To the Governor and Council for the State of Maine

Gentlemen,

The undersigned having been honored for a number of years past, with the commission of Coroner for the County Legislature, and having neglected to comply with the requisition of the late law relative to coroner's being proper to acquaint your honor with the same, that some person or persons might be appointed to that office in the town of Lewiston, and having the approbation of a number of gentlemen of that town, do recommend Maj. William Gendron and Mr. Nathan Reynolds as suitable persons for that office. The business of coroner might be performed by one person, but the town being nearly twelve miles in extent in one direction it might be an additional accommodation to appoint two. The above persons living near the extremities of said town. Very respectfully,

Your obedient servant,

Lewiston, November 1820.

Oliver Herrick
The Governor's Council
State of Maine
