**Population Growth Slows as  
 Migration Patterns Change**

**B**etween 2000 and 2008 all of the New England states recorded population growth, with Maine ranking second in New England at 3.3 percent. Population gains in Maine were largely dependent on net in-migration, as only about 30 percent of the total population gain was due to natural change. Maine and New Hampshire registered net domestic in-migration, with Connecticut, Massachusetts, Rhode Island, and Vermont all losing more people to other states than they gained. While Connecticut and Vermont managed to record total net in-migration due to net international in-migration, Massachusetts and Rhode Island experienced total net out-migration despite gaining more people than they lost to other countries.

**B**etween 2007 and 2008 the New England states, with the exception of Rhode Island, recorded population gains ranging from 0.1 percent in Vermont and Maine to 0.5 percent in Massachusetts. These growth rates fell well below the national population increase of 0.9. The lower rates of population growth in the New England states were due in large part to net out-migration. Between 2007 and 2008 more people left than entered all of the New England states, with the exception of Massachusetts.

Population growth in Maine has slowed significantly during the course of this decade. The Census Bureau estimated that the Maine population increased by 9,900 between 2000 and 2001, with dwindling over-the-year gains to the current estimated increase of 1,058 between 2007 and 2008.

The slowdown in population growth in Maine between 2000 and 2008 was due to a declining level of net in-migration. Preliminary data (not reconciled to revised totals) shows that, between 2000 and 2001, the Census Bureau estimated that Maine had a net in-migration of 11,000; the estimate for 2007 to 2008 was a net out-migration of 1,407. While net in-migration from outside of the country remained consistent (600 to 1,000 each year), migration to and from other states went from a net in of 10,100 between 2000 and 2001 to a net out of 2,063 between 2007 and 2008.

<sup>1</sup> Civilian labor force, employed, and unemployed estimates are by place of residence. Current year estimates are preliminary; year-ago estimates are revised. Items may not add due to rounding. All data exclude members of the Armed Forces.

<sup>2</sup> Total employment includes nonfarm wage and salary workers, agricultural workers, unpaid family workers, domestics, the self employed, and workers involved in labor disputes.

<sup>3</sup> People are classified as unemployed, regardless of their eligibility for unemployment benefits or public assistance, if they meet all of the following criteria: 1) they were not employed during the survey week; 2) they were available for work at that time; and 3) they made specific efforts to find employment some time during the prior four weeks. Persons laid off from their former jobs and awaiting recall and those expecting to report to a job within 30 days need not be looking for work to be counted as unemployed.

<sup>4</sup> The unemployment rate is calculated by dividing the total number of unemployed by the total civilian labor force and is expressed as a percent.

<sup>5</sup> Bangor; Lewiston-Auburn; Portland-South Portland-Biddeford; Portsmouth, NH-ME; and Rochester-Dover, NH-ME are Metropolitan Statistical Areas. Augusta, Brunswick, Rockland, Sanford, and Waterville are Micropolitan Statistical Areas.

<sup>6</sup> Adjacent metropolitan and/or micropolitan statistical areas that have a specific level of economic integration, but still retain separate identities.

<sup>7</sup> Maine portion of the area which includes towns in both Maine and New Hampshire.

### Regional News

#### Western Maine

A new restaurant, **Nick's Whistle Stop**, opened in Pittsfield on December 21 and employs 20 people. ♦ Thirty temporary employees of **General Electric Security** in Pittsfield will be laid off due to a slowdown in orders. GE employs 480 people in Pittsfield. ♦ The **Wausau Paper** mill in Jay will bring back 100 workers temporarily laid off due to the downturn in the specialty paper market.

#### Central Maine

**Dennison Lubricants** moved into the Libby Hill Business Park on December 12. The company currently employs 12 people and is looking to add seven more to the new facilities. ♦ The **Eastern Mountain Sports** store in Augusta will close by the end of January, laying off 10 employees. Thirty employees were laid off from **Infrastructure Security**, a subsidiary of General Electric, due to a drop in demand for fire alarm systems. Approximately 480 people are employed at two manufacturing locations in Pittsfield. ♦ **Pioneer Plastics** of Auburn cut its workforce by 16 percent, laying off 48 of its 300 employees due to the troubles in the housing industry.

#### Southern Maine

**Borealis Breads** opened a new bistro in Portland on December 16. The new bistro will create 18 full- and part-time jobs. ♦ **Fairchild Semiconductor** will be reducing its global workforce by 12%, roughly 1,100 workers, due to the slowdown in consumer spending. The company is offering voluntary severance packages for its workers and shut down all operations for two weeks over the holidays. It is unknown how many layoffs will be in Maine. ♦ **Office Depot** is closing its store at the Maine Mall in South Portland. ♦ **Tweeter** abruptly closed its 70 stores and laid off 600 people nationwide on December 2. The company had previously filed for bankruptcy protection in early November. Roughly 15 people were put out of work in Maine.

