A GRAND SUCCESS.

The Colonial Fair Given By
the Catholic Society of
this Village.

OVER \$300.00 REALIZED.

The Colonial Fair held at the Opera House on Thursday and Friday evenings of last week proved to be a great success.

The booths were arranged to represent the thirteen original states and were very artistic and attractive in design many attendants being dressed in costumes appropriate to the occasion.

The various tables laden with alluring articles were well patronized. Ice cream and cake disappearing like magic while all of the fancy articles were also disposed of.

The music on both evenings was equally fine the Zenonian orchestra assisted by Miss Snow furnishing the first evening's program and the Philharmonic of Biddeford the second.

Dancing was kept up till a late hour on Friday evening as it was almost impossible to resist the bewitching strains of music that made even the usually sedate ones long for an opportunity to "trip the light fantastic toe."

Those who had the fair in charge have put a great deal of time and trouble into their preparation and we are glad to offer our congratulations on the success of their efforts as they netted \$343.41 which is to be used for the erection of their new church.

Much assistance was rendered by outside parties for which the society are most grateful.

YORK DISTRICT LODGE.

Good Templars Met at Old
Orchard Last Wednesday.

Morning and Afternoon Sessions Very Interesting.

MUCH BUSINESS DONE.

Next Meeting Held in This
Village Sometime in May.

The York District Lodge of Good Templars met with Highland Lodge, at Old Orchard, last Wednesday, with fair attendance from seven lodges and nearly every officer present. Brother Don A. Wright of Sanford, the District Chief Templar was in the chair.

Grand Chief Templar, William A. Rideout was present and occupied a seat of honor with the Grand Vice Templar, Miss Nellie L. Guilford, who is a member of this district.

REPORTS OF OFFICERS.

The report of the District Chief Templar was read and showed the order throughout the district to be in a harmonious working condition. He said in part, as follows:

Officers and Members of York District Lodge:

It is again my happy privilege to welcome you to the York District Lodge.

After an interval of seven quarters we again return to the kind hospitality of Highland Lodge.

Twenty-one months ago we met in District Session, in the beautiful and convenient quarters furnished us on the shores of the broad Atlantic, Maine's most popular and beautiful beach.

We rejoice to meet again those whom we met at that session, as well as those whom we have known for years, to be earnest enthusiastic workers for this grand cause of temperance.

Brothers and Sisters: We are standing on a platform of principles which read:

1. Total abstinence from all intoxicating liquors as a beverage.

2. No license in any form, or under any circumstances, for the sale of intoxicating liquors to be used as a beverage.

3. The absolute prohibition of the manufacture, importation and sale of intoxicating liquors for such purposes; prohibition by the will of the people, expressed in due form of law, with penalties deserved for a crime of such enormity.

4. The creation of a healthy public opinion upon the subject, by the active dissemination of truth in all modes known to an unlighted philanthropy.

5. The election of good, honest men to enforce the laws.

6. Persistence in efforts to save individuals and communities from so direful a scourge against all forms of opposition and difficulty, till our success is complete and universal." A platform which every Good Templar has cause to be proud.

I wish to give my hearty support to the Act to provide for the better enforcement of the laws against the manufacture and sale of intoxicating liquors, known as the "Sturgis' Bill" which is before the Legislature of Maine.

If the Hepburn-Dolliver bill should be put through the United States Senate and become a law, as we hope it will, the express company with one or two exceptions, would be about the only possible means of supplying the state and even then the express business would be subject to prohibition.

The re-submission hearing which occurred on the seventh of this month was well attended by friends of enforced prohibition and I hope if a bill to re-submit goes to the Legislature, it will receive the same crushing defeat that a similar bill did before the North Dakota Legislature, on January 24th, which was voted down 67 to 23.

I believe if we be honest temperance people and continue to insist that the present prohibitory law be strictly and rigidly enforced in every section of the state this prohibitory amendment will never be allowed to change. I wish to thank those officers and members who have made my term of office a pleasure to me, and a profit to the order.

