VOL. III. NO. 1.

KENNEBUNKPORT, ME., JULY 10, 1889.

PRICE FIVE CENTS.

There'll be lots of rainy, foggy, disagreeable days this summer when even the natural attractiveness of such a delightful place as Kennebunkport will not be diverting enough to keep you in a cheerful frame of mind. Some day you'll get tired of fishing, bathing, boating and rocking and wonder if there isn't some way to kill a dreary hour or two. **THERE IS.** Go to Portland, to

WEDNESDAY, JULY 10, 1889.

## THE WAVE'S THIRD YEAR

AT THE BEACH.  
With this issue *The Wave* begins the third summer season of its existence. It is with pleasure that we announce to our many readers that it begins this season with brighter prospects than ever before. *The Wave* has always tried hard to win the esteem of its friends and the respect of its enemies. No efforts or expense will be spared to make it, as formerly, a bright, lively newspaper, devoted to the interests of Kennebunkport and its visitors. Its society news will be made a specialty of, and particular attention paid to all beach gossip that will furnish clean and interesting reading to the 3000 or more people who every Wednesday and Saturday peruse its columns. *The Wave* will be run in the interests of no party or clique; it will publish no cheap sensational news; it will aim to be honest and independent in all questions of public interest. But by being independent we do not mean that it will be always neutral. On the contrary, *The Wave* will always fearlessly utter its convictions regardless of consequences, or in what direction the blow may fall. We trust that when autumn's winds are robbing the trees of their verdure and you, kind reader, are leaving the delights of the beach, you will feel a tinge of regret at parting with the paper which beguiled away so many of your leisure hours during the summer.

## SOME IMPROVEMENTS AMONG THE HOTELS.

The hotel proprietors have not been idle during the long winter months but have, many of them, been actively engaged in renovating and repairing their houses. At the Parker House the interior has been completely changed. The old parlor has been added to the dining hall, which is now large enough to seat all the guests at once. The music room has been fitted up for a parlor and newly furnished. A small room opposite will be used as a reception parlor. The office has been enlarged and frescoed. Electric bells have been put into every room, the entire house carefully plumbed, a steam pump put in, the old annex moved across the road and attached to the rear of the house, and many other additions and improvements made in the way of new furniture and painting. The Parker House is probably the best furnished summer hotel on the New England coast.

The Glen House has been greatly enlarged, its capacity being nearly doubled and the entire establishment leased to Messrs. Stimpson & Devnell of the Ocean Bluff Hotel. It will be used as an annex. This addition necessitated the enlargement of the dining room and many minor improvements. A well has been bored which will furnish pure water for use of the guests.

The Bickford House has been painted inside and the office changed somewhat. The Nonantum had a well driven, which yields an abundant supply of water. On the Kennebunk Beach side all the hotels have received some touching up. The Sea Side has received a lot of new furniture. The Grove Hill office and dining room floors have been polished until they shine like a mirror. Landlord Stuart of the Granite State has been doing some carpenter work and painting around his house, and so has the proprietor of the Sea View. The Eagle Rock is new and so did not require any repairs. Mr. Owen Wentworth, the pioneer hotel keeper of the place, has put a big addition on his house and is better prepared than ever to accommodate the crowd who think there is no place like "Owen's." All the hotels are now in the best of condition to accommodate the crowd that will this year surely come.

### A Perfect Form.

A perfect formed woman will stand at the average height of 5 feet 3 inches to 5 feet 7 inches. She will weigh from 125 to 140 pounds. A plumb line dropped from a point marked by the tip of her nose will fall at a point one inch in front of her great toe. Her shoulders and her hips will strike a straight line drawn up and down. Her waist will taper gradually to a size on a line drawn from the outer third of the collar bone to the hips. Her bust will measure from 28 to 36 inches; her hips will measure from 6 to 10 inches more than this and her waist will call for a belt from 22 to 28 inches. The upper arm of the perfectly formed woman will end at the waist line, so that she can rest her elbow on a table while

