THE 56TH ANNUAL.

GLORIOUS WEATHER FAVORS NOR TH FRANKLIN FAIR PEOPLE.

Cattle Show Big Success, Although Exhibit Is Not as Large as Some Years. Races on Second Day Good, and Attendance Large.

The first day of the 56th annual exhibition of the North Franklin Agricultural society opened on Tuesday morning under the most auspicious circumstances. Although it looked threatening as to weather, it did not keep the crowd from coming. At an early hour secretary D. R. Ross, assisted by Mrs. Nell Parker, began to take entries and they were kept busy all the rest of the forenoon, for a good number of cattle entered than this year. Ticket Agent C. N. French told the reporter that the crowd was much ahead of that for a first day for years.

Out on the grounds were drawn up in four rows the town teams, four towns being represented: Phillips, Strong, Avon and Madrid. They were the most promising looking teams that North Franklin has seen at a fair for many a day. In fact the cattle show was a big success all around.

In the hall the musical exhibit of Cressey and Allen drew a big crowd. It was presided over by Messrs. W. R. Cressey and Irving Foss of Farmington. Miss Lucille French played the piano and in between times Mr. Foss favored the crowd with selections on a Victor talking machine.

Among the fancy cattle seen on the grounds were a fine Durham cow and a 2-year-old heifer that were the property of Mr. C. F. Lewis of Strong. They had taken three blue ribbons at Phillips fair and two at Farmington fair and were in line for another one here.

The glorious September weather of the afternoon Tuesday brought out a large first day attendance and with a dozen auto parties from near by places and a throng of vehicles the scene was an enlivening one.

The agricultural hall and the cattle show were the centres of attraction for the older people, while the Midway with a variety of entertainments, victualing places, games and fakirs held the attention of the crowd of pleasure seekers. The trials of strength and discipline of oxen and steers and exhibition of beef cattle, working oxen and matched cattle were the centres of interest for the lovers of cattle and the trials of strength, of course, attracted the usual big, enthusiastic crowd who cheered and encouraged at each test. These trials were evidently of great interest to the city people in the autos who drew up in line and viewed the contests.

Once a big pair of oxen stared with its drag load straight for a chaffeur, who became alarmed, turned on the power and so scared the oxen that they turned right round and dragged the load back to its starting point, amidst the applause of the hundreds. The owner said that his oxen had never seen nor heard an auto before and he doubted if there was ever such pulling on a fair ground and the crowd agreed with him.

The number of cattle entered in the draught contests was smaller than usual but the individual teams were scarcely ever unexcelled. In the general cattle exhibit there was also a much smaller number than usual shown, which was explained by Secretary Ross, who said that the recent rainy weather and the weather conditions of the morning prevented many intended exhibitors from coming to the fair.

The same cause was responsible, the secretary said, for the tardiness of the arrivals of the farm crops display which was unusually small, though excellent.

As one intending exhibitor remarked, "After such disappointments in a weather way at Lewiston and other Maine fairs and the uncertain weather coupled with the rather backward season I did not get up courage to get my usual exhibition ready and several of my neighbors were likewise situated." The general exhibits, though smaller in quantity or variety than in former years were of superior quality.

THE MIDWAY.

One could get almost anything on the Midway. Old Uncle Bill Jones was there selling dry goods at auction same as he has been doing for the past 75 years, it seems.

He was surrounded by a car load of sundry wearable articles which reminded one of the coming winter and he held up the price pretty well on the theory that milk had gone up to ten cents a quart in the cities and cotton had soared way out of sight.

The African dodger, the pink lemonade, popcorn, frankfurter, bowling pin men and sundry others grouped themselves opposite the grand stand and there were fakirs, barkers and bally-hoo howlers who lent color to the scene. There was a commendable absence of gambling games or catch dime affair, and the best of order was maintained.

In one tent Uno beer was sold, the man in front catching the passers by with a sly wink and he usually entered and paid a high price for a drink which was strictly within the law.

The big autos in blue, black and red with their parties darting across the grounds, at times caused a stampede among the horses unaccustomed to them and this kept the crowd on the alert for excitement.

Second Day, Wednesday.

The largest crowd for a second day ever was the record of Wednesday. The fine weather continued and brought out over 2,500 people who enjoyed a rare day's entertainment. In the morning a large crowd were attracted by the exhibition of horses which was pronounced to be one of the best ever witnessed at the fair. All the horsemen for miles around were there and the various classes were well filled.

The entries in the Agricultural hall were numerous and the display was commendable. The musical exhibit of Cressey & Allen of Portland, who showed a fine Regent piano and several Victor talking machines was an attractive feature of the hall and greatly pleased the crowd.

In the ball game between teams from Strong and Phillips, Strong won by the score of 11 to 3. Richardson and Witham was the battery for Strong and Parker and Wing for Phillips. The game was for \$15. The Salem and Madrid teams failed to appear for the afternoon game.

