First Aid Calls . . . . .	11
Inspections/Fire Prevention . . . . .	8
Total Amount of Calls . . . . .	244
Street Box Alarms . . . . .	80
Still Alarms . . . . .	164

Total amount of equipment used by this department for the year:

1 inch Hose Used . . . . .	8450 Feet
1½ inch Hose Used . . . . .	8475 Feet
2½ inch Hose Used . . . . .	10,250 Feet
Ladders Used . . . . .	320 Feet
Smoke Ejector Used . . . . .	2 Times
Scott Air Paks Used . . . . .	11 Times
Portable Generators Used . . . . .	4 Times
CO <sub>2</sub> Extinguishers Used . . . . .	4 Times

Dry Powder Extinguishers Used . . . . .	3 Times
Deluge Gun Used . . . . .	5 Times
Hand Tools Used . . . . .	5 Times
Back Tanks Used . . . . .	33 Times
Oxygen Used . . . . .	10 Times
Resuscitator Used . . . . .	5 Times
Total amount of Hose Used . . . . .	27,175 Feet

## OLD ORCHARD BEACH FIRE DEPARTMENT ANNUAL REPORT

On August 1st 1970 Chief Louis R. Wharff retired from the OLD ORCHARD BEACH FIRE DEPARTMENT. Chief Wharff had been a member of this Department for some 35 years. His successor to the post of chief is Deputy Chief Thomas Smith Jr.

This report is a report of all department activities since July 1970.

The fire department has 31 members, 24 of these members are call firemen and are on call 24 hours a day. The other 7 members are regular paid firefighters who are employed by the Town as drivers. The fire department has one chief, one deputy chief and five drivers. The members of the department all have a fire radio receiver at home. Regular monthly meetings of the department are held on the first Tuesday of every month. Twice each month the department conducts drills on the proper use of equipment and fire tactics.

In July the department changed its method of hose laying by splitting the hose bed in the two pumpers. In splitting the hose bed we are able to lay out two 2½ inch hose lines to the fire or to other pumpers what ever the need may be. This method will save us time in any emergency or major fires.

In the month of August Lieut. John White retired from the department after serving 19 years of active service with the department. The chief appointed two Lts. to the call force. These men will supervise at fires

under the direction of the chief or his deputy. A drill was held at the Elementary school to pre-plan combat if a fire should start at any given time.

In the month of September the department started a tactical program in working close with other departments under mutual aid. These departments include the Town of Scarborough and the City of Saco.

In October the two pumpers were tested to see if they could meet the Fire Underwriters Standards. Both the 1948 American LaFrance pumper and the 1960 American LaFrance pumper met these standards. A drill was held at the high school to pre-plan combat if a fire should break out at any given time.

The department up dated the 1960 American LaFrance pumper by adding additional pre-connected hose lines of 1½ inch and 2½ inch hose. These hose lines are ready to be placed into action upon arriving at the scene of the fire ground. The chief of the department attended the Chief's Seminar and training program which was held in Portland, Maine.

In November the equipment on the 1948 American LaFrance pumper was re-conditioned. The booster (water tank) was replaced and this pumper is now in service.

In December a Deluge Gun was mounted on the 1960 American LaFrance pumper and is now in service. Due to a vacancy the Civil Service held a competitive test for the position of Deputy Fire Chief, this test was taken by five of the regular men. Driver Donald D. Roy was appointed to the position of Deputy Chief and Arthur Guerin was appointed as a new driver.

Respectfully submitted

Thomas A. Smith, Jr.  
Chief of Department

## ELECTRICAL INSPECTOR REPORT

1970

Taking over the Town's Electrical Inspector's job on January 1, 1970, I made:

1170 Inspections

32 Fire calls

27 Violation calls

9 calls from people getting shocks

3 calls for shocks in trailer and tenting areas

2 calls for shocks in private homes

3 calls in amusement areas

1 call in a restaurant

In the month of June, State Electrical Inspector Blake McKay came down from Augusta to inspect the electrical system under and along the Pier with me. We found two violations. They were reported to the owners and they were corrected.

The first week in July, I personally inspected every business building on the East side of Old Orchard Street and the North side of East Grand Avenue up to 200 yards East. I found 18 violations, which consisted of overfusing and using lamp cord for primary wiring. I gave them warning, returning again in two weeks with the state inspector, found all violations had been corrected.

The first week in August, the state inspector and myself went through the Amusement area at the foot of Old Orchard Street. We both agreed that some changes must be made before the 1971 season starts.

On occasion the state inspector would drop into town for spot inspections.

The third week in November he came to check the Camping, Tenting and Trailer Parks.

We spent a whole day going from one to another, and found some very bad situations in all of them. They also should be corrected before the 1971 season starts.

Not having a monitor in my home, or a radio in my truck for fire calls I did manage to cover 32 fire calls,

to assist our firemen, by removing any electrical hazard that might have endangered them in their work. Of these fires 8 of them were electrical.

At this time I would like to thank Mr. Louis Ayoob, our Town Manager, all the Town Councilmen, and all the businessmen for the fine cooperation they gave me in making our Town a safer Town to live in.

