Republican State Convention.

A Republican State convention will be held in City Hall, Portland, Wednesday, June 27, 1906, at 10.30 o'clock a.m., for the purpose of nominating a candidate for Governor to be supported at the September election, and transacting any other business that may properly come before it.

The basis of representation will be as follows: Each city, town and plantation will be entitled to one delegate; and for each 75 votes cast for the Republican candidate for Governor in 1904, an

can candidate for Governor in 1904, an additional delegate; and for a fraction of 40 votes in excess of 75 votes, a further additional delegate. Vacancies in the delegation of any city, town or plantation can only be filled by residents of the county in which the vacancy ex-

The state committee will be in session in the reception room of the hall at 9.30 a. m. of the day of the convention, for the purpose of receiving credentials of delegates. In order to be eligible to participate in the Convention, delegates must be elected subsequent to date of the cell for the Convention.

believe in the general principles and po-licy of the Republican party and desire its success at the polls in the coming election in this state, are cordially invited to unite under this call in electing delegates to the Convention.

Per order, Republican State Com.
SETH M. CARTER, chairman.
BYRON BOYD, secretary.
Lewiston, April 20, 1906.

Republican County Convention.

The republicans of Franklin county are invited to send delegates to meet in convention in Music hall, Farmington, on Tuesday, June 12, 1906, at ten o'clock in the forenoon, for the purpose of nom-inating candidates to be supported at the next state election, for the follow-ing offices, viz: State senator, register of probate, register of deeds, sheriff, county commissioner, clefk of courts, county attorney, county treasurer; also to choose a county committee and transact any other business that may properly come before the convention. The basis of representation will be as fol-

entitled to the following number of

delegates: Rangeley, Carthage, Chesterville, Salem, Strong, Temple, Weld, Wilton, Eustis, Farmington, reeman. Plantations Coplin, Dallas, Jay, Kingfield, Sandy River, New Sharon, New Vineyard, 5 Lang Rangeley,

Address.

Rev. J. A. Ford The speaker of the day, Rev. Mr. Palmer, said in part, after expressing his high appreciation of the work of the schools and the great excellence of the flag drill, "There is a great contrast between the scenes of today and those of war times. Then a great nation was on its knees looking through its tears to heaven, today we come to pay tribute

"Macauley said, 'The people who do not commemorate the deeds of their heroes will never do anything worthy of being celebrated by their descendants.'

to that 'other living called the dead.'

"There was bequeathed to us great names, and their influences in part of the country, but the work of the volunteer was essential to the fame of the commanders.

"The cost of the war was great, and well we inquire what we have in return? A united country, freedom, social and national prestige, and a mighty reenforcement for popular liberty throughout the world. The veterans stood for the country at a crucial time when to fail would check the advance of liberty for a century.

"While war is to be deplored it has been the antecedent of better conditions, the tempest to clear the atmosphere, the ploughshare that turns the soil to receive seed for a richer harvest.

"Marc Anthony said, 'From Cæsar's flowing wounds great Rome shall suck reviving blood.

"They may ask what is now the meaning of our National Ensign? The red

AMONG THE CHURCHES.

The annual sermon before the G. A. R. was preached by Rev. G. H. Woodward at the Union church. The number of the veterans is constantly lessening and there were but few to appear, escorted by True Blue Council of the Jr. O. U. A. M.

Many flags about the church with the glowing colors of the blossoming plants upon the platform made a spot of brightness and cheer notwithstanding the gloom and rain of the day.

The following is the program of the

morning services: Organ prelude.

Coronation. Invocation. Anthem, "A Flag in an Iron Star." Micah 4:15; Isaiah 11:1-10; Scripture reading,

Anthem, - "The Angels are calling the Roll. Anthem, - "Sweet Be Their Sleep."

Hymn, - "America."

Romans xiii, 4, "For he is a minister of God to thee for good. But if thou do that which is evil, be afraid; for he beareth not the sword in vain; for he is a roused the animosity of the South was a roused to south was a roused a minister of God, an avenger for wrath brutally attacked as he bent over his desk in the United States Senate by to him that doeth evil.'

