

This Pond is between 3 and 4 miles long lying nearly N. W. and S. E. and has a branch running off S. Westaly which is near 2 miles long, and is called Warreenip, ta, wee, keek. — Burnt land round the South side of these Ponds — Land rocky — Soil poor — growth principally pine and mixed, now a small growth of hard wood — On the West of these Ponds is a fine ridge hard wood land — On the East side near the Pond the land appears to be poor — the growth pine, spruce and hemlock, &c. Some Bogg. — Then appears a good ridge hard wood lands between 2 & 3 miles E. of the Pond running N. & S. between this Pond and Milinogick stream — There is good pine on the East of this Pond, and all the tract between the River and Milinogick from Nolisceemack pond up to the head of Kip, chee, chee, wuk Pond — There is a small Pond lying East from the head of this about one mile, round which is good pine timber. —

From the head of this Pond we pass through a Strait, and over Rips and through a crooked passage about half a mile to the foot of Pa, mee, dum, cock Pond which has two large Bays or Branches, and by a Strait is connected with Umbojeejoos Pond. —
