From other blanks in two respects:

They sell better.  
They shoot louder.

There is always a great demand for U. M. C. Blanks. The boys want the U kind.

The S. & W. sizes because of the bevel crimp, special powder and wadding have a reputation.

#### A BEAVER TALE.

What of "Black Edward"? Just one word's enough.

His heart's as tender as his tales are "tuff."

YOU see it's this way. A visit to the Rangeley Lake region without a little run up to Beaver pond is as rank a failure as had a pair of scissors, or the hole of a doughnut with the dough gone. Yes, "Going up to Ed's" is like smoking opium, lying, or "wars"—it grows upon you; and the one who once sets his happy foot on the shores of old "Beaver" is as certain to return as—as well as a punched "quarter."

What do you do when you get there? Most people fish, others tramp, lose glorious old trails and just soak their hearts and minds in the delights of mountain, lake and forest; for at Ed's, remember, we're in the sure—though backward—way.

Now as to the fishing, a word or two. Guides talk, notwithstanding I have never yet found 5 and 10-pound trout plenty enough to be monotonous—never have, but the reasonable man with a fair idea of the proper dissemination of "feathers"—if he chance also to be a true sportsman, could ask nothing better.

With an easy reach of Ed's doors lie (even nature "lies" up there—I wonder why?), 5 or 6 lakes in which the fly fishing is simply "great," and I say this after having fished every damn spot in that region many times. Take "Ell Pond," for instance, around the "bend among the pines," or "Little Island" with a gentle ripple above sundown. Such incessant "rises" and such a run of fish marks that charming little pond as the acme of fly fishing possibilities.

What is there for the "Man behind the gun" up there? Simply this. In the open season he can easily get all the deer the law allows him, and will also find "Ruffed Grouse" (i.e. "Partridge") in abundance. With Moose, Bear and Caribou the case is that of those 5 and 10-pound trout, they do not actually "hang around the door yards."

How do you get to Beaver Pond?—thus. The total of 27 miles from Rangeley Village is now covered by buckboard to Kennebag Lake, thence by steamer down that beautiful sheet of water, a very pleasant break in the journey, thence by buckboard again, direct to Ed's Camps on Beaver Pond. The roads already good are constantly being bettered, and ladies and children can now with perfect comfort make a journey that once meant miles of rough and toilsome tramping.

At the Camps the accommodations leave nothing to be desired by those who realize that this is the "Backwoods" and not "Broadway." The cabins are clean, roomy, and thoroughly comfortable, beds and table excellent (and most of the food at least excellent) while the proprietor—i.e., the "Old Man," is a happy combination of kindness and pleasing fiction.

The first step for those who would like to see for themselves how much actual truth there is in all of the above, is to address ED GRANT & SON, Beaver Pond, Maine, and then "wait til something drops."

#### Redington Fish Notes.

[Special correspondence to the Maine Woods]

REDINGTON, June 23, 1902.

Fishing on the ponds and streams continues to be good. Trout are rising to the fly remarkably well considering high water. Several parties have engaged accommodations for the hunting season.

The Pearson party of Lowell has written that they will arrive June 24.

The Gardner party of Boston are booked for July 2.

Recent arrivals are:

June 19. A. C. Hutchinson, Geo. O. Eustis Livermore Falls; John A. Brown, Jay.

June 20. W. A. Faunce, Atlantic City, N. J.; Geo. Tolman, New York; Ernest Ross, guide, Rangeley; C. Felker, Solon; C. H. Locke, F. Field, Boston; Chas. S. Rogers, Salem; F. P. Cook, Newport.

June 21. C. E. Wright, J. Gray, James Libby, Geo. A. Spear, Portland.

#### Moose In Salem.

Mrs. W. T. Hinds of Phillips was driving through Salem Friday, and just as she reached the Moody farm a moose stepped out into the road and bristled up. Mrs. Hinds drove along and the moose stepped out of the road and into a field. There he trotted along for some distance, keeping abreast of the team.

#### Many Bass Taken.

A party of five Boston sportsmen have been enjoying the fishing at Lake Cobosseecontee for a few days, having made their headquarters at J. W. Emery's Lake House. Three guides were employed during their stay and they captured many bass and a few trout. The party included E. B. Wood, W. H. Maxwell, Cyrus C. Randall, William Amolsky and Frank H. Jenkins, all of Boston.

#### Deer Was Sporting.

At 6 o'clock Sunday morning Bert A. Dresser, the boatman at Lake Auburn, reports that a wild deer took to the water at Lake Auburn somewhere in the grove and swam across the little bay making an exit from the water near the boathouse. He lounged around the water front where Mr. Dresser said he had a good look at him with a pair of field glasses. He sported a pair of short horns and was in all probability a year old buck. The deer did not seem to mind the curious gaze of the few fishermen who had gathered at the boathouse and leisurely trotted into the woods. He was afterward seen in the pasture of Mr. Hathaway among the cows.

