equipment purchase — according to justified need.
8. Selective enforcement by crime volume as identified by particular times and seasons through UCR information.
9. Community crime profiles identifying particular problems.
10. Long-range planning as anticipated by crime trends.

II. Governor and Legislature

1. Broad true picture of crime in Maine by location, volume, type and crime rate as derived from records of all enforcement agencies.
2. Guide to valid funding needs of special-interest groups and their requests for same.
3. Need for additional or less specialized type programs.
4. Identification of crime trends and their relation to training, courts, corrections and other criminal justice agencies.
5. Identification of various social problems relating to drugs, alcohol, juveniles and rehabilitation.
6. Effectiveness of various social programs relating to the above.

III. Courts — prosecution

1. Valuable general research information in crimes within the areas being served.

-
2. Crime trend information
 3. Identifies problem crimes to be considered in the prosecution or judicial process.

IV. Press

A factual source for use in reporting crime problems and socially related problems.

V. Social Agencies

1. Identifies problem areas on which to concentrate.
2. Some basis for general evaluating of the effectiveness of their programs.

VI. Educational Institutions (for various studies)

These are but a few possible uses, and surely many more exist. The broader the base data accumulated, the clearer the value of UCR will become. If effective problem-solving begins with the identification of the problem, then UCR will continue to be meaningful for years to come.

Interestingly enough, the by-products of a Maine UCR system have proven nearly as valuable as the information obtained from it.

It has served as a catalyst for many departments to set up realistic record systems for the first time and to institute upgrading of records in many others.

Administrators on the Chief and City Manager level have been taking a new look at their police departments, and as a result internal operational changes have taken place.

An awareness among subordinate personnel that their reports and arrests are being used, and not just filed, has resulted in better and more comprehensive reporting.

Finally, the periodic release of this crime information to the general public keeps the crime problem in its proper perspective.

OBJECTIVES OF UNIFORM CRIME REPORTING

The fundamental objective of the Uniform Crime Reporting Program is to produce a reliable set of criminal statistics on a state and national basis for use in law enforcement administration, operation and management. This compiled data is also intended for the use of other professionals and scholars who have an interest in the crime problem. At the same time, this information is important as a reference source for the general public as an indicator of the crime factor in our society.

The objectives of the Maine Uniform Crime Reporting Program are:

1. Inform the governor, legislature, other governmental officials and the public as to the nature of the crime problem in Maine — its magnitude and its trends.
2. Provide law enforcement administrators with criminal statistics for administrative and operational use.
3. Determine who commits crimes by age, sex, and

race, in order to find the proper focus for crime prevention and enforcement.

4. Provide proper base data and statistics to measure the workload and effectiveness of Maine's Criminal Justice System.
5. Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.
6. Provide base data and statistics to measure the effects of prevention and deterrence programs.
7. Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.

The methods used to obtain these objectives include the measurement of:

1. The extent, fluctuation, distribution, and nature of serious crime in the State of Maine through presentation of data on the eight Crime Index Offenses.
2. The total volume of serious crime known to the police.
3. The activity and coverage of law enforcement agencies through arrest counts, clearance of reported offenses, and police employee strength data.

CRIME INDEX

The offenses of murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft and arson are used to establish an index in the Uniform Crime Reporting Program. They measure the trend and distribution of crime in the United States and, more significantly, within the geographic regions of contributing states such as Maine. These crimes are counted by law enforcement agencies as they become known and reported on a monthly basis. The crime index offenses were selected as a measuring device because, as a group, they represent the most common crime problems. They are all serious crimes, either by their very nature or due to the volume and frequency in which they occur.

The offenses of murder, forcible rape, aggravated assault and robbery make up the violent crime category. The offenses of burglary, larceny-theft, motor vehicle theft and arson make up the property crime category.

Although "offenses known" statistics are gathered in the classification of manslaughter by negligence (1b) and simple assault (4e), they are not computed into the crime index for purposes of establishing crime trends.

Classification in all Part I offenses is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury or other judicial body.

The total number of criminal acts that occur is unknown, but those that are reported to the police provide the first means of a count. Not all crimes come readily to the attention of the police; not all crimes are of sufficient importance to be significant in an index; and not all important

crimes occur with enough regularity to be meaningful in an index. With these considerations in mind, and with all state and national reporting jurisdictions using uniform reporting procedures, the above crimes were selected as a group to furnish an abbreviated and convenient measure of the crime problem.

The crime counts used in the Crime Index and set forth in this publication are based on actual offenses established and determined by police investigation. When a law enforcement agency receives a complaint of a criminal matter and the follow-up investigation discloses no crime occurred, it is “unfounded”. These “unfounded” complaints are eliminated from the actual crime counts.

REPORTING PROCEDURE

In Maine’s Uniform Crime Reporting Program, contributing law enforcement agencies are wholly responsible for compiling their own crime reports and submitting them to the Uniform Crime Reporting Division in Augusta.

The UCR Division, in an effort to maintain quality and uniformity in data received, furnishes to the contributing agencies continuous training and instruction in Uniform Crime Reporting procedures. All contributors are also furnished with a State of Maine UCR guide manual which outlines in detail procedures for scoring and classifying offenses. The guide manual illustrates and discusses the monthly and annual reporting forms, as well as providing a question-and-answer training syllabus in the eight crime index categories.

A centralized record system is necessary to the sound operation of any law enforcement agency. The record system is an essential basis for crime reporting by the agency. Trained Uniform Crime Reporting personnel are utilized to assist contributors in the established reporting procedures of Uniform Crime Reporting.

On a monthly basis, law enforcement agencies (state, county and local) report the number of offenses that become known to them during the month in the following crime categories.

1. Criminal Homicide

- a. Murder and Non-Neg. Manslaughter
- b. Manslaughter by Negligence (not an index crime)

2. Forcible Rape

- a. Rape by Force
- b. Attempts to Commit Forcible Rape

3. Robbery

- a. Firearm
- b. Knife or Cutting Instrument
- c. Other Dangerous Weapon
- d. Strong-Arm (Hands, Fists, Feet, etc.)

4. Assault

- a. Firearm
- b. Knife or Cutting Instrument
- c. Other Dangerous Weapon

- d. Hands, Fists, Feet, etc., Aggravated
- e. Hands, Fists, Feet, Not Aggravated (not an index crime)

5. Burglary

- a. Forcible Entry
- b. Unlawful Entry — No Force
- c. Attempted Forcible Entry

6. Larceny-Theft (except motor vehicle theft)

7. Motor Vehicle Theft

- a. Autos
- b. Trucks and Buses
- c. Other Vehicles

8. Arson

- a. Structures
- b. Mobile Property (vehicles, trailers, etc.)
- c. Other Property (crops, timber, etc.)

Arson, designated as a national index offense by the U.S. Congress in 1979, is now being reported to the UCR system by contributing agencies.

In July of 1979, the Maine Legislature enacted a new “Domestic Violence” law that deals with abuse and assaults occurring between household or family members. The law mandates the reporting of such incidents by police agencies as an addition to the Uniform Crime Reporting function.

A count is taken from a record of all complaints of crime received by the law enforcement agency from victims, other sources, and/or discovered by officers.

Whenever complaints of crime are determined through investigation to be unfounded or false, they are eliminated from the actual count. The number of “actual offenses known” in these crime categories is reported to the UCR Division whether or not anyone is arrested for the crime; the stolen property is recovered; prosecution is undertaken; or any other restrictive consideration is in effect. Law enforcement agencies on a monthly basis report the total number of these reported crimes which they clear, either by arrest or exceptional means. A separate count of crimes cleared which involve only persons under the age of 18 is shown. The number of law enforcement officers killed or assaulted and the value and type of property stolen and recovered during the month are also reported.

