## FLY ROD'S NOTE BOOK.

Rangeley! The beauties of the grand old lakes and mountains, and the dear old forest, the trees I have known and loved for many years, the trails on which I once passed, stopping to gather the wild flowers, or listen to the song of the birds. These have been written of in song and prose, but now they have been pictured by the brush of the Boston artist, Mr. J. W. Ferguson Kennedy, who, with his charming little wife, are spending the summer at the "Old Rangeley Place." On Thursday they gave an exhibition at the Rangeley Lake House. There were sixteen pictures in the exhibition, and they were from so many of the well known "beauty spots" they were quickly recognized and in the homes of many of the city guests who love Rangeley in summer, these gems from the brush of Mr. Kennedy, will recall the good old summer time. Following is the list of pictures shown.

At the Rangeley Lake House there has recently been formed the "Do Do Club", sometimes called the "Committee of Eight." This is composed of eight delightful, jolly gentlemen. All college boys, in the not long ago. Mr. W. H. Barrow, Harvard 1908, Mr. C. B. Grady, Stevens 1897, Lieutenant L. B. McGurder, U. S. A., West Point, 1905. Messrs A. M. and H. M. Maris, University of Penn., 1910, L. A. Smith, Princeton, 1907, F. A. Stanton, Columbia, 1912. This club is a social one, whose colors are pink and lavender, and the first social event was on Wednesday evening, when they chartered one of Captain Haley's boats, decorated it in their own colors and invited as many of the charming young lady guests for a shore supper and a moonlight sail, chaperoned by Mr. and Mrs. Mills. For need we add this is a batchelors' club?

Last week I was at Billy Soule's, Pleasant Island, when I had a pleasant chat with my old friend, Pete Lufkin,

## RANGELEY LAKE HOUSE.

(Special to Maine Woods.) Rangeley, Maine, Aug. 16, 1911. The perfect weather followed by the refreshing rain of last night, clearing off cool gives to all nature the look of having had its face washed.

This hotel has been packed and overflowing into the homes of the village people every night for several weeks, and the August rush is larger than ever before. Automobile parties from all over the country from Maine to Texas and California. Several parties, who have been making a long stay, left this week and their rooms were quickly taken.

Mr. Stewart Baird, who has been the leader in all the social events for the past two months, accompanied by his mother on Saturday said goodbye for 1911 to a host of friends who hope to greet him in continued Rangeley follies in 1912. Mrs. Baird and son are now at Squirrel Island.

Mrs. B. Binzger and sister, Miss Schickle, of New York, Mrs. J. B. Morton of Boston, Mr. and Mrs. C. R. Folsom, of Brookline, Mass. have also returned to their homes this week.

Mr. and Mrs. John E. Adriance, Miss Adriance of Powkeepsee, N. Y., and Miss E. L. Hale of Rochester, N. Y., coming in their touring car from the White Mountains reached here on Tuesday and will remain several weeks. This is their second season at Rangeley Lake House.

Mr. John D. Sullivan of Washington, D. C., is one of the new comers.

Mrs. V. L. Davey and Miss Hester M. Davey of Boston are to remain here while Miss Clara M. Davey and Vernon Davey are at Kennebago on a camping trip.

Miss Phelps Stokes and maid of New York coming in her automobile via Dixville Notch are here for a short stay.

Mr. and Mrs. Philip Sheldon of Pawtucket, R. I., are spending a week at this hotel.

Mr. John M. Strong of Philadelphia is here for the remainder of August.

Miss Marion Lasell of Whitesville, Mass. came on Tuesday to join her family, who are camping at Kennebago.

Three of the University of Maine boys, P. E. Tukey, G. H. Garrison and A. W. Abbott of Portland, who are touring the lakes spent Sunday here.

N. S. Shields, Jr., of New York, who knows how to play ball is again here for vacation days, and is a member of the Rangeley Lake House team.

Mr. and Mrs. Oscar Read of New York came Saturday for a month's sojourn.

Two young gentlemen of Philadelphia, E. H. Hance and A. S. Reeves are now of the merry party of young folks who find their time crowded with pleasures.

On Monday afternoon a party of twenty-eight of the young folks had a hayrack ride up Sunset hill where they had supper, coming back by moonlight.

Mr. and Mrs. J. William Mills, Jr.,

THE GROUP OF ARTISTS WHO APPEARED IN THE MID-SUMMER FOLLIES.

of Philadelphia are among the recent ber of weeks here.

Mr. and Mrs. Charles H. Hartshorne of Montclair, N. J., are here for ten days.

Mr. Harold E. Napier of East Orange, N. J., has joined his parents for the remainder of their stay here.

Mrs. Geo. Alfred Fletcher and maid of Radnor, Penn., arrived on Wednesday for an extended stay.

Mrs. Leslie of Pittsburg, Penn., and Miss Mede of Rochester, N. Y., have been here for part of the week.

Miss Kate S. Calburn and Jessie B. Calburn of New York registered here Wednesday en route for Kennebago.

There has been little time for fishing the last few days as everyone has taken to the golf links and bridge is always being played on the veranda, or in the parlors, and there is dancing in the Casino every evening, so that life at this hotel is one "glad sweet song" or as another said, "a merry go round."

## THE BARKER.

(Special to Maine Woods.)

Barker, Maine, Aug. 12, 1911.

"This is a glorious spot, the ideal place for a vacation," remarked a New Yorker, who for August has returned to enjoy camp life again.

There is always a good chance to fish in the "dooryard" and if one can handle their own boat, they can fish for a little time and if they weary of well doing, and the fish refuse to bite return to the hotel, take a rest and go out later. "Two fish to a boat" the law allows for each day, "plug" fishing, and while many fish for days with no luck, others day after day, "catch their limit," for such is "fisherman's luck."

Those who the past week have had the pleasure of landing a record fish, are Master William Hendrickson a seven year old lad from Ridge-wood, N. J., who is here with his parents, caught a 3-lb. salmon, Ernest Demerett guide. His brother, Frank, caught a 3 1/4-lb trout, and his mother, Mrs. Wm. H. Hendrickson landed a 5 1/2-lb salmon, and Mr. Hendrickson captured a 4 1/4-lb salmon.

Mr. and Mrs. Geo. H. Chase of Malden, Mass., returned home today after a delightful sojourn of two weeks. Chas. Record was their guide. Mr. Chase recorded two salmon weighing 3 1/4-lbs and a 4-pounder and a number of 2 and 2 1/2-lbs.

