DEPARTMENT OF LABOR Bureau of Labor Standards Research & Statistics Division

AUTHORIZATION

Maine Revised Statutes 1964, Title 26, \$\$ 42, 43, 46: "The Bureau shall collect, assort and arrange statistical details relating to ... industrial pursuits in the State. He (the Director) may cause to be printed and distributed bulletins that shall be of public interest and benefit to the State."

COVERAGE

This survey, insofar as possible, is of universal coverage for Maine manufacturing establishments ranging from the single proprietorships to the largest corporations. Reports covering 2,701 establishments were received since the original mailing in May of 1989. Of these, 122 either did not operate or went out of business during 1988. Final tabulations, according to major breakdown, will appear as usual in the next Census. These tabulations will include any late reports which are not included in this Census.

Taking into consideration the nature of the Maine economy and the extent of coverage in this survey, the data contained in the Census of Maine Manufactures 1988 represent a comprehensive and valid statistical analysis of the Maine manufacturing economy.

William A. Peabody Acting Director Bureau of Labor Standards

CENSUS OF MAINE MANUFACTURES - 1988

BLS Bulletin 623

CENSUS OF MAINE MANUFACTURES

1988

The Research and Statistics Division of the Bureau of Labor Standards gratefully appreciates the contributions made by others toward this publication.

Thanks are due:

To Maine's manufacturing businesses for their cooperation in the collection of Census data, which makes this publication possible;

To the staff of the Bureau of Employment Security's Division of Economic Analysis and Research for their cooperation in providing the employment and wage data herein.

Prepared by:

Research & Statistics Division

John L. Rioux, Director

Robert W. Leighton, Statistician

Maine Production Value

Maine's gross value of manufacturing product for 1988 reached \$11,223.6 million. This was an increase of 12.0 percent over the 1987 reported value of product. In terms of constant dollars (using the Producer Price Index as a deflator), the value of Maine manufactures rose by 7.1 percent. (See Appendix F.)

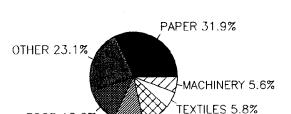

Figure 1. Value of Manufacturing Product in Current and Constant Dollars
Maine 1978-1988

The gross value of product for Durable and Nondurable Goods rose 11.0 percent and 12.7 percent, respectively.

The Paper industry, which dominates the state's value of product, had a \$3,841.2 million share of the manufacturing value in 1988.

Figure 2. Value of Manufacturing Product, Percentage by Major Industry Group Maine 1978 & 1988

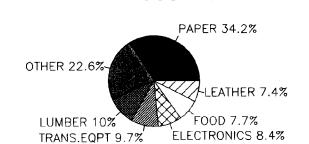

LUMBER 10.1%

FOOD 12.6%

LEATHER 10.9%

1978

1988

The graphs above show the top producing manufacturing industries as a percent of all manufacturing for 1978 and 1988, respectively.

The Lumber & Wood Products group remained in the second position with a 10.0 percent share or \$1,119.9 million. The Transportation Equipment group remained in the third spot in 1988 with 9.7 percent or \$1,083.8 million of the manufacturing value of product.

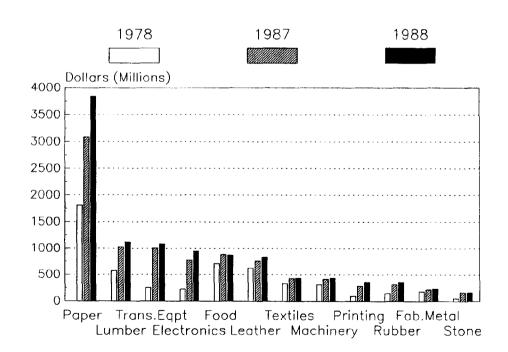

The industries with the largest percent share in the Durable Goods category were Lumber & Wood, 27.0 percent; Transportation, 26.1 percent; and Electric & Electronic Equipment, 22.8 percent.

The Groups with the largest share in the Nondurable Goods category were Paper, 34.2 percent or \$3,841.2 million; Food, 12.3 percent or \$869.7 million; and Leather, 11.7 percent or \$830.1 million.

The groups that experienced the largest percent gains in value of product in 1988 were Precision Instruments, Paper, and Printing & Publishing with increases of 42.6 percent, 18.3 percent, and 23.7 percent, respectively.

The only groups to suffer a drop in production were Petroleum & Coal Products and Food which fell 7.0 percent and 1.3 percent, respectively.

Figure 3. Value of Manufacturing Product by Major Industry Group Maine 1978, 1987 & 1988

Manufacturing Employment

Employment in Maine manufacturing increased overall by 2.5 percent, from 104,356 to 107,003 workers in 1988.

The Paper industry, once again, held the top spot with 15.3 percent of the overall employment; however, employment in the Paper industry slipped from 16,934 in 1987 to 16,414 in 1988.

The Transportation group moved up into the second position in 1988 with a 12.5 percent (13,329) share of the overall employment.

The Lumber & Wood Products group slipped one position to third with a 12.3 percent share or 13,157 workers employed.

