In presenting the foregoing report, we have taken into consideration the vote passed at the last annual meeting requesting an itemized report of our proceedings and expenditures; we have tried to conform to your instructions as far as practicable, and hope that it may meet with your approval. On account of the large snow bills of last winter, and the road commissioner system that was adopted at the last annual meeting, we found it necessary to hire $2,000 in order to pay the bills as they were presented, and so instructed the treasurer accordingly; he hired the amount paying 4½ per cent. interest. Toward the close of the year finding that we would have quite a balance in the treasury we instructed the treasurer to take up notes to the amount of $3,000 which we supposed was done until the day of settlement with him, but owing to the many blocking storms that we were having at that time he claimed that it was impossible for him to carry out our instructions, consequently we have the large balance in his hands, and we regret exceedingly that at least $3,000 of the notes could not have been taken up before this report was presented to you. We feel that there should be some method adopted to arrest the continual increasing amount of tax deeds in the hands of the treasurer, and would respectfully call your attention to the matter as being an injustice on the average tax payer.

All of which is respectfully submitted.

GEO. S. SCAMMAN,
BENJAMIN F. CARTER,

REPORT

—OF THE—

Supervisor of Schools.

I am very much pleased that I can report even more favorably concerning the schools this year than the good report that was able to be given last year. Our Agents have been very successful in the selection of the teachers in the different districts. Many of our schools have been filled very creditably by teachers from our own town. The attendance has not been as good as last year in many of the schools during the fall and winter terms, owing to the several diseases that have been so prevalent.

The teachers have endeavored to do thorough work in all directions, and particular prominence has been given to what will be of practical benefit in after life. Much attention has been given to writing and written spelling, as well as oral, in all the schools. The improvement that the pupils have made in writing throughout the town during the past year, has been very satisfactory. Mention was to be made of the school that made the greatest improvement in writing during the summer terms. The schools have almost all done so well that it was very difficult to select, but decided on Miss Dresser's school, Black Point, and Miss Lida E. Libby's, Scottow Hill. Judging from the samples received at the beginning and ending of the term, the scholars who made the most improvement were Lena Libby, Willie Robinson and Sewall Milliken. In almost all the schools writ-

ing bills, receipts and notes has been practiced, and very fine work has been done in that line both in correctness and neatness. I wish the whole town could see the samples of that work which I have received from the different schools as well as other written work. I think they would be pleased with their children's efforts. In some schools composition exercises and correct letter writing have been taught, which are so necessary as they teach the scholars to express themselves clearly and neatly. Neatness in all written work is to be particularly emphasized. Much attention has been given to Mental Arithmetic in most of the schools, which we all consider to be one of the most essential studies taught both for its mental training and practical use.

A feature of school work which cannot be too highly commended and is practiced in all city schools is the use of the black board, in giving the scholars work, outside of the book, particularly applicable in examples in arithmetic, but also good in almost every other study, which would correct the trouble we often find that scholars can do the examples and work in the book, but when outside work is given, they cannot do it. This work has been done to some extent, but not sufficiently until it is practiced in all the schools.

A very important feature in school work is declamation, which I think should be practiced in every school, as it gives the pupils confidence should they have occasion to speak before the public.

The greatest difficulty with which we have to contend is that some of the children do not attend school as regularly as they should, indeed there are children in this town who are very rarely present in a term. Parents should realize the importance and necessity of their children being in school every day unless detained by sickness or some equally necessary cause, and they should realize also the fact that the very *best* legacy that parents can give their children is an education, or the good basis of one, as is given in our town schools, so as they grow older if they wish to add to it they can do so.

An educator has said "that children who go to school one day and stay out the next, the habit is apt to follow them through life so they will want to work one day and not the next."

To reach the highest degree of excellence in schools, parents should be interested and know what their children are doing, and work with the teachers for the best interest of the school.

The new law will come in force the coming year and we hope it will prove conducive to the good results which Mr. Luce, the State superintendent, anticipates for it. Although it will not be likely to make as much difference in our own town as in those back towns of the State where the schools are so very much shorter and smaller than in the good old town of Scarboro.

I wish to express my thanks to the people of the town for the kindness which I have everywhere received from them.

FREE HIGH SCHOOL.

The High School during the past year has been under the instruction of Mr. D. B. Lothrop, who came to us with the highest possible recommendation, and who has labored faithfully and successfully for the welfare of the school. The school has been large throughout the three terms. The interest and attendance has been well maintained. The scholars have been interested in their studies and much good, thorough work has been done in the school.

The former course of study has been somewhat revised and printed in better form, with the names of the scholars and the classes to which they belong.

I believe it to be the better plan to have the scholars keep along with the common studies, arithmetic, grammar, reading, spelling and writing as much as possible, with the more advanced studies which they take in the school, and thus avoid that lamentable ignorance concerning those studies that is so often found in a High School graduate. All but seven in the school take arithmetic and grammar.

The studies pursued during the past year have been as follows: Two classes in latin, Cicero and Cæsar, one class in Greek, Anabasis, three classes in algebra, two classes in geometry, classes in civil government, natural philosophy and physical geography. The classes in ancient and United States history, rhetoric, astronomy and physiology have completed those studies. There are also classes in arithmetic, grammar and bookkeeping. Nearly the whole school has taken bookkeeping the past two terms. Some have finished it. There have also been reading, spelling, writing, composition, declamations, debating and other exercises.

