Augusta, June 18,--Questionnaires for the registration of aliens, resident in this state, have been prepared and are being sent out to the municipal officers of all of the state's 503 cities, towns and plantations, in compliance with the proclamation by Governor Lewis O. Barrows of June 14, it was announced today by Brigadier General James W. Hanson, the Adjutant General, whose department is charged with the responsibility of supervising the census of foreign-born residents and the classification and filing of the returns.

In addition to vital records concerning the age, place of birth, employment and family of the alien registering, the questionnaire requires information as to military service and the nation for which such military service was performed, General Hanson said.

Since the step was taken to secure a complete file of alien residents in Maine, Congress has acted favorably on a measure that would make such registration with accompanying records of finger prints nation-wide and compulsory.

General Hanson said that approximately 10,000 of these alien registration forms comprise the initial mailing.
