NEWSPAPER HISTORY

The Rockland Gazette was established in 1846.

In 1874 the Courier was established, and con-
solidated with the Gazette in 1882. The Free Press
was established in 1885, and in 1891 changed its
name to the Tribune. These papers consolidated
March 17, 1897.

A little neglect may breed great
mischief. For want of a nail the shoe
was lost; for want of a shoe the rider
was lost; for want of a horse the rider
was lost.—Poor Richard's Almanac.

Announcement was made in New
York Monday night that Harry Whitney
the big game hunter, and Capt. Robert
Bartlett, who commanded Peary's ship,
the Roosevelt, would head another Arctic
expedition for the double purpose
of hunting and searching for the re-
cords which Dr. Cook says he left at
Etah. A number of wealthy men will
be parties to the expedition, which will
start the latter part of June. Capt.
Bartlett has gone to Boston to com-
plete arrangements.

The alarm of paint manufacturers of
Chicago at the world's shortage of
eighty million gallons of linseed oil and
the greater fear that all seed flax would
be exhausted has not been lessened by
reports from Canada. Although an
enormous addition will be made this
year in the acreage under cultivation,
owing to the influx of new settlers
from the United States and Europe,
the acreage in flax will be limited by
the shortage of seed. Even at prices of
\$3.00 to \$3.75 a bushel seed flax has
not been obtainable. Consequently
thousands of acres intended for flax
will be seeded to wheat. This leaves the
house paint situation worse than be-
fore. The normal crop of the United
States is about 28,000,000 bushels, but
in 1909 it was only 18,000,000 bushels
and in 1910 it was 10,000,000. This
caused importations of more than 9-
000,000 bushels last year. The Ar-
gentine crop, however, was only half
of expectations with the result that
the world's storage was 35,000,000 bushels
of flax seed from which linseed oil is
made. That equals about 87,500,000
gallons of linseed oil. The exports
from India normally are from two to
three million bushels. An official re-
port concerning the Canada flax pros-
pects, from J. S. Dennis, in charge of
colonization and irrigation for the Cana-
dian Pacific in western provinces said:
"It is impossible to say what the acre-
age of flax will be this year. Of course
the influx of new settlers and the
breaking of new lands has added a
great acreage available for flax pro-
duction, but the trouble is that the
seed cannot be had. We don't know
certainly what the result will be, but
it is plain that the crop of flax will not
be as great as might be hoped. It is a
pity because the prospect is that very
high prices will prevail when the seed
is harvested."

"Queed" is the hero of a new novel
of the same name by Henry Wyndor
Harrison which Houghton Mifflin Co.
announce for publication. Besides its
leading character, who is said to be
"refreshingly different from other
heroes," the novel involves all the in-
terests of a fast growing city, the am-
bitions of various energetic young men,
a political struggle, the control of a
newspaper, and one of the most at-
tractive and sterling heroines of fiction.
It is a first novel in which the publish-
ers have very unusual confidence.

Rudyard Kipling. It is reported, has
written a popular history of England for
children, interspersed with songs and
lyrics. "Charles Dickens," says the
London Daily Telegraph, from whose
columns is obtained this information,
"boasted that he had written his
'Child's History of England' in the hope
of wringing the parrot's neck of Pa-
pistal sympathy in his babies' cradles.
If Mr. Kipling succeeds in performing
the same operation for the volume
"The Little Englander," he
will have earned the gratitude and
devotion of the rising generation."

A sum of £1000 is offered by Hodder
& Stoughton of London in a novel-
writing competition, the first prize be-
ing £600 and the second £400. There
is no restriction set upon authors; the
veteran and the novice are both invited
to compete. There is no entrance fee,
and the rules for competitors are few
and simple. The manuscripts will be
read by Sir William Robertson Nicoll,
Clement K. Shorter and Miss Beatrice
Harraden, and their decision will be
announced next autumn, the successful
novels to be published immediately
afterwards by the firm which offers the
prize.

Little, Brown & Co. announce for
publication in May, some of their most
important books of the spring season
—Phillips Oppenheim's new novel
"The Moving Finger," and J. D. Beres-
ford's brilliant psychological novel
"The Early History of Jacob Stahl";
"The Danger Zone of Europe," a book
by H. Charles Woods, F. R. G. S., deal-
ing with political problems in the Near
East; another volume in the Modern
Criminal Science Series, "Causes and
Remedies," by Cesare Lombroso;
a book on "Ancient, Curious
and Famous Wills" by Virgil M. Harris
of St. Louis. "Brain Power for Busi-
ness Men" by Annie Payson Call; and
the first of a new series of books for
boys entitled "Buddie, the Story of a
Boy" by Anna Chapin Ray.

Last Thursday evening before the
Philadelphia Medical Association Presi-
dent Taft said that although 18,000
troops have been in camp in Texas
and California for two months, only
one case of typhoid fever has been
developed. The contrast of this show-
ing with the disastrous record of
Chicamanga in 1898 is a striking dem-
onstration of the advance and efficiency
of medical science in that interval.
Our medical department deserves the
greatest commendation for keeping in
advance of the times. It has cleaned
up Havana and has overcome the
pestilential dangers of Panama, the
Philippines, Cuba, and other former
headquarters for the dissemination of
disease.

Resuscitation of Fancy

The edge of thought was blunted by the stress
Of the hard world; my fancy had wax'd dull.

All nature seemed less nobly beautiful—
Robb'd of her grandeur and her loveliness;

Methought the Muse within my heart had died,
Till, late, awaken'd at the break of day,

Just as the East took fire and duff'd its gray,
The rich preparatives of light I sped;

But one sole star—none other anywhere—
A wild, rose odour from the fields was borne—

The lack's mysterious joy till'd earth and air,
And from the wind's top met the hunter's horn;

The apen trembled wildly, and the morn
Breathed up in rosy clouds, divinely fair!