#### Mr. Gannett's Summer Home.

A fine summer home is being erected at Pockwockamous deadwater by Mr. W. H. Gannett of Augusta. The location, in the very heart of Maine's forest at a widening of the West Branch of the Penobscot river, is a most ideal one. The camp will be built on a point, which, studded with white birch trees with huge pines as a background, commands a most delightful view of the river in either direction. Directly opposite the point, the Pockwockamous lakes deposit their waters into the river through a beautiful stream where most excellent fishing is to be found. The camp is to be of logs and will be similar in construction to the late Camp Comfort which was situated in the woodlands owned by Mr. Gannett on Western avenue.

#### Game In Variety.

Last Friday morning as Miss Mary Potter of Wytopitlock, when driving from Woodville to Winn, a distance of six miles through the woods, saw on the way two moose, ten deer, ten rabbits.

### RANGELEY LAKE HOUSE.

[Special correspondence to the MAINE WOODS.]

RANGELEY, June 25, 1902.

There has been a good deal of wind and rain the past week which prevented many from fishing, but the persistent ones have been rewarded and a number of good salmon caught.

Monday morning Mr. John McLean and daughter Miss Ellen McLean returned to their home in New York but not until both had landed a number of good salmon. Mr. McLean, on Thursday, caught two good salmon, one 5 pounds, the other 6 1/2 pounds.

Last Friday was a lucky day for the anglers here as eight record salmon were brought in, these being caught by the ladies.

This seems to be the ideal place for June bridal parties, and several have been here recently.

Mr. and Mrs. E. E. Partridge of Medford, Mass., who are having a pretty summer home built on this lake on a high point of land, arrived here last Wednesday.

Prof. James M. Munyon and son of Philadelphia have arrived and are welcomed by many friends. The Professor will not open his cottage until his son and wife arrive later, but will make it his headquarters at Munyon's Springs, where Mr. C. M. Ott of New York is in charge.

Williamantic, Conn., returned from a trip to Kennebago and Seven Ponds where they report excellent fly fishing.

Mr. and Mrs. G. N. Proctor and sons, G. N. Jr., and James S. of Fitchburg, Mass., are now happily located here for a long stay.

Mr. John W. Mason of Brooklyn, N. Y., who for twenty-six seasons has been at Camp Mason on Big Island pond, was here several days this week on his way home. He was accompanied by Wm. P. Mason and Alfred B. Chapman of the same city. Their guides were Eugene Soule, Dan Heywood and Geo. Love. Mr. Wm. P. Mason went out on this lake for a few hours and returned with a 4 1/2 pound and a 3 1/4 pound salmon.

Mr. and Mrs. James Aiken of Franklin Falls, N. H., have had a delightful trip to Kennebago, where they had excellent fly fishing.

Mr. C. A. Taft, Mr. and Mrs. W. E. Johnson of Whitinsville, Mass., and Miss Annie Meek of New Haven, Conn., Mr. and Mrs. Chas. Shoninger of New York City are among the recent comers.

Mr. Edward Crocker of Fitchburg, Mass., has joined his wife here. Mr. F. W. Burleigh of the same city accompanied him. They have Ed Lowell and Charlie Quimby for guides.

Mr. and Mrs. W. W. Coolidge of Salem, Mass., with Frank Porter, guide, are having great luck landing the salmon. Mrs. Coolidge brought in a 7-pound salmon last night and has also

### FROM TIM POND.

Hartford Men Catch Trout by Twos and Threes.

[Special correspondence to MAINE WOODS.]

EUSTIS, June 24, 1902.

Col. C. E. Billings, his son, L. H. Billings, and Silas Chapman, Jr., of Hartford, Conn., returned Monday from their annual fishing trip to Tim pond. They found good fishing. Saturday they found to be a very poor day for the fish.

Mr. Chapman has been coming here for over twenty seasons, while Mr. Billings has been about the same. Mr. L. H. Billings twice caught three trout at a cast and Mr. Chapman took several doubles.

Colonel Billings and his son took 823 trout and Mr. Chapman took 426. They put back 90 per cent of those taken. The largest day's catch made by Colonel Billings and his son was 170.

The Colonel says: "My friend, Chapman, is a great fisherman. He can cast a fly just right. He always beats me."

These gentlemen had hand counters, convenient little articles which hang on the middle finger and rest in the left hand. When a fish is landed, all that is needed to register it is to partly close the hand and the number is registered.

### Fishing Around Kingfield.

[Special correspondence to MAINE WOODS.]  
KINGFIELD, June 25, 1902.

Messrs. W. S. Dolbler and Embert Hennigar took a trip to Lexington and fished the outlet of Safford pond a few days ago. They took about forty trout apiece.

