# Governor Paul R. LePage's Vision for Maine

January 9, 2015

Honorable Members of the 127th Legislature and Citizens of Maine:

When I first took office four years ago, the challenges were many and the work ahead of us was immense. Maine was in the midst of the Great Recession, the economic outlook was bleak, and our government was in desperate need of reform.

Instead of hiding from our state's challenges, our administration faced them head on. This was an important departure from "business as usual" in Augusta. My priority as governor has always been to tackle our long-term fundamental challenges so we can improve Maine's future.

During my first term, we took the first step toward significant tax relief. We also reduced the state's unfunded public pension liability from \$4.1 billion to \$2.4 billion—a decrease of 41 percent. We paid off, in its entirety, the long overdue welfare debt of \$748 million to Maine's hospitals. These actions, along with a careful approach to bonding and insistence on increasing the balance of the Budget Stabilization Fund, have improved Maine's standing with credit rating agencies such as Moody's Investor Services and Standard & Poor's.

The progress of the last four years has resulted in more Mainers finding work and an overall improved economy, but there is much more work to be done.

My long-term vision is a Maine without any income tax. When I first took office, Maine's top income tax rate of 8.5 percent was one of the highest in the nation; this made Maine unattractive for individuals to live and work here. We have reduced that rate to 7.95 percent. Today I am proposing that we modernize our out-of-date tax code to make Maine more competitive with other states. I plan to reduce the top tax rate even further to 5.75 percent, dramatically improving our competitive position in this global economy.

This budget also provides real tax relief for Maine families and small businesses. In all, Maine families and small businesses can expect to see a reduction in their tax burden of more than \$300 million. We will achieve this significant reduction by transitioning our tax code from one dependent on taxing earnings to a more modern tax model based on consumption.

In this budget, I am proposing elimination of the estate tax. Maine is one of only 19 states left that still imposes this tax. The estate tax punishes our small and medium-size multi-generation businesses in Maine. Family businesses are the backbone of our economy. We must keep them alive and well.

In addition, this budget increases the amount of pension income exempt from income tax. It also completely exempts military pension income, honoring our veterans and elderly by helping them keep money in their already stretched budgets.

These essential reforms will reduce the tax burden on working families and retirees while ensuring that our most vulnerable continue to receive the care that they need. My administration has realigned the Medicaid program in a way that allows us to chart a new course, prioritizing the elderly, the disabled and those with intellectual disabilities while advancing common-sense welfare reforms.

This budget provides the necessary resources to care for the disabled Mainers who have been waiting in line for services they have long been qualified for, but were not funded. I also propose increased funding for nursing homes to make sure that Maine citizens continue to have access to quality long-term residential care.

This budget addresses the illegal drug problem here in Maine by funding additional agents in the Maine Drug Enforcement Agency, as well as more prosecutors and judges to adjudicate the increased caseload. We cannot allow these vicious drug traffickers to keep using our state as their marketplace, and my plan will hold these criminals accountable.

A good education is the best tool for future prosperity. With the increased cost of a post-secondary education, this is becoming harder to achieve for the next generation. Maine already has a tax credit that provides financial support to college graduates, but it is virtually unknown and underutilized. Over the next year, I will be hitting the road and traveling across Maine to share the benefits of this program. This not only helps Maine residents, but also could be used as a tool to encourage young people to come to school in Maine and stay here to have a career and raise a family.

Additionally, this budget provides funding to increase access to student loans through FAME and more investment in our public post-secondary systems, as well as funding to help local school districts collaborate with their neighbors.

I am fortunate that Maine has given me the opportunity to live the American Dream. I want every Mainer to prosper. I want to create an economy that allows Maine families to thrive and succeed. I want them to have a chance to achieve their American Dream.

Our state needs bold initiatives to make it a place where Mainers want to live and work and to make it an attractive destination for young families from across the country. Together, I am confident we can make this vision a reality.

Sincerely,

Paul R. LePage Governor

Paul RlePage

# Modernizing Maine's Tax Code

Maine's state and local tax system has been essentially unchanged since the introduction of the income tax in 1969. The economic transition over the last 40 years, which was in its early stages at that time, has made the current tax system out of date and uncompetitive with other states.

A modernization of the sales and income tax bases, a lowering of income tax rates, and elimination of the estate tax will align Maine's state tax system with the 21st century economy, make the state more competitive, contribute to long-term economic growth, protect lower and middle income households from shouldering more of the tax burden, and provide a simpler, more stable revenue base to meet the state's spending commitments. <u>All of this can be accomplished while providing over \$300 million of direct tax relief for Maine resident families</u>.

The following is a summary of the bold reforms necessary to simplify and stabilize Maine's tax code, to bring fairness for all taxpayers at both the local and state levels, and to provide our hardworking Maine families and businesses – small and large - the opportunity to compete and thrive in today's economy. *Independent analysis conducted by the Tax Foundation noted that these reforms, if fully implemented, would improve Maine's ranking in the Tax Foundation State Business Tax Climate Index from 33<sup>rd</sup> to 23<sup>rd</sup>.1* 

### REDUCE INDIVIDUAL & CORPORATE INCOME TAX RATES

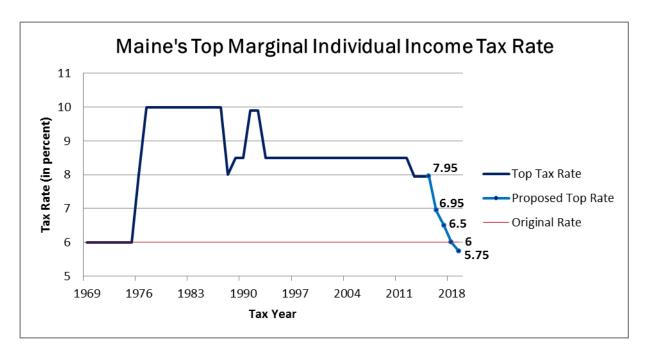

The income tax was enacted at a time when large corporations, often headquartered in Maine, with significant investments in plants and equipment were utilizing our natural resources and productive workforce to manufacture goods. Since that time these natural resource based industries have consolidated or moved their production to lower cost locations around the world. These large natural resource based manufacturers have been supplanted by high-tech manufacturing and service based businesses that tend to be smaller, capital intensive operations that depend on an educated workforce and can quickly

-

<sup>&</sup>lt;sup>1</sup> The Tax Foundation is a non-profit, non-partisan tax research organization based in Washington, D.C (www.taxfoundation.org)

relocate to more business friendly environments. Most major corporations operating in Maine are now headquartered out of state, eliminating the ties key corporate decision makers previously had to our great state. These business leaders not only focus on the corporate income tax rate, but the individual income tax rate for which they and their highly paid managers will be subject.

Many businesses currently operating in Maine are pass-through entities that are taxed under the individual income tax. The work these entities perform can often be done anywhere. In a state highly dependent on small business and entrepreneurship, we have the 8th highest state and federal combined top marginal tax rate on pass-through income in the country. Not only does this relatively high tax rate dissuade pass-through companies from locating here, but it also dampens the incentive for existing business to expand through capital investment and additional employees.

Individuals and families are more mobile today than ever before. Telecommuting and our increased access to distant locales provide an opportunity for families to enjoy the Maine lifestyle and work in professions that are more diverse than the underlying Maine economy. However, the high tax burden these families face in Maine can be a deterrent to moving here. Currently, individuals and dual income couples are subject to a 7.95 percent top marginal income tax rate that begins at a relatively low level of taxable income. For example, under current law, Maine's top income tax bracket for a single filer begins at only \$21,201

of taxable income per year. In a state that is in need of highly skilled workers, the current income tax system provides no incentive for these people to reside in Maine or for families to raise their children here.

An individual and corporate income tax structure that encourages highly skilled workers, families and corporations to locate here begins with lowering the top marginal tax rate. In the case of the individual income tax, a top statutory marginal tax rate of 5.75 percent will make Maine competitive with the rest of the nation. Similarly a top statutory marginal tax rate for corporate income tax filers of 6.75 percent (currently 8.93 percent) will be very competitive relative to other Northeastern states and competitive with other regions of the country.<sup>2</sup> According to analysis conducted by the Tax Foundation, the proposed modifications to the corporate income tax would cause Maine to leapfrog from 45th to 17th in the corporate tax ratings.

### **ELIMINATE THE ESTATE TAX**

Federal passage of the 2001 Economic Growth and Tax Relief Reconciliation Act significantly changed the structure of estate taxes. Prior to the law change, every state used the federal death credit as their estate tax, and there was no tax competition among the states. Regardless of a person's state of residence at death, the estate tax was the same. However, the 2001 changes to the federal law forced states to create their own estate tax or repeal the tax altogether. Over time, the majority of states have chosen to repeal the estate tax. Only 19 states currently have some form of estate or inheritance tax, most in the Northeast and Midwest.