The fair closed with another record breaking crowd and altogether the attendance has been so large that the management is already planning on a bigger, better and busier fair for next year. The attraction Thursday was the free for all and the 2.37 races. The weather has been excellent and all who attended the fair got their money's worth.

Great interest centered Wednesday in the horse show especially in the gentlemen's driving class in which Jesse Webber won 1st premium, B. F. Beal 2d and Fred Ellsworth 3d.

The winners in the various classes were as follows:

CLASS 19—Matched Horses.

The Horse Trots.

Two old-fashioned horse trots in the three minute and 2.24 classes produced excellent contests and were watched with great interest. The Phillips band enlivened the events and the grand stand was packed, while hundreds lined the rails. The track was in first-class shape.

Asher D. Horn of Farmington officiated as starter and had the satisfaction of seeing his speedy bay gelding Griffin Wilkes win out in the three-minute class in three straight after Belle Wilkes had taken the first heat. The judges were R. L. Withee and Elisha Bradford of Farmington and Warren Hinds of Phillips. Dr. C. W. Bell of Strong and Dr. J. H. Rollin of Portland officiated as timers.

In the 2.24 class there were three starters, Snip D., William J. Hinds and Tenerone, who finished as above named. It was a pretty race for honors between the leaders, and the best time 2:27 was remarkably good for the track.

There were five entries in the three-minute class which proved the most interesting event the contest between gamey Belle Wilkes, who was out of condition and Griffin Wilkes, a green horse, calling out enthusiastic plaudits of the crowd.

2:24 CLASS. Purse \$100.

Raffia Wilkes and Black Ledo did not start, leaving Snip D. owned and driven by L. A. Worthley of Avon, William J. Hinds owned by Mr. D. P. Thompson of Kingfield and driven by W. D. Page and Tenerone owned by H. R. Rideout of Phillips to contest for honors. After the start it was evident that the race lay between Snip D. and William J. Hinds.

It was a splendid race between them in the three heats, the finishes save in the third when W. J. H. broke, being close. Tenerone easily lost the pools in the first heat to Snip D. and held it thereafter.

It was a close finish in the second heat the time 2:27 being the fastest of the day.

The summary:

Snip D, b. g.,	1	1	1
L. A. Worthley, Avon			
Wm. J. Hinds, b. g.,	2	2	2
W. D. Page, Kingfield			
Tenerone, b. g.,	3	3	3
H. R. Rideout, Phillips			
Time: 2:27-1, 2:27, 2:30.			

3-MINUTE CLASS. Purse \$75.

All the entries appeared in this race which proved the event of the afternoon in which the game struggle lay between Griffin Wilkes and Belle Wilkes. Belle is the property of G. A. Staples of Phillips, and despite an injury to her knee from which she had not recovered, put up a contest worthy of her family name and compelled the victor, Griffin Wilkes, to get a 50 mark in the third heat, taking the first heat herself in 2.42.

Belle was a hard speedy scorer and half a dozen poor starts were the rule. She showed great speed but was unsteady at critical times, while Griffin Wilkes never left his feet under the guidance of DeBerna Ross, secretary of the fair association, who piloted him to victory.

Nellie L. a chestnut mare owned by H. H. Lander of Stratton left the grocery wagon the other day and made a wonderful showing winning third money. They scored six times in the first heat before finally Belle Wilkes, who drew the pole got away with the bunch. It was nip and tuck between her and Griffin Wilkes, Belle breaking at the three-quarter pole and in the home stretch but she steadied and won.

In the second heat she broke after getting the word and lost the pole to Griffin Wilkes who was never headed thereafter.

In the third heat Griffin Wilkes showed her speed when after a bad break she made up an eighth of a mile and won out amidst applause.

The final heat was rather easy for Griffin who was steady as a clock and showed lots of reserve speed. Griffin Wilkes took first money; Belle Wilkes, second; Nellie L., third and Black Diamond fourth.

The summary:

Griffin Wilkes, bay g.,	2	1	1
A. D. Horn, Farmington.			
Belle Wilkes, bay m.,	1	2	2
G. A. Staples, Phillips.			
Nellie L., ch. m.,	3	3	2

Liquor Seized.

Sheriffs Richardson, Merriman and Bubier seized a large amount of liquor in the freight house at the Maine Central railroad at Chisholm's Mills a short time ago. There were 16 sugar barrels of ale, 13 kegs of beer, nine gallons of gin, nine gallons of whiskey that had been seized of different parties in Chisholm's and being sent back to Boston. They also arrested an Italian on charge of single sale and seizure. Judge J. M. Thompson fined him \$150 and costs and he appealed.

Farmington Quarterly Meeting.

The Farmington quarterly meeting held its September session with the church at Reed's Mill the 10th, 11th, and 12th inst.

In this age of progress it has at last become possible for a religious gathering to be successful without regard to the state of the weather. Though the rain poured in torrents all day Wednesday, the little church at Reed's Mill was filled with people and they were well repaid, for the meetings were characterized throughout by a helpful earnestness which was contagious.