Respectfully submitted,

Reny L. Remillard,  
Electrical Inspector

### REPORT OF THE LICENSE INSPECTOR FOR 1970

To the Honorable Council and  
Citizens of Old Orchard Beach:

During the year of 1970, this office was kept quite busy, especially during the summer months. Due to our card system instituted last year, the renewals were completed early enough so that we concentrated on new licenses, which brought in approximately \$1500.00 over the previous year.

We had a court case this summer, the results were favorable to the town. Several complaints were properly handled by the Inspector, Town Clerk, or the Police Department.

Once again I must compliment our Town Clerk and citizens of our community for the fine cooperation given me.

Respectfully submitted,

Urbain A. Goulet  
License Inspector

## REPORT OF PARK COMMISSION

Chairman Emerson Cummings.  
Members of the Council for the  
Town of Old Orchard Beach, Maine.

Dear Counsellors

It is the pleasure of the Park Commission for the Town of Old Orchard Beach to make its end of the 1970 year report.

We of the Park Commission for the year of 1970 are very proud to report that it was a very successful year making the total of \$16,000.00 dollars and leaving a balance of about \$2,300.00.

At our March meeting Mr. William Farrington tendered his resignation to devote his time for his campaign to the legislature. It was accepted with regrets as Mr. Farrington has served as a Commissioner for several years and deserves a lot of credit for a job well done. Mr. Joseph Mokarzel was named by the Commission to fill out Mr. Farrington's term for the year. We wish to thank Mr. Mokarzel who served faithfully.

We spent over \$5,000.00 dollars on capital improvements and repairs that were badly needed for a long time. It is planned to finish these repairs in the spring. There is also plans to continue a section of the original layout plan of the Park in the coming year.

A good deal of credit for a successful year is due to the fine management of Mrs. Rosalie Rix and the excellent help of the boys and the ladies on the tickets. A very congenial and willing crew.

Respectfully submitted,

Mrs. Edith Gallant, Chairman  
Mr. Thomas Dupuis, Sec.

**PUBLIC SAFETY COMMISSION  
TOWN OF OLD ORCHARD BEACH, MAINE  
1970**

At the organizational meeting the Civil Service Commission elected Charles E. Huot as Chairman. The two other duly elected members of the commission were Linwood A. Kimball and Thomas R. Lee, Sr.

During the year, by virtue of the enactment and passage of a law by the State Legislature and the citizens of this Town, the name and scope of the Civil Service Commission were changed. That body is now known as the Public Safety Commission.

The members of the Public Safety Commission were the same members as were on the Civil Service Commission, and as a body held eighteen meetings during 1970. The Town Council appropriated \$300.00 for the commission, and at the end of the year there was an overdraft of \$53.07.

During the course of the year the Public Safety Commission gave regular police officer examinations to sixteen applicants. Also, examination for Fire Department Driver were given to seven applicants; and examinations for Deputy Fire Chief were given to four applicants.

Respectfully submitted,  
Public Safety Commission

Charles E. Huot, Chairman  
Linwood A. Kimball  
Thomas R. Lee, Sr.

**REPORT OF PLUMBING INSPECTOR**

Town of Old Orchard Beach

37 Permits sent to Augusta

3 Violations

3 Violations corrected

Amount of money      \$358.00

Respectfully submitted,

Nelson Mossman  
Plumbing Inspector

REPORT OF THE  
URBAN RENEWAL AUTHORITY  
1970

To The Honorable Council and  
Citizens of Old Orchard Beach:

Once again I must submit a report of our activities, though this past year has been a wasted one. Members of this board have tried to inject interest in our community. Unfortunately we have had little or no results.

Early in the year, the building inspector and I were the only ones interested enough to attend a seminar conducted by the New England Chapter of NAHRO, that was held at Portland, Maine. I personally notified the Town Manager, the Planning Board, and the Council in ample time so they could make arrangements to attend these sessions.

At these sessions, emphasis was directed on rehabilitation grants and loans to help the low income home owners finance the necessary repairs and improvements of their homes. The highlights were 1: Grants not to exceed \$3,000.00 if the recipient's income was less than \$3,000.00; and 2: Loans (bearing interest of 3 percent) not to exceed \$50,000.00 with no income limit. These were the main topics discussed at these sessions. Several New England communities taking advantage of this section of the Housing Act of 1965, gave it a most favorable report and urged all communities that were bogged with their housing problems, to implement this project as soon as possible, for there was over one million dollars available and would be so until June 1970.

Upon our return, we reported to the Town Manager and requested him to set up a conference with HUD representatives as soon as possible. As of this writing, no such meeting was held. It is very unfortunate that some of our town representatives are not interested, or fail to take advantage of projects that could upgrade our community. Until such a time as our elected or paid officials take interest and participate with all existing

"Boards", I'm afraid our community will continue to deteriorate.

The tools are available to us, but only if we want to use them.

Respectfully submitted,

Urbain A. Goulet, Chairman  
Urban Renewal Authority

## OLD ORCHARD BEACH PLANNING BOARD ANNUAL REPORT

### PLANNING IS NECESSARY FOR DEVELOPMENT

"DIRIGO" (I direct) holds the key to the future--either we plan and direct the use of land resources, or we continue to pay the multimillion dollar price for haphazard thoughtless, indiscriminate development.

