Dec. 20. Sarah M. Hurd, in Orrington, aged 78 yrs., 11 mos., 12 days. Cause of death, lobar pneumonia.

I would again urge the parents of children to see that all births are properly recorded and especially the names as very often when the physician makes his report to the clerk he does not have the name of the child to report, and there is hardly a relation of life, social, legal or otherwise, in which the evidence furnished by an accurate registration of the birth may not prove to be of the greatest value to the individual in later years.

Respectfully submitted,

F. E. BAKER,

Town Clerk.

Report of the Superintendent of Schools

To the Superintending School Committee and Citizens of Orrington:

I herewith submit my third annual report of the schools.

The year has been one of adjustment. The change in organization put into operation last year has been a decided improvement. The results obtained are very gratifying. The greatest degree of efficiency could not be expected the first year. Many minor improvements are anticipated this year in order to make a more perfect system. Orrington is now keeping pace with other towns of the state. Last year there were three hundred twenty-four consolidated schools in Maine and a total of 10,564 pupils were conveyed. This number will steadily increase as the highways improve.

The Swett's Pond school was closed and the children are being conveyed to South Orrington. There are only six buildings now being used for school purposes. These should be made to meet all of the requirements of a modern school building.

TEACHERS

There were six new teachers at the opening of school in September. It is very undesirable to have the teaching staff change so often. This is due largely to the salaries. A sliding scale of salaries with a minimum of \$19. and a maximum of \$25. for the largest schools would have a tendency to hold the trained teachers for three or four years at least. The present teachers are especially well qualified and are obtaining excellent results. The scholastic standing of the schools is improving each year.

SCHOOL ACTIVITIES

Nearly every school has an active School Improvement League. Thru these leagues the schools have purchased reference books, victrola records, primary musical instruments and other school equipment.

Hot lunches are being served at the schools where a number remain for their noon lunch. These lunches will be increased as soon as suitable equipment can be purchased. It is a pleasure to report that many of the parents are cooperating with the teachers in providing material for the lunches.

At the North Orrington School the Brewer Savings Bank has started the school banking system. I am unable at this time to give the exact amount deposited by the children of this school but it was a very creditable amount at the last report given me. This system should be in every school, in order that the children may be taught thrift also become better acquainted with the banking system.

HEALTH

Our health program is gradually improving. The children, thru their hygiene lessons, talks by the teachers, and Crusade work, are taught to live properly so that they may be physically fit to perform their lifes work. This year Dr. Russell was employed to act as School Physician. The plan was to have every child examined during the fall term but due to the epidemics of whooping cough and measles, a number of the children have been absent, so a complete examination has not been made. His services was very valuable in checking the scarlet fever last spring also the two epedemics mentioned. Another year we plan to have a complete record of the health of every child providing the town votes to employ a school physician. The majority of towns and cities realizing the importance of the health work, raise annually a sum of money for this purpose.

REPAIRS

The repair Program outlined last year has been carried on. The building at South Orrington was painted on the exterior and interior, electric lights installed, new outside doors and steps purchased. It still needs hard wood floors.

The buildings at the Center and East Orrington were painted on the interior, which adds greatly to the attractiveness of the rooms. New steps were built at the Center and the foundation of the building repaired. It will be necessary to build new toilets and walks here before September. The foundation of the East Orrington building will have to be repaired during the coming summer vacation.

If the school at the Corner is to be continued the building ought to be painted and papered on the interior, toilets built, new doors and some new windows.

FINANCES

As is shown in the financial statement, there is a small balance in each account. One high school tuition bill for the Winter term was not received before the closing of the accounts. This bill should have been included in this years expenditures, thus making an overdraft of about \$500. in the school account.

We received \$482. from the State Equalization fund, which enable us to pay last years overdraft in the Repair account. This overdraft was caused by the purchasing of the conveyance bus.