In the scriptures we have two teachings regarding the use of the sword, which at first appear to be antagonistic. In fact they are antagonistic if we give to the words of Jesus the literalness which is ascribed to them by the interpretations of Count Tolstoi. Jesus said "If another smite thee on one cheek, turn to him the other. If a man take away thy coat give him thy cloak also." Tolstoi investing these with perfect literalness deduces the doctrine of absolute nonresistance. According to his teaching no infringement upon the rights of a person is to be met by resistance. If his interpretations of the words of Jesus were followed a man might strike down his wife or child upon the street and no one interfere. the street and no one interfere. state of lawlessness and anarchy would prevail everywhere. Tolstoi does not accept the use of the words as a rhetorical figure of speech, legitimate in its use of giving emphasis to what was being said. Jesus often used such figures ing said. Jesus often used such figures, as when he spoke of those who strained at a gnat and swallowed a camel. one ever swallowed a camel but the use of the expression emphasized the truth he would utter. So now by these illustrations he is forbidding one holding or manifesting the spirit of revenge. No one should set in a spirit of vengeance, for injure received.

Be sure this doctrine of nonresistance as spoken by Christ, there is the Pauline doctrine.

Through the agitation of the northone ever swallowed a camel but the use of the expression emphasized the truth

'But if thou do that which is evil, be afraid; for he heareth not the sword in vain." He has given this injunction. "Let every soul be in subjection to the higher powers." By these powers is

A WOMAN'S ORDEAL DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free

There can be no more terrible ordeal than to be obliged to answer certain questions in regard to her private ills, even when those questions are asked by her family physician, and many

continue to suffer rather than submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.

This is also the reason why thousands upon thousands of women are corresponding with Mrs Pinkham, daughterin-law of Lydia E. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise sick women

more wisely than the local physician. Read how Mrs. Pinkham helped Mrs. T. C. Willadsen of Manning, Ia. She writes:

C. Willadsen. of Manning, Ia. She writes:
Dear Mrs. Pinkham:
"I can truly say that you have saved my
life, and I cannot express my gratitude in
words. Before I wrote to you telling you
how I felt, I had doctored for over two years
steady, and spent lots of money in medicines
besides, but it all failed to do me any good. I
had female trouble and would daily have fainting spells, backache, bearing-down pains, and
my monthly periods were very irregular and
finally ceased. I wrote to you for your advice and received a letter full of instructions inally ceased. I wrote to you for your advice and received a letter full of instructions just what to do, and also commenced to take Lydia E. Pinkham's Vegetable Compound, and I have been restored to perfect health. Had it not been for you I would have been in my grave to-day."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

meant not only the sovereign but all government, of the Nation, state, community. The greatest menace to the advance of civilization is lawless news, disregard of authority, the spirit that is heedless of the rights of others.

The condition of affairs in 1861 was threating the Union with two terrible

evils. There was intrenched in the south a system whose evils are among the worst ever brought into human society Human slavery was working fearful ills for enslaved and owner.

We are familiar with the wrongs of the colored man; the hopeless servitude, the bartering that saw in him only a chattel, an article of merchandise, weary frame, the smitten quivering flesh, the crushing of aspirations toward the higher things in life, the ignoring of the bonds of affection, all and many another wrong was counted in the afflictions of his let. in the afflictions of his lot.

Yet, great as were the evils that slavery wrought upon the colored man, those wrought through its curse upon the slave holder were much more. In the contest of races in Eurasia the continent of Europe and Asia, the white Relson race, the Anglo Saxons had proven their superiority. They, it was who had peopled this continent, but Eurasia had given us also its greatest evil, slavery. Under the influence of that evil the white race in the south were The text for the sermon was from losing the finest, noblest, instincts of their natures. The southern gentle-Brooks of South Carolina, and beaten into insensibility, receiving injuries from which he suffered until his death, Brooks remained in the House. was kept there because congress was dominated by the slavery spirit. Slav-ery made by the chivalrous gentleman, the supporter of brutal treachery and injustice. He who would lash a human being as he would a beast could not preserve the instincts of chivalry. The rights of womanhood were trampled that would have dishonored the court

> And what of "poor whites." Not all the people of the south were slave holders. An able-bodied slave was worth a thouand dollars, and many were necessary to carry on the work of a plantation. The whites—Anglo Saxons of the race which is the hope of the world were driven to compete with slave labor, as those of the Pacific coast were for a time compelled to compete with Chinese labor. They lost their means of livelihood, were driven back into the mountains, became ignor-

Through the agitation of the northern anti-slavery men there was effected the Missouri Compromise a most solemn compact forever debarring slavery from crossing a certain parallel. The south then sought to broaden the wedge at the southern part and so brought to pass the war with Mexico (a war altopass the war with Mexico (a war atto-gether "conceived in sin and shapen in iniquity," having for its sole purpose the acquisition of territory for slave states. And to furthermore increase the balance of power in favor of the slave states they virtually gave away a large tract in the north west, where now are found the great wealth and almost boundless wheat fields of British Columbia and other Canadian provinces. So dead to honor had become the chivalry of the south that had acquired the power that enabled disregard its most sacred promises.