Arrests are reported monthly for all criminal acts, except traffic violations, by crime category and include the age, sex and race of each person arrested.

VERIFICATION PROCEDURE

Uniformity and accuracy of crime data collected under this program is of primary concern. With the receipt of reports covering approximately 150 reporting jurisdictions within the state of Maine, the problems of attaining uniformity are readily apparent. Issuance of instructions and training of personnel within contributing agencies does not

complete the role of the UCR Division. It is standard operating procedure to examine each incoming report for mathematical accuracy and completeness and, perhaps of even greater importance, for reasonableness as a possible indication of error. Clearance factors, recovery rates and other possible benefits are scrutinized, and changes are suggested to the contributors where noted. In the instance of minor mathematical corrections, the contributing agency is either contacted by phone or in-person visitations are made by qualified UCR program personnel.

The possibility of duplication in crime reporting is given constant attention when reports are received and verified by internal consistency checks. If duplication is sus-

pected, the contributing agencies are immediately contacted and the matter is resolved in accordance with existing guidelines. A continual analysis of reports is maintained to assist contributors when needed and to maintain the quality necessary for a factual and successful program. Personal visitations are made to contributors to cooperatively assist in needed revisions of records and reporting methods.

Regardless of the extent of the statistical verification process used by the Uniform Crime Reporting Division, the accuracy of the data assembled under this program depends on the sincere effort exerted by each contributor to meet the necessary standards of reporting.

STATEMENT OF POLICY FOR RELEASE OF UCR STATISTICAL INFORMATION

The following regulations will be observed by this agency concerning the release of UCR statistical information. Employees of this agency will observe these procedures and will not deviate from this policy without the express consent of the Supervisor, UCR Division. All information to be released will originate from, and will be approved prior to being released by, the UCR Division.

REGULATIONS

1. This agency will publish an annual report reflecting crime in Maine. This report will be distributed to the Governor, to members of the Legislature, to the Attorney General, to law enforcement agencies or to any agency or committee dedicated to law enforcement or criminal justice work.
2. Published reports will be released to the above-named agencies prior to their being released to individuals or agencies extraneous to the criminal justice community.
3. UCR Information requests:

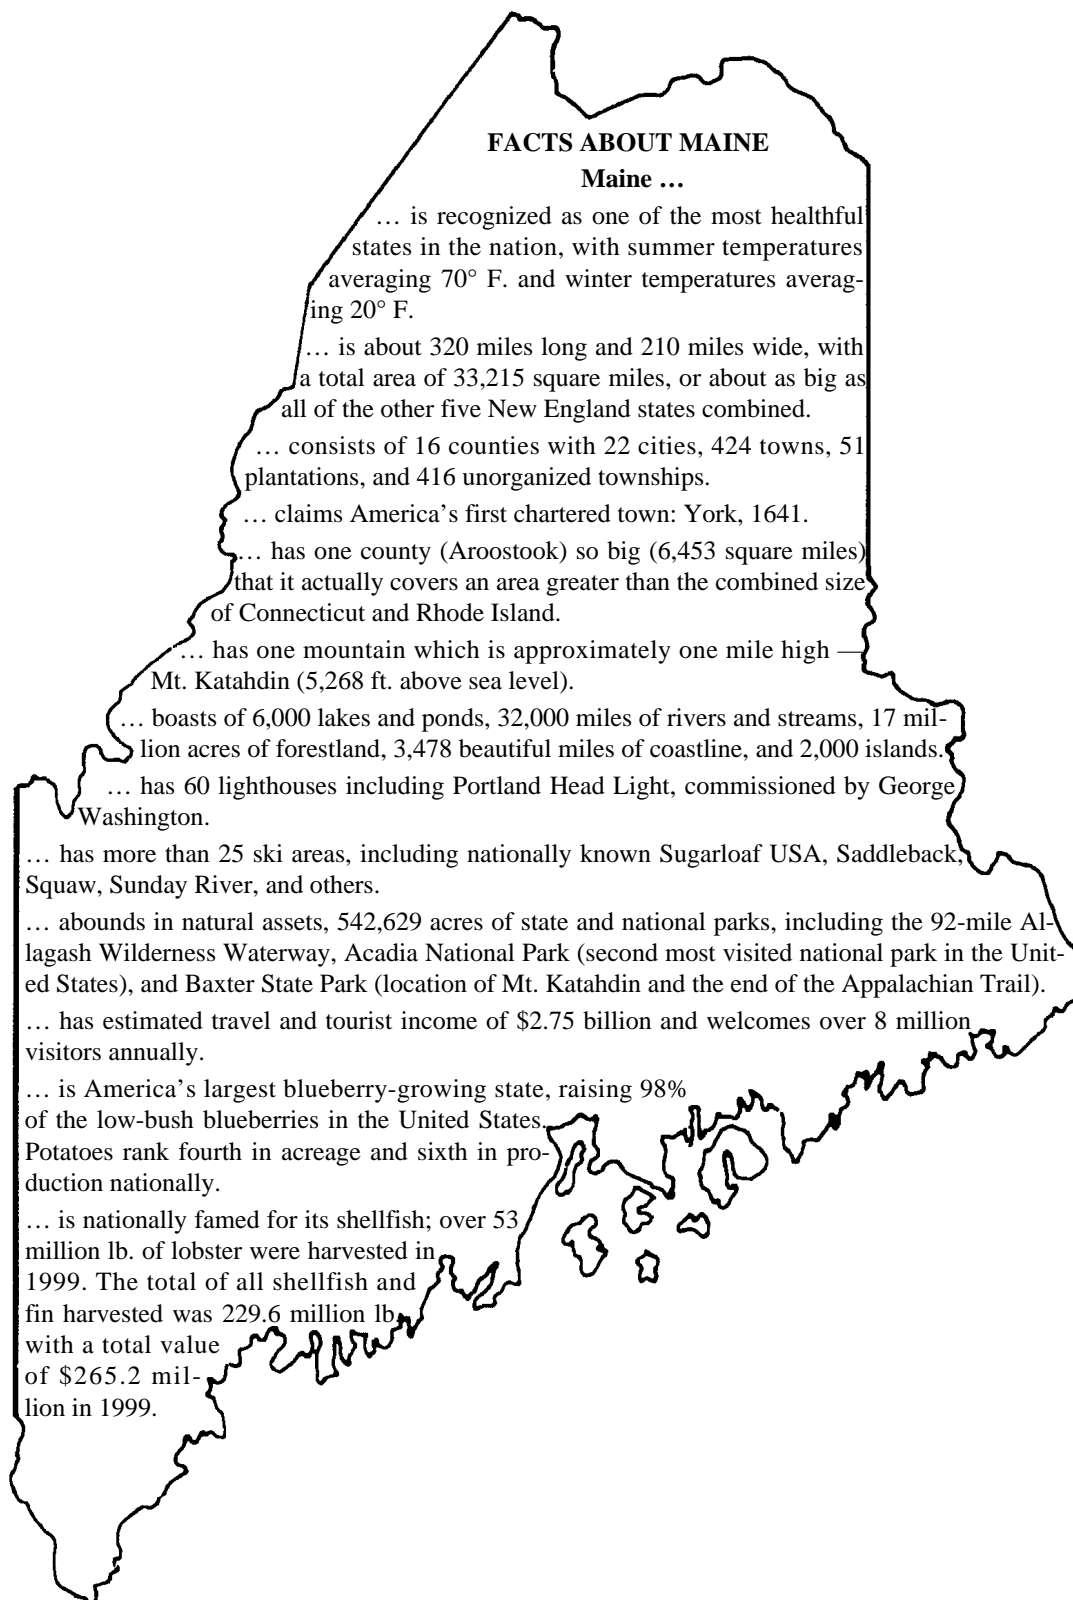

No person or agency will be furnished statistical information which has not previously been published, concerning any individual agency's report, without the written consent of the Chief Administrator of that agency. The Uniform Crime Reporting division will maintain for one year a

copy of the information released along with the request and the authority of release.