Planning is really a process by which we allocate resources. If there were an unlimited supply of land and water, there would probably be little need to plan its use. We do have limited resources--in fact, clean water, clean air, space, and quiet are downright scarce in many Maine communities. We must plan and thereby carefully allocate resources as to insure their maximum contribution to the community.

Planning and regulation of the use of land and water limits some of the rights of individual landowners, but it protects many of their individual rights. More important, planning and regulation of land and water use insures the best, highest, and multiple use of resources in meeting the needs of man and his society.

Maine planners recognize that approximately 85 percent of the state's total land area has severe limitations for sewage disposal systems and that the location of new homes in rural areas must be carefully planned. Scattered

houses, with septic sewage disposal systems on soils with severe limitations, present a potential economic and pollution problem of almost unsolvable proportions.

Maine planners know that only about 80 percent of the state's total land area is suitable for playing or athletic fields and that new school building sites must be very carefully located. Recreation fields are one of the important and costly considerations in school site and facility development.

The Planning Board held ten (10) official meetings and a number of workshop meetings with the Planning Board Consultants, Dickson Associates. Some of these workshop meetings were held at their office and others were held at the Town Hall.

Several joint meetings were held with the Housing Authority and the Urban Renewal Authority.

According to State Statutes, all development plans must be submitted to the Planning Board for approval and only one was submitted this year.

#### COMPREHENSIVE PLAN FOR 1971

1. Review of the entire planning policy since the last review was held in 1960.
2. It would be wise for the Town to consider updating and projecting for the year 1971-1972 subject relating to:--Zoning Land use and a look at the waterfront both for municipal and recreational purposes. Also Housing has a great need.

Consultant firms employed by the Town were two (2). One for updating the comprehensive plan and for the recertification of the workable program requested by the Federal Government. The second consultant firm was employed by the Town to survey the need for separation of storm and sanitary sewers and also secondary sewerage treatment plant.

The projects completed for the year 1970 were: The traffic survey conducted by the State, the new extension

sewer line on the easterly side of East Grand Avenue and the new Town Garage.

Action by the Town Code enforcement for the year 1970 has improved to some degree since its inception with the look to future progress.

The problem of having the duplicated names of streets changed is still in limbo. No action by any of the Councils has been taken in the last three years. It might be wise for the Planning Board to present this to the new 1971 Council for consideration.

Comments by the Planning Board members for 1970.

Respectfully submitted,

Charles S. Sherman  
Planning Board Chairman-1970

1970  
**ZONING APPEALS BOARD  
ANNUAL REPORT**

The members of the Zoning Appeals Board for 1970 were Charles E. Day, Sr., Chairman, Frederick T. Hayes, Peter Zafirson, Clarence Roberts, Sumner Johnson, Prescott Verrill, Alternate, and Richard Sweeney who resigned during the year when he moved out of Town.

Twenty-six appeals were processed. Three of those were not heard because according to the Zoning Ordinance, the Board did not have the authority to rule in those specific cases. Of the twenty-three appeals heard fifteen were granted and six were denied. Because of insufficient information, two were tabled.

Appeals varied in that fourteen were for footage or space and bulk variances, five were special exceptions pertaining to building use and four were for home occupancy.

Respectfully submitted,  
Sandra Manduca, Secretary  
**ZONING BOARD OF APPEALS**

**REPORT OF THE BUILDING INSPECTOR**  
**1970**

To the Honorable Council and Citizens of Old Orchard Beach:

I hereby submit the following report for the year 1970.

Building permits were issued with an estimated construction cost of \$931,957. A breakdown of the permits follows:

New construction —	
23 Homes	315,300.
11 Motels	244,500.
1 Church	135,000.
15 Residential garages & carports	24,625.
5 Swimming pools	21,480.
4 Stores, business & amusement bldgs.	41,400.
	<hr/>
	782,305.
81 Additions, alterations & repairs	126,002.
27 Buildings to be moved	21,850.
6 Buildings to be demolished	1,800.
	<hr/>
	149,652.
	<hr/>
Total	\$931,957.

Fees collected amounted to \$694.

This year fourteen houses were condemned as not fit for human habitation. Four of these are being repaired to bring them up to standard. The contract has been let for the demolition of the other ten.

Two violators were taken to court.

Respectfully submitted,

John T. McNeill,  
Building Inspector

## REPORT OF HEALTH OFFICER

The severity of the past winter has dramatically impressed us with the inadequacies of the antiquated sewer system in the camp ground area. At one time a family was without sewer services for over four weeks and in several areas of this section, pipes only a few inches below ground froze solid and taxed the ingenuity and patience of both citizens and sewer department. I wish to personally acknowledge the outstanding dedication to duty of Mr. Paul Harvey and Mr. Al Geaumont who worked many hours in sub zero weather in a valiant effort to reopen frozen sewer pipes and avoid an otherwise difficult and dangerous situation. Our Town manager has recommended that a long range program be undertaken to correct this situation and I am sure most citizens will agree that this vital basic necessity head our list of priorities.

Waste collection has improved and I am pleased to have received the cooperation of all operators of tent and trailer sites which were visited. In most instances I found conditions clean and sanitary but in some, firm orders to "clean up" was necessary. All inspections were conducted on a follow up basis and in some instances I visited areas as often as five times in a week.