My visits in the District have always been pleasant and harmonious. While they have not been as frequent as I should have desired, had my time not been limited, and the mode of traveling been difficult. Yet I look back to them with much pleasure. Many an honest heart and hand have greeted me, for which I am grateful.

BASE BALL OUTLOOK.

Signs Of Activity At the Kennebunk
High School.

A Very Bright Prospect For The
Coming Season.

ASSOCIATION ELECTS OFFICERS.

A Concert Will Be Given In April
For the Benefit of the Team.

The present zero weather is hardly compatible with base-ball. Nevertheless the K. H. S. boys are up and doing, for there will be a busy time on the diamond this spring. The strongest team the school has ever sent out will uphold the honor of the blue and white on the base-ball field.

The team of 1904 easily proved itself superior to all the York County aggregations, easily defeating Thornton, Biddeford, Berwick Academy and Sullivan High. But one man, R. Cole, (W. P. I. '08) was lost by graduation. All of the old favorites are waiting for the season to open, as well as several new stars who have recently joined the squad. Two teams will be maintained thus giving sharp practice and more competition for each position. Thus far, nineteen men have signified their intentions of competing for a place on the teams.

Rand, the clever backstop of last year will be found in his old position. Green, the big freshman, will probably catch for the second team and will be taken along on all trips. He has the making of a good catcher when more matured.

Captain Cole and Goodwin, '05 will do the twirling. Cole is well known for his work of the past two years. His coolness, together with a complete knowledge of the game, make him an ideal captain.

Goodwin joined the squad last fall. He is a favorite in local circles. Old players speak highly of his ability to puzzle batsmen. Goodwin's work at Kennebunk Beach during the past summer was of the highest order.

There are numerous candidates for the infield positions including Grant, Ward, Ford, A. Pitts, Robinson, Smith and Proctor. Nearly all of the first named are well known to local enthusiasts. Pitts was not out last year but will make some one hustle this spring. His fielding is clear and sharp and he stays in the game until the finish. Proctor is easily the star shortstop of York County. His plays

The ladies of the Unitarian church are invited to meet on Thursday at 3 p. m. at the Parish rooms to aid in preparing a box for the Good Will Farm. Contributions of a dollar cash are solicited fifty cents to be paid in at once, and the remainder some time during the year.

Matting Factory.

Outlook Most Encouraging. New
Building to be Erected Soon.

The business at this place is increasing in a most satisfactory manner. Five looms are now running, each loom putting out some 20 yards per day. Ten more machines are expected this month. The matting is of the best and we noticed a new use that it is being put to in covering dress suit cases which are both light and artistic.

Mrs. Smith and daughter have moved into the house recently vacated by Mrs. Agnes Webb. Mr. and Mrs. Geo. Robinson will occupy the one vacated by them on Summer street.

PREPARATIONS IN ORDER.

A. G. Day is Manager Of
This Coming Affair.

The Kennebunk Military Band are making extensive preparations for a grand Minstrel Carnival to be given some time this month. Soloists have been engaged from out of town and the affair will conclude with a dance. The money received will be used for the running expenses of the band and every one should do all in their power to aid so good a cause. The band was started some five years ago and is an organization that the town may well be proud of. There are twenty men in the company and Mr. A. G. Day one of members has been appointed manager of the carnival.

PASSED AWAY.

Death of Mrs. Wm. Dresser Occurred
Friday Last.

Mrs. Nellie L. Dresser, wife of William Dresser passed away on Friday morning after a short but painful illness.

The sad news cast a gloom over all the community for Mrs. Dresser had a large circle of friends being prominent in the Daughters of Rebekah and also a trusted worker among the ladies of the Universalist Parish.

She was 49 years of age. The daughter of Mr. Beniah and Mrs. Mary Lizzie Littlefield and since her marriage to Mr. Dresser they have made their home with her widowed mother who still survives her. She also leaves two sisters, Mrs. Charles Nason and Miss Flora Littlefield.