#### North/East Maine

**Union River Boats** in Bucksport and **Lyman Morse Boatbuilding Co.** in Thomaston are planning to split a \$1.25 million investment in a joint venture that could produce as many as 100 boats a year for an unnamed customer, with the project beginning sometime in 2009. ♦ **Office Depot** will close about nine percent of its North American stores including their store on Stillwater Avenue in Bangor. ♦ **Northeastern Log Homes** announced it will furlough a dozen production facility employees in January and part of February. ♦ **ZF Lemforder** laid off 45 employees at its Brewer plant for three to four weeks. A spokesman for the ZF Group in Northville, Mich., said the layoffs were precipitated by General Motors and Mercedes shutdowns.

#### Coastal Maine

The **U.S. Navy** will be creating up to 90 new civilian jobs at four military installations in Maine. The new jobs will be located at the Portsmouth Naval Shipyard, Brunswick Naval Air Station, and Cutler and Prospect Harbor. ♦ **Port-in-a-Storm** bookstore in Somesville will be closing on January 18, 2009. The store is closing primarily due to changes in the retail bookselling and publishing business. Five part-time workers currently operate the store. ♦ The **Samoset Resort** in Rockport will be closing its two restaurants for much of the winter. The restaurants will keep Marcel's open for Sunday brunch and the Café will open occasionally due to business levels. An unknown number of workers will be laid off.

## Maine Unemployment Rate 6.3 Percent in November

State Labor Commissioner Laura Fortman announced that the preliminary seasonally-adjusted November unemployment rate for Maine was 6.3 percent, up from 5.7 percent for October and 4.9 percent for November 2007. The national unemployment rate was 6.7 percent for November, up from 6.5 percent for October and 4.9 percent for November 2007.

"Maine labor market conditions weakened considerably in November as the national recession deepened," Fortman said. "The number of nonfarm wage and salary jobs in Maine dropped by 2,400 between October and November, with the most substantial declines reported by the retail trade and manufacturing industries."

Fortman cautioned that due to heavy call volumes it is taking workers longer to get through to file unemployment claims by phone. "Responding to the increased need for additional workers to process claims, Governor Baldacci has approved the hiring of 18 additional positions to handle the increased workload," said Fortman. "We are encouraging workers to file their initial or weekly claims online at [www.file4ui.com](http://www.file4ui.com), or by calling in their weekly claims through our Interactive Voice Response System which is available 24 hours 7 days a week by calling toll-free: 1-800-593-7660.

The net loss of 2,400 seasonally-adjusted nonfarm wage and salary jobs between October and November contributed to a decline of 7,100 jobs over the past year. Between November 2007 and November 2008, job losses were registered in trade, transportation, and utilities; construction; financial activities; leisure and hospitality services; government; manufacturing;

and information. Partially offsetting these losses, job gains were recorded in educational and health services and professional and business services.

Other New England states reporting a seasonally-adjusted unemployment rate for November include New Hampshire, 4.3 percent; Massachusetts, 5.9 percent; and Connecticut, xxx percent. The adjusted national rate for November was 6.7 percent, up from 6.5 percent for October and 4.7 percent for November 2007.

The not-seasonally-adjusted Maine unemployment rate for November was 6.2 percent, up from 5.2 percent for October and 4.7 percent for November 2007. The unadjusted national rate was 6.5 percent for November, up from 6.1 percent for October and 4.5 percent for November 2007. Not-seasonally-adjusted November unemployment rates for Maine counties ranged from 4.8 percent for Cumberland County to 10.8 percent for Piscataquis County.

The number of not-seasonally-adjusted nonfarm wage and salary jobs in Maine declined by 4,700 between October and November. The largest job loss was recorded by leisure and hospitality services as the tourist season wound down from its summer peak. A larger than normal seasonal loss was recorded by construction. Partially offsetting job losses, retail trade establishments geared up (although the increase was less than normal) for the holidays and local governments added jobs due to temporary hiring for elections.

<sup>1</sup> Hours worked and earnings data are computed based on payroll figures for the week including the 12th of the month for manufacturing production workers. Average hourly earnings are calculated on a gross basis, and include such factors as premium pay for overtime and shift differential, as well as changes in basic hourly and incentive rates of pay. Average weekly earnings are the product of weekly hours worked and hourly earnings.

Footnotes: From page 6.

<sup>1</sup> Nonfarm wage and salary employment estimates include all full- and part-time wage and salary workers who worked during or received pay for the pay period which includes the 12th of the month. Domestic workers in private households, proprietors, the self-employed, and unpaid family workers are excluded. Estimates measure the number of jobs by industry. Current month's estimates are preliminary; prior month and year-ago estimates are revised. These estimates are benchmarked to March 2007. As a measure of reliability, the March 2007 benchmark revision for total nonfarm wage and salary employment was 0.05 percent higher than the original sample-based estimate.

<sup>2</sup> Regular teachers are included in summer months whether or not specifically paid in those months.