Once again I am pleased to report that I was able to carry out my duties with the courteous cooperation of the Police Department and as always with the willing and ever ready Mr. Armand St. Hillaire.

Respectfully submitted,

Louis DeAngelis  
Health Officer

## PUBLIC HEALTH NURSING REPORT

The following is the report of visits made during the past year:

Adult Health	16
Cancer	100
Cardiac	37
Crippled Children	30
Infants	10
Morbidity	955
Post-partum	3
Pre-School	12
School	7
Tuberculosis	1
Veneral Disease	2
Social Service	70
Communicable Disease	8
In behalf of	13
Antipartum	1

The Immunizations Clinics were held the second Tuesday of the month except July and August. There were a total of 341 children receiving DPT, Polio, Small-pox, German Measles, and Measles.

The State has been making a concerted drive in the attempt to immunize all children against German Measles. Also anxious to reach all possible for the old fashioned Measles. We have had it available at our clinics in the hope that both may be eradicated as quickly as possible. May we urge anyone with pre-school children who have not yet received the immunization to either attend the clinic or their own physician.

There have been numerous "continuing education" meetings which I have attended as time permitted.

The Medical Advisory Board has continued to serve in advisory capacity.

The Agency continues to receive supervision and consultation from the Maine Department of Public Health.

To the Doctors, the volunteers who have helped with the Clinic and the members of the Advisory Board for their support my sincere thanks and appreciation.

Respectfully submitted,

Helen Curry, R.N.

## ENTERING AGE

Six years of age on or before October 15th of the school year, shall be admitted to grade one.

Five years of age on or before October 15th of the school year shall be admitted to Kindergarten.

## SCHOOL STORM SIGNALS

The no-school signal will be sounded by the fire alarm signal at 7:00 A.M.

It is advisable to listen to radio stations WIDE Biddeford, WCSH and WGAN Portland, as announcements will be made.

Weather reports are not always reliable and since the School Department desires to tender maximum educational service by having school in session the greatest number of days, storm signals will not be used when there is reasonable doubt.

Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

## MEETINGS

The School Committee holds its regular monthly meeting at the Loranger Junior High School Library on the fourth Friday of the month at 7:30 P.M.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To: The School Committee and Citizens of Old Orchard Beach, Maine:

During the past year the Junior Naval R.O.T.C. program has become a reality in the Old Orchard Beach High School. This program is designed to give the students an insight into the Naval Sciences as well as a history of the Navy. Under the leadership of Commander Kelly and C.P.O. Bailer, the youths enrolled in the Junior Naval R.O.T.C. program have not only become excellent school citizens, but also excellent community citizens.

The enrollment of the Old Orchard Beach Public Schools have steadily increased over the past two or three years. There is serious need for the consideration of additional facilities or the complete study of a year round school.

The Public schools are currently being offered to the citizens of Old Orchard Beach for many various events. Some of these are Town Meetings, square dancing and recreational activities.

The Adult Evening School has increased over 100% from last year. Some of the courses being offered are English, History, Psychology, Physical Education, Upholstering, Business Programs etc.

The School Department is doing, to the best of its ability, all it can for children with learning disabilities. Students currently are attending Saco Educable Classes, Saco Valley School for trainables and Abilities and Goodwill School for educables and trainables.

I feel the School Department should seriously consider a Remedial Reading specialist and also a Speech Therapist. The Speech Therapist could and should be employed by the Union.

The citizens of Old Orchard Beach should be proud of their School Committee members. They work extremely hard for the benefit of all students.

I want to express my sincere appreciation to the members of the School Committee, Town Officials and citizens for their help during the past year.

Respectfully submitted,

Howard L. Cushman,  
Superintendent of Schools

## SCHOOL NURSING REPORT

### 1970

January, 1970 along with the usual winter time cold infections we had the start of a wave of German Measles that reached epidemic figures. This was quite well controlled by a German Measles Vaccine Clinic held in March and 605 children were given shots. This Clinic cut off the rate of infection apparently and luckily, no known damage has occurred to new born infants in the area.

A second round of Polio Vaccine was given in late April to 93 students. (The first Clinic of the Monovalent Polio Vaccine was given in December, 1969 to over 643 of the students and was a booster for them.) A second German Measles Vaccine Clinic was held late in the Fall for the kindergarten group and over 70 children received shots. About half of the total Kgn. class had already had the shot before entering school. Totally the most susceptible age group have now been inoculated against German Measles thru the school and Town Nursing Clinics during the past year.

TB Time Testing was given to the Kgn., Grs. 7, Senior Class group, new students and teachers and other adult school personnel during the Winter and Spring Terms. Xray follow up was done when indicated and protective medication given. This program was very extensive and time consuming but necessary for everyone's protection.

Our regular programs of checking for possible vision or hearing problems or defects were carried in Kng., Grs. 1 - 4 - 7 and Freshmen classes plus new students and rechecking past student records. Physical check ups were also given to several grade levels of students and athletic groups. These programs were supervised and carried on with Dr. Stephen Polackwich and Dr. Donald Skilling.

New Statewide Standards for reporting Vision and Hearing programs were given to us during the early Fall Term and we have adapted our records accordingly. (Our vision program has been more than adequate to meet

these new standards and with some adjustment the audiometer hearing testing will be also for the future.)