When a new president, Abraham Lincoln, took the place of one who had with servility done their bidding, the cry of State Rights grew stronger, and disunion threatened the nation.

The hitter to the property of the protion. And by this we mean that the nation would no longer be a unit with strength consolidated to work its part in the onward march of progress and civilization. But it would become many separate states between which there would be strife an enmity. We see something of the condition that would result in viewing the state of South America: South America that has given nothing of real worth to the world. Greece with its marvellous civilization became and the state of the south civilization became such a loose confederacy and lost her glory.

Against this double danger of degradation and disunion you (to the members of the G. A. R.) went, your valor preserved the Union. Your valor saved the people of the land. And what was the cost? Let the long march, and the carnage of battle, let march, and the carnage of battle, let the million graves over which wave the flag, let the thousand battle fields wet with the blood of valiant men, let the countless homes desolated and grief stricken, let the strong young lives, doomed to pain and weakness answer you. Nothing great is gained without awful cost. Man's redemption was purchased only through the bloody sweat of Gethsemene and the bloody sweat of Gethsemene and the agonies of Calvary.

agonies of Calvary.

And there is reward. Of the reforms that have blessed mankind in many years, with the exception of a few which in very recent times have had their birth on the continent of Australia, it can be said that America gave them to the world. We may rejoice in the saving of the nation for humanity's good even though the cost were great; and we point you to the were great; and we point you to the salvation possible for all through the great price paid by God's own Son,

Done are the toil and the wearisome marches. Done are the summons of bugle and drum; Tenderly, sofly the sky overarches Sheltering a land where rebellion is dumb.

Dark were the days of our country's derangement; Fierce was the strife when the conflict was

But in the midst of fraternal estrangement God sent his light, and we welcomed the dawn.

o, with our flowers, mid bird's joyous carols And with the flag flashing high in the sun lace on the graves of our heroes the laurels Which their unfaltering valor has won.

CELERY GAINING IN FAVOR.

Grows Best in the Rocky Mountains, Where It Is Neglected by Farmers.

Celery is a native of Europe, where it has always been much more used than here, not only in salads principally demanded in this country but as a seasoning for soups and other dishes and cooked by itself like any other vegetable. Its traditional place on the American table has heretofore been with the turkey and cranberry sauce at Thanksgiving and Christmas and other special feasts, but of recent years it has come into more general use at all times of the year, while as one of the ingredients of salad it is the coming of so many new dishes of the salad family.

the generally accepted idea that it is a good thing to eat it whenever it can be had, and in Philadelphia this established, too, as a nerve tonic harmless in large or small quantities.

While it is extremely perishable Spruce Clapboards after it has once b harvested, and loses rapidly spness which makes one acteristics being on dition before it is picked-or, rather quire write direct to the mill for quotations. pulled up by the roots-until the marcomes from as far south as Florida and as far west as California.

Curiously enough, the Rocky mountain celery, which is declared by connoisseurs to be superior to all other Did It Ever Occur varieties, does not reach this market or any other. This appears to be a case of a neglected industry among the mountaineers, who are too busy with mines and cattle and some fruits to raise more than enough celery for their own consumption. "Right in the heart of the Rocky mountains," says ferent thing, it is hard to get and farm machinery.

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. In many cases of barrenness or child-lessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on Materia Medica of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination. made will bear the most careful exam-

TRUTH ABOUT THE TRAPPER

Not a Picturesque Figure, But a Cruel and Ruthless Destroyer of Game.

W. H. Wright, the noted grizzly bear hunter, tells about "The Trapper's Real Character" in World's Work. He declares that the trapper of to-day lacks every characteristic which romance has interwoven with his name. He says: "People who have not seen can form no idea of the suffering trappers cause, nor of their ruthless destruction of game. Nothing escapes them; even the squirtels Attorney at Law. are sacrificed to bait traps for mar-Real Estate and Probate Business a ten and fisher, and not only the squirrels, but all kinds of birds, whether Ralph McLaughlin of Salem visited Office over Phillips National Bank, game or song birds. In trapping riends in town Sunday.

