

Hospital

Saturday Morn.

Dear Governor

Dr J. Bapton

Smith the bearer of this, is desirous of a situation in the Army as an Asst. Surgeon.

He is a young man of excellent moral character of steady & industrious habits, mild & pleasant disposition. He is a graduate of medicine but has never seen much practice except in a Hospital for insane. He applied for Dr. Coates situation here but having a family we deemed it advisable not to engage him. I think he would be a faithful Surgeon in the Army.

Sincerely Yours C. M. Charlton