Figure 4. Manufacturing Employment Maine 1978-1988

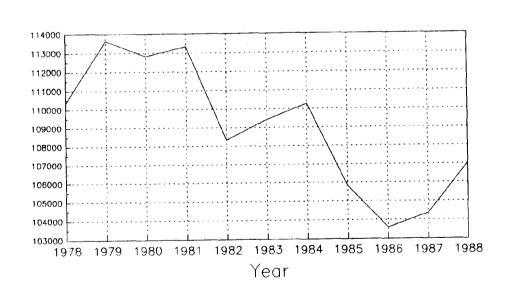

Figure 5. Manufacturing Employment, Percentage by Major Industry Group

Maine 1978 & 1988

1978

1988

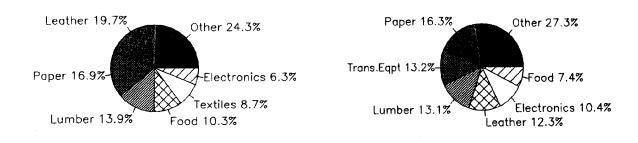

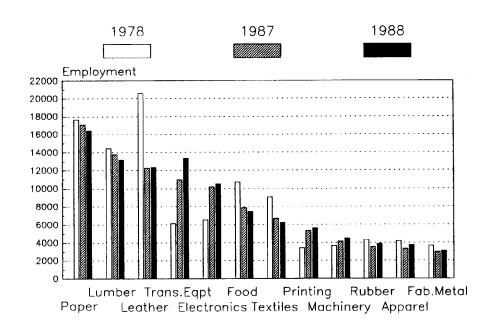

Figure 6.

Manufacturing Employment by Major Industry Group Maine 1978, 1987 & 1988

Employment by males and females increased 3.0 percent and 1.6 percent, respectively in 1988 to 71,902 for males and 35,101 for females.

Males comprised 67.2 percent of Maine's manufacturing employment while females made up 32.8 percent.

Union Coverage

The number of unionized manufacturing workers in Maine rebounded in 1988 with a 9.3 percent increase to 30,513 members after a drop in 1987 to 27,926 due to disruptions in the Paper and Apparel industries.

The percentage of unionized manufacturing workers increased by 1.7 percent to reach 28.5 percent of the overall manufacturing employment. This compares with 1978 figures when 33.1 percent of the manufacturing workers were organized.

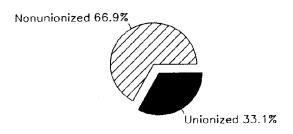

Of all unionized manufacturing workers in the state, 42.2 percent were in the Paper industry. This industry also had the highest reported proportion of unionization at 78.5 percent, rebounding from 68.0 percent in 1987.

The Transportation and Lumber & Wood groups followed with a 25.3 percent and 6.6 percent share, respectively of all unionized manufacturing workers.

Figure 7. Manufacturing Employment

1978

1988

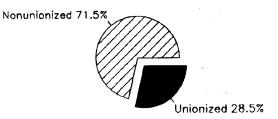

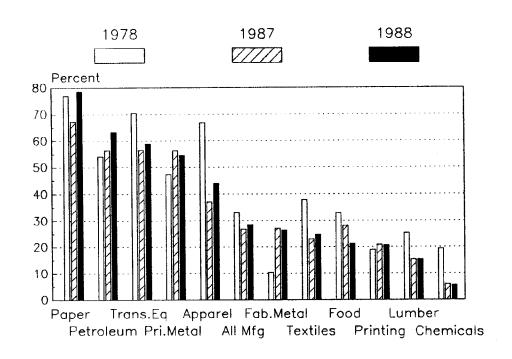

Figure 8. Manufacturing Employment by Major Industry Group, Percentage Covered by Union Contracts
Maine 1978, 1987 & 1988

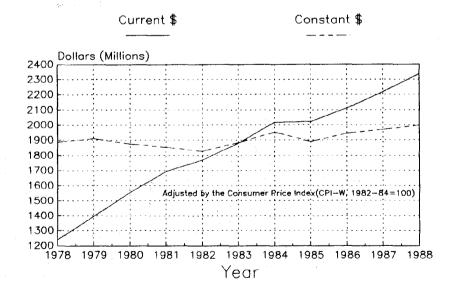

Gross Wages

Gross wages in Maine manufacturing increased 5.5 percent, to \$2,338.1 million in 1988.

The Paper industry accounted for 23.7 percent of the overall manufacturing wages in the state, paying out \$554.4 million in gross wages. Although this was a decrease of 3.2 percent, the Paper industry remained in the top spot. The Transportation and Lumber & Wood Products industry followed with \$348.6 million and \$233.6 million paid, accounting for 14.9 percent and 10.0 percent, respectively, of overall gross wages.

The largest increases in gross wages in 1988 occurred in the Transportation group, \$65.4 million; Electric & Electronic group, \$17.3 million; and Nonelectric Machinery group, \$17.2 million.

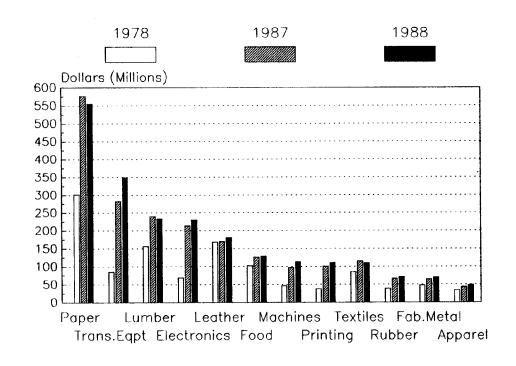

Figure 9. Gross Manufacturing Wages in Current and Constant Dollars Maine 1978-1988

The largest percent increases in gross wages for major industries were in the Precision Instruments and the Transportation Equipment groups which rose 43.0 percent (\$65.4 million) and 21.3 percent (\$4.4 million), respectively.

The largest percent drop in gross wages occurred in the Textile industry which fell 4.8 percent or \$5.5 million.

