TOWN MANAGER'S REPORT

To the Honorable Town Council and Citizens of Old Orchard Beach:

I am honored to submit this letter for your review and consideration. Historically, the Town Manager's letter has focused on the events of the past fiscal year (July 1, 1989-June 30, 1990). While a quick review of the major events will be done, the main focus will be on the challenges that await the community during the year.

One of the most significant events, but, also least noticed, was the fact that the new charter officially was given life on the first day of the fiscal year. This document alters and redefines the way the Town shall govern itself.

During November, several key events occurred. The election saw a new council elected. The citizens also voted to eliminate the Public Safety Commission and create a Civil Service Commission. More than merely a name change, this move eliminated an elected political body from the day-to-day operations of the police, fire, and rescue departments. Under the new title of Civil Service Commission, the function of the group is to ensure that the process of hiring and firing is not done without equity and just cause.

In January, the long-term Town Manager, Jerome Plante, submitted his letter of resignation effective March 2, 1990. After serving fourteen years, his decision to vacate the office, started a period of political unrest in the community.

The spring was occupied by the recall election. This historical first had the largest turnout ever for a municipal election. While the results are part of history, the effects of the personal aspects of the election, will only heal with the passage of the sincere gestures of reconciliation.

During the year, several long-term employees left. Ed Townsend, Waste Water Treatment Plant Superintendent, Ray Martin, Treatment Plant Operator, and Ben Emery, Assessor, all retired. Collectively, this group represents over a half a century of dedicated service to the community. During the year, tragedy struck the community when Fire Chief Don Roy unexpectedly died. This loss was difficult to deal with. Marty Patrickus, Planner, left to change career paths. His impact on the community will be long lasting.

Looking towards the future of the community, many challenges and opportunities lie ahead. To a very large degree, the key to the future lies within the ability of the entire community stepping up to those challenges. The future also depends on the leadership during the next year. Too often, the real leaders of the community, end up not being those who participate in the affairs of the community. Realistically, a very small fraction of the people actually accept the leadership role. A slightly larger fraction will be the followers, with the vast majority deciding that they simply won't want to get involved. I challenge everyone in the Town to look at their role and examine if an adjustment needs to be made. In the time of troubled seas, the real leaders are those which abandon traditional roles, identify a plan of action and secure a positive future. Those that simply pull the ship into a safe port and await the storm to pass, are not real leaders.

Of all of the specific challenges, one of the toughest is the deficit. This has a great crippling effect on the community. A decision on the downtown project will need to be addressed shortly. A mechanism to capture the tourist dollar directly needs to be addressed. An aging infrastructure continues to need attention. A redefinition of the focus of the community is long overdue. These are just a small sample of the many issues that await the community. Certainly, none of these problems lend themselves to simple answers. Unfortunately, none of them will "blow over". As painful and politically tough as these are, an aggressive direct dealing with these are necessary.

Further, it can not go without mention, that which I believe is the greatest of the challenges which lie ahead. I am extremely concerned about the era of doubt and mistrust which the citizens

have for their government. While I am not questioning the reasons or validity for such beliefs, a government can not operate effectively under such pretense. I do not have the answer to this, but I am sure that only time and performance can rebuild the relationship.

As I finish the first of what I hope to be many annual letters, I wish to thank the Town Council for their support and confidence. I wish to thank the employees and the members of the various boards and committees. Your personal commitment to excellence can only strengthen the community. Norm Marquis deserves a special thanks for his service as acting Town Manager. A very special thanks needs to be given to Nan Leveris. Her often unseen contributions are great.

Finally, I wish to ask all of the citizens to be patient during the next year. Time has been said to be the curer of all wounds. In exchange for the patience, I pledge to give all that I am and all that I can be, as I pursue the utmost in excellence in myself, in the employees, and in the community.

Respectfully submitted,

James A. Bennett

TO THE CITIZENS OF OLD ORCHARD BEACH

Each year I begin my accounting to you with "It's impossible to realize that another year has passed", but, it really does seem impossible and 1989/1990 not only was busy but a difficult year.

The Charter which was adopted by the voters in 1988, effective July 1989, was amended by referen-

dum vote at the first annual municipal election held on November 7, 1989. These amendments to the newly adopted Charter abolished the elected Public Safety Commission and created a Civil Service Commission that would be composed of five members appointed by the Town Council (Yes, 1,479; No, 956); and repealed the Board of Assessment Review (Yes, 1, 688, No, 667); so that any appeal regarding taxes would not be heard on the local level, but by the State Board instead. A referendum to establish a tax increment finance district (TIFT) was also voted for in the affirmative. (Yes, 1,350; No, 1,169). A total of 2,597 votes were cast at this Annual Municipal and State Election.

The newly elected officials of the Town were sworn to their duties by the Town Clerk at the Inaugural Meeting on November 20, 1989. A term of two years was established by virtue of the new Charter and the terms are no longer staggered.

In March, five citizens of the Town constituted themselves a "Recall Committee" and presented a request for petitions to recall two of the elected Councilors. The Town Clerk worked 12 to 15 hours a day to certify two separate petitions containing 1,299 and 1,291 signatures (being 16 and 8 respectively more than the required number of 1,283)--hence the first recall election in the history of the town was ordered by the Town Council to be held on May 9, 1990. The number of voters was 2,371 and those whose recall was sought did not get recalled. (Yes, 582, No, 1,763 and Yes, 591, No, 1,756).

Just barely a month later, the State Primary Election brought 1,242 Democrat voters and 279 Republican voters to the polls.

Accolades to the Ballot Clerks for their willingness to do their part in the democratic process and for their tremendous help to me. The Board of Voter Registration is always cooperative and thanks are in order for them, as well as the Public Works Department, the Police Department and our school system, none of whom ever let me down. It is so very important for all of us to work well and with understanding of each other. Many thanks to each department.

Business revenue brought \$60,184 to our Town coffers. Herschel Bates, our License Inspector doesn't miss anyone and I don't know what I would do without him. Thank you Herschel for a super job each and every year.

The Ordinances which were amended during the year include changes to the Zoning Ordinance and map, the Traffic Ordinance (School Street, Goodwin and Portland Avenues) and the Solid Waste Flow Ordinance. The General Assistance and Electrical Code Ordinances were repealed and new documents adopted for compliance with State Laws. A new "Ordinance Governing Acceptance of Proposed Streets and Assessment of Costs" was also adopted. All were properly documented in the records of the Town by the Town Clerk.

Citizens, once again, many thanks for the kind and wonderful treatment that each of you gives to me. I am proud to serve each of you and grateful for your support.

Sincerely,

Maureen Mokarzel O'Leary
Town Clerk

INSPECTIONS DEPARTMENT ANNUAL REPORT

The following is a summary of the permit activity for the Fiscal Year-1989/1990

Building Permits issued	371	Fees	\$7,653.70
Construction Valuation	\$4,655,744.00		
Zoning Board Appeals	102

Electrical Permits	185	Fees	\$2,491.10
Plumbing and Electrical	936		
Pre-Licensing Inspections	340		
New Dwelling Unit Summary			
Single Family Dwellings	13		
Duplexes	1-2 Units		
Multi-Family	3-13 Units		

Reny Remillard
Plumbing Inspector
Electrical Inspector

Michael Nugent CMCA
Building Inspector
Code Enforcement Officer
Health Officer

TOWN REPORT

Town of Old Orchard Beach
Planning Board and Planning Department
July 1, 1989 - June 30, 1990

The Planning Board and Planning Department continued an active role dealing with both immediate development projects and long range matters. The year's highlights included approval of the TIF (Tax Incremental Financing) District and Economic Development Plan for the Downtown, passed both by the Town Council and the voters at referendum. Fiscal concerns resulted in revising the program work on the Old Orchard Street Pump Station slated as the first project. The Department entered into a contract agreement with the Department of Economic and Community Development for a Planning Grant of \$6,710 for pump station design work, and also received a letter of notification to proceed to Phase II in pursuit of a Community Development Block Grant, making the town one of only 20 communities chosen out of 60 applicants. If secured, the CDBG will help fund construction of the pump station as well as sewer and sidewalk work on Saco Avenue near the site of the proposed Town Plaza retail center.

Work also was virtually completed on the Smithwheel Corridor project, providing a much-needed reconstructed road, and sewer in a neighborhood which has become the focus of considerable development in recent years. An FmHa loan and grant facilitated that improvement.

Preparation of the Comprehensive Plan continued, well in advance of the state-mandated schedule, with the Committee and consultant having completed inventory and having started the preparation of goals, the latter having been the subject of two public forums.

The Planning Board reviewed a total of eight subdivisions of which three (3) were approved for a total of eighty-one (81) units, with the remaining five still in process. The Board also reviewed eight (8) shoreland use applications, seven (7) conditional uses, issuing six permits with one still in process, and eleven (11) site plan review reports, of which nine (9) were for commercial work. Zoning amendments included completion of work on manufactured housing section of the ordinance, and a new section on approval of private ways to be sure the roads meet town standards. Three private ways were approved by the Board during the year. A map change request was heard and work was started on amendments to ordinance sections on vertical expansion and on merger of lots. The Board also recommended an amendment in the B1 District to clarify permitted uses to enable downtown development. Among the general topics discussed by the board was the Housing Code, which should be a priority in the year to come.

As its third year of existence closed, the Planning Department and Board bid a fond farewell to Marty Patrickus, the town's first full-time planner, who moved on to another job, and awaited the Town Council's choice of a new planner. The staff will continue and hopefully even better its efforts both as they relate to immediate construction and to a community vision which best serves us all.