It was with much pleasure that the conference greeted Rev. S. Wakely, a former pastor in the Quarterly meeting. His sermon was greatly enjoyed.

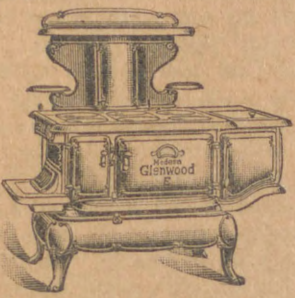

It was with real sadness that the beautiful sermon of Rev. E. H. Prescott was received, for this session marked the close of his official connection with the Quarterly meeting as he is about leaving Rangeley, where he has labored acceptably and faithfully for five years.

Other able sermons were preached by Rev. Longley and Rev. Williams and by Brothers Mitchell and Crockett.

Visitors at this session found that the good people of Reed's Mill have forgotten nothing of the gracious hospitality which has always characterized them, they are right royal entertainers.

The next season will be at the West Freeman church.

Mr. and Mrs. W. H. D. Keomer of New York and Mrs. Lusk of Michigan, who have been at Camp Gypsennia since the first of June returned Monday to their home. Mr. Keomer is a promising young illustrator of New York City, and is very much delighted with Weld. He has done quite a lot of sketching besides his other work this summer. Mr. and Mrs. Keomer intend to return again next year.

Mrs. Will Allen of Woodfords is the guest of her sister, Miss Mary Payne, at Camp Wooglin for a week or so.

Dr. Maurice Russell returned to Augusta Tuesday; he will remain with his people until the first of October, then he will go to Philadelphia and finish his course at the Dental school.

Mr. and Mrs. Fred Smith of Carthage, Mr. Andrew Smith and friend of New York are stopping at the Stanley camp on the west shore of the lake for a few days.

Sunday Schools at Rangeley.

The annual excursion of the Franklin county Sunday schools to Rangeley lake was held on Thursday last, and was attended by over 400. Glorious weather favored the trip and the day was most delightfully spent. Two trains were

Bad Symptomc.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional endorsement of each of its several ingredients—worth more than any number of ordinary non-professional preparations. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath.

In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this "Favorite Prescription." It will not perform miracles; will not cure tumors—no medicine will. It will often prevent them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

necessary and were run a quarter of an hour apart. From Farmington, Strong and Phillips large delegations attended. The lakes were reached at noon and trips by steamers and tours about the village made up a pleasant afternoon. The start for home being made at 4 o'clock.

In the party were many who made their first trip over the railroad between Phillips and Rangeley, and one old gentleman from Strong, a Mr. Pratt, said that he had not visited Rangeley before in sixty-one years. His description of Rangeley village of 60 years before was interesting.

Much credit is due the railroad management for handling the crowd without an accident and the trip through scenic Franklin county was a thoroughly enjoyable one.

THE town of Waldoboro is to have a shoe factory if her enterprising citizens, who have subscribed \$14,000 for the furtherance of the project can accomplish it. Like many Maine towns Waldoboro has natural facilities for manufacturing but no one has stepped to the fore to boom that feature. Waldoboro's example may well be imitated by Phillips and other Maine towns in Franklin county. We have unusual natural water power and railroad facilities and one of the best towns in the state and a board of trade. Would it not be timely and thoroughly proper for the welfare of Phillips to follow the example set by the citizens of Waldoboro and take steps towards securing the location of manufacturing enterprises here.

Costly In Human Lives.

In ancient times the great engineering works were costly in human lives. The making of the Red sea canal is said to have involved the loss of no fewer than 120,000 Egyptians. Buckle's examination made him believe the number to have been somewhat exaggerated, but he gives it as still a guide to the enormous waste of human life in those days. The men who kept 2,000 slaves engaged for three years bringing a single stone from Elephantine to the pyramids did not care a great deal so long as in the twenty years in which one of the pyramids was building there were forthcoming the 360,000 men required for the work.

How Border Used to Raise Burnt Land Wheat.

WEST PHILLIPS, Sept. 21, 1907.

To the Editor of MAINE WOODSMAN:

I have often been interviewed in regard to raising wheat on burnt land principally. It was in 1850 I being 20 years old. In the winter of 1850, I taught the district school at Madrid in the Dunham district with 40 scholars.

In the following spring I went to New York state, where I had a brother living. I secured a good position on the railroad, where I worked one year and liked my business when I received a letter from my mother saying, "Come home". That call was louder than any other call and of more importance to me than the whole of New York.

In the spring of '52 I went home resolved that I would see what I could get from the hills of my native town. My encouragements were poor, but I meant business.

I at once set about preparing for a crop of wheat that spring.

