

Bangor July 6 1861
Dear Sir

This is a consideration which I intended to mention in my letter of this morning. The expenses of Camp Equipments, should I not receive the appointment of Brigadier Surgeon & Dr. Allen resign his position in a week or so, then such preparations as I may make for Camp life will be on my hands, & I will thereby incur an expense which I am not well able to afford to bear. What are your views and intentions in regard to this consideration?

The amt. due me from the State for services rendered the troops in Bangor will be acceptable at this time very truly
Yours respectfully
G. M. Beebe