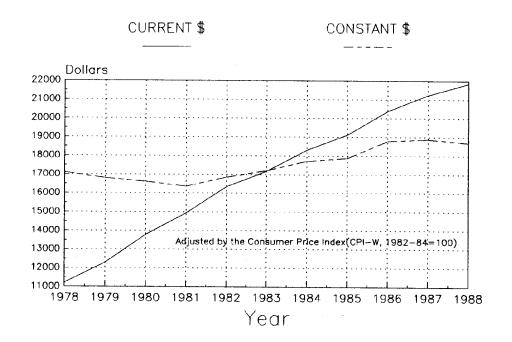

Figure 10. Gross Manufacturing Wages by Major Industry Group Maine 1978, 1987 & 1988

Average Wages

The average yearly wage for Maine manufacturing workers increased by \$618.00 (2.9 percent) to \$21,851.00 in 1988. Offsetting the increase in wages, however, was a rise in the annual average Consumer Price Index of 4.5 percent between the two years. (See Appendix F.) As a result, Maine manufacturing workers had a 1.6 percent decrease in buying power.

Figure 11. Average Manufacturing Wages in Current and Constant Dollars Maine 1978-1988

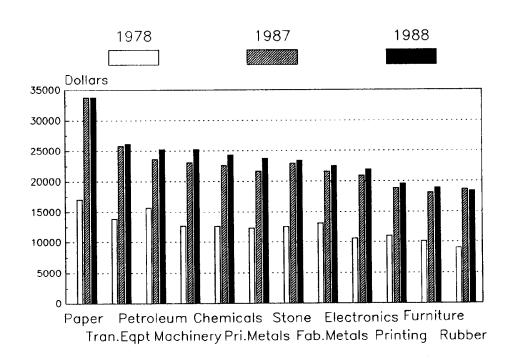

The Paper industry paid out the highest reported average wages, \$33,780.00, which was 154.6 percent of the Maine manufacturing average for 1988, while the Apparel industry paid out the lowest average wages, \$13,016.00 or 59.6 percent of the overall average.

The highest percent increase in average wages for the year occurred in the Precision Instruments, Primary Metals, and Nonel-ectric Machinery groups which rose 17.5 percent, \$2,710.00; 9.8 percent, \$2,124.00; and 9.1 percent, \$2,098.00, respectively.

The only industries to suffer a drop in average wages were the Rubber & Plastics group (1.0 percent) and the Paper group (0.1 percent).

Figure 12. Average Manufacturing Wages by Major Industry Group Maine 1978, 1987 & 1988

Capital Expenditures

Capital expenditures for 1988 were up 61.4 percent to \$968.8 million, an increase of \$368.7 million over 1987 figures.

Capital expenditures for Durable Goods rose 210.6 percent over 1987 to \$470.3 million. At the same time, capital expenditures for Nondurable Goods rose 11.1 percent to \$498.5 million in 1988.

Substantial gains in capital expenditures occurred in the Nonelectric Machinery, Leather, and Lumber & Wood industries which recorded increases of \$318.9 million, 2,569.5 percent; \$18.3 million, 410.0 percent; and \$17.8 million, 33.7 percent, respectively.

Decreases in capital expenditures occurred in the Transportation, Petroleum & Coal, and Furniture industries which dropped \$9.8 million, 30.2 percent; \$2.2 million, 67.5 percent; and \$1.5 million, 46.1 percent, respectively.

Figure 13. Capital Expenditures in Manufacturing in Current and Constant Dollars

Maine 1978-1988

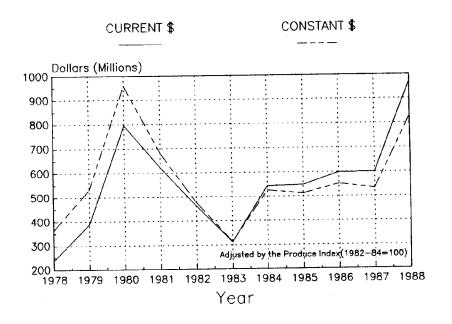

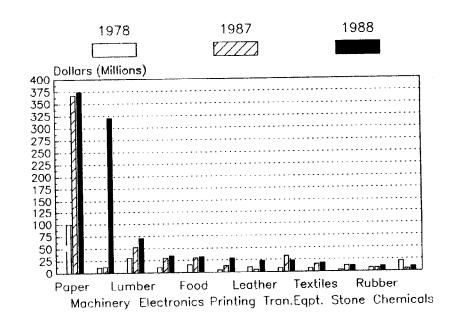

Figure 14. Capital Expenditures in Manufacturing by Major Industry Group
Maine 1978, 1987 & 1988

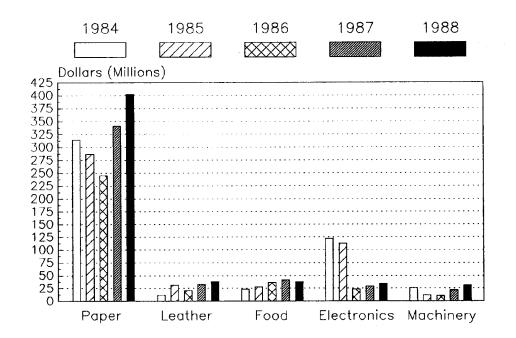

Foreign Imports

Imports used in the manufacturing process increased by 11.8 percent, to \$631.2 million in 1988, after a drop in 1986 and just a slight gain in 1987. This increase was due mainly to the Nonelectric Machinery and Paper groups which rose 42.6 percent (\$9.3 million) and 18.0 percent (\$61.3 million), respectively.

The Paper industry had the largest share of expenditures for imports overall in 1988 accounting for 63.8 percent of all imported materials used in manufacturing.

