## Message from Fire Marshal Joseph E. Thomas

Welcome to the 2013 Maine State Fire Marshal Annual Report. In this report Maine residents and visitors are provided with detailed data on 90,511 incidents reported to the FMO by 180 Maine Fire Departments. The data provides the reader with a picture of the impact of fire on our state. We hope the information will assist fire service people, educators, policy makers and others interested in their efforts to find viable approaches to reduce the cost of fire to Maine citizens and the visiting public. The 19 fire deaths in 2013 marked a 27% decrease in fire deaths over 2012. I would like to thank my staff for making this report possible and wish each and every one of them, and you the public we serve, a safe and happy 2014.

**Sincerely,**

**Joseph E. Thomas, State Fire Marshal**

---

## State Fire Marshal Office History

The Division of State Fire Prevention was created in 1937 to combat an increasing number of fraudulent insurance claims resulting from intentionally set fires. The State Fire Marshal Office replaced the Division of State Fire Prevention in 1972. The scope of statutory authority has broadened over the years to include:

1. Investigation of the cause and origin of fires and explosions;
2. Arson investigation, evidence gathering and case preparation for possible prosecution;
3. Regulate, permit and inspect for the use of explosives, fireworks and certain flammable liquids;
4. Inspect approximately 25 different types of buildings and facilities to enforce life safety codes and standards;
5. Review plans for issuing permits for construction and alteration of public buildings, handicap accessibility, installation of fire alarm and fire sprinkler systems; installation of aboveground fuel storage tanks, amusement rides, and self-service gas stations;
6. Conduct and offer specialized training for trade professionals, care givers, code enforcement officials, and fire and law enforcement professionals;
7. Coordinate specialty subject areas such as the State of Maine Juvenile Fire Safety Collaborative that was created by a Governor's Executive Order.

The following people have served in the role of State Fire Marshal:

Director Joseph A.P. Flynn	1939 to 1965
Director and Fire Marshal Charles F. Rogan	1965 to 1975
Fire Marshal Don Bissett	1977 to 1991
Fire Marshal Dennis Lundstedt	1992 to 1995
Fire Marshal Ladd Alcott	1995 to 1998
Fire Marshal John C. Dean	1998 to 2012
Fire Marshal Joseph E. Thomas	2012 to present

---

# State Fire Marshal Office Divisions

## Investigations Division

The State Fire Marshal has three investigative offices with a total of 14 sworn officers located in the northern, central and southern regions of Maine. Investigators determine the cause and origin of all fires causing death and serious injury; investigate suspicious fires and explosions; and provide training to municipal fire investigation officers. Fire investigators work closely with the Bureau of Alcohol, Tobacco and Firearms, and the two agencies jointly investigate fires and explosions within the State. This agency is the representative of the Maine Attorney General's Office in the area of fire investigations and explosions. Investigators work daily with members of all types of professions including attorneys, doctors, financial administrators, banks and other financial institutions, law enforcement agencies, and fire departments throughout the State of Maine.

The Investigations Division also has the assistance of two accelerant detection canines at fire scenes. These dogs are a great help when investigating suspicious fires. The dogs and their handlers have to be recertified as a team each year in order to retain their legal ability to investigate fires.

**Northern Investigations Office-** Located in Bangor under the supervision of Sgt. Tim York, these officers investigate fires in Aroostook, Piscataquis, Washington, Hancock, Waldo and Penobscot counties.

**Central Investigations Office-** Located in Augusta under the supervision of Sgt. Ken Grimes, these officers investigate fires in Somerset, Kennebec, Lincoln, Knox, Sagadahoc, Waldo and Hancock counties.

**Southern Investigations Office-** Located in Portland under the supervision of Sgt. Joel Davis, these officers investigate fires in York, Oxford, Androscoggin, Franklin, and Cumberland counties.