York is keeping up his reputation as a skillful angler, having the past week recorded a 3 1/2-lb trout 3-lb trout and a 5-lb salmon. Mrs. Goodfriend also landed a 3-lb trout. Gard Hinkley is their guide.

Mr. Benj Manilla of New York is greatly pleased with a 5 1/2-lb salmon. Henry Gottgetren, Jr., of New York son of the well known lawyer, Henry Gottgetren, with Bob Martin guide, caught a nice pair of salmon, 3-lbs.

Mr. Jacob Goodfriend of New York 3 1/4-lbs.

Mr. S. Simonson of New York with Frank Fall guide, who caught a 7 1/2-lb salmon is high line this week among the fishermen at The Barker.

Mr. and Mrs. Henry Rich of Brookline, Mass., have returned for their fourth season.

For a ten days' stay the following New Yorkers are greatly enjoying life here: Dr. S. I. Freeman, Max L. Schallek, Benj. Manilla, Lester Holtheimer, and Harry C. Dessrier.

Mr. Newman Levy and Mr. Millard Shrodea of New York, were part of the week guests of Mr. and Mrs. Jacob Goodfriend.

Frank Hendrickson and brother,

put in print for the next day the hurried account, written on the grounds, in none too good shape for publication when it was impossible for the paragrapher to see the proof when it was ready for the press; passingly it may be added that it is difficult to write amid the greetings of friends and a little unavoidable commotion.

The Rev. John Mitchell of Calais to whom reference was made, is a nephew of G. L. Lakin, his mother was Miss Lucy Lakin of Phillips.

"Mr. Dustin," mentioned last week is Mr. J. Dustin Beedy, a Phillips boy, and his wife, a Phillips girl, they and their daughter, Mrs. Perley Gilbert and husband, with daughter, little Miss Ellinor, are all from Auburn.

## GRANGE FIELD DAY.

Some Good Subjects and Good Speakers.

On Thursday, August 17th the State Grange field day for Franklin county was held at the fair grounds here.

The day was fine, and by 11 o'clock in the forenoon a good sized audience had assembled at the grand stand where the speaking took place.

The meeting was called to order by the master of North Franklin Pomona Grange, A. D. Graffam.

First came music by the choir under the leadership of F. C. Worthley of Strong, then State Master C. S. Stetson was introduced and spoke for half an hour along the line of good roads. Brother Stetson was given a cordial welcome, as he always is when he faces a Franklin county audience. He said in part, you have in Franklin county 1,120 miles of road; of this number 117 miles are the so called state road which have been built at an average cost of \$3,300 per mile. It is the duty of every voter to see to it that suitable road commissioners are chosen in every town, and that men are secured for labor on the high-ways who are willing to render their labor at a full dollar's worth, for a dollar in cash. Too much money has been wasted on the roads, and it is time to call a halt on that kind of work.

Following Mr. Stetson's remarks Miss Estelle Barker of Phillips sang a solo, then the meeting was closed for dinner, which consisted of a basket picnic, coffee being served to all who wished it.

The meeting was called to order again at 1 o'clock with a large increased audience, after singing by the choir, State Master Stetson introduced Hon. Andrew Elliott of Galt, Ontario, who gave an address on Temperance. He was listened to with close attention, and made many good points showing the reason why the prohibitory amendment should be retained.

Following this the choir gave, "The fight is on." The next speaker was A. M. Galop of Skowhegan, who spoke on direct primaries. He urged all voters to vote "Yes" on the Davis bill on Sept. 11, giving good reason why they should do so.

Next was a solo by Miss Ferne Worthley after which B. Walker McKen of Fryeburg, lecturer of the State Grange, gave an address on parcels post. He has given much study to the subject, and held the close attention of his hearers during his 40 minute address.

At the close of Mr. McKen's talk Rev. E. J. Moore, who was in the audience was called for and responded with a 15 minute talk on temperance. Mr. Moore is superintendent of the No-License League of Missouri, and understands the workings of license, and further he is a fine speaker, and can portray his subject eloquently.

The meeting was voted by all to be a grand success, and thanks are hereby tendered the officers of the agricultural society for kindly allowing the grangers the use of their grounds and grand stand.

CATTLE SHOW AND FAIR SEPT. 26, 27 AND 28.

The copies of the North Franklin Agricultural society have been mailed out this week, and it is hoped there will be much interest taken in the show and fair this year, which occurs on September 26, 27 and 28.

\$400.00 in purses have been offered in the races and it is expected there will be some good horses entered.

By request I refer, briefly to West Phillips reunion again, and in doing so add some notes of interest to the report already made in these columns.

It speaks much for the efficiency of Maine Woods that it was able to

### THE FLAG FOR NORDICA.

The flag for Nordica floated from the staff on Merrill hall Thursday afternoon of last week when she sang for the great audience which greeted her there. It was estimated that at least 2,000 people were assembled. The large hall, corridors and balcony of the building were crowded, many standing on the window ledges and on the walks outside.

Mr. Arbo C. Norton had a very handsome window display consisting of the American flag and photographs of Madame Nordica with the announcement of the reception and recital last Thursday which attracted much attention.

Madame Nordica is a strikingly beautiful woman and was in magnificent voice. She wore an elegant cream crepe gown over silk, decollete, and cut en train, a pearl necklace, ear jewels and long neck chain with pearl pendants, and long white gloves. Her headdress was in the form of a cap of silver net work with diamonds at each intersection, a large aigrette at the side.

Mr. David H. Knowlton, in a few well chosen words introduced Madame Nordica. She was greeted with a flutter of handkerchiefs and a din of hand clapping. Bowing her thanks she spoke of the great pleasure she felt at being here again and for her cordial welcome.

Madame Nordica first sang two songs from the Japanese, then songs from the French, German and English, giving a brief explanation of the meaning of each before singing. Her rendering of "Annie Laurie" and "Home, Sweet Home" as an encore, drew tears to the eyes of many.

Nordica was presented with a beautiful basket of roses by the hand of Miss Annie Woods McLeary. After bowing her thanks she fastened two of the roses in her belt. Also a basket of pansies. The accompanist favored the audience with a piano solo during a short intermission. Mr. R. Simmons, her regular accompanist for fourteen years.

Mr. Hiram Norton of New Vineyard escorted her from the hall. He is an own cousin, his father being Hiram Norton, a brother of the father of Madame Nordica, Mr. Edwin Norton.

A reception was held to which all were invited. Mr. J. Eugene Brown introducing the people and as they passed before Nordica she had a pleasant word of greeting and a cordial shake of the hand for each. Mr. Arbo C. Norton received with her. Nearly all availed themselves of the privilege, both young and old.

