

155

Dear Sir;

I had some idea of going to Augusta to-morrow - but do not know as it would be of any avail - I may come down some day this week - Say to Governor Bushburn - that I am at it - prospect here - courage good - Cannot get many boys till hoying is over with - Think I can make the wind blow there - perhaps get up a small breeze before -

2

will raise from 30 to 40 men if the Gov. will Commission me as Captain - will not get less - nor promise to reel the figures. will get them as soon as I can - Think I can do it in 45 days - Cant do great till farmers have sowed their hay crop. I will keep stirring however -

I shall get out my papers  
to-morrow -

I wish you would  
get from the Augusta Post Office  
a letter addressed to me - It is  
one of recommendation from Gen.  
Stewart - & give it to the Governor.  
I am sorry to trouble you thus - but  
I cannot afford to spend the time  
to go to Augusta unless - it is absolutely  
necessary - as I expect to do -

I have  
yet to sacrifice much every way  
and do not think that patriotism  
or duty - calls upon me to take  
a less position than Captain - that  
I will take - that I am willing  
to run -

Hon. W. Morris

With much esteem

Very truly yours

J. F. Andrews