BOARD OF VOTER REGISTRATION

The three members of the Voters Registration Board, Aline Fontaine, Antoinette Bill and Edward Jurberg, met periodically to maintain an accurate voting list. The deputies to the board are Paula Fontaine and Katherine Poulin.

I have received great satisfaction as a member of the Board in my work. With the cooperation of Town Election Officials and two Board Members, the Election Day process ran with efficiency. We held open sessions for three elections, two general elections and one special election.

Statistics for the twelve months were:

Registrations:	588
Changes (Names & Addresses)	337
Removals (Moved out of town)	180
Removals of Deceased	48

Respectfully submitted,

Aline Fontaine
Antoinette Bill
Edward Jurberg

OLD ORCHARD BEACH POLICE DEPARTMENT

George W. Winkel was appointed Police Chief on October 2, 1989. Shortly thereafter he instituted a review of existing guidelines for the officers and started issuing new policies and procedures in an effort to make the police department more professional.

Much effort was spent last year on community involvement, both with children and adults, and prevention. A scaled-down Drug Abuse Resistance Education (D.A.R.E.) program reached 75 fifth graders, a very vulnerable targeted group. The Substance Abuse Voluntary Effort (S.A.V.E.) involving the police, schools, and the community was active.

A Crime Watch program which had been dormant for several years was re-activated.

The police department received several grants from the State Bureau of Safety for radar, an intoxilizer, and an O.U.I. roadblock program. As a result, roadblocks and other innovative traffic programs to reduce rowdyism and cruising were conducted in the Spring.

The intensive traffic enforcement program which began in 1988 continued to show positive results in that the number of traffic accidents was the lowest in five years. There were no fatal accidents in 1989.

The evaluation process for summer special police officers was changed to include two written examinations and an intensive oral interview. As a result, the quality of summer officer was very high.

Officers received many commendations during the year for outstanding police work, and were featured on the nationwide television program "America's Most Wanted".

A five year summary of crime statistics that speaks for itself follows:

	1985	1986	1987	1988	1989
Murder				1	1
Rape	2		4	4	6
Robbery	2	4	3	8	4
Burglary	89	93	112	117	96
Assault	99	119	185	161	177
Theft	301	289	372	301	414
M/V Theft	18	23	43	33	24
Vandalism	225	257	352	279	297
Arson	2		8	4	3
Other	127	140	224	184	296
Total	865	925	1285	1092	1318

FIRE DEPARTMENT ANNUAL REPORT

I submit my yearly report of the Old Orchard Beach Fire Department, for the year ending June 30, 1990.

Total calls for the period July 1, 1989 thru June 30, 1990 is as follows:

MONTHLY INSPECTIONS

July 1989	34
Aug. 1989	31
Sept. 1989	19
Oct. 1989	14
Nov. 1989	18
Dec. 1989	10
Jan. 1990	32
Feb. 1990	05
Mar. 1990	19
Apr. 1990	27
May 1990	60
June 1990	27
Inspections	296
Condo Alarms	83
False Alarms	35
Mutual Aid Calls	11
Vehicle Accidents	51
Fires	141
Miscellaneous	330
Total calls	947

Department training was held on the following subjects:

Operating in confined spaces (Instructor, Northern General Insurance)
Basic Pump & Ladder operations (Instructor, S.M.V.T.I.-in house training.)
Fire rescue operations (Instructor, Ron Grondon-S.M.V.T.I.)
Haz Mat First responders (Instructor, Ron Grondon two classes 8 hours-S.M.V.T.I.)
Electrical Safety Programs (Instructor, Mr. Holt of CMP)
Fire ground & safety operations NFPA 1500 (Instructor, Rodney Carpenter-S.M.V.T.I.)
Vehicle accident rescue operations (In house training F.D. Officers)
Jaws of Life Tools (Instructor, Scarborough, F.D.)

Respectfully submitted,

Philip LaPorte
Deputy Fire Chief

OLD ORCHARD BEACH RESCUE ANNUAL REPORT

This report of the activities Old Orchard Beach Rescue is from 1 July 1989 to 30 June 1990.

Paramedic Position	3
Volunteer EMT's	15
9 Basic	
3 Intermediate	
3 Critical Care	
Rescue Vehicles	2
1 1982 Ford E-350	
1 1987 Ford E-350	
Rescue Calls	1300
Cardiac/Respiratory	168
MVA	40
Medical Illness	280
Orthopedic	100
Trauma	192
Fire Standby	93
Public Assist	25
Mutual Aid Out	33
Mutual Aid In	2
No Transport	251
Micellaneous	369

This report reflects a 50% increase in call volume over the previous year.

During the past year, Old Orchard Beach Rescue has seen a number of changes which we hope will offer the people of Old Orchard Beach a better Emergency Service. Paramedic service offers a level of advanced life support not available previously. We have entered into a Quality Assurance program with the State EMS office to insure a more consistent service. We have also instituted an inventory control procedure to help control ever rising costs. Old Orchard Beach Rescue is committed to advancing the skill level of it's members and actively pursues continuing education from sources both inside and outside the department.

We are pleased with the progress made thus far and are committed to a program of continued improvements and service.

Sincerely yours,

George P. Dantos
Director

CIVIL SERVICE COMMISSION

The Town Council appointed the following five members to the newly created Civil Service Commission: Daniel Barbano, King Weinstein, Jeffrey Thompson, Thomas Blake, Sr. and A. David Perkins. Lisa Gregoire served as the secretary. The Rules & Procedures for the Commission were adopted and we are doing our best to serve the Town of Old Orchard Beach and the citizens thereof.

Respectfully submitted,

Daniel Barbano

LIBRARIAN'S ANNUAL REPORT FY 1989-1990

The FY started with a bang! Forty-nine(49) youngsters enrolled in the summer reading club. This year's theme was "Castle-MAINE-ia" with it's many aspects of medieval life. Over one hundred (100) parents and friends jammed the library for the awards ceremony which was preceded by a performance of the "Port Clyde" puppets. Ten (10) students completed the program. The library hosts school visits, this is a time when the first-grade pupils come for their first ever library card—a big event in their lives. These field trips are usually followed by library staff visits to schools for book-talks. Many of our programs are now annual events eagerly awaited by our patrons. These include our kite-flying day, hobby fair, the Spring and Fall open house/teas, mid-summer field day, Christmas and Halloween parties as well as the on-going story-time with crafts for pre-schoolers. This year we also held a kite-making afternoon, an adjunct to our "Go fly a kite" day. At the Fall holiday tea, we had the added attraction of a quilt raffle. The beautiful hand-made quilt was made and donated by a good patron. Also raffled was the large castle made by the participants in the reading club crafts classes. Our annual "book & bake" sale was successful, the proceeds buy materials for our weekly story/crafts time. One of the most useful services we provide even if it is not the most pleasant, is the tax form deposit, along with our in-house copying machine, we are able to provide one-stop tax service. The area nursing and retirement homes enjoy the 200 books we send them each month, this is in addition to the large print books now coming from the renovated State library. Many of our visually impaired patrons are very enthusiastic about the "talking books", a free service for all handicapped persons. We were most fortunate this Spring to be given a TV/VCR by the "Friends of the Library". This has enabled us to show videos to the children on Tuesday and Saturday mornings during the summer. Our garden room is a beautiful spot to sit while browsing through the daily newspapers. Library services to the town continue to be available all or part of six (6) days a week all year, except Sundays and legal holidays. I would like to thank my board of trustees who have always supported me, my staff and our loyal patrons who have helped make this another good year at the Edith Belle Libby Library.

Thank you,

Barbara Howard
Director

Friends of the Edith Belle Libby Memorial Library

There are only a few active members of the Friends of the Library. As was mentioned in last years report, the younger members are working so have little time for volunteer work.

The few active folk decided to pool the money in the treasury with some donations and a Book and Bake Sale and purchase a combination T.V. and V.C.R. This donation to the library has been a success as it can be used for both children and adult programs year round.

Anyone is welcome to join the Friends of the Library by picking up an application at the Library check out desk.

SUPERINTENDENT OF SCHOOLS ANNUAL TOWN REPORT 7/1/89 - 6/30/90

I am submitting the Annual Report of the Superintendent of Schools for the fiscal year 7/1/89 - 6/30/90.

The Superintendent of Schools entered the Deaconess Hospital on May 5, 1989 for emergency heart by-pass surgery. The Superintendent was successfully operated on May 15, 1989 and returned to work on July 31, 1989. On May 30, 1989, Dr. Vaughn LaCombe of Blue Hill, Maine was appointed as Acting Superintendent of Schools until Mr. McGee's return.

A great deal of time and effort during the summer of 1989 kept our Special Education Director, Donna J. Morrilly, extremely busy. She and her dedicated staff put together for the first time a Special Education Parents' Handbook. The resulting handbook was demonstrably impressive. We received a great deal of favorable comments from parents of students in Special Education classes. They were particularly pleased with the outlining of various Special Education State rules and regulations. Further, they were apprised of their legal rights at all stages of the student's involvement with the Special Education process in our schools.

A meeting was held by Chairman Painchaud, Supt. McGee and Principal Pam Mullen regarding the Jameson School Addition on August 8, 1989. At this meeting the architect stated the necessity for going through a D.E.P. survey regarding environmental matters which can be time-consuming and expensive. Further, the concern was raised by the architect that any projections relative to construction would be based on the assumption that there would be no serious problems with removal and abatement of hazardous asbestos. The architect, Stephen Blatt, predicted that groundbreaking would take place shortly after December 1, 1989. His proposed building schedule projected occupation of the school building addition for the following year, September 1990.