### **Value of Losses or Damage for Investigated Incidents by Primary Motive from 1/1/2013 to 12/31/2013**

<b>Primary Motive</b>	<b>Damage/Loss in Dollars</b>
Crime Concealment	\$551,000.00
Excitement	\$174,350.00
Extremist	\$50,000.00
Other	\$15,500.00
Profit	\$270,000.00
Revenge	\$857,543.00
Serial Arson	\$50,000.00
Unknown	\$25,980,930.00
Vandalism	\$150,200.00
<b>Total Dollar Loss</b>	<b>\$28,099,523.00</b>

## Summary of Investigations from 1/1/2013 to 12/31/2013

Investigation by Incident Status	Accidental	Incendiary	Undetermined	Natural	Total
Closed by Exceptional Means	0	2	2	0	4
Closed with Arrest	0	39	3	0	42
Closed- Unfounded (False or Baseless Complaint)	0	0	2	0	2
Investigation Closed	215	22	137	1	375
Investigation Inactive/Suspended	0	17	4	0	21
Investigation Open	20	61	37	0	118
<b>Total</b>	<b>235</b>	<b>141</b>	<b>185</b>	<b>1</b>	<b>562</b>

Assistant Fire Marshal Rich McCarthy oversees the **Inspections** and **Plans Review** Divisions of the State Fire Marshal's Office. He serves as a representative of the Office, is involved in the State's Building and Energy Code development and implementation, and serves on National Fire Protection Association committees.

**Rich McCarthy**

### Inspections Division

The Inspections Division of the State Fire Marshal's Office has three regional offices located throughout Maine and the 10 personnel inspect approximately 25 different types of facilities; with the primary focus being enforcement of NFPA 101, the Life Safety Code. The types of facilities inspected include all facilities licensed through the Department of Health and Human Services, such as: hospitals, nursing homes, daycare facilities, boarding homes, and mental health facilities. They also inspect public, commercial, and licensed residential structures to ensure compliance with state and federal fire codes and ordinances. Inspections include compliance with federal ADA (Americans with Disability Act) standards. The Division is also responsible for licensing and permitting of explosives and fireworks, inspection of aboveground storage tanks, automobile

---

racing facilities, and mechanical rides. They work in conjunction with the Investigation Division when their expertise is needed. In 2013, the division did 4,017 inspections.

## **Plans Review Division**

All major construction projects in Maine must be reviewed by the Fire Marshal's Office for life safety, fire sprinkler and code compliance. Those construction plans reviews include businesses as well as day care facilities, schools, assisted living and numerous other public buildings. Plans are reviewed in the Augusta office for construction in all 16 counties in Maine.

**Construction Plans Review:** The Plans Review division consists of 4 people who review blueprints to issue permits for construction and alteration of public buildings and handicap accessibility. Plan Reviewers are responsible for evaluating building plans, site plans, fire protection system plans, and specifications for compliance with applicable state and federal fire codes, laws, as well as ADA (Americans with Disabilities Act) requirements. They respond to requests for information and technical assistance from architects, engineers, and developers on design criteria, and examine requests for variance to the fire codes and local laws pertaining to fire safety. The Plans Reviewers are NFPA (National Fire Protection Association) certified. In 2013, the plans review team issued 1,284 permits and the total cost value of these projects was approximately \$657,900,795.00.

**Sprinkler Plans Review:** Gerald Leach reviews fire sprinkler system plans, issues sprinkler permits and licenses, does field inspections of sprinkler systems for compliance with state and national rules and codes, and does general sprinkler system trainings. In 2013 he issued 508 fire sprinkler permits, 228 fire sprinkler licenses, 60 sprinkler contractor licenses; 98 sprinkler inspector licenses; and 35 responsible managing supervisor licenses.

## **Research and Public Education**

The research staff is located in Augusta under the direction of Senior Research and Planning Analyst Michelle Mason Webber. The research unit collects data from Maine's fire departments on fire incidents throughout Maine and it is entered into the Maine Fire Incident Reporting System (MEFIRS). The final information is made available to the public through NFIRS (National Fire Incident Reporting System). Specialized research on Maine's fire burden including fire fatalities, injuries, trends and the economics of fire is provided to the public to increase fire prevention and safety.

Florian Hall opened in late 2005 at the Augusta headquarters, and has been used by Maine's fire service community for fire codes and standards training, seminars, activities focused on pipeline security, sprinkler and smoke detection systems, injury prevention, and other special events.

The State Fire Marshal's Office has a portable Hazard House<sup>®</sup> that is brought to elementary schools and teacher conferences to teach people about fire hazards in the home, particularly during Fire Prevention week in October.

