Volunteer Fire Department Report

Meetings were held on the first Tuesday of each month, with an average attendance of 12 members present. There were 17 active due paying members in 1982. New members are always welcome.

Westport Fire Department members participated in the annual Maine Yankee drill in December and we received a very favorable rating from the Federal observers.

An Open House was held at the Fire House on August 29 with very poor attendance by the town's people. This was a disappointment to the Fire Dept. members, but we do wish to congratulate Edith Babb, who won the fire extinguisher, and Dana Cromwell, who won the smoke detector.

We are trying to save some money ahead toward insulating the Fire House in order to save on furnace oil. We also want to keep some in reserve for equipment purchases and repairs. We made no major purchases this past year.

Fire responded to in 1982 were: 1 structure fire, 4 chimney fires, and 1 vehicle fire. We have Chimfex for chimney fires on hand for sale. These are good to have in your home in case of a chimney fire.

Everyone is asked to remember that any outdoor burning, of any kind, at any time of year, now requires a burning permit. Contact Chief Llewellyn Delano at 882-7568 to obtain permits to burn.

We wish to thank everyone for the generous donation in response to our letters and to others who made donations and did things to help the department.

At this time we wish to honor the memory of one of our Firemen, Carroll Schroeder, who passed away suddenly on Novermber 16, 1982. Carroll was a very active member of the department and is greatly missed by everyone.

Virginia C. Anderson, Secretary

Superintendent of Schools Report

In this my second annual report to the citizens of School Union #48, I would like to briefly review the past year. The 1982-83 school year has been one of the busiest, yet most productive in my professional career. I want to first express my thanks to the people of Westport for theiir continued support. I am always available to any individual or group who may wish to offer suggestions which will improve the schools our children attend.

Two areas have dominated our efforts in great part.

First, a tremendous effort on the part of office staff, administrators and school committees has been made in order to institute a new budget format and comply with a state mandate. The new budget format, although more involved, will, I feel, provide you as citizens a clearer picture of where your tax dollars are being allocated. In an effort to bring the school department's bookkeeping procederes in line with this format and due to the increased work load, the School Union #48 School Committee included funds in the school union budget for a computer in the Superintendent's office. This will provide up-to-date financial data to administrators and provide for wise management of school funds.

Some specific comments regarding the Westport Budget. Once again we are ready to present the budget for town action at the March Town Meeting. This has been a well - received practice, and it is my hope it makes the operation of town government that much more efficient.

The total proposed school budget for 1983-84 is $128,582.43, a 7.8% increase over 1982-83 ($119,289.47). Due to a projected balance of $8,000.00 in the Common School Account, this represents a 2.9% increase in the tax commitment or a dollar amount of $3,292.96. The major increase in the budget is in the area of projected tuition cost. However, Wiscasset continues to charge one-half tuition, a savings to the Town of Westport of $94,585.00.

The Westport buses have been equipped with short-wave radios. This has been of great help in letting my office know the buses are not

in difficulty on bad traveling days. It also provides for the safety of all children who ride the Westport buses.

The second area of concentration has been that the Wiscasset School Committee has been working this past year diligently to revise current policies and develop new policies in an effort to provide residents of Wiscasset and the towns which tuition students to Wiscasset a comprehensive policy manual. This is a demonstration of leadership on the part of the Wiscasset School Committee and supports our continuing effort to foster excellence in the quality of education provided to the students entrusted to us.

We cannot do the job alone. To be successful, our schools must rely on help and support of parents, the business community and many other citizens. The community, on the other hand, needs quality schools in order to realize their goals.

When society must deal with various problems they inevitably "turn to the schools". Today our educational agenda is filled with important concerns ranging from providing education for the handicapped to helping students understand the new technology. It is important for you as citizens to understand the important role you can and must play if we are to provide excellence in education. Let's make high quality education a community decision. Then, let's work together to make it happen.

Respectfully submitted,
RANDALL COLLINS

Report to the Citizens

of Westport Island

As your state Representative to the Maine Legislature my first concern is to be available to hear your feelings on proposed legislation which may have a direct effect on Westport Island, and its residents. While the Legislature is in session, I can nearly always be reached by calling the House of Representatives at 289-2866, at my home, 882-7849 or at my office in Wiscasset, 882-5511. In addition, I will be available in Westport Island as often as my legislative schedule permits.

Time & Tide Resource Conservation & Development Area

It is with pleasure that we submit to you a report of the Time & Tide RC&D activities for 1982.

Time & Tide is a people's program. We are sponsored in part by the counties and directed by local people. We serve as a base for people to come together to plan and carry out projects relating to natural resources. We serve as facilitators to help towns and non-profit groups conserve, develop and improve our natural resources.

Our RC&D was selected for the third consecutive year as the outstanding RC&D area in New England. This recognition is due in part to the tremendous amount of volunteer service by local people and the dedication of the council members and staff.

Through cooperative efforts many things have been accomplished in the Mid Coast this past year. We believe no one person, organization or agency can take total credit, but with everyone working together doing a little bit, a lot was done.