On September 4, 1989 at a regularly scheduled School Committee meeting, the School Committee formally approved a contract with Stephen Blatt Architects to be responsible for the Jameson School Addition.

The School Department painfully discovered in September, shortly after the contract was signed with the architect, that there would be asbestos abatement problems which would have to be resolved now that the Jameson School was going to be expanded. School Committee Chairman Painchaud, Superintendent McGee and Principal Pam Mullen went to Augusta to discuss the asbestos problem along with representative from the architects an Allied Engineering Co. Allied Engineering were the consultants hired by the State to assist communities in asbestos removal. This meeting was discouraging. There were a number of conflicting statements concerning the cost of asbestos removal and its funding.

School Committee member, Steve Leary, requested that the Superintendent form a committee on policy revisions. The School Committee decided that proposed Policy Revision Committee be limited to approximately seven people including professional staff and School Committee members and parents. The following people were named to the committee: The Policy Revision Committee Chairman, Steve Leary, School Committee Member, Robert Morrison, the Superintendent of Schools, Vincent B. McGee, High School Principal Jay Bartner, Jayne Flaherty, Loranger 5th Grade Teacher, Laura Bolduc, Jameson parent, Kathy Lee, Curriculum Coordinator and Cheri Provencher, Secretary.

The Policy Revision Committee met in September 1989 for the first time. The Committee jointly decided that initially they will take a look at proposed policies that have been pending. Policy Chairman, Steve Leary and the Committee members, decided to limit the meetings to a hour's duration. Meetings were rotated between after school meetings and evening meetings and held at least twice a month. Mr. Leary predicted that this would be a very long range assignment. However, it was apparent that there was a great need that this committee be developed. The Committee decided to invite people concerned with a particular topic for their input when and if it was decided necessary.

Mr. Don Maheu, foreign language teacher at the high school, appeared before the School Committee in September to explain a visit he made to our schools in the early winter with a delegation of teachers from Mimizan, France. This was going to be the first phase in a potential annual round trip exchange by the students of Old Orchard Beach and those of Mimizan, France.

At the October 12, 1989 meeting Chairman Roger Painchaud reported on the results of the visit of the citizens of Mimizan, France to Old Orchard Beach. The French citizens were very interested in an exchange program. A motion was made and adopted to grant approval of the concept of a student exchange program by the Old Orchard Beach students and students from Mimizan, France in the spring of 1990.

Shortly after school opened it became readily apparent that two serious fiscal problems faced the School Committee.

1. The cost of asbestos removal which had not been budgeted for in this school year. A survey of what asbestos removal would cost was received after the budgetary process had been completed. We had several different asbestos abatement removal projections and they varied widely. They averaged about \$200,000. Some part of this expenditure would be reimbursable in the future. There was no hard data on what portion of the asbestos abatement would be reimbursable.

After the school budget was adopted we received an additional sum of \$115,930. from the State which was a one time only windfall. I think it was apparent to all Board members when this news was received that the bulk of this money would have been committed for asbestos removal costs and if, in fact, the Jameson School Building Addition was to continue and progress towards the estimated opening in September 1990.

2. A further difficulty noted by the Town's accountant, who was also employed by the School Department, engendered very definite recommendations and suggestions regarding the handling of our teacher salary account. Simply stated the problem is that the teachers contract year, September 1 through the next year's August 31, does not coincide with the Town's fiscal year which is from July 1 to the following June 30th. We only pay 22 out of 26 owed payments to the teachers in any given fiscal year. Four of the payments are always pushed forward into the next fiscal year, July and August. The problem is that the teachers have completed and rendered their services prior to June 30th of any given year. Therefore, our July and August salary payments technically are overdue and taken out of the following year. The auditor recommended that we start to make fiscal provisions to rectify this deficiency beginning with the 1990-91 school budget. The auditor suggested that this cost would result in a one time only year bulge of approximately \$400,000.00. Further, the accountant suggested that it might be more palatable to correct this salary deficiency over a four year period by reserving an extra \$100,000.00 each for a total of four years.

At a regular scheduled meeting held on November 9, 1989 recognition was given outgoing School Committee members: Chairman Roger Painchaud, Charles Shevenell and Richard Roberge. Mr. Leary spoke at some length about the valuable services rendered by each of these three members. Supt. McGee mentioned that he thought that Roger Painchaud was one of the most distinguished, competent and able School Committee chairman he had ever worked with in more than twenty years of service as a Superintendent.

At 7:30 p.m. on November 20, 1989 the following members of the 1989-90 School Committee were sworn in by Maureen O'Leary, Town Clerk: Debra Guarino, Steve Leary, Robert Morrison, Sharon Prosser and Peter Warren. Shortly after the swearing-in ceremony the Superintendent served as Chairman Pro-Tem to elect School Committee officers. Mr. Steve Leary was elected chairman of the 1989-90 School Committee and Mrs. Sharon Prosser was elected Vice-chairman.

At the December 14, 1989 meeting the following committee assignments were made:

Policy Revision - Steve Leary, Robert Morrison
Collective Bargaining - Steve Leary and Debra Guarino
Positive Action - Robert Morrison

At this same meeting Chairman Leary read a letter from the Jameson School staff requesting that the new library be named the Lois Martin Memorial Library. Mrs. Martin was principal of Jameson School for sixteen years. A motion was made at this meeting to honor the faculty's request and name the new Jameson library in memory of their former principal.

A report on the Jameson School Building Addition project was presented by Chairman Roger Painchaud at the January meeting of the School Committee. Chairman Painchaud informed the Board that we received 12 bids on the project ranging from \$1,103,000. to a high of \$1,423,000. The lowest bid was most attractive since it was below our budget of \$1,303,000. The architect checked to make sure there was no mistake in the low bid. On advice of counsel it was recommended to us that we accept the low bid. The company that received the low bid is Beaver Corp. who has offices in Malden, MA and Lebanon, ME. We were satisfied with the schools built by them in Wells and Sanford. Both communities were well pleased with Beaver Corp.'s work.

At the February 8, School Committee meeting a motion was made by Peter Warren and seconded by Sharon Prosser that the School Department, in a response to the Mimizan Committees' request, make a contribution of \$1,000 to the H.S. and J.H.S. students participating in the exchange trip to Mimizan, France. So voted.

The School Committee was informed in March that the transportation arrangements to and from Boston for the Mimizan exchange students had been resolved. The School Department is going to use one of their own buses to transport the students back and forth from Logan Airport. The students will be out of school for eleven days.

We have continued to make steady and consistent progress with increasing our Grade 8 State mandated test scores each year. At a School Committee meeting on March 8, 1990 the School Committee congratulated all of the students, teachers and parents on the 8th grade tests results. Steve Leary was especially pleased with these results because a couple of years ago, the J.H.S. had a hard time with MEA scores and 8th grade teachers were feeling very defensive. We then began looking for solutions. This is an overall success. These scores reflect on staff, building and students. This is a shared success.

At the March 8, 1990 meeting a motion was made by Dusty Guarino and seconded by Sharon Prosser to award to asbestos abatement contract for Jameson School to the second lowest bidder, Abatement Professionals, for \$77,390. The lowest bidder was set aside as they were an out of state business firm which did not meet some of the State's bid criteria for asbestos removal.

After signing the contract with the Abatement Professional group we ran into additional costs once they began to open up the problem asbestos areas in the building. Another difficulty was discovered with the roof that will necessitate the expenditure of approximately an additional \$30,000. to \$40,000. for asbestos abatement.

A meeting was scheduled for Tuesday, March 13, 1990 at the J.H.S. for a workshop regarding discussion and input regarding the Superintendent's recommendation for eliminating an administrative position.

The Superintendent and School Committee were most delighted to receive a letter from Eve Bither, Commissioner of Education, praising Old Orchard Beach's program for Maine Drug Free Schools. Supt. McGee said we were one of only two schools in the State to receive this award.

A special School Committee meeting was held at the Loranger School cafeteria on May 15, 1990 at 7:00 p.m. The subject of the meeting was "Reconsideration by Superintendent of His Decision Not to Nominate Certain Teachers for Re-Employment for the 1990-91 School Year." The meeting was transferred to the cafeteria because of the large number of people present including faculty, parents and J.H.S. students. After receiving a great deal of input from members of the audience previously enumerated, the Superintendent felt it would be premature to nominate these teachers this evening

before the joint budget workshop with the Town Council. We had received no response to date from the Town Council relative to the amount of funds we would be receiving for our school budget.

Respectfully submitted,

Vincent B. McGee
Superintendent of Schools

JAMESON SCHOOL ANNUAL REPORT 1989-90

The following is a report of the Jameson Primary School for the year beginning July 1, 1989 and ending June 30, 1990:

Kindergarten (6 classess)	110
Grade 1 (4 classes)	83
Grade 2 (5 classes)	109
Total Enrollment	302

We welcomed several new members to our staff this year: Mrs. Connie Lou Liguori, who will be working in the resource room with learning disabled students; Miss Denise Heffernan, grade 2; Mrs. Beth Andersen, who will be providing social services to students and conducting social skills groups and divorce groups on a part-time basis; Tim Drapeau, Chapter 1 math teacher and Jackie O'Neill, part-time secretary.