Funeral services were conducted on Sunday at her late home by Rev. Frederick Lewis and in well chosen words expressed his appreciation of the true and tender spirit of the one who has gone.

The coffin was covered by a mass of beautiful flowers, and the large gathering of friends testified to the feeling of esteem in which she was held by the community.

Card of Thanks.

We wish to express our most heart felt gratitude to all of our friends who in so many ways have shown their sympathy during our recent sad affliction.

MR. WM. DRESSER,
MRS. M. E. LITTLEFIELD,
MISS FLORA LITTLEFIELD

All Voters Take Notice.

Be sure to vote for article twenty-four in the warrant at the next town meeting as we people who want lights can see of no other way of getting the same other than letting the Kennebunk Electric Light Company do the lighting for us.

We do not want them to do any street lighting nor they do not want to do so ever will. Following is a short explanation of the way they propose to do this lighting.

The cost of putting lights into houses and stores will be small, and costs of running lights in your house, or store, after it is put in will be only a small advance over kerosene to say nothing about the many advantages you get from an electric light over the old house setting after thing we now have to use called the kerosene lamp. So much per thousand vaults will be charged for use of lights price per one thousand vaults to be determined by a committee of three disinterested expert electrical engineers one to be chosen by the company, one by the town, these two to choose a third man.

This company will make no charge for transformers, meters or any other outside work. A full explanation of this whole matter will be given at the town meeting by the Treasurer of the Company. He will at that time gladly answer any questions any voter wishes to ask him. This is no ring scheme. It is simply an honest business proposition.

ABOUT SNOW ROLLER.

Our West Kennebunk Correspondent Expresses An
Opinion.

COMMISSIONER CAN RUN IT

We have read the various opinions published in regard to the snow roller, we have not had our say about it yet, but have waited to see what kind of work it did before we expressed our mind on the subject. The snow roller is all right. Our road commissioner knows how to run it. He takes two pairs of horses hitched to a sled, from that sled, to the pole on the roller is run a chain and two more pairs of horses attached to the roller, makes eight horses that is required to haul it. It makes a road 14 1-2 feet wide and instead of brushing the snow out of the road, as is done by snow plows, and in case of a two hours thaw, which we don't have now-a-days, it jams the snow down solid and the teamsters can stay in the highway with their load instead of going through peoples' door-yards and mowing fields. It makes a road wide enough, so two loaded teams can pass with no difficulty whatever, a woman can pass a double team without stepping out into the deep snow to allow the team to have the whole road as has been the case ever since we have known this part of the country. We have travelled these roads for twenty winters and the roads this winter far exceed anything we ever had. To be sure it is quite an expense but don't we always have to pay a good price for a good article. We say give us the snow roller in preference to the old way of plowing.

York District Lodge.

(Continued from page 1)

I am glad to welcome the Grand Chief Templar and other Grand Lodge Officers and I feel sure the influence of their presence with us today will be for the good of York District Lodge, and further that the influence will be extended throughout the county and that this meeting will go down in the history of Good Templary as one of the best.

Faithfully Submitted in Faith, Hope and Charity,

Don A. Wright,

District Templar.

The reports of the District Secretary, District Superintendent of Juvenile Temples and District Treasurer were also given. The District Treasurer's Report shows that the finances of the district are in good condition. All bills paid and a goodly sum on hand.

At the noon recess the members of Highland lodge regaled those present with their proverbially good coffee (this being a picnic session.)

At the afternoon session there was a much larger attendance than in the morning. During this session a unique entertainment was given, consisting of a working lodge session by the members of the Seaside Lodge of Juvenile Temples. They executed the work in an excellent manner, and under 'Good of the Order,' they gave a fine entertainment consisting of readings, recitations etc, followed by remarks by the Grand Chief Templar, the Grand Assistant secretary who were present. Also Messrs Fred. A. Bryant of Salus Lodge, Ed. H. Emery of Torsey Lodge, and Mrs. J. R. Pollard of Multum in Parvo Lodge.