News has been received here of the sudden death of Edward M. Andrews of Wyoming, Ill., who formerly resided in this city, and who went West 27 years ago. He visited his niece, Mrs. Justin L. Cross in this city two years ago, and since that time had been failing gradually.

Thanks for her wonderful and double-barrelled supply, Rockland need have no immediate fear of the water famine that now threatens pretty much all of New England. Chickawaukie Lake is full to the eaves, and at Mirror Lake Wednesday there were nine feet of water over the intake.

A dozen chairs have been added to the equipment of the police station room, and they fill a "long-standing" need. Heretofore the court attaches, members of the press, and witnesses have been obliged to stand through long trials, sometimes being confounded by strangers with the occupants of the criminal dock. To Judge Hurley is due the thanks of those who are entitled to seats in the court room.

A two-story frame building 28x112 is to be erected on the new extension of the McLoon wharf. W. L. Rokes has the contract, and work will begin early this week. The ground floor will be used for the curing of fish, and the second story will have a capacity for 140 tons of salt. This wharf is now one of the finest that juts into Rockland harbor, and it is the evident intention of the ex-mayor and his associates to develop a fish-plant which will be in keeping.

S. T. Mugridge's house on Grove street is being painted.

Capt. L. E. Foss has moved into the Farwell house on Park street.

Golden Rod Chapter expects work at its meeting this Friday evening.

Extensive repairs are being made to the Crockett homestead on Union and Pleasant streets.

John Webster, a "trusty" at the county jail, felt a desire for freedom Wednesday and a still greater desire for booze. Surrendering to the latter he was recaptured the same evening, and was turned over next day to Turnkey Coburn.

Williston Grinnell of Camden has bought the well known trotting mare Emily Gail, which was campaigned several seasons by M. Frank Donohue and George Bachelder. The less exciting life of a roadster is said to have been outlined for her by the new owner.

Saturday evening at 8, Sunday at 2:30, and 8 p. m. Major Cowan will also speak in the Free Baptist church Sunday morning, and at the Y. M. C. A. at 4 p. m.

The new cannery factory at the rear of Bird block will be completed this week, and the machinery is already partly installed. The building is 45x90, and is fireproof. W. L. Rokes, who has the contract, reports 30 days of steady work on the structure which is quite a remarkable record for this season of the year.

Isidor Alperin of this city has gone into partnership with his cousin, Arthur Weinstein, and they have bought a well established grocery store in East Boston. Henry Alperin has enlisted in the navy as stenographer, and is now located at the U. S. training station at Newport. Hyman Alperin is still at Hasket's wearing the smile that won't come off.

Have you one of those little medals that City Clerk Knowlton is issuing for a nominal sum? Otherwise your pet dog is likely to join the barkless majority any day. There are a few of these medals which the city clerk has not been licensed this spring—and then some. The city clerk has frequent callers who call attention to delinquent neighbors. Don't be one of either.

The funeral of the late John R. Frohock was held Thursday afternoon at his late home on Park street. Many business men and Masons were among those in attendance, although the funeral was not under Masonic auspices. Rev. Mr. Allen of the Universalist church officiated. There were many handsome floral tributes. The pall-bearers were E. W. Berry, C. H. Duff, W. G. Singh and John J. Wardwell. The interment was in Achorn cemetery.

The Grand Army and allied organizations will hold their state convention in Augusta June 14 and 15, and the Capital City is expecting to entertain about 1000 delegates and visitors. Among the speakers at the campfire in the evening of June 14 will be Governor-elect and Commander-in-Chief Gilman. At the present time there is little excitement over the canvass for the position of department commander to succeed Rev. J. W. Webster of Newport, the only candidate being Col. Charles S. Crowell of Lewiston. E. R. Roberts of Vinland has announced his candidacy for the office of senior vice-commander.

We are reminded by the American Flag Association that June 14 is Flag Day, and we pass the information on for the benefit of many others who would presently be inquiring. The public recognition of this national anniversary is each year becoming more and more genuine. All American citizens are again earnestly invited to join in the public observance of the birthday of the emblem of our nationality. In many of the states in pursuance to the law, and in public and private schools, exercises will be conducted. Let us extend this practice. Teach the story of the flag, what it represents and have the young people pledge their fealty and loyalty to it.

The riot call (62 on the fire alarm) was sounded shortly before 9 o'clock Monday night, creating not the slightest excitement on the part of our ship's company of Naval Reserves, and a great deal of curiosity on the part of the public at large. In 22 minutes after the signal had been sounded 19 men were assembled at the Naval Reserves' hall in readiness for a march to the Mexican border, if need be. Instead they were detailed for the much less romantic duty of guarding the Bay Point road to repel any boarders who might wish to get into the Samoil hotel at less than the stipulated sum. When "62" sounded the thoughts of many persons flew back to the time of the Spanish War, when some irresponsible person pulled in a similar alarm to the great distress of many fond mammas.

The Mission Circle of the Universalist church held its annual meeting in the church parlor Wednesday afternoon. After the devotional exercises the reports of the officers, treasurer, benevolence committee, and Cheerful Letter writer were read and accepted; the usual appropriation of funds for Home and Foreign Missions was made, and the following officers for the ensuing year were elected: President, Mrs. Pauline Allen; vice-president, Mrs. Jessie Haskell; 2d vice-president, Mrs. Annabel Berry; secretary, Miss Angelica Graves; treasurer, Mrs. Florence Lovejoy; executive member of executive board, Mrs. Addie Limb, Mrs. Julia Gurdy, Miss Flora Wise.

