LABOR MARKET DIGEST

March Data

May 2008

Union Members in 2007

In 2007, the share of wage and salary workers in the United States who were members of unions was 12.1 percent, essentially unchanged from 12.0 percent in 2006. The union membership rate has fallen from a high of 20.1 percent in 1983, the first year for which comparable union data are available. The number of union members increased slightly over the year to 15.7 million in 2007.

Government workers continued to have a substantially higher unionization rate (36.2 percent) than workers in the private sector (7.4 percent). Within the public sector, local government workers had the highest unionization rate, 41.9 percent. This group includes the heavily unionized occupations of teachers, police officers, and firefighters. Among private nonagricultural industries, the highest unionization rate occurred in transportation and utilities (23.2 percent). Unionization rates

in construction (13.0 percent), information (12.0 percent), manufacturing (11.7 percent), and education and health services (8.3 percent) industries were higher than the average as well. The nonagricultural industry sector with the lowest unionization rate in 2007 was financial activities (1.9 percent).

Among the occupational groups, education, training, and library occupations (37.2 percent) and protective service workers (35.2 percent) had the highest unionization rates in 2007. Transportation and moving materials occupations (19.0 percent); construction and extraction occupations (18.6 percent); installation, maintenance, and repair occupations (16.8 percent); community and social service occupations (14.9 percent); and production occupations (14.0 percent); also had higher-than-average rates. Among the major occupational groups, sales and related occupations had the lowest unionization rate — 3.3 percent.

Union affiliation of employed wage and salary workers, 2007 (in thousands)

¹ Civilian labor force, employed, and unemployed estimates are by place of residence. Current year estimates are preliminary; year-ago estimates are revised. Items may not add due to rounding. All data exclude members of the Armed Forces.

² Total employment includes nonfarm wage and salary workers, agricultural workers, unpaid family workers, domestics, the self employed, and workers involved in labor disputes.

³ People are classified as unemployed, regardless of their eligibility for unemployment benefits or public assistance, if they meet all of the following criteria: 1) they were not employed during the survey week; 2) they were available for work at that time; and 3) they made specific efforts to find employment some time during the prior four weeks. Persons laid off from their former jobs and awaiting recall and those expecting to report to a job within 30 days need not be looking for work to be counted as unemployed.

⁴ The unemployment rate is calculated by dividing the total number of unemployed by the total civilian labor force and is expressed as a percent.

⁵ Bangor; Lewiston-Auburn; Portland-South Portland-Biddeford; Portsmouth, NH-ME; and Rochester-Dover, NH-ME are Metropolitan Statistical Areas. Augusta, Brunswick, Rockland, Sanford, and Waterville are Micropolitan Statistical Areas.

⁶ Adjacent metropolitan and/or micropolitan statistical areas that have a specific level of economic integration, but still retain separate identities.

⁷ Maine portion of the area which includes towns in both Maine and New Hampshire.

Regional News

Central Maine

Steel-Pro hopes to add its property to Rockland's Pine Tree Zone. Steel-Pro intends to invest \$1 million in robotic equipment and building improvements. The investment would add eight jobs to the 36 currently at the site. ♦ **Fieldcrest Manor** in Waldoboro will close, eliminating 90 jobs. The closure will require the re-location of 39 patients. ♦ **Maine Woods Pellet Company** began production of industrial-grade wood pellets in Athens. The company employs 18 on site, and another 22 in the woods. ♦ **IntriCom Tibbetts** will transfer an unspecified number of production jobs from Camden to Singapore, while investing in the Camden research and development capabilities.

Western Maine

Eco Building Systems, formerly known as Oxford Homes, is set to temporarily lay off 93 employees, a company official said in April. ♦ In February, another manufactured home builder in Oxford - **Burlington Homes** on Route 26 - closed affecting 70 workers. ♦ **The Island Point Project** at the Great Falls in Lewiston received new life in April. The Winston Hospitality Group out of Raleigh, North Carolina, is set to invest \$26 million in the project that includes a Marriott Courtyard hotel, a redeveloped Cowan Mill, and new restaurant/retail complex. Construction is expected to start in 2009 and the hotel should open in 2010.