They came up very close to a lamb deer. The little fellow did not seem very much frightened. The deer tracks there were very numerous. The feeding grounds for them there are excellent.

Messrs. E. N. Carter of Wilton and C. O. Wilkins had good success at Poplar brook near Carrabassett a few days ago.

### MOOSELOOKMEGUNTIC HOUSE.

[Special correspondence to the MAINE WOODS.]  
MOOSELOOKMEGUNTIC HOUSE,  
HAINEES LANDING, ME.,  
June 24, 1902.

The sportsmen of Haines Landing and vicinity have enjoyed another successful week of sport. Even though the most of the week has been very disagreeable it has had but little effect upon the fishermen and their success.

The wharf near the hotel, the rock off the Ashton cottage adjoining the hotel and other fishing grounds near have furnished most of the big fish during the week.

Among those who have made good catches during the week are many people with little experience at fishing while Thursday June 19, Mr. Chas. Sumner Taylor of Washington, D. C., landed a beautiful 5 1/2-pound trout and a 2 1/2-pound salmon. Since the above date he has made other catches of smaller size. This is his first visit to this part of the country and also his first fishing of this kind. The trout gave him a good fight but he landed it without a net.

On Friday, June 20, Proprietor T. L. Page landed, before breakfast, two nice salmon from the wharf. They weighed 4 1/2 and 3 1/2 pounds.

Catches of note that have been made are as follows: Herbert Cloudman, Rumford Falls, three salmon, 2, 2, 3 1/2 pounds; F. H. Cloudman, Rumford Falls, salmon, 2 1/2 pounds; S. A. Cloudman, Rumford Falls, salmon, 2 1/2 pounds; A. A. Cordwell, Westbrook, trout, 2 1/2 pounds; A. E. Cordwell, Westbrook, trout, 1 1/2, 2, 2 1/2, 3 pounds.

The largest number of fish taken by one party during the week was on Saturday by Mr. E. E. Thomas of Boston who was out a short time in the afternoon and made a catch of forty-nine fish. The largest was a 3-pound salmon. All of them were put back except four trout and two salmon.

Mr. and Mrs. N. P. Howell of Newark, are also stopping at Mooselookmeguntic for a few weeks. Since their arrival they have taken several trout and salmon, the largest a salmon that tipped the scales at 3 1/2 pounds.

Later arrivals are:

F. A. Merrill, Putnam; John A. Decker, Dixfield; Mr. and Mrs. N. P. Howell, Newark; Chas. E. Upham, New York City; B. F. Chalmers, Louis Salyer, Rumford Falls; E. Kno Thomas and wife, Boston; H. P. ### BLAKESLEE LAKE CAMPS.

[Special Correspondence to the MAINE WOODS.]

EUSTIS, June 24, 1902.

The season at Blakeslee has opened in good old style. More trout, especially large specimens, have been taken than ever before.

Mr. W. B. Conrad of New York caught fifteen beauties in a rain storm. Mr. W. A. Marshall of New York and Henry Seymour of New York report the best fishing they ever had.

Latest arrivals are: W. A. Marshall, W. B. Conrad, New York; W. W. Douglass, Madrid; O. R. Witham, Freeman; Henry Seymour, New York; Gordon Campbell Eustis.

One of the novelties in the fishing line was the recent effort of four trout to get the three flies cast to them.

A few days ago two moose came up within five rods of the camps.

### New Rangeley Lake Steamer.

The latest acquisition to the service of the Rangeley Lakes Steamboat company is the steamer "Rangeley," which was launched Thursday of last week. This craft is 77 feet long, 16 feet beam moulded, 19 feet on deck over-all and has a draught of four feet. She is fitted with modern compound engines, having diameter of cylinders 8 and 17 inches respectively, with ten inches stroke of piston, and on her trial trip on Saturday forenoon she developed a speed of fifteen statute miles per hour. She also has in dependent feed air and sanitary pumps. Her cabin furnishings are installed with a view to insure comfort and durability and her passenger carrying capacity provides for 150 first class. The construction of the Rangeley's hull and fittings unquestionably reflect great credit on Mr. Joseph W. Dyer, designer of the Portland Shipbuilding company, to whom the contract was awarded, and her machinery equipment is highly complimentary to Messrs. Orr and Jennings of Portland. Among those present on the trial trip were: H. H. Field and J. W. Brackett of Phillips; H. A. Furbish and P. Richardson of Rangeley; Messrs. J. M. Taylor, J. W. DeVere-Stevens and Washington J. Orr of Portland.

### SPRING LAKE NEWS.

(Special correspondence to the Maine Woods.)  
FLAGSTAFF, June 24, 1902.