Pleasant Valley Grange Circle is holding a series of very successful meetings. Last Friday the ladies met in the afternoon as usual and made sofa pillows, sweeping caps, patchwork, etc., for the fair on June 2. At 6:30 a bountiful supper was served to 130 hungry people. After supper an entertainment was given under the direction of Reuben Thorndike. The characters were chosen from the Bingville Bugle in the Sunday Post, and were very true to life. Brother Thorndike, himself, was Hen Weatherly, the storekeeper, and Mrs. Addie Bartlett as Jemina Hoffes, was president of the circle, and called on directors, ones to do their part. The ladies were dressed in the costume of "ye olden time" and furnished as much amusement by their clothes as by their speeches. The entertainment closed with an old fashioned Virginia Reel and "Fore and After." The floor was then cleared for a social dance and a grand good time is reported. These circles are held every two weeks and are increasing in numbers at each meeting. The next one will be held on Friday, May 19, and everyone is invited.

Saturday is bargain day at E. B. Hastings & Co.

WORMS

Unsuspected worms are the cause of numerous little things that go wrong with children. When a child is sick you rarely think that its sickness is caused by worms, yet worms, either directly or indirectly, are the cause of three quarters of all the ills of childhood. Children, and oftentimes adults, feel out of sorts, are irritable, feel listless and unfresh in the morning; suffer with indigestion, have a variable appetite, foul tongue, offensive breath; hard and full belly, with occasional gripings and pains about the navel; eyes heavy and dull; itching of the nose; short, dry cough; grinding of the teeth; slow fever; and often, in children, convulsions—in the majority of cases the cause of all the trouble is worms, though you may not suspect their presence.

DR. TRUE'S ELIXIR

A pure vegetable compound, has been the standard household remedy since 1851. It never fails to expel not only worms but all waste matter, leaving the blood rich and pure, the stomach sweet, the bowels regular and the whole system strong and healthy.

The mother who gives her children Dr. True's Elixir regularly is wise, because it not only increases the appetite and acts as a preventive of coughs, cold, fever and worms, but gives rugged, robust health.

HOME DECORATIONS

The decoration of a room may be based upon some special feature of the room—a piece of furniture, a bit of choice china, the coloring of the rug or planned to harmonize with the adjacent rooms.

WALLS—Rich, flat effects are secured by use of Flat-tone finishes. These materials are durable, sanitary and most practical in the home. Used over the old paper, you get the color desired and a durable surface that can be washed with soap and water like the paint on the wood work.

A FLAT-TONE treatment of the old curtains makes them look like new and gives them a color to harmonize with the room.

FLOORS—By using filler stains, wax or varnishes, any shade or finish may be given. For old worn-out floors, our floor paint or varnish stain may be used to give a lasting surface.

We have finished over 100 rooms the past few months with **FLAT-TONE**. The first cost is less and being durable, it's the most economical finish all around.

TWO MINISTERIAL PROBLEMS

How to Get More Ministers; How to Care for What We Have—Unbusinesslike Way of Conducting Church Affairs.

(From the Universalist Leader.)

It is the general opinion of today that if ministers were fittingly taken care of, there would be an abundant supply, for there are many who are eager to serve the race for a bare living, asking but the chance, but who object to spending their old age in the "poorhouse," and to seeing their children unequipped for life. It is a distressing fact that the average pay of ministers today is not more than that of the average mechanic, and yet the former must spend years in costly preparation, and expend far more than the mechanic in living up to his business, and face numberless calls of which the mechanic never hears.

On the salary the average minister receives it is impossible for him to lay by anything as a provision for old age, and so if he has even moderate sensibilities he must face the future with sorrow and shame.

In the face of these facts, we find the laymen in many churches seeking to find some way in which the expenses may be reduced; looking for a cheaper man, yutting out the calling of a pastor for several months or years that money may be saved by hearing "supplies." And these men are wondering at the decline of the church attendance, and the difficulty of getting along. These are good men, but thoughtless. Most of them are successful in their work or business, and they know very well that they could not keep out of the sheriff's hands three months if they were to carry on their own affairs as they carry on the affairs of the church.

And here the two ministerial problems are brought right where they belong, to the men and women in the churches. Of course there are men and women who are doing their full part, for them we have but words of commendation, but the great, careless and selfish majority of the people are shutting up the gates to the ministry at one end, and squeezing the life of aged servants of righteousness, at the other. And these same people are the most severe in their criticisms and most exacting in their requirements. It is a verdict of every minister of even moderate experience that he has received his most cruel thrusts and had most exacted from him by those who have given to the church neither sympathy, time nor money. And the hardest people to deal with in the life of a church are those who deserve no more to get what they can in the way of social prestige, and have an anchor to windward when the storm of sorrow approaches their home.

We have respect for the man of honest doubt, who feels that he can live without the church and the ministrations of religion, but we have not an atom of respect for him, when in the time of trial, he sneaks in at the back door to try and get the ministrations he has openly derided.

We hold that the Christian church is the most important and vital institution in the life of the world. Far more important than schools and libraries and even Governments, for all that is best in the world takes its origin in and through the church, and, therefore, the church should receive adequate support, and those who minister through the church deserve at the hands of the world at least as fair treatment as those who serve in other fields.

Wipe out from your community every church and every minister for a single year, and see if you have not cut out something that is essential to the happiness and prosperity and the well-being of this everyday life. See if the conditions are such as you wish to set your children among.

The time has come to put the ministry on the plane of respect and obligation. If the world is not willing to adequately sustain those who serve it best, then at least it can do for them what it is beginning to do for its teachers, look out for their old age, and life shadows which obscure their sunset years.

Many of the denominations are recognizing the need of doing something on a scale large enough to be effective, and it is time for our own church to consider this important matter. We have several funds with which we help out those who are in need, but what should be done is to build up a really great fund, which will insure the comfort in age of those who have given their life to the service of humanity.

Humors of all kinds are prolific of worse troubles. They may be entirely expelled by a thorough course of Hood's Sarsaparilla.

