

I enter for premium one pair of Working oxen
five years old. They came of Native Cows and
sired by the "Kaiser Bull" so called. one of
which was raised by Capt. Elijah Snell and the
other by Samuel Wood Esq, both of this town
Their keeping has been nothing more than ^{the} common
kind. Since I have owned them which is three
months their keeping has been the common
keeping of Working oxen they have thriven well
better than the native breed - endure work as
well.