- A. Information contained in the published annual report may be released via phone, letter, etc., to any interested party.
- B. All requests for unpublished information from agencies or individuals should be directed by letter to the Supervisor, UCR Division. These special requests will be honored only with the written consent of the agency whose statistics are requested.
- C. Law enforcement agencies may receive interim, unpublished specialized reports identifying their agency only, providing the request is not unreasonable. Law enforcement agencies may also receive their respective county totals along with state or district totals.

PROFILE OF THE STATE OF MAINE

This profile is presented to provide some general knowledge and facts about the state of Maine. It is hoped that this information might assist in understanding the environment in which reported crime incidence and arrest data detailed in this report occurred.

CRIME RATES

The computation of crime rates as they appear in this report is based on 1999 population estimates received from the Uniform Crime Reporting division of the FBI, using provisional estimates of the Bureau of Census. Rural populations are arrived at by deleting the population figures for each direct reporting municipal department from their respective county totals.

Monthly and annual Uniform Crime Reports currently received from approximately 150 municipal, county and state law enforcement agencies in Maine represent 100 percent of the estimated Maine population.

The crime rate involves the number of Index Crimes

per unit of population, usually per 100,000 persons. Because Maine has such a low population total, a rate per 1,000 persons has been used to reflect a more realistic volume. No attempt has been made to incorporate either transient population or other factors which contribute to the ratio and type of crime in a given area. Any effort to make comparisons of crime rates between one area and another should recognize these population changes and varying environmental factors.

The crime index rate for Maine for the year 1999 was 29.10 offenses per 1,000 persons. Violent crimes occurred at a rate of 1.04 offenses per 1,000 persons, property crimes at a rate of 28.06.

1999 Crime Rates

Offense	Number of Offenses	Percent of Total	Rate/1,000 Population
Murder	25	.07%	.02
Rape	273	.76%	.22
Robbery	196	.55%	.16
Aggravated Assault	789	2.20%	.64
Burglary	7,622	21.21%	6.17
Larceny-Theft	25,381	70.62%	20.55
M/V Theft	1,457	4.05%	1.18
Arson	198	.55%	.16
Totals	35,941	100.00%	29.10
Total Violent Crime	1,283	3.57%	1.04
Total Property Crime	34,658	96.43%	28.06

VIOLENT CRIMES

Crimes of violence involve the element of personal confrontation between the perpetrator and victim and entail the use or threat of violence. By their very nature, violent crimes — murder, rape, robbery and aggravated assault — are considered more serious than property crimes. The total number indicates only the number of incidents reported to police and does not reflect the number of criminals who committed them or the number of injuries inflicted.

During the year 1999, violent crimes showed a decrease from the previous year. There were 1,283 reported offenses during 1999 — compared with 1,570 for 1998. This decrease of 287 crimes reported represents a decrease of 18.3%.

The 1999 crime rate for violent crime is 1.04 offenses per 1,000 population. Violent crimes represent 3.6% of all reported index crimes. Police cleared 857 violent crimes for a 60.7 clearance rate.

(State Violent Crime Rate: 1.04)

PROPERTY CRIMES

Property crimes include burglary, larceny, motor vehicle theft, and arson. These crimes do not involve the threat of violence, but entail property taken from one by another, or the destruction of property by arson.

Property crimes showed a decrease during 1999, falling by 1,825 reported offenses. The 1999 total of 34,658 represents a 5.0% decrease from the 1998 figure of 36,483.

Law enforcement agencies cleared 9,616 property crimes during 1999 for a 27.7% clearance rate. Property crimes represent 96.4% of all reported index crimes and account for a crime rate of 28.06 offenses per 1,000.

12/21/99 Orono	59	F	28	M	Knife	Mother	Victim stabbed to death inside her apartment by offender.
12/27/99 Thomaston	36	M	48	M	Handgun	Acquaintance	Offender shot and killed victim. Victim was the boyfriend of offender's estranged wife.

MURDER AND NON-NEGLIGENT MANSLAUGHTER

Murder and non-negligent manslaughter are described by UCR as the willful (non-negligent) killing of one human being by another — or a death that results from the commission of another criminal act.

Murder — “1. A person is guilty of murder if: A. He intentionally or knowingly causes the death of another human being; B. He engages in conduct which manifests a depraved indifference to the value of human life ...; or C. ... causes another human being to commit suicide by the use of force, duress or deception.” M.R.S.A. Title 17-A, § 201

Felony Murder — “1. A person is guilty of felony murder if acting alone or with one or more other persons in the commission or attempt to commit immediate flight after committing or attempting to commit ... [another felony offense], he or another participant in fact causes the death of another human being ...” M.R.S.A. Title 17-A, § 202

Manslaughter — “1. A person is guilty of manslaughter if he: B. ... causes the death of another human being ... while under the influence of extreme anger or extreme fear ...” M.R.S.A. Title 17-A, § 203

Not included in the count for this offense classification are deaths caused by negligence, suicide, or accident. Although manslaughter by negligence is recorded on the “offenses known to police” form along with murder, it is not considered an index offense and is not discussed in this report. Attempts to murder or assaults to murder are scored as aggravated assaults and not murder.

**Due to the unlimited set of possible circumstances surrounding homicides, it is difficult to provide a clear-cut or precise statistical category. In the intent of uniformity, the number of circumstance categories has been kept to a minimum. Caution is suggested in drawing generalizations from the data without more deliberate analysis. This table makes no attempt to analyze the motives of offenders, but rather to display general circumstances surrounding the events.*

FORCIBLE RAPE

Forcible rape is the carnal knowledge of a female forcibly and against her will.

“A person is guilty of gross sexual assault if that person engages in a sexual act (direct genital contact) with another person and the person submits as a result of compulsion.” M.R.S.A. Title 17-A, § 253

This category is broken down into two categories: Rape by Force, and Attempted Forcible Rape. Carnal abuse without force (statutory rape) and other sex offenses are not included.

Forcible rape differs from other violent crimes in that the victim, in many cases, is reluctant to report the offense to police. The investigation by police, medical examination, court procedure, embarrassment and fear of any accompanying stigma have a deterrent effect on the victim's willingness to make the offense known to police.

Maine has experienced increased availability in services such as rape crisis centers providing 24-hour hot lines and counselors, witness/victim assistants in district attorneys' offices, improved medical practices and increased sensitivity by law enforcement personnel. The increased number of offenses identified in this report may be, in part, influenced by the increasing confidence of victims in the criminal justice system.

ROBBERY

Robbery is defined by UCR as “the felonious and forcible taking of the property of another against his will by violence or by putting him in fear.” All attempts to rob are included in the UCR report.