After doing the usual routine of sowing and planting I took a 12-years-old boy with me that was living with my father and mother, and went up on the hill and measuring off 4 acres of land heavily wooded with maple and birch trees and commenced to chop them down. The first day we made a commencement and the next day I laid plans to cut a drive. It is done by chopping on the under side of the tree on the down hill side and chopping on the upper side enough to weaken the tree but not enough to fall the tree even in the wind. Each tree on the upper side was notched so as to make it hit the tree below and carry the tree below so as to hit the one below that. Thus we chopped till noon and not a tree fell. It was hot and the trees were large and I began to wish I had not enlisted. Calvin said, "Let's go and get some eans and we shall feel better."

The afternoon was but a repetition of forenoon, and night came and but one tree fell and that was an accident. We let the whole day's work stand just as they were and commenced the next morning where we left off. We cut and mowed bushes and got ready to chop big trees as the day before.

Stomach troubles, Heart and Kidney ailments can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc.

A weak Stomach, causing dyspepsia, a weak Heart with palpitation or intermittent pulse, always means weak Stomach nerves or weak Heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop of Racine, Wis., will mail samples free. Write for them. A test will tell. Your health is certainly worth this simple trial. Sold by all dealers.

Towards night the boy was getting anxious, as he expressed it he wanted to touch 'em off. I told him we had not enough yet, we wanted to wake up the natives. Thus we cut and notched trees until most sundown. The wind and sun were going down and everything was hushed and still as night. Casting my eyes to the upper side I spied a large towering hemlock, just the tree I wanted for a starter. I told the boy we would cut that big hemlock and the circus would begin.

I cut the under side and steered the great tree just right and just as the sun was going down the great tree began to move.

The old hemlock struck the next tree just right, had it not have been notched any it must have gone to the ground. I was more than astonished, I did not think it possible for one man and a boy to make such a noise. The earth fairly trembled, it seemed that heaven and earth were coming together. The next day we measured the ground and there was one acre of ground in that drive of trees.

Our method was to chop all day and notch the trees and let them fall at the last thing at night. We chopped but a few trees without driving them. It saved a great amount of hard work as we wasn't falling trees for fun. Thus we toiled on day after day. One night we dropped our starter and the third tree did not start, what was to be

done? Two great trees were hung' on the third tree and it looked like death to the man who struck that tree with an axe. The body of the tree was piled with brush and liqbs. I had got to go under and cut it down. I walked cautiously cutting a path as I went. When I got to the tree I saw there were tons of weight resting upon it, I thought perhaps if I left it until morning it might fall during the night but I didn't do business that way.

I raised my axe to the notch and struck the tree lightly. No go. Again I struck the tree a little harder and it didn't start. Then I swung with all my strength, instantly a deafening report was the result and the whole mass was in very rapid motion. My axe remained in the notch, but I left. In an instant that great heap was down and I was just outside. The next day we did not drive many trees, they did not stand thick so they would reach the ones below. It makes one-half difference in the chopping if you can drive them and break them down. We lost some time on account of rainy weather; in eight days we had our chopping done in apple pie order. cases being on the docket and it will probably last three weeks.

It will be a notable term criminally for besides a long list of liquor cases there is to be heard a murder case, one of attempted murder and a bigamy case.

Harvey A. Searles, of Rangeley is to be tried for the murder of his wife, Phyllis, in Chesterville, July 14 last. Searles, a Rangeley guide, followed his wife to Chesterville and it is alleged killed her in a jealous rage, shooting his brother, Jesse, and then himself. The wife's wounds alone proved fatal.

Additional interest is lent to the case by the discovery on September 8, of the dead body of Ray Hutchins, the 18 years-old youth, who was to be chief state witness against Searles. The report of the autopsy on the body that death was due to suicide is not accepted by the dead youth's family who insist that there was foul play.

Elmer E. Richards, Esq., of Farmington will defend Searles and with the chief witness dead, the trial is sure to prove one of the most interesting held in the county in years.

Another case interesting to the people in this vicinity where both parties are known is that of C. Carroll Whitney, formerly of Strong, Temple and Kingfield, charged with having a surplus of wives. Whitney, who is known here, was arrested on complaint of a young woman whose name was Melvina Boleau, of Stafford Springs, Ct., and who claims to have been married to Whitney, in Boston, on board the steamer Bay State in July, 1904, by one J. H. Griffin, introduced as a minister.

Whitney was married to Miss Justine Ripley, a young Farmington girl by Rev. E. S. Longley of the Baptist church, in West Farmington on August 4, last. It also turned out that he had been previously married to Miss Sadie Gould Cunningham, now divorced from him. Whitney is about 32 years old and a painter by trade. No defence was offered by Whitney who was represented by Attorney E. E. Richards at the hearing in Farmington before Judge Locke.

Letters introduced written by Whitney to the Connecticut woman addressing her as "my dear wife" and begging her to return to live with him, together with the citation of a Massachusetts statute, legalizing marriages minus many of the usual formalities, caused the court to hold Whitney for the grand jury. The accusing woman stated that she lived with Whitney in Strong, Temple and Kingfield.