The estate tax in Maine punishes family businesses, particularly the multi-generational job creators in many of our rural areas, such as farming and forestry. After the death of a family member, a family can be forced to either sell the business outright or to unload capital equipment to pay the looming estate tax liability. Often this results in a residual impact of loss of good paying, private sector jobs at those family businesses. In addition, combining an estate tax with a high individual income tax has forced more wealthy Maine residents to change their state of domicile in retirement. Maine not only loses significant income tax revenue from these former residents but other benefits that these individuals provide in

<sup>&</sup>lt;sup>2</sup> Budgetary requirements necessitate that initial reductions in income tax rates leave the top marginal tax rates in excess of six percent. A scheduled phase-down of rates are included in the tax reform legislation.

retirement, such as donations to Maine charities and, most importantly, continued civic engagement in Maine's religious, educational and business institutions.

The Maine estate tax will be repealed to preserve Maine multi-generational family businesses, encourage current Maine residents to maintain their residency in retirement, and provide an additional incentive to non-resident retirees to move to Maine.

### **CUT TAXES ON PENSIONS AND ELIMINATE TAX ON MILITARY PENSIONS**

Similar to the estate tax, many Mainers change their residence to other states after retirement due to the high taxes on pension benefits relative to other states. To make it more affordable for Mainer's to stay here in retirement, pension income, up to \$35,000, will be exempt from state income tax. <sup>3</sup>

Most importantly, our veterans earned their pensions and our respect through a career of public service and sacrifice. Military pension benefits will be completely exempt from state income tax beginning in 2016. With this reform, Maine will join the 22 other states which honor their veterans by not taxing their pensions.

### **MODERNIZE THE SALES TAX**

One area where Maine has a competitive advantage is the sales tax rate. The current 5 percent service provider tax rate, 5.5 percent sales and use tax rate, and the 8 percent tax rate on meals and lodging are very competitive compared to the combined state and local rates in other states. An increase to 6 percent in the service provider tax, 6.5 percent in the general sales and use rate, a reduction in the prepared meals rate to 6.5 percent, and

Current Sales Tax Ra	<u>tes</u>	Governor's Proposed Sales Tax Rates

Sales and Use	5.5%	Sales, Use and Meals	6.5%			
Meals and Lodging	8.0%	Lodging and Auto Rental	8.0%

maintaining the current 8 percent rate on lodging will keep Maine in a very competitive posture nationally.

<sup>&</sup>lt;sup>3</sup> Budgetary requirements necessitate that the pension income exemption is incrementally implemented. A scheduled phase-in of the exemption is included in the tax reform legislation.

The sales tax was developed during the mid-1950s when the economy was primarily based on the sale of goods and is becoming difficult to administer and comply with as the economy has increasingly become based on the sale of services. Services represent over 60 percent of current household budgets and tend to be less volatile than purchases of durable goods. A 2007 study by the Federation of Tax Administrators showed that Maine has the 11th narrowest sales tax base in terms of the taxation of services. Automobiles and building supply materials represent 30 percent or more of taxable sales in most years, leaving sales tax revenues vulnerable to changes in the economy that impact consumer purchases of bigticket items like cars and home furnishings. The latest recession is a good example of how volatile our narrow sales tax base is to economic conditions. Starting with the second quarter of 2008, taxable sales decreased on a year-over-year basis for six straight quarters, often times by over 8 percent. In three of those quarters, automobile sales fell by over 15 percent.

Consumers' ability to purchase online or to use alternative means to purchase identical goods or services has also led to an erosion of the tax base. While administrative and statutory changes have been made to address these activities, the state continues to lose significant revenues every year. In addition, definitions and statutory language developed years ago no longer reflect the technological changes and innovations that have been introduced into the marketplace. For example, watching a movie can result in completely different levels of taxation depending on the method used to view the movie. A taxpayer visiting a movie theater or streaming a movie over the internet currently pays no sales tax; however, an individual purchasing or renting a DVD of the movie or ordering the movie through their cable or satellite provider pays sales tax.

Modernizing the sales tax base to include both goods and services and updating the rates to be competitive nationwide will export more of the tax burden to non-residents and provide stability to state revenues. A refundable sales tax credit administered through the individual income tax will offset the additional sales tax burden on lower- and middle-income households.

### SIMPLIFY AND STREAMLINE THE TAX CODE

Maine income tax bases will be streamlined to eliminate income modifications that provide little benefit to taxpayers. The individual income tax base must be simplified by repealing

itemized deductions. In addition, there are a number of business and personal credits that are no longer necessary because other changes in the tax laws have made them obsolete. These changes not only help offset the revenue loss from the rate reductions, but will also simplify the income tax laws.

### **OVERHAUL MUNICIPAL PROPERTY TAX RELIEF**

Maine's state and local tax system is heavily reliant on the local property tax. The fact that the state has the highest percentage of second homes in the country and is land rich suggests this approach is not unreasonable. For many Maine households, however, this reliance on the property tax places a strain on their ability to pay and therefore to remain in their home. Elderly households on fixed incomes are particularly vulnerable to constantly rising property taxes.

There are various reasons why some homeowners are overly burdened by the property tax. First, low- to middle-income households located in "service center" communities face very high mill rates. Service center communities often have a significant portion of their property exempt from taxation because the property is owned by tax-exempt nonprofits. In addition, the population of service centers increases significantly during the work week requiring investments in infrastructure and emergency personnel. Second, households located along the coast, lakes or in the mountains have seen the value of their properties increase dramatically as wealthy, out-of-state, second homeowners have driven prices up. In many cases the mill rates in these towns are relatively low, but the ratio of housing values to resident incomes is extremely high. Finally, some households located in depressed areas have seen their property values plummet along with their income. As a result, mill rates have increased to maintain municipal services.

Because the reasons for burdensome property taxes vary across the state, property tax relief programs should focus on individual homeowners instead of municipalities. Rather than spreading relief across all property owners, focusing state resources directly to low-and middle-income households would target relief to those truly in need. Currently the programs that achieve this result best are the Homestead Exemption and the Property Tax Fairness Credit, and additional state resources will be directed to these and other municipal property tax relief programs.

Current state telecommunications excise tax revenue collection will be transferred to municipalities to assist them in broadening their property tax base. Municipal revenue sharing will be eliminated and municipalities will instead be given the authority to collect tax revenue from large non-profit entities. In the first case, a state level tax that generates approximately \$9 million per year will be transferred to the local level with little or no burden on current taxpayers. The second initiative recognizes the growth of nonprofit organizations in our communities and requires large nonprofits to contribute to municipal coffers.

According to analysis conducted by the Tax Foundation, the proposed real and personal property tax reforms would improve Maine's property tax ranking from 40<sup>th</sup> to 35<sup>th</sup>.

### **SUMMARY**

The state's tax system is antiquated and long overdue for major reform. A modernization of the tax system recognizing the challenges of the current economic environment is vital for the state's economy to prosper. A shift away from income tax reliance to an end user consumption tax is a key component of this modernization. While tax relief for Maine families will provide an important boost to the state's economy, bold tax reform will encourage businesses to locate and expand here, people to retire here and individuals to work and raise their families here. It will spark job creation and lead to a prosperous Maine for future generations.

# Governor LePage's Tax Reform & Relief Plan

Governor LePage's second term tax reform and relief plan proposes to align Maine's tax system with the 21st century economy by making it more competitive, simpler, stable and fair. Achieving these objectives will contribute to long-term growth by incentivizing businesses to locate and expand in Maine, individuals to work and raise their families here, and retirees to make Maine their state of residence. This plan accomplishes those goals, while providing over \$300 million of direct tax relief for Maine resident families.

# Welfare Through Innovation and Sensible Solutions

### **EXECUTIVE SUMMARY**

For too long, DHHS has been too busy bailing out the boat to chart a course for Maine's future. In the upcoming biennium, we are pleased to be in a position where the state's Medicaid budget is under control; program enrollment and expenditures are at a sustainable level; and the Department can redirect General Fund dollars to other key priorities, such as funding the wait lists for services for the elderly and disabled, continued support for Maine's nursing homes, and expanding access to primary care.

### Medicaid Spending Stabilized

- Spending and enrollment doubled from 2000 to 2011; spending grew by more than \$1 billion, increasing Maine's tax burden and taking state General Fund resources from other state priorities.
- Governor LePage has moved us from decades of financial crisis in Medicaid to financial stability.
- Hospital debt of \$750 million was paid and bills are now paid on time.
- Maine's Medicaid program is no longer staring at a sea of red ink.

### <u>Investing in Critical Priorities – Key FY 16/17 Budget Proposals</u>

- \$46 million to fund vital services for the elderly and disabled.
- \$24 million in additional funding for nursing homes.
- \$28 million to ensure quality access to Primary Care.
  - Replaces expiring federal funds with state funds to reimburse Primary Care
     Providers at 100% of Medicare rates and supports continuation of Health Homes.
- \$14 million to fund mental health services required under the Consent Decree.

### WHERE WE'VE BEEN

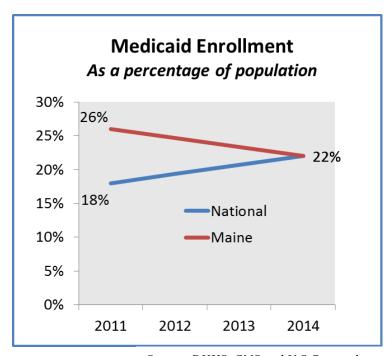

### Out-of-Control Medicaid Spending

Due to repeated expansions to able-bodied adults, Maine's Medicaid program more than doubled in size from 164,000 enrollees in 2000 to 355,000 in 2011. The cost doubled, as well, from \$1.2 billion in 2001 to \$2.4 billion in 2011. Maine ranked third in the nation for Medicaid enrollment, and welfare spending consumed more of the state budget in just one

other state. Meanwhile, elderly and disabled Mainers faced long waitlists for essential services and inadequate nursing home funding.