Phillips, Maine. mink, otter, beaver, and a few other fur-bearing animals, the trap is nearly always set near the water, where the animal when caught can drown Attorney at Law, itself, thus ending its suffering. But with bear, marten and fisher it is different. The bear must drag a heavy clog about until it catches in some root or bush. There he must wait until the trapper comes to kill him, and this in some cases is not for days. The bones of the leg are almost invariably broken by the trap, and the leg swells to incredible size." Wright gives many examples of the trappers' brutality. He writes: "One trapper in one day shot 19 large blue grouse, merely to try a new Colt's rifle. The birds were nesting; he had no use for them, and not one did he even bring to camp. Three years ago, in British Columbua, an old trapper camped near our bear-hunting party. He shot everything he could find, Represents the Aetna, Home, Niag-ara and German American Fire Insur-goat he killed fell over a cliff; and, as it was harder to recover it than to shoot another, he shot another. He more than holding its place, despite Bates Block, - Phillips, Maine. was trapping beaver out of season, and boasted of having caught one that was about to become a mother. I have seen the spot where a bear, fast in a celery is properly a winter or a summer food is rapidly giving way before and look them over before you buy.

Great bargains in Maine farms. Come trap, had been caught for more than and look them over before you buy. a week in a thicket through which it was impossible to drag the trap and clog. I once knew an old French trapper who shot 73 moose and elk in means all the year. It is definitely Telephone Connections, Chesterville Me one winter, for bear bait for the spring catch. I asked why he killed so many. He said that he wanted a 'big stink' in the spring so as to bring the bears around. All of the and Cedar Shingles animals he had slaughtered for spring 'stink' were shot with a reof all kinds manufactured and for sale by Prouty volver, for they were snowbound and could not escape. He told me that he dropped five big elk in one pile. This frightful destruction by trappers has exterminated the game.'

UNDERSEA COLD STORAGE. Experiment of the English Admir-

alty Being Carried On at Portsmouth.

Important experiments are being carried out by the naval authorities at Portsmouth dockyard to ascertain to what extent the steaming properties of the Welsh coal used in the British navy are improved by storage in the

WOODSMAN are largely read by sunk in the big basin, and at the celery is so much better than any where else that it seems like a dif at the coaling point and sheltered from the weather beneath tarpaulins. At intervals of six months two-ton samples from each storage have been taken out and carefully burned, and the results of the experiments have shown conclusively that by submarine storage of coal its calorific value steadily increases, while by storage in the open air a decided decrease is shown.

> At the naval coaling stations in the tropics this decrease in calorific value is very great, the sun's heat drawing all the light volatile oils out of the coal. The admiralty, having satisfied themselves of the physical and financial advantages of the storage of coal in the sea, have now directed that experiments be made to ascertain its practicability on a large scale.

The difficulty is that the submerged coal has to be dried before use, to ing agricultural journal of the remove the superficial moisture, which spontaneous combustion. The only method of drying so far attempted is by spreading the coal on iron trays in the open air, a process satisfactory

Modern City Travel.

Perhaps the next improvement in methods of travel in the large cities will involve the use of the pneumatic tube. Living parcels were experimented with in Philadelphia not long ago, and the result was surprisingly successful. A bantam rooster was put in the carrier and forced through the tube to a station a mile and twofifths away. The first thing he did when taken out was to crow, as if in celebration of his achievement. Later two pupples and two guinea-pigs were sent through, and a glass bowl filled with water containing several goldfish. None of the creature suffered injury.—Youth's Companion.

APACHES NEVER SCALPED

Contrary to General Report These Indians Never Took Victim's Hair.

The taking of scalps has been spoken of so commonly in the press of the United States that it has become a general practice when speaking of a man having lost his life among the In-"He lost his scalp." dians, to say: Novelists even of to-day, when locating their stories in Apacheland, almost invariably scalp the victims of Apache vengeance. As a matter of fact, writes E. S. Curtis, in Scribner', s one can say that the Apache never took scalps. Men who have lived in the Apache country and have been closely associated with them for 30 years or more, claim that no full-blooded Apache ever scalped a man he killed. On the contrary, he would not touch a body after death, and would throw away his weapons if stained with human blood. Their own dead the men never help to bury. This task is left to the wom-

Simple Yet Very Effective System.

