TENANTS HARBOR—Severely damaged by lightning June 16 the Tenants Harbor Baptist Church is being repaired and the members of the church are uniting to raise funds to cover the many expenses that insurance will not cover. Church members are also happy to receive donations.

The members of the church wish to thank the many who are helping, the Martinsville Grange for offering its hall for any money-raising projects, Harland Priestly of Port Clyde, electrician, who has volunteered his help with electrical service, the boys and girls of the St. George school district who worked to clean up the debris inside and outside the church the morning after the storm, and the many friends who have inquired concerning donations to help with repairs to the church building.

## Islands To Vie With Thomaston For Coastal Area's Biggest Celebration Of The Fourth Of July On Monday

Thomaston, Vinalhaven, Islesboro and Camden will have 4th of July celebrations going all during the holiday and, in the case of Thomaston, for several days before. The observance there started Thursday night as a carnival opened which will continue through the 4th.

Sunday night on the Mall the Camden Legion Band will play a concert and on the 4th a big parade, led by Governor John H. Reed is scheduled to start at 12:30 in the afternoon, to be followed by a ball game between St. George and the Thomaston Clippers. Monday night the celebration will end with the traditional fireworks display.

Among features of the big parade will be the Maine Maritime Academy band and drill team, Camden Legion Band, and Camden by The Sea Drum and Bugle Corps, as well as the famous Old Crow Indian band from Farmington.

The observance of the holiday on Vinalhaven takes the form of a tag day for the benefit of the Vinalhaven Health Council. A parade will be held, along with games of various kinds, and booths where food, candy, fancy work, and the like may be purchased.

Ruling over the Vinalhaven celebration will be Miss Georgianna Hansen who will be crowned Queen of the celebration at the Ball Saturday night. She will ride in the parade on a special float on the 4th, surrounded by her Court. She also will be one of the contestants for the title of Maine Sea Goddess at the Maine Seafoods Festival in Rockland in August.

On Islesboro an all day celebration is also planned with rides of all kinds available, from surveys to planes, along with boat trips around the islands. A water skiing team from Brewer will give periodic exhibitions during the day and evening. In the evening square dance exhibitions will be held followed by general dancing and concluding the festivities will be a huge bonfire on the beach, along with a mammoth fireworks display.

At Camden the practice of having a fireworks display will be resumed after a lapse of a couple of years and some \$600 has been raised for this purpose. The display will start promptly at 9:30 with an aerial bomb touching off the festivities.

It is announced that the ferries to Vinalhaven and Islesboro will make several special trips on the Fourth to accommodate visitors from the mainland.

# Gov. Reed To Toss Out First Ball In Fourth Of July Tilt On Styvie Hill In Thomaston

THOMASTON—The St. George at Thomaston Twilight League game here on the afternoon of the Fourth will have at least one distinguished fan in the person of Maine Gov. John Reed. Thomaston manager Harold "Mike" Quinn says that the Governor will throw out the first ball and will stay to view the game.

Starting time has been set at 3:30, as the Governor will first serve as marshal for the big parade in Thomaston which is scheduled to begin at 12:30. State Senator Carl Silphen of Rockland will accompany the Governor to the game, Quinn said.

The Knox-Lincoln Twilight League takes over the sport spotlight generally during the holiday weekend with three other

games scheduled. Also playing on the Fourth will be league leading Damariscotta at Waldoboro while on Sunday Thomaston visits Waldoboro and Damariscotta is at St. George.

With the Babe Ruth and Little League teams idle over the weekend the only other sports activity in the area is the weekend tourney at the Rockland Golf Club and qualifying rounds for the Bob Allen Memorial Cup there.

In the first 47 games this year Twilight League teams had a total of 51 homers in an amazing long ball outburst. The league leading Damariscotta Redlegs were setting the long ball pace with 23; Thomaston had 15; Waldoboro 10; and St. George only 3.