IS SEARLES INSANE?

Fate of Murderer Now Rests With Insanity Commission.

With the September term of the Supreme Court only four days distant, interest in the already famous Searles murder case reaches fever heat. While the general public is fanning its opinion of the probable outcome of the big trial, Hon. C. N. Blanchard, assisted by assistant Attorney-General W. C. Philbrook, counsel for the prosecution and E. E. Richards Esq., counsel for the defendant are probating every legal argument and both the prosecution and defence may be expected to present a thoroughly established case.

On Wednesday of this week, on demand of counsel for the defence and by order of the supreme court Harvey A. Searles, in charge of Deputy Sheriff Eaton was taken to Augusta to appear before the State Lunacy commission for examination. The result of the examination will have a very important bearing on the trial and a statement from the commission will be awaited with keen interest.

KILLED TWENTY SHEEP.

Remarkable Slaughter by Bears of Flock of A. R. Sedgely.

A. R. Sedgely, a well-known farmer living on Tory hill near the Freeman town line in the vicinity of Abram mountain lost 20 sheep of his flock of 60, between Friday and Sunday night last by bears and now there is a regular bear watch held about the premises.

Chairman Charles Chandler of the board of selectmen, was notified of the slaughter and visited the farm Monday. Evidences that more than one bear had attacked the sheep were abundant. Bones and wool of the slaughtered flock were found half a mile in the woods and on the bear trail a barbed wire fence with tufts of lamb wool on it was torn from the posts showing the path of Bruin towards his den.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. W. A. D. Cragin, Phillips; L. L. Mitchell, Kingfield.

One big lamb, half eaten was found in the woods and the dismembered parts were scattered far and wide indicating that there was more than one bear in the slaughter which is the largest recorded hereabouts in many years.

Mr. Sedgely just missed his lambs Friday morning when one was missing and Sunday night the general attack was evidently made as a score was found missing Monday morning.

The opinion is that at least two bears with their cubs did the work. At first, on account of the unusual number killed the opinion was that it was the work of dogs but on investigation it proved to be bears.

Their tracks were found all about the place. A watch was set on the sheep which are housed nightly but the bears have not put in appearance since.

Selectman Chandler will report the loss to the proper state authorities for the settlement of the claim for the lost sheep which holds the Maine record for bear killed animals at one time.

An auto party reported having seen a big bear in the roadway going towards the Sedgely farm one day recently. The bear was leisurely strolling along the pike when overtaken and quickly vanished into the woods. Abram mountain district is famous for its bears but the record of a score of sheep slaughtered is a new one.

THE CAMEO.

It Gets Its Name From the Cutting Not From the Stone.

The true nature of a cameo is very much misunderstood by the public generally. Most people think it is the stone itself, when in reality the method of cutting is what produces the cameo. The real meaning of the word is unknown, its derivation having never been discovered; but, correctly speaking, cameos are small sculptures executed in low relief on some substance precious either for its beauty, rarity or hardness.

There are emerald cameos, turquoise cameos, shell cameos, coral cameos. Indeed, any substance that lends itself to carving in such minute detail can be used for cameo cutting, and nearly all precious stones, except diamonds, have been so used for intaglios but never for cameos. Emerald is the most common precious stone from which cameos have been made, and there are some very fine emerald portrait cameos in existence, notably those of Queen Elizabeth in the British museum. Shell cameos were first made in the fifteenth century.

Banded onyx is generally used for cameo work because of its hardness and coloring, and it is this fact that has caused the misapprehension, the stone being used so much in making cameos that it has now become better known as "cameo" than by its right name.—St. Louis Globe-Democrat.

Interested In Antiques.

Professor McGooze (suddenly checking himself)—Pardon me, Miss Genevieve, for talking so long. When I get started on my hobby I never know when to stop. I ought not to have assumed, anyhow, that you are interested in antiques. Miss de Muir—Indeed I am, professor. I could listen to you for hours.—Chicago Tribune.

He Promised.

"I can't spare the money very well, but I'll gladly loan it to you if you promise not to keep it too long."

"I solemnly swear that I'll spend every penny of it before tomorrow morning!"—Fliegende Blatter.

Rock temples at Ipsampool, on the Nile, are believed to be the world's oldest architectural ruins.

Man's Walk Shows Age.

"You can tell a man's age by his hands," said one of the girls. "They get knotty and veined and terrible. They get old sooner than his face."

"You can tell it most of all, I think," said the woman, "by his walk. I know a man who has been one of the brightest minds of his time who is still the best company I know, but the other day when I saw him come toward me at his home along the hall it made me awfully sad to see the heavy, old, old way in which he walked."—New York Press.

Insipid Company.

Low spirits are my true and faithful companions. They get up with me, go to bed with me, make journeys and returns as I do; nay, and pay visits and will even affect to be jocular and force a feeble laugh with me, but most commonly we sit alone together and are the prettiest insipid company in the world.—Thomas Gray.