“1. A person is guilty of robbery if he commits or attempts to commit theft and at the time of his actions: A. He recklessly inflicts bodily injury on another; B. He threatens to use force against any person present with the intent (1) to prevent or overcome resistance to the taking of the property, ...; or (2) to compel the person in control of the property to give it up ...; C. He uses physical force on another with the intent enumerated in paragraph B, subparagraphs (1) and (2); D. He intentional -

ly inflicts or attempts to inflict bodily injury on another; or E. He or an accomplice to his knowledge is armed with a dangerous weapon ... ” M.R.S.A. Title 17-A, § 65, 1

AGGRAVATED ASSAULT

An aggravated assault is an attempt or offer, with unlawful force or violence, to do physical injury to another. This type of assault is usually accompanied by the use of a weapon or other means likely to produce death or serious bodily injury. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime is successfully completed. Assaults with personal weapons (hands, fists, feet) are scored as aggravated if there is personal injury requiring more than simple first aid to treat.

Aggravated Assault: "1. A person is guilty of aggravated assault if he ... causes: A. Serious bodily injury to another; or, B. Bodily injury to another with use of a dangerous weapon; or, C. Bodily injury to another under circumstances manifesting extreme indifference to the value of human life." M.R.S.A. Title 17-A, § 208

Assault while Hunting: "1. A person is guilty of assault while hunting if ... he, with criminal negligence, causes bodily injury to another with the use of a dangerous weapon." M.R.S.A. Title 17-A, § 208-A

Assault on an Officer: "1. A person is guilty of assault on an officer if: A. ... causes bodily injury to a law enforcement officer while the officer is in the performance of his official duties; or, B. While in custody in a penal institution or other facility pursuant to an arrest or ... court order, he commits an assault on a member of the staff of the institution ..." M.R.S.A. Title 17-A, § 752-A

Not included in this class are simple (non-aggravated) assaults. Simple assaults are non-index offenses, although a record is kept of these assaults on an "offenses known to police" form. During 1999 there were 10,539 simple assaults reported (+2.3% from 1998), with a clearance rate of 78.4%. These simple assaults are included in the report of domestic assaults, and assaults on law enforcement officers.

DOMESTIC VIOLENCE

Due to problems of abuse and domestic violence between family or household members, the 109th Maine Legislature enacted a law entitled “An Act Concerning Abuse between Household and Family Members.” The law, Chapter 578 of the Public Laws of 1999, mandates the reporting of domestic violence data by law enforcement agencies and the collection of such data (Title 19, § 770 [1]) by the Uniform Crime Reporting Unit, State Bureau of Identification, Department of Public Safety.

During 1999:

- Of a grand total of 11,328 reported assaults, 3,986 or 35.2% were identified as occurring between household

or family members.

- Domestic assaults increased 3.4% (131 offenses) from the 1998 figure of 3,855.
- Law enforcement agencies cleared 3,714 domestic assaults for a clearance rate of 93.2%.
- Of the 3,986 domestic assaults, 98.0% involved personal weapons (hands, fists, feet).

LARCENY-THEFT

Larceny is the unlawful taking of the property of another with the intent to deprive him of ownership.

Maine has consolidated conduct denoted as Theft under Title 17-A, Chapter 15, § 351, Consolidation, embracing numerous separate crimes previously known as larceny, embezzlement, false pretenses, extortion, blackmail, shoplifting, and receiving stolen property. In properly classifying/scoring these offenses under UCR guidelines, certain offenses fall under Larceny-Theft, while others more appropriately fit under Part II offense definitions such as Fraud, Embezzlement, Stolen Property or All Other Offenses.

Theft by unauthorized taking or transfer — “1. A person is guilty of theft if he obtains or exercises unauthorized control over the property of another with intent to deprive him thereof.” M.R.S.A. Title 17-A, § 353

Burglary of a motor vehicle — “A person is guilty of theft if the actor enters a motor vehicle knowing the actor is not licensed or privileged to do so, with the intent to commit a crime therein (and that crime is theft).” M.R.S.A. Title 17-A, § 405

Larceny-Theft — Comparative Data 1998–1999

MOTOR VEHICLE THEFT

Uniform Crime Reporting defines Motor Vehicle Theft as the larceny or attempted larceny of a motor vehicle, including “joy riding.” Excluded from this class is a reported offense where there is lawful access to the vehicle, such as a family situation, or unauthorized use by others with lawful access, such as with employees.

Motor vehicles are defined by UCR as self-propelled vehicles that run on the surface of the land and not on rails, such as automobiles, trucks, buses, motorcycles, motor scooters, snowmobiles, ATVs, etc. Not included are farm equipment, construction equipment, airplanes, motorboats.

Unauthorized use of property — “1. A person is guilty of theft if: A. Knowing that he does not have the consent of the owner, he takes, operates or exercises control over a vehicle, or knowing that the vehicle has been wrongfully obtained, he rides in such vehicle.” M.R.S.A. Title 17-A § 360

Stolen Vehicles — Comparative Data 1998–1999

ARSON

Arson is defined by the Uniform Crime Reporting program as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are classified as arson. Fires of suspicious or unknown origins are excluded.

"1. A person is guilty of arson if he starts, causes, or maintains a fire or explosion; A. On the property of another with the intent to damage or destroy property thereon; or B. On his own property or the property of another (1) with the intent to enable any person to collect insurance proceeds for the loss caused by the fire or explosion; or (2) which recklessly endangers any person or the property of another." M.R.S.A. Title 17-A, § 802.

Note: Arson figures shown by UCR may not agree with figures shown by the Fire Marshal's office due to local departments handling cases informally.

HATE CRIME

Commencing in 1992, law enforcement officers are to report hate crimes as a supplementary report to the UCR program. Under Title 25 sec. 1544, hate crimes are defined as those that “manifest evidence of prejudice based on race, religion, sexual orientation or ethnicity ...”. On June 26, 1997, disability bias was added to the definition of hate crime, creating two new categories: Anti-Mental Disability and Anti-Physical Disability. Maine’s hate crimes are further reported to the FBI as part of the federal Hate Crimes Statistics Act.

The reported number of hate crime incidents in Maine in 1999 was 22. These incidents involved 24 victims with at least 35 offenders, and resulted in a total of 25 offenses.

Hate Crime 1999

Number of incidents.....	22
Number of victims.....	24
Number of offenders	35
Number of offenses.....	25

In 1999, the most commonly reported bias motivation was sexual orientation. The second largest percentages were racial and religious hate crimes.

Hate Crime Bias Motivation

Bias Nature	Group %	Bias Type	Incidents of bias	% of Total

Asian/Pacific Islander	—	—
Multi-Racial Group	—	—
Unknown	8	22.9%
Total	35	100.0%

Hate Crime Offenders

Information on the victims of hate crimes is limited to victim type. While bias motivation information identifies the offender's bias, it is important to note that the victim may not actually belong to the group the offender sought to harm. For this reason, information on the victims' actual group membership is not recorded.

Victim type, in the hate crime data collection program is listed as: individual, business, financial institution, government, religious organization, society/public, other and unknown. Of these victim types, individuals were reported to be the main hate crime target.

Hate Crime Offenses by Victim Type

Victim Type	No.	% of Total
Individual	19	79.2%
Business	2	8.3%
Financial Institution	—	—
Government	—	—
Religious Organization	1	4.2%
Society/Public	2	8.3%
Other	—	—
Unknown	—	—
Not Reported	—	—
Total	24	100.0%

Offense information in the hate crime data collection program are defined in accordance with federal Uniform Crime Reporting definitions and do not necessarily conform to Maine state definitions. Complete offense definitions are available in the appendix to this publication.

Hate crime offense information falls into the eight index crimes — murder, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson — plus the non-index crimes of simple assault, intimidation and vandalism. Additionally, Maine’s hate crime reporting statute provides for the reporting of harassment as a supplemental offense category.