Some of the projects we have been requested to assist with for 1983 include Belfast Park erosion, Bath recreation, forestry assistance, Camden Snow Bowl erosion, Boothbay recreation, Wiscasset Primary School, prime agricultural land identification, development of a soils and land use slide show, Rockland Bog, Dresden comprehensive plan, Liberty recreation development, Damariscotta recreation development, Cushing recreation, solid waste management, Waldoboro Public Landing, Vinalhaven tennis courts, Searsmont comprehensive plan, Islesboro shore erosion, Bowdoinham recreation area and State Prison Farm Utilization.

Any town can request assistance from the Time & Tide RC&D by contacting your local Soil & Water Conservation District or the Time & Tide RC&D office in Waldoboro.

We purchased a 30-minute documentary movie, "The Price of Abundance," which applies to our food as it pertains to agriculture. Any group wishing to use it should contact our office for details.

We have several resource committees involved in each of the

following topics: forest, soils and land use, energy, information, recreation, agriculture, fish and wildlife, and ocean. They are open to anyone interested in attending.

If you are interested and want to know more or to become part of the Time & Tide RC&D Program, please contact our office, Route #1, Waldoboro, ME 04572 or phone 832-5348.

Sincerely,
ANNE FAVREAU

Auditor's Report

Board of Selectmen
Town of Westport
Westport, Maine

We have examined the financial statements of the various funds of the Town of Westport for the year ended December 31, 1982, listed in the foregoing table of contents. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets, and accordingly a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial report.

In our opinion, the financial statements listed in the aforementioned table of contents present fairly the financial position of the Town of Westport at December 31, 1982, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The accompanying supplemental information is not necessary for a fair presentation of the financial statements, but is presented per statutory requirements and as additional analytical data. The information has been subjected to the tests and other auditing procedures applied in the examination of the financial statements mentioned above, and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

State Auditor

TOWN OF WESTPORT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1982

1. Summary of Significant Accounting Polices

The accounting policies of the Town of Westport conform to generally accepted accounting principles as applicable to governmental units.

A. Basis of Presentation

The accounts of the Town are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures. The various funds are grouped by type in the financial statements.

Governmental Funds

General Fund - The general fund is the general operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges and the capital improvement costs that are not paid through other funds.

Special Revenue Fund - Special revenue funds are used to account for revenues derived from specific taxes or other earmarked revenue sources, including federal revenue sharing funds.

Fiduciary Funds

Trust Funds - Trust funds are used to account for assets held in trust by the Town for others.

B. Basis of Accounting

The modified accrual basis of accounting is followed by the General, Special Revenue and Trust Funds. The modified accrual basis of accounting is defined as the basis of accounting under which expenditures are recorded as incurred and revenues are recorded when received in cash except for material and/or available revenues which are accrued to reflect properly the taxes levied and the revenues earned.

C. General Fixed Assets

The Town does not maintain a record of its general fixed assets. Expenditures for property and equipment are charged against departmental operations whenever such items are purchased.

2. Property Tax

The Town's property tax for the current year was levied September 16, 1982 on the assesed value listed as of April 1, 1982 for all real and personal property located in the Town. Taxes were due on November 1, 1982 and interest charged at the rate of 12% per year retroactive to September 16, 1982.

3. Deferred Credits

Deferred credits represent items received during the current accounting period but to be used as revenue in the subsequent year. These accounts were as follows at December 31, 1982:

Excise Taxes	$3,105.93
Tree Growth Tax	507.98
State Revenue Sharing	334.55
Veteran's Exemption	156.16
Business Inventory Tax	15.36
Total	$4,119.98

4. General Fund Budget

The Town operates on a net budget as compared with a gross budget. All revenues are not estimated, but are credited to the particular operating account. Certain revenues are dedicated for particular purposes by vote of the townspeople at the annual town meeting or at special town meetings.

At the annual town meeting, held in March of each year, the townspeople vote on various articles, on which, amounts for appropriations have been recommended by the Board of Selectmen and/or the Budget Committee.

5. Designated for Subsequent Years' Expenditures

Historically, the townspeople vote to carry certain departmental unexpended balances forward to the following year for expenditure. This is usually in lieu of additional appropriations in any particular account.

At December 31, 1982, the following operating account balances were carried forward:

General Government	$1,921.70
Protection	473.93

Highways and Bridges	1,650.00
Welfare	262.19
Education	9,136.48
Total	$13,444.30

6. Designated for Special Reserves

Special reserve accounts for various purposes have been established in the past by a vote of the townspeople. These funds were invested in savings accounts and a certificate of deposit at the year end.

7. General

A transfer from surplus and the use of excise tax revenue and federal revenue sharing funds for various current year operations were voter authorized at the annual town meeting. State revenue sharing funds, business inventory tax, tree growth tax and veterans' exemptions of $3,154.06, $22.95, $500.00 and $13.94 respectively were applied to reduce the 1982 tax levy.