### Massive Debts and Shortfalls

Prior to the LePage
Administration, Maine covered its unsustainable welfare spending by leaving hospital bills unpaid, cutting reimbursement levels to providers, increasing taxes and neglecting other priorities such as roads and bridges, schools, natural resources, and economic development. In state fiscal year 2012, Maine faced a \$220 million Medicaid shortfall.

Source: DHHS, CMS and U.S Census data

### This Year, It's Different

DHHS has spent the past four years stabilizing welfare spending, instituting sophisticated MaineCare budget forecasting, and re-prioritizing our resources to get back to our core mission of helping the needlest and most vulnerable Mainers.

We are proud to report that DHHS now faces a minimal structural budget gap for fiscal years 2016-2017, allowing us to invest in key healthcare and social service priorities rather than managing a crisis and rushing to fund a shortfall. This also supports the State's ability to evaluate and manage other critical priorities elsewhere in state government.

### WHERE WE'RE GOING

The primary mission of DHHS is to care for Maine's most vulnerable citizens. This budget contains several bold initiatives to turn that promise into a reality. To date, DHHS has reduced the number of individuals on waitlists for home and community based services by more than 1,000 individuals. In this budget, we provide funding to provide these critical

services for those who need them. Last summer, we received temporary funding to increase nursing facility reimbursement to help address their dire financial situation, with several facilities on the brink of closure. With this budget, DHHS is prioritizing the permanent funding of more than \$25 million to ensure Maine's elderly citizens have the care they need and deserve.

### **Funding Maine's Waitlists**

This budget provides funding to assist thousands of Mainers who are on waitlists for home and community based services through Medicaid waivers section 18, 19, 20, and 21. This initiative will provide funding for all those individuals on the waitlists who need these services.

### **Increased Nursing Home Funding**

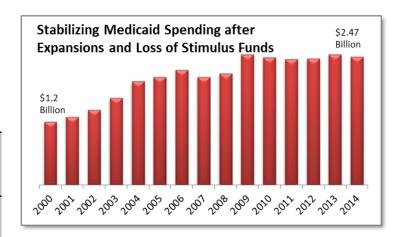

This budget prioritizes the elderly and helps to support nursing homes by providing ongoing funding to increase their Medicaid reimbursement rates and establishing a special grant program for rural nursing homes.

**Additional Nursing Home Funding:**

**Remote Access Facility Grant:**

### <u>Increased Access to Primary Care and Preventive Services</u>

While many states are slashing primary care provider rates (PCP) and preventive services in order to fund Medicaid expansions to larger populations, Maine is taking the opposite tack in this budget. In order to reduce the cost of health care and improve outcomes, we use state funds to make up for a loss in federal funding under the Affordable Care Act to maintain 100 percent reimbursement at Medicare rates for PCPs and to continue support for Health Homes, which integrate care for heavy utilizers of Medicaid services.

This budget fully funds services required under the Consent Decree for mental health services. It also provides additional funding for the Bridging Rental Assistance Program (BRAP) to help former mental health patients live independently.

Funding for Consent Decree Services:	FY16: \$5.80 million	FY17: \$5.80 million
Additional BRAP funding:	FY16: \$1.23 million	FY17: \$1.23 million

### Riverview Psychiatric Recovery Center

The LePage Administration is committed to continuing with the critical improvements necessary for the transformation of Riverview Psychiatric Recovery Center into a center of excellence for the treatment and care of Maine's most psychiatrically challenged citizens. Progress is well underway, and the Governor's budget proposal reflects many of these changes to make the hospital safer and more effective in the delivery of evidence based treatment options. Among other initiatives, the hospital will be adding 12 new acuity specialists, expanding its psychology program through the addition of post-doctoral fellows in psychology, and maintaining its strong historical ties with Dartmouth University's Medical School.

### HOW WE'LL GET THERE

Paying for the critical reforms described above requires the innovative measures and sensible spending proposals outlined below. We have identified areas where bringing Maine toward the national mainstream for program eligibility can free up resources to provide Maine's most vulnerable citizens with the services they need.

### Reducing Reimbursement for Non-Emergency ED Visits

As part of a larger effort to reduce health care costs, this budget would reimburse providers for non-emergent Emergency Department visits at a rate equal to that of primary care visits. This encourages providers to focus on primary care while bringing parity to Medicaid reimbursement.

ED Reimbursement Reform: FY16: (\$1.16 million) FY17: (\$1.53 million)

### Further Reforming Maine's Welfare System

In an effort to curb massive *post-recession* growth in General Assistance (GA) spending, this budget reforms GA payments to municipalities to provide a larger, 90 percent match up front and a smaller, 10 percent match once the municipality reaches 40 percent of its six-year GA spending average. This eliminates a perverse incentive among cities to pay out more in welfare benefits and institutes a new incentive to contain welfare spending. Savings realized from this reform will be directed to fund the Section 21 waitlist for developmentally

disabled individuals. The budget also includes the elimination of TANF and General Assistance benefits for non-citizens.

### Parity for Physician Reimbursement

# Aligning MSP/DEL Eligibility to Federal Standards

In order to fully fund nursing homes and improve care to Maine's elderly, this budget

proposes to align Medicare Savings Plan and the Drugs for the Elderly program eligibility with federal standards. Currently, Maine is one of only *two states* to pay higher than the federal minimum. Aligning this benefit with nationwide norms will pay for our entire nursing home initiative, plus all waitlists outside of Section 21.

### Reduced Reimbursement for Home Care Sections 28 and 65

In order to fully fund home care services for disabled Mainers, moving them off of waitlists, this budget proposes to reduce provider reimbursement for Section 65 medication management, day treatment, home and community treatment, and community wrap around under Section 28.

# **Educating and Attracting Young People to Maine**

### FINANCE AUTHORITY OF MAINE - MAINE STATE GRANT PROGRAM

The Maine State Grant program is a need based educational grant program with an average grant of \$1,000. Students automatically apply for this grant by filling out the Free Application for Federal Student Aid (FAFSA) prior to enrolling at a Maine based institution of higher education.

### **INITIATIVE**

• This budget invests an additional \$10 million to allow for an expansion of grant awardees as well as potentially increasing the grant to cover more of the student's tuition expense.

### **UNIVERSITY OF MAINE SYSTEM**

The University of Maine System is Maine's largest secondary education system, with enrollment of nearly 40,000 students each year. The system also provides services to hundreds of thousands of Maine citizens each year through their Cooperative Extension services as well as cultural offerings.

### **INITIATIVES**

- Making college more affordable for Maine students by increasing the University of Maine System's general fund allocation by 1.7 percent in FY15/16 and 1.93 percent in FY16/17 to offset tuition increases for in-state students. \$9.45 million
- Continued funding of \$2.5 million to allow the University System to continue investing in their infrastructure needs. **\$5 million**
- Additional research funding, investing in research and development throughout the entire system, including the five small campuses. This additional funding will help bring about innovation and accelerate commercialization to bring products to the marketplace. This initiative increases the state's investment in the research and development of a private public partnership focused on improving Maine's economy. \$5.3 million
- Additional funding for the Women Work and Community program, a program that provides

### HOLDING CRIMINALS ACCOUNTABLE

Governor LePage has continually highlighted Maine's drug problem and has identified funding for additional MDEA agents, judges and prosecutors to combat drug crimes.

The Maine Drug Enforcement Agency is battling an influx of out-of-state drug gangs, which are directly linked to the number of drug crimes committed in Maine. The total estimated cost of substance abuse in Maine is than \$1.4 billion, translating to over \$1,000 for every Maine resident. Even more disturbingly, hundreds of babies are born drug-addicted each year in our State.

"Our Administration is focusing on the fact that Maine is subject to ever-increasing numbers of out-of-state drug trafficking organizations establishing drug markets in the state. This disturbing trend tears at the very fabric of our communities and puts our children at risk."

— Governor Paul R. LePage

This budget includes additional funding to enforce drug trafficking crimes, along with additional resources for prosecution and adjudication.

### **INITIATIVES**

- Provides funding for seven new Maine Drug Enforcement Agency agent positions. \$1.791

### **Economic Outlook and Forecast**

### **Background**

The Consensus Economic Forecasting Commission was originally established by Executive Order on May 25, 1992, in order to provide the Governor, the Legislature and the Revenue Forecasting Committee with analyses, findings and recommendations for state economic assumptions to be used in developing state revenue forecasts. Creation of the commission was in response to a recommendation of the Special Commission on Government Restructuring in 1991 to establish an independent, consensus process for state economic and revenue forecasting. Public Law 1995, chapter 368 enacted in statute the Consensus Economic Forecasting Commission, maintaining both the structure and intent of the original Executive Order.