<i>Hate Crime by Offense</i>		
Offense	Volume	% of Total
Murder	—	—

STOLEN AND RECOVERED PROPERTY VALUES

Supplementary reports relating to property stolen and recovered provide information on the estimated value of such property. The investigating officer has the obligation to assess the value of property stolen and recovered in each crime index offense. The officer is guided by the following instructions:

1. Use fair market value for items subject to depreciation.
2. Use wholesale cost of goods stolen from retail establishments.
3. Use victim's evaluation of non-depreciable items.
4. Use cost of replacement to victims for new or almost new items.

There was more than 24 million dollars' worth of property reported stolen in Maine during 1999. This value does not include the value of property damaged due to vandalism, malicious mischief or arson.

During 1999:

- Property stolen totaled \$24,635,862, up 3.6% from the 1998 figure of \$23,785,312.
- There was \$8,658,459 worth of property recovered, up 6.9% from \$8,100,971 in 1998.
- The rate of recovery was 35.1%, compared to 34.1% for 1998.
- The property type with the highest recovery rate was Locally Stolen Motor Vehicles, 71.8%.
- The dollar value of property stolen and recovered less motor vehicles was \$15,764,794 stolen, \$2,292,102 (14.5%) recovered.

<i>Breakdown by Type and Value of Property</i>			
Type of Property	Value Stolen	Value Recovered	Percent Recovered
Currency, Notes, etc.	\$2,978,295	\$313,293	10.5%
Jewelry, Precious Metals	\$1,638,231	\$224,058	13.7%
Clothing and Furs	\$556,408	\$143,512	25.8%
Locally Stolen Motor Vehicles	\$8,871,068	\$6,366,357	71.8%
Office Equipment	\$470,495	\$96,358	20.5%
TVs, Radios, VCRs, Cameras	\$2,020,390	\$213,923	10.6%
Firearms	\$221,654	\$51,921	23.4%
Household Goods	\$471,693	\$61,095	13.0%
Consumable Goods	\$232,013	\$49,520	21.3%
Livestock	\$29,806	\$7,981	26.8%
Miscellaneous	\$7,145,809	\$1,130,441	15.8%
Totals	\$24,635,862	\$8,658,459	35.1%

(Note: The value of property recovered may include items stolen during a previous reporting period.)

Clearance Rate

For Uniform Crime Reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge him, and he is actually taken into custody. The arrest of one person can clear several crimes, or several persons may be arrested in the process of clearing one crime.

Crime solutions are also recorded in exceptional circumstances when some elements beyond law enforcement control precludes formal charges against the offender. An offense may be exceptionally cleared when it falls into one of the following categories:

1. The offender commits suicide.
2. A double murder occurs (two persons kill each other).
3. The offender dies after making a confession (dying declaration).
4. The offender is killed by law enforcement officers.
5. The offender confesses to committing a crime while already in custody for another crime or serving a sentence.
6. The offender is prosecuted in another city for a different crime by federal, state or local authorities, or for the same offense, and the other jurisdiction refuses to release the offender.
7. Another jurisdiction refuses to extradite the offender.
8. The victim of a crime refuses to cooperate in the prosecution.
9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses such as petit or simple larceny.

During 1999, 29.1% of reported index crimes were cleared, either by arrest or exceptional means. The state clearance rate, slightly higher than the 28.1% rate for 1998, continues to be consistently higher than the national average of approximately 21.4%. The percentage of violent crimes cleared in 1999 was 60.7%, while the clearance rate for property crimes was 27.7%.

<i>Clearance Rate of Index Offenses, January–December 1999</i>			
Classification	Number of Offenses	Number Cleared	Percent Cleared
Murder	25	24	96.0%
Forcible Rape	273	126	46.2%
Robbery	196	108	55.1%
Aggravated Assault	789	599	75.9%
Burglary	7,622	1,604	21.0%
Larceny-Theft	25,381	7,316	28.8%
Motor Vehicle Theft	1,457	639	43.9%
Arson	198	57	28.8%
Totals	35,941	10,473	29.1%

(Note: Offenses cleared do not necessarily relate to the actual offenses during the January–December period. Offenses can be cleared from prior periods.)

Analysis of Offenses Cleared — by Age of Offender(s)

ARREST DATA

In addition to the monthly reports on the number of index crimes reported, law enforcement agencies also submit monthly forms detailing the number of persons arrested. For UCR statistical purposes, “arrests” also include those persons cited or summonsed for criminal acts in lieu of actual physical custody. These forms categorize the arrests by offense classification (both Part I and Part II crimes), and by age, sex and race. The same individual may be arrested several times over a period of time; each separate arrest is counted. A person may be arrested on several charges at one time; only one arrest is counted and is listed under the most serious charge. For UCR purposes, a juvenile is counted as “arrested” when the circumstances are such that if he or she were an adult, an arrest would result; in fact, there may not have been a formal charge.

During 1999:

- 19.2% of all arrests were juveniles, 80.8% were adults.
- Index offenses accounted for 34.3% of juvenile arrests.
- For adults, 11.8% of arrests were for index offenses.
- Over one quarter (27.3%) of adult arrests were between the ages of 25–34, inclusive.

The total number of arrests for 1999 was down 2.0%. Part I offenses were down 4.9%, Part II offenses were down 1.4%.

The report form on juvenile arrests used by the police agencies in Maine includes a section on the disposition of each person. These categories are as follows.

Disposition	Number	Percent Distribution
1. Handled within the department (released to parents, etc.)	1,255	11.6%
2. Referred to juvenile court or juvenile intake	9,025	83.7%
3. Referred to welfare agency (i.e., Dept. of Human Services)	15	0.1%
4. Referred to other police agency	20	0.2%
5. Referred to criminal or adult court	464	4.3%
Total Dispositions	10,779	99.9%

(Percentages may not equal 100% because of rounding.)

Opposite is a summary of total arrests made this year and last. On page 50 begins a section showing arrests made by each reporting agency in the state. County arrest summaries and a statewide total may be found on pages 73–75.

The table on pages 76–77 shows total state arrests classified by age and sex; that on pages 78–79 gives arrest data for the last ten years; and that on page 80 shows a breakdown of arrests by age category.

Arrests — Drug and Liquor Violations

Due to the nature of the violations and a high interest and concern by public officials and the citizens of Maine generally, a special review is provided of drug and alcohol-related arrests. The charts displayed reveal the number and age of people arrested during 1999.

The information provided here should be of interest to social agencies involved in the study of drugs and alcohol problems in Maine. The information pinpoints the predominant drug and liquor arrests in Maine by age and identifies possible problem areas.

Facts revealed by the chart on drug violations:

- 87.3% of all juvenile drug arrests involved possession violations, while 12.7% were for sale or manufacturing of drugs.
- 77.7% of all adult drug arrests involved possession violations, while 22.3% were for sale or manufacturing of drugs.
- Of the 4,494 total drug arrests: 3,882 were male, 612 were female.
- Total drug arrests decreased by 3.1% from the 4,639 arrests in 1998.

Facts revealed by the chart on liquor violations:

- 84.8% of all juvenile arrests involving liquor were for violations of liquor laws, while 15.2% were for driving under the influence of liquor.
- 74.7% of all adult arrests involving liquor were for driving under the influence of liquor, while 25.3% were for violations of liquor laws.
- Arrests for driving under the influence of liquor during 1999 decreased by 8.9% from the 1998 total. There were 8,007 OUI arrests in 1998 — 7,293 in 1999. Adult OUI arrests decreased 8.9% and juvenile OUI arrests decreased 11.5%.
- Of the 7,293 OUI arrests in 1999, 5,875 were male — 1,418 were female.
- Adults accounted for 98.1% of all OUI arrests for 1999.
- Juvenile liquor arrests decreased 7.9%, from 993 in 1998 to 915 in 1999.