The stores and other places of business were closed throughout the village. People were here from all the surrounding towns. Many from Phillips, New Sharon, Industry, Wilton, Temple and Chesterville were noticed in the audience, coming by train, auto and in teams.

It was first planned to hold the recital in the Methodist church, but later it was changed to Merrill hall, that being the largest hall in the village and having a grand piano.

Many of the Norton family were present, the oldest being Mrs. Mary Butler Norton, (Mrs. Sylvanus Norton.)

Madame Nordica's sisters, Mrs. Walker and Mrs. Baldwin, held impromptu receptions, there being many old friends in the hall.

The great privilege of hearing Madame Nordica was much appreciated and an occasion to be ever remembered.

Mrs. Belle W. Gilman gave a reception to Madame Nordica, her sisters and invited friends, at her beautiful home at Beechwood, Friday evening from 5 to 7.

Mr. George Young drove through from Boston to Farmington Friday in his automobile and is much enjoying the drives around the vicinity with his wife, Madame Nordica.

Madame Nordica gave a reception Saturday afternoon to invited friends at Nortonwoods.

Mr. W. F. Baldwin arrived in town Thursday morning.

### DEDICATION AT OQUOSSOC.

One of the most remarkable eras of religious zeal that the world has ever witnessed, was that of the French fathers, who penetrated the primeval forests of the north and south of the St. Lawrence, and spread the gospel to the savage Indians. Remarkable as were their efforts, just as remarkable were the results, for the devotion and heroic self-sacrifice of these Catholic Missionaries won great numbers to the true faith, and in fact France was able to hold sway in the northern part of our hemisphere as long as she did, not only by the aid of her savage allies, whose attachment was due not to the sword, but to the message of the Cross.

When one at this day wanders up into the wilds of Maine, where the population is scattered, it is refreshing to see that the spirit to spread and bring religion into the lives of the people, now in the same wilds, which the French Jesuits first employed, has yet survived.

At Oquossoc, in the center of the Rangeley region, at the terminus of the broad gauge railroad a Catholic church has been built. It is situated in the heart of the Maine woods. The nearest Catholic church is 44 miles away in

of Calais, then in charge of this mission made upon her. She had noted from time to time the miles he travelled, the work he did in all seasons and weather, and the sacrifices he made for lumbermen in the forest camps.

She was confirmed in Portland by Archbishop O'Connell in his private chapel in 1904, and later by his permission and blessing took up her work of building the church in the woods that were so dear to her.

Having a very large acquaintance among the people who had sought health and recreation along the shores of the lakes, from time to time she interested Protestants and Catholics alike in this plan to build a church in this territory.

A Maine Woods representative asked, "Tell us Fly Rod how you first happened to think of building the church?" and was answered, "I was at Mountain View one stormy winter day when a lumberman, who was killed below Middle Dam, was brought there. Standing by the window as I watched them take his body to the station to be sent to his home in New Brunswick, and buried from the little Catholic church in his own parish, I could not keep the tears back, and then and there I promised if good St. Anthony would help me, my life work should be given to help raise funds for a church somewhere in the Rangeleys."

St. Anthony is a wonderful saint, the church is built, for Fly Rod has not only prayed but worked with a will, putting her whole heart into the work, and even life itself would not be too great a gift for her.

Her Protestant friends have been generous for they could not help admire the effort Miss Crosby has made, and while many have not been interested it is their loss, for will not each and every one receive a blessing for what they have given?

August 15, 1911.

On Tuesday occurred an event of unusual interest in this part of the state, as this church at Oquossoc in the center of the Rangeley region, was blessed and dedicated.

The Rt. Rev. Bishop Louis L. Walsh

OQUOSSOC CHURCH.

one direction, and 60 in the opposite direction.

This church was planned by one of the most energetic women that the state of Maine has ever produced—Miss Cornelia Thurza Crosby—and by her own efforts, she has raised all the funds necessary for the purchase of the ground, and the building of this church. Miss Crosby was born and grew up in the town of Phillips, in the little cottage which is still her home. In her early youth her health was not at all robust, so she took to the Maine woods and an outdoor life to improve her physical strength. In this purpose she entirely succeeded, and in her search for health gained the reputation as one of the finest sportswomen in the country.

This was at a time when there had been little written about the Rangeley Lake region.

Fly fishing was then untold there, and not one of the hotels one finds today had sprung into existence, and by accident after her first successful casting of the fly she wrote about her attempts and a few notes to the newspaper under the nom de plume of "Fly Rod" and soon little articles of hers on experiences in the Maine woods began to appear in New York papers, and from that time people began to learn more and more about the Rangeley lakes, and to repair them for the excellent fishing.

Miss Crosby was the first woman guide in the state, and, in fact, the first guide to register under the laws of the state, her certificate reading No. 1, up until some ten years ago when she met with an accident stepping from a railroad train in Portland injuring her knee, resulting in much suffering and many months in the hospital and being obliged to use crutches, Miss Crosby spent much time in the woods. She was an excellent rifle shot and brought down one of the last caribou that was killed in the state of Maine. This was in 1897.

As the result of her training in the woods, she was the leading spirit in establishing the Maine exhibits in the New York Sportsman's Exhibition in Madison Square Garden, New York, a few years back.

During the illness following her accident Miss Crosby, who was a Congregationalist became a convert to the Roman Catholic faith. This conversion resulted in part from the great impression that the wonderful work Father Horan

D. D., Bishop of Portland, was present giving his blessing and preaching an elegant and practicable sermon that made a great impression on the audience.

The sun shone as if in blessing, and it was indeed a beautiful sight as the people, coming some of them from a long distance, first gathered around the church and Rev. Fr. A. McDougall, carrying the cross and followed by the two altar boys. The Bishop, Rev. Fr. N. Horan of Calais, Rev. Fr. J. A. Barry of Portland, Rev. Fr. A. J. Barry of Rumford and the pastor, Rev. Fr. T. J. McLaughlin all dressed in the vestments of their office, walked around the church chanting the same psalms that were sung when Solomon's Temple was dedicated and that have been sung when every cathedral and the most humble Catholic church in the world has been dedicated since then. The Bishop sprinkling holy water on the building and blessing it.

The High mass was sung by Rev. Fr. Horan, who many years ago came to this region to visit the sick and dying. He was the first Priest stationed at Rumford, where he built the first Catholic church. The choir of St. Joseph church, Farmington, furnished the music.