Mixed Emotions.
A Bostonian tells of a clean, well set up young Irishman who formerly saw service in the British navy, but who is now engaged in business at the Hub.

"When are you going to get freedom in Ireland, John?" the Bostonian once idly asked.

"The only way that we'll get freedom in old Ireland," said the Celt, "will be if France an' Russia an' Germany an' Austria an' maybe Italy—if they would all join together to give those blackguards of English a rare old battle." That's the only way, sir, we'll get home rule."

Then as he looked cautiously about a twinkling of cunning was added to his expression. "An' the whole lot of 'em together couldn't do it, sir. Oh, it's the grand way we've got!"—Lippincott's Magazine.

The Talmud.
The Talmud is the compendium of an ancient Jewish oral, or unwritten, law, as distinguished from the Pentateuch, or written law. Its origin is coeval with the return of the Jewish people from the Babylonian captivity, 539 B. C. Its compilation in Hebrew was begun by the scribes, and by their successors the work was carried on till 220 B. C. The Talmud is a combination of prose and poetry and contains two elements, legal and legendary. Its morality resembles that of the New Testament, and its philosophy reminds us very forcibly of that of the great Plato.—New York American.

A Fresh Egg.
An English food expert, said in a recent lecture: "The secret of health is two meals a day with an occasional fast. But people won't avail themselves of this superb secret. It is too unpleasant—the fresh egg. A soufflé after cutting the top off a soft boiled egg, summoned the waiter and said: "Waiter, take this egg back to the kitchen, wring its neck, and grill it for me."

Facts About Motherhood

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at the time of child-birth, but many approach the experience with an organism unfitted for the trial of strength, and when the strain is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under right conditions need be no hazard to health or beauty. The unexplained thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, women will persist in going blindly to the trial.

It isn't as though the experience came upon them unawares. They have ample time in which to prepare, but they forgo the part, trust to chance and pay the penalty.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy, and strong.

Any woman who would like special advice in regard to this matter is cordially invited to write to Mrs. Pinkham at Lynn, Mass. Her reply will be held in strict confidence.

LIQUID CURES ECZEMA WHERE SALVE FAILS

In regard to skin diseases medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid. WASH THE GERMS OUT. A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription, penetrates to the disease germs and destroys it, then soothes and heals the skin as nothing else has ever done.

A 25-cent trial bottle will start the cure, and give you instant relief.

FOLEY'S KIDNEY CURE
Makes Kidneys and Bladder Right

Seven Minute Sermon On the Golden Text

By Our Own Preacher
(Copyright, 1910, by E. S. Davidson.)
May 14th, 1911.

I heard the voice of the Lord saying, Whom shall I send, and who will go for us? Then said I, Here am I; send me.—Isa. vi. 8.

I. God has urgent need of messengers. Isaiah had a vision of God revealing to him his sin, and making him cry out for cleansing; at the same time he saw the iniquity of the people among whom he lived. After his own sin was cleansed came the question of saving the nation. In his vision he heard the voice of God asking whom He should send, to rebuke people, and the prophet responds, "Here am I, send me."

This call, for messengers to go to the people to convince them of their sins and tell them of God's free pardon, has been echoing through the centuries from then until now. The words are still ringing in our ears, "Whom shall I send, and who will go for us?" There is a great demand for ministers, as there are not enough to supply the home land, to say nothing of the thousands needed in the foreign field. Young men are not offering themselves as ministers, as in the past, because it is stated, that not withstanding the education and years of training required are fully equal to that demanded for other learned professions, the salary paid is very inferior. I cannot believe that any true Christian called to the ministry by God, would be influenced by such mercenary considerations. It may be, however, that the severe educational requirements may appal many a young man, who believes he has received a call, and he may think that as it is impossible for him to qualify, he is therefore absolved from this obligation. It is undoubtedly true that an educated ministry is of great importance, but the church which has no provision for making an exception to its educational standard, is almost criminal in its shortsightedness and responsible to that extent for the thousands of mission fields unprovided with preachers.

No person can say that a college education is really essential in order to be a successful minister, because there are numerous cases to the contrary. A man with sufficient education to speak and write his ideas intelligently, with a knowledge of the Bible, and undoubted Christian experience, with the gift of public speech, with a clear call to the ministry, himself and the church being judges, is quite as likely to make a successful pastor, or missionary, as one who has had a university education. A man who, without special training, can preach with acceptance to an intelligent congregation, and lead men to Christ, ought to be received by the church as a minister.

II. God uses sinners to save sinners. The Lord did not call Isaiah to be a preacher because he had always been a saintly man, but on the contrary he chose him because he was a saved sinner. Jesus did not select his twelve apostles for their holiness, as they were very defective from a moral and spiritual standpoint. He doubtless chose them because they recognized their moral defects and were anxious to be saved from them, together with the fact that they had the potential qualities for the arduous work which he wanted them to do. God could convert the world by His own direct influence or He could have used the angels but He preferred to use sinners. He never commissions a man who loves sin, and expects to live in it, to devote himself to the ministry, but only those who by His grace have forsaken their sins and have been renewed by the power of God. That you have been a sinner is no bar to your preaching, for if you have learned how to be saved from your own sins that is a prime qualification for preaching the gospel to others.

If God calls you to the ministry do not refuse because of a sinful past life, but answer Him, "Here am I, send me." There is great need for hundreds of young men for ministers and missionaries, and it is an honor beyond computation to be called to that work, but He needs tens of thousands to carry the message of salvation to their fellows. He calls every Christian to that work, and it is a great calling. The opportunities to work for God in this capacity, are all around us; in our homes, among our neighbors, on the street, in our offices and shops, in our Sunday Schools. We should embrace our privileges to take these fascinating ones the word of eternal life.

