## OFFICE CHANGES

- Don't be surprised if you go to an office in the Harlow Building expecting to find a certain person and find someone else there instead. The office relocation project took place last week and things are sure to be confusing for a while. To help you out, the following is a list of the changes that have taken place. (There may still be changes taking place, but this list should be fairly accurate). Beginning with the Land Use Regulation Commission, Mark Dawson is now located on the fourth floor in Room 404, and Dan Prichard is on the fourth floor in Room 409...In Administrative Services and the Commissioner's Office, the following changes took place: Berthe Berube and Roscoe Sanborn moved to Room 305; Jo-Ann Choate and Paula LaFrance, Payroll, moved into Room 307, Roscoe and Berthe's old office; Donna Bilodeau moved up to the third floor from Public Lands and is in the same room as Jo-Ann and Paula. Donna can now be reached at 289-2211. Mike Cyr is now located in Room 415 on the fourth floor; Ken Spalding has moved up the fourth floor, joining Ellen Baum in Room 411; Dennis Doiron, Dick Dyer and Bob Crotty are still in Room 313. Changes in the Bureau of Forestry, second floor included: Jan Selser moved down to the 2nd floor to Room 212 where Tom Rumpf was; Tom has moved to Room 211, where Utilization & Marketing was; Peter Lammert, Bob Umberger, Anne Soucy (U&M), Jim McMullen and Dick Arbour have all moved over to the Trial Building and can now be reached at 289-3897. The Mapping Section, which includes Leslie Granger, Richard Bostwick and Seth Warren, is now located on the first floor, Rooms 103 and 105. They can be reached at 289-2791. Kris & Steve Oliveri have moved into Room 417 on the fourth floor (one room down from where Steve was located). If all of this sounds confusing to you, you're not alone, but things should be settled and back to normal before too long.

## CROSS COUNTRY SKI RACE

- Steve Oliveri, MFS, participated in the 18KM Caribou Bog Cross-Country Ski Race from Bangor to Old Town on February 11. Out of 400+ racers, Steve's team came in 2nd in the You Name It Category. Steve's time was 1:43 which put him in 67th place. Steve's team consisted of Gary Cole, CMP, Rob Crawford, Natural Resources Council, and Ray Owen, University of Maine at Orono.

## OUTDOORS IN MAINE

- Parks & Recreation color brochure "Outdoors in Maine" is now at the printers for its third reprint and should be available next month for distribution.

RIVER ACCESS - Joe Hardy, Consultant from Berwick, has been selected to  
& EASEMENT analyze the recreational opportunities on Maine's A & B  
PLAN rivers. The "River Access & Easement Plan" will outline  
the needs for access and campsites and protective easements  
as well as inventorying and evaluating the existing  
facilities on these rivers. This plan should be completed  
within a year.

LOGGING - The DOC's Bureau of Public Lands has leased 65 acres of  
MUSEUM Public Reserved Land in Dallas Plantation to the Rangeley  
Lakes Regional Logging Museum, a non-profit organization  
which plans to erect a museum there according to Rob Gardiner,  
BPL Director. Over 300 artifacts relating to the history  
of logging will be on display in the museum. These items  
date from the turn of the century to the present day, and  
consist of handtools, chainsaws, logging sleds, and tractors.  
Along with the museum, there will be a picnic site,  
interpretive lumbering trails, and cross-country ski trails  
for the public to enjoy. Plans are being formulated to  
begin work on the building with volunteer labor this summer.  
Lumber for the building is being donated by the Seven Islands  
Land Company and the James River Corporation. Tom Doak,  
Western Regional Manager for BPL, indicated that the agency  
will work with the museum president, Rodney Richards, to  
establish the area surrounding the museum as a demonstration  
area in forest management.

RETIREMENTS Roscoe Sanborn and Sybil Huard, Administrative Services, will  
both be ending 36 years of service to State government at  
the end of this month. Roscoe has worked most of the 36  
years for the Department of Conservation, starting with  
Parks & Recreation when it was a separate Department. Sybil  
has also worked most of the 36 years for DOC starting out  
with Forestry when it, too, was its own separate Department.  
Both Roscoe and Sybil began their State government careers  
with Accounts and Control. After 36 years of dedicated  
service, they both deserve to have happy and healthy retirement  
years. Best of luck to both of you! Vern Hutchinson,  
Maintenance Mechanic Foreman in Region F will also retire  
this month. Vern has worked for DOC for almost 21 years.  
There will be a retirement party on March 7, 1984. Ken  
Wiley, 645-4217, has details.

NEW - Seth Warren began work for the Maine Forest Service on  
EMPLOYEES February 21 as a Budworm Mapping Technician, replacing  
Eric Granger. Seth is formerly from Portland and will  
now be residing in Gardiner...Ellis Sprague has been hired  
as the Supervisor of the Maine Forest Nursery in Passadumkeag.  
He began work on February 15. Ellis was formerly the Supervisor  
of the University of Vermont Forest Nursery. He has several  
years experience operating computers and has extensive forest  
tree grafting experience. He has also published numerous  
scientific articles on forest herbicide application. Ellis  
resides in Orono. Welcome aboard!