## Maine Statistics from 2009 to 2013

The graph to the right shows the total number of Maine fire fatalities during each decade since 1950. There has been a significant decrease in deaths since the 1970's, perhaps due to increased smoke detector use and more fire prevention and education programs taught by fire departments. Building codes are also being enforced during construction or renovation of licensed facilities.

The following charts and graphs show trends in the three types of incidents responded to by Maine fire departments. Fire incidents dropped in numbers by 2011 then rebounded and dropped by 2013. Emergency Medical Services (EMS) calls have increased steadily in the past five years, as have calls for non-fire and non-EMS services. The overall trend is that call volume continues to increase for Maine fire departments.

	2009	2010	2011	2012	2013
<b>Fires</b>	5,322	4,944	4,701	5,266	4,925

	2009	2010	2011	2012	2013
<b>EMS</b>	54,171	53,159	57,181	64,778	63,250

	2009	2010	2011	2012	2013
<b>Non-Fire &amp; Non-EMS</b>	25,775	24,563	26,687	28,854	28,454

## 2013 Summary Incident Data

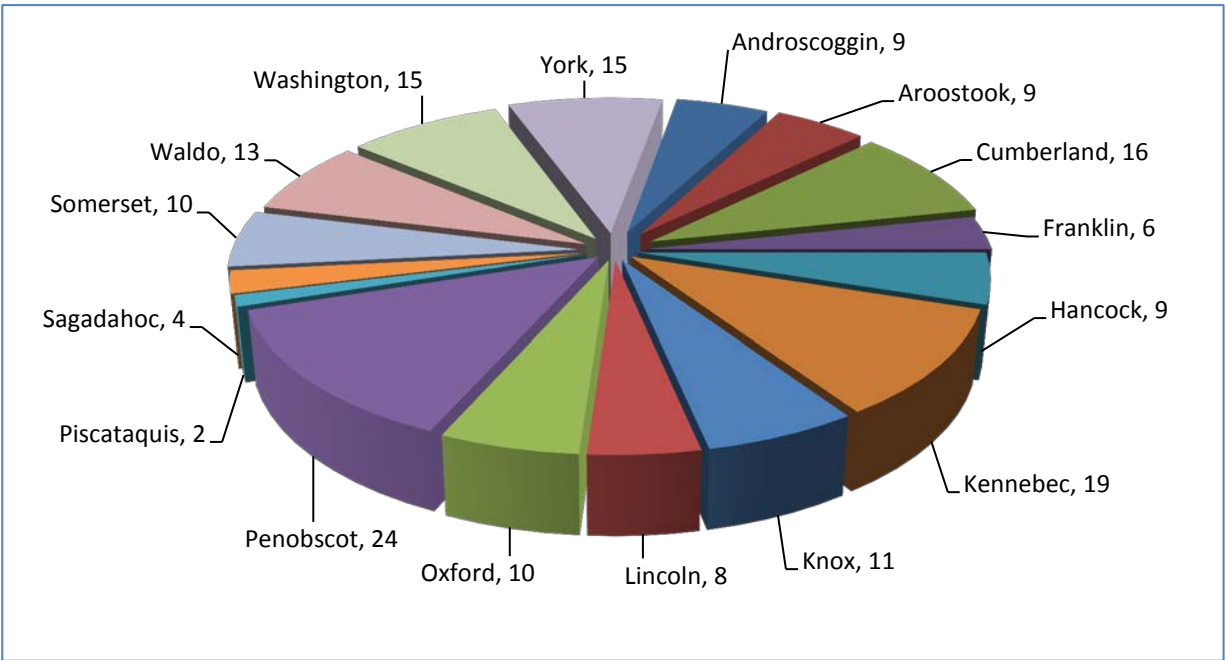

The incident data summarized in the following pages is provided by Maine fire departments that reported to the Maine Fire Information Reporting System (MEFIRS). The data is validated by the State Fire Marshal's Office for completeness and accuracy, and then exported to the U.S. Fire Administration's National Fire Incident Reporting System (NFIRS) for release to the fire service and public.

During 2013, usable MEFIRS data was received from 180 Maine fire departments, which totaled 96,629 incidents. These incidents included 4,925 fire-related incidents, 63,250 emergency medical service (EMS) incidents, and 28,454 non-Fire & non-EMS incidents. It should be noted that these counts exclude "No Activity" incidents.