III. God's messengers are volunteers. The Lord forces no one into His service, all must enlist of their own free will. He does sound an alarm of the danger which sinners are in. He points out the wretchedness of our unsaved neighbors, and those with whom we come into daily contact; He makes known to us the alarming condition of the heathen world, showing us their pitiful misery. He gives us daily visions of the great danger of the people from their sins: He then calls for volunteers, and sends out what is at once the alarm and the invitation, "Whom shall I send, and who will go for us?" It is a blessed call, to all those whose hearts God has touched, to tell sinners of the love of God. Let everyone who hears the cry respond, "Here am I, Lord, send me."

FOREHANDED WORKMEN

An industrial commission appointed by Congress was conducting certain investigations with reference to the operation of mills and factories in various parts of the country, and the members became especially interested in the working of one mill in a South-western State.

The investigators were in one room when the whistle blew for noon. The operatives put up their tools and vanished as if by magic.

"Do all the workmen drop their tools the instant the whistle blows?" asked one of the commission.

"No, not all," answered the man who was acting as guide. "The more orderly have their tools all put away before that time."

The Cooks who have used the Single Damper of the Crawford Ranges will never go back to the troublesome two-damper range

The cost of the food spoiled by mistakes in regulating the ordinary two-damper ranges amounts to a large sum.

The Single Damper of the Crawford affords absolute fire and oven control by one motion—slide the knob to "kindle," "bake" or "check," the range does the rest.

The Oven of the Crawford has cup-joint heat flues which heat everywhere alike and make it the quickest and surest of bakers.

The Two Hods (patented) in the base—one for ashes instead of the old clumsy ash pan—one for coal, is a great trouble-saving feature.

Gas Ovens and Broilers above or at end of range, if desired.

Ask the Crawford agent to show you and write us for circulars.

POPULAR LAWYER GOES

Hon. Sumner P. Mills of Stonington Will Locate in Farmington

Hon. Sumner P. Mills, a native of Stonington, who has practiced law there since 1904, leaves with his family for Farmington, Maine, this week.

On the evening of May 5 a complimentary banquet was tendered to him by the business men of his town at Hotel Stonington. J. H. Sweetser, the caterer, who is proprietor of the hotel not only provided a banquet which was planned as an absolute surprise to Mr. Mills, but outdid himself in preparing the best that could be found on the land or in the water.

C. P. Moon, superintendent of the Benvenue Granite Company, acted as toastmaster and kept the company in excellent humor by his happy manner in introducing the speakers. Postmaster Small, Deputy Sheriff Snow, Capt. T. S. Geyer, J. H. Sweetser, George W. Redman, J. A. Hamblen, Fred A. Torrey, Thomas Barbour, Capt. Eben Eaton and others responded briefly to various toasts. H. E. Bangs, of Mr. Law, '07, who has taken over Mr. Mills' practice was given a hearty welcome and spoke his appreciation of this cordiality.

Mr. Mills received his training in the office of E. E. and A. D. Littlefield after leaving Boston University in 1900. He has had a very active practice at Stonington for six years past and has represented the district in the Legislature and was twice elected to the State Senate. Mr. Mills was formerly of Farmington, and it is understood that he has something to do in bringing about his present move. Expressions of regret are heard from all sides, and it is clear that Mr. Mills and his family are leaving a large number of friends, whose best wishes follow him.

Deliver and the Dahlias.

The dahlia is a flower that is almost sacred to Scandinavians. Speaking of the late Senator Dorr, when he was in the city of Washington, he said that he had a bunch of dahlias in his garden, and he bowed his thanks, while the crowd roared its applause for the orator and for the bouquet.

"What kind of flowers are these?" inquired Senator Dorr of Senator Clapp of Minnesota.

"American Beauties, I guess," replied Senator Clapp.

Dorr knew better than that, so he heartily thanked the people for their attention, applause and splendid flowers.

When they met in Washington after the campaign Senator Dorr said to the Minnesota man: "Clapp, you would have had me mobbed if I hadn't been prudent. If I had called those dahlias American Beauties those Swedes would have been for killing me."

"Yes," said Senator Clapp, "they are good people and generally do the right thing."—Minneapolis Journal.

COST OF DRINK

The great Bard spoke of sermons in stones. Kansas has found sermons in grocery bills. Wichita, a few years ago, was the Gibraltar of the saloon in Kansas. Its saloons were the scene of the most lawless and reckless drinking after the Kansas saloon law went into effect. Deals were made at State conventions and nominations secured through promises of open saloons for Wichita. The law was long coming, but it arrived—and like many other reform movements of the day, it arrived with momentum. A "dry" mayor was elected. Heavy penalties for violation of the law were exacted. The saloons died, and the lawless life of the city finally passed. Note the result. Before the saloons closed, the bank clearings of Wichita were \$1,200,000 weekly. In three years they had increased to something over \$1,500,000 weekly. The city, instead of going backward, as freely predicted, has steadily grown. A few years ago there were barely ten per cent. of the population of Wichita opposed to the saloon. Probably there are not now a very large minority of the population who would favor it. One newspaper changed in a single day from prosaloon to antisaloon. In six weeks its circulation had increased six thousand copies. Another Kansas community merchant declares that his collections increased forty per cent. shortly after prohibition went into effect. Workmen were paying weekly for insurance. Before the saloons closed forty per cent. of these insured workmen were in arrears. Within a short time after the enforcement of the law these arrears had disappeared, and many were paying in advance.—Collier's Weekly.

CAMDEN

E. Prince of Arlington, Mass., has returned home, having spent a few days with his relatives.

George F. Mixer is in Penobscot this week, called there to attend the funeral of his aunt, Mrs. Elvia Young.

Mrs. Ruth Ordway has returned home from a week's visit with her sister, Mrs. W. B. Seignious of Portland, and has opened to the public her beautiful summer hotel Whitehall, on Belfast road. She has made plans where she will be pleased to serve week-end parties at reasonable rates, and this seems a popular idea in the cities.