REPORTS OF COMMITTEES.

The Report of the Committee on Legislation was given after the retirement of the Juvenile Temples, as follows:

REPORT OF LEGISLATIVE COMMITTEE.

"Your Committee to whom was referred the legislative matters coming before this District Lodge have attended to their duties and respectfully submit the following report:

DRUGGIST BILL.

Article 2. of our Declaration of Principles says: 'No license in any form or under any circumstances, for the sale of intoxicating liquors to be used as a beverage.

While the Druggist Bill does not provide for the sale of intoxicating liquors as a beverage, it furnishes an excellent opportunity for such selling. Our experience with druggists in the past does not encourage us to give them any more latitude than they now have.

If with all the penalties of the present prohibitory law, they will not obey, we cannot believe they will have respect for and obey the provisions of the Druggist Bill. We therefore oppose this bill and recommend that each and every member of this order use his or her influence by personal interview or written letter or telegram to their representative and senator, to urge them to do their utmost to defeat this bill.

STURGIS BILL.

This bill provides for the better enforcement of law where the local officers violate their oath of office and fail to enforce the law.

The condition in Cumberland at present, and in Penobscot County and other parts of the state for years past, demands some such measure as this; therefore we favor this bill and recommend that each member use his influence as above stated, for its passage.

OAKES AMENDMENT.

The Oakes Amendment provides for the punishment of officials who do not do their duty.

At present we have laws requiring them to enforce the laws, but no penalty to compel them to do so.

The Oakes Amendment provides such a penalty. For this reason we endorse this bill and favor its passage. To this end we further recommend that the members of this order do all they can to help secure its passage.

HEPBURN-DOLLIVER BILL.

This bill provides for the regulation of the transportation of intoxicating liquors, making them subject to the laws of the state or local option territory as soon as it crosses the state line whether it is in transit or not.

In view of the decision of the Judge of the Supreme Court of Iowa, on the cases of the State vs. the Adams and American express companies, we feel that the need of such a law is imperative at this time and we approve of it and earnestly request each member to use every honorable means for the passage of this bill.

RE-SUBMISSION.

Whatever bill that is presented tending to the re-submission of our present prohibitory law, we are unalterably opposed to it. We believe that our present law justly enforced, will be more effectual in reducing the sale of intoxicating liquors and the direful results thereof than any law the friends of re-submission will give us. We have no sympathy with the sentiment that says: 'We ought to be fair and let the people vote on it if they wish to.' Nor would we hinder anyone from having an opportunity to express his citizenship on this question were it needed, but it is not. We can scarcely improve our law until the General Government takes favorable action on the question of the PROHIBITION OF THE MANUFACTURE, IMPORTATION, EXPORTATION AND TRANSPORTATION OF INTOXICATING LIQUORS; while so far as being FAIR is concerned, we would not object to a fair fight on this question, but THE LIQUOR TRAFFIC NEVER DID AND NEVER WILL DEAL FAIRLY WITH ANYONE.

Bribery, misrepresentation and fraud have characterized their methods in the past and we can expect nothing better in the future from a traffic whose very existence depends on breeding of crime and anarchism, and murdering the law abiding element in the consciences of men and women.

We are therefore opposed to this bill and again urge every Good Templar to do his utmost to defeat every attempt at re-submission.