We were pleased to begin our S.T.A.R. (Supersacs to Advance Reading) Grant program in the kindergarten classrooms this year. Mrs. Falvey, Mrs. Bureau and Mrs. LaPlante, kindergarten teachers, wrote a grant which was accepted by the State in which kindergarten students took home the book of their choice, read and discussed it with their parents, and did a small craft project to go along with the story. They then presented their craft project to the class verbally and explained the story.

Students at Jameson participated in a number of activities throughout the year to celebrate the young reader. All K-2 students participated in reading incentive programs. We hope that our reading activities have fostered a love for reading in our students as well as parent involvement in the children's school experience.

This year the contract for our 8,000 sq. ft. addition and 3rd grade wing was awarded to Beaver Corporation. They broke ground on this project in January, 1990. Beginning in April, 1990, our cafeteria and special education rooms were shut down and Abatement Professionals, an asbestos removal contractor, removed asbestos from the building. During this phase of construction, students were taken to Loranger for breakfast, lunch and physical education classes. When school was over in June, the offices were moved into a kindergarten classroom so that work could be completed on the library/administrative offices/special services wing. We should be occupying the new classrooms and offices in the fall.

Members of the Jameson PTO have been very active throughout the year. During the school year, members organized a fall fundraiser, the annual pumpkin sale, and a spaghetti supper. The PTO sponsored an ice cream party and a visit to students from children's storyteller Jim Trelease. Additionally, our PTO sponsored "Mr. & Mrs. Fish", the Chewonki Foundation's program intitled "The Owls of Maine", and kindergarten children attended the Rick Charette concert. We appreciate the hard work of this organization throughout the year.

Teachers at Jameson, with the help of Kathy Lee, Curriculum Coordinator, developed hands-on science curriculum over the summer for use by all K-2 students. Students were taught different habitats: farm, dinosaurs, ocean, forest, and fresh water. These units were taught from materials which were compiled in boxes and passed from room to room.

We were pleased to have two children from Iran in second grade. Both children spoke only their native language when they came in October. Classroom teachers, students, our speech/language people, and Chapter 1 aides enjoyed teaching them the English language.

In closing, I would like to express my appreciation to Mr. Vincent B. McGee, members of the School Committee, the Building Addition Committee, parents and staff of Jameson School for their cooperation throughout the year.

Respectfully submitted,

Pamela Mullen
Principal

**LORANGER MEMORIAL ELEMENTARY SCHOOL
ANNUAL TOWN REPORT
July 1, 1989 through June 30, 1990**

It is with a great deal of pride and pleasure that I submit the Loranger Memorial Elementary Annual Report for the 1989-90 school year.

There is always something very special about September. It affords an opportunity for a new beginning, a wiping clean of the slate, a fresh start for all of us. September is like the new sneakers that many of us wear to school—sneakers that are unmarred, sweet-smelling, and springy under foot. We at Loranger, arrive in September with a spirit of renewal and new beginning. We look forward to a year of exciting learning and growth for each one of us.

The enrollment in September of 1989 was as follows: Grade 3 - 73 students, Grade 4 - 86 students, and Grade 5 - 67 students, for a total of 236.

Many Loranger staff members have been continuing their professional growth as they have participated in curriculum work covering science, health and literature-based reading. The Loranger fourth and fifth grade teachers participated in an in-service training for computer keyboarding skills.

The newly-formed Loranger PTO was a catalyst for many activities at our school. Here are some of the many benefits Loranger School Received as a result of the PTO—

- The PTO sponsored, in conjunction with the help of staff, parents and the Principal, a very successful spelling bee.
- The PTO supplied drug awareness posters from the U.S. Government to all of the classrooms.
- They secured a donation for the third grade gifted and talented class for bird feeders and seed to go along with their year-long project on trees.
- They registered Loranger Memorial Elementary School with the U.S. Department of Education to receive Presidential Academic Fitness Awards for all deserving fifth graders.
- They contacted NASA to enroll Loranger Memorial in the NASA Seeds Project.
- This year the PTO initiated a suggested reading list for all grades from the books in the library and invited speakers to our PTO meetings.
- They started the beginning of a school-year photo album. They also supplied a school banner for our school which was used in the Homecoming Parade, along with balloons for each participating Loranger student.
- The Loranger PTO assisted the Jameson PTO in helping to bring Mr. Jim Trelease here for a special presentation.
- Notebooks were purchased for fifth grade DARE members.
- They helped with expenses to send off third grade students to the Portland Symphony concerts, and they entirely paid for the production "The Legend of Paul Bunyan", which was presented to each class.
- Books were purchased for our school library, along with special spelling bee awards for the participants in our spelling bee.

- The PTO was also instrumental in assisting Kathy Lee, our Curriculum Coordinator, in the Old Orchard Beach in the 21st Century Writing and Poster Contest.
- Contributions were made to our Student Environmental Action Committee, the Mimizan Committee, and the Old Orchard Beach Class of 1990 Chemical-Free Class Night.

These are some of the highlights that this small, but active and important PTO has accomplished throughout the year. We at Loranger are particularly proud of this group and invite other parents to become active members.

The children are learning that each one of them can make a difference. Our students have been participating in the Student Environmental Action Committee, which was originated by Stephen Ferguson, a third grade teacher at Loranger School. This student-governed committee worked together to promote conservation, re-use of natural resources, and worked diligently to beautify our school environment. Not only did they focus on the school environment, but their attention was directed to the Old Orchard Beach community and our planet. The students re-used all items that they possibly could, and paper was placed in bins in the classrooms. There was a litter control program for the school, and plans are underway to decorate our front entrance planter. We were, indeed, very proud at Loranger to receive a special grant that will allow us to continue to focus on the importance of our environment.

Mr. Ferguson and Michael Aaskov together wrote a grant, and we received word that we were the recipients of the grant this past spring. The Student Environmental Action Committee will continue to meet and to carry forward with plans of this grant by building a special paper storage bin to collect paper within the system so that we can recycle our paper that is used here, thus making the most of our own resources.

Our Just Say No Club continues to be very active and to provide a positive support for our children in learning the skills to say no to the pressure of drugs in our society. Our students made posters for our Open House, viewed a film called "McGruff-Take a Bite Out of Crime", worked on food sales to purchase t-shirts, planned many activities and carried them out for the Great American Smokeout.

Under the creative leadership of Jackie Tselikis, our school nurse, we were awarded an Innovation Program Award, which was presented to the Loranger Memorial School by Governor McKernan at a special awards assembly. This was in recognition of the outstanding and comprehensive program that our Just Say No Club has. It was recognizing us as a State of Maine Drug-Free School.

The students are becoming better readers as they continue practicing the skills that were highlighted during the Year of the Young Reader. The importance of reading can never be over-emphasized, and all of our students were the recipients of special guest readers who entered the classroom and read special stories throughout the year. Then our students were involved in a special Book-It Program, which is a special reading incentive program designed specifically for elementary children. It motivates children to read more, both at school and at home, by recognizing them for their reading accomplishments. The staff at Loranger continues to focus on the importance of reading and urges our students to read as much as possible and to share their readings with parents and friends.

Culture is a very important part of all of our lives, and our children were able to attend the Grand Opening last December of the Portland Ballet's rendition of the Nutcracker Suite, which was held at the City Theater in Biddeford. Students, staff members and parents all joined in the excitement that this honored favorite reignites every season. For some our students, it was the first time they had ever experienced a ballet, and the responses that were elicited by the sheer power and beauty of the show were heartwarming.

Students participated in the Loranger School Band under the direction of Mr. George Shabo

and gave us an excellent spring concert. The students did an exceptionally fine job for being together such a short time. All of us in this community can be very proud of our music program and our marching band, the singing and the exposure that our students are having to music and the arts.

Earth Day was a very important activity for our students as we worked together writing essays, poems, and having poster contests. The purpose of all of this was to highlight our concerns and understanding and appreciation for our environment. By teaching children to reduce consumption, we help to maintain a level where we are not sacrificing wealth, but are gaining stability. There is plenty to go around, if each and every person remembers to conserve, share and care for what is present.

This past year, some of our students were very fortunate to participate in a heartwarming and strengthening experience. Sharon Strout, our Social Worker, had a nephew who was stricken with leukemia. During his illness, Mrs. Flaherty's class corresponded with Travis and visited him in the hospital. Sadly, Travis died, and out of the frustration that our youngsters felt, they wrote to their Congressman, Joseph Brennan, asking about government contributions to Cancer Research. Representative Brennan sent a wealth of information, as well as a letter to each one of our students. As a follow-up activity, a field trip was taken to the Children's Cancer Research Foundation in Portland. The students were able to see, first hand, a child receiving treatment, and they were truly moved. At the end of the year, at our special Awards Assembly, a Humanitarian Award was presented to Mrs. Flaherty's fifth grade class for their support, courage and wisdom to reach out and learn more. This was given in memory of Travis E. Strout, who died November 5, 1989. This was a poignant moment, as the class received the award. This was given to them with love from Sharon Strout, our Social Worker, with deep appreciation for all that they had done.

The children certainly have realized that education goes much further than the four walls of an individual classroom. It is important for each of us to reach out into the community and to interact and to work together.

Our fifth grade students participated in the DARE Program. They received instruction from Vincent Mattia, a police officer, who taught the course to the children, and in April the students participated in the graduation from that program and received special DARE t-shirts and certificates of program completion.

