## Report of Superintendent of Schools

*To the Superintending School Committee and Citizens of Orrington:—*

I hereby submit my annual report of the public schools of Orrington for the year ending February 1, 1930.

First I wish to call your attention to few of the important statistics so that you may know the number of children in our schools, also the number attending high school outside of the town.

Number of children registered Fall 1930 . . . . .	265
Number registered, Fall 1929 . . . . .	243
Number students attending a high school—Fall term 1930 . . . . .	65
Number students attending a high school, Fall term 1929 . . . . .	51
Number children conveyed at the expense of the town . . . . .	109
Cost per pupil for conveyance, per year . . . . .	\$15.37
Length of school year . . . . .	36 weeks
Maximum weekly salary of teachers . . . . .	\$25.00
Minimum weekly salary of teachers . . . . .	\$17.00
Cost of schools per pupil per year in elementary grades . . . . .	\$36.09
School rate . . . . .	.0155
Number of children examined for sight . . . . .	236
Number found defective . . . . .	6
Number of children examined for hearing . . . . .	236
Number found defective . . . . .	2

The increase in number of children in the elementary schools has necessarily increased the expenses. Several new desks besides books and supplies had to be purchased. This extra cost

with the extra tuition paid for those attending high school has necessitated an overdraft in the school account for the first time during my administration.

### TEACHERS

Schools opened in September with only two new teachers. Mr. Lester Gray of Castine succeeded Mr. William Hall at South Orrington; and Miss Helen Ayer succeeded Miss Agatha Dyer at North Orrington; Mrs. Mabel Gowen was transferred to the Center. At the close of the Fall term Mrs. Edna Weeks resigned as teacher of the Corner School and Mrs. Geraldine Keating was engaged to fill this vacancy. The new teachers are all normal school graduates.

One of the urgent needs of our schools is a music supervisor. At present the only music being taught is by the class room teacher. With a few exceptions the teachers are not trained in this special work, therefore, are unable to teach it efficiently. A plan can be worked out for one teacher to supervise the music in three or four towns. Thus, the expense to any one town is very small.

### CONVEYANCE

A new and larger bus was purchased for the River Road. This is built to seat thirty-five conveniently altho a larger number of the small children can be conveyed without any discomfort. Your attention is called to the special report on the cost and State aid of this bus.

The old bus is being used on the Sweet's Pond route. There is a constant demand for increased conveyance and as the roads improve this problem will be less difficult. A system of boy patrol is used to protect the children while crossing the road from the bus to their homes. This is working out very efficiently and ought to eliminate all accidents.

## REPAIRS

The most extensive repairs were made at the Center. This building was painted both on the exterior and interior. The interior walls were papered and an oak floor laid. The building is now attractive and in good condition, meeting the State requirements in all respects with the exception of the heating and ventilating.

The building at South Orrington presents the greatest problem with the large number now attending that school. At one time this year fifty-four small children were crowded into the small primary room, which is suitable for only twenty-five. This number is likely to increase rather than decrease another year. A teacher cannot handle four grades efficiently under such conditions. The first grade alone had twenty children just beginning school which is about all one teacher ought to have.

The chemical toilets are inadequate for such a number and have been very unsatisfactory. This is also true of the jacketed box stoves. The building needs a basement for a proper heating system and for the toilets. This cannot be done where the building is now located without involving a great expense for a ledge of rock comes to the surface under the entire building. The most feasible plan is to purchase land nearby and move the present building, remodeling it into a three room building.

This condition will have a serious effect upon the progress of the children, which will be even more noticeable another year if allowed to continue. The plan as outlined a few years ago called for the remodeling of this building as soon as the loan on the other building was paid. This is out of the question with the existing conditions and something should be done before the opening of school next September.

In closing I wish to express my appreciation of the continued support of the Committee, the teachers and the community.

Respectfully submitted,

G. HERBERT JEWETT,  
Superintendent of Schools.

### DAD TO HIS SON

My son, remember you have to work. Whether you handle pick or wheelbarrow or a set of books, digging ditches or editing a newspaper, ringing an auction bell or writing funny things, you must work. Don't be afraid of killing yourself by overworking on the sunny side of thirty. Men die sometimes, but it is because they quit at nine p. m. and don't go home until two a. m. It's the intervals that kill, my son. The work gives you appetite for your meals; it lends solidity to your slumber; it gives you a perfect appreciation of a holiday. There are young men who do not work, but the country is not proud of them. It does not even know their names; it only speaks of them as old So-and So's boys. Nobody likes them; the great, busy world doesn't know they are here. So find out what you want to be and do. Take off your coat and make dust in the world. The busier you are; the less harm you are apt to get into, the sweeter will be your sleep, the brighter your holidays, and the better satisfied the whole world will be with you.