We have a number of individuals, groups, service clubs and others to thank for help and cooperation during 1970. Teachers, Parents, Lions and Kiwanis Clubs, local and State Departments of Health and Education provided much help and assistance for our students. Our local hot lunch program was recently expanded at the end of 1970, under Federal Standards and now reaches a much larger number each day.

Our thanks and appreciation goes to many.

Yours respectfully,

Agnes Murphy, R.N.  
School Nurse

## PRINCIPAL'S REPORT OLD ORCHARD BEACH HIGH SCHOOL

### SCHOOL YEAR: 1970

Our follow-up studies of the class of 1970 as conducted by the Guidance Department indicate the graduates are presently engaged in the following activities:

Four year colleges . . . . .	.20%
Two year colleges . . . . .	.10%
Business schools . . . . .	3%
Other specialized schools . . . . .	3%
Military service . . . . .	.13%
Work force . . . . .	.38%
Marriage (women) . . . . .	4%

The record indicates that 45% of this class has gone on to some type of higher education. However, it does not indicate that many of the students who have entered the work force have already received specialized training for employment through various other school programs.

For example, this September marked the second year that Old Orchard Beach students have attended Biddeford Vocational High School studying such specialized fields as carpentry, automotive mechanics, electricity,

and data processing. Many of our graduates are able to enter well-paying jobs immediately after graduation because of these specialized skills. This year about 50 juniors and seniors are participating in the program, taking their academic subjects here and being transported to Biddeford for the vocational subjects. Many thanks go to Mr. Melvin Guay, Principal of the Biddeford Vocational School, for the smooth co-ordination of this helpful program.

New this year is a state sponsored Co-operative Work Study Program which allows the student to do practical work in various trades and occupations in the morning and attend classes in the school in the afternoon. The co-op program is under the direction of Mr. Ralph Jones and has twenty-one students. Much of the success of this program has been due to the excellent co-operation of local businessmen who are willing to accept students within the program. The student receives 2 credits towards graduation for his job, and is paid and evaluated by his employer.

Also new this year has been the Naval Science program, a branch of the Junior Navy Reserve Officer Training Corps, under the direction of Commander William Kelly, USN (Ret) and Chief Petty Officer Donald Bailer USN (FR). This program allows the student to take a college preparatory program with emphasis on general maritime and naval topics. Old Orchard Beach has traditionally had many students who go on to the various maritime academies, and this program has proved to be very popular with the students. About sixty boys are enrolled this year, and next year the program will be officially opened to girls. Completion of this program does not require the student to join the navy or make him any more liable to the draft. The program does, however, give the student the opportunity to see how a navy program works, and what it has to offer him.

The school is still using its honor card system with great success. A student who attains the honor roll for any quarter receives an Honor Card for the next ranking period. This card entitles him to free admission to all home games,

use of the National Honor Society Honor Lounge during study periods, and early dismissal from school in the event of the student's having a study hall at the end of the day. The National Honor Society has recently raised more money for their lounge and have installed wall-to-wall carpeting and a generally new decor. All citizens are invited to see this room when they visit the school. Mr. Paul Nichols of the faculty has done excellent work as volunteer advisor to the National Honor Society.

Next year this school must make active preparation for accreditation by the New England Council of Secondary Schools and Colleges. In general, our physical plant is excellent, but there is expense associated with the visiting committee and their recommendations.

In closing I wish to thank the School Committee and Mr. Howard Cushman for the excellent co-operation they have shown in making these programs available to the youth of the community.

Respectfully submitted,

Jerome LePelletier, Principal

## CHARLES A. LORANGER JUNIOR HIGH SCHOOL

Enrollment as of December 31, 1970

Grade 5	28
Grade 6	107
Grade 7	93
Grade 8	122
	<hr/>
	350

With the opening of school in September a greater enrollment over the previous school year resulted in the addition of another sixth grade and teaching position. It also resulted in the loss of the Study Hall as such. Mr. Louis Ladakakas was transferred to that position with

Mr. Roger Sevigny joining the staff as an eighth grade science teacher.

A Science-Hobby Fair was held late in the spring in the Science Lab and school cafeteria with the enthusiastic participation on the part of a number of students. With the warmer weather the Fair was well attended by parents and the lay public during the evening.

In testing the Otis-Lennon Intelligence Test was administered to students in grades 5 and 7 late in January. The Differential Aptitude Test was given by Mr. Frank Duley, Guidance Department, to eighth graders last spring. The Iowa Test of Basic Skills was administered during November to students in grades 5, 6, and 7.

In a fairly well rounded athletic program a baseball team, under the coaching of a student teacher from St. Francis College, participated last spring in the local junior high school league.

Last fall the football team, under the coaching of Mr. John Ladakakas and Mr. Anthony Tsomides, had its second successful season by winning the League championship and accompanying trophy. Through the kindness of the local Kiwanis Club and funds from another source, jackets were awards to the players at a special assembly.

For the girls a group of Cheerleaders, under the direction of Mrs. Jesse Hemphill, was organized and actively supported the school's athletic teams during the year. With a great deal of initiative and work the girls raised last fall funds to acquire new uniforms.

The Ski Club program was continued under the supervision of Mr. Rodney Coomer, making a number of trips to Lost Valley, Auburn, when the weather made such trips possible.