The altar was truly beautiful, decorated as it was with many lighted candles and hot house flowers. On the altar was a large and effective cross of pansies arranged and sent by Mrs. Maximilian Foster Laur, bouquets of pink roses, and many hot house flowers sent by city friends.

A large number of people were present. Senator James A. O'Gorman's family of New York. Mt. View guests including Mr. McLaughlin and party of Philadelphia, etc. Some 50 came from Farmington. Mr. and Mrs. M. A. Mitchell, Mrs. J. W. Brackett from Phillips,—guests from the different hotels, Rangeley people, etc.

The Rt. Rev. Bishop thanked each and every one who had contributed in any way for the church, and said that among all the churches in the state not one had more beautiful and complete furnishings, the gifts of friends from all over the land.

The large wooden candle-sticks, carried in the procession were for the Passion Play and made by the one who took the part of Our Lord. A pair of brass candle-sticks were on the altar that came from Damascus. The elegant brass candle-sticks, crucifix and lamp from Montreal. The very beautiful al-

## KINEO HOUSE.

Tennis, Fishing, Horse-Back Riding and Ladies' Races All Enjoyed Here.

(Special to Maine Woods).

Kineo Moosehead Lake, Maine, Aug. 19, 1911.

The great August crowd continues, with every spot filled. Golf and yachting have furnished chief interest for the vacationists during the week, although tennis, fishing, horseback riding and canoeing have had their devotees. The success of the improvements and enlargements to the new Mt. Kineo have been so big a success, that already plans are going forward for still greater facilities for accommodation and pleasure another year.

Every year a feature of the yacht club's program is the ladies race for trophies offered by rear Commodore A. B. Waring of New York. Tuesday a large crowd witnessed the fair contestants pilot the eleven boats about the course. Mrs. C. A. Judkins, in the Runabout, won handsomely, receiving the cheers of the on-lookers, and salutes from the boats in the harbor. Next across the line was Miss Clarice Paterson, of New York, who won last week's race, in the Damiante. Following came Mrs. C. A. Conklin of Atlanta, Ga., in the Danny, which passed every other boat but the leaders, in the twelve miles, getting third prize. The striking feature of the contest was Mrs. M. D. Paterson of New York, in Moosehead Lake's fastest speed boat, the Arista. Although overhandicapped, starting last, she kept up her plucky fight over the twelve miles, and received a generous salute for her sportsmanship as she crossed the line. Others who took part were Mrs. Francis West, of Boston, in the Onaway; Mrs. W. L. Shaefer, Pottsville, the Clematis; Mrs. S. W. Milligan, the Tender; Mrs. C. M. Clark, the Kin-nah-beh; Mrs. J. M. Lasell, of Whitinsville, Mass., the Peggy L.; Miss Edith Thornton of Pawtucket, the Edimar.

A race earlier in the week was handily won by the Danny, Mr. C. A. Conklin's fast speed boat, Mr. G. M. Thornton of Pawtucket, getting second prize in the Edimar.

Yacht activities include a club run and picnic Saturday, and many dinners and card parties. Mrs. John Reilly, Jr., of New York, wife of the Commodore, gave a large party Wednesday; Mrs. Thomas Upham Coe of Bangor, one Friday.

Nearly 50 enjoyed putting for cups offered by Mrs. M. D. Paterson of Manhattan, Lamar Seeligion of San Antonio, beating Courtney Day of South Orange in the finals.

The golf links have been crowded all the week, 52 entering the competition for cups offered by Mrs. Geo. Nye, Jr., of Springfield, Austin Feuchtwanger (4) of Manhattan brought in low medal score, 18 holes, 73; C. M. Du Puy (14) of Pittsburg, second 75, and Henry Feuchtwanger (scotch) of Manhattan, third, 77, in the qualifying round.

Wednesday the greens were crowded with contestants in an approaching and putting match for cups presented by Mr. Thomas Dickson of New York. Thursday, the large lawn was an animated scene, a putting match for thirty children, Mrs. R. E. Paine of Brookline presented cups, followed by one for ladies, Mr. John Day of South Orange giving the prizes.

Billiard-bagatelle contests for the handsome hotel cups grows keener. Mrs. B. Laester Tyrrel of Brooklyn held the lead among ladies, with 363, until Miss Murai of Manhattan pushed ahead with 393. Mr. Austin Feuchtwanger of Manhattan holds honor place among men, 461.

Miss Bailey of Philadelphia and Walter Negley of San Antonio, Texas tied for second prize, shoot-off, young Negley winning. In the continuous score G. Allen Smith increased his lead, putting in the season's highest target, 80, while L. B. Adams drew up next to him.

Now is the time when everyone is having a gay time, and there is music everywhere.

There are now more guests being entertained than ever before for the four new bungalows give room for several more parties.

Mr. and Mrs. H. D. La Coste of New York have joined the party in Rosecliff.

Going off for a camping trip and a tramp up old Saddleback, or a canoe trip up South Bay stream, or a shore dinner are among the social events of the week.

Mr. G. A. Austin, a young gentleman from Yonkers, N. Y., who is an expert fisherman of the "old school" who gets up at 4 o'clock in the morning and takes rod and reel for an hour's sport, started out alone over to Hester's Cove, will not for this trip forget his experience. He cannot remember how many fish he caught but in the early morning had

long time to watch a large bullmoose that swam across from Dickson's island and after leaving the lake walked along the shore. "I thought it was too big for a moose, but what on earth it could be I did not know for the horns were so large," said Mr. Austin.

Miss Ruth Hopper a charming New York young lady who is here with her mother and sister was delighted when out for a morning walk Saturday she saw a handsome deer cross the road.

## BLAKESLEE LAKE CAMPS.

(Special to Maine Woods.)

Eustis, Maine, Aug. 15, 1911.

Every cabin in this camp is filled and many applicants for August have been turned away, and if Joe had a half dozen extra personalities he could find use for every one of them in keeping the "ball of pleasure rolling." Everyone seems happy, and if they are not no camp owner could make them so, in a sporting camp, since Joseph eats and sleeps, "on the wing" in his strenuous endeavor to dig up appropriate pastimes for the various tastes of vacationers and sportsmen and women. Appreciation goes a long way with the willing spirit, and so a broad smile that will not wash off in "a talking machine" spreads all over our genial Joe's handsome face. We have had picnics where the ladies have gone along, to the pleasant spots selected, to meet for lunch, and with books and needlework passed the time in profitable employment while waiting the return of the fishermen and in the general round up for lunch have added their feminine choruses to the circle of hungry fishermen, be it understood trout have been captured in satisfying quantities for all needs, and many to bring home to the camp.