Spring Lake Camps have been "full to the capacity" from its first opening and the booking for the coming three months beats all the records this favorite resort has held in the past. Among the favorable outlook signs must be counted the many returns of patrons who have become "annuals" and return with the seasons as the birds; who seek the haunts where they are happiest and enjoy the most what their natural instincts crave.

Fishing has been the best ever enjoyed in these waters and the good things provided by the most painstaking caterer a camp ever had, Mr. Fred Drew, has increased the interest of every patron. Here we enjoy the novelty of social life as seen in the big "guides camp," where we gather after supper, and beside the big open fire touch up our guides for the story of that large salmon captured, or the bear hunt, the moose or deer hunt. The many old songs are sung to banjo accompaniment by those inclined and cards are played by those who wish, and molasses candy made and pulled in the good old country style. In fact the great attraction of our evenings, as one family, are not the least of those that increase the joys of camp life at Spring Lake. Some of our "annuals" stay three months and they look after the newcomers so that everyone feels at home in the family.

Mr. and Mrs. Wm. R. Hooper of New York City are among the latest arrivals, and though making a hurried trip have arranged for a return.

Mr. and Mrs. Chas. F. Roberts of Portland are enjoying their return trip this year.

Miss Angie M. Mansfield of Orono, with Misses Olena and Merlyn Viles, spent a little time here last week.

Mr. and Mrs. F. A. Foster of Brookline, Mass., are here for some time. Mr. Foster is a charter member of the Megantic club. He is glad he came to Spring Lake and is enjoying life in the woods with his amiable wife.

Walter Taylor and Chas. Savage have been guiding Mr. Burnham and Mrs. Eastman. They were of the party who spent a week at Spencer stream and the falls. Mr. Burnham returned to Hartford, Conn., Monday, regretting the close of a two weeks' stay. Some fine fish were captured and the trip a success in all particulars. Life was made very pleasant by this member of our annual gathering. We missed Mr. Perry but hope for his presence in November.

Many new guests are arriving this week. New trails are being cut clear around the lake and those who love to tramp can now enjoy miles of it.

### HEARING AT RANGELEY.

Land Damage Case Heard by  
County Commissioners.

(Special correspondence to the Maine Woods.)  
RANGELEY, June 25, 1902.

Last Saturday occurred the hearing before the county commissioners, Hon. D. E. Berry, Hon. I. W. Greene and Hon. Geo. D. Clark, at Furbish hall, in relation to the amount of damage sustained by John A. Decker of Rumford Falls, on account of the Portland & Rumford Falls railroad running through two miles and one-half of shore land belonging to him on Rangeley lake.

The railroad company claims that the damage amounts to only a few hundred dollars and have offered accordingly. Decker, on the other hand, claims that the loss amounts to \$25,000 to \$30,000.

Last Friday, the attorneys for both sides and their assistants went by special steamer to the grounds and walked the length of Mr. Decker's land, examining each side of the railroad with more or less care. In the evening the testimonies of Hon. Waldo Pettengill, general manager, and Mr. Brooks Stratton, civil engineer, were taken. In the forenoon, on Saturday, the witnesses called by the attorneys for Mr. Decker were, S. R. Morse, T. L. Page, William M. Cunningham, Wm. A. Faunce, Chas. L. Harnden, John E. Stevens, Geo. H. Snowman and John E. Decker. These men offered testimony in reference to the value of Mr. Decker's land and also as to the damage done to the property by running a railroad through it. J. W. Brackett was also called to verify the advertised price list of lots owned by the Rangeley Cottage company.

The railroad company called Hon. Joel Wilbur and Hon. John R. Toothaker, who testified that only a part of Mr. Decker's land was suitable for cottages, the balance being better for fishing and hunting camps only.

The attorneys for Mr. Decker were Judge Foster, Timberlake & Noble and F. W. Butler, Esq. The railroad company had Hon. George D. Bisbee, Hon. Joseph C. Holman, Clerk of Courts Byron M. Small was also in attendance.

Mr. Decker's side of the case was opened by Hon. F. E. Timberlake and the railroad's side was opened by Hon. J. C. Holman, followed by Hon. George D. Bisbee and then Judge Foster closed for Mr. Decker.

There was some very eloquent speaking and the decision of the county commissioners is awaited with interest.

### Ill Health From Worms.

Internal cleanliness is necessary to perfect health and is fatal to worms. Not only worms but also the conditions in the stomach and intestines that make it possible for worms to exist and breed there are eradicated by True's Pin Worm Elixir. It not only cleanses the mucous membrane but goes further and cleanses the blood. The way True's Elixir has been used for over half a century in countless healthy homes is to keep it always on hand and use it as a tonic whenever any member of the family, child or adult, is "run down." If worms are present they are expelled after three or four doses. It contains no mineral drugs. It is purely vegetable and absolutely harmless. A valuable booklet on Diseases of Children has been published by the makers of True's Elixir and will be sent free to anyone addressing Dr. J. F. True & Co., Auburn, Me.