Mrs. Samuel Perry of Boston was one of the first guests of this year. All speak in the highest praise of the hospitality received by guests at this popular hotel.

The funeral of the late Louise, wife of Capt. H. M. Bean was held this Friday afternoon at the residence on Mountain street with Rev. Henry Jones officiating. The deceased has been in poor health all winter, but seemed greatly improved this spring and death finally came due to heart trouble. She passed away Tuesday evening at about 9 o'clock at the age of 66 years and was one of Camden's most estimable women, always interested in the good and welfare of any worthy object. She was a very literary woman and many questions were brought to her for answers along this line. She was a member of the Knickerbocker club, from which she will be sadly missed. Sympathy is extended to the husband and also to the sisters and brothers, Mrs. Abel Hunt, Bangor; Mrs. Julia Burgess, and Mrs. C. O. Montgomery, Camden; Charles Knight of Boston and E. E. Knight of San Francisco; also a step-son, L. B. Bean and step daughter, Mrs. Emma Long.

Mrs. J. R. Prescott of Newton, Mass., is in town for a few weeks looking over her summer property.

George Grant is clerking in the George Burd Shoe Co. in the absence of H. Merrill.

Miss Bemis, one of our popular high school teachers, will remain in Camden for the summer and will be employed by G. H. Talbot in his insurance office.

Mrs. W. J. Curtis has arrived from New York City and opened her summer home Portland, for the summer.

The Knickerbocker Stock Co. closed a three nights' engagement at our opera house Wednesday evening, and although they drew small houses it was as good a repertoire company as has played Camden for the past winter.

They will play a return engagement here the last week in August.

Madam Barron is spending a few weeks at her former home in Dexter.

Don't forget to get your seats checked for The Thief, to be presented on Thursday evening, May 18, at the opera house. The company has traveled from one coast to the other with marked success and this is a play which would satisfy even the most fastidious. A regular city performance in every detail. Let us give them a full house.

GRANGE SCHOOL OF INSTRUCTION

A meeting of the Masters and Lecturers of subordinate granges is called for May 16th, with Seven Tree Grange in Union. All are requested to be present.

DEER ISLE SENSATION

George W. Eaton Held Up in Wild West Fashion and Robbed of \$220.

The town of Deer Isle had more excitement Saturday night than it has experienced for some time. George W. Eaton, a respected citizen of the town, while on his way home after dark, was held up in wild west fashion and robbed of \$220. The robber escaped to the mainland during the night, was seen in Sargentville and Brooksville Sunday, and it is believed went to Bangor Monday on the Bucksport train.

The police are on the lookout for the man, but it is thought that he has proceeded west.

Saturday night was a bright moonlight night and Mr. Eaton was on his way home when the robbery took place. He was almost in front of his house, when a stranger man stepped out from behind a tree and hit him with the butt of a 32 calibre revolver. Mr. Eaton had \$220 on his person and this was secured by the robber, who dropped the shooting iron, fully loaded, in his haste to escape.

The alarm was soon given, but by the time the police officers had gathered the trail the man had plenty of opportunity to escape from the island. Mr. Eaton describes his assailant as about five feet, eight inches tall, smooth shaven, wore a light overcoat, blue trousers and a light straw hat.

Sunday morning about 3 o'clock, a man answering the above description called at the house of a liverman in Sargentville and asked to be driven to Brooksville, where he said he hoped to connect with a boat for Bangor. While the man was harnessing the horse, the stranger disappeared, perhaps having suspicions that the territory was getting too hot for him.

The man who appeared in Brooksville. He got around to Bucksport it is believed, taking the early morning train to Bangor Monday.

CUSHING

Rev. and Mrs. Kilborn of Warren were guests of their niece, Mrs. J. U. Teague, Monday, coming down in their auto.

Dana Miller has been suffering from a sore hand the past week.

Ellery Wing spent a few days with Mr. and Mrs. Edwin Seavey the past week.

Alphonso Hathorne and Herman Killerman have been at Gay's Island the past week, hauling logs for George Brown.

Mrs. Mahala Seavey, one of our dear old ladies, who is about 83 years old, fell near her home last Friday and dislocated her hip, besides receiving several minor hurts on her face and hands.

Her husband, who is about 86 years old, had been planting that day and was out with the day's activities had lain down on the couch and fallen asleep. On awakening and not finding his wife about the house, he began a search for her and found her where she had fallen after she had laid there about two hours. She was cold and exhausted. Dr. Hahn was summoned and attended to the dislocation. At present she is, in bed, being unable to move without great pain. Her many friends hope for a speedy recovery, as she is a person beloved by all, both far and near.

Mrs. Ames is caring for her.

Next Sunday, May 14, there will be preaching services at the old Baptist church, to which all are cordially invited.

Master Sheriffs McConnell was in Warren a few days last week.

ST. GEORGE

Rev. J. Frank Jones and family are attending the "World in Boston" and will return home the latter part of next week. In the pastor's absence the pulpit will be supplied next Sunday, May 14, by the Rev. G. A. Chapman of Thomaston.

Amusements

Alfreda and Pearl, novelty artists,

are doing some balancing stunts at

Rockland Theatre for the week-end

that will fairly make your head swim.

There isn't a chestnut in their act. The

woman is a comely creature, displaying

a muscle in her right arm, which must

have a tendency to prevent the man

from ever getting fussy if she doesn't

have the meals ready in time. The

other vaudeville turn was cancelled be-

cause of a railroad accident in which

the artist figured. Manager Rosen-

berg puts on an extra reel of pictures

as an offset.

I have always believed that a play

dealing with the tremendous power of

our human thoughts was really needed

upon the stage, says a critic. Men

and women rise in the morning and go

about their work heedless of the fact

that it is their own attitude of mind

that brings them success or failure.

