REPORT OF SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens of the
Town of Orrington:*

I have the honor to submit for your consideration my sixth annual report of the conditions and progress of the public schools.

This year has been one of steady growth rather than any one change in the school system. We are still using the six buildings for school purposes. Two, as previously reported, are in very poor condition and almost worthless for remodeling. With the improved roads and open winter roads, the conveyance is becoming far less difficult. Further consolidations will undoubtedly come about with these changes. There were only two new teachers at the opening of school in September. This is very encouraging, for formerly many of the teachers were not willing to stay longer than one year. The teaching conditions are gradually improving. Tangible results must be expected if these conditions continue. Miss Dorothy Miller succeeded Mrs. Florence Sweet at East Orrington. Miss Florence Cosman succeeded Miss Dorothy Grindle, who resigned to accept a junior high school position in Bucksport.

The increase in number of children conveyed on the River Road has caused rather a crowded condition on the bus. Some of the children have been obliged to stand for a short time. This overcrowded condition is only for the last mile of the route, so no child has any real hardship. Another year it will be advisable to purchase a new chassis and body, providing room for thirty children. A member of the State Department of Education has stated that the town would receive some money from the Equalization Fund for this purpose. The Committee has asked for a special appropriation of \$500.00 for a bus. The bus now in use has been run very economically. The average cost of upkeep and depreciation for a year is approximately \$140.00.

There is a constant increase in the amount paid for high school tuition. This year there are fifty-one students attending secondary schools. The tuition per student varies from \$75.00 to \$100.00 a year.

STATISTICS FOR YEAR ENDING JUNE 30, 1929

Number registered,	246
Average daily attendance,	198
Number teachers employed,	8
Number pupils conveyed,	100
Average salary of teachers, per week,	\$21.00
Number examined for sight and hearing,	234
Number found defective in sight,	10
Number found defective in hearing,	4

I wish to call your attention to the number of pupils registered, also average daily attendance. There is still need of more co-operation on the part of the parents. A child should be in school every day unless sick or excused by school authorities.

I wish to express my appreciation of the coöperation and support of the Committee and teachers.

Respectfully submitted,

G. HERBERT JEWETT,

Superintendent of Schools.