### Show What You Can Do.

Beginning September 22d, a genuine, old time Mechanics Fair will be held in Boston. This will be the first time in four years that the Fair has been held.

The great popularity of this exhibition is well known. No charge is made to exhibitors for space. The utmost effort will be made this year to make the Fair attractive.

We advised all interested in the arts, sciences, agriculture, etc., to avail themselves of this opportunity to exhibit their work or products. Application for space and further particulars should be addressed to J. C. Hosmer, Manager Mechanics Building, Boston, Mass. Inasmuch as the Mechanics Fair is an old New England institution, would it not be a good plan to give it liberal support by exhibiting at that time any products coming from this section of the State? Such an effort will surely be of advantage to this locality as well as to the exhibit tions themselves.

## AMONG THE FARMERS.

IN AND ABOUT STRONG.

(Special correspondence to the MAINE WOODS.)  
STRONG, June 24, 1902.

As the summer days approach, one of the marked signs of them is much in evidence. The warmth in the atmosphere is supplemented by the warmth of color in the fields.

The orange hawkweed is in blossom, that handsome, innocent looking, hated pest. Former residents will readily picture the fields and lawns around the village with the large patches of, indeed, the entire field is not covered with it, of flowers of a burnt orange color. From whatever direction one enters the town this is the herald of the town, and in whichever direction he departs he passes through large beds of this flower.

Coming in from Phillips on the Sandy River railroad, when the trestle is reached, away on the left is seen a brilliantly colored field. It truly looks, when the wind is blowing, as if the field were being swept by the flames.

Passengers will admire the huge bouquet formed in the field opposite the Strong station by these flowers growing with the buttercups, grasses and daisies. Passing on towards Farmington, the scene is continued for some distance. The same is true in a smaller degree along the line of the Franklin & Megantic toward Kingfield.

The flower is spreading rapidly in every direction. There are quite large patches of it in Phillips and over on the New Vineyard hills it is much in evidence. Only a few years ago there was but little of it here. On the Porter lot they are getting rid of it. This has been accomplished by early cutting for several years. Now, hardly a stock of it is to be seen there.

It is said that if cut early the cattle do not mind it in the feed, but cut late is of no value.

Children's day was observed Sunday at the Methodist church. The church was prettily decorated with flowers. The recitations by the children interspersed by music occupied the most of the time. Some amusing anecdotes told by Rev. Mr. Whitside enlivened the occasion. The selections of music were fine, some of which were composed by local talent.

We are glad to see Mrs. W. L. Daggett so much improved as to be able to ride out.

Eugene Dickey was quite sick last week threatened with pneumonia.

Bert Pratt was a caller in town Monday.

F. L. Dyer has added a new piazza to his cottage at Sweet's pond. Mr. Gates did the work.

George Pratt has been in town a few days but returned to Brunswick Monday to attend Commencement exercises. Harold Pratt returned with him.

The Strong boys went to Phillips Saturday to play ball. They returned home very quietly. It is an even thing now.

Miss Eda Willard has accepted a position for the summer in the reform school at Portland and will go next Monday.

Daggett & Will are putting a 40-foot addition onto their store. This will give them very commodious quarters.

In Maine.

J. P. Bass, proprietor of the Bangor Commercial, was arrested Wednesday, charged with publishing liquor advertisements. The warrant was issued from the Sanford municipal court by Judge G. W. Hanson on complaint of E. H. Emery of that place. It was issued last Monday and sent to Deputy Sheriff James Miles of Saco, who started for Bangor, Tuesday night, to serve the paper.

Former warrants alleged that on certain dates the Commercial published certain liquor advertisements.

The new allegation gives the exact reading of the advertisement, and, in fact, it is a literal copy of an advertisement alleged to have been published in the Commercial May 24.

Old Orchard's scheme for killing off mosquitos is working to the queen's taste. There was some delay at first to get the proper person to spread the petroleum on the ponds and marshes where the insects breed. During this time the mosquitos got a little start and people there have been bothered a little, but the number of insects is growing smaller every day, proving that the new plan works splendidly. The oil is used after each rainfall, about a barrel of the crude petroleum being necessary to make the rounds.

It is understood in Lewiston and Auburn that the two telephone companies that were to do business in Maine for the glory of competition and the good of the subscriber have come to an agreement and that so far as possible a division of territory is to be entered upon so as to obviate competition.

A letter from an employee of the Eastern Telephone company to a friend in Lewiston seeking work said that, as the Eastern had sold out to the New England Telephone company, he had to look out for another job.

