Dear Sir.

George is about to have his will made and executed in view of his absence in service and we are without the necessary information as to those Illinois claims. We wish you either to give us the names of the parties or by referring us to your letters or papers enable us to properly describe the two claims in the will. The importance of the matter to us, I hope you will consider a sufficient excuse for my asking your attention to it embarrassed as you must be by your official duties.

Yours obedient servant
J. Remond.

Now at work to build a spruce
in woods not to win in Johnson Jones. Home
around present lots building and we have almost
nothing work done. The animals would stand in the mill
but prefer to work off around when we go
home. All the animals must go out when it is
woodchipping etc. Now all the animals will stay outside
so not losing time up work. At the village out for
it is time the work begins here and enough timber
now to go along with us. I have been working