POLICE EMPLOYMENT DATA

The Uniform Crime Reporting System in Maine incorporates a collection of important data relating to police within the state. Information such as ratio of police to population, assaults on officers, and related analysis are covered in this section.

As of October 31, 1999, the following information was gathered from 138 reporting agencies.

Sworn Personnel

- There were 1,540 full-time municipal law enforcement officers, representing 1.86 officers per 1,000 population for urban population areas.
- There were 259 full-time sworn law enforcement officers employed by Maine's 16 Sheriff's Departments. There were 330 sworn officers employed by the Maine State Police. The ratio of officers per 1,000 population in rural areas is 1.38.
- Statewide, there were 2,163 full-time sworn law enforcement officers. The total complement of officers represents a rate of 1.73 officers per 1,000 population.
- Nationally, the average rate per 1,000 is 2.5. The average rate for the New England states is 2.2.

Civilian Personnel

- The number of full-time civilian support personnel employed by the municipal departments in Maine was 431.
- There were 63 civilians employed full-time by the county Sheriff's Departments. The Maine State Police employed 147 full-time civilians.
- The total number of full-time civilian support personnel employed statewide was 641.

Caution should be exercised in using rates for comparative purposes, since a wide variety of factors dictate the number of employees necessary to various law enforcement agencies. The term "full-time sworn" officers does not mean that these personnel are performing regular police enforcement duties in investigations, patrol and deterrent practices. The need for regulatory duties, correction duties, administrative duties and assigned special duties affects the number of personnel available for regular law enforcement duties. Comparing agencies should not be done without considering the "in-house" duties and responsibilities of the agencies involved.

Figures for Sheriff's Department personnel for the year 1999 do not include persons serving as correctional or court personnel in all Sheriff's Departments. Population figures given here may vary from those shown in the County Crime Analysis (pp. 90-96), which reflect a population update at another part of the year.

ASSAULTS ON LAW ENFORCEMENT OFFICERS

The following information is based on a detailed monthly collection of data in the Uniform Crime Reporting system regarding the problem of assaults on municipal, county and state law enforcement officers.

During 1999:

- There were 175 assaults on law enforcement officers, a 29.1% decrease from the 1998 figure of 247.
- The ratio of assaults per 100 officers during 1999 was 8.1, compared to 11.6 assaults per 100 officers during 1998.
- The greatest number of officer assaults occurred while the officer was responding to disturbance calls — 90, or 51.4% of the total.
- Personal weapons (hands, fists, feet, etc.) were used in 92.6% or 162 of the assaults.
- Of the 175 assaults, 13.1% (23) resulted in personal injury to the officer, while 86.9% (152) produced no injury.
- 18.9% of assaults were aimed at officers who were alone (33), 81.1% were directed at assisted officers (142).
- The most common time period of assaults was 8 p.m. to 2 a.m. (48.0%), with 23.4% occurring from 12 a.m. to 2 a.m.
- Law enforcement cleared 98.9% (173) of all assaults on officers.
- Of the 175 reported assaults on officers, 27 were on sheriff's deputies, none were on state police officers, and 148 were on municipal officers.

COUNTY CRIME ANALYSIS

STATE OF MAINE
Uniform Crime Reporting Division

The nine counties shown shaded reported an increase in the Index Crime Rate from 1998 to 1999. Androscoggin, Aroostook, Cumberland, Franklin, Oxford, Penobscot and Piscataquis counties (in white) reported a decrease.

Androscoggin County							January–December 1999

COMMUNITY PROFILE

PROGRAMMED CRIME PROFILES

Reprogramming of UCR-generated data was initiated in 1975 to provide maximum utilization of computer efficiency. In January of 1976 the new programs became operational. Chief benefactors of the new format are the contributors who make this comprehensive program possible by their outstanding support and cooperation.

On the following pages are sample printouts of generated data which are available monthly to every contributor. Quarterly printouts are mailed routinely to every reporting agency. The state total data has been selected as the sample for explanation in this publication. This sample is applicable monthly to every community submitting data through direct reporting to the UCR Division, the state police by the county and troop, the sheriff's departments, the county totals, state totals, and urban and rural breakdowns.

PRINTOUT 1

Printout number 1 consists of offense data submitted monthly on Part I, or index, crimes.

Specific monthly data is identified and recorded in columns to the left of the first vertical line. In between the lines are the cumulative figures on each index crime to date, and the projected crime rate per 1,000 population. The final column reflects the cumulative crime-to-date comparison from the preceding year, and the percent change in all crime classifications, based on the comparison figures.

Totals for all reported offenses appear at the bottom of the printout, with distinctions being made between the total index crimes and total crimes reported (includes manslaughter by negligence, and non-aggravated assault). Law enforcement officers assault data for the reporting month and the accumulated total is included. The sample printout is for the month of December; however, any particular selected monthly printout will provide similar data, both for the monthly data and the year-to-date data, as well as last-year-to-date comparison data.

PRINTOUT 2

Printout number 2 consists of data on property stolen and recovered by property type and value. The printout includes data for the reporting month, year to date, and last year to date comparison figures. Recovery percentages are computed for each property type on all monthly and cumulative entries. Totals of each column, and a total with motor vehicle values removed, are included.

PRINTOUT 3

Printout number 3 is a breakdown of offense data reported on form number 1. It primarily identifies locations of crime occurrence in crimes of robbery and burglary, and expands data on larceny by the analysis of larceny types and location. This printout systematically records the values of property stolen during commission of the various types and methods of the criminal act. This particular printout records the monthly data, year-to-date data, and year-to-date totals from the previous year. The final column indicates percentage of change from the previous year in both the number of offenses and the value of stolen property by crime.

PRINTOUT 4

Printout number 4 relates to the clearance of particular offenses by the reporting agency. The form is divided into three individual areas: current month, year to date, and last year to date for comparison purposes. It reflects the number of actual offenses, number of offenses cleared, percentage of offenses cleared, and the number of clearances involving only persons under 18 years of age.

PRINTOUT 5

Printout number 5 is intended to indicate to the police administrator on a month-to-month, year-to-year comparison any large variances in crime that require further analysis. The final column, showing change in a crime class, may signal needed change.

CLASSIFICATION OF OFFENSES

Uniformity in reporting under the Maine Uniform Crime Reporting System is based on the proper classification of offenses reported to or known by the police.

The adoption of the National System of Uniform Crime Reporting included the utilization of the offense classifications of that system. Law enforcement in this state has made accurate application of those classifications in the reports submitted to the Maine Uniform Crime Reporting System.

In view of the need for compatibility with the National System, “offenses” under the program are not distinguished by designation of “misdemeanors,” “felonies” or violations of municipal ordinances.

The explanations of offense classifications may vary slightly from language used by those familiar with Maine state law. However, the major categories of offense classification remain the same between the national and state levels.

PART I OFFENSES

Offense data consists of information that has been extracted from reports of Part I crimes that have come to the attention of Maine law enforcement agencies. In general, Part I crimes are usually reported to law enforcement agencies. Part I crimes are comprised of the following offenses.

1. HOMICIDE

1a. Murder and Non-Negligent Manslaughter — The unlawful killing of a human being with malice aforethought.

General Rule — Any death due to a fight, quarrel, argument, assault or commission of a crime.

1b. Manslaughter by Negligence — The unlawful killing of a human being, by another, through gross negligence.