The whole number attending spring term, 31; fall term, 40; winter term, 41.

DISTRICT No. 1. Beech Hill.

Summer and Fall Terms,

Miss Nina F. Nutter, Teacher.

This was Miss Nutter's first school. The order was excellent and the classes made good progress in all their studies.

Winter Term, Mr. Albion D. F. Libby.

This was Mr. Libby's first attempt at teaching. I found here a good progressive school with thorough work done. He had a fine class in mental arithmetic. The map drawing and declamation were very commendable.

DISTRICT No. 2. Black Point.

Summer and Fall Terms,

Miss Hattie B. Dresser, Teacher.

Miss Dresser is a thorough, earnest teacher, and her school showed the good results of her patient, faithful efforts.

Winter Term, Mr. L. G. Purinton, Teacher.

Mr. Purinton had a pleasant, orderly school, and the classes showed good work done.

DISTRICT No. 3. LIBBY.

Summer, Fall and Winter Terms,
MISS ANNA PILLSBURY, Teacher.

Miss Pillsbury had a bright, active school, and very thorough work was done in every class. A good class in mental arithmetic; also the map drawing, and the written work so neatly and nicely done were pleasant features of the school.

DISTRICT No. 4. BLUE POINT.

Summer, Fall and Winter Terms,
MISS ELIZABETH L. PERKINS, Teacher.

Miss Perkins spared no effort to make the school successful, and the good result of her earnest, persistent efforts was seen at the examination of her school.

DISTRICT No. 5. DUNSTAN.

Summer and Winter Term,
MISS HARRIET S. STONE, Teacher.

Miss Stone had the same quiet school that she always has. The classes made good advancement in all their studies. The composition exercises, examinations and declamation during the term were very commendable.

DISTRICT No. 6. SCOTTOW HILL.

Summer Term, MISS LIDA E. LIBBY, Teacher.

Miss Libby had an orderly, enthusiastic school. Both teacher and scholars were unitedly interested in their work, consequently admirable progress was made. She had a very smart geography class called "smart." The excellent position of the pupils which they were so pleased to maintain, was commendable to both teacher and pupils.

Fall and Winter Terms,
MR. W. H. ORMSBY, Teacher.

This was Mr. Ormsby's first school. He is an earnest, hard working teacher, sparing no effort to advance the interest of his school. Good thorough work done, was the result. His broad work in arithmetic calls for especial commendation.

DISTRICT No. 7. Beech Ridge.

Summer Term, Miss Ina A. Dennett, Teacher.

We were pleased to find here good order and good teaching "all along the line."

Fall Term, Miss Laura J. Roberts, Teacher.

This was a very profitable term of school. Miss Roberts possesses the power of interesting her pupils in such a way that she can get excellent work from them.

Winter Term, Mr. Henry Gilman, Teacher.

This was Mr. Gilman's first experience in teaching. He is faithful and earnest as a teacher, and the school showed the good results of his untiring efforts. The map-drawing was very good.

DISTRICT No. 8. Pine Point.

Summer and Fall Terms,

Miss Luella C Lamb, Teacher.

This was Miss Lamb's first school. The fall term showed great improvement in both order and teaching over the summer term. She possesses the power of winning the affection of her pupils.

Winter Term, Miss Clara J. Libby, Teacher.

Miss Libby has formerly taught in our schools before, and sustained her usual good reputation as teacher in this school.

This school does very good written work both in composition exercises and letter writing. The essays and letters which I received from the scholars were well composed and very neatly written.

DISTRICT No. 10. Broad Turn.

Summer and Winter Terms,

Miss Nellie C. Snow, Teacher.

A school that showed good thorough work done in all branches taught.

DISTRICT No. 11. OAK HILL.

Summer, Fall and Winter Terms,

MISS EDNA E. LIBBY, Teacher.

Miss Libby has taught too long and too successfully in our schools to require any commendation. Her reading classes, mental arithmetic and writing, as well as the other classes, showed excellent advancement.

DISTRICT No. 13. NORTH SCARBORO.

Summer Term, MISS KATIE LIBBY, Teacher.

Miss Libby had a good working school. A very excellent history class. Learning about the civil war was to be found in this school.

Winter Term, MR. FRED E. MOULTON, Teacher.

Mr. Moulton seems at home in the school room and is interested for the advancement of each one of his pupils. Thorough work was done in the schools. There are some fine mathematical classes in both algebra and arithmetic in this school, also very good and advanced work was done in bookkeeping.

UNION.

This school seems to be under the supervision of Buxton, more than of Scarboro. I did not visit the summer term taught by Miss Fanny Dyer, or the fall term by Cora E. Moulton.

Winter Term, MR. L. A. BOOTHBY, Teacher.

Mr. Boothby had an active, working school in which all seemed interested in the work that was before them. A very commendable feature was the mathematical examples on the board for each class iu arithmetic.

Respectfully submitted,

SARAH C. MOULTON,

SUPERVISOR OF SCHOOLS.
