A description of principal highway routes, together with an alphabetical gazetteer of towns and place names in the State of Maine. A classified index of advertisers will be found on the pages immediately following.

It should be remembered that in Maine, as in most of New England, a "town" is geographically a "township," averaging some 36 square miles. Thus several villages or town centers may be included in a named "town." Most such village centers, usually highway junctions, relate to the name of the town, but with the prefixes North, South, East or West. Code numbers following Town names refer to the approximate location on the official State of Maine Highway Map.

We hope you will have a wonderful time in Maine with MOTORING THRU MAINE as your constant companion.

KINDLY MENTION MOTORING THRU MAINE
We, of the Maine State Police, welcome you to "Maine, the Land of Remembered Vacations."

It is our wholehearted wish that you will have a most pleasant visit in our state. We hereby pledge our best efforts to help you do so.

Maine has taken every precaution possible to make her highways safe so that you may return home safe and sound. In turn, we sincerely hope that you will assist us by observing the laws and regulations that were made to protect you and your fellow motorists.

Maine State Police officers never use their authority promiscuously, but only with the true desire to assist motorists in driving safely. You will not be warned or arrested unless you are doing something that not only jeopardizes your own safety but that of others. Our easily distinguished cars are equipped with sirens which are used to inform the motorist that he is to stop.

It is the wish of the Maine State Police that you have a happy and worthwhile vacation in Maine.