The commission consists of five members having professional credentials and demonstrated expertise in economic forecasting. Members of the commission are appointed as follows: two members appointed by the Governor; one member recommended for appointment to the Governor by the President of the Senate; one member recommended for appointment to the Governor by the Speaker of the House of Representatives; and one member appointed by the other members of the commission. One member of the commission must be selected by a majority vote of the other commission members to serve as the chair of the commission.

The commission is required to develop two year and four year economic forecasts for the State of Maine. In performing this duty, the commission is required by statute to meet twice each fiscal year. No later than April 1st and November 1st of each odd-numbered year and no later than February 1st and November 1st of each even-numbered year the commission shall submit to the Governor, the Legislative Council, the Revenue Forecasting Committee and the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs a report that presents the commission's findings and recommendations for adjustments to the economic assumptions for the current fiscal biennium. In each report the commission shall fully describe the methodology employed in reaching its recommendations. The Revenue Forecasting Committee is required to use the economic assumptions and forecast of the commission in developing its four-year revenue projections.

### **Findings**

The Maine Consensus Economic Forecasting Commission (CEFC) convened on October 24, 2014, to review and revise the forecast through 2017 and newly forecast 2018 and 2019.

National and state economic indicators continue to show improvement since the CEFC met in January 2014. Nationwide, consumer sentiment and small business optimism are up over yearago levels. According to preliminary estimate, personal income in Maine grew 3.4% year-over-year in the first half of 2014, while wage and salary income grew 2.3% over the same period. The Consumer Price Index was 1.7% higher in August 2014 than it was in August 2013.

The price of crude oil remained fairly steady in the third quarter of 2014 to around \$103 per barrel. Existing single-family home sales in Maine were up 6.6% in September 2014 compared to September 2013 and housing permits for the September 2013 to August 2014 year were 6.6% higher than the previous 12-month period. The median home price in the Portland Metropolitan Statistical Area (York, Cumberland, and Sagadahoc Counties) decreased 2.6% year-over-year in the second quarter of 2014. Mortgage delinquency rates have been declining but at a slower pace than nationally. The foreclosure rate in Maine was 0.57% in the second quarter of 2014 and remained above the national rate for an eighth straight quarter.

Total personal income growth was revised downward for 2014-2017, while wage and salary income growth was revised downward in 2014 but upward in 2015-2017. Both of these forecasts were taken from the LowPop scenario. Inflation, as measured by the Consumer Price Index (CPI), was revised upwards for 2014-2017.

The CEFC members continued to believe that the national forecasts are likely overly optimistic in their population and employment projections for the state, as we continue to be challenged by the state's aging population and lack of population growth. The new forecast relies on the LowPop scenario designed to address these concerns. The LowPop scenario is based on the Moody's Analytic baseline with adjustments that lowered the population and employment growth factors to a level the CEFC felt was attainable.

The table below provides the forecast's major indicators. A more detailed list of economic assumptions, which are incorporated into the revenue forecasting models used by the Revenue Forecasting Committee, is on the following pages.

### **Background**

The Revenue Forecasting Committee was established by Executive Order on May 25, 1992, in order to provide the Governor, the Legislature and the State Budget Officer with analyses and recommendations related to the projection of General Fund and Highway Fund revenues. Creation of the committee was in response to the recommendation of Special Commission on Government Restructuring to develop independent and consensus based revenue projections. Public Law 1995, chapter 368 enacted in statute the Revenue Forecasting Committee. This law provided that membership on the committee would include the State Budget Officer, the State Tax Assessor, the State Economist, the Director of the Legislative Office of Fiscal and Program Review and an economist on the faculty of the University of Maine System selected by the Chancellor.

Public Law 1997, chapter 655 expanded the membership of the committee to include an analyst from the Legislative Office of Fiscal and Program Review designated by the Director of that office. Public Law 2011, chapter 655 replaced the State Tax Assessor with the Associate Commissioner for Tax Policy as a member of the Committee. The revenue projections of the committee also would no longer be advisory but would become the actual revenue projections used by the Executive Branch in setting budget estimates and recommendations and out-biennium budget forecasts for both the General Fund and the Highway Fund. The State Budget Officer also was empowered to convene a meeting of the committee to review any new data that might become available, affecting the revenue projections for the General Fund and the Highway Fund.

The committee is required to meet at least four times a year or when called by a majority vote of the committee members, or at the request of the State Budget Officer. The committee is required to develop four year revenue forecasts for the General Fund and the Highway Fund, or other funds of the state. No later than December 1<sup>st</sup> and March 1<sup>st</sup> (May 1<sup>st</sup> during odd-numbered years) annually the committee must submit to the Governor, the Legislative Council, the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs and the State Budget Officer its findings, analyses and recommendations for General Fund and Highway Fund revenues. The revenue forecasts are developed using econometric models for Sales and Use Tax, Individual Income Tax, Corporate Income Tax, Fuel Tax and Cigarette Tax. Forecasts for the remaining revenue lines are developed using trend data, national economic assumptions, department subject matter experts and operational analysis (e.g., net profit from liquor sales).

### Findings - Major Revenue Sources

Overview – In November 2014, the Consensus Economic Forecasting Commission (CEFC) provided its forecasts for the major economic variables that were used as inputs to Maine Revenue Services' tax models to help project revenue from the major taxes. National and state economic indicators suggest continued improvement in economic conditions since the CEFC met in January 2014. In their November 2014 report, the CEFC assumes the economy will grow at a slightly more robust pace over the next five years. Personal income in Maine grew 3.4% year-over-year in the first half of 2014, while wage and salary income grew 2.7% over the same period. The Consumer Price Index was 1.7% higher in August 2014 than it was in August 2013. The Revenue Forecasting Committee (RFC) after taking into consideration the CEFC forecast projected stronger revenue growth in the next two biennia after adjusting for the expiration of the temporary sales tax increase that ends in fiscal year 2015.

**Sales and Use Tax** – Sales and use tax receipts increased by 2.5% for the 12 months ending in September 2014. The current revenue forecast assumes continued improvement bolstered by lower energy prices and an improving labor market.

Individual Income Tax –The Individual Income Tax is forecast with the input of a number of economic variables: the components of personal income, inflation, total employment growth, the unemployment rate, and the 3-month treasury bill and 10-year treasury note rates. In addition to these economic variables, Maine Revenue Services must also input assumptions about net capital gains. For the most part the relationship and the effect of these variables on the individual income tax are obvious. Personal income and the distribution of that variable into its components (salaries and wages; dividends, interest and rent; proprietor's income; and transfer payments) affect the accuracy of the Individual Income Tax forecast. The forecast for the Individual Income Tax while consistent with the changes in these economic variables is also influenced by recent data from federal and state income tax returns. The Individual Income Tax was over budget in fiscal year 2014, mostly due to higher than anticipated tax liability for tax year 2013. In their December 2014 report, the RFC recommends an increase in revenue through fiscal year 2017.

Corporate Income Tax — The Corporate Income Tax model is driven by employment growth by sector, the CPI forecast and a national forecast of corporate pre-tax profits. The RFC increased the forecast of Corporate Income tax revenue by \$8.1 million for the 2016-2017 biennium. The new forecast reflects changes to the economic forecast for pre-tax corporate profits. Corporate profits are now estimated to grow slightly slower in calendar year 2014 but significantly stronger in calendar years 2015 and 2016. The forecast also accounts for several temporary state level tax law changes that will continue to have an impact on corporate income tax revenues in the next two biennia.

**Cigarette and Tobacco Tax** –The Revenue Forecasting Committee in December 2014 lowered its budgeted revenue projections by approximately \$4.9 million over the 2016-2017 biennium. The long-term trend is still expected to be a slow decline in sales each year due to declining consumption of tobacco products.

**Insurance Company Tax** –The Revenue Forecasting Committee in December 2012 projected an increase in Insurance Company Tax of \$2 million each year over the 2016-2017 biennium. The forecast for the insurance premiums taxes was increased as a result of the better than expected performance of these tax lines in fiscal year 2014. The forecast is flat because revenue from these taxes tends to fluctuate up and down within a fairly narrow range.

**Municipal Revenue Sharing** – Sales and Use Tax, Service Provider Tax, Individual Income Tax and Corporate Income Tax are subject to Municipal Revenue Sharing in accordance with Title 30-A, section 5681 of the Maine Revised Statutes. That section of statute requires that an amount equal to 5.0% of the sales, income, corporate and service provider tax lines be transferred to the Local Government Fund (Municipal Revenue Sharing). For the 2016-2017 biennium, Revenue Sharing will be consistent with the level of funding provided in fiscal year 2014-15.

**Estate Tax** – Estate tax estimates are forecast by Maine Revenue Services using a model based on the growth in household net worth. A new forecast of household net-worth contributed to an increase of \$2.8 million in the upcoming biennium. Final data on 2013 estate tax returns and initial information on 2014 returns will be available for the May 1<sup>st</sup> forecast providing a better indicator of post-2011 tax changes.