An Industrial Arts program has been continued for boys in the seventh and eighth grade, each receiving a semester of instruction, under the direction of Mr. Ralph Jones and Mr. Ronald Jenkins. Likewise, too, the Health Education program has been continued under the direction of Mrs. Sharon Smarc for students in grades 5, 6, and 7.

In closing four student dances were held, culminating last spring in a May Ball. Much of the credit for planning, organizing, and directing these activities goes to the members of the Student Council.

Respectfully submitted,

H. Francis Griffith

### JAMESON SCHOOL

Enrollment as of December 31, 1970:

Grade 3	116
Grade 4	126
Grade 5	82
<hr/>	
	324

The beginning of the school year in September saw a number of changes at the Jameson School.

During the summer recess necessity saw the cafeteria changed into two excellent classrooms for an enlarged enrollment. An additional fourth grade was added along with a third grade being transferred from the Elementary School.

Circumstances, with the loss of the cafeteria, forced the establishing of a staggered morning recess and lunch period during the noon hour as meals were delivered to the many classrooms. Through the excellent work of the cafeteria personnel and the Volunter services of junior high students, lunches are served quickly and efficiently.

Staggered recesses have meant fewer students are on the playground, minimizing overcrowding, and providing for more space per student.

The Otis-Lennon Intelligence Test was administered last January to students in grades 3 and 5. In a continuation of the regular testing program the Iowa Test of Basic Skills was given to students in grades 3, 4, and 5 last November.

Parent-Teacher Conferences were scheduled at the end of the first ranking period in November. By appointment a majority of the parents had scheduled conferences with their children's teachers. Only by mutual cooperation and understanding, by parent and teacher, can we hope to educate successfully each child.

A committee of elementary and junior high school teachers, in a series of meetings covering a period of months, evaluated a great many report cards, and finally recommended for adoption a series of new report cards for the several grades.

In closing it can be added that with the addition of another teacher aide this fall greater service has been possible to the many teachers and more individualized instruction within the classrooms.

Respectfully submitted,

H. Francis Griffith

**ELEMENTARY SCHOOL**  
**Principal's Report**  
**1970**

The following is a report of the Elementary School for the year beginning January 1, 1970 and ending December 31, 1970.

	Enrollment	
Kindergarten	(4 classes)	134
Grade 1	(5 classes)	134
Grade 2	(4 classes)	124
	Total	<hr/> 392

Our last third grade was moved to Jameson School in the fall. A new first grade was added in our building to take care of overcrowded conditions on that level. Our total enrollment, because of this change, decreased by 19 compared to last year's figures.

## Transportation

There were 282 pupils transported to the Elementary School. This shows an increase of 34 pupils compared to the figure reported last year. The children came from the following areas.

Union Avenue	56
Halfway	148
Ocean Park	34
Milliken Mills	44

Six pick-ups were made in the afternoon at the close of school and one at 11:30 for the morning kindergarten group. An additional bus was used starting in the fall.

The teachers appreciate the cooperation of Mr. York and the bus drivers throughout the year.

## Hot Lunch and Milk

Mrs. Helen Allen and Mrs. Elizabeth Regan were in charge of serving hot lunch. It is prepared at the Loranger Jr. High School and delivered to us by Mr. French. Approximately 175 children were served daily.

The pupils taking hot lunch and those bringing a lunch from home are supervised by a teacher and three aides. Our custodian, Mr. Podchalski, also remains in the building during the noon hour to assist.

Approximately 132 children were served milk during recess in the classroom.

## Health

Mrs. Agnes Murphy, school nurse, visited our building every Monday and, when necessary, on many other occasions.

In the fall the classroom teachers weighed, measured, and tested eyes and ears of all pupils. Mrs. Murphy rechecked pupils who had difficulty on the visual and auditory testing in the classroom.

Dr. Donald Skilling, assisted by Mrs. Murphy, examined all kindergarten pupils, new pupils, and any students where a need seemed apparent in the other grades.

Dr. Stephen Polackwich examined all kindergarten and first grade pupils during the fall term. Second grade pupils, who have difficulty on the classroom check, are also examined at this time.

### Testing

Throughout the year several tests are administered and recorded on the pupil's permanent school records. Kuhlmann-Anderson Intelligence Tests were given to all first graders. New pupils in grade two are given the Otis-Lennon Mental Ability Test. Basic reading and math tests are also used periodically in grades one and two. Consistent and frequent evaluation in these two areas provide the teacher with information concerning the effectiveness of her teaching and in the progress of the class.

### Report Cards

There are no report cards for kindergarten classes. Instead, parent-teachers conferences are held in the fall and spring terms.

A new report card was used this fall by first and second grades. They are sent home four times during the year. Parent-teacher conferences also took place in the fall.

### Fire Drills

Frequent fire drills took place during the year to prepare the children to make a quick and safe exit in case of an emergency.

### Banking

Banking day at the Elementary School is on Tuesday. The Saco and Biddeford Savings Institution provides facilities for this service.

## Insurance

The Gilpatrick Insurance Agency supplied the school with insurance forms which were distributed to the children in the fall. Many parents took advantage of this opportunity to insure their child. Claim forms are available at the school for any injury during the year.