April was National Child Abuse Prevention Month. Many awareness activities were carried on throughout that month, with the highlight being a play written by our School Social Worker, Sharon Strout, and directed by our gifted and talented teacher, Jesse Hemphill. This was entitled, Heroes of the World. Forty-five children, composed of gifted and talented and special needs students, gave their all under the direction of both of these people. Their play was a huge success, complete with television coverage. The message of the play was loud and clear. It is not okay for anyone to put up with any form of abuse. We were very proud of the work everyone did concerning this play and the learning which took place.

Loranger celebrated its second annual Evening of the Arts in May. We had a gala celebration focusing on each and every individual child's contribution to the world of art. Piper Bolduc, our art teacher, gave long hours, along with her student helpers and several parent helpers in arranging the artistic displays on the walls throughout the gym and in the halls of Loranger School. It is an occasion that all of us look forward to in that we get to pause for a moment and appreciate the creativity that is within our midst. Our halls were brightly decorated, the artwork was exemplary, many parents were heard to comment about the degree of expertise that was shown in many of the pieces of work that the children have done.

The parents also were treated to a mini-concert, which was under the direction of George Shabo, as he presented our fifth grade Loranger Band for its very first public appearance. Several of the students played solo pieces, and then together presented a total band ensemble.

The Loranger chorus, under the direction of Stella Baumann, sang songs for us that they had been working on. It was an evening to remember, and we were all very proud of the many contributions that were displayed, and we look forward to our next Evening of the Arts in the spring.

Our third, fourth and fifth grade students did well on the SRA test battery, which was given in the spring of 1990 with the third graders scoring a total composite of all tests which were equal to a 75 percentile, our fourth graders received 69 composite of all tests, and the fifth grade received a 67 percentile composite. These composites are an average of all of the tests. Fourth graders in Old Orchard Beach scored above the State average in five out of six content areas. We continually strive to augment and strengthen our academic areas on a day-to-day basis.

On behalf of my myself and the Loranger School staff, I wish to express my appreciation and gratitude to Mr. McGee, Superintendent, the School Committee, parents, and members of the community for your continued support.

As we look forward, we reflect on a quote from Aristotle which makes an important point, *"Education is the best provision for old age."*

Respectfully submitted,

Judith A. Whitman
Principal

**OLD ORCHARD BEACH JUNIOR HIGH SCHOOL
TOWN REPORT
JULY 1, 1989 - JUNE 30, 1990**

The Junior High School experienced an educationally sound year during 1989-90. We welcomed seven new staff members at the Junior High School. Those people—Ms. Peg Abbott, Ms. Donna Fusco, Mr. Robert Gierle, Ms. Sheila Johnson, Ms. Carolyn Mehlman, Ms. Patricia Rioux, and Ms. Karen Yerxa—helped our Junior High School continue its dedication to the students of Old Orchard Beach. The Administration would like to thank them for their time and energy in educating these students.

The Student Council had a very active year during 1989-90. It sponsored dances for the enjoyment of the students, held fundraisers to supplement student-oriented programs, and took part in the student government of the school. We are proud of our Student Council and look forward to a fine group of young people in future years.

A Drug Awareness Program was sponsored by the Junior High School for the seventh graders at the Bayview Facility in Ocean Park. The program was designed to inform students about choices they must make concerning emotions, drugs, alcohol and self concepts. The program was a very beneficial one, and students and faculty alike learned from the project.

The Junior High School Held its Second Annual Geography Bee during the last year. This is a nationwide competition sponsored by the National Geographic Society. A seventh grader, Tony Gay, won the competition at Old Orchard Beach. Although he was not selected to go to the national competition, we are very proud of his achievements, as we are of all of those in Old Orchard Beach. We look forward to its success again next year.

The Junior High School also competed in its Annual Spelling Bee. This is a statewide competition sponsored by the Maine Sunday Telegram. We had co-champions during the 1989-90 competition—an eighth grader, Susan Chiofar, and a sixth grader, Tori Nadeau. They moved on to the county competition in Biddeford and did well there. We would like to congratulate those two students and all of those who took part in the Bee representing each division of the Junior High School.

The Junior High School also sponsored its Second Annual Science Fair. It was an excellent event, with every student taking part in the Fair. Fifteen different awards were given out at each grade level, and an overall "Best of Show" was given out regardless of grade level. The Best of Show for the 1989-90 Science Fair was awarded to Heather Lander, an eighth grader. Her project, "How Colors Affect a Person's Concentration", was an outstanding display. We congratulate the Science Department and all of the student who took part in last year's Science Fair.

The Towns of Old Orchard Beach, Maine and Mimizan, France were fortunate enough to have a Student Exchange Program during the 1989-90 school year. Seven Junior High students, along with seven High School students from Old Orchard Beach, were able to take part in this exchange. It was a very educationally worthwhile and enriching experience for our students of Old Orchard Beach. Additionally, 14 students from Mimizan, France, came to Old Orchard Beach. Both groups of students were able to stay for 3 weeks in the host countries. We look forward to this program continuing in future years.

The eighth graders at Old Orchard Beach did quite well on the Maine Educational Assessment Test during the 1989-1990 school year. We have seen our scores steadily improve over the last few years, and we would like to say thank you to those students for their hard work and to the teachers who have helped make this possible.

It was not all book work for the students during the year. The Physical Education Department sponsored a Student Olympic Day and a Fun Run. Both events were well received by the students,

and a great percentage of participation was seen. Various medals and tee-shirts were given out to many of the students who proudly wore their deserved earnings.

Lastly, our Extracurricular Department had a fun-filled year. With students taking part in football, field hockey, cheering, basketball, skiing, volleyball, softball, and band, we found that every student had an opportunity to take part in something. The students of Old Orchard Beach appreciate the dynamic and wide variety of offerings the Junior High has, and their support is easily seen in the participation level. As an added note, the Junior High field hockey team went undefeated and won the Triple C Conference for the 1989-90 year. We would like to thank all coaches for their time and efforts, and a job well done to all students.

OLD ORCHARD BEACH HIGH SCHOOL ANNUAL REPORT

With a great deal of pleasure, I would like to submit the Annual High School Report for the 1989-1990 school year.

The enrollment, at the end of 1989-1990 school year:

Grade 9	69 Students
Grade 10	69 Students
Grade 11	73 Students
Grade 12	71 Students
Total:	<hr/> 282 Students

The senior class has again distinguished themselves with a firm commitment to continuing their education and planning for the future. This year fifty-five percent (55%) of our graduates plan to attend technical schools, trade schools or 2 and 4-year colleges. Fourteen percent (14%) are entering the military, and another twenty-one percent (21%) have obtained full-time employment prior to graduation. The following breakdown reflects the post-secondary plans for the Graduating Class of 1990:

- 18 Students to Colleges or Universities in the State of Maine
- 13 Students to Colleges or Universities outside the State of Maine.
- 4 Students to Junior Colleges.
- 4 Students to Vocational/Business/Technical Schools.
- 10 Students joined the military.
- 15 Students have found full-time employment.

The 1989-1990 school year proved to be an exciting and productive year for the entire student body. The following highlights some special and memorable events:

Governor McKernan and the State Department of Education honored Old Orchard Beach High School this year with the Comprehensive Substance Abuse Award. We were one of two (1 of 2) high schools in the State to receive this recognition for our outstanding Drug and Alcohol Program. This is a tremendous accomplishment, considering the fact that we didn't have any such program four years ago. I'd like to congratulate our S.A.V.E.O.O.B. Team, the entire faculty and student body for their cooperative effort. A special thanks to Mr. McGee and the School Committee for their continuing support.

Our new Project Challenge and Gifted and Talented Program, under the leadership of Tracy Brennan, had a very productive year. We are not only serving our State-mandated gifted population, but have many activities to benefit the entire student body, including our new academic Decathlon Team.

The Mimizan Sister City Exchange Program has become a reality. Seven (7) of our high school students spent three (3) glorious weeks in France, both in their schools and touring the region. This trip was followed by a three-week visit from our French delegation. The entire venture proved to be exciting and an invaluable educational experience. We plan to continue this program for years to come.

Our eleventh grade Maine Educational Assessment test scores were the highest ever at the high school. Every content area tested was within or above our expected scoring band. Our Humanities score was one of the top scores in York County.

Many of our students were selected through various competitions to receive honors in a variety of subject areas:

Renee Muldowney was selected to represent the State of Maine in the "Dreamer and Doer" program; a three-day event in Disney World. Renee was also chosen to attend the Maine Maritime summer program.

Tom Wiley represented the State of Maine in the Brookhaven Laboratory Science program. This honor permitted Tom to work with top scientists and students from around the country for two weeks.

Heather Smith was selected to represent the State of Maine in the Hugh O'Brien International Youth Leadership conference in St. Paul, Minnesota. Heather also attended the Muskie Archives Program at Bates College.

Mark McCullough was awarded the Maine Alliance for the Arts Award for Film. He was honored as the outstanding amateur filmmaker in the State this past year. This accomplishment was motivated through our new Project Challenge program.

Our entire extra curricular and sports program again had a very successful year. Many of our teams earned playoff berths and numerous players were named to All League and All State teams.

Kim Doucette distinguished herself as the all-time outstanding female sprinter in the State of Maine. She graduated with nine (9) State championships.