General Rule — The killing may result from the commission of an unlawful act or from a lawful act performed with gross negligence.

2. FORCIBLE RAPE

2a. Rape by Force — The carnal knowledge of a female forcibly and against her will.

General Rule — Forcible rape of a female — excluding carnal abuse (statutory rape) or other sex offenses.

2b. Attempted Forcible Rape — All assaults and attempts to rape.

3. ROBBERY

The felonious and forcible taking of the property of another, against his will, by violence or by putting him in fear. Includes all attempts.

3a. Gun — All robberies and attempted robberies involving the use of any type of firearm (revolvers, automatic pistols, shotguns, zip guns, rifles, pellet guns, etc.).

3b. Knife or Cutting Instrument — All robberies and attempted robberies involving the use of cutting or stabbing objects (knife, razor, hatchet, axe, scissors, glass, dagger, ice pick, etc.).

3c. Other Dangerous Weapon — All robberies or attempted robberies when any other object or thing is used as a weapon. (This includes clubs, bricks, jack handles, explosives, acid, etc.).

3d. Strong Arm — Hands, Fists, Feet, Etc. — All robberies which include mugging and similar offenses where no weapon is used, but strong arm tactics are employed to deprive the victim of his property. This is limited to hands, arms, fists, feet, etc. As in armed robbery, includes all attempts.

4. ASSAULT

An assault is an attempt or offer, with unlawful force or violence, to do physical injury to another.

General Rule — All assaults will be classified in the following categories excluding assaults with intent to rob or rape.

4a. Gun — All assaults and attempted assaults involving the use of any type of firearm (revolvers, automatic pistols, shotguns, zip guns).

4b. Knife or Cutting Instrument — All assaults and attempted assaults involving the use of cutting or stabbing objects (knife, razor, hatchet, axe, scissors, glass, dagger, ice pick, etc.).

4c. Other Dangerous Weapon — All assaults or attempted assaults when any other object or thing is used as a weapon (clubs, bricks, jack handles, explosives, acid, poison, burning, and cases of attempted drowning, etc.).

4d. Hands, Fists, Feet, Etc. — Aggravated — Assaults which are of an aggravated nature when hands, fists, feet, etc., are used. To be classified as aggravated assault, the attack must result in serious injury.

5. BURGLARY

Breaking and Entering — Unlawful entry or attempted forcible entry of any structure to commit a felony or larceny.

Note: For Uniform Crime Reporting purposes, the terms “Burglary” and “Breaking and Entering” are considered synonymous. All such offenses and attempts are scored as burglary. Do not score the larceny. Breaking and Entering of a motor vehicle is classified as a larceny for Uniform Crime Reporting purposes.

General Rule — Any unlawful entry or attempted forcible entry of any dwelling house, attached structure, public building, shop, office, factory, storehouse, apartment, house trailer (considered to be a permanent structure), warehouse, mill, barn, camp, other building, ship or railroad car.

5a. Forcible Entry — All offenses where force of any kind is used to enter unlawfully a locked structure, with intent to steal or commit a felony.

This includes entry by use of a master key, celluloid, or other device that leaves no outward mark but is used to open a lock. Concealment inside a building, followed by the breaking out of the structure, is also included.

5b. Unlawful Entry — No Force — Any unlawful entry without any evidence of forcible entry.

5c. Attempted Forcible Entry — When determined that forcible entry has been attempted.

6. LARCENY-THEFT (Except Auto Theft)

The unlawful taking of the property of another with intent to deprive him of ownership.

General Rule — All larcenies and thefts resulting from pocket-picking, purse snatching, shoplifting, larceny from auto, larceny of auto parts and accessories, theft of bicycles, larceny from buildings, and from coin-operated machines. Any theft that is not a robbery or the result of breaking and entering is included. Embezzlement, larceny by bailee, fraud or bad check cases are excluded.

7. MOTOR VEHICLE THEFT

The larceny or attempted larceny of a motor vehicle.

General Rule — This classification includes the theft or attempted theft of a motor vehicle which, for Uniform Crime Reporting designation, is described as a self-propelled vehicle that runs on the surface of the land and not on rails. Excludes reported offenses where there is a lawful access to the vehicle, such as a family situation or unauthorized use by others with lawful access to the vehicle (chauffeur, employees, etc.). Includes “joy riding.” Excluded from this category are airplanes, boats, farm equipment and heavy construction vehicles, which are scored in the larceny category.

8. ARSON

Includes all arrests for violations of state laws and municipal ordinances relating to arson and attempted arson.

The willful or malicious burning to defraud, a dwelling house, church, college, jail, meeting house, public building, or any building, ship or vessel, motor vehicle or aircraft, contents of buildings, personal property of another, goods or chattels, crops, trees, fences, gates, lumber, woods, bogs, marshes, meadows, etc., should be scored as arson.

PART II OFFENSES

The Maine Uniform Crime Reporting System requires information on persons arrested and charged by municipal, county and state agencies on a monthly basis.

In compiling data for the monthly returns, the violations of municipal ordinances as well as state laws are to be included.

9. OTHER ASSAULTS

This class is comprised of all assaults and attempted assaults which are simple or minor in nature. These “Other Assaults” are also scored on ME UCR-1 under item 4e as an offense known to police. However, for the

purpose of this return, arrests for non-aggravated assaults are scored in this class.

10. FORGERY AND COUNTERFEITING

Place in this class all offenses dealing with the making, altering, uttering or possessing, with intent to defraud, anything false in the semblance of that which is true.

Include:

- Altering or forging public or other records.
- Making, altering, forging or counterfeiting bills, notes, drafts, tickets, checks, credit cards, etc.
- Forging wills, deeds, bonds, seals, etc.
- Counterfeiting coins, plates, checks, etc.
- Possessing or uttering forged or counterfeited instruments.
- Signing the name of another or fictitious person with intent to defraud.
- All attempts to commit any of the above.

11. FRAUD

Fraudulent conversion and obtaining money or property by false pretense.

Include:

- Bad checks, except forgeries or counterfeiting.
- Leaving full-service gas station without paying attendant.
- Unauthorized withdrawal of money from an automatic teller machine.
- Failure to return rented VCRs or videotapes.

12. EMBEZZLEMENT

Misappropriation or misapplication of money or property entrusted to one’s care, custody or control.

13. STOLEN PROPERTY: BUYING, RECEIVING, POSSESSING

Include in this class all offenses of buying, receiving, and possessing stolen property, as well as all attempts to commit any of these offenses.

14. VANDALISM

Vandalism consists of the willful or malicious destruction, injury, disfigurement or defacement of any public or private property, real or personal, without consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, covering with filth, or any other such means as may be specified by local law. Count all arrests for the above, including attempts.

15. WEAPONS: CARRYING, POSSESSING

This class deals with violations of weapons laws such as:

- Manufacture, sale or possession of deadly weapons.
- Carrying deadly weapons.
- Furnishing deadly weapons to minors.
- Aliens possessing deadly weapons.
- All attempts to commit the above.

16. PROSTITUTION & COMM. VICE

Include in this class the sex offenses of a commercial -

ized nature such as:

- Prostitution.
- Keeping a bawdy house, disorderly house or house of ill repute.
- Pandering, procuring, transporting or detaining women for immoral purposes.
- All attempts to commit the above.

17. SEX OFFENSES

(Except forcible rape, prostitution, and commercial - ized vice.) Include offenses against chastity, common de - cency, morals, and the like.

- Adultery and fornication.
- Buggery.
- Incest.
- Indecent exposure.
- Sodomy.
- Statutory rape — (no force).
- All attempts to commit any of the above.

