

Bombay June 14th 1861.

My Dear Governor

I should apologize for writing you again so soon, but I do it at the especial request of Doct. McRuer.

Most of the leading men here are interesting themselves for his appointment as Brigade Surgeon. Vice R. Hamilton, departing from his usual rule, has promised to write him a letter strongly recommending his appointment. I stated to Dr. McR. what I understood had been your uniform practice as to appointments under the General Government but if you can do any thing in his favor, he will be very thankful, as he is exceedingly anxious for the place referred to.

Very truly, your
Obedt servant
S. B. Morrison

Banger, Mc.