# Owls Head Library Group Elects, Hears Report Of Busy And Fruitful Year

OWLS HEAD—At the annual meeting of the Owls Head Library Association held at the Library and Community House on Monday, officers elected for the coming year were: Mrs. Edna Wotton, president; Mrs. Eleanor Glover, vice president; Mrs. Kay Philbrook, secretary and treasurer; Miss Beryl Borgerson, Russell Woodman and Wendell Leadbetter, trustees; Mrs. Emily Adams, Winfield Maddocks and Mrs. Grace Casanova, honorary trustees.

Librarian Miss Winifred Fitch, in her annual report, said that during the winter the library was kept open every Saturday from 2 to 4, with the assistance of Mrs. Edna Wotton, Mrs. Eleanor Glover, and Mrs. Ella Gatcombe. Business was even greater than usual, because, thanks to an up-to-date collection of juvenile books, an increasing number of young, and

very young, people crowd the library each Saturday afternoon.

These books and those for adult readers come to the library all through the year from summer residents in Ash Point and Owls Head and others from out of town: Miss Martha Henshaw, Miss Lulu Granniss, Miss Arlene Plummer, Miss Lucille Stewart, Mrs. Grace Casanova, Miss Ruth Morris, Miss Mary Wotton, Mrs. Greene, Mrs. Sullivan, Mrs. Paul Mundt, Mrs. Hope Osborne, and All Saints Episcopal Church Periodical Club of Worcester, Mass. Local contributors were Mrs. F. M. Faber, Mrs. Ruth Lawrence Bird, Mrs. Kendall Bass, Mrs. Rodney Weeks, Mrs. Louise Jones, Mrs. Flora Hary, Mrs. Lawson Small, Miss Jill Farrell.

As always repairs are necessary, and new shelves continue to be built to hold the growing collection. In spite of the many gifts the board decided to make an additional purchase of juvenile and teen-age books in response to the increasing demand. There will also be a food sale on Saturday, July 9. # Camden Takes Firm Grip On Linnox Sunberth

## BE READY TO DODGE

The next three days on the Maine highways are going to be hazardous at the best as travelers move into the area by the thousands and our own people take to the road to visit over the long weekend. It is no use at all to remind the reckless driver that he endangers others. So, the only thing to be said to the careful drivers is — be ready to dodge.

## PROGRESS BEING MADE

Congratulations to the city fathers and their assistants on the improving of the parking lot in back of the Masonic Temple with a leveling and a coat of tar. May the improvements continue as planned to the point where we can offer visitors and shoppers adequate room to park. The Chamber of Commerce is pressing for added parking space and receiving attention at City Hall which is a good indication that something may come of it before the summer is out.

## CHAMBER ROLLING AGAIN

The Chamber of Commerce office at the Public Landing is on a new summer schedule, which will keep the information center open all days for the convenience of tourists. The promotional group has revived its monthly luncheons and contributed to the cost of directional signs which the Junior Chamber of Commerce is erecting at three approaches to the city. President Paul Huber has put the Chamber on a more firm financial basis and Secretary Charles Kalloch is moving ahead with a promotional and public service pattern which should be beneficial to the community.

that all "Y" employees may spend the holiday with their families.

## Musical Notes

Hugh M. Benner

The Medleys to appear in Rockland August 10

Hugh M. Benner, president of Knox County Concert Association, announces on the evening of Aug. 10, that the Medleys, duo-pianists, will be presented in concert at the Rockland Community Building, proceeds to benefit the Concert Fund.

Friendliness and charm, along with their exceptional musical abilities, and their endless desire for perfection, all go together to make The Medleys (it's their real name) one of the outstanding two-piano teams in the nation.

One critic claimed, "Not only are they the best looking virtuosos in the two-piano field, but they have that extra something—a connubial bliss as they play, that gives off sparks that fire to the romantic part of everybody's soul."

They have played in nearly 300 cities and towns throughout the United States and Canada, and in this, their fifth season, they played 119 concerts which surely is a world's record tour for piano recitalists.