standing erect, and her forearm shall extend to a point permitting the fingers to mark a point just below the middle of the thigh. Her neck and thigh should be of the same circumference. The calf of her leg and upper arm should measure the same. Her legs should be as long as a line drawn from her chin to her finger tips, or about one-half her height. She should measure from her waist to her feet about a foot more than from her waist to the crown of her head. Her neck should be from 12 to 14 inches around, her head erect, and on a line with the central plane of the body, and her foot should be of a size and shape to conform with her hands. The well-proportioned woman wears a shoe one-half the size of the glove that her hand calls for. Thus, if a woman wears a six glove she should wear a three shoe.

The Summer Girl.  
She dresses now in linen, or pique  
Or muslin light, or lawn,  
With ribbons bright, the charming sprite,  
She's fairer than the dawn.  
Sometimes meet her in the rural lane  
Where lilacs scent the breeze,  
Her lovely face, her sprightly grace  
And other witcheries  
Entrance, bewitch me, nay, set all

Among the many prominent denizens  
of the city of Brotherly Love staying  
at the Ocean Bluff are Mr. and Mrs.  
John Samuel.

This town has been settled two hun-  
dred and sixty-six years but *The Wave*  
job office was the first to put in a self  
inking printing press.

Mr. D. D. Walker and family of St.  
Louis are again at the Bluff. They  
have annually passed their summer  
here for several years.

The road to the Bluff has been raised  
and improved this summer, at the  
point nearly in front of Rev. Edward  
L. Clark's stone cottage.

Mrs. Margaret Deland is at Kenne-  
bunkport, Me., at which place the last  
touches of her "John Ward, Preacher,"  
were made.—*Boston Home Journal*.

Mr. Daniel Clark is doing considera-  
ble ship building this year. It seems  
like the good old times to hear the  
crash of the hammers and the shouts  
of the men at work.

The Misses Gilmore, daughters of  
Mayor Gilmore of Cambridge, Mass.,  
with their friends, Miss Gary of Bos-  
ton and Miss Todd of Newton, are at  
the Bickford House.

The old time guests of the Ocean  
Bluff will miss this year the pleasant  
face of Mr. James B. Lacroix, the  
former head waiter, who died last  
winter in Florida.

If you know anything worth print-  
ing just speak to the editor about it  
when you see him, or send it to us.  
Guests of the various hotels are in-  
vited to contribute to the paper.

When in Portland if you want to  
buy shoes go to Irving J. Brown's and  
get fitted. You will find it a  
good place to leave bundles, consult  
the directory or wait for the horse  
cars.

*The Wave* is indebted to Mr. H. B.  
Pearson, well known to beach habitues,  
for its tide table. It will be found  
exactly correct, computed by standard  
time and reckoned from the break-  
water.

Mr. Damon has made many improve-  
ments at the Ocean Bluff Bowling  
Alleys this season. A large new win-  
dow facing the street has been put in,  
the counter and interior changed, and  
more room added.

Do not go out of town for your  
printing. We can do as good work as  
can be done and as low as New York  
prices. Remember *The Wave* office is  
in Brown's Block, up one flight, second  
door to the left.

Capt. Joseph Brooks, the first sub-  
scriber *The Wave* ever had, is just re-  
covering from a severe attack of chills  
received while spending the winter in  
Florida. We trust to see him in his  
usual rugged health ere long.

Mrs. W. A. Allan and family of  
Ottawa, Canada, are among the guests  
of the Bluff.

The Boston Herald will publish a  
regular Sunday letter from this place  
this season.

The season, judged by the hotel ar-  
rivals, is considerably in advance of  
former ones.

Mr. Francis C. Hersey of Wellesley,  
Mass., and his family are registered at  
the Grove Hill.

The Parker House Ladies' Orchestra  
arrived Monday. They consist of  
Misses Lena Flagg, Nellie Miles and  
Lillie Bell Viles.

