## FOREWORD

The following excerpt is taken from an article entitled "The History of Newspapers in Hancock County," written by Hale G. Joy for the ELLSWORTH AMERICAN, and published in the July 13, 1989 edition, page 26:

"The history of successful newspapers in Ellsworth seems to start in October 1851, when Couliard and Hilton came to Ellsworth from Bangor and started the ELLSWORTH HERALD. After Hilton ceased his connection with the paper, Couliard continued to publish until the fall of 1854. After the discontinuation of this paper, the press and other material became the property of William H. Chaney, who bought out the ELLSWORTH AMERICAN in 1854. He became associated with Charles W. Moor of Ellsworth, and these two published the AMERICAN until December 1855, after which the editorship was taken over by N. K. Sawyer."

The masthead of the ELLSWORTH AMERICAN in 1851 described itself as "devoted to politics, literature and general news." Published by Sawyer & Burr, for \$2.00 per year, in advance. Later the masthead showed "We live in deeds, not years; in thoughts, not breaths." The HERALD was published every Friday morning, for \$1.50 per annum, in advance.

The following is an abstract of the death and marriage notices shown in microfilm records of the ELLSWORTH AMERICAN from 1875 through 1883. Microfilm and/or paper copies of issues from January 1892 to the present are available in the newspaper's office, but have not been included in this index and abstract. Additionally, vital statistics from 1892 to 1955 are available at the Maine State Archives in Augusta. If information is not shown for the issue of a particular date, it is because the microfilm records are not available.

KEY: D.....death notice  
GW.....golden wedding  
M.....marriage  
MEM.....memoriam  
O.....obituary  
R.....resolutions

Note that the date shown in the index is the date of the issue in which the notice appeared, and is not to be considered the actual date of the occurrence. Reference to the abstract will show the full notice as it appeared in the newspaper, with the exception of poems in death notices and some of the other flowery narrative if it does not mention family or other facts. If the death or marriage of an individual is shown with two different dates, it is an indication that the notice appeared in two different issues. Consulting each issue will sometimes yield different or additional information.

Due to the condition of the paper copies available and/or microfilm made from them, some entries were not legible to me. I have included those entries for which I could decipher a clear surname, and have taken the liberty of guessing at partial or unclear given names. Where I have made guesses, those things are printed within square brackets -- [ ]. Those entries without a clear surname have been omitted from this index and abstract. I have tried to keep the spelling as it actually appeared in the newspaper.

Note that some proper names in the late 1800's were not used the same as in the late 1900's. For instance, Georgie was frequently used for a female, Myrtle and Pearl were used for a male, etc., so you should not rely too heavily on your own preconceived ideas.

In the case of death notices for married women, I have indexed by married name and also by maiden names where definite. For example, if shown as JANE DOE, wife of JOHN DOE and daughter of SAM JONES, I have indexed both maiden and married name. However, if the notice is shown as JANE JONES DOE, wife of JOHN DOE, I cannot be certain that Jones was her maiden name and have not indexed it as such.

In the case of obituaries or death notices, where additional information was given as to family members, I have tried to include that in the index. In many cases of the death notice of a child, both parents' given names are printed; however, separate index entries were not made if the surnames were the same. Persons other than the principals who are mentioned in the abstract have been indexed according to the type of notice; i.e., a married daughter mentioned in her father's death notice will be indicated by "D" plus the issue date, although that is not her death notice. Therefore, in researching obituaries or death notices, the complete text should be read, not just the principal's name shown in capitals.

Beginning with the October 31, 1872 issue, death notices began with the following: OBITUARY NOTICES BEYOND THE DATE, NAME AND AGE MUST BE PAID FOR.

If spelling or other details do not exactly match information you have previously researched, I strongly urge that you go back to the microfilm records to check against my interpretation of those old records.

Funeral conducted yesterday at the First Presbyterian Church by Rev. J. McLain,  
pastor. The funeral cortege was the largest and most impressive we have ever  
witnessed in Eureka. Mrs. Hinckley had been but a year in our midst. She left  
her New England home in February 1875, a bride, to seek her future in our  
mountains with the husband of her choice. Dying, she gave birth to a daughter  
who remains to the bereaved husband a pledge of his poor wife's first love.

Obituary - DANIEL HAYNES was born in Trenton, Maine, Dec. 1794 and died in his native town Oct. 19, 1877, age 82 years, 10 months. His funeral services were held at the church at Goose Cove on Sunday, Oct. 21, where a large number of his friends and fellow citizens assembled. Mr. Haynes experienced religion some 40 years ago, was among the first to organize into a Methodist society in Trenton. His house was always the welcome home of God's ministers of all Christian orders. He was a Methodist, but not a bigot. He was a honest Democrat of the Jackson type all his life, and a patron of the Eastern Argus from its first issue until his death. May God bless and comfort the widow in the loss she sustains in the death of a kind husband with whom she has so happily spent 60 years of married life.