That is what is shown in "The Ros-

ary," a beautiful new play from the

pen of Edward E. Rose, produced by

Messrs. Rowland & Clifford, which will

play at the Rockland Theatre Thurs-

day evening, May 18.

You can see the effect of thought

upon the different individuals. One

character is that of a business man

happily married to a wife who loves

him. But his thought is wrong. He

harbors fear, doubt and unbelief in the

good that lies all around him. He

loses all; fortune, home, wife, even his

own self respect. How does it end?

Go and see "The Rosary." It comes

direct from three successful runs in

Chicago, New York and Boston.

Rockland High a Winner

At Least That's the Reputation Its Victory at Thomastown Gives It.—A Swatting Match and Error-Fest.

Rockland High proved itself a real contender for the Knox and Lincoln pennant, Wednesday, when it marched onto territory of an enemy and won a decisive victory. Already it begins to look like a race between Camden High and Rockland High, but like Hank—you never can tell. Following is the standing of the League at the present time:

Team	Won	Lost	Pct.
Camden	2	0	1.000
Rockland	1	0	1.000
Vinalhaven	1	1	.500
Thomaston	1	2	.333
Lincoln Academy	0	2	.000

Rockland 23, Thomaston 9

Rockland High played its first game in the Knox and Lincoln League, at Thomaston, Wednesday, and won it by a score of 23 to 9—incidentally administering a rude shock to the effervescent Brasier, whose pitching was touched up for 24 safe hits.

As a batting team Rockland High is evidently there with the goods, but its fielding was fully as ragged as Thomaston's. There's nothing very

classy about a victory that is won with 10 errors, but it counts in the League standing, and gives Rockland High four figures in the percentage column.

Thomaston's hopes ran very high for three innings, at the end of which time the score was 5 to 3 in her favor.

Then came that disastrous fourth, when Rockland High was able to make six scores off a triple, two singles, and a choice assortment of mishaps. This was bad enough, but not to be compared with the eighth inning when Rockland made eight hits and an equal number of scores.

Rokes was in the box for Rockland and kept the hits well scattered. Had

his 15 strikeouts been supplemented by better fielding Thomaston's score would have been much smaller. But it is equally true that Rockland's score would have been nearly as large if Brasier had been better supported.

Prescott was the star of the game, making six hits with a total of nine in seven times at bat. His triple with the bases full was a picture no artist could paint. Campbell's one hand catch, enabling him to make a double play at second, was another feature which entitles him to a niche in the hall of fame. Harvey's 16 putouts without an error was a good showing for that robust youth, who, however, needs to take nine or ten easy lessons in baserunning.

Thomaston had an off day. The team is sadly handicapped for pitching talent, and the boys feel it. Brasier does remarkably well for one of his weight and years, but is being over-worked. Hanley, A. McDonald and Cogan did most of the batting for their team. The score:

KNOX COUNTY IN RHYME

Maine Women's Clubs of New York Can't Find Sufficient Emphasis in Prose.

The Maine Women's Club of New York had a delightful session, April 15, when the subject was "The Wandering Minstrel," a composite epic, and the sentiment was this—

Counties sixteen shall claim
These bards when dead,
While there bards living
Worked for daily bread.

The rhymes are interesting and go to show the loyalty to the good old Pine Tree State of Maine's daughters, who now dwell in New York. Whatever your county may be you'll be sure it is the best in all Maine, when you read the jingle which was written for this merry meeting, at the State Apartment, the Waldorf-Astoria. Knox county was set forth as follows:

It gives me great pleasure to boast
Of this bold rugged stretch of Maine Coast
And to speak as becomes a true daughter
Of the snaky old town by the water,
Of the quarries and lime kilns and rocks
That have made famous the County of Knox.

St. George has been pictured by her,
Who wrote the "Country of the Pointed Fir,"
And Aldrich sang in sweetest strain,
Of his summer home on the coast of Maine,
Where from Island and Headland lighthouses
watch.

This snug little harbor in the County of Knox,
Where Camden hills slope down to the tide,
Great ships have been built, the Country's pride
And in old Thomaston, the sister town,
With her memories of men of renown,
On the river bank are shipyards and docks
Once the glory of the County of Knox.

If you enjoy a fisherman's story
Here are seen the snags and dory
And the skipper who will tell you with a grin
Of lobsters and mackerel he has just landed in
Or of summer visitors, who gather in flocks
To find the best things of Maine in the County
of Knox.

ON FOUR MEASURES

Maine Voters Will Have to Do Some Studying Before September.

On the second Monday in September, at the biennial election, the people of the State of Maine will be given an opportunity to vote on the proposed direct primaries law.

Gov. Plafied has issued a formal proclamation fixing the date of the biennial election in September as the time when the people would be given their chance to say whether or not they wanted a change in the methods of election. This is the first time under the initiative that a measure has been brought before the people. It is understood that the petition that brought this about contained in the neighborhood of 16,000 names, 4,000 more than was required by law.

The law that will be voted on is the Davies bill instead of the Pennell measure. The former is acceptable to the labor unions, the Grange and the Direct Primaries league. It is a much more radical proposition than the other. The Pennell measure was passed by the recent Democratic Legislature which refused to pass the Davies bill.

With the announcement that the direct primaries measure will be voted on, there are now four questions that will be submitted to the people for their sanction or disapproval. The first is the proposed repeal of the prohibitory amendment to the constitution of the state; the second, a proposed amendment to raise the debt limit of cities of over 40,000 inhabitants from 5 per cent to 7 1/2 per cent; the third, to make Augusta the official seat of the government of the State; and the fourth, the statute on the direct primaries.

ROCKLAND IN WAR TIMES

Fifty Years Ago This Week This City's Fourth Company Was Organized.