Prof. Geo. H. Ryder of Boston will  
give an organ recital, assisted by local  
talent, next Friday evening at the Ba-  
ptist church. Doors open at 7 o'clock;  
begin at 8. Admission 25 cents. A  
few reserved seats, 10 cents extra.

Mr. Hamlen Fairfield of Saco was in  
town yesterday, looking up evidence  
for the defense in the case of Hinds  
vs. Perkins, growing out of the town  
reservoirs built by the town some time  
ago, and which will be tried next week.

While everyone here is talking of the  
Sullivan-Kilrain fight, it may not be  
generally known that the longest fight  
on record was fought at Wells, Me.,  
only about six miles from this town.  
It lasted over six hours and proved a  
draw.

Mr. and Mrs. Henry Pennypacker of  
Brooklyn, N. Y., are registered at the  
Granite State. Mr. Pennypacker is  
professor in the Delphi College, Brook-  
lyn, N. Y. He has taken unto himself  
a wife since he was here last season.

Mr. Horace B. Pearson of Boston is  
here again. Mr. Pearson has passed a  
dozen seasons here and has always  
been with Mrs. Eldridge, first at the  
Glen Cottage and later at the Cliff  
House, which was named at his sug-  
gestion.

Miss Jennie S. Robinson and Miss  
Luella J. Sleeper, two young society  
ladies of Franklin Falls, N. H., are at  
the Grove Hill Hotel. They drove the  
entire distance with their team, and it  
is rumored had several hair-breadth  
escapes en route.

Among the old timers who are again  
enjoying the delightful breezes of the  
Bluff are Mrs. Grosholz and family,  
Mrs. J. H. Brazier and family, Mr.  
Edw'd C. Biddle and family, all of  
Philadelphia, and Mrs. D. B. Whitlock  
and family of New York.

*The Wave* offers three suitable prizes  
to the newsboys selling the most papers  
through the season. The first prize  
will be a watch. The others will be  
announced later. This is in addition  
to the usual commission of one cent  
which they receive for every paper  
sold.

We have two trains more daily to  
Boston than places farther east. The  
early 7 o'clock train west is made up  
at Kennebunk and on its return at 6:45  
stops there for the night. The  
Boston & Maine is evidently de-  
termined that people shall have plenty  
of accommodation for getting here.

The new fireplace in the Parker  
House parlor is much admired by  
everyone. On cool evenings the fire  
blazes and glows in its cavernous  
depths and throws its ruddy light out  
into the room, lighting up every nook  
and bringing out into bold relief every  
ornament in the tastefully furnished  
room.

A new Golding jobber printing press  
has been put into *The Wave* office in  
Brown's Block and a competent printer  
employed. We are doing all the hotel  
printing of the place, including the  
Ocean Bluff and Parker House daily  
bills of fare. Visiting cards, tickets,  
bills of fare, stationery, bill heads, or  
anything else in the printing line can  
be executed with neatness and dispatch.  
Remember we print everything.

OUR NEW POSTMASTER.  
The changing wheel of politics has  
taken another turn and Capt. A. M.  
Welch is the new postmaster, vice Mr.  
F. K. Wheeler. The office is now  
located nearly opposite the former one  
and is conveniently fitted up. Capt.  
Welch will make an agreeable and at-  
tentive P. M., and with the able assist-  
ance of Miss Sheehan, the assistant,  
satisfaction will be assured to the  
patrons of the office.

MOSAIC WINDOWS.  
Intentional Imperfections Introduced In-  
to the Process of Their Manufacture.