Our evenings have been replete with surprises and swift moving pleasures, camp fires on the big open lawn fronting the cabin where marshmallows have been toasted and "corn popped" and the ring of many voices lifted in songs, with banjo and mandolin accompaniment was wafted away into the silence of moon-lit nights, Indian war dances, around the glowing fire and the "whoop" of vivifying throats have echoed far across the mountains and our big Victor concerts have found grateful appreciative audiences. "Blakeslee" has been unusually gay and happy to the past few weeks.

The famous band of musicians, organized some time ago, proceeded down the buckboard road for about one-half mile one dark stormy night 10 days ago, and with vim and enthusiastic efforts welcomed a party coming in late at night, with music such as these few loving New Yorkers had never heard before and doubtless will never hear again. These genial people.

The Misses Morgan, Halpin Myers, and Mr. Seidler of New York have amply returned the compliment since then by adding to the happiness of everyone in camp, becoming as one of us and cheerfully contributing to every occasion their several talents and accomplishments. We are patient ly awaiting their return from Rock and Iron ponds, where they are spending a few days to record the results of rod and reel and camera.

Mr. and Mrs. Harmon left us very reluctantly last Saturday for Boston after a 10 days' stay "filled to the brim" of what they came for. We miss them, but our gratitude follows after, because they left to us the never ending source of delight.

"Curles," who effervesces and bubbles with genuine wit and humor, benefiting every fun lover in camp. Long live "Curles" to accuse the dull, and make love to the girls and render a service to everyone who needs it.

Mr. Riddlett of New York and Mr. Alkerton of Boston are at Rock and Indian ponds with "the bunch," and will make the trout get busy with their flies.

Mrs. and Miss Talford of Yonkers are getting rest and recreation and stream fishing at the home camp.

STEVENS SECOND IN WESTERN HANDICAP.

We are gratified to inform you that Mr. C. C. Collins, (the National Amateur Champion) won second place in western handicap, which occurred the past few days at Omaha Nebraska.

Mr. Collins was equipped with a Stevens "Trap Shooter" Grade No. 522 Repeating Shotgun. The western handicap is a very important shoot, which makes the victory of Mr. Collins a noteworthy one.

Stevens repeating shotguns are winning victory after victory at the traps because they are Natural Pointers—the best balanced gun made.

Send in your votes for the Rifle. It will be worth while for it will be a dandy, and may be the means of bringing down your deer.

SAW 168 CARIBOU.

Interesting Reading From C. S. Winch's Diary Which Tells of His Caribou Hunt.

The following is the diary of Mr. C. S. Winch, assistant curator of the University of Maine Museum, who saw 168 caribou and several moose while hunting caribou in New Brunswick, with Sydney B. Thomas as guide. Mr. Winch secured three fine specimens. He had a special permit from the provincial government. His notes are intensely interesting and show what a paradise for sportsmen are the border lands of Northumberland and Gloucester county easily reached by way of New-castle.

Mr. Winch's diary reads as follows:

Arrived at Newcastle, N. B. at 12:45 midnight. Our teams and outfit had been engaged from the old and reliable liveryman, R. H. Grenley, of Newcastle, and we found everything up to date and perfectly satisfactory. Mr. Grenley did everything possible for our comfort and convenience, and we would advise any sportsman looking for first-class service to get in touch with Mr. Grenley. He had a team waiting for us at the station when we arrived, and had sent another to take us into the woods. This latter team we met at Ed Way's, 18 miles from Newcastle on the first crossing of the Merinichi. We arrived at 5:30 a. m., after a mighty cold ride. Breakfast was in preparation and we soon were enjoying a royal good feast. Then we started for Mr. Pringle's depot camp, about 25 miles away, with nothing but woods all along the way. Arrived at camp at 5:20 p. m., where a fine hot supper awaited us. Mr. Pringle was off in the woods with another party, so he sent Mr. S. B. Thomas to look after me.

Sunday, October 30, left camp, bound for Caribou grounds, 12 miles to walk. Arrived at Camp Wait at 1 o'clock. Rested an hour. Then we started for the lookout. Were up there an hour before we sighted any caribou, when all at once the guide called out, "There are five of them lying down, three miles off." We started and worked up to within 75 yards of them, so we could look them over carefully, two small bulls, two cows and one large calf. I decided they would not do, so we started back to camp. When we were about half way back, the guide stopped and pointed and there stood a fine bull caribou with 24 points, a fine, large animal. We looked him over carefully, and I decided I did not want him, the brow antlers were very poor, no tops, patchy on neck. Just then I looked to my left and there was a cow caribou coming out of the trees, and quickly followed by three more, two cows and one calf; but, it being the first day, I concluded to wait. Before we reached camp we saw still more caribou, in all four cows, three calves and three bulls.

October 31, left camp at 6:45 a. m., saw 43 caribou before dinner and 33 in the afternoon. Returned to camp at 6:00 p. m., 76 caribou in all, 18 of them were bulls but none of them suited me, they were not just what I wanted. There were a lot of calves, but they were too big for my purpose, all but one. He was a nice little fellow, we tried for an hour to get him but wind was against us; they winded us and off they went. Saw one big bull moose. Guide called him up to within 200 yards.

November 1, left camp at 6:30, went up to the lookout. Soon as it was light enough to see, we saw four caribou through the glasses about a mile away. We tried to work up on them but they heard us and got away. We went to another lookout, four miles off, but they smelled us and started off on the run. We sighted four more feeding away across the valley, two cows and two calves, one a fine little calf. We walked up to within 150 yards when they started to run, I shot twice at the calf but missed, so we went back to the lookout. We were there but a few minutes when we spied a big bull caribou coming along. We watched him. When he struck our trail, he stopped short, threw up his head and gave a snort and turned back the way he came. Thirteen caribou for the day, three bulls, five cows and five calves. Of all the caribou I have seen up to now, I had seen only three cows

with horns and two of them were broken. While we were at the lookout two cow moose went across the burnt land about 200 yards from us.

November 2, we went over to the lookout at 7:10 a. m. Watched for an hour. Finally we saw four caribou one and one-half miles off so we started to work over to them but no use. It was too noisy and they ran away. Then we went over to the next lookout, saw no caribou, so we started for Bald Mountain, nine miles away. On our way we saw five caribou, nine caribou in all today five small bulls, two cows and two calves. The calves were large so I did not try to kill any. Tomorrow we will hunt the Bald Mountain country.