J. Franklin Briggs,
Mrs. W. F. Barry,
Edward H. Emery,
Legislative Committee.

This report was followed by the
REPORT OF THE COMMITTEE ON
RESOLUTIONS,

as follows:

York District Lodge of Good Templars in annual session convened and representing six hundred Good Templars, re-affirms its devotion to the old Good Templar platform of total abstinence for the individual and Prohibition for the State and Nation. We welcome all the indications for good which prevail at the present time, and for every indication of a revival of temperance efforts our hearts are made glad. Therefore:

Resolved:—That we respectfully petition the Honorable Senators and Representatives in Legislature assembled, to use every honorable means in their power to secure the following action:

1st. To defeat the so called Druggist Bill. We see no good reason for throwing the bars open for the sale of intoxicating liquors more widely than at present. It is true that safe-guards are provided in the bill. So there were in the Liquor Agency Bill, who ever heard of a liquor agent being removed until the end of his term except by death. There are ways enough through which intoxicating liquors can be procured. We cannot at the present time, recall a case in which a single person has been injuriously deprived of them. We therefore desire the defeat of this bill.

2nd. The passage of the 'Sturgis Bill, so called, not deprived of its teeth, but so worded that it may indeed be an added help to the enforcement of the Prohibitory law. It seems to us to lead up to a non-partisan enforcement of that law, which we desire. We therefore pray for its enactment.

3rd. To secure the passage of the 'Oakes Bill' without amendment. This seems to cover a point too long left undefended.

4th. Now and always we shall pray for the defeat of the re-submission bill so called. We believe the policy of Prohibition to have become the settled policy of the State and that it ought not to be disturbed.

Resolved:—That we extend heartfelt greetings to the Grand Chief Templar who comes from the easternmost section of the state to meet us. We are glad because of the good work he has accomplished. We extend the same greeting to the Grand Assistant Secretary, always a faithful worker for the order. We welcome all the members from Cumberland District.

Resolved:—That we extend thanks to the Members of Highland Lodge for their cordial hospitality.

After this report invitations were received for the May session of the District Lodge and the one from Salus Lodge of Kennebunk was accepted.

Following this came the election and installation of officers for the ensuing

year, as follows:

George H. Tarbox of Kennebunkport, was recommended for District Deputy.

The Representatives to the Grand Lodge to be held in Portland April 12th and 13th are F. H. Dexter of Springvale, Mrs. W. F. Barry of Kennebunk and U. A. Caine of West Kennebunk. The alternates are A. G. Lyons of Old Orchard, John E. Seavey of Cape Porpoise and E. H. Emery of Sanford.

After the installation of officers a candidate for the District degree was announced and duly initiated, under the Good of the Order.

Remarks were made by Wm. A. Rideout, Grand Chief Templar; Mrs. George Brackett, Assistant Secretary; Mrs. Ed. Burnham, Superintendent of Juvenile Temples of Cumberland District; Ed. Burnham, Geo. H. Varney and Charles D. Wilson of Cumberland District. Mrs. Moray of Arcana Lodge told of the beer gardens of the West and of the girls and women seen there and showed the improved condition existing in Maine. After this remarks were made by the District Chief Templar, District Counselor and District Treasurer elect and by J. F. Briggs, of Kennebunk, agent for the Temperance Educational Bureau who made an appeal for the Good Templars in York District to take and read Temperance and Prohibition literature so as to be at all times well posted in the work and able to give a reason for the faith that is in them.

The Lodge closed in regular form about five o'clock p. m. after a very harmonious and profitable session. *

FOR THE CHILDREN

Every Boy Needs a Trade.
Few boys take to tasks that require thought and persistent efforts. Yet skilled work is the only employment in demand.

Hodcarriers and common laborers glut the markets everywhere. The tradesmen and artisans are the ones that get the easiest jobs and the most money. The others are always hunting work.

Should they accidentally stumble upon a job they cannot hold it. A superficial knowledge will not do. It must be thorough.

Boys, learn a trade while young. After you are twenty years old few will be found who will take time and trouble to teach you one. When you are that old you will want a man's pay. If you don't know anything you don't get it. Know nothings work at odd jobs and are paid the lowest scale—Gems.

Mental Arithmetic.

A very pleasing way to arrive at an arithmetical sum without the use of either a slate or pencil is to ask a person to think of a figure, then to double it, then to add a certain figure to it, to halve the whole sum and finally to subtract from that the figure first thought of. You are then to tell the thinker the remainder.