But the glass-worker has only begun  
his work when he has the molten  
"metal" simmering in his crucibles. It  
must undergo many subsequent manip-  
ulations before it is available for the  
purpose of art. Some of these, from a  
technical point of view, some retro-  
gressional. It has been found that the  
rich color effects in glass of the middle  
ages are largely due to the imperfec-  
tions in the material. Its lack of ho-  
mogeneity, its unequal thickness and  
uneven surfaces contribute largely  
to its beauty. The modern product is  
too uniform to be brilliant; it trans-  
mits the light with too great regular-  
ity. Intentional imperfections are,  
therefore, introduced into the process;  
and the products, in consequence, are  
much more satisfactory to the artist.  
This work of individualizing the prod-  
uct has now been so far systematized  
that several special brands of art  
glass are recognized in the markets.  
The so-called antique glass in both  
white and colors, is made precisely  
like the ordinary sheet window glass,  
except that the surface of the glass is  
made full of minute blow-holes, which  
produce almost an aventurin effect,  
and add greatly to its brilliancy. In  
the cathedral glass the surface is ren-  
dered wavy and uneven, so that the  
transmission of light shall be corre-  
spondingly irregular. In the flash  
glass ordinary sheets are covered with  
a thin plating of colored glass, a  
process which permits a very delicate  
color tone, and materially decreases  
the expense, where a costly glass,  
such as ruby, is needed to give the  
color. But in mosaic work it is now  
generally preferred that the glass shall  
not be at all transparent, since the  
effect is much richer. The most of  
the glass is therefore cast, the process  
being a repetition in miniature of the  
casting of rough plate.—Prof. C.  
H. Henderson, in Popular Science  
Monthly.

How to Do Business.

One of the largest, wealthiest and  
most successful manufacturers in the  
East remarked the other day upon be-  
ing rallied on account of his liberal  
and extensive advertising patronage in  
newspapers: "I would sooner take my  
sign down than discontinue my ad-  
vertising. You must catch the public  
eye in a well-displayed advertisement  
if you expect to catch the public purse;  
and the standing newspaper advertise-  
ment, when changed frequently, is bet-  
ter, cheaper and a thousand times more  
effective than reading notices or cir-  
culars. There is no business so high,  
so strong or so exclusive that it can  
not be benefited by advertising. I  
would as soon think of doing business  
without clerks as without newspaper  
advertising."—Age of Steel.

Summer in the Country.

"Where shall we go for the summer,  
Henry? Have you thought any thing  
about it?"  
"No, not yet. How would you like  
to go into the country, again?"  
"Well, perhaps that would do."  
"I'll tell you what; let's stay at  
home. Leave the sermons out of the  
doors and windows so as to have plenty  
of mosquitoes, get a poor cook and an  
impertinent waitress, make the beds  
up as hard as a board, get a spavined  
old horse and a carry-all with stiff  
springs, and we can have all the ad-  
vantages of country life without going  
out of town."—Chicago Herald.

**MEN OF INTEGRITY.**  
The Kind of a Reputation Which Helps  
One Over Many Hard Places.  
"Why is it that it is the good men  
who go wrong?" asks an exchange.  
This question is of much of the same  
stamp as one that was formerly cur-  
rent: "Why is it that ministers' sons  
are so often scapegraces?" The latter  
has been shown to be grossly unfair in  
its implication that ministers' sons  
are, as a whole, unworthy of their fa-  
thers and of their training. The re-  
verse is the case. There are excep-  
tions, but these are rare in comparison  
with the number of sons of ministers  
who are useful and honored citizens,  
many of them pursuing the noble call-  
ing of their fathers.  
So when we are asked: "Why is it  
that it is the good men who go wrong?"  
the answer is that the inquiry is mis-  
leading. Men who are reputed to be  
good do go wrong in many cases, but  
these are few in comparison to the  
number of reputed good men who  
do not go wrong. It is  
no surprise when it is learned  
that a man who does not bear a good  
name has done something dishonest or  
unworthy, because in this case the ex-  
pected happens, and there is not a "go-  
ing wrong," but a further pursuit of it.  
The good man by repute—and the bet-  
ter he is reputed to be the more sur-  
prise and shock if he does not bear out  
his reputation—is the one who is trust-  
ed, and when we hear of one who has  
proved faithless, it shows that his re-  
putation was not deserved, or that his  
moral fiber has not been tested. The  
man who is upright and honest—honest  
with himself as well as toward others—  
does not go far wrong in his  
dealings.  
A reputation for integrity is one  
which no man can afford to be with-  
out. But the reputation is not the  
main thing. This is to deserve it. It  
is won by right doing, and is kept in  
the same way. Once established it is  
the best letter of credit a young man  
can have. Without it he can not hope  
to succeed.  
In most cases men of strict integrity  
have had it impressed upon them in  
their youth that honesty can not be  
disposed with. Too great stress can  
not be laid upon this truth by all who  
have dealings with the young. Tempta-  
tions to be dishonest should be as far  
as possible removed from the path of  
those whose characters are not fully  
formed, and those who are older and  
wiser should by friendly counsel aid in  
firmly fixing right ideas in the youth-  
ful minds.  
Parental laxity is to blame if a  
young woman begins work with a  
vague notions of what honesty means.  
Too many parents sadly neglect their  
duties in this particular. They do not  
oversee their children as they should  
or hold them to a strict accountability,  
but faults are glossed over or are not  
seen. Parents should not be harsh  
and exacting, but they should train up  
children in the very way they should  
go. The honest boy is father to the  
honest man.—Detroit Free Press.