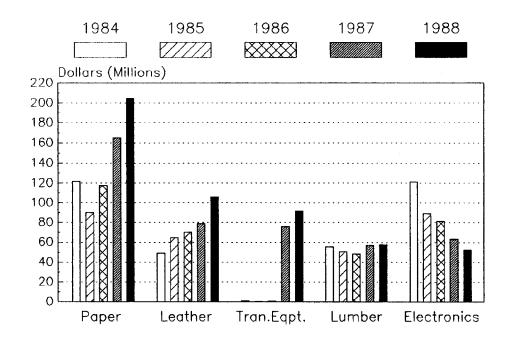

Figure 15. Imports Used in Manufacturing
by Major Industry Group
Maine 1984-1988

Foreign Exports

Exports to other countries by Maine manufacturers amounted to \$720.2 million, a 34.0 percent increase from 1987. This change was due mainly to the Electric & Electronic Equipment group, the Leather group, and the Paper group which rose 47.0 million, 74.3 percent; \$27.3 million, 34.5 percent; and \$39.6 million, 24.0 percent, respectively.

Figure 16. Manufacturing Exports
by Major Industry Group
Maine 1984-1988

Value of Manufacturing Product by County Group

For 1988, the I-95 Corridor remained the top producing area. (See Table 4.) It contained the only three counties in Maine that recorded over one billion dollars in manufacturing product: Cumberland, \$1.76 billion; Penobscot, \$1.57 billion; and York, \$1.31 billion. These three counties contributed to \$6.8 billion for this area.

Following the I-95 Corridor was the Western group of counties, which totaled \$2.33\$ billion.

Over the past ten years, the areas with the largest increases in value of product were the Western Area, 126.1 percent; the I-95 Corridor, 99.1 percent; and the Northern area, 87.8 percent;

APPENDIX A

Technical Notes and Definitions

AVERAGE GROSS WAGES is the figure obtained by dividing GROSS WAGES by the TOTAL EMPLOYMENT.

CIVIL DIVISIONS are geographical units of government. Major civil divisions are counties; minor civil divisions are cities, towns, plantations, and townships.

ECONOMIC AREAS are defined in Appendix C.

EMPLOYMENT is the number of employees reported in each month, as of the payroll period including the 12th of the month, averaged at the establishment level over the full twelve months.

ESTABLISHMENT is defined as a single physical location where industrial operations are performed; it is, therefore, a place of business rather—than a legal entity or company which may have units in many locations. Where appropriate (e.g., logging operations) combined reports have been assigned to no specific civil division, merely to the county in which said principal location is found. A small number of multi-county operations report on a statewide basis.

EXPENDITURES FOR PLANT MODERNIZATION AND EQUIPMENT (or Capital Expenditures) is the actual amount spent during the survey year and planned for the two succeeding years for three categories: New Structures and/or Additions or Alterations to Existing Structures; Purchase of Existing Structures; and Purchase of New or Used Machinery or Equipment. Land costs are excluded.

FOREIGN TRADE - EXPORTS is the sales value of goods manufactured at an establishment that were shipped to foreign countries either directly or via out-of-state agents. IMPORTS is the cost of materials imported from foreign countries for use in the manufacturing process at an establishment.

GROSS WAGES shows total earnings during the calendar year of all employees before deductions, as reported to the Maine Bureau of Employment Security for Unemployment Insurance taxes. Before 1976, executives were excluded and wages were reported directly to the Bureau of Labor Standards. Because various fringe benefits such as payroll taxes, insurance, etc. paid by employers, are excluded, this data does not represent total labor costs on the part of the employer.

SPECIAL STUDIES from Census data are available upon written request to the Director of the Bureau of Labor Standards. The Bureau reserves the right to reject any request or to charge for costs incurred.

STANDARD INDUSTRIAL CLASSIFICATION (SIC) The Standard Industrial Classification system as compiled by the Executive Office of the President, Office of Management and Budget, was used to determine the industry title applicable to each establishment. Descriptions of major industry groups may be found in Appendix B. Each establishment has been classified according to its principal activity.

VALUE OF PRODUCT is the net selling price of all goods manufactured or processed during the calendar year. If industrial operations were on a contractual basis, the total of amounts received for contract work or services performed has been included.

WORKERS UNDER UNION CONTRACT is the number of workers organized under a union contract and/or a collective bargaining agreement. It represents the number from one representative payroll period; the comparative figure for NUMBER OF WORKERS is an average for the year.

Shown below is a copy of the 1988 Census of Maine Manufactures form mailed to Maine's manufacturing establishments in May, 1989.

VI. TEMPORARY CONTRACT WORKERS

A. Contract Cost

Total cost of temporary contract labor
purchased during the year. \$

The object of this question is to determine the number of temporary workers contracted through the employment agencies used in manufacturing in a manner that is as close as possible to that used to report regular employees. The monthly number of workers should be for the week including the 12th of the month.

B. Number of Temporary Contract Workers

INSTRUCTIONS and EXPLANATION NOTES

GENERAL: If this establishment has been sold to others, or has gone out of business, return this form with the name and address of the successor, if any, and the date of such sale or discontinuance. This schedule must be filed to reflect manufacturing operations during the year even though address discontinued business during or after that year. PARTIAL REPORTS ARE THEREFORE REQUIRED. New firms organized or beginning operations during the year must slow file.