Over eighty (80) students were recognized at our Final Awards Ceremony for outstanding academic achievement. The following students earned top honors:

Languages - Tamara Taylor
English - Mark McCullough
Social Studies - Dan Fowler
Mathematics - Catherine Caouette
Science - Lisa Smith and Catherine Caouette
Art - Jeff Thompson
Graphic Arts - Tim Pelchat

J.B. Bartner
Principal

OLD ORCHARD BEACH SCHOOL DEPARTMENT **SPECIAL EDUCATION ANNUAL REPORT** **July 1989 to June 1990**

The Special Education Department of the Old Orchard Beach Schools is responsible for providing an appropriate education for all exceptional students in accordance with Federal and State laws. The State of Maine defines the following exceptionalities to which schools must be responsive:

- | | |
|--|---|
| <ul style="list-style-type: none"> - Mental Retardation - Hard of Hearing - Deaf - Speech & Language Impairment - Behavioral Impairment | <ul style="list-style-type: none"> - Orthopedic Impairment - Other Health Impairment - Learning Disability - Deaf - Blind - Multihandicapped |
|--|---|

The school is responsible for developing an individual educational plan on at least an annual basis for each exceptional student. This plan is developed in a Pupil Evaluation Team meeting, which is attended by the student's parents, classroom teacher, special education teacher and a school administrator. Parental consent is required before any student can be evaluated or receive services through the special education department.

One hundred and fifty students receive special education and supportive services in the Old Orchard Beach Schools. The special education teachers who provide services to our students are as follows:

<p>Jameson School Sue Philbrick Connie Lou Liguori</p>	<p>Loranger School Mary Feigenbaum Jane Mapes</p>
<p>Junior High School Peg Abbott Ed Bogh Anna Cutler</p>	<p>High School Nancy Ray Carol Besanko Jack Thompson</p>

In addition, speech and language therapy is provided to eligible students in grades K - 12 by Mrs. Deborah Maksut and Ms. Rita Schlegel. Ms. Anne Sirois provides occupational therapy, and Mrs. Nancy Valcourt is our physical therapist. Dr. Linda Naaman is the consulting psychologist who provides evaluation and consultation for our special education students.

A total of 9 students were placed in special programs outside of our public schools in order to receive appropriate special education programs. The following represents the number of students placed in these special programs:

Sweetser Children's Home	
- Residential Program	- 1
- Day School	- 3
- Pre-Vocation Program	- 1
Biddeford High School Program	- 1
Biddeford - Kennedy School	- 1
Boston Center for Blind Children	- 1
Spurwink (residential)	- 1

The Old Orchard Beach schools also provide Chapter I services to students grades K-8 who could benefit from remediation in reading and in math. Six auxiliary personnel provide these services through the direction of classroom teachers to approximately one hundred and twenty-eight students.

"Cultari" is a program for gifted and talented students in grades 6, 7 and 8. Mrs. Katherine Camire, a half time High School English teacher, provides the instruction in this program. Federal funds under Chapter II help to support the program. Mrs. Jessie Hamphill is the teacher of our program for gifted and talented students in grades K-5. New State mandates require all schools grades K-12 to have curriculum for gifted and talented students within the next few years. A five year plan has been developed for and approved by the Old Orchard Beach schools to provide such programming for our students.

The Old Orchard Beach School Department is the recipient of supportive funds from the Federal government under the following:

1. P.L. 89-313, Chapter I ECIA of the Elementary and Secondary Act of 1964	\$ 3,084.00
2. Local Entitlement, Title VI-B, Education of the Handicapped Act as amended by PL 94-142	\$38,000.00
3. Chapter I, ECIA Consolidation and Improvement Act of 1982	\$92,835.00
4. Chapter II, ECIA Consolidation and Improvement Act of 1981	\$ 7,455.00
Total	\$141,374.00

Respectfully submitted,

Donna M. Ford
Director of Special Education

ANNUAL REPORT
CURRICULUM COORDINATOR
JULY 1, 1989 - JUNE 30, 1990

This school year, for the working curriculum committees and me, was one of refining a curriculum development delivery model. For Old Orchard Beach Schools this model includes: teacher release days to work on designing curriculum which meets our students' needs; regularly scheduled after-school meetings with grade levels to discuss implementation of curriculum; developing evaluation methods; incorporating the results of evaluation into the curriculum design; presenting the completed product for school committee approval; and providing appropriate staff development to ensure the implementation of all our hard work.

Curriculums approved this past year include computer (September 1989) and health (February 1990). With each approved curriculum there is a parent information brochure which is used to disseminate general information about that subject area.

At the end of the year, we realized that the computer curriculum is one year ahead of the proposed implementation schedule which means that the high school will be able to offer more advanced computer classes sooner than expected.

The Health Curriculum included major segments on substance abuse education and growth and development for fourth and fifth grades.

Other curriculum areas worked on this past year include science, math, reading/language arts and guidance.

Hands-on science kits for grades K-3 were developed. For K-2 there are kits on oceans, forest, fresh water, human habitat, dinosaurs and scientific procedure. Grade 3 has kits on matter, astronomy, rocks and fossils, magnetism and electricity, the living world, and plant and animal community.

Both the math and reading/language arts committees began their work this year using test results for curriculum planning and incorporating current trends and research. Particularly in the math area, the recently published NCTM (National Council of Teachers of Mathematics) Standards have been used extensively as a basis for our discussions.

By 1991-92 our system must have a comprehensive guidance program submitted to the Department of Education for approval; therefore, we have had a guidance committee studying what is currently being done and designing suggestions for improvement based on a staff and community needs assessment which was conducted in the spring 1990.

Two other areas which I worked on are geography for 7th and 8th grades and study skills for the Junior High. We now have sequential courses for each of these areas.

Many interesting professional development activities were provided for our staff this past year. They included whole language, writing across the curriculum, the reading and writing connection, keyboarding for 4th and 5th grade teachers, wellness/health day and a grantwriting workshop.

Many of our staff this past year wrote grants which were submitted to the innovative grant process sponsored by the Department of Education. Of four grants submitted, Old Orchard Beach received the following two: Student Environmental Action Council—a plan to expand this council with representatives from each school and to begin a paper recycling project; and It's a Small World After All—a way to include more multi-cultural education in the primary grades.

Old Orchard is also involved in applying for a grant through the Center for Educational Services on a cross-district mathematics project.

I had the privilege of attending a national conference sponsored by the Association for Supervision and Curriculum Development entitled "Developing Useful Curriculum Guides." This conference provided guidelines and suggestions on working with school staff to develop useable and useful curriculum guides.

One major highlight of the year was the Old Orchard Beach in the 21st Century contest. I worked on this with the Comprehensive Planning Committee and the four schools. Students entered either a picture or an essay depicting O.O.B. in the 21st century. The entries provided many interesting ideas for our community. Over 300 people attended the awards evening where prizes were awarded for each grade level and for each school recognizing the artists and authors. This event was an excellent example of community cooperation with a school project. Besides the Comprehensive Planning Committee, the Art Association, the banks and credit union, service clubs, businesses and parent/teacher organizations all contributed to make this a success. Because of the excellent reception for this event, the school department intends to hold the second annual authors and artists recognition evening in the spring of 1991.

To all the staff of the Old Orchard Beach School Department, my thanks for your cooperation and assistance which was extended so willingly whenever I needed it. Your dedication and professionalism make my job enjoyable and interesting.

Respectfully submitted,

Kathleen Lee
Curriculum Coordinator

REPORT OF ASSESSOR ANNUAL REPORT - 1989-1990

Total valuation of taxable real estate	\$325,581,040
Total valuation of personal property	7,681,196
Property Exempt by State Law	37,690,350
Increase in Valuation for 1990	23,145,056
Total commitment to Tax Collector	9,664,605

The Tax Rate of \$29.00 per thousand is an increase of .0450 mil for 1989-1990.

The Town is progressing in the Process of completing The "TOWN WIDE REVALUATION". The final assessments will be completed for the 1990-1991 tax year.

WASTEWATER TREATMENT FACILITY

MAJOR PURCHASES: Mack Container Truck with Containers
200 Horsepower Aeration Blower Motor

This facility had its dedication, open house, June 3, 1989 on its upgrade from 1.5 M.G.D. to a 3.5 M.G.D. plant. I think this past year the effluent quality from this treatment plant has done much to improve Goosefare Brook's water quality. With the continued dedication of this plant's operators, we hope to make the coming year an even cleaner one for Goosefare Brook.

Congratulations to both Ray Martin, Equipment Operator, and Edward Townsend, Superintendent, who retired this past February. The best to you both for your faithful service to the Town of Old Orchard Beach. These vacant positions have yet to be filled.

Some major concerns of the Treatment Plant are:

- * Abiding by the D.E.P. Consent Decree
- * Noise generated from the aeration blowers

With conservation, money cutbacks, and hard work, the Treatment Plant ended this fiscal year \$133,000 under budget.

Respectfully submitted,

Larry Thomas
Chief Operator

SEALER OF WEIGHTS AND MEASURES ANNUAL REPORT

I, Bruce Brodeur, submit this report on the activities of the Sealer of Weights and Measures for the period July 1, 1989 through June 30, 1990.

81 scales were tested
73 scales passed
8 scales failed

All of the scales that failed were fixed and rechecked or taken out of service.

103 gas and kerosene pumps were tested
100 pumps passed
3 pumps failed

All of the pumps that failed were fixed and rechecked.

Respectfully submitted,

Bruce Brodeur
Sealer of Weights and Measures

BEACH CLEANER'S REPORT

This is a report of the beach cleaners for the 1990 season.

Budgetwise this group has come in at about 14% under the allotted salary budget. The allotment was \$14,500 and according to my week by week account we spent \$12,489. It should be noted here that in addition to the usual work of removing the debris from the beach the crew was diverted to removing roadside clutter as well.

