Abatements allowed John M. Kaler by Assessors of 1892 on bills of 1891.	145 36

In conclusion, we would suggest that the same sums be raised for support of schools, contingent expenses, support of roads and bridges and the poor as in previous years and we also think interest on taxes commencing at a given time gives the town a larger working capital. The neglect of passing a vote to that effect at the last annual meeting accounts for the large amount of money uncollected, which should have been used to reduce the number of notes held against the town and we would suggest that a small amount be raised towards paying the same.

## REPORT OF TOWN AGENT.

In the month of September, 1892, while riding over New River bridge Mr. Samuel Milliken, family and Mrs. Emily Webster, by the caving in of the dirt work, were thrown from their carriage, and Mrs. Webster severely injured, for which she claimed fifty-nine dollars (\$59) damage. Your town officers after investigating the matter, thought it better to settle than to run the risk of a suit, which was accordingly done.

In June, 1891, the County Commissioners granted petitioners, a road, from the Blue Point Road to Peavey's Landing, and gave those over whose land it passed, one year in which to remove all obstructions. After waiting a year and three months, your Selectmen proceeded to build the road, when they found a barn, a part of which is on the line of the road, and belonging to Mr. Isaac C. Baker, had not been removed, and upon request Mr. Baker refused to remove the same. After taking advice, it was thought best to proceed legally against Mr. Baker. He was accordingly taken before the Police Court of Portland on the charge of maintaining a nuisance, and found guilty, from which he appealed. His case went before the Grand Jury who found an indictment against him. The case should have been tried at the January term, but through the absence of his counsel, it was put over to the next term, and is now pending.

This is all the case that the Town has.

Respectfully submitted,

SETH L. PLUMMER, *Town Agent.*

# REPORT

—OF THE—

## SUPERVISOR OF SCHOOLS.

I am very much pleased that I can give so favorable a report of the schools during the past year. Excellent work has been done in almost all of them. The teachers have been faithful and interested in their work and have been able to show good results at the examination of their schools.

A few things need to be particularly mentioned. One of the chief difficulties in our schools has been the writing or rather the want of it. I think all will agree that it is one of the most essential branches taught in the schools and that there should be no reason why the children of this town should not be good writers; but it has been almost or quite impossible to get the children supplied with books in time to do good work in writing. This difficulty has been obviated this fall by the introduction of writing books the same as other school books. Now the schools have the same kind of writing books fitted to the different grades of scholars at the commencement of the term. After the books are written through they are to be returned to the Supervisor for inspection. It is truly gratifying and pleasant to see how carefully and neatly the children keep their books and how very interested even the little ones are in their tracing books that they should be well written and neatly kept. The result of introducing the books has amply repaid the expenditure. I said I would mention in this report the school that made the greatest improvement in writing during the summer term. I found it impossible to decide between Miss Edna E. Libby, Oak Hill and Miss Hannah Stone, Beech Ridge. Judging from the samples of writing that I received at the beginning and end of the term the scholars who made the greatest improvement were Scott Larrabee, Vina Storey and Roy Moulton.

Another feature in the same line has been written examinations during the terms and written as well as oral spelling daily. In oral spelling I wish all the schools would adopt the old fashioned, or new fashioned way, of taking places in the classes and the head scholar going to the foot weekly. I have never found a poor spelling class where that system was practiced.

The map drill has seemed interesting to both larger and smaller classes, finding every place mentioned in the geography on the wall map so that they may be able to tell where the places are about which they read, no matter how out of the way they may be.

Sufficient attention has not been paid to Mental Arithmetic during the past year. In only a few schools are good classes to be found. This is one of the most useful studies as it teaches the children to reason and express their thoughts clearly and correctly.

I know that the parents in the town are interested in their children's progress in school, but I wish they would show their interest by visiting the schools and seeing how their children are progressing in their studies. If they are not doing so well as they should, they can find out the reason and remove it if possible, and it almost always is possible. Children always get along better when their parents show an interest in their work and know what they are doing. A visiting afternoon once in a while would be a good idea.

Our agents have been interested in the schools and have generally selected teachers with regard to the wishes of the district. That is one reason we have been so successful and have had so many excellent teachers.