**Graphophone and Phonograph.**  
The graphophone, which is a sort of  
uncomplicated phonograph, is coming  
into practical use in the offices of a few  
stenographers in this part of the coun-  
try. The man who takes the notes,  
instead of dictating to the typewriter,  
sits down and talks into the machine,  
and the cylinder on which his remarks  
are recorded is then turned over to the  
typewriter, who sticks a tube attached  
to the machine into each ear, and  
working the roller by a treadle as  
she would a sewing machine, has  
whatever is there talked off to her  
as rapidly or as slowly as she can  
take it down. In practice it is said  
that a stenographer can dictate to the  
machine in an hour as much as a rapid  
typewriter can transcribe in three or  
four hours. The time thus saved is so  
much clear gain for the stenographer,  
and in a case where a copy is needed  
in a hurry the work can be done by  
the employment of enough typewriters  
in a third to a quarter of the time that  
would be necessary if the stenographer  
had to dictate his notes to a single  
typewriter. The graphophone and the  
phonograph are controlled by the  
same company, which refuses to  
sell outright, and which charges such  
a high price for the rental of the in-  
struments that stenographers who  
have not a large business hesitate to  
try the machine.—N. Y. Sun.

**Mrs. John P. Moulton.**  
SACO, Me., Aug. 20, 1889.  
My wife suffered terribly from rheumatism and  
neuralgia 15 years; was prostrated most of  
the time; each acute attack being severe. At  
last, 15 months ago, she took to her bed remain-  
ing there for a year, suffering tortures in-  
describable. For months I did not sleep much  
but stood over her trying to relieve her terrible  
pains. At first large doses of morphine seemed  
to relieve her some, but at last even that in enor-  
mous doses had no effect whatever. Finally she  
commenced to take Dr. Cobb's Rheumatic Cure,  
and in twenty-four hours her pain left her never  
to return, and she was able to walk about the  
room. Next day she walked to the gate, next  
day she walked 100 rods, and in ten days she  
walked a mile without inconvenience and in a  
fortnight was entirely well and able to do her  
housework, and has remained in perfect health  
since; praise God for this wonderful remedy.  
JOHN P. MOULTON,  
Foreman Box Factory and Saw Mill, 36 Lincoln  
St., Residence 69 Lincoln St., Saco.  
From all over the country come thousands of  
statements of the wonderful cures made by this  
medicine. This medicine is not a liniment. You  
cannot cure these blood diseases by applications  
to the skin. This remedy destroys the impuri-  
ties from the blood and is a sure cure for rheu-  
matism and neuralgia. It is also one of the best  
tonics in the world, and strengthens the stom-  
ach, nerves and kidneys. Send for circulars  
containing the statements of persons cured in  
your own town. Prepared only by  
A. E. COBB, M. D.,  
And for sale at office, Exchange Clock, 119 Main  
street, Biddeford, Me., and by Druggists.  
Price \$1.00 per bottle.
