Vet Centers provide readjustment counseling and outreach services to all veterans who served in any combat zone. Services are also available for their family members for military related issues. Veterans have earned these benefits through their service and all are provided at no cost to the veteran or family. The Department of Veterans Affairs Vet Center program operates a system of 207 community based counseling centers. The Vet Centers are staffed by small multi-disciplinary teams of dedicated providers, many of which are combat veterans themselves.

The family members of service members who die of any cause while on active duty, to include federally activated Reserve and National Guard personnel are eligible for Vet Center services for bereavement counseling, this includes surviving parents, spouses, children and siblings.