Bald Mountain, November 3. Left camp for South Mountain two and one-half miles away at 7:10. Started two bunches of caribou, but could not see them; it was in thick brush growth; the moss was frozen and we made as much noise as a brass band. We went up on top of the mountain and took a look; could see nothing but cows, calves and a few small bulls. At two o'clock a big bull walked out on the bog, his head looked pretty good from the mountain; he was a mile off but the guide said he would take a run down and look at him and I watched him from the mountain; but the head did not look good to him so he did not signal me. He came back to the mountain and we sat down and watched until 4:30. We saw a bull come out of the woods across to the next mountain. We took a look at him through the glasses. He was one-half mile off but his head looked good to me. Just then he looked up for a minute, then dodged into the woods, so the guide and I started for him making a big circle. We got pretty well down the mountain. It was getting quite thick and we thought we had lost him, when all of a sudden he jumped up in front of us and ran. The guide put up his horn and grunted a few times and the caribou stopped for a minute, then started to circle us. The guide grunted again; he stopped behind a spruce and all that I could see of him was his hind parts. Then it was now or never. The first shot struck him just front of the hips; then he ran across an open place. The next shot caught him through the shoulders and down he went. I called him a very fine specimen of a caribou, a typical representative of the caribou family; perfect coat and a fine set of antlers, 24 points with a good brow antler. I would like to take it home in the flesh but I am afraid of damaging the hide, and another thing I am 53 miles in the woods from Newcastle and 16 miles up in the mountain from the home camp where the team left us. We have got to pack it out to there. Have seen 43 caribou, 13 bulls and the rest cows and calves. The calves are getting quite large. We have seen only two little ones, but they were a long way off; we tried to get one but they got out. Have seen only three cows with horns. I always thought that a cow caribou had horns, but I find

that only a small percentage have horns—about four per cent.

Nov 4. Left Bald Mountain camp at 7:10, went over and skinned the big bull that we got last night, two and one-half miles from camp; got him skinned and packed on the horse ready for Camp Wait at 9:30, nine miles away. Arrived there at 12:30; killed a fine calf on the way and could have killed a cow, but the guide thought I had better not for I could get one near Camp Wait. Went out after dinner and tramped all the afternoon and saw just one little bull caribou. It has rained all day. Saw 15 caribou today. Tomorrow I must kill a cow for we have got to start for the home camp. Sunday morning the team will be in after us. The cook went over this afternoon with the bull and calf and will be back tomorrow.

Noon: it is still raining. Five bulls.

November 5. Left Camp Wait at 9:45, raining hard went out on the open ground in hopes to see a cow caribou. The wind was in our favor for once. We went up to the lookout. Nothing in sight, so we started across the flat to a little opening. While we were standing there thinking what to do next, out walked a cow caribou about 75 yards off. I missed the first shot but the second struck her a little too far back and she started to run, but the third shot brought her down. Think I have got three very fine specimens. Saw just one caribou today, making a total of 169 caribou sighted on the trip, 47 of which were bulls.

Any sportsman thinking of going on a caribou hunt this fall will do well to write to Arthur Pingle, addressing him at Stanley, N. B., or McNeil's Postoffice, via Newcastle, N. B. I had a communication from Mr. Pringle a short time ago in which he stated he had open dates from October 10 to November 6. Or sportsmen might write to S. B. Thomas, Fredericton, N. B., who was my guide on this trip, and who proved himself to be a mighty fine man for the work.

SCOUTS GO CAMPING.

"Hiking," Boating, Swimming, Etc. Enjoyed By Boys at Long Pond.

Ten of the boys with scout master, Rev. M. S. Hutchins, recently went on the first camping trip, though not the first long walk, taken by the Boy Scouts of Phillips.

Long Pond was the objective point on Friday morning, August eleventh, when Reynold Graffam, Homer Davenport, Montford Hutton, Albert Scamman, Karl Howland, Lamont Bean, Mason Dutton, Herbert McKenzie, Bruce Davenport and Floyd Reed left Phillips at half-past four o'clock.

Though it began to rain early in the forenoon, the scouts turned not back, and just at noon reached Saint's Rest cottage at the pond. Wet and tired from the eighteen mile tramp over slippery roads, all the boys, either from the scout law or their own happy natures, remembered to be bright and cheerful.

A good warm dinner and a clearing sky worked wonders with the wearied bodies, and long before night the brave band sallied forth in search of adventure.

For three days the camp was theirs until Monday noon when the homeward march began. Phillips was reached early in the evening, though tired, the boys were none the worse for their much walking, though some do say the scout-master,—but this report is for facts not hearsay.

During the stay at Long Pond all the chores about camp, setting and clearing of tables, washing dishes, etc., were done by the boys.

The cooking was done by Mrs. Ina Davenport assisted by Mrs. M. S. Hutchins, to both of whom the boys are very grateful for their help and kindness.

The time went very quickly with "hiking," boating, swimming, blueberrying, and playing Indian.

Pleasant incidents of the trip were the "hike" to Rangeley and return, the calls at the cottages of the Wilburs and Nobles at Rangeley, and the Parkers at Long Pond, and the calls at their camp by friends of Phillips.

PHILLIPS AND VICINITY.

Mr. and Mrs. Edward Morse and son of Boston are the guests of Mr. Morse's cousin, Dr. and Mrs. W. I. Blanchard. They have been camping at Winthrop and will remain in Phillips a few days before returning home.

We are very sorry to report the illness of Mrs. W. S. Badger, who has been seriously ill for a week. Mrs. Badger has been in poor health for a year or more.

Mrs. Elizabeth W. Goodwin and Miss Edith W. Goodwin of Farmington, Prof. Charles J. Goodwin of Bethlehem, Pa., and Miss Hortense E. Wales of Brookline, Mass., and Miss Marion Harlow of Allston, Mass., have been the guests of Mr. and Mrs. H. L. Goodwin and family.

Mr. and Mrs. Wendall Nason of Canaan, are visiting Mr. and Mrs. J. L. Boston in Strong, and will come to Phillips the latter part of the week for a visit with relatives here.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by W. A. D. Cragin; Chas. E. Dyer of Strong; L. L. Mitchell of Kingfield; Riddle's Pharmacy of Rangeley.

### LOCAL HISTORY OF KINGFIELD.

The following is an original essay written and delivered by Miss Lena Page, age 14, at the grammar school graduation:

The town of Kingfield was originally a part of that immense tract known as the "Bingham Purchase" and "Million Acres", over which Maine's first governor, William King, and Thomas Otis assumed ownership. Later this partnership dissolved and Governor King became the sole owner of the entire territory, and from him the town derived its name.