North/East Maine

Two Down East businesses earned a Yankee Editor's Choice designation. **The Commons** in Eastport, selling quality artisans' works, and **Harbor House** bed and breakfast in Jonesport were recognized in Yankee Magazine's Travel Guide to New England. ♦ **Lobster boat builders** are experiencing tough times as the catch drops and the economy slows. A declining harvest for 2007 (down 23 percent from 2006) and rising costs, combined with the economic slowdown, have resulted in fewer orders for new boats and a weak market for used boats.

Southern Maine

Sportshoe Center, based in Kennebunk, plans to sell six of its 14 stores, including the Wells and Scarborough stores in Maine. The company had recently sold stores in Vermont, New York, and New Hampshire. Further downsizing is expected for later this year. ♦ **Flotation Technologies** of Biddeford has received a \$5.5 million contract to build a custom-designed buoyancy system for an international energy company. Flotation Technologies designs and manufactures deepwater buoyancy and polyurethane elastomer systems. ♦ **Hydro International**, based in Portland, has purchased Eutek Systems, Inc. of Portland, Oregon. Hydro International makes products that control and treat stormwater, wastewater, and combined sewer overflows. Eutek manufactures equipment that removes fine grit, sugar sands, abrasives, and fixed solids from wastewater streams.

Maine Unemployment Rate 5.1 Percent in March

State Labor Commissioner Laura Fortman announced that the preliminary seasonally-adjusted March unemployment rate for Maine was 5.1 percent, equal to the national March rate of 5.1 percent.

"The Maine and national unemployment rates moved upward in March, both rising from 4.8 percent for February to 5.1 percent for March," said Commissioner Fortman. "Labor market trends in Maine are mirroring national trends; unemployment is rising as economic activity slows."

Between February and March, the number of seasonally-adjusted nonfarm wage and salary jobs was unchanged at 617,300. However, the number of jobs remained up 500 compared to March 2007. Over the year, the largest job gains were recorded in professional and business services, health care and social assistance; leisure and hospitality services; and retail trade. Job losses were registered in manufacturing, construction, and financial activities.

Other New England states reporting a seasonally-adjusted unemployment rate for March include New Hampshire, 3.9 percent; Massachusetts, 4.4 percent; Connecticut, 5.3 percent; and Rhode Island, 6.1 percent. The adjusted national rate for March was 5.1 percent, up from 4.8 percent for February and 4.4 percent for March 2007.

The not-seasonally-adjusted Maine unemployment rate for March was 5.8 percent, up from 5.7 percent for February and 5.1 percent for March 2007. The unadjusted national rate was 5.2 percent for March, unchanged from 5.2 percent for February and up from 4.5 percent for March 2007. Not-seasonally-adjusted March unemployment rates for Maine counties ranged from 4.1 percent for Cumberland County to 10.9 percent for Washington County (see graph).

Not-seasonally-adjusted nonfarm wage and salary jobs in Maine rose 2,200 between February and March to 599,300. The largest gains were recorded by accommodation and food services and local government.

¹ Hours worked and earnings data are computed based on payroll figures for the week including the 12th of the month for manufacturing production workers. Average hourly earnings are calculated on a gross basis, and include such factors as premium pay for overtime and shift differential, as well as changes in basic hourly and incentive rates of pay. Average weekly earnings are the product of weekly hours worked and hourly earnings.

¹ Seasonally Adjusted. ² Not Seasonally Adjusted.

Footnotes: From page 6.

¹ Nonfarm wage and salary employment estimates include all full- and part-time wage and salary workers who worked during or received pay for the pay period which includes the 12th of the month. Domestic workers in private households, proprietors, the self-employed, and unpaid family workers are excluded. Estimates measure the number of jobs by industry. Current month's estimates are preliminary; prior month and year-ago estimates are revised. These estimates are benchmarked to March 2007. As a measure of reliability, the March 2007 benchmark revision for total nonfarm wage and salary employment was 0.05 percent higher than the original sample-based estimate.

² Regular teachers are included in summer months whether or not specifically paid in those months.
