A joint program of the Maine Department of Labor and the Maine Department of Economic and Community Development, GTI develops and coordinates training for firms intending to expand or locate in Maine, reorganize a workplace to remain competitive, or upgrade worker skills.

Whether your business is large or small, the GTI can provide financial assistance for:

- Training new employees
- Retraining current workers

Qualifying for GTI

Your company may qualify for GTI funding if you:

- Are a Maine private-sector employer
- Provide a post-training wage equal to 85% of the average wage for the given occupation in your labor market area
- Contribute at least 50% of the premium cost of employee health insurance, unless yours is a small business with fewer than 25 employees and have been in business fewer than three years
- Commit to long-term operation in Maine

GTI investment is intended to assist innovative skill development that advances the company and the worker to a higher level of winning performance including:

**High Performance Skills**
Training to enhance the high performance workplace, such as team participation, problem solving, critical thinking, leadership, customer service, self-management, or other essential competencies identified by the company.

**Technical Training**
Occupational skill training to maximize performance, productivity, use of technology, and global competitiveness.

**On-the-Job Training**
Supervised instruction delivered on the job to promote skill development specific to job function.

**Workplace Safety**
Non-routine health, safety, and/or ergonomics training to reduce injuries, illnesses, and worker compensation costs.

**Competitive Reskilling**
Technical, academic, or high performance training for new technologies, markets, or work processes.

**Assessment/Job Task Analysis**
Individual, occupational, or organizational evaluation of the skills and preparation required for successful job performance.

**Workplace Literacy**
Mathematics, communications, and computer instruction customized to job requirements, or advanced occupational training.

**Higher Education**
Occupation-specific learning through higher education institutions.