He cleared the land, built a dam across the Carrabassett river near the site of the present one, erected substantial farm buildings and laid the foundations of the town. We are all familiar with that old landmark, the Governor King mansion, which is still an excellent state of preservation.

William King was a man of untiring energy and perseverance, and the prime factor in bringing about the separation of Maine from Massachusetts. It has often been said that he was "the first and best of our governors." From early manhood he was a resident of Bath, Maine, where he resided until his death. It was in response to the liberal inducements offered by him that the earliest settlers of this section were persuaded to come here to locate. Unfortunately, however, his venture here proved disastrous, resulting not only in his financial ruin, but by many believed to have caused insanity, with which he was afflicted in later years.

Owing to the inaccessibility of this territory settlers came very slowly between 1805 and 1812. The hard times of the latter years were keenly felt in this community, and even many of the most prosperous residents were at times on the verge of starvation. After this period of depression the tide turned and the population increased steadily.

In April, 1814, Kingfield held its first plantation meeting of which any record exists. In 1820 when William King was elected governor, the town voted unanimously, casting 63 votes.

For several years after the territory was settled money was an unknown quantity, and the products of the farms the only medium of exchange. There was practically no demand for labor, and never was more than \$8 or \$9 paid for a month's work. The only means of communication with the outside was by trail through the wilderness to Hallowell, to which place it is said one man walked and worked four days for one bushel of corn,

The town received a severe blow in 1867 when all its mills were destroyed by fire, and again in 1869 when they were swept away by freshet. It was at this time that the indomitable courage possessed by the early pioneers came to the front. These mills were replaced and all are today engaged in practically the same line of business as then.

In 1884 the railroad was constructed between Kingfield and Farmington, and on December 3d of that year the first train whistled into this town. This train was run by the veteran engineer, Daniel Cushman, who has been continuously at his post of duty since that date. Mr. Cushman is the only employee of the

bringing it home on his shoulders.

During a long period, of years the most thickly settled portion of the town was on what is known as Minister Hill, near Tufts and Dutton ponds. These farms, however, were gradually abandoned until at the present time not a single habitation remains in what was once the most prosperous part of Kingfield.

The first schoolhouse to be built

road who can boast of so long a period of service.

From this date the prosperity of the town was assured. Old mills revived operations, new ones were built, other industries sprung up, and soon from a sleepy little hamlet nestling peacefully at the foot of Mt. Abram there had grown a thriving, hustling, business community.

Perhaps no better example of its

in the village was on the Salem road, nearly opposite the so called "twin houses." Some years ago the accommodations for the increasing number of pupils were found to be inadequate and in 1904 the Stanley school building was erected at a cost of approximately \$9,000. This is a thoroughly modern structure, and one of which any town may be justly proud.

advancement can be given than to compare the valuation in 1884, the date of the coming of the railroad, which was \$119,000, with that of 1911, which is \$411,085, while the last census places the population at 927.

The first large industry to follow the coming of the railroad was the novelty wood-turning plant of the Jenkins & Bogert Mfg. Co., and to

VIEW OF KINGFIELD, SHOWING ROOF OF OLD GOV. KING HOUSE AND MT. ABRAM IN DISTANCE.

William King Dudley, born in 1809 was the first white male child born in Kingfield, while the first white female child was Martha Phillips.

The first bridge across the Carrabasset river was where the Norton or Lord bridge now stands. A covered bridge, which was blown down in 1851, first occupied the site of the chain bridge, and soon after the present bridge was built. This was the first of the kind in the country, the iron links being brought from England, as it was before iron was mined in America.

this company is due much of Kingfield's prosperity. In 1895 the Kingfield Savings bank was incorporated and its deposits have already passed the \$100,000 mark. In 1898 a fine gravity water system was installed, which has proved of inestimable value in stimulating the growth of the village. Following these in 1900 was the Huse Spool & Bobbin Company's plant, which in addition to its regular work furnishes electricity for lighting the town.

The latest move in the right direction, and one that promises much

for the future prosperity of the community, was the organization of a Board of Trade, April 21, 1911, with 38 charter members. The possibilities of this organization are unlimited, and it is hoped and expected that great results will soon follow. Not only the members but each and every one of us may do much to aid in this work of improving and building up Kingfield. To coin an expression much resorted to by our western neighbors, we should all strive to become "boosters" and not "knockers," bearing constantly in mind the words of our motto:

"Nothing is too high to be reached or too good to be true."

Kingfield's hostelry, the Kingfield House, offers especial attractions to the individual or family seeking health, rest, recreation or sport. The hotel is well appointed, modern, sanitary and pleasantly situated in a region affording many of the finest natural attractions in the state. Surrounded by high wooded mountains, with numerous trout streams and ponds near at hand, the guest of this house is assured of great variety of entertainment. If he seeks wilderness ways he can plunge into an unbroken forest close by, and return at night to comfortable quarters, with good bed and table assured. With two daily mails, in and out, local and long

distance telephone service, mountain spring water under 86 lbs. pressure, one is supplied with the essential ministering agents of comfort, and yet can readily respond to the call of the Red gods and get very near to nature in all her wondrous moods. Well up in the mountains, only three miles distant, at an elevation of 1,500 feet, lies Tufts, Dutton and Grindstone ponds, where good trout and salmon fishing can be had every day of open season. Camps and boats are always in readiness, and the hotel livery is well equipped for every service. The hunting too at this point is just as good, sometimes better, than that of more remote districts. In fact, don't pass by the Kingfield House too hastily when looking for that ideal spot for summer days. The proprietor, W. D. Page, is a most genial host, and hostess Mrs. Page will ply you with home comforts and cheer until you will surely come again and every year.

### SEVERAL PROSECUTIONS FOR VIOLATIONS OF FISH AND GAME LAWS.

Reports have been received at the department of inland fisheries and game of a number of recent prosecutions for violations of the inland fish and game regulations. Warden F. H. Field of Oakland, trial justice, was followed by conviction and that Cayford was fined \$9 and \$1.70 costs which he paid. Warden Clark also reports that in the case of State vs. Fred Parker of Providence, R. I., for a similar offense, a prosecution before the same court resulted in the conviction of Parker and his payment of \$18 and \$3.40 costs. Warden Clark also reports that in the case of the State vs. Frank Danforth of Providence, R. I., convicted with a similar offence by the same court, a fine identical to that given Parker was imposed.