THE FLYING FOX.

Curious Inhabitant of the Forests in Eastern Australia.

The flying fox is a very curious inhabitant of the forest near Moreton bay, in east Australia. It lives in flocks and moves generally toward the dusk of the evening, and the noise produced by the heavy flapping of the so called wings is very singular. The flocks like quiet places, where there are large araucarian pine trees, with an underwood of scrub and creepers. The foxes hang in vast numbers from horizontal branches of the pine trees.

When there is a clear space among the trees an enormous number of the animals may be seen, and their noise can be heard, for directly they see anything unusual they utter a short bark, something like the sound made by young rooks. Often every branch is crowded, and the young foxes are seen either flapping their wings and holding on with their hind feet and with their heads downward or snarling and fighting for places.

Suddenly the whole take to flight and flap their furry, winglike sides and wheel around like heavy birds. Many fly with their young holding on to them.

The creature is not a true fox, and there is a fold of skin which reaches from the fore to the hind legs. This is called the wing, and it enables the pteropus, as the animal is called, to float and turn in the air.

Obsolete Cures.

It was formerly believed that epilepsy could be cured by wearing a silver ring made from a coffin nail. Seven drops of blood from the tail of a cat and blood from a recently executed criminal were said to be valuable remedies for epilepsy. To cure a felon or run around hold the finger in a cat's ear for half an hour. For toothache trim your finger nails on Friday or eat bread that a mouse has nibbled or carry in your pocket a tooth from a soldier killed in battle. For ranula of the tongue split on a frog. For alcoholism drown an eel in brandy and make the drunkard drink the brandy. To cure warts rub the wart with a potato and feed the potato to a pig.

Thoughtful.

"Lady with a flashy paste necklace wants to know whether it's pure diamond or not," said the jeweler's shopman.

"Look like married woman?" inquired the jeweler.

"Yes, sir."

"Tell her it is. No use making trouble for poor husbands these hard times."—London Telegraph.

The meeting of the Kings Daughters, which was to have been at the home of Mrs. C. E. Parker, has been changed to meet with Miss Cora Wheeler this Friday evening.

Miss Arbeth Orbeton of Brockton, Mass., who recently visited friends and relatives in town, returned home last week.

Ernest Gifford of Farmington was in town a few days last week.

The members of the Union Sunday school who accepted the invitation of Mr. E. H. Kenniston to hold a picnic in the grove at his camp passed a most enjoyable day there last Friday. Mr. Kenniston has a fine Edison talking machine and many selections were given during the day. The children sang songs, "spoke pieces" and played games. Not the least pleasant feature to them was the dinner for which a table had been built in the grove. The school at Reed's Mill was closed for the day and the presence of its pupils added to the pleasure of the Phillips children. The hospitality of Mr. Kenniston and Miss Blanche and their kindness in planning this outing for the Sunday school is much appreciated.

The mail going south on the afternoon train closes at 12.55, 30 minutes before the departure of the train, this being the time allowed by the department to offices of the third class in which to make up and dispatch the letter mails.

The Pomona Grange meeting that was advertised for Wed, September, 29 will be held September 26 instead.

T. J. Sellar of the MAINE WOODSMAN returned Saturday morning from a three weeks' vacation spent with his parents in Canning, N. S.

Dr. L. J. Holt and Glidden Parker went to Long pond over Sunday.

Miss Cornelia T. Crosby was home Friday night and went to Rumford Falls Saturday to remain over Sunday.

Mrs. Edward Greenwood was ill a few days the first of the week.

Mrs. Lucy Page Bartlett of Lewiston was in town last week calling on old friends. She has not been in Phillips for about 20 years.

Mr. and Mrs. E. H. Shepard. Mrs. Day, Mr. and Mrs. H. F. Beedy drove to Weld Sunday and took dinner at The Maples.

Mr. Philip Tibbetts of Rangeley was the guest of Miss Evelyn Sweetser last week.

Mrs. M. S. Kelley was in Farmington Tuesday.

Mr. A. L. Matthews of Lincoln has opened a meet and grocery store in that town. His brother, J. L. Matthews of Phillips, is associated with him. The opening was last Saturday and business is reported good, as the Messrs. Matthews were former store keepers there and have many friends.

Mrs. Edward Greenwood gave a small party Thursday evening in honor of Miss Annie Timberlake, who left Saturday noon for Boston. The evening was spent in playing whist.

H. L. Nelson, who has been running a livery stable at Bigelow, has sold out his business and gone to North Anson, where he will work in a saw mill there. He left Phillips Saturday morning after having visited his parents, Mr. and Mrs. W. M. Nelson, for a few days.

Mr. Earle Wing of Kingfield has been in town for a few days.

Mr. Carrol Noyes was in Rangeley Sunday.

Miss Dora Abbott was in Rangeley Sunday.

Miss Genevieve Harnden, who has been working in Farmington recently learning stenography, is at home this week.