The key to the lock of these figures is that half of whatever sum you request to be added during the working of the sum is the remainder.

But you must tell the thinker to think of an even number or you will have fractions to add. Here is an example:
Think of 2
Double it 4
Add eight to it 12
Halve it 6
Subtract the first number thought of 4
Remainder (half of sum added) 2

Drop the Handkerchief.

A ring is formed by the players joining hands, while one child, who is to "drop the handkerchief," is left outside. He walks round the ring, touching each one with the handkerchief, saying the following words:

I wrote a letter to my love,
But on my way I dropped it.
A little child picked it up
And put it in his pocket.
It wasn't you, it wasn't you,
It wasn't you—but it was you.

When he says, "It was you," he must drop the handkerchief behind one of the players, who picks it up and chases him round the ring outside and under the joined hands until he can touch him with the handkerchief. As soon as this happens the first player joins the ring, while it is now the turn of the second to "drop the handkerchief."

Roll the Ball.

Seat the children in a large circle. A small circle two feet in diameter is either drawn in the center or laid out with string. Each child in turn tries to roll the ball into the center, and some one keeps count of how many are successful. This emphasizes accuracy, careful judgment of distance, precision, courtesy for others and kindness. The arms and eyes are trained, and rhythm can be introduced by rolling to music.

This game, "roll the ball," can be varied by having the children stand and throw the ball into the ring or into a basket.

Geographical Puzzle.

In the following are to be found the name of a continent, the name of a country in that continent and the name of the capital of that country:

Utha Meri is a slim Austrian girl who came to this country with her parents about six months ago. A few days after her arrival she was sent to school and in three months was able to speak English quite well and could read a newspaper, using a dictionary, of course, from time to time. Now she can read almost anything, so Utha Meri can certainly be called a prodigy.

Conundrums.

How do you punctuate a fire to make it burn? Put a colon (colon).
Why is a dictionary like a ballroom? Because it is full of syllables (silly belles).
Why is the letter D like a sailor? Because it follows the C (sea).
What English word of one syllable becomes shorter by adding a syllable? Short.

The Letters at School.

One day the letters went to school
And tried to teach each other.
They got so mixed 'twas really hard
To pick one from the other.

A went in first, and Z went last;
The rest were all between them—
K, L and M and N, O, P.
I wish you could have seen them!

B, C, D, E and J, K, L
Soon jostled well their betters;
Q, R, S, T—I grieve to say—
Were very naughty letters.

Of course are long they came to words—
What else could be expected?
Till E made D, J, C and T
Decidedly dejected!

Now, through it all the consonants
Were rudest and uncouthest,
When all the pretty vowel girls
Were certainly the smoothest.

And nimble U kept far from Q,
With face demure and moral.
"Because," she said, "two are, we two,
So apt to start a quarrel!"

But spiteful P said, "Pooh for U!"
(Which made her feel quite bitter),
And, calling O, L, E to help (pole),
He really tried to hit her.

Cried A: "Now, E and C, come here!
If both will add a minute
Good P will join in making peace,
Or else the mischief's in it!"

And smiling E, the ready sprite,
Said, "Yes, and count me double."
This done, sweet peace shone o'er the
scene,
And gone was all the trouble!

Meanwhile, when U and P made up,
The consonants looked about them
And kissed the vowels, for, you see,
They couldn't do without them.

COUNTY NOTES

From Our Regular Correspondents.

CAPE PORPOISE.

Mrs. Mary J. Fletcher, one of the oldest residents of the Cape, fell recently and bruised her face quite badly.

The harbor is still badly frozen over and the fishing vessels lie in the ice. One day recently a fisherman started from a vessel in the lower part of the harbor, and raising the sail of his dory, sailed over the entire distance to the wharf.

There came very near being a drowning accident recently. A fisherman named Doane started to go ashore from one of the vessels, and when near the railroad pier fell through the ice. Had it not been that some of the men from the Olive F. Hutchins were near and went to his assistance his escape would have been impossible.