One place a slackening of the economy can be noted is the beach. Fewer visitors means less waste. Coupled to the economy being off was some poor weather. In order to be more productive the crew was assigned to cleaning up some street areas badly in need of attention. The crew was most cooperative in this regard. No one complained about a change in assignment on a shared basis where we could spare the help. The quote of one employee says it all for the group "whatever you say".

Turnover from year to year is small, usually 2 to 3 people. For the most part those leaving are students going on to college or leaving college. Some people have been there a number of years. With an organized approach to the job, definitely assigned areas of work based upon volume of material, eating places and arterial approaches to the beach making for an equitable distribution of responsibility and consideration for the individual makes for a good esprit de corps.

Missing this year were the covers provided by the beautification group about three years ago. These barrel covers are essential. They were of sturdy construction-fibre glass- with two swing doors for access to the barrel. These covers prevent the seagulls from pulling the waste out onto the beach, keep the flies and bees to a minimum and confine the stench from the waste deposits that is common in public parks or beaches from food left overs. These must be somewhere in town. We had 35 to 40. Could they be at Seapac?

It is recommended that the council pass an ordinance prohibiting the disposal of household garbage in public waste barrels whether they be on the beach or public street. Some communities have done that because the abuse is quite prevalent. In the outer areas where there are more residences barrels are sometimes filled to the brim with garbage bags excluding their use by visitors to the beach. It would be further recommended that those barrels in the more residential areas, at least, be marked prohibiting household waste.

Respectfully submitted,

George W. Shorey

Independent Auditor's Report

Town Council
Town of Old Orchard Beach, Maine:

RUNYON
KERSTEEN
OUELLETTE
& LESSARD

We have audited the accompanying general purpose financial statements of the Town of Old Orchard Beach, Maine, as of and for the year ended June 30, 1990, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in note 1, the general purpose financial statements referred to above do not include the General Fixed Asset Account Group, which should be included to conform with generally accepted accounting principles.

As described in note 11 to the financial statements, the Town accounts for teachers' summer salaries in the general purpose financial statements on the cash basis. Generally accepted accounting principles require that the cost of teachers' summer salaries be recorded at June 30, 1990.

In our opinion, except for the effect on the financial statements of the omissions described in the preceding paragraphs, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Old Orchard Beach, Maine as of June 30, 1990, and the results of its operations and cash flows of its proprietary funds for the year then ended, in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The additional information included in Exhibits A-1 through F, the schedule, and tables 1 through 7 are presented for

Certified
Public
Accountants

20 Long Creek Drive
South Portland, ME 04106

FAX 207-772-3361

purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Old Orchard Beach, Maine. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

TOWN OF OLD ORCHARD BEACH, MAINE

Notes to Financial Statements

June 30, 1990

1. Summary of Significant Accounting Policies

The Town of Old Orchard Beach, Maine was incorporated in 1883 and is located in southeastern Maine, 12 miles south of Portland. A popular summer resort with 7 miles of sandy beaches, the Town encompasses 7.8 square miles. Its year round population of 7,000 expands to 100,000 during the summer. The Town has operated under a Council-Manager form of government since 1950.

The accounting policies of the Town of Old Orchard Beach, Maine conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the more significant of such policies:

A. Basis of Presentation

The accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity/retained earnings, revenues and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The various funds and account groups are reported by type in the financial statements. Amounts in the "totals - memorandum only" columns in the preceding financial statements represent a summation of the combined financial statement line items of the fund types and account groups, and are presented only for analytical purposes. The summation includes fund types and account groups that use different bases of accounting and interfund transactions that have not been eliminated. Consequently, amounts shown in the "totals - memorandum only" columns are not comparable to a consolidation and do not represent the total resources available, or the revenues and expenditures/expenses of the Town. The Town uses the following fund categories, fund types, and account groups:

GOVERNMENTAL FUND TYPES

Governmental Funds are those through which most governmental functions of the Town are financed. The acquisition, use and balances of the Town's expendable financial resources and the related liabilities (except those that would be accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following are the Town's Governmental Fund Types:

General Fund - This fund accounts for all financial transactions except those required to be accounted for in another fund.

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

1. Summary of Significant Accounting Policies, Continued

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trust, or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

Capital Project Funds - Capital Project Funds are used to account for financial resources segregated for the acquisition or construction of major capital facilities other than those financed by proprietary funds and trust funds.

PROPRIETARY FUND TYPES

The Proprietary Funds are used to account for the Town's ongoing activities which are similar to those often found in the private sector. The measurement focus is upon determination of net income. The following are the Town's Proprietary Fund Types:

Enterprise Funds - These funds are established to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs of providing services on a continuing basis be financed or recovered primarily through user charges.

FIDUCIARY FUND TYPES

Fiduciary Funds account for assets held by the Town in a trustee or agent capacity. All are Expendable Trust Funds and are accounted for in essentially the same manner as governmental funds.

ACCOUNT GROUPS

Account groups are used to establish accounting control and accountability for the Town's general fixed assets and general long-term debt. The following are the Town's account groups.

General Fixed Assets Account Group - The Town does not maintain this group of accounts which would otherwise account for the fixed assets of the Town, other than those accounted for in the proprietary funds.

General Long-term Debt Account Group - This account group is established to account for the long-term debt.

B. Basis of Accounting

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

1. Summary of Significant Accounting Policies, Continued

included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All Governmental Funds and Expendable Trust Funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Revenues are recognized (recorded) in the accounting period in which they become susceptible to accrual, that is, when they become both measurable and available to finance expenditures of the current fiscal period. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. This contrasts with the method used by private-sector entities, where revenues are recorded when they are earned.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are essentially two types of intergovernmental revenues currently being received by the Town:

- . Monies must be spent for the specific purpose, or project, before any amount will be paid to the Town. These revenues are recognized based upon the expenditures recorded.
- . Monies are virtually unrestricted as to purpose, and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt, or earlier, if the susceptible to accrual criteria are met.

Licenses and permits, charges for services, fines and forfeits, and miscellaneous revenues (except investment earnings) are recorded as revenues when received in cash because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exceptions to the general rule include: principal and interest on long-term debt which is recognized when due; and prepaid expenses, which are not generally recorded.

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

1. Summary of Significant Accounting Policies, ContinuedC. Budgetary Accounting

A budget is adopted, on a basis consistent with generally accepted accounting principles (GAAP) except as described in note 11, for the General Fund only. The level of control (level at which expenditures may not exceed budget) is the Department. Generally, all unexpended budgetary accounts lapse at the close of the fiscal year. Once adopted, the budget can only be amended by the Town Council. The budget as shown on Statement 3, includes carryforward balances appropriated in prior years of \$341,881. Additionally, the budget as shown has been adjusted for the approved 1989 capital improvement note issue of \$805,000.

D. Investments

Investments are stated at cost, which approximates market unless otherwise indicated.

E. Inventory

Inventory consists of the School Lunch Program food, supplies and donated commodities and is recorded at cost on a first-in, first-out basis.

F. General Fixed Assets

The Town does not maintain a general fixed asset group of accounts. Expenditures for property and equipment are charged to departmental operations whenever such items are purchased. The Town does maintain an inventory of fixed assets for insurance purposes.

G. Real Property and Equipment

Real property and equipment owned by the Proprietary Funds are stated at the cost to acquire or construct the asset. Routine maintenance and repairs are charged against income. Expenditures which materially increase values, change capacities or extend useful lives are capitalized.

H. Vacation and Sick Leave

Under terms of personnel policies and union contracts, vacation and sick leave are granted in varying amounts according to length of service. In some cases, employees are entitled to payment for unused vacation and a percentage of sick leave upon termination or retirement.

At June 30, 1990, the accumulated vacation cost was \$48,500 and is accrued on the General Fund balance sheet. Accumulated vested sick leave was \$146,382 and is disclosed in the general long-term debt account group because it is not a current liability.

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

2. Deposits and Investments

The Town's policy is to invest all available funds at the highest possible rates, in conformance with legal and administrative guidelines, while avoiding unreasonable risk. The funds are invested in liquid investments with maturities planned to coincide with the Town's cash needs during the year.

A. Deposits

Town policy is that deposits can only be made in financial institutions insured by the FDIC or FSLIC and that funds over the \$100,000 insurance limit be collateralized or placed in other financial institutions.

The Town's deposits are categorized as follows to give an indication of the level of risk assumed by the Town at year end: Category 1 includes deposits covered by federal depository insurance or by collateral held by the Town or by the Town's agent in the Town's name; category 2 includes uninsured deposits covered by collateral held by the pledging financial institution's trust department or agent in the Town's name; category 3 includes uninsured and uncollateralized deposits.

At June 30, 1990 cash and cash equivalents consisted of:

	Carrying Amount	Market Value	Category		
			<u>1</u>	<u>2</u>	<u>3</u>
<u>Cash and Cash Equivalents:</u>					
Checking and savings accounts	\$ 140,595	152,490	52,490	100,000	-
Money market accounts	<u>203,997</u>	<u>203,997</u>	<u>124,590</u>	<u>79,407</u>	<u>-</u>
	<u>\$ 344,592</u>	<u>356,487</u>	<u>177,080</u>	<u>179,407</u>	<u>-</u>

B. Investments

Maine statutes authorize the Town to invest in obligations of the U. S. Treasury and U. S. agencies, repurchase agreements and certain corporate stocks and bonds. Generally, the Town invests such excess funds in repurchase agreements.

