

Belfast May 13. 1864

Genl Hodsdon,

If you can find time amid your many cares to answer the questions I should like to have you.

It is expected a Customary for the field officers in our regiments to purchase horses and take them out of the State.

Does the government furnish horses or pay any sum towards furnishing them, or what is done or expected of us in these particulars.

Yours Respectfully

J. H. Marshall