The Sunday-school class of Mr. G. F. Seavey, known as The Architects, gave a very enjoyable Valentine Party in Pinkham's hall recently. The admission fee was a pair of old rubbers or rubber boots, and valentines, written fortunes, a guess cake, and handkerchief table were features of the evening's entertainment. Cake and coffee were served and games were played later in the evening. Mr. Seavey superintended the evening's entertainment, and the young ladies of his class did everything in their power to make the evening a pleasant one for all. The proceeds are to be invested in new books for the Sunday school library. After the expenses were deducted, twenty dollars and quite a little old rubber remained.

In looking over an article recently I came across these words: "Much of the abuse of Washington during his second administration may be traced directly to this mistaken idea of the functions of the new government." Abuse of Washington! If one judged from what has been written by the greater number of historians and biographers, where do we find the account of that abuse? Is it possible that the man who was elected without a dissenting voice, could have been subjected thus to one of the great evils of the present day? Could the man who was "first in war, first in peace, and first in the hearts of his countrymen" have been humiliated thus by the fact that there were those of these same countrymen whose ideas did not coincide with his own? Not that we would belittle the character of Washington. Far from it. He was one of the men of whom America may justly be proud; a leader when this country was in the sorest need, and a man true to his convictions of right and wrong. But it is impossible for all men to view a subject in the same light and the more important the subject the greater the dissension. Suppose our Saviour were to come on earth and his true character unknown, should assume the reins of government. Think you that even all well-meaning men would be satisfied? Let us not then imagine that all the men of "ye olden times" were perfect, nor that in the public men of the present day no virtue is to be found; for in every day, be it 1776 or 1906 there will be men who are loyal to their convictions, not faultless, of course, and the higher the position to which they aspire the more conspicuous these faults are made to appear. It is not necessary to mention the purely imaginary ones. They still believe that in the busy whirl of today there are men and women of noble purposes and deeds, and that belief will strengthen the believer, and help him to discern whatever of good in his fellow countrymen.

Mrs. M. B. Bagley gave some recitations to an appreciative audience at Kittery Point on the evening of Feb. 22.

A dispatch to the Boston Sunday Herald from Saco, stated that Rev. Dwight F. Faulkner, pastor of the Saco Methodist church and formerly of the Second Methodist church of Kittery, had announced to his congregation the belief that his usefulness as a minister was hampered by his connection with secret orders and he has resigned from the Masons and Odd Fellows, no specific reasons were given in the item as to Mr. Faulkner's action.

SACO ROAD.

Very cold weather with lots of snow and not much water at the mills or in wells makes the situation almost alarming when we take in consideration the depth of the snow and the thickness of the ice, being from 36 to 38 inches. A freshet seems inevitable.

The house is under quarantine and every precaution is being taken to prevent the spreading of this terrible disease. The family live near Beachwood.

Our R. F. D. Carrier was made happy recently when he met one of his patrons James Haynes, who stopped him and presented him with a fine new harness, which was a present from the patrons of his route who appreciate his services. He also will have a fine new street blanket from the money received which was twenty five dollars. To say that the carrier was pleased and surprised expresses it but mildly. Could the givers have seen him when he arrived at his home with his present they would have felt that their generous gift was appreciated and feel fully repaid for their kindness. At a late hour that night he was missed from his accustomed place at the fireside, his long absence worried his wife, who on investigation found him in the stable trying the harness on each horse. He looked a little foolish when he was found and said: "I thought you had all gone to bed." The gifts were through the efforts of James Haynes and the Adams brothers of Beachwood, who could not have their carrier left out in the cold after three years of faithful service and as nearly all the other carriers had Christmas presents from their patrons, Mr. Haynes did not like to see ours slighted, so started out and engaged the services of the Adams brothers and the result was a fine present for which Mr. D. W. thanks them all from the depths of his heart.