TORTURING PAIN.

Half This Man's Sufferings Would Have Killed Many a Person, But Doan's Cured Him.

Thousands of grateful people are telling every day how Doan's Kidney Pills cured them of distressing and dangerous kidney and bladder troubles.

Yet other thousands are suffering every day from these same ills. Why? They are either very negligent or very skeptical. Neglect of kidney disorders leads to dropsy, diabetes, Bright's disease and other fatal diseases.

Sincere, honest testimony like the following should convince every skeptic.

A. C. Sprague, stock dealer, of Normal, Ill., writes: "For two whole years I was doing nothing but buying medicines to cure my kidneys. I do not think that any man ever suffered as I did and lived. The pain in my back was so bad that I could not sleep at night. I could not ride a horse and sometimes was unable even to ride in a car. My condition was critical when I sent for Doan's Kidney Pills. I used three boxes and they cured me. Now I can go anywhere and do as much as anybody. I sleep well and feel no discomfort at all."

A FREE TRIAL of this great kidney medicine which cured Mr. Sprague will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

Phillips and Vicinity.

Mrs. S. J. Balkam has been visiting at F. J. Toothaker's for a few days.

Messrs. A. D. Nelson and C. A. McIsaac of Boston, who have been visiting the former's brother, W. M. Nelson, and family, returned home Saturday. They had the time of their lives while here, as they have never visited this part of the state before. Thursday Mr. and Mrs. W. M. Nelson, Mr. and Mrs. Arthur Nelson, Mr. and Mrs. Warren Lindsey, Messrs. A. D. Nelson, C. A. McIsaac, H. L. Nelson and Edgar Lindsey, Rose Nelson, Leone Lindsey, Grace and Ethel Lindsey went to Long pond, where they occupied H. F. Beedy's cottage, returning Friday night. While there they had the best of luck with the fish, A. D. Nelson being high line for the party. His two fish, both salmon, weighed 4 1-2 and 6 pounds. The trip was much enjoyed by all and the two Massachusetts gentlemen were very enthusiastic over this part of Maine.

As the time has expired that the meetings of North Franklin grange were held in the evening, the next meeting will be held Saturday afternoon, September 21, at the usual hour, when the third and fourth degrees will be conferred and if time permits the following program carried out. Instrumental music, Walter Hodges; reading, Clarissa Plaisted. Question, Resolved that there is more profit in eating hay on the farm than in selling and buying fertilizers. Affirmative, E. Dill, D. W. Wells. Negative, E. B. Hanscom, A. D. Graffam.

One of the late improvements on the Phillips & Rangeley railroad is the removal of a reverse curve on section No. 4 above Redington, and the substitution of 900 feet of as pretty track as there is on the whole line.

Miss Mae A. Davenport was happily surprised recently to receive a visit from her friend, Miss Lizzie Bell Cobb, who made a flying trip to Phillips from Gorham, N. H., where she has been spending a few months. Miss Cobb was a former Maine, teacher, in a graded school in California. She finds the work pleasant and very remunerative, getting a salary of \$80 per month. She advises Maine teachers who are working hard for small pay to go to California to teach. The climate there is healthful, the scenery charming, school work agreeable, comparatively easy, one-third of the time being devoted to silent study and the remuneration great. Miss Cobb has just returned to California where she will resume her duties as teacher for the coming year.

Miss Cora Wheeler has just returned from a week's visit in Sk whegan.

S. D. McKenney of Wilton has been visiting his daughter, Mrs. W. B. Hoyt, and attending the fair.

Mrs. Bert Millett and brother, Coley McGowen, of Hallowell are visiting relatives this week.

Mrs. George Chick of Monmouth came to Phillips recently and is visiting relatives in Phillips and Madrid.

The first of the Sandy River railroads new excursion cars has been completed. This new car is open on both sides and ends and is provided with curtains. It has springs like those on the parlor car and is in various ways well fitted.

W. A. Carter representing the American Enamel Co., of Providence, has a crew of men at work near Eustis Junction erecting a saw mill for the manufacture of birch squares. The company has already in operation a mill at the Notch, between Weld and Wilton and the Eustis mill will give employment to several hands. These birch products are enameled at the Providence factory into imitations of ebony, mahogany, pearl, ivory and other woods, minerals and metals and are used extensively in the manufacture of manicure and toilet sets and novelties.

The corn factories are all running at their fullest capacity and unless a frost comes the canning season promises to be a most prosperous one.

A. G. Donham, son of Greenville M. Donham, of Portland, publisher of the Maine Register, was in town Wednesday delivering the copies of 1906-7. This valuable book contains much new and important matter this year and proves a most indispensable book for the business or professional man.

President Wilbur Oliver of the board of aldermen and City Clerk De Crasse of Bath, were in town last Friday, on their way home from Rumford Falls.