The government of Manchester is a business. Its liabilities are about \$156,000,000; its assets are about \$147,000,000; and the deficiency, about \$9,000,000, represents the amount which the ratepayers have to contribute each year, writes Samuel Merclearly demonstrates that both of them win, in Success Magazine. The figwithout reservation heartily endorse the ures indicate that it is a big business. The management of this big business is absolutely in the hands of the city council acting through its committees. As I have said, the system is simple, and the responsibility cannot be evaded as it can be in a muddled-up, complicated system like that of New York or Chicago or Newtutional, and no genuine friend of the bill ark. The people know what has to can object to it without stultifying him- be done, and they know who has to self." Inasmuch as this is a thing for do it. But, even at that, big figures are confusing to the average mind. And then, too, it is well to submit the figures which a city council 186lishes to an unsympathetic eye. And so, because the people of Manchester propose to know what is done with their money, they have in their servment upon which he insisted, the bill ice two men whose business it is to would not be "constitutional," and we investigate and publish, at regular inhave the Presidential authority for the tervals, every tendency of the counfurther fact, that no friend of the bill cil toward carelessness or extravagance. THE FASTORAL NAVAJOS.

Habits of This Tribe of Indians and Their Homes in the Southwest.

The Navajos are a pastoral, patriin their flocks. Their reservation of 12,000 square miles is desert, broken with mountain and mesa. On the mesa and low mountains there are considerable areas of pinon and cedar, and on the higher mountains a limited area of beautiful pine forests, writes E. S. Curtis, in Scribner's. Over this region the Navajos drive their flocks. At the season when the slight rainfall gives even a scant pasturage on the desert As the pasturage on the lower levels A. J. Spinney. is both burned with the hot, scorching sun and exhausted with pasturing, the flocks are taken up into the higher mountains, where there is more moisture. Again as the deep winter snows come on the sheep must be taken down out of the mountains to escape them. During this time they are kept on the wooded mesa, where there is less snow, and a plentiful supply of wood, of which there is none on the plains below. Year in and year out the Navajo flocks are driven back and forth from plain to mountain-top, mesa and

While the Navajo's life is a wandering one, he is not what could be called a true nomad. His zone of wandering is limited; on the same grounds his father and father's father have kept their flocks. The average Navajo coula not guide you a distance to exceed 50 miles. Last season the writer had with him two Navajo men of middle age, who had lived their lives within a day's ride of the mouth of Canyon de Chelly, and this was the first time they had traveled the entire length of the canyon. This seems strange, from the fact that it is a most remarkable scenic spot, and the larger part of the great wealth of Navajo legendary lore centers in this canyon.

The Navajo family usually has three homes, the location of which is determined by the necessities of their life. One is the summer home, where they grow their small crop of corn and vegetables. The farming they do in the narrow sandy washes, where, by planting to a great depth, they get sufficient moisture to mature the crops, In a few limited areas they have irrigated farms. In Canyon de Chelly, which may be termed the "garden of the reservation," there are tiny irrigated farms and splendid peach orch-

Franklin County Oddities.

Clifford Steward found a most remarksble mineral specimen in a brook near George French's recently. It resembles an orange in shape, size and markings, but is wholly mineral in substance.

Many have seen the specimen and all kinds of theories are afloat in regard to its composition.

The substance is pure white and quite soft, somewhat resembling asbestos in texture. When found the "orange" was whole, but it met with an accident and is now in two pieces.

The mineral found recently py Clifford Steward was examined by Mr Henry Hescock, who, by the way, i quite an expert mineralogist, and was pronounced to be a specimen of Satin Spar, a mineral; found in England. Mr. Hescock gives it as his belief that the specimen must have been dropped, accidentally, by some person in the

old home in Newcastle for a few days. W. H. Grover has moved from the Bates house to the house belonging to Leonard Kinney, in Avon.

One candidate was initiated at the meeting of Hope Rebekah lodge last Friday evening.

W. B. Hoyt has commenced work on his lot recently purchased on Main street, and will build very soon.

Mrs. M. S. Kelley spent a few days the first of the week with relatives in Lewiston.

The King's Daughters will meet this Friday evening with Mrs. W. V. Larrabee. As this is the last meeting before the "annual", it is hoped all members who can will try and be present.

At the last meeting of Phelan lodge, No. 30, D. of H., two candidates were given the degree and two applications were received.

At the last National Encampment the Rules and Regulations were amended as follows: The National Encampment hereby recognizes the 14th day of June as Flag Day, to be observed by all members of the Grand Army of the United States Flag, to commemorate the birthday of the Flag on the date of its adoption by Congress, June 14, 1777. It is now the duty of every comrade to ner. Let none leave nome until he has displayed the Flag at his residence, and set to it, my comrades, that the Flag securely floats that day from your place of business, and urge your neighbors and friends and those in authority in your community to display the Flag, so that throughout the length and breadth of the land "Old Glory" shall fly from every home, from every schoolhouse and from every place of business.