18. DRUG ABUSE VIOLATIONS

Drug abuse violation arrests are requested on the basis of the narcotics used. Include all arrests for viola - tions of state and local ordinances, specifically those relat - ing to the unlawful possession, sale, use, growing, manu - facturing and making of narcotic drugs. Make the follow - ing subdivisions of drug law arrests, keeping in mind to differentiate between sale/manufacturing and possession.

- Opium or cocaine and their derivatives: morphine, heroin, codeine.
- Marijuana.
- Synthetic narcotics, manufactured narcotics which can cause true drug addiction: Demerol, metha - dones.
- Dangerous non-narcotic drugs: barbiturates, ben - zedrine.

19. GAMBLING

All charges which relate to promoting, permitting or engaging in gambling. To provide a more refined collec - tion of gambling arrests, the following breakdown should be furnished:

- Bookmaking (horse and sport books).
- Numbers and lottery.
- All other (include all attempts).

20. OFFENSES AGAINST FAMILY & CHILDREN

Include here all charges of non-support and neglect of family and children.

- Desertion, abandonment, or non-support.
- Neglect or abuse of children.
- Non-payment of alimony.

Note: Do not count victims of these charges who are merely taken into custody for their own protection.

21. DRIVING UNDER THE INFLUENCE

This class is limited to the driving or operating of any vehicle while drunk or under the influence of liquor or nar - cotic drugs.

22. LIQUOR LAWS

With the exception of “Drunkenness” (Class 23) and “OUI” (Class 21), liquor law violations, state or local, are placed in this class. Do not include federal violations.

Include:

- Manufacturing, sale, transportation, furnishing, possessing, etc.
- Maintaining unlawful drinking places.
- Operating a still.
- Furnishing liquor to a minor.
- Illegal transportation of liquor.
- Possession of liquor by a minor.
- All attempts to commit any of the above.

23. DRUNKENNESS

Include in this class all offenses of drunkenness or in - toxication, with the exception of “OUI” (Class 21).

NOTE: Although “Drunkenness” and/or “Intoxica - tion” offenses have been removed from a criminal offense category by the Maine Legislature, the category remains in the Uniform Crime Reporting Part II offenses and is to be used administratively. Persons taken into custody and/or referred to alcohol rehabilitation or “De-Tox” centers should be scored in this category by age, sex and race.

24. DISORDERLY CONDUCT

Count in this class all disorderly persons arrested ex - cept those counted in classes 1 through 23.

25. VAGRANCY

Maine criminal code has eliminated this as a violation, therefore arrests should no longer be scored for this of - fense.

26. ALL OTHER OFFENSES

Include in this class every other state or local offense not included in classes 1 through 25.

- Admitting minors to improper places.
- Bigamy and polygamy.
- Blackmail and extortion.
- Bribery.
- Contempt of court.
- Discrimination, unfair competition.
- Kidnapping.
- Offenses contributing to juvenile delinquency (ex - cept as provided for in classes 1 through 25), such as employment of children in immoral vocations or practices, etc.
- Perjury and subornation of perjury.
- Possession, repair, manufacture, etc. of burglar’s tools.
- Possession or sale of obscene literature, pictures, etc.
- Public nuisances.
- Riot and rout.
- Trespass.
- Unlawfully bringing contraband into prisons or hospitals.
- Unlawful use, possession, etc. of explosives.

- Violations of state regulatory laws and municipal ordinances.
- Service of warrants.
- All offenses not otherwise classified.
- All attempts to commit any of the above.

27. SUSPICION

Not reported in Maine.

28. CURFEW AND LOITERING LAWS

(Juveniles) Count all arrests made for violations of local curfew or loitering ordinances.

29. RUNAWAY (Juveniles)

For purposes of the UCR program, report in this category apprehensions for protective custody as defined by local statute. Arrest of runaways from one jurisdiction by another agency should be counted by the home jurisdiction. Do not include protective custody actions with respect to runaways taken for other jurisdictions.

CALCULATION OF RATES

The Uniform Crime Reporting program provides data for police executives to measure local problems. To facilitate this function, the local data must be converted into terms of rates and percentages. Simple formulas are presented which may assist in these computations.

CRIME RATES

One of the most meaningful crime statistics is the crime rate. This is the number of Part I offenses per 1,000 inhabitants. This rate can be calculated for any city, town or county.

To compute crime rates, divide the community population by 1,000 and divide the number of offenses in each class by that number. The answer is the number of offenses per 1,000 population and is the crime rate for that particular offense.

Example:

- Population = 75,000.
- Number of burglaries = 215.
Divide $75,000 \div 1,000 = 75.0$.
Divide $215 \div 75.0 = 2.87$.

The crime rate for burglary is 2.87 per 1,000 inhabitants. This same computation can be completed to give you arrest rates per 1,000 inhabitants.

CLEARANCE RATES

The percentage of crimes cleared is obtained by dividing the number of offenses cleared by the number of offenses known. This answer is then multiplied by 100.

Example:

- Number of clearances in robbery = 38.
- Number of total robberies = 72.
Divide $38 \div 72 = 0.528$.
Multiply $0.528 \times 100 = 52.8$.
The clearance rate for robbery is 52.8%.

CRIME TREND DATA

Local agencies can compute crime trends for a given offense for their individual agency for a particular period of time.

Example:

- Auto thefts in your jurisdiction for July through December last year were 21.
- Auto thefts in your jurisdiction for July through December this year were 29.
Subtract $29 - 21 = 8$. Notice that 8 is an increase over the past year.

Divide $8 \div 21 = 0.38$. Always divide the difference by the total in the earlier time period.

Multiply $0.38 \times 100 = 38.0$.

Your trend in auto theft is a 38.0% increase for the last six months of this year as compared to the last six months of last year.

POLICE EMPLOYEE DATA

Police employee rates are expressed as the number of employees per 1,000 inhabitants of your city or town. To compute this rate, divide your population by 1,000 and divide the number of employees in your department by this number.

Example:

- Your jurisdiction's population = 75,000.
- Your agency's number of employees = 102.
Divide $75,000 \div 1,000 = 75$.
Divide $102 \div 75 = 1.36$.

Your employee rate is 1.36 employees per 1,000 inhabitants.

AUTHORITY

The Maine Uniform Crime Reporting Act was passed by the Special Session of the 106th Legislature and was signed into law by the Honorable GOVERNOR KENNETH M. CURTIS on February 28, 1974.

AN ACT RELATING TO THE INSTALLATION OF A UNIFORM CRIME REPORTING SYSTEM.

Revised Statutes, Title 25, Section 1544, amended. Section 1544 of Title 25 is amended by adding the new paragraph at the end to read as follows:

It shall be the duty of all state, county and municipal law enforcement agencies, including those employees of the University of Maine appointed to act as policemen, to submit to the State Bureau of Identification uniform crime reports, to include such information as is necessary to establish a Criminal Justice Information System and to enable the supervisor to comply with section 1544. It shall be the duty of the Bureau to prescribe the form, general content, time and manner of submission of such uniform crime reports. The Bureau shall correlate the reports submitted to it and shall compile and submit to the Governor and Legislature annual reports based on such reports. A copy of such annual reports shall be furnished to all law enforcement agencies.

The Bureau shall establish a category for abuse by adults of family or household members and a category for crimes that manifest evidence of prejudice based on race, religion, sexual orientation, ethnicity, or disability that are supplementary to its other reported information. The Bureau shall prescribe the information to be submitted in the same manner as for all other categories of the uniform crime reports.