W. G. Ellis, assistant bank examiner of Maine was in town this week on a trip through the county calling on banking institutions. Wilton is the latest Franklin county town to enter the banking field, ground being broken next to the town hall for a brick building to be occupied as a branch of the Livermore Falls Banking and Trust Co.

Mr. Cleff Maxwell of Weld was in Phillips attending the fair Wednesday.

Otto's Auto.

The following was brought in by a friend with the request to publish it:

'Tis strange how fashion makes change the objects we desire.
We used to sing the tireless steed, but now the steedless tire.
So Otto bought an auto, so as not to be antique,
But the thing was autocratic as well as automatic,
And the auto wouldn't auto as it ought to so to speak.

Then Otto thought he'd hire an auto operator for the work.
So first he hired a circus man and then he hired a Turk.
For he knew the circus man drove fifty horses with success,
And if a man be shifty enough to manage fifty,
'Tis palpable enough he ought to manage one horse-less.

As for the Turk, 'tis also plain, deny it if you can,
He ought to run an auto, since a Turk's an Ottoman.
But 'twas all no use, so Otto went to Alabama, purely.
That he might say, "I'm Otto and my motto,
A mobile Otto ought to run an automobile, surely."

Then Otto sought to auto on the auto as he ought to.
But the auto sought to auto as Otto never thought to.
Then Otto got hot, oh very hot, as he ought not to,
And said, "This auto ought to auto and its got to."
Then Otto fought the auto and the auto it fought Otto.
Till the auto also got too hot to auto as it ought to
And then, Great Scott! it shot to heaven and so did Otto,
Where Otto's auto autoes now as Otto's auto ought to.

Health in the Canal Zone.

The high wages paid make it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by W. A. D. Cragin, Phillips; L. L. Mitchell, Kingfield; Chas. E. Dyer Strong; E. H. Whitney, Rangeley druggists. 50c.

Delay is dangerous when the eyes need attention. Every day that eyes which need glasses are forced to work without them is making them so much worse.

If headaches or anything else lead you to think that you may need glasses, I earnestly urge you not to wait any longer, but come to my office at once and find out.

WORMS IN CHILDREN

6 YEARS SUFFERING RELIEVED IN 8 HOURS

DANVILLE.

DR. TRUE, DEAR SIR:—One of my boys had been troubled for about six years with cramp in the stomach, and suspecting that it might be brought on by worms, we gave him different medicines, but without effect. Last January he had a more severe attack than usual, and hearing of the almost miraculous effects of your Elixir, we gave him about a teaspoonful, and in about eight hours it brought from him a living creature about eighteen inches in length. He has had no return of them since, and is now very hearty. G. W. VICKERY.

Thousands of people have worms and don't know it, yet the symptoms are easily recognized. Even though worms might not be present this extraordinary remedy will effect wonderful changes in the run-down system. It is a great stomach and liver tonic and regulator. Worms in adults and children can be readily detected from the following symptoms: Indigestion; a variable appetite; offensive breath and foul tongue; eyes heavy and dull; itching of the nose; short, dry cough; grinding of the teeth; starting during sleep; slow fever and often, in children, convulsions and bed-wetting; looseness; hard, swelled bowels. No matter how pronounced or how light the symptoms,

DR. TRUE'S ELIXIR

will restore the patient to normal health again.

TURNER, ME.

DR. J. F. TRUE, DEAR SIR:—Having used your Elixir in my family for many years, after having satisfied myself of its superior merits, I recommended it to my neighbors, who now very generally use it. I consider it the very best medicine now in use, especially for children.

Very truly yours, JOB PRINCE.

NEW GLOUCESTER, MASS.

DR. TRUE, DEAR SIR:—The Elixir I purchased of you cured my boy, who had been troubled with worms ever since he was a child. He had tried many other medicines, and I had employed physicians until I found it of no use. I despaired of his being restored to health till I heard of your Elixir, which, I am happy to say effected a speedy cure.

Very truly yours, W. G. COOMBS.

Dr. True's Elixir is sold by druggists every where at 25c. per bottle. A booklet entitled "Children and Their Diseases" will be sent free by simply addressing Dr. J. F. True & Co., Auburn, Me. We have a special treatment for tape-worm. Send for free book.

The Fountain Head of Happiness.

It has been very aptly said that everyone had a good stomach, there would be no pessimists in the world. The person who suffers from any of the many forms of stomach trouble cannot be happy. His food does not agree with him. The sense of heaviness and oppression that follows eating counteracts all the pleasures of the table. The weakened digestive organs cannot procure the necessary amount of nourishment from the food taken into the stomach to support the human engine and sickness follows. It is because of its marked beneficial effect on the stomach, liver and bowels that “L. F.” Atwood's Bitters are the popular remedy in thousands of homes. Their occasional use keeps the health producing organs in splendid, vigorous condition, and in cases of sickness are generally unailing in their relief. The “L. F.” Atwood's Medicine is the ideal family remedy and can be procured from any druggist.