The purpose of this report is to determine the condition of industry in the state for the calendar year under consideration and it is clear that the inclusion in our tabulation of reports for establishments filed under a fiscal year basis which do not reflect calendar year data can only operate to defeat this purpose. It is necessity therefore that this report be prepared to reflect calendar year operations, subject to this consideration. If in the considered judgment of the responsible authority in the reporting manufacturer's organization, the financial data called for in the schedule do not materially differ, whether on a calendar of fiscal basis, fiscal year figures will be accepted as representative of the calendar year operations. HOWEVER, THE NUMBER OF CONTRACT WORKERS AND COSTS SHOULD BE REPORTED ON A CALENDAR YEAR BASIS IN EVERY CASE.

ITEM 1: List cities or towns in which the establishments are located. Also indicate the number of establishments or separate production units located at that city or town which are covered or included within this report. If any change has taken place in the name, address or location please make the necessary changes on the address label.

ITEM II: Describe and list separately your products as fully as possible in column (A). In column (B) indicate the basic materials used to make each item, and in column (C) check whether the basic materials were produced in the same establishment. Indicate in column (D) the quantity produced and also the unit of measure (example: cubic feet, cords, thousand board feet, quarts, gallons, pounds). In column (E) state manufacturer's selling value at this establishment of all goods produced during the year whether sold or not. DO NOT insider your annual sales as representing your product value unless they are identical. Sub-tiem 7 is found principally in the textile flinishing, apparel, logging, and lumbering industries where certain operations are performed on materials owned by others—total receipts for such work should be reported.

ITEM III: The purpose of this inquiry is to determine the amounts invested or to be invested in the physical productive capacity of the State's manufacturing industries. It is highly important that we have an indication of the planned investment as well as that which has already been effected. The figures are confidential and released only in summary form.

ITEM IV: A. Enter the estimated sales value of goods manufactured at this establishment that were shipped to foreign countries, either directly or via out-of-state agents.

B. Enter the estimated cost of materials imported from foreign countries for use in the manufacturing at this establishment.

PLEASE READ INSTRUCTIONS -- If you have further questions, please contact this office.

BUREAU OF LABOR STANDARDS DIVISION OF RESEARCH AND STATISTICS STATE HOUSE STATION 45 AUGUSTA, MAINE 04333 TELEPHONE No. 207-289-6446

APPENDIX B

Major Industry Descriptions, 1972 SIC

THE DIVISION AS A WHOLE

The manufacturing division includes establishments engaged in the mechanical or chemical transformation of materials or substances into new products. These establishments are usually described as plants, factories, or mills and characteristically use power driven machines and materials handling equipment. Establishments engaged in assembling component parts of manufactured products are also considered manufacturing if the new product is neither a structure nor other fixed improvement. Also included is the blending of materials, such as lubricating oils, plastics, resins, or liquors.

The materials processed by manufacturing establishments include products of agriculture, forestry, fishing, mining, and quarrying as well as products of other manufacturing establishments. The new product of a manufacturing establishment may be "finished" in the sense that it may be "semi-finished" to become a raw material for an establishment engaged in further manufacturing. For example, the product of the copper smelter is the raw material used in electrolytic refineries; refined copper is the raw material used by certain electrical equipment manufacturers.

The materials used by manufacturing establishments may be purchased directly from producers, obtained through customary trade channels, or secured without recourse to the market by transferring the product from one establishment to another which is under the same ownership. Manufacturing production is usually carried on for the wholesale market, for interplant transfer, or to order for industrial users, rather than for direct sale to the domestic consumer.

20 FOOD AND KINDRED PRODUCTS: This major group includes establishments manufacturing or processing food and beverages for human consumption and certain related products, such as manufactured ice, chewing gum, vegetable and animal fats and oils, and prepared feeds for animals and fowls.

22 TEXTILE MILL PRODUCTS: This major group includes establishments engaged in performing any of the following operations: preparation of fiber and subsequent manufacturing of yarn, thread, braids, twine, and cordage; (2) manufacturing broad woven fabric, narrow woven fabric, knit fabric, and carpets and rugs from yarn; (3) dyeing and finishing fiber, yarn, fabric, and knit apparel; (4) coating, waterproofing, or otherwise treated fabric: (5) the integrated manufacture of knit apparel and finished articles from yarn; and (6) the manufacture of felt goods, lace nonwoven fabrics, and miscellaneous tiles.

This classification makes no distinction between the two types of organizations which operate in the textile industry:

(1) the "integrated" mill which purchases materials, produces textiles, and related articles within the establishment, and sells the finished products; and (2) the "contract" or "commission" mill which processes materials owned by others. Converters or other manufacturing industries; establishments which assign materials to contract mills for processing (other than knitting) are classified in nonmanufacturing industries; establishments which assign yarns to contractors or commission knitters for the production of knit products are also classified in this Group.

23 APPAREL AND OTHER FINISHED PRODUCTS MADE FROM FABRICS AND SIMILAR MATERIALS: This major group, known as the cutting-up and needle trades, includes establishments producing clothing and fabricating products by cutting and sewing purchased woven or knit textile fabrics and related materials, such as leather, rubberized fabrics, plastics, and furs.

Included in the apparel industries are three types of establishments: (1) the "regular"

or insider factories, (2) contract factories, and (3) apparel jobbers. The factories perform all of the usual manufacturing functions within their own plant; the contract factories manufacturing apparel from materials owned by others: and apparel jobbers perform the entrepreneurial functions of a manufacturing company, such as buying raw materials, designing and preparing samples, arranging for the manufacture of the garments from their materials and selling of the finished apparel.

Custom tailors and dressmakers not operating on a factory basis are classified in Retail Trade; establishments which purchase and resell finished garments but do not perform the functions of the apparel jobbers are classified in Wholesale Trade.