## Grade Meetings

We have continued to hold monthly grade meetings on each grade level to discuss the curriculum, new materials, ideas and the progress being made on each level.

## Television

The State Department of Education provides the classroom teacher with guides for each program viewed on Maine's Educational Television Network. The guides recommend the programs to be viewed on each grade level and suggest material to be presented before and after the television lesson is viewed by the class.

## Teacher Aides

Teacher aides at the Elementary School are Mrs. Esther Taylor, Mrs. Lois Benway, and Mrs. Irene Cooper, who came to us in the fall. The aides have helped to upgrade classroom instruction by freeing the teacher from routine and non-professional activities. Giving the teachers this needed support in the classroom has provided enriched educational opportunities for all pupils in existing overcrowded conditions.

Their duties consist of supervision of the playground, cafeteria, halls and bus loading. They do clerical work pertaining to school records, collect lunch and milk orders, correct papers, conduct small group drills, assist individual children with assigned lessons and many other tasks which help the teachers.

We all appreciate the efforts of our three aides.

## Closing

In closing, I wish to express my sincere appreciation to Mr. Cushman and the School Committee for their cooperation throughout the year. I would also like to take this opportunity to thank the teachers for their cooperation and untiring efforts in behalf of the children of this school.

Respectfully submitted,

Lois Martin

## REPORT OF THE SEALER OF WEIGHTS AND MEASURES For the Year 1970

In 1970 I tested 21 gasoline pumps and found all except 3 to be in good working order. These three were replaced.

50 scales were tested and found to be in good working order.

Respectfully submitted,

Clarence Roberts  
Sealer of Weights and Measures

Report of  
TOWN MANAGER  
1970

I herewith submit my report for the year 1970:

The East Grand Avenue sewer was completed to the Friendship Motel.

A new Town Highway Garage was completed and this building is a credit to the community.

Revaluation of property which was started in 1969, was finished.

The certification of the Workable Program and the sewer field survey was done and these reports will be available early in 1971.

Negotiations with the Labor Union for the Public Works Department were held and a contract signed.

The Maine Retirement System for all eligible Town employees was accepted.

A Charter Revision Committee was accepted by the voters of the Town and they are working on this very important policy making project.

A Cable TV Ordinance was accepted by the Council as well as a Dog Ordinance.

A soil study for Old Orchard Beach was made by the County Soil Conservation Department.

A Tax List, showing all property tax valuation and amount of tax was prepared and will be available at the Town Office early in 1971.

Conditions around the dump area were vastly improved, but another location is a must very shortly.

Some enforcement of hazardous buildings was shown this year, and hopefully, this will be only a beginning in clearing up conditions that affect the valuations, appearance and health conditions of other taxpayers in the vicinity of such areas.

Gas bids were submitted for the various departments and Texaco was the successful bidder.

One new Police Cruiser was purchased in 1970.

Painting of the Treatment Plant, storage and other buildings was started.

A Drug Control Center was in operation during some of the summer.

A Halloween party was held for the children.

The various departments sponsored a Paint-Up-Clean-Up-Fix-Up Campaign last Spring. It is our hope that a larger participation can be had during 1971.

The three major classifications of people, each having their own opinions and problems, causes a community like ours to become very diversified in programming a Capital Improvement Program. Namely, people who operate a summer business, people who own and reside here in the summer and those who live here year round.

The people who come here for the summer business pay a very high rent, plus their personal tax and they feel that consideration should be given to them for at least the three months they are here. We have the summer people who own their own summer homes here and they too feel that special service be rendered. The people who live here year round, having the use of all facilities, feel also that they too should be considered for services, and rightly so. This brings up the major problems confronting Old Orchard Beach: sewers, storm water, roads, sidewalks, lighting and general cleaning of the entire area.

In the next six years, the Environmental Improvement Commission has stated we must have our abatement of pollution in operation. There is no doubt they mean business and let no one ignore the positive fact this is going to be a major financial burden on the community. The first step that should be taken is to separate the storm water from the sanitary system; secondly, to place all areas under the sewer and storm drain system; thirdly, to erect the secondary treatment plant; fourth, to ascertain the method of paying the interest and principal on the bond issue and the operation and maintenance of such a plant.

The next major construction should be the building of permanent streets and sidewalks, with the proper contour and drainage. This also will be a large financial outlay.

The above should be the Capital Improvement Program during the next ten years.

In the meanwhile, the Town of Old Orchard Beach should be getting ready for these projects by: updating the equipment for the Public Works Department, buying equipment and machinery that foreseeably can be used for this construction and the general work of the Public Works Department.

The major criticism, excepting taxes, that I have encountered since I have been here, is in this order: Storm-water, sewage, street, sidewalks, and I suppose plowing snow will be a major discussion and rightly so, as you cannot plow snow when the equipment is always broken down. The number of man hours lost while equipment is broken down is tremendous and this is wasted dollars.

Also, constructing buildings for the Fire, Police and Administrative offices, which today are operating in a very inefficient manner, is badly needed.

Other matters of major importance are updating the Police and Fire Departments, enforcing ordinances, traffic flow, updating our street lighting system and parking and street signs. A dump site is an immediate need. Additional equipment is needed to keep our beach cleaned.