I wish to express my thanks to the people of the town for the great kindness and helpfulness that I have everywhere received from them during the past year.

Below I give in detail an account of the Free High School and of the schools in the various districts.

### Free High School.

The spring term was taught by Mr. D. G. Donnocker. His high standing as teacher and the work he did in the school is too well known to need any commendation.

Mr. Donnocker resigned and recommended Mr. Roscoe A. Small as his substitute, who taught the fall term. The examination proved that thorough work was done during his teaching. He resigned to accept a position as teacher near Boston.

The winter term was taught by Mr. Arthur P. Irving who came highly recommended from Farmington where he formerly taught. He has fully sustained his high standing as teacher here. He has been enthusiastic in his work and has spared neither time nor pains in making the school a success and bringing it to a high standard.

The studies pursued during the past years have been as follows: Three classes in Latin, two classes in Greek, advanced classes in Algebra and Geometry. The classes in Astronomy and Physical Geography have completed those studies. The classes in Arithmetic and Grammar have reviewed those books and are ready to take Algebra and Composition. There have also been History, Reading, Spelling, Debating and other exercises. The whole number attending spring term, was 23, fall term 35, winter term 26.

### District No. 1.—Beech Hill.

SUMMER AND FALL TERMS.—MISS MARY L. KIMBALL, TEACHER.

Miss Kimball is an enterprising and capable teacher. The discipline of the school was excellent and the lessons well learned. The general advancement of the school was very good. Her map drill and map drawing call for special commendation.

WINTER TERM.—MR. JOSEPH LARRABEE, TEACHER.

This was Mr. Larrabee's first experience in teaching and the indications are that he will make a very successful teacher. All the classes showed a good degree of progress. The discipline was well maintained and the general appearance was satisfactory.

### District No. 2.—Black Point.

SUMMER AND FALL TERMS.—MISS LIDA E. LIBBY, TEACHER  
ASSISTED BY MISS CALISTA MILLIKEN.

The school was under the management of Miss Libby, who is an efficient and well known teacher. The utmost harmony existed between teacher and pupils with the best of order. The examination of her classes showed that good work was done during the term.

WINTER TERM.—MR. HANSCOM, TEACHER.

This was Mr. Hanscom's first attempt at teaching and he was not as successful as we hope he may be after more experience. At the closing visit the attendance was small and the scholars not particularly interested.

### District No. 3.—Libby.

SUMMER, FALL AND WINTER TERMS.—MISS HATTIE B. DRESSER,  
TEACHER.

Miss Dresser spared no efforts in order to make her school a success. Both teacher and pupils were unitedly interested in their work, consequently it was a pleasant and profitable year for the school.

### District No. 4.—Blue Point.

SUMMER TERM —MISS LIZZIE BOWDOIN, TEACHER.

This was Miss Bowdoin's first school. At my first visit I anticipated a profitable term of school but was disappointed at my closing visit to find that it had not been so successful as expected.

FALL AND WINTER TERMS.—MISS HATTIE B. STONE, TEACHER.

Miss Stone has taught in the town for several years and sustained her reputation as a first class teacher during these two terms. It was a bright, pleasant, orderly school and good progress was made in all branches taught.

**District No. 5.—Dunstan.**

SUMMER TERM.—MISS HATTIE B. STONE, TEACHER.

We found here a quiet, pleasant school, with good work as the result. The school made most commendable progress in writing, that very essential branch of education.

WINTER TERM.—MR. GEORGE H. BOOTHBY, TEACHER.

Mr. Boothby's reputation as a first-class teacher was fully sustained during this term. His bright, active, energetic way in teaching, succeeds in getting the best possible work from the pupils. He had an excellent class in grammar and a brilliant class in Mental Arithmetic. His school was second to none in town.

**District No. 6.—Scottow Hill.**

SUMMER AND FALL TERMS.—MISS KATIE F. LIBBY, TEACHER.

This was the teacher's first school, and if her discipline had been good she would have had a successful term, as she has great aptness for imparting knowledge to her pupils.

Her fall term in regard to order was better than the summer term.

WINTER TERM.—MR. FRED E. MOULTON, TEACHER.