24 LUMBER AND WOOD PRODUCTS, EXCEPT FURNI-TURE: This major group includes logging camps engaged in cutting timber and pulpwood; merchant sawmills, lath mills, shingle mills, cooperage stock mills, planing mills, and plywood mills and veneer mills engaged in producing lumber and wood basic materials; and establishments engaged in manufacturing finished articles made entirely or mainly of wood or wood substitutes. Certain types of establishments producing wood products are classified elsewhere. For example, furniture and office and store fixtures classified in Major Group 25; musical instruments, toys, and playground equipment, and caskets in Major Group 39. Woodworking in connection with construction, in nature of reconditioning and repair, or performed to individual order, is classified in nonmanufacturing industries.

25 FURNITURE AND FIXTURES: This major group includes establishments engaged in manufacturing household, office, public building, and restaurant furniture; and office and store fixtures. Establishments primarily engaged in the production of millwork and wood kitchen cabinets are classified in Major Group 24; cut stone and concrete furniture in Major Group 32; laboratory and hospital furniture in Major Group 38; beauty and barber shop furniture in Major Group 39; and woodworking to individual order or in the nature of reconditioning and repair nonmanufacturing industries.

26 PAPER AND ALLIED PRODUCTS: This major group includes the manufacture of pulps from wood and other cellulose fibers and from rags; the manufacture of paper and paper-board; and the manufacture of paper and paperboard into converted products, such as paper coated off the paper machine, paper bags, paper boxes, and envelopes. Certain types of converted paper products are classified elsewhere, such as abrasive paper in Major Group 32; carbon paper in Major Group 38.

27 PRINTING, PUBLISHING, AND ALLIED PRODUCTS: This major group includes establishments engaged in printing by one or more of the common processes, such as letter press, lithography, gravure, or screen; and those establishments which perform services for the printing trade, such as bookbinding, typesetting, engraving, photoengraving, and electrotyping. This major group also includes establishments engaged in publishing newspapers, books, and periodicals, regardless of whether or not they do their own printing. News syndicates are classified in Service Industries, and textile printing and finishing in Major Group 22.

28 CHEMICALS AND ALLIED PRODUCTS: This major group includes establishments producing basic chemicals and establishments manufacturing products by predominantly chemical processes. Establishments classified in this major group manufacture three general classes of products: (1) basic chemicals, such as acids, alkalies, salts, and organic chemicals; (2) chemical products to be used in further manufacture, such as synthetic fibers, plastics materials, dry colors, and pigments; (3) finished chemical products to be used for ultimate consumption, such as drugs, cosmetics, and soaps; or to be used as materials or supplies in other industries, such as paints, fertilizers, and explosives. The mining of natural rock salt is classified in mining industries. Establishments primarily engaged in manufacturing nonferrous metals percentage ferrous alloys are and high classified in Major Group 33; silicon carbide in Major Group 32; baking powder, other leavening compounds, and starches in Major Group 20; and artists' colors in Major Group 39. Establishments primarily engaged in packaging, repackaging, and bottling of purchased chemical products, but not engaged in manufacturing chemicals and allied products, are classified in trade industries.

29 PETROLEUM REFINING AND RELATED INDUSTRIES: This major group includes establishments primarily engaged in petroleum refining, manufacturing paving and roofing materials, and compounding lubricating oils and greases from purchased materials. Establishments manufacturing and distributing gas to consumers are classified in public utilities industries, and those primarily engaged in producing coke and by-products in Major Group 33

30 RUBBER AND MISCELLANEOUS **PLASTICS** PRODUCTS: This major group includes establishments manufacturing from natural. synthetic, or reclaimed rubber, gutta-percha, balata, or gutta siak, rubber products such as tires, rubber footwear, mechanical rubber goods, heels and soles, flooring, and rubber sundries. This group also includes establishments primarily manufacturing tires, but establishments primarily recapping retreading automobile tires are classified in Services. This group also includes establishments engaged in molding primary plastics for the trade, and manufacturing miscellaneous finished plastics products. manufacture of elastic webbing is classified in Major Group 22; products made of elastic webbing and garments made from the rubberized fabrics in Major Group 23; and synthetic rubber in Major Group 28.

31 LEATHER AND LEATHER PRODUCTS: This major group includes establishments engaged in tanning, currying, and finishing hides and skins, and establishments manufacturing finished leather and artificial leather products and some similar products made of other materials. Leather converters are also included.

32 STONE, CLAY, GLASS AND CONCRETE PRODUCTS: This major group includes establishments engaged in manufacturing flat glass and other glass products, cement, structural clay products, pottery, concrete and gypsum products, cut stone, abrasive and asbestos

products, etc., from materials taken principally from the earth in the form of stone, clay, and sand. When separate reports are available for mines and quarries operated by manufacturing establishments classified in this major group, the mining quarrying activities other than those of Minerals, ground or treated, are classified herein with the manufacturing operations.

If separate reports are not available for crushing, grinding, and other preparation activities of Minerals, ground or treated, these establishments are classified in Mining.

33 PRIMARY METAL INDUSTRIES: This major group includes establishments engaged in the smelting and refining of ferrous and nonferrous metals from ore, pig, or scrap; in the rolling, drawing, and alloying of ferrous and nonferrous metals; in the manufacture of castings and other basic products of ferrous and nonferrous metals; and in the manufacture of nails, spikes, and insulated wire and cable. This major group also includes the production of coke. Establishments primarily engaged in manufacturing metal forgings or stampings are classified in Major Group 34.