The fourth company of volunteers elected officers as follows: George J. Burns, captain; John C. Cobb, 1st lieutenant; Beniah Brackley, 2d lieutenant. This company occupied Beal's hall on Limerock street, where Captain Burns was drilling them vigorously.

A beautiful silver-mounted colt's revolver was presented to Captain L. D. Carver of the third company of Rockland volunteers by Francis Cobb.

The several companies of volunteers attended religious services at the junction of Main and Limerock streets. The services were conducted by Rev. Joseph Kallach of the Second Baptist church, and concluded with the singing of America by a choir of 36 ladies and gentlemen. A large assemblage of citizens was present.

At a meeting of the city council a communication was received from Dirigo Engine Co., No. 3, tendering the gratuitous services of that company to the city for the year. The council gave the firemen an unanimous vote of thanks for their generous and considerate action.

Gen. William S. Cochran was making tents for the Maine regiments, employing about 100 men in this city, Thomaston and Camden in the manufacture of tents, poles and tent furniture. The tents for a regiment were 75 in number comprising 62 company tents, three regimental tents and 10 kitchens.

SALOON WILL BE BEATEN

"Reforms Do Not Go Backward in Maine," Says Mrs. L. M. N. Stevens—Active Campaign Planned.

"But it is not true," promptly replied Mrs. Lillian M. N. Stevens, the national president of the Woman's Christian Temperance Union.

"When this gentleman whom you quote said, 'The W. C. T. U. will no doubt make a big noise this summer in the campaign against the repeal of the prohibitory amendment, but they will be talking only to those who already think as they do,' he made two mistakes.

"In the first place, when the white-ribboners do talk to those who already think as they do, it is to prime them with argument and urge them to use it, in man-to-man talks with any who may be uncertain as to sustaining prohibition. In the second place, the white-ribboners are going to make a campaign direct to the voters by touring car and carriage, speaking in shops and factories, with permission given, and in village squares and at noon hour meetings. And all this is but one part of the campaigning we shall use to aid in keeping the saloon out of the state of Maine," she continued.

Mrs. Stevens, veteran campaigner, shrewd general and earnest woman, is in Maine, her home state, to take charge of the white-ribbon division of the forces that have set out to keep Maine a prohibition state. With dark hair tinged with gray, quick brown eyes and a straight and unyielding line of lips, alert, intent and forceful, she looks the leader.

With her at the state headquarters on Free street in Portland was Miss Anna A. Gordon, vice-president of the national W. C. T. U. and national superintendent of the work among young people.

"Miss Gordon has come on from the West," said Mrs. Stevens, "to organize among the young folks in all parts of the state what we have named 'The young campaigners for prohibition.' They are boy scouts and girl scouts of the movement. They sign a muster roll, promising 'to do all I can to help keep Maine's prohibitory law.' And they have a rally cry—a regular college yell it is. See: this is it:

"Maine! My Maine! My!
V-I-C-T-O-R-Y!
Maine Must Keep Prohibition!"

"These 'young campaigners' are to wear a button, assist at any and all campaign rallies, act as ushers, furnish recitations, songs and chorus singing at rallies, distribute campaign leaflets and literature, and take part in parades. But the real work each one of them will do, you understand, will be on the mind of the man at home.

"This is only one of our activities. Just at this time it is a little more in the public eye than any other, because of the novelty. All our work just now is of course largely in the preparatory stage, like arranging for meetings, speakers, tours, etc.

"There are some things like 10,000 white-ribboners in this state. Our annual convention this year will be, so it now looks, the most enthusiastic we have ever had. We have been organized here ever since 1875, and besides the local unions from Westbrook to York, we have county organizations in all the counties. The attention of our members the country over is focused on Maine, and we know what is expected of us here, and we know, too, that the members elsewhere will not be lacking.

"Of course ours is but one of the organized movements here for the retention of prohibition. The others will work in their own way; there will be no concerted action with us, so far as I know now. But it is simply that all are working along parallel lines; the end in view is the same with all. Ours is the woman's way of it.

"But I do particularly admire the way the Grangers have taken hold of the matter. There are 60,000 members of the Maine State Grange, farmers and their wives. They are the solid, the permanent element in our state.

"At their recent annual session the State Grange held that 'absolute prohibition is the only right and rational method of dealing with the liquor traffic and the only method that we can conscientiously sanction,' and then adopted resolutions 'that we emphatically protest against the repeal of the amendment' and 'that it is the duty of every subordinate and pomona Grange in the state to use all means possible to prevent the repeal.'

"And now, within the past few days, the state executive committee of the order has held a meeting, unanimously reaffirming the resolutions and voted to have them 'printed in circular form and sent at once to the Granges of the state in order that their attention may be called to the same.'

"What is it we are to fight? The torpidity of some temperance people and the activity of the liquor interests. As to the form the latter will take, it is now too early to tell. I rather expect that the next step will be to flood the state with literature and circulars; this was the plan followed in the recent campaign in Missouri, in which I took part.

"The press of Maine is substantially against repeal, all except maybe half a dozen papers. In four of these I noticed recently the same antiprohibition article on or about the same date; so I know the enemy is awake. In fact, he never sleeps."

"Mrs. Stevens, are there not a host of people in Maine, not liquor users at all, who sincerely think that the state would be better off under license than under prohibition as it now is?"

"There are, a very great many of them. But they do not know, they do not know. They see the weaknesses of prohibition, the lax enforcement of the law in certain localities, and they say that some other way must surely be better. But of the greater weaknesses and the immeasurably greater evils of the license system they are not informed. They are theorists."

"I certainly ought to know something of the practical working of the various solutions offered regarding the liquor problem in the several states of our country. I do; and prohibition is the best of them all."

"What will be the result in September?"

"The saloon will be overwhelmingly beaten. But it is going to take constant and hard work right up to the time the polls close. But we shall win. Reforms do not go backward—not in the state of Maine."