**Transfers to Municipal Revenue Sharing** – The amounts transferred for municipal revenue sharing are based on a percentage of the Individual Income Tax, Corporate Income Tax, Sales and Use Tax and the Service Provider Tax. Consequently, the estimate of these amounts is a simple calculation based on the forecast for those taxes. For the 2016-2017 biennium, Revenue Sharing will be consistent with the level of funding provided in fiscal year 2014-15.

The adopted Revenue Forecasting Committee forecasts for the General Fund, the Highway Fund and the Tobacco Settlement Fund are reflected in Tables B-1 through B-3.

### Revenue Outlook and Forecast – Tax Expenditures

### Section 1: TAX EXPENDITURES

State law requires Maine Revenue Services to provide two tax expenditure reports in January of every odd-numbered year. The first report must be included in the state budget document. 5 M.R.S.A. §1664 provides that the document specifically include

... the estimated loss in revenue during the last completed fiscal year and the fiscal year in progress, and the anticipated loss in revenue for each fiscal year of the ensuing biennium, caused by the tax expenditures provided in Maine statutes; the term "tax expenditures" means those State tax revenue losses attributable to provisions of Maine tax laws which allow a special exclusion, exemption or deduction or which provide a specific credit, a preferential rate of tax or a deferral of tax liability.

The second report, required by 36 M.R.S.A. § 199-B, must be submitted to the Joint Standing Committee on Taxation. This report must contain

"a summary of each tax expenditure, a description of the purpose and background of the tax expenditure and the groups likely to benefit from the tax expenditure, an estimate of the cost of the tax expenditure for the current biennium, any issues regarding tax expenditures that need to be considered by the Legislature, and any recommendation regarding the amendment, repeal or replacement of the tax expenditure."

This report meets the first statutory requirement.

The tax expenditure budget is a concept that was developed to assure a budget review process for tax preferences similar to the review required for direct expenditure programs. The federal government and most state governments engage in a periodic review of tax expenditures. At the federal level a "normal" income tax structure is first determined using the broadest possible definition of income. Tax expenditures are reductions in income caused by a special exclusion, exemption or deduction, or reductions in tax liability which provide a tax credit, preferential tax rate or deferral of tax liability. At the state level this same "normal" tax law reference is used to calculate both sales and income tax expenditures.

Generally, tax expenditures provide tax incentives designed to encourage certain activities by taxpayers or provide relief to taxpayers in special circumstances. Many tax expenditures are the equivalent of a governmental subsidy in which the foregone tax revenue is essentially a direct budget outlay to specific groups of taxpayers. The object of this report is to identify and estimate the fiscal impact of those provisions of the state tax structure which grant benefits analogous to those provided by direct state spending programs.

In developing this report we have excluded from the above definition of tax expenditure those expenditures that are (1) established by federal mandate (e.g., the sales tax exclusion for food stamp purchases), (2) created at the state level to maintain conformity with traditional tax law when the federal

government deviates from that law because it creates credits that the state does not adopt (e.g., the subtraction modification associated with federal work opportunity credit), or (3) the result of the state taxing certain activities under a different tax system (e.g., the income of a financial institution that is an S corporation).

In estimating the revenue loss attributed to a particular tax expenditure, it is assumed that the provision of law granting special tax treatment is repealed and that no other changes in tax law, taxpayer behavior or general economic activity occur as a result of its repeal. Consequently, it should not be concluded that the repeal of any of these tax expenditures will necessarily generate the amount of revenue which they are estimated to forego.

Some tax expenditures are estimated rather accurately from available administrative information or the state's micro-simulation tax models. For a much larger number of expenditures, special data must be developed which is less complete and accurate. Estimates for fiscal year 2016 and fiscal year 2017 generally assume modest increases in business activity and inflation, based on the economic forecast provided by the Consensus Economic Forecasting Committee in November 2014.

Finally, there are some expenditures where no information exists, and our limited resources prevent any special survey or other data generation procedures. Estimates for this group are reported as a range in an attempt to place some bounds on the size of these expenditures.

Maine's individual and corporate income tax systems are based upon the federal definitions of adjusted gross income and taxable income. Therefore, certain tax expenditures are authorized by continued acceptance of the provisions of the Internal Revenue Code. Unlike sales and excise tax expenditures or state income tax expenditures related to state tax credits or modifications from Federal Adjusted Gross Income (AGI), these are not subject to a systematic, periodic review by the Legislature. In many cases, the basis for identifying, estimating and forecasting income tax expenditures which are derived from federal conformity is the Joint Committee on Taxation's (JCT) Estimates of Federal Tax Expenditures for Fiscal Years 2014-2018, compiled by the U.S. Joint Standing Committee on Taxation (August 5, 2014).

Tax expenditures resulting from conformity to Federal AGI that do not involve an above-the-line deduction on the Federal Form 1040 are particularly challenging to estimate due to a lack of data. For this reason we isolate these expenditures at the end of the income tax section and provide specific estimates only for the largest expenditures. These estimates, based on the JCT study, are only intended to convey the order of magnitude of the expenditure.

All tax expenditure estimates in this report reflect revenue loss to the General Fund.

## **Budget Forecast**

5 M.R.S.A. §1665, requires the State Budget Officer to prepare a four year revenue and expenditure forecast for the General Fund and the Highway Fund. In accordance with 5 M.R.S.A. §1665, subsection 7, the forecast assumes the continuation of current laws and includes reasonable and predictable estimates of growth in revenues and expenditures based on national and local trends and program operations. On September 30, 2014, the Bureau of the Budget issued its updated four year budget forecast for fiscal years 2014-15 through 2016-17.

In order to provide the most accurate expenditure estimate, legislatively approved appropriations and allocations through the end of the Second Regular Session of the 126<sup>th</sup> Legislature were used as the starting point for the forecast. The authorized budget for fiscal year 2014-15, recalculated to reflect authorized positions and projected rates for personnel services, and adjusted by program for one-time expenditures and the phase-in of new operations, was used to determine the baseline expenditure forecast for fiscal 2014-15 through 2016-17. This was further adjusted to reflect program-by-program expenditure growth or decline that varied from the baseline growth assumptions, resulting from programmatic factors such as caseload, national trends, etc.

As reflected in **Table C – 1**, the adjusted fund balance for the General Fund was \$12,518,554 at the end of fiscal year 2013-14, and was projected to be (\$11,226,465) at the end of fiscal year 2014-15. The Revenue Forecasting Committee (RFC) in its December 2013 report re-projected revenues upward by \$8.8 million for the 2016-2017 biennium. Then in May 2013 the RFC increased its revenue projections by \$12.1 million and in the December 2014, increased its revenue projections by an additional \$67.5 million, resulting in a net overall revenue increase of \$88.4 million for the 2016-2017 biennium. Projected General Fund appropriations for the 2016-2017 biennium were \$6,870,300,442, resulting in a structural budget gap of \$461,050,457.

As reflected in **Table C – 2**, the adjusted fund balance for the Highway Fund was \$177,729 at the end of fiscal year 2013-14, and was projected to be (\$48,400) at the end of fiscal year 2014-15. The Revenue Forecasting Committee (RFC) in its December 2013 report re-projected revenues upward by \$1.9 million for the 2016-2017 biennium. The RFC in May 2013 increased its revenue projections by \$3.6 million and the RFC in the December 2014 report further increased its revenue projections by \$25.5 million, resulting in a net overall revenue increase of \$31 million for the 2016-2017 biennium. Projected Highway Fund allocations for the 2016-2017 biennium were \$964,229,247 resulting in a projected structural budget gap of \$358,457,497.

### **Budget Process Timeline**

The Constitution of Maine requires the Governor and the Legislature to submit, enact and approve a balanced budget that achieves each fiscal year a balance between resources and commitments. The State of Maine develops General Fund and Highway Fund revenue forecasts for the biennial budget within the context of a consensus revenue forecasting model. The Consensus Economic Forecasting Commission first meets to prepare a four year economic forecast for the State of Maine. The six- member Revenue Forecasting Committee (RFC) uses the economic assumptions recommended by the Consensus Economic Forecasting Commission (CEFC) to prepare its four year revenue forecast for the General Fund and the Highway Fund. The committee's recommendations for revenues affecting the upcoming biennium are made in November, and are subsequently used by the Governor in developing the General Fund and Highway Fund budget recommendations for the upcoming biennium.

The State of Maine uses a biennial budget process in which the budget is presented by the Governor and acted upon by the Legislature for two fiscal year periods beginning in even numbered years. Each fiscal year of the biennium encompasses the period of July 1 through June 30. Appropriations and allocations are provided for each fiscal year of the biennium. The biennial budget for each ensuing biennium is presented and acted upon by the first regular session of the Legislature. During the first regular session, the Legislature may also make adjustments to the appropriations and allocations by program for the last fiscal year of the current biennium. The second regular session of the Legislature may make adjustments to both the first and second fiscal years of the current biennium.

Appropriations and allocations by program are further delineated by three line categories: Personal Services, All Other, and, Capital Expenditures. The Personal Services line category includes the salaries, wages and benefits for all positions authorized by the Legislature reduced by an attrition factor of 1.6%. The All Other line category includes the operational expenditures of a program such as vehicle operations, in state travel, supplies, etc. The Capital Expenditures line category includes funds for the purchase and replacement of equipment assets valued at \$5,000 or more with a useful life greater than one year, and for real property purchases and facility improvements and construction.