Mr. Moulton has a pleasant, easy manner in the school room, and has good order with seemingly no effort. The lessons were thoroughly learned and promptly recited. Both teacher and pupils were interested, and worked hard with the best results.

**District No. 7.—Beech Ridge.**

SUMMER, FALL, AND WINTER TERMS.—MISS HANNAH F. STONE, TEACHER.

At every visit found a bright, progressive school. The examination proved that good, thorough work had been done throughout the year. The map drill, the great improvement in writing and the general lessons in Physiology and Botany, deserve special notice.

**District No. 8.—Pine Point.**

**SUMMER TERM.—MISS ELLEN K. CHASE, TEACHER.**

This was her first experience in teaching. She had had hardly time to get her school in good working order at my first visit. Not being notified when the school closed, I cannot report on the success of the school.

**FALL AND WINTER TERMS.—MISS ANNA PILLSBURY, TEACHER.**

Miss Pillsbury has taught many times in our town and sustained her reputation in this school.

**District No. 10.—Broad Turn.**

**SUMMER AND WINTER TERMS.—MISS NELLIE C. SNOW, TEACHER.**

Although the school was small, I found these to be very satisfactory terms of school. The good results of united efforts between teacher and scholars were seen during the school year.

**District No. 11.—Oak Hill.**

**SUMMER, FALL AND WINTER TERMS.—MISS EDNA E. LIBBY, TEACHER.**

Miss Libby needs no commendation, as her reputation as a first-class teacher is established. The progress in her school is "all along the line." She had fine reading classes; also her writing and composition exercises should be particularly noticed. Here also we found a good Mental Arithmetic class.