## 2013 Maine Fire Fatalities

Town	Date	Gender	Age	Cause
Somerville	1-24-13	M	92	Undetermined
Easton <b>Double Fatal</b>	1-29-13	M M	56 57	Undetermined
St. Albans	2-05-13	M	54	Candles
Portland	2-10-13	F	56	Candle
Bath	2-12-13	F	65	Propane Explosion

## 2013 JUVENILE RELATED INCIDENTS

### Juvenile Fire Setting Incidents by County for 2013

**Juvenile Fire Setting Incident Dollar Loss by County for 2013  
(Total Dollar Loss: \$2,959,100.00)**

## Juvenile Fire Setting Incident Type and Associated Dollar Loss for 2013

Incident Type (and code)	# of Incidents	Dollar Loss
Fire, other (100)	12	\$1,700.00
Building Fire (111)	102	\$2,893,715.00
Fire in structure other than a building (112)	6	\$50.00
Contained cooking fire (113)	36	\$980.00
Contained Chimney or flue fire (114)	13	\$3,000.00
Incinerator overload or malfunction (115)	1	\$500.00
Contained fuel burner/boiler fire (116)	1	\$0.00
Trash or rubbish fire in a structure (118)	8	\$3,476.00
Fire in a mobile home used as a fixed residence (121)	3	\$0.00
Mobile property (vehicle) fire, other (130)	4	\$0.00
Passenger vehicle fire (131)	29	\$14,173.00
Road freight or transport vehicle fire (132)	6	\$19,000.00
Rail vehicle fire (133)	1	\$0.00
Off-road vehicle or heavy equipment fire (138)	3	\$10,000.00
Natural vegetation fire (140)	3	\$0.00
Forest, woods or wildland fire (141)	8	\$6,000.00
Brush or brush-and-grass mixture fire (142)	5	\$2.00
Grass fire (143)	5	\$0.00
Outside rubbish fire, other (150)	2	\$2.00
Outside rubbish not in container (151)	10	\$5,400.00
Construction or demolition landfill fire (153)	1	\$0.00
Dumpster or other outside trash receptacle fire (154)	6	\$1,100.00
Special outside fire, other (160)	2	\$2.00
Outside equipment fire (162)	2	\$0.00
<b>Totals</b>	<b>269</b>	<b>\$2,959,100.00</b>

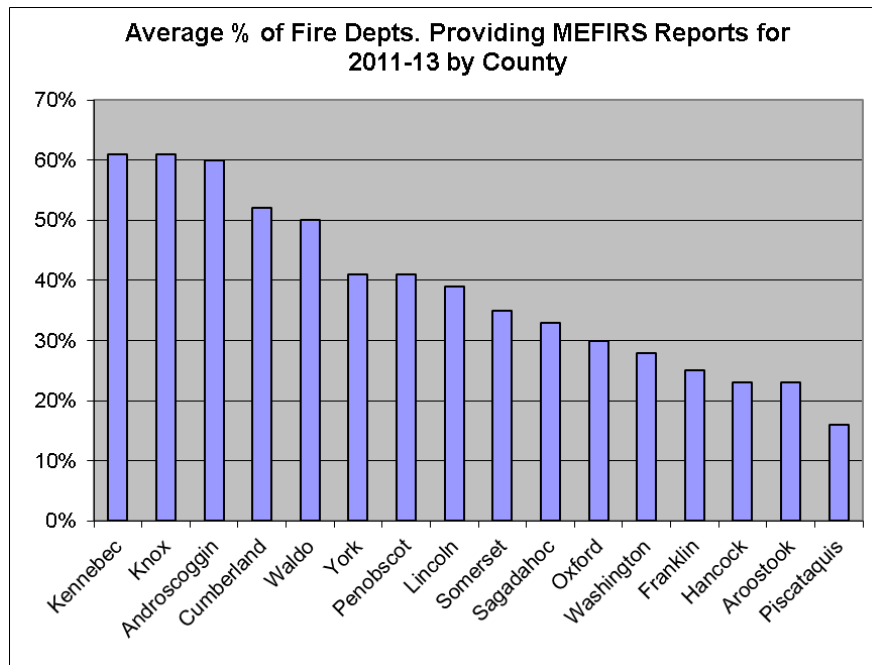

# 2013 MAINE REPORTING FIRE DEPARTMENTS

When fire departments enter data into NFIRS, they develop a data information warehouse regarding their department's response activities. This data can be very valuable if they need to justify to municipalities that they need a new truck, fire station or paid personnel. The data can also be used if the fire department submits a grant application for money to support purchases of personnel equipment, resources for fire safety programs or funds to support local fire prevention activities.