Bill and Pat both have rich musical backgrounds. They received their Bachelor of Music Degrees with high honors, and their Master of Music Degrees

with straight A grades from the University of Tulsa, Okla. They have been artists-in-residence on two college faculties.

The handsome young pair bring their own pianos (valued at \$12,000) in a trailer especially built for moving them. They have a hilltop home in the scenic Ozark Mountains of Arkansas where they spend their summers and holidays practicing and relaxing.

They have played two-piano concerts since shortly after their marriage, scoring heavily wherever they appear. Critics describe them as "the musical find of a decade."

For several weeks during the past few summers Bill and Pat have studied with the eminent Luboshutz and Nemenoff at their Twin Keys Studio in Rockport. They will again be in Rockport this summer for a few weeks, and it is while they are here that Mr. Benner has made arrangements for them to give a concert locally.

Watch The Courier-Gazette for ads in regards to tickets, reservations, etc. Set aside the evening of Aug. 10, for a musical treat that you will not want to miss.

## THE CHURCH FOR ALL

ALL FOR THE CHURCH  
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

| Day       | Book       | Chapter | Verses |
|-----------|------------|---------|--------|
| Sunday    | Galatians  | 5       | 12-14  |
| Monday    | Psalm      | 36      | 7-9    |
| Tuesday   | 1 Timothy  | 2       | 19     |
| Wednesday | Psalm      | 107     | 28-31  |
| Thursday  | Revelation | 2       | 12-18  |
| Friday    | Luke       | 1       | 77-79  |
| Saturday  | Psalm      | 89      | 5-8    |

Everyone recognizes the great Lady standing in New York harbor holding her flaming torch. She welcomes the tired, the poor, the homeless, to this land of freedom. She symbolizes hope.

Back of the Lady, back of the welcome, stands the Church. The words on the statue do not mention the Church, and many of us do not realize the role it plays, but the Church inspired the principles on which our nation was built. It is the spirit of Christianity which extends the welcome to our shores and makes our nation a haven.

On the anniversary of our independence, we are proud of our freedom and opportunity and hope.

No statue with flaming torch stands at the door of the Church. But the Church is the real guardian of our heritage.

Strengthen your nation and yourself. Join the Church.

# Knox County Farm News . . .

## County Agent's Corner

Dear Farmer:

The week of June 20 was spent at University of Maine. Although the primary purpose of the conference was to work on the 1961 program, we heard reports on the White House Conference for Youth and Education, from the Wisconsin Extension Director, U. of M. President Elliott, and spent a day in discussion of the Scope report. The Scope report deals with the areas in which Extension will work, as differentiated from the Agricultural agencies. A detailed Scope report was studied with respect to local (county and community) activities.

I will plan to have articles from time to time on the program after it has been approved by the County Extension Executive Committee. However, here are a few highlights of what will be proposed to the committee.

First, we would like to forward our work in Farm Business Accounts. This will include central processing of Dairy Herd Records and Poultry Production Records. We would like to try to set up a program, within a year, that will bring together our Poultry Farm Accounts with our Production Records and put them all through electronic calculating machines so poultry farm records will be calculated as a unit.

Vegetables will find that we will be spending more time with them than we have spent in the past three or four years. We will be working with green houses, too, and will set this work up so it will be interesting to florists and those with home green houses. There is certainly an opportunity, in this area, for summer sales of vegetables from roadside markets.

Forages will find us emphasizing a chemical analysis of hays and silages so we can more nearly know what to feed our cattle. This program will be increased from about 15 check samples last year, to 100 real samples this year.

A new title this year will be "Understand Poultry Industry Public Policy Issues". We will start with one meeting to discuss, in general, the various issues and solutions facing the industry. If the poultrymen so desire, we will then hold follow-up meetings to discuss certain of these issues in detail. And, we will detail these and other suggested projects in future County Agent's Corners.