Government Accounting Standards Board Statement No. 3 requires the investments to be classified into three categories. Category one includes investments which are insured or registered or for which the securities are held by the Town or its agent in the Town's name. Category two includes uninsured and unregistered investments held by the financial institution's trust department or agent in the Town's name. Category three includes uninsured and unregistered investments for which the securities are held by the financial institution's trust department or agent, but not in the Town's name.

3. Property Tax

Property taxes for the current year were committed on July 14, 1989, on the assessed value listed as of the prior April 1 for all real and personal property located in the Town. All real property taxes were due in two installments, 50% on August 11, 1989 and 50% on February 15, 1990. All personal property taxes were due in full on August 11, 1989. Interest at the rate of 12% per annum was charged on any amounts remaining unpaid after these respective due dates. Assessed values are periodically established by the Town's Assessor at 100% of assumed market value. The last revaluation was completed for the list of April 1, 1984. This assessed value was 70% of the estimated market value and 65% of the 1990 state valuation of \$510,000,000.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay, and amounted to \$141,050 for the year ended June 30, 1990.

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if the tax liens and associated costs remain unpaid.

Property taxes levied during the year were recorded as receivables at the time the levy was made. The receivables collected during the year and in the first sixty days following the end of the fiscal year have been recorded as revenues. The remaining receivables have been recorded as deferred revenues.

Collection rate	90.8%	91.0%

4. State Reimbursement for Debt Service Expenditures

The State of Maine currently reimburses the Town for financing costs of school buildings and school bus purchases. Continuation of such reimbursements is dependent upon continued appropriations by the state legislature.

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

5. Statutory Debt Limit

In accordance with Maine law, no municipality shall incur debt for specified purposes in excess of certain percentages of State valuation of such municipality. A summary of the Town's legal debt margin is as follows:

	June 30, 1990 Outstanding Bonds	Percent of 1990 State Assessed Value of \$510,000,000	Amount	Margin
For school purposes	\$ 2,536,082	10%	51,000,000	48,463,918
For storm or sanitary sewer purposes	11,674,124	7-1/2%	38,250,000	26,575,876
For municipal airport, water and special district purposes	-	3%	15,300,000	15,300,000
For all other purposes	<u>4,285,011</u>	7-1/2%	38,250,000	33,964,989
Total	\$ <u>18,495,217</u>	15%	76,500,000	58,004,783

6. Long-term Debt

The following is a summary of long-term debt transactions of the Town for the year ended June 30, 1990:

	Long-term debt	Proprietary Funds	Total
Long-term debt payable at June 30, 1989	\$ 14,269,956	2,200,000	16,469,956

1989 Capital improvement bond	Varies	1989	1,840,000
1989 Sewer improvement B.A.N.	7.00%	1990	805,000
1990 School improvement B.A.N.	7.80%	1990	760,000
1990 FMHA note	6.00%	2019	800,000
			<u>16,295,217</u>
<u>Proprietary Funds:</u>			
1987 General obligation security	Varies		<u>2,200,000</u>
Total general obligation debt			<u>\$ 18,495,217</u>

The Town is in compliance with all significant limitations and restrictions contained in the various bond indentures.

The annual requirements to amortize all debt outstanding as of June 30, 1990, are as follows. Such amounts exclude overlapping debt requirements but include school debt requirements to be reimbursed by the State of Maine.

During the year ended June 30, 1990, the Town issued two bond anticipation notes for \$805,000 and \$760,000. The \$805,000 was issued as short-term financing for the Town's 1989 capital improvement program. The \$760,000 note was issued as short-term financing for improvements to Jameson School. Both the \$805,000 and \$760,000 notes are anticipated to be permanently financed in 1990.

7. Overlapping Debt

The Town's proportionate share of York County's debt (determined by the percentage of the Town's state valuation to the county's state valuation) is not reported in the Town's financial statements. Debt service is included in the annual county assessment to the Town. At June 30, 1990 York County had no outstanding debt.

8. Employee's Retirement System

The Town participates in the Maine State Retirement System. The Maine State Retirement System is an agent multiple-employer public employee retirement system established by the Maine State legislature. All full time Town

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

8. Employee's Retirement System, Continued

employees, including school bus drivers and custodians, are eligible to participate in the system. As of June 30, 1990 the Town had 36 active covered employees and 30 vested/retired employees. Covered payroll for the year ended June 30, 1990 was \$1,083,504. Employees are eligible for normal retirement upon attaining age 60 with 10 or more years of service or after completing 25 or more years of creditable service prior to age 60. Vested participants are entitled to a retirement benefit equal to a fraction (2%) of the average final compensation multiplied by the years of membership service (discounted for early retirement). The Town makes employer contributions in accordance with funding requirements determined by MSRS' actuary. For the year ended June 30, 1990 the Town's contribution rate was 15.20% and amounted to \$164,693. Covered employees are required to contribute 6.5% of their salary to the MSRS and amounted to \$70,428 for the year ended June 30, 1990.

The amount shown below as "Pension Benefit Obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effect of projected salary increases, estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess the funding status of the Plan on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among employers. The measure is the actuarial present value of credited projected benefits.

The pension benefit obligation was computed as part of an actuarial update based on the single actuarial valuation as of June 30, 1989 (the most recent date available). Significant actuarial assumptions used to compute the Pension Benefit obligations are:

Annual rate of investment return	8%
Annual rate of salary increase	6%
Annual cost of living increase	4%
Average retirement age	60

At June 30, 1989, the date of the latest actuarial report, the total unfunded pension benefit obligation was \$914,298 determined as follows:

Pension benefit obligation:

Terminated employees not yet receiving benefits	\$ 1,514,926
Current employees:	
Accumulated employee contributions including investment income	520,946
Employer financed, vested	999,565
Employer financed, nonvested	321,706
Total pension benefit obligation	3,357,143
Net assets available for benefits, at cost (market value \$2,710,201)	2,442,845
Unfunded pension benefit obligation	\$ 914,298

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

8. Employee's Retirement System, Continued

Additionally, the Town participates in the Social Security Retirement Program and the International City Management Association System (ICMA).

Employees participating in the ICMA system become vested after three years and are not entitled to a distribution until employment with the Town is terminated.

The Town's contribution to Social Security and ICMA was approximately \$164,339 and \$12,991 for the year ended June 30, 1990.

9. Reserved/Designated Fund Balances

At June 30, 1990 portions of the General Fund fund balance (deficit) were designated to future periods as follows:

Roads and sidewalks	\$ 87,867
Assessor's revaluation	79,072
Planner - comprehensive plan	37,336
Public Works - truck	80,000
Pumping station - improvements	25,730
Other improvements	62,964
Adult education	(12,933)
Education	532
	<u>\$ 360,568</u>

A reserve has been established in the General Fund for the funding of teacher summer wages of \$138,500 and school encumbrances of \$63,448. Additionally, the school lunch fund (a special revenue fund) has a reserve for inventory of \$11,158.

10. Contingent Liabilities

The Town has also been named as defendant in several lawsuits seeking damages ranging from \$100,000 to \$1,000,000. Legal counsel has been unable to make a determination as to the possible liability to the Town; therefore, no amounts have been accrued for any possible judgment against the Town.

11. Teacher Contracts

The School Department compensates its teachers under a contract for services rendered between the months of September and June. However, compensation is remitted over a twelve month period, September through August. At June 30, 1990, the balance on such contracts amounted to \$379,728 (unaudited) for which no accrual has been made in the financial statements.

12. Reporting of Component Units

This report includes all funds and account groups of the Town. An analysis of the criteria presented in the National Council of Governmental Accounting (NCGA) Statement 3, "Defining the Governmental Reporting Entity", was made to determine if other governmental units should be included in this report.

(Continued)

TOWN OF OLD ORCHARD BEACH, MAINE

12. Reporting of Component Units, Continued

The criteria evaluated were (1) Manifestations of Oversight, (2) Accountability for Fiscal Matters, (3) Scope of Public Service, (4) Special Financing Relationships.

It is the Town's judgment, based on all pertinent facts derived from the analysis of these criteria that there are no other entities within the Town that should be included as part of these financial statements.

13. Interfund Balances

Individual interfund receivables and payables (due from/to other funds) at June 30, 1990, were as follows:

	Interfund receivables	Interfund payables
General Fund	\$ 3,066	84,691
Special Revenue Funds:		
School categorical funds	-	2,950
Sewer reserve	-	16
	-	2,966
Capital Project Funds:		
Jameson School addition	84,691	-
Enterprise Funds:		
Ballpark facility	-	100
	\$ 87,757	87,757

14. Deficit Fund Balances

At June 30, 1990 the following funds had deficit fund balances:

The General Fund had a deficit undesignated fund balance of \$845,329. The Town is implementing a budget deficit mitigation plan and has approved a financial recovery plan. The Town anticipates reducing the undesignated fund deficit of the General Fund in part by appropriating \$100,000 from the 1990-91 budget, by committing property taxes for 1991 with an overlay of approximately \$325,000, by estimating nonproperty tax revenues conservatively and by maintaining financial restraint in the coming years.

The 1989 sewer expansion project (capital project fund) had a deficit fund balance of \$95,077. Subsequent to year end the deficit was funded through the issuance of an FMHA note dated July 21, 1990.

The Ballpark facility (an enterprise fund) had a deficit of \$93,858. It is expected that the deficit will be adequately funded in future years through the lease and/or sale of the ballpark.