Each appropriation and allocation to a program also includes the number of positions authorized by the Legislature. Referred to as "headcount", these positions are further classified by the Legislature as "legislative count" or "full-time equivalent". Legislative count represents positions authorized by the Legislature for 52 weeks in a fiscal year. These may include full-time and part-time positions. Full-time equivalent represents positions authorized by the Legislature for less than 52 weeks in a fiscal year. These typically include seasonal and intermittent positions. Positions authorized by the Legislature may not vary from the position titles and detailed funding that support the positions without legislative approval unless permanent funding is identified and approved by the State Budget Officer.

Once the Legislature has enacted the biennial budget, and it has been signed into law, the departments and agencies receiving expenditure authorization are required to develop budgets by program for each fiscal year, requesting allotment by account, line category and quarter. Allotment is established in four quarters and is approved by the Governor. Fiscal year budgets may be adjusted, or funds transferred between line categories and programs within the same fund and department or agency, to meet changing conditions upon approval by the Governor. Limitations on the transferability of funds between line categories and programs in a fiscal year are guided in law.

#### **Basis of Budgeting**

#### **Governmental Funds**

Expenditures for Governmental Funds are budgeted on an encumbrance and cash basis. Tax revenues, including Sales and Use Tax, Service Provider Tax, Individual Income Tax, Corporate Income Tax, Cigarette and Tobacco Tax, Estate Tax, Real Estate Transfer Tax and Fuel Taxes, are budgeted on a modified accrual basis. These tax revenues are recognized as available for appropriation or allocation in the fiscal year earned, providing they are measurable and available to liquidate liabilities in the current fiscal year period. These tax revenues that are due in the current fiscal year, but which are payable by the taxpayer subsequent to the close of the fiscal year, are accrued as accounts receivable and, therefore, recognized as revenue in the fiscal year benefited. Other revenues are recognized on a cash basis or are accrued as accounts receivable depending upon the circumstance and past practice.

#### **Account Groups**

Expenditures for Internal Service Funds and Enterprise Funds are budgeted on an encumbrance and cash basis. All revenues are recognized on an accrual basis. All revenues are recognized as available for allocation in the fiscal year earned. All revenues due in the current fiscal year, but which are payable subsequent to the close of the fiscal year, are accrued as accounts receivable and, therefore, recognized as revenue in the fiscal year benefited.

#### **Biennial Budget Timeline**

Biennial budget guidance is provided to departments and agencies in July of the last fiscal year of the current biennium. This guidance includes a description of the required documentation to support each budget request. Alternative funding scenarios from departments and agencies may also be requested to show the program impact if funds by program were limited to 90%, for example, of the base year appropriations or allocations. In addition, the guidelines and instructions may request other detailed budget information from each department and agency as necessary.

Pursuant to 5 M.R.S.A §1665, biennial budget requests are due in the Bureau of the Budget by September 1 of each even numbered year. During the months of September and October, the budget analysts in the Bureau of the Budget prepare budget recommendations for the Governor-elect based on independent analysis and forecasts as well as one-on-one discussions

with department and agency staff. Following the election, one-on-one budget meetings are held with key department and agency staff to discuss specific requests, departmental priorities, and impact of reductions from alternative budget scenarios. These meetings may include the Governor-elect, the Commissioner of the Department of Administrative and Financial Services, the State Budget Officer, the Governor-elect's Chief of Staff and the Governor-elect's Senior Policy Advisors, depending upon the department or agency and the issue under consideration.

In late December, all budget decisions are finalized, including the development of the capital budget. 5 M.R.S.A, §1666 requires that the budget bills are transmitted to the Legislature in January or February, dependent on the status of the Governor. Two budget bills are provided to the Legislature. One is a supplemental budget bill (also referred to as an emergency budget bill) that proposes adjustments to appropriations and allocations for the last fiscal year of the current biennium. The second is referred to as a unified budget bill in that it presents all appropriations and allocations for a program regardless of funding source. Part A of the bill presents the Governor's appropriation and allocation recommendations for the upcoming biennium. Part B of the bill presents adjustments associated with approved reclassifications and range changes that are self-funded by departments and agencies. Other parts of the unified budget bill include proposed statutory and unallocated language required to give legal effect to the Governor's budget proposals.

The budget document must be submitted to the Legislature in early January according to statute, except when there is a Governor-elect. A Governor-elect has one additional month and must submit the budget in early February.

The content of the budget document is prescribed by statute. The budget document presents the budget, financial and operational plan of the Governor for the upcoming biennium. Details are provided in the budget document to show how those plans will be realized and the manner in which the budget has been balanced.

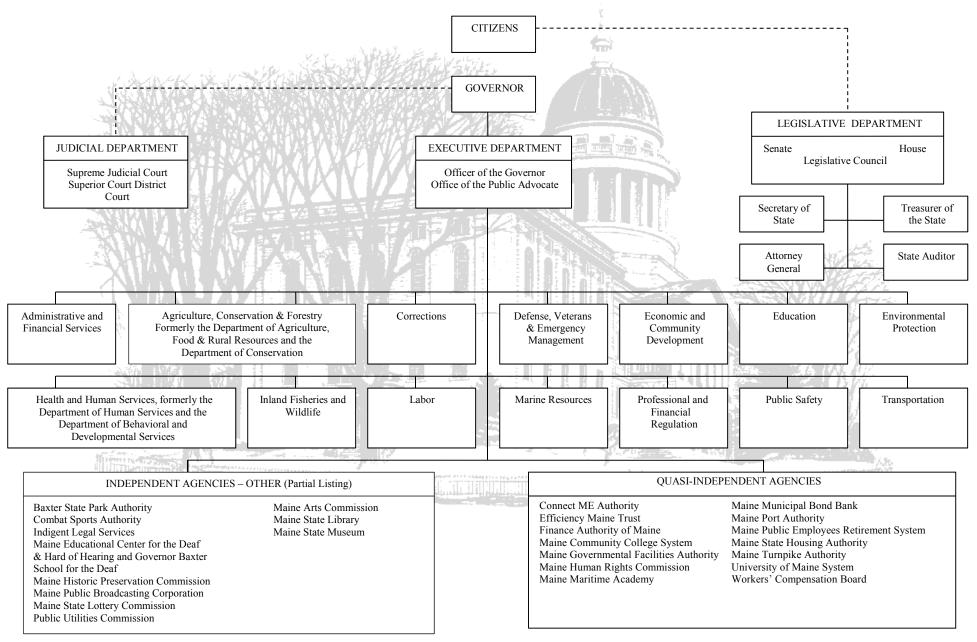

The Legislature conducts separate public hearings for each budget bill type before the Joint Standing Committee of the Legislature having jurisdiction over appropriations and financial affairs. At each public hearing, department and agency heads present and defend each budget request by program for his or her department or agency. Testimony from the public, either for or against the request, is solicited by the committee during the public hearing. Members of the joint standing committee of the Legislature having policy jurisdiction over the department or agency are also included in the public hearing process.

Following each public hearing, the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs engages in work sessions for each budget bill type. The initial stage of the work session involves the receipt of recommendations from the legislative policy committees of jurisdiction. The committee next engages each department or agency head, and their staff, in one-on-one discussions in order to elicit additional program information pertinent to the budget decision making process. Such information may include staffing and organization, performance measures, caseload forecasts, etc. The committee takes public votes on each item in the Governor's budget, adjusting each

budget bill to reflect the priorities of the Legislature. At the conclusion of the work session, the committee reports out each budget bill type for consideration by the full Legislature followed by referral to the Governor for his or her approval.

Budget bills are submitted as emergency bills that require a 2/3 vote of the members of both legislative bodies in order to take effect when approved by the Governor. Non-emergency budget bills require a majority vote of those legislators present and voting in each legislative body. These budget bills take effect 90 days after the adjournment of the Legislature if signed into law by the Governor.

## Requested and Recommended Appropriations and Allocations

#### **Judicial Department**

Pursuant to 5 MRSA, chapter 149, §1664, sub-§2, the Governor must provide notice when the recommended appropriations and allocations for the Judicial Department differ from the budget request submitted by the Judicial Department, providing an explanation for any differences.

The chart on the following page summarizes the baseline budgets by fund type, for the Judicial Department for each year of the upcoming biennium, for Personal Services, All Other and Capital. It also provides summary information for changes to appropriations and allocations requested by the department and the recommended appropriations and allocations appearing in the Governor's budget.

In all, the department requested an increase in General Fund appropriations of \$9.3 million over the course of the biennium. The Governor's budget for the 2016–2017 biennium recommends total adjustments in appropriations of \$9.2 million. Careful consideration was given to the department's requests, taking into consideration the Chief Justice's rationale for the proposed budget and the needs of the department and within the larger context of the range of needs across state government.

The Judicial Department requested an increase in allocations of federal funds totaling approximately \$709 thousand; based on further work with the Judicial Branch, the Governor's budget recommends an increased allocation of \$520 thousand. Last, the department requested an increase in Other Special Revenue of approximately \$1.64 million; the Governor's budget recommends an increase in allocation of approximately \$1.79 million.