One of the directors of the Eastern at Rockland informs the Journal that while this is hardly the exact state, there are negotiations in progress that are sufficiently far progressed to be made public that give the details of the arrangement. These were published in one of the Rockland papers a few days ago, giving the details of how, in this event, territory was to be partitioned out. The New England takes charge of one section, the Eastern of another and in some cases the interests of the two will be transferred to a company with joint directorate.—Lewiston Journal.

Grange Notes.

Aurora grange of Strong held a regular meeting on Tuesday evening, June 17, at Grange hall. A large number of patrons were out to witness the conferring of the third and fourth degrees on a class of twelve. Worthy Master H. W. Allen was detained at home and Past Master Geo. R. Winslow occupied the chair and conferred the degrees in an interesting manner. The lecturer's program was not taken up on account of the lateness of the hour. A bountiful feast was enjoyed by the patrons. At the next regular meeting, July 1, the question given out previously will be discussed and the lecturer's program taken up.

The members of Aurora Grange, No. 202, P. of H., and their families are invited to spend the Fourth of July with Brother and Sister Timothy Sweet at their home in Avon. Members of adjoining granges will also be welcome. Picnic dinner.

School Notes.

The graduating exercises of the Grammar school took place here Friday, June 20, in the new High School building. The rooms were very artistically decorated with bunting, drawings and flowering plants. The whole presented a most inviting appearance and was due to the diligent labors of Mrs. Daisy Worthley and Miss McLain, aided by the girl graduates.

The originality and variety of the program made it very interesting and entertaining to the large number of parents, friends and visitors attending. Although all taking part in the exercises did exceedingly well, certain numbers of the program met with especial favor with the audience. The class prophecy by Hermia Harvey Beal held the attention of all and called forth loud applause and praise at its close. Several interesting facts respecting her classmates were brought out by the historian of the class. Among other things mention was made of the fact that Miss June Agnes Harlow had not been tardy or missed a day during the past year. The second best record of attendance was that of Miss Bessie Edith Webster, which is perfect with the exception of one very stormy day when the teacher herself was out sick.

The music for the occasion was furnished by two young ladies of the High school, Miss Annie Howard and Miss Freda Fogg, accompanied by Miss Francis Keene and four sweet little singers of the lower grades of the Grammar school. Miss Fogg rendered several fine selections on the violin. Miss Howard sang very touchingly that beautiful solo, "Hello Central, Give Me Heaven." The exercise closed with a few apt remarks to the graduates of praise for the work done and of encouragement for the future from Committeeman Shaw, followed by the presentation of diplomas.

Following is the program and list of graduates:

Music, Miss Freda Fogg  
[Accompanied by Frances E. Keene.]

GRADUATES.

Bessie Edith Webster, May Lever Goldsmith, Harold Allen Walsh, George Eldon Richardson, Sallie Gertrude Luce, Lydia Augusta Goldsmith, Lester Royal Lewis, Hermia Harvey Beal, Charles James Tuttle, June Agnes Harlow.

The closing exercises of the Intermediate and Primary schools combined occurred Thursday, June 19. The large number of parents and friends attending were greatly delighted with the beautiful singing of the little people. The dialogues by the girls in both classes, A and B, produced a very pleasing impression. Freda Johnson sang a delightful Swedish song in her native language. The teacher, Miss Eda Willard took this opportunity of awarding prizes and merits to deserving pupils. The first prize in spelling went to a young man who had not missed a single word throughout the year. Several of the other scholars had perfect records for the year in attendance, being neither absent nor tardy.

Willie Staeling of the Intermediate school, who accidentally broke his arm a few days ago, while attempting to throw a ball, is progressing rapidly. It is now thought that the boy will soon gain the complete use of this limb again. Miss Emma E. Dickey will make a short visit to her sister in Boston this week.

For general excellence in scholarship and deportment, Miss Inez Stevens of the Junior class of the High school and Misses Florence Blethen, Lelia Wyman and Florence Luce of the Freshman class were exempt from all term examinations. Where are the boys?

Miss McLain of the Primary school left town Saturday, June 21, for her home in Farmington, where she expects to spend the summer.

Mr. Chas. J. Tuttle, a member of this year's graduating class of the Grammar school, expects to continue his studies next year in the High school at Farmington.

MUNYON'S RHEUMATISM CURE

Cure sharp shooting pains in the arms, legs, sides, back or breast, or soreness of any part of the body from one to three hours. Cures lameness, stiff and swollen joints, stiff back and all pains in the hips and legs, sciatic lumbago. It does not put the disease to sleep but drives from the system. Agents all druggists.

Several familiar faces were seen about the corridors and classrooms of the school during the past week. Miss Maude Louise Porter of Strong and Hilton Hewey of Monmouth academy spent some time in renewing old acquaintances among their friends in the High school.