The state assessors, Messrs. Otis Hayford, Canton; Geo. Pottle, Lewiston and F. M. Simpson, Bangor; were in town Monday en route for Farmington, where they held a meeting Tuesday. Mr. Simpson was seen by a WOODSMAN reporter and stated that he and his collegues had ju t come from Oxford county, via the Rangeley Lakes region in the interests of the state. The assessors met guides and others in Rangeley, who gave them valuable information in regard to the wild lands of that section. It is on the reports of these guides and timber and wild land owners that the board depends for their information regarding the land in question, thereby enabling them to fix a fair valuation on the same. They cover this territory once in two years, when they meet and discuss the matters coming in their province, as above. Mr. Simpson told the WOODSMAN that the total valuation of the wild land of the state had increased in the last four years to the extent of about \$100,0000. At present the board is endeavoring to get a set of maps compiled to cover the territory comprised in the wild land part of the state and have thus far succeeded in getting charts and maps of about two-thirds of the vast terriorty included, and known as "wild land."
They hope to get the remainder within digantic Community of Financial In-

LOST THROUGH ERRORS.

Mrs. C. E. Parker is visiting at her P. H. S. Suffers Defeat at Strong, to Tune of Seven to Three.

> The boys of the Phillips High school went to Strong Saturday and crossed bats with the boys of the Strong High school, suffering defeat to the tune of 7 to 3.

> Had the Phillips boys made less errors the game might have had a different ending, although the Strongs had so many errors to their credit that the score book at the close of the game looked like a Chinese war map. Some of the plays made by the Phillips boys were of the grand stand variety and called for bursts of applause-from the Phillips contingent.

> The rooting for the Strongs was led by one healthy young voice and a well trained chorus. At times the air was so thick with forty horse power, six cylinder conversation for the Strongs that the resulting breeze swept the ball from a true course and the Strongs pounded the air with their willows in vain.

Through lack of space the Woods-MAN representative at the game cannot go into the matter in detail, but it is necessary to say that Chandler and Republic annually, in the display of the Price of the Phillips team made nits to centre that came near "discombobulating" the solar system and that Parker on third caught a fly far to the left that had started for West Freeman. observe the day in an appropriate man- "Zeke" Harnden, Phillips's coming catcher, made some good plays and first base was attended to in up to date style by Ralph Cragin. The weak point in the Phillips team seems to be in the out field, but as the boys playing these positions are made of good material and only need practice, this difficulty will doubtless soon be remedied.

The Strong boys made some excellent plays for they have men in their team that are capable of making them. The pitcher, Verne Richardson did a good turn as did the catcher, "Snap" Luce. The other members of the team did fairy good work, although, as has been noted, the game was characterized by many errors.

The game was umpired by Mr. Calvin Durrell and as he walked off the field unaided it is safe to assume that his decisions were viewed with favor by the crowd. The score keeper was Elliott

A large number of spectators attended the game, among them a goodly number from Phillips. The Phillips contingent tried bravely to out yell the Strong crowd but even with the assistance of magaphones were unable to make themselves heard.

Following is the line up of the two teams: Phillips; Webber 2b; Chandler cf; Voter ss; Prince p; Leavitt rf; Parker 3b; C. Harnden c; O. Harnden 1f; Cragin 1b.

Strong; V. Richardson p; F. Allen 3b; G. Richardson 2b; Simpson 1b; Hammond Richardson ss; A. Luce c; Brown rf; E. Huff cf; Roy Lewis lf.

THROTTLING NIAGARA FALLS

In World's Work, French Strother describes the influences that bear on Niagara falls and threaten their destruction. From this article, "Shall Niagara Be Saved?" the following quotation is taken: "Thus we swing the complete circle of interests that are centered around the incident of Niagara falls. The same interests control the railroads, the electrical supplies companies, and the power companies. And in the midst of this gigantic community of financial interests, whose operations are already of momentum sufficient ultimately to tax the power producing capacity of Niagara, stand the falls-not as a magnificent monument to the pride of the United States in a glory of nature, but as the 168foot drop of 224,000 cubic feet of water per second, transmutable into 5,000, 000 electrical horsepower for the uses of an industrial monopoly. That we, hardly stand on as a people, have given our share of my feet bethe necessary permission is to our cause of the shame. But there is another side to the question which strikes home at our pocketbooks, if we need such a spur to our pride. This is: What have we, directly or indirectly, received in return for the franchises we have given? So far as the United States government or the state of New York is concerned, the answer is brief-not one cent. The franchises were granted without price, and the companies operate without even the meager return, exacted on the Canadian side, of \$1.50 a year for each horse-power developed up to 10,000, and a sliding scale growwith additional developing less

Walking a Lost Art.

