### Maine Safe and Drug-Free Schools and Communities Act Program Technical Report on Drug and Violence Prevention, 1998-1999

The Maine Safe and Drug-Free Schools Data Collection Project is a partnership between the Maine Department of Mental Health, Mental Retardation, and Substance Abuse Services' Office of Substance Abuse, the Maine Department of Education, and Research Triangle Institute.

Funded by the U.S. Department of Education's Safe and Drug-Free Schools Program, the project intends to enhance the state's capacity to gather data on alcohol, tobacco, and other drug (ATOD) prevention programs and on prohibited behavior among youth in Maine's local school systems. The project supports federal reporting requirements for measuring progress toward achieving the goal of safe and drug-free learning environments in schools.

This Technical Report and a separate text, the Report on Drug and Violence Prevention, present the data collected by RTI from LEAs and schools at the close of the 1998-1999 school year. They present information on local ATOD and violence prevention efforts, as well as recorded incidents of prohibited behavior. The main Report on Drug and Violence Prevention, complete with graphs and limited text, can be obtained by visiting http://mesdsca.rti.org/. This Technical Report is a companion piece, which provides the data tables used in the main report, as well as additional data. The results presented in both reports can be used by Maine LEAs and schools to gain a better understanding of their progress toward safe and drug-free schools and communities.

Exhibit D1. Number of LEAs that reported data

Total number of LEAs * Includes private schools counted as one LEA	175
LEAs that did not report	34
Total reporting LEAs	141

<sup>•</sup> There are 285 Local Education Agencies (LEAs) in Maine, but for this report, each group of LEAs participating in consortia is counted as one LEA. As a result, this report shows a total of 175 LEAs.

Exhibit D2. Number of schools that reported data

Total number of schools	830
* Includes 4 private schools	830
Schools that did not report	260
Total reporting schools	570

<sup>•</sup> Many of the schools that did not report are non-public schools, and are not required to report.

Exhibit D3. Total schools reporting by school level

School level	Total number of schools	Number of schools reporting	
Elementary School	469	313	67%
Middle/Junior High School	154	145	94%
Senior High School	127	112	88%
Other (Includes Indian Education schools, private schools, and others not required to report)	80		
Total	830	570	69%

<sup>•</sup> Elementary schools are composed of any span of grades not above grade 6; middle/junior high schools are intermediate between elementary and high schools, usually including grades 7-8, 7-9, or 6-8; and senior high schools include grades 10-12 or 9-12.

Exhibit D4. Breakdown of schools reporting

School level	Number of schools
Elementary	313
Middle/Junior High School	139

Senior High	74,239	142	40,654	77
All schools	272,741	122	120,825	54

<sup>•</sup> Count of total students is duplicated. If an individual student participated in three activities, they would be counted one time for each, and would show up as three students in the total count.

<sup>•</sup> Some activities involved entire school populations, such as Red Ribbon Week or prevention awareness assemblies, while others (e.g., services for out-of school youth or support groups) involved only a few students.

#### Exhibit 1d. Programs, services, and activities reported to be funded by SDFSCA

Total programs, services, and activities	2,228	
SDFSCA funded		40%
Schools Providing Services	520	91%
Schools Providing Services funded by SDFSCA	365	70%
Schools Providing Services w/ other funding sources		

<sup>• &</sup>quot;Funded by SDFSCA" refers to Safe and Drug-Free Schools and Communities Act funding for programs, services, and activities, in whole or in part.

Exhibit 2a. Categories of prevention programs, services, and activities

	Number of individual	Number of	Percent of
Category	offerings	schools offering	schools offering

Services for out-of-school youth	2	2	<1%
Conflict resolution/peer mediation	249	190	37%
Security personnel	16	16	3%
Security equipment	16	16	3%

<sup>•</sup> Five hundred and twenty schools (91%) provided programs, services, and activities. These prevention programs were categorized by LEAs according to federal reporting requirements. Due to the way in which the question was asked, some responses might be low, e.g., Advisory council activities or Counseling & referral/student support services.

<sup>•</sup> Some activities were listed in multiple categories, but were narrowed down to a single category for this report.

Exhibit 2b. Prevention instruction offerings by grade level

Grade level	Number of programs, services, and activities offered

9	397
10	395
11	375
12	385

<sup>•</sup> The number of programs, services, and activities offered reflects the number of offerings at each grade level. A program may have been offered once at a school, to three different grades, and would show up duplicated here as three programs.

<sup>•</sup> Percentages do not add to 100 due to rounding.

#### Exhibit 3c. Professional development: staff count and hours

Staff receiving training	11,618
Average staff members per activity	12.6
Total hours spent by staff on reported professional development	13,755
Average hours per staff member per professional development activity	1.5

• Count of total staff is duplicated. (For example, if an individual guidance counselor participated in three workshops, they would be counted one time for each, and would show up as three staff members in the total count.)

Exhibit 4a. Schools involving community organizations in prevention activities, by school level

School level	Number of schools	Percent of schools