#### Office of Program Evaluation and Government Accountability

Pursuant to 5 MRSA, chapter 149, §1664, sub-§3, the Governor must provide notice when the recommended appropriations and allocations for the legislative Office of Program Evaluation and Government Accountability (OPEGA) differ from those requested by the Legislative Council, providing an explanation for any such difference.

The Legislative Council did not submit additional budget requests for OPEGA. The Baseline Budget is reflected in the Governor's recommended biennial budget.

#### **Research and Development**

5 MRSA, chapter 149, §1664, sub-§3-A, establishes a formula for determining a funding level for research and development. In FY10, that formula set the level at not less than 1% of total actual General Fund revenue in FY09. For each successive year for the following decade, that funding level is to increase by at least two-tenths of 1% until funding for research and development is the equivalent to not less than 3% of total actual General Fund revenue of the previous fiscal year.

The funding level recommended for research and development as recommended in the Governor's budget includes an appropriation of \$17.35 million in each year of the biennium to the Maine Economic Improvement Fund, University of Maine System. This request includes an increase of \$2.65 million in each year. The University of Maine System requested an additional \$5.3 million in each year; however, it was reduced as needs were addressed across state government. It also includes a recommended appropriation of just over \$7 million in each year for the Office of Innovation, within the Department of Economic and Community Development. Both of these appropriations are for the support of research and development activities.

This funding level falls short of that which would be otherwise calculated using the formula described above. Careful consideration was made in arriving at the recommended funding levels, as investment in research and development is critical to Maine's economy and future.

#### **Maine Indian Tribal-State Commission**

5 MRSA, chapter 149, §1664, sub-§3-B states that if the Governor submits legislation setting forth appropriations or allocations for the Maine Indian Tribal-State Commission that differ from the full budget proposal developed under 30 MRSA, §6212, sub-§ 6, the Governor shall simultaneously submit a report to the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs and the joint standing committee of the Legislature having jurisdiction over judiciary matters explaining why the Governor's budget legislation differs from that proposal.

The funding level recommended for the Maine Indian Tribal-State Commission does not differ from the requested amount.

## Glossary of Budget Terms

**Allotment**: The designation of a department or agency's estimated expenditures in each fiscal year budget (called the annual work program) by quarter and line category. Four equal quarters are used each fiscal year. The approved amounts are recorded in the accounting general ledger by quarter and line category to form the basis on which the State Controller authorizes expenditures, in accordance with statute.

**Allocations**: The total amount of estimated expenditures authorized by the Legislature from resources legally restricted or otherwise designated for specific operating purposes. These resources typically constitute highway funds, federal funds, other special revenue funds, internal service funds, enterprise funds or any other funds, which may be designated for specific purposes by the Legislature.

**Alternative Budget**: The biennial budget scenario technique in which departments and agencies are required to present revised budget requests for each fiscal year of a biennium as an alternative to the department or agency's original budget proposal.

**Appropriations**: The total amount of estimated expenditures authorized by the Legislature from unrestricted or undesignated resources in each fiscal year. These resources typically constitute undedicated General Fund resources which are designated by appropriation account and line category in the estimated authorizations to spend of the Legislature.

**Biennial Budget**: The two year financial plan of the State of Maine which shows for each fiscal year all proposed expenditures, interest and debt, redemption charges, capital expenditures and estimated revenues in support of expenditures and obligations consistent with the Governor's, or Governor-elect's, program priorities, goals and objectives.

**Biennium**: The two fiscal years, beginning in even numbered fiscal years, which represent the period covered by the biennial budget financial plan of the State of Maine.

**Bond Issue**: A financing instrument for major capital purchases, projects, repairs, renovations or other limited projects by which the State incurs debt and retires the principal and interest amounts over time

**Dedicated Revenue**: Revenue which accrues to a department or agency for use toward designated or legally restricted operational purposes.

**Encumbrance**: A commitment against allotment for legally binding purchase orders and contracts representing goods and services which have not yet been received. Encumbrances become expenditures and liabilities only when the goods and services are actually received.

**Enterprise Fund**: A proprietary fund in which goods and services are provided by a state department or agency to the general public through charges based on consumption. Such fund types may or may not be self-sustaining depending upon the cost structure of the agency whereby cost of goods sold, debt interest and other non-operating expenditures are deducted from gross revenue to determine the entity's net income or loss for the fiscal year.

**Fiscal Year**: The accounting and budgetary cycle of the Maine State Government. The fiscal year commences on the first day of July and ends on the 30th day of June each year.

## **Sec. J-4. 36 MRSA, § 4103, sub-§ 1-A** is enacted to read:

- <u>1-A. Imposition of tax after 2015.</u> A tax is imposed on the transfer of the Maine taxable estate of every person who, at the time of death, was a resident of this State. The amount of tax for decedents dying during calendar year 2016 is determined as provided in this section.
  - A. If the Maine taxable estate is \$5,500,000 or less, the tax is \$0.
  - B. If the Maine taxable estate is more than \$5,500,000 but no more than \$8,000,000, the tax is 10% of the excess over \$5,500,000.
  - C. If the Maine taxable estate is more than \$8,000,000, the tax is \$250,000 plus 12% of the excess over \$8,000,000.

The amount of tax is multiplied by a fraction, the numerator of which is the value of that portion of the decedent's adjusted federal gross estate that consists of real and tangible personal property located in the State plus the value of all intangible personal property and the denominator of which is the value of the decedent's adjusted federal gross estate.

## SUMMARY PART J

This Part eliminates the Maine estate tax for decedents dying on or after January 1, 2017. The exclusion amount for estates of decedents dying in calendar year 2016 is increased from \$2 million to \$5.5 million, the amount estimated to be the federal exclusion amount for the estates of 2016 decedents. The tax rate schedule for 2016 decedents is updated to reflect the increase in the exclusion amount.

Beginning in fiscal year 2005-06 and in each fiscal year thereafter, the commissioner shall use the funding level determined in accordance with this section as the basis for a recommended funding level for the state share of the cost of the components of essential programs and services.

### SUMMARY PART M

This Part does the following:

- 1. Revises the distribution of available balances in the unappropriated surplus of the General Fund. In addition to the fixed transfer replenishing the Contingent Account up to \$350,000 and the fixed transfer for the Loan Insurance Reserve up to an amount of \$1,000,000, this part establishes a fixed transfer for the General Fund Operating Reserve to an amount up to \$2,500,000 and the Retiree Health Internal Service Fund up to an amount of \$4,000,000 over the 2016-2017 biennium and up to an amount of \$2,000,000 thereafter.
- 2. Revises the growth limitation factor to the 10 year average of nominal personal income growth plus 1. This eliminates the need for calculating the 10 year average of population growth and inflation.
- 3. Sets the "biennial base year appropriation" to the appropriation enacted for Fiscal Year 2016-17 as of Dec. 1, 2016.
- 4. Eliminates all language dealing with the calculation of the state tax burden and how the growth limitation factor changes depending on our ranking.
- 5. Revises the appropriation limitation to be based on all General Funding spending and removes language for the additional GPA outside the cap until the State share reaches 55%.

Forest land in the organized areas, subject to taxation under this subchapter, must be taxed at the property tax rate applicable to other property in the municipality.

The State Tax Assessor shall determine annually the amount of acreage in each municipality that is classified and taxed in accordance with this subchapter. Each municipality is entitled to annual payments distributed in accordance with this section from money appropriated by the Legislature if it submits an annual return in accordance with section 383 and if it achieves the minimum assessment ratio established in section 327. The State Tax Assessor shall pay any municipal claim found to be in satisfactory form by August 1st of the year following the submission of the annual return. The municipal reimbursement appropriation is calculated on the basis of 90% of the per acre tax revenue lost as a result of this subchapter. For property tax years based on the status of property on April 1, 2008 and April 1, 2009, municipal reimbursement under this section is further limited to the amount appropriated by the Legislature and distributed on a pro rata basis by the State Tax Assessor for all timely filed claims. A municipality that fails to achieve the minimum assessment ratio established in section 327 loses 10% of the reimbursement provided by this section for each one percentage point the minimum assessment ratio falls below the ratio established in section 327.

The State Tax Assessor shall adopt rules necessary to implement the provisions of this section. Rules adopted pursuant to this subsection are routine technical rules for the purposes of Title 5, chapter 375, subchapter 2-A.

A.

B.

C. For purposes of this paragraph, unless the context otherwise indicates, the following terms have the following meanings.

The penalty is an amount equal to the taxes that would have been assessed on the first day of April for the 10 tax years, or any lesser number of tax years starting with the year in which the land was first classified, preceding the withdrawal had that land been assessed in each of those years at its value as farmland or open space land on the date of withdrawal. That amount must be reduced by all taxes paid on that land over the preceding 10 years, or any lesser number of tax years starting with the year in which the land was first classified, and increased by interest at the prevailing municipal rate from the date or dates on which those amounts would have been payable. The Forest Health and Monitoring division protects the forest, shade and ornamental tree resources of the State from significant insect and disease damage. This is accomplished by maintaining a statewide forest health monitoring system, providing technical assistance, conducting and supervising control activities, enforcing state and federal quarantines, and developing practical options for managing forest stressors. The division also conducts Maine's permanent annual forest inventory on a 5-year cycle.