Sincerely,  
Gil Jaeger,  
County Agent

## K-L Dairymen Tour State Prison Farm

Photo by Jaeger

WARREN—Sixteen dairymen visited the Maine State Prison Farm last Tuesday. This was one of the regular Cooperation Extension Service monthly dairy meetings. After visiting the piggery, the first stop on the tour was the dairy barn with an inspection of the sheds being used for loose housing. The group then visited the beef herd being used to improve the efficiency of producing beef for institutional use. The men also inspected crossbred calves and heifers from Holstein cows and the Short-horn bulls. Along with this was a tour of the forage production areas on the farm. After refreshments, Farm Manager Otto Irvine discussed the history of the prison farm, and a general discussion followed as to why there is a prison farm and how it affects the community. The next meeting, according to County Agent Gil Jaeger, will be at Eben Haggett's in Damariscotta Mills.

## Notes of A Poultryman

By Henry Teague

Why didn't the table egg market advance this past week? That is the question that every egg farmer is asking at the present time and it is time we had a straight answer. We have been told repeatedly that we could expect prices to advance by the latter part of June and continue an upward trend that would put egg producers back in the profit column for a few months at least.

The story on fowl prices is not very cheerful either. The market was very good for a while this spring but that is all over for the current price is not over 14 cents and none of the buyers seem very anxious to buy fowl at the present moment.

The situation is certainly deadly serious, for time is running out on a lot of independent poultrymen. When you get to thinking about the situation, it just does not seem possible any industry as basic as the egg industry could bring ruin to so many persons in the midst of the most prosperous times in the history of this country.

Is the problem impossible to solve? It is hard to believe that there is no man or group of men capable enough to come up with a solution. About the best that USDA has offered thus far is a program for purchasing dried eggs. How much this helps us is questionable. Congress has certainly sidestepped the poultry problem and some members of this powerful body were little short of rude to some poultrymen who went to Washington to attend hearings.

Two important mergers in the poultry industry have been announced. Arbor Acres Farm, Inc., and Nichols, Inc., will operate as a single firm and J. J. Warren and the Darby Leghorn Farm have joined forces.

were Sally Field, Richard Wall, John Morse, Mrs. Meta Holley and Mrs. Marion Percy. Mrs. Hattie Tibbetts was at the piano for the evening. The Harvest March was presented by members of Owls Head Grange.

## Wool Incentive Payment Rate Set At \$43.20

ORONO—Maine wool growers will receive wool incentive payments of \$43.20 for every \$100 they received from the sale of shorn wool during the 1959 marketing year. So announces Lawrence A. Chatto, state administration officer for the Maine Administration Stabilization and Conservation State Committee.

The rate of 43.2 percent has just been announced by the U. S. Department of Agriculture. This represents the amount needed to bring average wool prices up to the previously announced incentive level of 62 cents per pound under the National Wool Act.

The payment rate on sales of lambs that have never been shorn to compensate for the wool on them will be 75 cents per hundredweight of live animals sold. This payment is designed to discourage unusual shearing of lambs before marketing.

Chatto said that County ASC offices will begin making payments soon after July 1. Applications for the payments had to be filed by April 30, and covered marketings from April 1, 1959 through March 31, 1960.

To determine the wool incentive payment for an individual producer, Chatto explained, the rate of 43.2 percent is applied to the dollar return the producer received for wool after paying marketing charges. This method of payment is designed to encourage producers to do a good job of marketing their wool. The producer who gets the best possible price for his wool also gets a higher incentive payment.

The wool incentive program was authorized by the National Wool Act of 1954. Chatto further explained. Legislation originally provided for a program during the 1955 through 1958 marketing years but was extended in 1958 to continue through the 1959, 1960 and 1961 marketing years. The Act directs the Secretary of Agriculture to support the price of shorn wool at an incentive level he finds necessary to encourage an annual production of 300 million pounds of shorn wool. The Act limits the cumulative payments to an amount equal to 70 percent of the duties collected on imports of wool and wool manufactures since Jan. 1, 1953.

