

Wallowell 11. Nov. 1820.

Hon. William Henry.

Dear Sir. As the council sit next week, I wish to repeat, that the Register of Probate in this country had better remain for the present. His continuance will have a tendency to keep all things quiet.

The appointments of clerk and sheriff are much to be desired & I praying they may not be delayed. Chandler, Punderson, & dis getting up petitions from himself in every party.

the country. You must not be astonished
if he produces many humane names.

Mr. Counsellor Emerson has a do-
ling object in view in the ap-
pointment of a sheriff for Penobscot
county. He strongly wishes for
General Trafton. He is I suspect
prepared to convince the Gov. & Council
that some rumours against Trafton
are unfounded. Such, as that he
is altogether broken down & un-
able to procure sureties should
he be appointed.

Mr. Emerson is a man of
few words & it is difficult

to draw forth his real wishes.
Should he be gratified in this
particular there can be no fur-
ther trouble with him.

I am Respectfully

Yours &c

G. Warren

P. S. I understand Mr Emerson calu-
lates to see you at Bath, before the
meeting of the Council.