34 FABRICATED METAL PRODUCTS, EXCEPT MACHIN-ERY AND TRANSPORTATION EQUIPMENT: This major group includes establishments engaged in fabricating ferrous and nonferrous metal products such as metal cans, tinware, hand cutlery, general hardware, nonelectric heating apparatus, fabricated structural metal products, metal forgings, metal stampings, ordnance (except vehicles and guided missiles), and a variety of metal and wire products not elsewhere classified. Certain important segments of the metal fabricating industries are classified in other major groups, such as machinery in Major Groups 35 and 36; transportation equipment, including tanks, in Major Group 37; professional scientific and controlling instruments, watches and clocks in Major Group 38; and jewelry and silverware in Major Group 39. Establishments primarily engaged in producing ferrous and nonferrous metals and their alloys are classified in Major Group 33.

35 MACHINERY, EXCEPT ELECTRICAL: This major group includes establishments engaged in manufacturing machinery and equipment, other than electrical equipment (Major Group 36) and transportation equipment (Major Group 37). Machines powered by built-in or detachable motor ordinarily are included in this major group, with the exception of electrical household appliances (Major Group 36). Portable tools, both electric and pneumatic powered, are included in this major group, but hand tools are classified in Major Group 34.

36 ELECTRICAL AND ELECTRONIC MACHINERY, EQUIPMENT AND SUPPLIES: This major group includes establishments engaged in manufacturing machinery, apparatus, and supplies for the generation, storage, transmission, transformation, and utilization of electrical The manufacture of household energy. appliances included in this group, industrial machinery and equipment powered by built-in or detachable electric motors is classified in Major Group 35. Establishments primarily engaged in manufacturing instruments for indicating, measuring, and recording electrical quantities are classified in Major Group 38.

37 TRANSPORTATION EQUIPMENT: This major group includes establishments engaged in manufacturing equipment for transportation of passengers and cargo by land, air and water. Important products produced by establishments classified in this major group include motor vehicles, aircraft, guided missiles and space vehicles, ships, boats, railroad equipment, and miscellaneous transportation equipment such as motorcycles, bicycles, and snowmobiles. Establishments primarily engaged in manufacturing mobile homes are classified in Major Group 24.

38 MEASURING, ANALYZING, AND CONTROLLING INSTRUMENTS, PHOTOGRAPHIC, MEDICAL, AND OPTICAL GOODS; WATCHES AND CLOCKS: This major group includes establishments engaged in Manufacturing instruments (including professional and scientific) for measuring, testing, analyzing, and controlling, and their associated sensors and accessories; optical instruments and lenses; surveying and

drafting instruments; surgical, medical, and dental instruments, equipment, and supplies; opthalmic goods; photographic equipment and supplies; and watches and clocks.

39 MISCELLANEOUS MANUFACTURING INDUSTRIES: This major group includes establishments primarily engaged in manufacturing products not classified in any other manufacturing major group. Industries in this group fall into the following categories: jewelry, silverware and plated ware; musical instruments; toys, sporting and athletic goods; pens, pencils, and other office and artists' materials, buttons, costume novelties, miscellaneous notions; brooms and brushes; caskets; and other miscellaneous manufacturing industries.

APPENDIX C

Geographic Definitions of Economic Areas

This publication has contained a tabulation entitled "Economic Areas" since 1954. This series consists of thirty areas which were delineated on the basis of population and manufacturing employment cross-sectional evaluation. Care should be exercised in making comparison of these thirty areas with the earlier areas as there have been changes made in almost all of the regions.

The civil division with the largest population is in capital letters, and the civil division with the most workers employed in manufacturing is underlined. The minor civil division contained in the areas are as follows:

Area No.	1988 Population	Town
1	16,482	Eagle Lake, Ft. Kent, Frenchville, Grand Isle, MADAWASKA, St. Agatha, Van Buren, Wallagrass
2	44,902	Ashland, Blaine, Caribou, Caswell, Chapman, Easton, Ft. Fairfield, Limestone, Mapleton, Mars Hill, Masardis, <u>PRESQUE</u> ISLE, Wade, Washburn, Westfield, Woodland
3	13,090	Bridgewater, Dyer Brook, Hodgdon, HOULTON, Island Falls, Linneus, Ludlow, Merrill, Monticello, Oakfield, Smyrna
4	11,153	East Millinocket, Medway, MILLINOCKET
5	8,889	Alexander, <u>Baileyville</u> , <u>Baring</u> , <u>CALAIS</u> , <u>Meddybemps</u> , <u>Princeton</u> , <u>Robbinston</u>
6	5,686	Dennysville, Eastport, LUBEC, Pembroke, Perry
7	5,730	Cutler, E. Machias, MACHIAS, Machiasport
8	8,726	Addison, Beals, <u>Cherryfield</u> , Columbia Falls, Harrington, Jonesboro, JONESPORT, Milbridge, Steuben
9	17,733	BAR HARBOR, Cranberry Isles, Franklin, Gouldsboro, Hancock, Mt. Desert, Sorrento, <u>Southwest Harbor</u> , Sullivan, Tremont, Trenton, Winter Harbor
10	8,881	BLUE HILL, <u>Brooklin</u> , <u>Brooksville</u> , <u>Castine</u> , <u>Deer Isle</u> , <u>Sedgwick</u> , <u>Stonington</u> , <u>Swans Island</u>
11	15,206	Bucksport, ELLSWORTH, Orland, Penobscot, Surry, Verona
12	100,278	Alton, Argyle, <u>BANGOR</u> , Bradford, Bradley, Brewer, Carmel, Charleston, Clifton, Corinth, Dedham, Eddington, Edinburg, Glenburn, Greenbush, Greenfield, Hampden, Hermon, Holden, Hudson, Kenduskeag, Lagrange, Levant, Milford, Newburg, Old Town, Orono, Orrington, Veazie