A company of young men and ladies of the High school, consisting of Miss Emma Dickey, Bert Hartwell, Miss Avis Welsh, Elmer Brown, Miss Blanche Foster, Harold Shaw and Howard Staples attended the graduation exercises of the Farmington High school and the social dance which followed, Friday evening, June 20.

It gave the many friends and classmates of Earl Kingsley, who had been seriously ill and confined to his bed for the last eight weeks, great pleasure to see him once more able to enjoy himself in the open air.

The excitement among the school children during the past few days, caused by the edict that all must be vaccinated, is now replaced by a feeling of joy that the ordeal has been happily passed by so many.

A very exciting game of ball between the town team and a picked nine consisting of school boys was played here on the afternoon of June 23. The game was called promptly at 3.30 and proved one lively struggle from beginning to end on the part of each side to win. Conspicuous for their fine plays were Richard Johnson, who pitched a fine game for the school boys; James Packard of the town team, who did some fine fielding and Dr. Bell of the same team who distinguished himself in all round plays. Score, 21 to 33, in favor of the school boys.

Relieve the aches of a bad back promptly—cure all Kidney and Bladder troubles.

Mr. J. E. H. Townsend, of Townsend Bros., carriage manufacturers, of 19 Jefferson street, Bedford, Me., says: "We used Doan's Kidney Pills in our family, and found them a most valuable remedy. There are so many useless remedies on the market that when one is found which experience proves does what is claimed for it, it is a pleasure to endorse that preparation. I procured Doan's Kidney Pills at John Berry's drug store, under Hotel Thacher, and the satisfactory results obtained warrants me in making the above statement."

THE PRESIDENT

Of the City Council, Wilkes-barre, Pa., Cured of Rheumatism.

Col. Wm. J. Harvey, a president of Wilkesbarre's city council, who will long be remembered for his great work for the city, was once a mere physical wreck, torn in every muscle and nerve from the frightful pains caused by rheumatism. He consulted the best physicians, went abroad, took mud baths, and almost every known treatment for the disease. A friend had had a very similar experience and Dr. David Kennedy's Favorite Remedy had cured him, so he recommended this great kidney medicine to Col. Harvey and he is to-day a well man, hale and hearty. He writes straight to the point: DR. DAVID KENNEDY, Dear Sir:—This is to certify that I was permanently cured of rheumatism by the use of Dr. David Kennedy's Favorite Remedy.

WM. J. HARVEY.

Rheumatism is but another name for uric acid poisoning which is caused primarily by diseased kidneys. Cure your kidneys and the rheumatism disappears. For all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, as well as sicknesses peculiar to women, Dr. David Kennedy's Favorite Remedy is unquestionably the greatest medicine known to the medical profession.

It is for sale by all druggists in the New 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose. Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.

FIRE AND KNIVES.

Alleged Anarchists Arrested at Rangeley Last Sunday.

Bound Over to September Term of S. J. Court.

[Special correspondence to the MAINE WOODS.]  
RANGELEY, June 28, 1902.

Rangeley has not seen so great a sensation for many days as was created by the news following the arrest of Emil Mouillier of Waton, Belgium and Louis Morel of New York, the latter a native of France.

It seems that Morel has been employed for some time by Mr. Duncan B. Harrison of New York, who has camps on the Rangeley lake. He has been one of a large crew and Mr. Harrison has considered him a good man. The whole crew were peaceable enough, according to Mr. Harrison's statement, until this Belgian, Emil Mouillier, came into the crew.

Mouillier is alleged to be an anarchist of the worst type and is credited by Mr. Harrison as having poisoned the minds of the rest of his crew, which has resulted in a vast amount of mischief.

It seems that last Sunday these two men with others who were employed by Mr. Harrison got drunk and made arrangements for carrying out their threat to kill their employer.

It is alleged that Mouillier went so far as to set fire to the hay in the barn. In the mixup Mr. Harrison was struck at with an open razor and subjected to other very disagreeable experiences. Preparations were made to burn the camps by turning kerosene over the floors.

Among the very strange things that were done was the burning of the nose of one of the hogs belonging to Mr. Harrison, by the stub of a cigar.

One of the queer things that was done by the gang of alleged anarchists was to have their picture taken in a group. One of the group held a board upon which was inscribed the following: "The Belge and French will stand shoulder to shoulder and bid defiance to the perfidious American."

Mr. Harrison had the men arrested by Sheriff Geo. M. Esty. They were put in the Rangeley lockup Sunday noon and appeared before Trial Justice Heirick Monday morning to answer to the charge of intoxication. They were found guilty and sentenced to pay fines of \$5 and costs.

Morel was then taken on the charge of incendiarism and Mouillier was charged with assault with intent to kill. They were bound over to await the action of the grand jury at the September term of court. They will doubtless occupy the Franklin county jail at Farmington until that time.