Time was when everybody walked and thought it no disgrace. For then walking was only a degree slower than the quickest means of locomotion, and by that token respectable. But who thinks of walking now? If you go into a shoeshop where 50 styles of fine footgear are offered, you won't find a shoe you could walk a mile in without being crippled, and though you call for the best grade of stockings, they are worn through the first time you put them on if you go afoot. Nobody who is anybody is expected to devil wagons have made walking intolerably slow, and the airships, when they come, will doubtless abolish it for good and all. And that is prog-The voice which clamors for stockings that will wear or shoes that are easy is a voice out of the past, the echo of dead traditions.-Life.

The Best. She (indignantly)—Stop, sir! You shall not kiss me again! How rude Harry Smith and S. H. Conant have you are! Don't you know any better? He (cheerily)—I haven't kissed every girl in town, it is true, but as far as I have gone I certainly don't know any better.—Watson's Magazine.

MAINE WOODSMAN.

READ AND YOU WILL LEARN

That the leading medical writers and teachers of all the several schools of practice, endorse and praise in the strongest possible terms, each and every ingredient entering into the make-up of Dr. Pierce's Golden Medical Discovery, the famous stomach tonic, liver invigorator, heart tonic and regulator and blood cleanser. This is also equally true of Dr. Pierce's Favorite Prescription, for the cure of all those weaknesses and distressing ailments peculiar to women.

No other medicines sold through druggists for domestic use, can show any such professional endorsement. Dr. Pierce's above mentioned remedies are non-alcoholic and non-secret, all their ingredients being printed on each bottle wrapper. They occupy a unique position and are IN A CLASS ALL BY THEMSELVES. They are neither secret nor patent medicines. They are powerful to cure but safe to use in any condition of the system, even for the most delicate women and children.

are neither secret nor patent medicines. They are powerful to cure but safe to use in any condition of the system, even for the most delicate women and children.

Pure, trippie refined glycerine, which is used instead of alcohol both for extracting and preserving the active, medicinal principles from the roots of the several American forest plants entering into Doctor Pierce's medicines, is much superior to alcohol for these purposes, and is entirely free from the objectionable features inherent in alcohol, inasmuch as it produces only salutary influences upon the system, while alcohol, even in moderate portions, if long continued, as in the treatment of obstinate allments, is very injurious and often begets a craving for stimulants. Furthermore, glycerine itself is a most valuable curative agent instead of being a harmful habit-forming agent like alcohol. Its nutritive properties, Dr. Pierce and many others eminent in the profession believe, far surpass those of cod liver oil, entitling it to favorable consideration as a remedy in all cases of incipient consumption, especially when it is combined with the active medicinal principles extracted from Black Cherrybark, Queen's root. Stone root, Golden Medical Discovery."

Besides its superior nutritive properties, glycerine is a very valuable demulcent and thereby greatly enhances the remedial action of all the foregoing roots in the cure of severe coughs, bronchial, throat, laryngeal and other kindred affections of the air-passages and lungs. In all "wasting diseases," where there is loss of flesh and gradual "running down" of the system, the glycerine certainly plays an important part in lessening the breaking down and wasting of flesh, and in promoting assimilation and increase of bodily strength and weight. It is a powerful reconstructive agent in all cases of imdigestion or dyspepsia. Thus the pain, belching of noxious gas, bloading and other disagreeable symptoms are overcome and the Stone root, Golden Seal root, Bloodroot and other ingredients of "Golden Me

No other medicines sold through drug- | tions of the liver, kidneys and other asso-

ciated organs.

Read from the writings of the authori-Read from the writings of the authorities above quoted, under the headings of Golden Seal root. Stone root, Black Cherrybark, Bloodroot, Queen's root and Mandrake root, in a little book of extracts, compiled by Dr. R. V. Pierce, and which will be sent you free on request addressed to the Doctor, at Buffalo, N. Y., and you will learn that all these ingredients are recommended as remedies for indigestion or dyspepsia and "liver complaint," as well as for the cure of all catarrhal affections wherever located, also for the cure of lingering coughs, arising from bronchial throat and lung affections. All are ingredients of "Golden Medical Discovery," combined in such proportions that each enhances the curative action of all the others.

enhances the curative action of all the others.