Shorn wool production in 1959 continued to move upward, Chatto pointed out, and was almost seven percent more than in 1958. Although 1959 production of 257.2 million pounds is well below the 300-million pound annual production goal provided by the Wool Act, it was the largest yearly output since the 1946 clip. The 1960 clip is expected to be about four percent larger than 1959, or about 265 million pounds. For the third successive year, numbers of stock sheep on farms and ranches increased. Numbers on Jan. 1, 1960 were up three percent from a year earlier and were the largest since 1948.

## Entries In State Dairy Show Due By July 16

July 15 has been set as the deadline for entries in the adult and 4-H club divisions of the State Dairy Show to reach the Extension Service office at Orono. The show is scheduled for Saturday, July 30, at Windsor Fairgrounds.

Norman R. Ness, Extension dairyman, University of Maine, reported today that county 4-H club agents of the Extension Service have entry cards for the 4-H show. County agents and Dairy Herd Improvement Association supervisors have entry blanks for the adult show.

Nearly 600 of Maine's finest dairy animals are usually exhibited at the State Dairy Show. The public is invited to attend without charge. Refreshments are sold on the grounds.

An annual feature is the presentation to deserving 4-H club members of registered dairy calves from the bankers of Maine. Spectators also enjoy watching the outstanding judges type rate the animals. In the adult show, mature animals are judged on both type and production. In the 4-H show, the animals are judged on type alone, with 4-H members also competing in showmanship.

Something new this year will be the selection of a junior champion, senior champion, and grand champion for each breed. Plaques will be awarded for each grand champion animal.

Members of the State Dairy Show Committee are Theodore Russell of Sidney; Richard Lee, Ralph Prime, Kenneth Johnson, and Clayton Osgood, all of Augusta; John White of Auburn; Robert Pike of Cornish; Paul Dowe of Lewiston; Robert Nutter of Corinna; Hugh Briggs of Turner; Donald Jewett of Gardiner; George Millay of Richmond; Clifford Smith of Bangor; Walter Greenier of Caribou; Warren Voter of Farmington; Kenneth C. Lovejoy, Clinton Conant, and Norman Ness, all of Orono.

Beat Pony Express By Centuries: Early records tell of post-runners on foot and horseback operating over much of what is now China, in the 12th century, with individual runners often covering 250 to 300 miles per day, and using 300,000 horses, and thousands of men.

## July Dusting Of Blueberry Fields Is Vital

HOPE—July is an important month for dusting blueberries, points out Ralph C. Wentworth, of Hope, district agent in blueberries for the Cooperative Extension Service, University of Maine.

The blueberry maggot is one of the worst enemies of blueberries, says Wentworth. As soon as the first blueberries appear a dust should be applied. The recommended dust is 50-10-40 at the rate of six pounds per acre. If rain occurs within 48 hours, another dust should be applied. Growers should check the weather for several days before dusting.

If berries are going to the processor where they will be washed, another dust should be put on in 15 days. No berries should be dusted with the 50-10-40 dust within 15 days of harvesting, says the Extension agent.

Berries picked for the fresh market need a dust of malathion applied for the second dust. Growers who sell to the processors may use this same dust, if a third dust is necessary.

Malathion dust is applied at the rate of 15 to 20 pounds per acre. Follow instructions on the bag.

If there should be a late outbreak of flies that would require a late July or first of August dust of malathion, county agents will notify growers. Don't take chances of having berries condemned due to maggots, cautions Wentworth.

The other important dust in July is the one recommended for the black burn or for the new plants that have been growing this year. In order to keep these plants free of disease and insects while they are making new buds for next year's crop, a dust containing a fungicide and DDT is recommended. This may be applied at the rate of 15 to 20 pounds per acre.

Many blueberry growers are using this dust for their black burn. They report they get a better bloom and more fruit. If there are any questions about these two dusts, Wentworth suggests that growers check dust schedules or contact their county agents.

Don't worry about the things that troubled you yesterday—there will be new ones tomorrow.