## THE SURGEON'S KNIFE

Mrs. Eckis Stevenson of Salt Lake City Tells How Operations For Ovarian Troubles May Be Avoided.

"DEAR MRS. PINKHAM:—I suffered with inflammation of the ovaries and womb for over six years, enduring aches and pains which none can dream of but those who have had the same experience. Hundreds of dollars went to the doctor and the druggist. I was simply a walking medicine chest and a physical wreck. My sister residing in Ohio wrote me that she had been cured of womb trouble by using Lydia E. Pinkham's Vegetable Compound, and advised me to try it. I then discontinued all other medicines and gave my Vegetable Compound a thorough trial. Within four weeks nearly all pain had left me; I rarely had headaches, and my nerves were in a much better condition, and I was cured in three months, and this avoided a terrible surgical operation."—MRS. There seems to be a great deal of moving in town just at present. E. S. Larrabee has bought the stand occupied by A. G. Winter, on River street; A. G. Winter will move to Maple street into the house occupied by Will Corson and Chas. Dolbler; Mr. Dolbler will move into the tenement over Jacobs's store, and Mr. Corson will move into the Meade house on Church street. Carl Curtis, the barber, moved into Dr. Simons's house this week.

Dot, the Miner's Daughter, was given in French's hall, Friday night to a crowded house. The actors took their parts exceptionally well. While it is hardly possible to distinguish and classify the actors, it was conceded that Miss Talcott was a star. Following is the cast of characters:

David Mason, a Farmer	Frank Hutchins
Herbert Mason, David's Son	Leslie Wilkins
Royal Meadows, Foster-son of Mrs. Clifton	Merl Butts
Arthur Floyd, a Villain	Cecil French
George Clifton, a Returned Californian	H. C. Gilbert
Parson Swift, an Astonished Clergyman	C. O. Wilkins
Bill Dorsey, Floyd's Confederate	Flave Vose
Brewster, Police Officer	Carl Curtis
Ebony, a Colored Individual	Ralph Butts
Mrs. Mason, David's Wife—a God-Adorer	Mrs. C. O. Wilkins
Dolores, the Miner's Daughter	Edith Talcott
Mrs. Clifton, Geo. Clifton's Deserter Wife	Mrs. J. G. Butts
Winifred Clifton, Mrs. Clifton's Daughter	Mrs. Carl Curtis
Hezibah, a Colored Lady	Happie Vose

Sunday evening, Rev. W. S. Ballou will repeat the lecture on Bunyan, which was not completed on a recent evening on account of the failure of the lights.

Mr. and Mrs. E. N. Carter of Wilton are the guests of Mrs. J. B. Mayo.

Mr. I. W. Pottle went to Livermore Falls Monday morning. He was accompanied by Orris Vose. In the recent accident Mr. Pottle broke one of the bones of the wrist, dislocated the other and crushed some of the small bones. He is going to Anson to the races there, but has found someone else to drive his horses.

Rev. B. V. Davis preached in Stratton Sunday. There was no preaching service in the Methodist church here.

All will be glad to know that Rev. H. S. Truman was able to occupy his pulpit Sunday. Monday morning he had a bad time. As he started to come down stairs, he slipped and fell the entire length of the stairs. Two ribs were started, but nothing more serious is anticipated.

Mrs. Jerry Morrow is reported as quite poorly.

Mr. and Mrs. Carroll Barker returned to Providence, Friday, after a short visit home.

Mr. A. G. Winter is to take out the engine that is being used in his feed mill and will have it repaired at the hands of the Kingfield machinist, W. S. Dolbler. This engine has been in use for sixteen years and has never had to have repairs beyond some minor ones. It is now to be thoroughly overhauled and put into first-class condition.

A case of scarlet fever has been found in the family of Ed Taylor and one in the family of Chas. French, in each case the little daughter being taken sick. These families were quarantined at once and there is no indication or likelihood of the disease spreading.

An addition has been built to the fire house and the hose reel has been put in so that it is now convenient as possible for use.

Mr. Wm. Vose of Lawrence, Mass., has been visiting relatives in Kingfield and vicinity for the past few days.

## The Half Holiday.

KINGFIELD, June 23, 1902.

To the Editor of the Maine Woods:

In your issue of June 20 I notice an item in the Kingfield news in regard to our schools being closed one half day during the races of June 17. The question was asked "My, my, who is responsible for lowering the educational standard?" I will say the teacher and school.

as worked diligently one legal holiday during this term with the understanding and expectation that they might want some other day to themselves. That day came June 17 and so did the horse trot. The matter was laid before the school board and it was unanimously decided to allow the schools the half holiday. So if the educational standard has been lowered, myself, R. D. Simons, C. O. Wilkins and L. A. Norton are responsible for the awful sin.

O. C. DOLBER, Chairman of the school board.