**District No. 12.—North Scarboro.**

**SUMMER TERM.—MISS MABEL ROBINSON, TEACHER.**

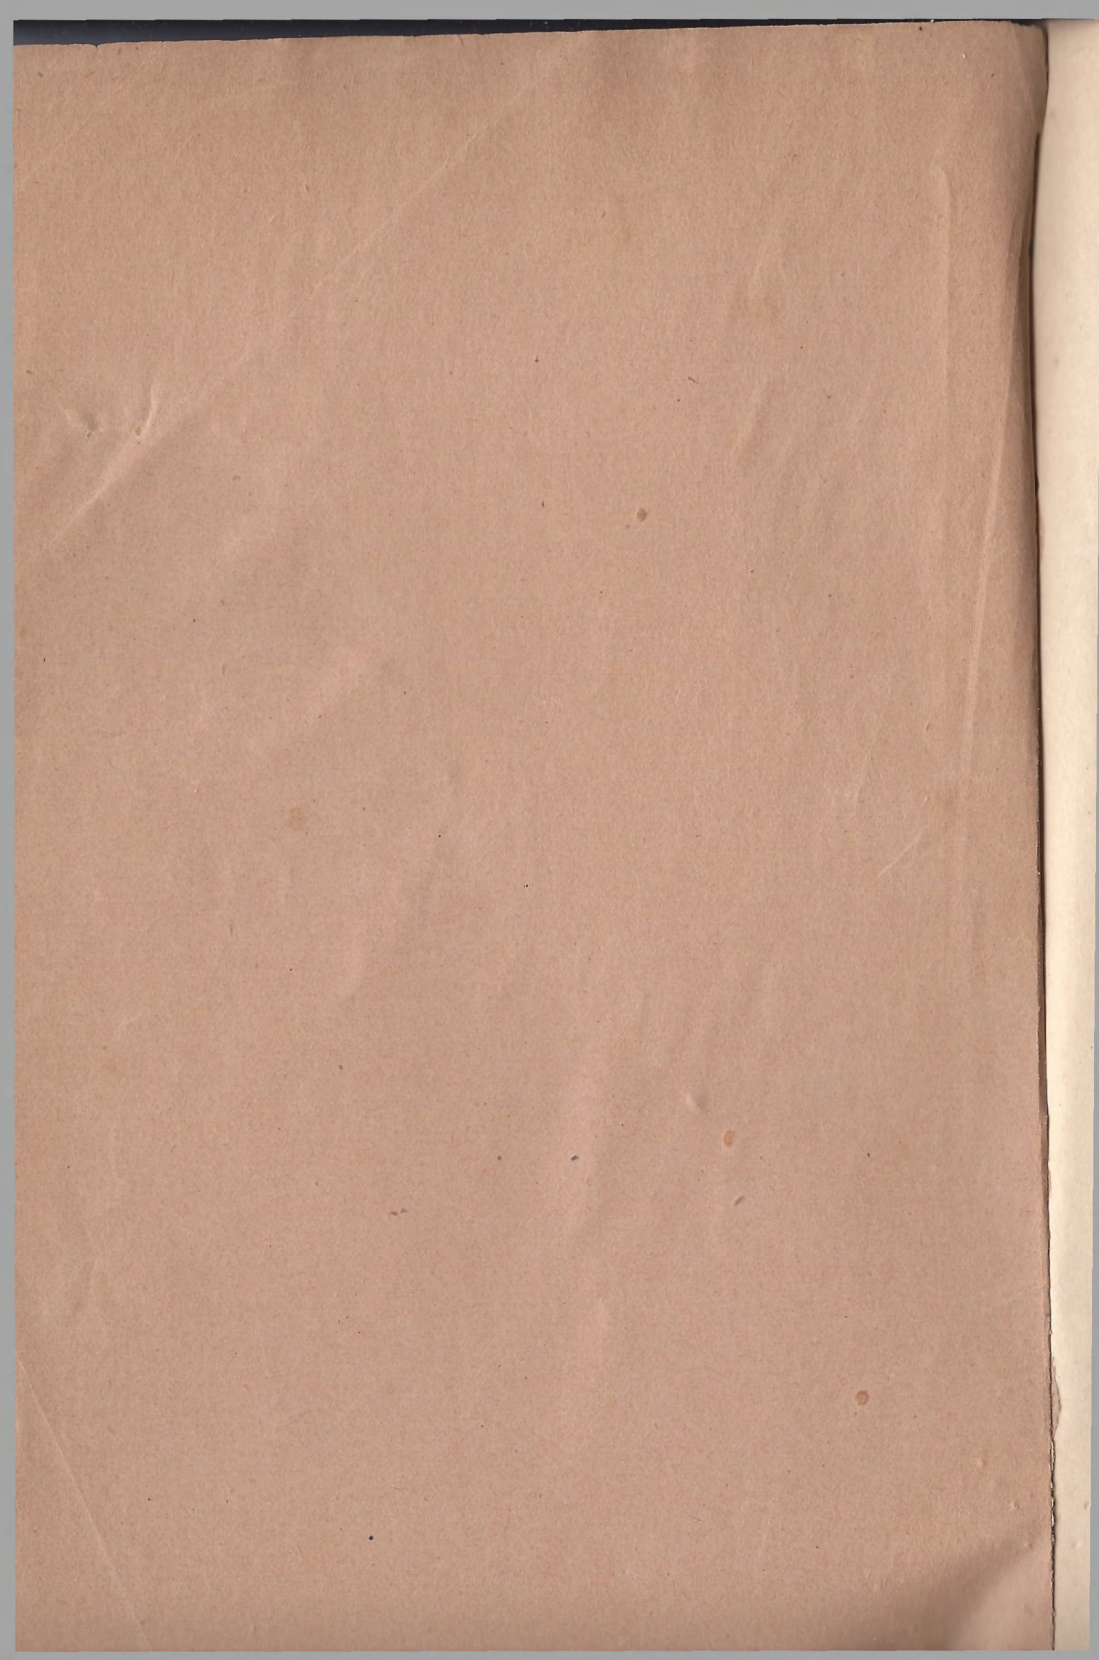

Miss Robinson is a bright, active, efficient teacher, and most excellent work was done through the term. We hope to see Miss Robinson in our schools again.

**WINTER TERM.—MR. ALBION L. FENDERSON, TEACHER.**

Mr. Fenderson is another teacher whose reputation is established as first-class. He is very much interested in the work for which he has fitted himself, and we found a live working school.

Respectfully submitted,

SARAH C. MOULTON, *Supervisor of Schools.*