The "Discovery" must not be expected to produce miracles. While it is especially suited for the cure of all chronic, lingering coughs that are curable, it is not so effective in acute colds and coughs unless slippery elim mucilage, flaxseed tea, solution of gum arabic, or other mucilaginous demulcent be drank freely in connection with its use. Nor must the "Golden Medical Discovery" be expected to cure consumption in its advanced stages. In its early stages it will stay its progress and often effect a cure if its use be persisted in for a reasonable length of time. Send for the little book noted above and learn what those most eminent in the medical profession say of the ingredients out of which Dr. Pierce's medicines are made and thereby learn why they cure obstinate diseases.

By reading some of the extracts from

medicines are made and thereby learn why they cure obstinate diseases.

By reading some of the extracts from eminent authorities contained in the little booklet mentioned above, treating of the several ingredients entering into "Golden Medical Discovery," it will be readily understood why this famous medicine cures obstinate kidney and bladder affections, no matter in what part of the system existing. By reason of the Stone root, and Golden Seal root contained in it, it is a most effective curative in valvular and other affections of the heart, as you will understand from the writings of Drs. Paine, Hale, Ellingwood and others, concerning Stone root, Golden Seal root and Black Cherrybark which are to be found in the little booklet above mentioned.

Doctor Pierce's Pleasant Pellets cure

in the little booklet above mentioned.

Doctor Pierce's Pleasant Pellets cure billousness, sick and bilious headache. dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heart-burn." pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in glass vials, tightly corked, therefore always fresh and reliable. One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels.

A good medical book, written in plain

root, Bloodroot and other ingredients of "Golden Medical Discovery" are greatly assisted in their action in completing a cure.

As will be seen from the writings of Drs. Bartholow, King, Scudder, Hale, Wood, Hare. Johnson, Coe, Ellingwood and other high euthorities, as contained in the little book mentioned below, these agents can confidently be depended upon for the most positive, curative action in all atonic, or weak, states of the stomach, accompanied with distressing indigestion or dyspepsia and kindred resultant affect.

Resolutions of Respect.

Whereas the Angel of Death has for the first time entered Blue Mountain Grange and has taken from our midst our esteemed sister. Betsey Carleton, therefore be it Resolved, that we bow in submission to the decrees of the Divine Master and although we deeply mourn the loss of Sister Carleton, yet in our humility we will say, "Thy will be done." Resolved, that by the death of Sister Carleton, her family has sustained the loss of a loving wife and mother, and Blue Mountain Grange has lost a sister who was ever ready with good works and words.

Resolved, that we cherish and hold in kindly regard the memory of our departed sister, and that we tender our heartfelt sympathy to the bereaved family in their great sorrow.

Resolved, that in her memory our charter be draped in mourning for a period of thirty days and that a page in our records be inscribed to her memory.

memory.
Resolved, that a copy of these resolutions be presented to the family of our deceased sister, a copy be spread upon our records and a copy be sent to the MAINE WOODSMAN for publication.
Cleft Maxwell, | Committee on Thomas Williams, | Resolutions.
Weld, May 26, 1905.

Mrs. A. S. Douglass has returned home from West Freeman where she has been visiting her granddaughter, Mrs. Dannie Huff.

Mr. and Mrs. Charles Porter are stopping at his brother's, F. L. Porter. They intend to go up the Ridge to live soon, where Mr. Porter has a farm.

Mrs. William Lockyear has returned home from Oakland where she has been to see her mother, who has been very ill, but is now better.

Mrs. Lydia Wyman is ill. Dr. Bell of Strong attends her.

Mrs. Jack Parnell of Stratton is cooking at The Sargent for a few weeks. Mrs. George Douglass is doing the table work and Miss Edith Doug- Phillips, - lass the chamber work.

Mr. and Mrs. Harry Pierce and their hired help arrived here May 21 en route for King and Bartlett, for the summer.

Mr. and Mrs. Gordon Campbell have gone to Jim Pond to work.

An Alarming Situation.

frequently results from neglect of clogged bowels and torpid liver, until constipation becomes chronic. This condition is unknown to those who use Dr. King's New Life Pills; the best and gentlest regulators of stomach and harmed. Constituted by W. A. D. bowels. Guaranteed by W. A. D. Cragin of Phillips and Chas. E. Dyer of Strong, druggists. Price 25c.