If fire departments don't use the NFIRS system to collect this data, they may have difficulty documenting how their current equipment and personnel are being used, and if the existing fire department structure is being used effectively to manage fire incidents in their response area.

The following pages document the use of NFIRS for each Maine fire department from 2011 to 2013. As a state, the average percentage of fire departments reporting to NFIRS has stayed steady at about 38% from 2011 to 2013 and it has dropped from 44% in 2009. We can do better.

## Percentage of Maine Fire Departments (FDID) Reporting by County from 2011 to 2013

County	Total # of FDID	2011	2012	2013

## **GLOSSARY OF TERMS**

**Alarm:** Any notification made to the fire department that a situation exists or may exist that requires a response.

**Area of Origin:** The room or area within the property where the fire originated.

**Automatic:** As applied to fire protection devices, a device or system providing an emergency function without the necessity of human intervention.

**Automatic Extinguishing System:** A system that controls and extinguishes fires without the need for human intervention.

**Building:** A structure enclosed with walls and a roof and having a defined height.

**Building Code Type:** Building code classification of the building involved in the incident.

**Building Fire (also Structure Fire):** Any fire occurring inside or involving a building. A building fire may be a wastebasket, a mattress fire, or a roof fire; whether or not structural members were actually involved.

**Casualty (fire):** A person who is injured or killed at the scene of a fire. (This includes injuries or deaths from natural or accidental causes sustained while involved in the activities of fire control, rescue attempt, or escaping from the dangers of the fire).

**Combustible:** A material or structure that will release heat energy on burning.

**EMS:** Emergency Medical Services

**Fatality:** An injury that is fatal or becomes fatal within 1 year of the incident.

**Fire:** Any instance of destructive and uncontrolled burning, including explosion, of combustible solids, liquids,

or gases. Fire does not include the following, except where they cause fire or occur as a consequence of fire:

- Lightning or electrical discharge
- Rupture of a steam boiler, hot water tank, or other pressure vessel due to internal pressure and not to internal combustion.
- Explosion of munitions or other detonating material.
- Accident involving ship, aircraft, or other vehicle.
- Overheat condition.

**FDID:** A unique five-character identifier assigned by the State to identify a particular fire department within the State. This identifier may also identify the county, fire district, or other jurisdiction in which the fire department is located. It is used to identify incident data that have been collected and reported by individual fire departments.

**Hazardous Material:** Any material that is an air-reactive material, flammable, or combustible liquid, flammable gas, corrosive material, explosive material, organic peroxide, oxidizing material, radioactive material, toxic material, unstable material or reactive material, and any substance or mixture of substances that is an irritant, a strong sensitizer, or that generates pressure through exposure to heat, decomposition, or other means.

**Ignition:** The physical and chemical processes involved in reaching a point of self-perpetuation of fire whether or not there is an open flame.

**Incident:** An event to which the reporting agency responds or should have responded. Included are “walk-ins” treated at the station. An incident may have more than one response. A rekindle is a separate incident.

**Incident Report:** A document prepared by fire department personnel about a particular incident. For understanding and legal purposes, this report should be in their own words. For summarization purposes, the information on this report can be classified into broad categories. The incident report is always part of the incident record or file.

**Mobile Property Type:** Property that was designed to be movable whether or not it still is (e.g. vehicles, ships, and airplanes).

**Mutual Aid:** Assistance provided under a written agreement that establishes general guidelines and procedures for providing and receiving assistance between fire departments. (Requested in addition to initial dispatch)

**Structure Fire (Residential & Commercial):** Any fire inside a structure or on, under or touching a structure. A structure fire may be an automobile fire in a tunnel, a leaking flange in a refinery tower, or a building.

**Wildland:** Land in an uncultivated, more or less natural state, and covered by timber, woodland, brush or grass. An area in which development is essentially nonexistent except for roads, railroads, power lines, and similar facilities.

**Wildland Fire:** Any fire involving vegetative fuels, other than prescribed fire, that occurs in the wildland. A wildland fire may expose and possibly consume structures.