# FOREST POLICY AND MANAGEMENT - DIVISION OF Z240

#### What the Budget purchases:

The Forest Policy and Management unit supports Maine's forest-based economy by providing technical assistance, information, and education services to forest landowners, forest products processors and marketers, municipalities, and the public. The unit collects and analyzes data on forest policy issues to provide a basis for recommendations to the Governor and the Legislature. The unit administers programs that lead to informed forest management decisions, and protects the multiple values of Maine's forests. The unit also implements the state's forest practices laws by providing outreach and enforcement services.

# LAND MANAGEMENT & PLANNING Z239

#### What the Budget purchases:

This program manages the state's public lands and submerged lands. The program relies solely on the dedicated revenue generated from timber harvesting operations and leasing activities on public lands. Activities conducted include timber management, multiple use land management, primitive recreations and wildlife habitat. The program must provide information to the public as well as construct roads, trails, bridges, and maintain campsites. The program must balance the principles of multiple use and sustainable timber yield.

# OFF-ROAD RECREATIONAL VEHICLES PROGRAM Z224

#### What the Budget purchases:

This program receives revenue from snowmobile and all terrain vehicle (ATV) registration fees, as well as a portion of the gas tax from fuel used in snowmobiles and ATV's. The division plans, develops, and maintains snowmobile/ATV trails directly or through grants-in-aid to clubs, municipalities, or counties. It negotiates and administers trail licenses and environmental permits for trails on private land. It also develops and distributes information/educational materials and provides technical assistance to clubs, municipalities, and landowners in managing recreational use of snowmobiles and ATVs. This program manages approximately 300 miles of state-owned or leased multi-use rail trails.

#### What the Budget purchases:

The Military Bureau's 2 components, the Army National Guard and the Air National Guard each perform dual missions; a state mission as a resource to the Governor to provide trained and disciplined forces for domestic emergencies or needs such as helping communities deal with floods, tornadoes, hurricanes, snowstorms or other emergency situations, and a federal mission as a resource to the President for prompt mobilization for war or emergency in support of our national security. The state budget properly funds the Master Cooperative Agreement between the National Guard Bureau and the State of Maine. It is for the both Army and Air National Guard facilities and environmental support. It is also for the support of more that 3,200 soldiers, airmen, civilian employees, and the sustainment of more than 1.6M square feet of state guard facilities and more than 361 thousand acres of training land.

#### CRISIS OUTREACH PROGRAM Z136

#### What the Budget purchases:

Developmental Services within the Department of Health and Human Services provides Crisis Prevention and Intervention services throughout the State of Maine to people with intellectual disabilities and brain injury. The overall goal of this responsive crisis system is to provide assistance to individuals, families, guardians, and providers in order to maximize individuals' opportunities to remain in their homes and communities, before, during and after crisis incidents.

This comprehensive crisis system consists of five major components; Prevention Services, Crisis Telephone Services, Mobile Crisis Outreach Services, In-home Crisis Services, and Crisis Residential Services

When necessary support requires an individual to leave their present situation to be supported in a state operated crisis home or other contracted short term residential service, it is the goal of the crisis service system to assist that individual to return home as soon as possible.

### EMPLOYMENT SECURITY SERVICES 0245

#### What the Budget purchases:

The Bureau of Unemployment Compensation administers a number of unemployment programs with varying eligibility requirements, but all pertaining to the loss of employment that was not caused by the individual. The Bureau is organized into four divisions. The largest is the Division of Benefit Services which includes the Unemployment Claims Centers that are responsible for making initial determinations of benefit eligibility and for processing benefit claims and payments. #### LABOR RELATIONS BOARD 0160

#### What the Budget purchases:

The mission of the Maine Labor Relations Board and its affiliated organizations—the Panel of Mediators and the State Board of Arbitration and Conciliation—is to foster and improve the relationship between public employers and their employees. The Board protects the rights and enforces the responsibilities established by the four separate labor relations statutes covering Maine's public sector employees. Included within the Board's jurisdiction are State Legislative, Executive and Judicial Branch employees as well as municipal, school department, county, University of Maine, Maine Community College, and Maine Maritime Academy employees. The Board accomplishes its mission by creating bargaining units, conducting secret ballot elections to certify, change or decertify bargaining agents, processing prohibited practice complaints, and providing dispute resolution services that include mediation, fact-finding, and arbitration.

### BUREAU OF MARINE SCIENCE 0027

#### What the Budget purchases:

The Bureau of Marine Science (BMS) conducts research and monitoring to promote sustainable marine and diadromous resources and marine education. The BMS engages in scientific research, monitoring, and assessment to manage and restore marine and estuarine resources; collects commercial landings and recreational harvest data; and participates in development management plans for state, interstate, and federal fisheries. Enhanced management and restoration of diadromous species is accomplished through focused efforts on the importance of Maine rivers, improved habitat restoration within the rivers, and improved science and streamlined field work. The BS operates the Maine State Aquarium and educational programs to educate Maine school children and the public about marine resources.

### BUREAU OF PUBLIC HEALTH Z154

#### What the Budget purchases:

The Bureau of Public Health (BPH) is responsible for the management of bivalve shellfish resources in order to protect public health and in accordance with the National Shellfish Sanitation Program Model Ordinance (NSSP MO). The BPH engages in four primary functions: growing area classification, marine biotoxin monitoring, dealer inspection and municipal management. The safety of shellfish growing areas are monitored and maintained through routine water testing and shoreline survey work. The marine biotoxin monitoring program ensures that shellfish harvesting areas are closed when Harmful Algal Blooms occur affecting the safety of the shellfish. The dealer inspection program certifies and inspects every shellfish dealer in Maine to ensure that they are complying with NSSP MO guidelines to protect public health. The municipal management program works with towns to develop and maintain shellfish ordinances that control and enhance local shellfish resources.

### MAINE PUBLIC BROADCASTING CORPORATION 0033

#### What the Budget purchases:

Maine Revised Statutes, Title 20-A, section 852, subsection 3, a portion of the act that created the Maine Public Broadcasting Corporation reads in part, "An annual appropriation for operating, constructing, equipping, maintaining, improving and replacing facilities of the corporation must be made in amounts sufficient to ensure delivery of broadcast sources throughout the state". MPBN is the only broadcaster that covers the entire state. MPBN runs the Emergency Alert System (EAS). MPBN carries programs that teach children to read and write as well as to count and do math, it provides comprehensive coverage and analysis of national, state and local politics, and it offers a voice to constituencies often underserved by commercial broadcasters. Through its five broadcast transmitters, MPBN television reaches 95.2% of the 591,000 Maine households, while its seven radio transmitters reach 90% of the population.

#### What the Budget purchases:

The fund is used solely to defray the commission's projected costs of overseeing the Efficiency Maine Trust, including but not limited to reviewing and approving the triennial plan and contracting with expert third-party resources to provide technical assistance or impartial evaluation of the performance of energy efficiency programs administered by the trust. The commission may assess the trust an amount not to exceed 1% of the total funds administered by the trust, and the trust shall transfer that amount to the commission to be deposited into the oversight and evaluation fund. Any interest on funds in the oversight and evaluation fund must be credited to the oversight and evaluation fund and any funds unspent in any fiscal year must either remain in the oversight and evaluation fund to be used for the purposes specified in this subsection or be transferred to the trust for deposit in appropriate program funds.

### PUBLIC UTILITIES - ADMINISTRATIVE DIVISION 0184

#### What the Budget purchases:

The commission regulates the State's electric, telephone, gas and water utilities as well as water carriers to ensure safe, reasonable and adequate service at rates which are just and reasonable to customers and public utilities. The commission enforces Maine's underground facilities damage protection law, called "the Dig Safe Law". The law is intended to prevent damage to underground utility facilities, such as gas lines, water lines, or underground telecommunications and electric equipment, to avoid the associated safety hazards, service interruptions, and costs. The commission also monitors the safety of nearly 900 propane gas facilities that primarily serve multi-unit housing complexes and commercial buildings and operated by approximately 50 propane distributors.

### MUNICIPAL EXCISE TAX REIMBURSEMENT FUND 0871

#### What the Budget purchases:

The Bureau of Motor Vehicles collects registration and excise tax revenues from non-Maine interstate truck carriers. Total excise tax revenues due from each truck are apportioned among the states in which they travel, based on their mileage traveled in each state. In Maine, excise tax revenues collected from interstate carriers are deposited in the Municipal Excise Tax Reimbursement Fund. A portion of these funds is distributed among Maine municipalities upon application by each municipality based on the reduction of excise tax revenues experienced as a result of the change in the application of the tax from the book value to the purchase price of the truck when purchased by a Maine resident. Following distribution to the municipalities, the remainder of the funds collected are transferred to the Highway Fund.

MEIF was created to focus on 7 key areas of great importance and potential to Maine: Aquaculture and Marine Sciences; Biotechnology; Composites and Advanced Materials Technologies; Environmental Technologies; Information Technologies; Advanced Technologies for Forestry and Agriculture; and Precision Manufacturing.