Area No.	1988 Population	Town
13	10,039	Burlington, Enfield, Grand Falls, Howland, Lee, <u>LINCOLN</u> , Passadumkeag, Springfield, Winn
14	16,149	Abbot, Brownville, DOVER-FOXCROFT, Greenville, <u>Guilford</u> , Milo, Monson, Sangerville, Sebec, Shirley

17	35,774	Appleton, Camden, Cushing, Friendship, Hope, Matinicus Isle, North Haven, Owls Head, <u>ROCKLAND</u> , Rockport, St. George, S. Thomaston, Thomaston, Union, Vinalhaven, Warren, Washington
18	23,443	Boothbay, Boothbay Harbor, Bremen, Bristol, Damariscotta, Edgecomb, Newcastle, Nobleboro, S. Bristol, Southport, WALDOBORO, Westport, Wiscasset
19	66,887	AUGUSTA, Farmingdale, Gardiner, Hallowell, Jefferson, Litchfield, Manchester, Monmouth, Pittston, Randolph, Readfield, Richmond, Wayne, W. Gardiner, Whitefield, Windsor, Winthrop
20	59,668	Albion, Belgrade, Benton, China, Clinton, Fairfield, Freedom, Mt. Vernon, Oakland, Palermo, Smithfield, Sidney, Unity, Vassalboro, WATERVILLE, Winslow
21	31,938	Anson, Athens, Bingham, Canaan, Cornville, Embden, Harmony, Hartland, Madison, Mercer, Norridgewock, <u>Pittsfield</u> , SKOWHEGAN, Solon, Starks
22	30,020	Avon, Chesterville, FARMINGTON, Industry, Jay, Kingfield, Livermore Falls, New Portland, New Sharon, New Vineyard, Phillips, Strong, Temple, Weld, Wilton
23	102,011	Auburn, Bowdoin, Durham, Greene, Leeds, <u>LEWISTON</u> , Lisbon, Mechanic Falls, New Gloucester, Poland, Sabattus, Turner
24	58,965	Bath, Bowdoinham, BRUNSWICK, Dresden, Freeport, Georgetown, Harpswell, Topsham, W. Bath, Woolwich
25	185,805	Cape Elizabeth, Cumberland, Falmouth, Gorham, Gray, N. Yarmouth, PORTLAND, Raymond, Scarborough, S. Portland, Standish, Westbrook, Windham, Yarmouth
26	20,860	Andover, Bethel, Canton, Dixfield, Hanover, Hartford, Mexico, Newry, Peru, Roxbury, <u>RUMFORD</u> , Sumner

Area <u>No.</u>	1988 Population	Town
27	20,929	Buckfield, Greenwood, Hebron, Lovell, NORWAY, Oxford, Paris, Stoneham, Sweden, Waterford, W. Paris, Woodstock
28	23,053	Baldwin, <u>BRIDGTON</u> , Brownfield, Casco, Cornish, Denmark, Fryeburg, Harrison, Hiram, Naples, Parsonsfield, Porter, Sebago
29	105,854	Alfred, Arundel, Biddeford, Buxton, Dayton, Hollis, Kennebunk, Kennebunkport, Limerick, Limington, Lyman, Newfield, Old Orchard Beach, Saco, <u>SANFORD</u> , Shapleigh, Waterboro
30	53,996	Berwick, Eliot, Kittery, Lebanon, N. Berwick, S. Berwick, Wells, YORK

NOIE: Since the 1988 population census data is unavailable for some unorganized townships, the area population in some instances may be slightly understated. Population data is from Population Estimates for Minor Civil Divisions by County, Maine 1988; Maine Department of Human Services, Office of Data, Research, and Vital Statistics.

APPENDIX F

Raw and Adjusted Data Comparisons, 1987-1988

The data on the following table has been adjusted using two major price indexes published by the U.S. Department of Labor, Bureau of Labor Statistics. The Value of Product data is adjusted by the Producer Price Index, (formerly the Wholesale Price Index) using a base year of 1982 = 100 unless noted. Wage data is adjusted by the Consumer Price Index for Urban Wage Earners and Clerical Workers and the base year is 1982/84 = 100. The adjustments made are based on the annual average for the respective index.

The Consumer Price Index is a monthly statistical measure of the average change in prices in a fixed market basket of goods and services.

The CPI is based on prices of food, clothing, shelter, fuel, drugs, transportation fares, doctors' and dentists' fees, and other goods and services that people buy for day-to-day living. The quantity and quality of these items is kept essentially unchanged between major revisions so that only price changes will be measured. Prices are collected from over 18,000 tenants, 24,000 retail establishments, and 18,000 housing units for property taxes in 85 urban areas across the country. All taxes directly associated with the purchase and use of items are included in the index.

Though the CPI is often called the "Cost-of-Living Index", it measures only price change, which is just one of several important factors affecting living costs.

CPI-W

1987 Annual Average = 112.5 1988 Annual Average = 117.0

Producer Price Indexes measure average changes in prices received in primary markets of the United States by producers of commodities in all stages of processing. The sample used for calculating these indexes contains about 2,800 commodities produced in the manufacturing, agriculture, forestry, fishing, mining, gas and electricity, and public utilities sectors. The universe includes all commodities produced or imported for sale in commercial transactions in primary markets in the United States.

To the extent possible, prices used in calculating Producer Price Indexes apply to the first significant commercial transaction in the United States, from the production or central marketing point. Price data are generally collected monthly, primarily by mail questionnaire. Most prices are obtained directly from producing companies on a voluntary and confidential basis. Prices generally are reported for the Tuesday of the week containing the 13th day of the month.