Old Orchard Beach has the committees set up for local service, but the ineffectiveness and lack of activity of these committees should be of grave concern to the Town Council. It is strongly suggested that people on these committees serve or be replaced. Hopefully, the people of Old Orchard Beach will seriously consider the need of revising the Town Charter and participate in the forthcoming meetings.

To the elderly, sick, disabled, it is my hope that the Town Council will exert every effort at their command

during the next legislative session to relieve the tax burden now placed on them.

As the year closes, may I express my thanks to the Town Council, my fellow co-workers and the people of Old Orchard Beach for their cooperation, hospitality and kindness to Mrs. Ayooob and I.

Louis E. Ayooob  
Town Manager

State of Maine  
DEPARTMENT OF AUDIT

June 2, 1971

To the Members of the  
Town Council  
Old Orchard Beach,  
Maine

In accordance with Title 30, Section 5253, Maine Revised Statutes Annotated of 1964, as amended, an audit has been conducted of the financial records of the Town of Old Orchard Beach for the year ended December 31, 1970.

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

Within the scope of the examination, the financial transactions were appropriately handled, with such exceptions as may be noted in the accompanying commentary.

In our opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town at December 31, 1970, and the results of its operations for the period indicated.

Respectfully submitted,  
R. M. Rideout, Jr.  
State Auditor

RMRJr:sv

## SCOPE OF AUDIT

The system of internal control was reviewed as it pertained to the handling of cash and other matters of financial concern. Cash accounts were verified by reconciliation of bank statements and count of cash.

An analysis was made of receipts and deposits as well as disbursements and bank charges. Vouchers, payrolls and cancelled checks were examined on a selective basis. Letters of confirmation were used on a test basis to verify the correctness of recorded assets and liabilities.

Revenue accruing to the municipality from various sources was reviewed and checked to pertinent records. Records of council meetings, as they pertained to financial matters, were reviewed. Surety bond coverage was examined.

The cash records of the Edith Belle Libby Memorial Library were examined, the cash balance was reconciled and the investments were verified.

## COMMENTS

### OPERATIONAL RESULTS

The operations for the year showed a net gain of \$100,592.88 which was accounted for as follows:

Departmental Operations:	
Unexpended Balances	\$105,038.10
Overdrafts	21,692.72
<hr/>	
Net Unexpended	
Balance	83,345.38
Actual Over Estimated	
Revenue	17,247.50
<hr/>	
Gain For Year	<u><u>\$100,592.88</u></u>

The overlay and unexpended balances in contingent, interest and planning board accounts, less tax discounts and abatements, and overdrafts in the public works, administration and insurance accounts were the major factors contributing to the net unexpended departmental balance lapsed. The records did not indicate that authority had been granted by the legislative body allowing overdrafts in appropriation accounts.

\* \* \*

The following comments pertain to the accompanying financial statements:

ASSETS. . . . The general fund cash balance totolled \$159,238.16 at December 31, 1970. The bank balances used in reconciling this amount were confirmed by the depository. Petty cash was counted.

Accounts receivable amounting to \$7,213.28 at the close of the year consisted principally of fees due from individuals for sewer permits and welfare funds due from the state and other municipalities.

Taxes receivable totolling \$294,456.66 consisted princi-

pally of current year accounts of \$283,551.04. The remaining balance of \$10,905.62 was for prior years dating from 1965. Tax liens and tax acquired property amounted to \$65,358.71 and \$492.13 respectively.

It was noted that uncollected taxes and tax liens totalled approximately \$360,000.00 at the close of the current year. It is again recommended that the delinquent accounts be reviewed to determine their collectibility and administrative action be taken accordingly.

**LIABILITIES, RESERVES AND SURPLUS.** . . . Accounts payable totalled \$108,935.95 at the year end. Included in this amount were unpaid school department bills of \$29,208.21 for November and December 1970, various other departmental bills totaling \$55,621.20, a balance of \$50.00 due on county tax assessment, \$21,000.00 due the school district, \$2,700.00 due the Edith Belle Libby Memorial Library and tax overpayments of \$356.54 to be refunded. Tax anticipation notes totaling \$200,000.00 and withholding, social security and State income tax deductions totaling \$24,132.94 were unpaid at December 31, 1970.

Net unexpended departmental balances of \$2,587.83 are carried forward to the ensuing year in accordance with legal requirements and/or customary practices. Excise taxes totaling \$4,437.01 are reserved for future allocation.

The unappropriated surplus amounted to \$99,115.00, an increase of \$50,176.97 for the year. This change was occasioned principally by the net unexpended departmental balance and actual revenue over estimated, less a transfer to reduce the current year tax levy.

Appropriated surplus, established for tax losses amounted to \$13,467.41, a decrease of \$13,887.68 from the previous year. This change was occasioned by a write off of unpaid prior years taxes.

**DEBT FUND.** . . . The debt fund, incorporated in the balance sheet as a separate fund, shows various purpose outstanding bonds of \$658,000.00. These obligations mature during the ensuing fifteen years.

# TOWN OF OLD ORCHARD BEACH COMPARATIVE BALANCE SHEET

## GENERAL FUND

December 31, 1970

December 31, 1969

	Assets	
Cash on Hand and In Bank:		
General	\$102,289.84	\$ 56,141.85
Capital Improvements	56,838.32	148,837.46