Deputy Warden Bert Smith and General Warden J. Bagley report the prosecution before Trial Justice Nathan Averhill of Lee, of Benjamin Webster of Lakeville, Penobscot county for having more than 40 trout in his possession at one time. Webster pleaded guilty and was fined \$15 and costs.

## THAT AWFUL BACKACHE

### Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and am enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for special advice. Your letter will be absolutely confidential, and the advice free.

### HOW DUCKS FLEW AT THE GUN CLUB SHOOT UNHARMED.

"A sportsman is a law unto himself as far as the protection of game is concerned."

That was the surprising assertion I heard at the shoot of the Portland Gun club in Falmouth Tuesday afternoon. It was surprising to me, because I then concluded that I did not know sportsmen.

It was prompted by a remark I made when some wild ducks flew near the place. It was late in the afternoon when these game fowl appeared and as they circled through the air preparatory to settling on the water, there was a cessation of conversation and a rush to the bank to get a better view of the creatures. They were not within gun shot, but were dangerously close if it had been open time.

"If a man had a boat," said I to one of the best known of the gunners, "he could get some of those birds."

"Yes," was the reply. "But it is close time now and there isn't a man here who would think of going

after those ducks. Every sportsman is a law unto himself as far as the protection of game is concerned."

It was then I was surprised. The gunners continued watching the ducks. They appeared during a cessation of the firing while trap No. 1 was being repaired. As soon as the firing began again, they disappeared. But while they were around, there was a jumping of hearts and a racing of the blood that made one think what the gunners might have done had the season been open.—Portland Press.

Copies of the 1911 edition of the fish and game laws, issued by the Commissioner of Inland Fisheries and Game are being distributed. It is a necessary book for those who do any fishing as it gives all the general laws and the special regulations for different ponds and lakes. The book is compiled by the Commissioner of Inland Fisheries and Game, and can be relied upon as correct.

### FLY ROD'S NOTE BOOK.

(Continued from page one.)

the guide of many years at the island who likes to drop the hook and land a fish, but who forgets everything else if one comes in and remarks, "I heard a bear up here on the Cupsuptic, and when we got sight of his black hide we made quick time for the island."

Yes, Pete is the bear hunter of this section, and during the time he has guided at the island has killed an even half dozen bears, big black bears with such fine skins they were made into mats and sold to the sportsmen for their home, and we often wonder if any of them can tell "how we shot the bear." During July, August and September it is no good to hunt the bears to kill for their skins or the meat. Then is the time I get acquainted with them, find out where they live and in what part of the country the beechnuts are thick, for a bear will take a longer trip for a beechnut lunch than for any thing else, although they are good blueberry pickers and like raspberries. Beechnuts they like best of all.

Pete is keeping quiet, but knows where to go the first of October, and if Mr. and Mrs. Bear and their family do not move on he is sure to capture them.

### HOWES' CAMPS.

(Special to Maine Woods.)

Debconeag, Maine, Aug. 13, 1911. The season is in full swing over here on the West Branch and now that the logs are all out, the atmosphere has lost its bluish tinge and the smell of sulphur has disappeared. But the logs even, had no terrors for the people who know the West Branch country with its magnificent scenery—superb fishing and easiness of access. Yes, easiness of access—just 11 miles from Norcross on the Bangor & Aroostook R. R. by steamer up the lakes, than a 5 mile canoe trip with one 200 yard carry en route. Guests have had excellent trout fishing in Rainbow Lake, Daisy, Minister, Little Minister, Stratton, Kelley and "Peters" ponds, while Debconeag and Hurd pond have been good for an average of about 3 togue to a rod on the early morning fishing.

Deer and moose wintered well and are more abundant than ever. The other morning one of our prominent younger Boston surgeons had great difficulty in persuading a cow moose and calf to "move on" in order that he might reach a favorite spot for casting. Last week while Messers. Davis and Pitman were in at Rainbow Lake, a young bull came down the ridge, walked out to within 8 feet of their canoe and then leisurely splashed back to shore again.

Bears are very numerous in this section, more having been seen and shot than for 10 years past.

Muskrats, that is, West Branch muskrats, still eat fresh water clams over here despite some of the statements of "Old Trappers" and "Near-to Nature" sports. None of our West Branch muskrats carry oyster knives, but the pile of clam shells you will find in front of their holes in the banks of the river, is simply the result of one clam at a time, one muskrat and two sets of teeth.

Late arrivals at these camps are: Copley Amory, Jr., Boston; Freeland H. Leslie, Milton, Mass.; J. Cliff Taylor, H. A. Medbury, F. L. Peck, Wm. E. Louttie, Providence, R. I.; Dr. and Mrs. John B. Hawes, 2nd, Boston; Rev. and Mrs. Wm. Raymond Jelliffe, New York; Dr. Wm. C. Quimby, Boston; E. H. Patterson, J. W. Masury, New York; Miss Celia Pearsons, Mr. Harry P. Davis, Ashby, Mass.; Samuel C. Pitman, Winthrop, Mass.; Irvin F. Impink, C. J. Bonemann, Reading, Penn.; Mr. and Mrs. W. F. Persons, New York; Alexander M. Wilson, Philadelphia.

On Friday, Louis A. Berckmans and party of Augusta, Georgia, arrived, while on Saturday the J. Lester Woodbridge of Philadelphia came again to ascend Mt. Katahdin with its 5,268 feet of majestic beauty.

Miss Louise Freeland and Miss Helen Howard of New York are on their annual camping trip while the Bryn Mawr club girls are still at loggerheads, as to whether white perch isn't just as good fun as trout fishing.

Showery until the 23d, then a week of fair weather—just for a guess.

AT

### John Carville's Camps at Spring Lake.

Salmon, square tailed and lake trout. My camps are most charmingly situated on the shores of Spring Lake, well-furnished, excellent beds, purest of spring water and the table is first-class, elevation 2,000 feet above sea level, grandest scenery and pure mountain air. Hay fever and malaria unknown. Spring Lake furnishes excellent lake trout and salmon fishing and in the neighboring streams and ponds are abundance of brook trout. Buckboard roads only 2-12 miles. The annual Old Home week was celebrated at Week's Mills Wednesday, Aug. 16. It was largely attended by many former residents and their descendants, this being the 10th reunion. A picnic dinner was served on the lawn near the Free Baptist church, after which exercises were held in the church. Singing of old hymns and America and remarks by several of those present were made.

Deacon Joseph P. Thwing was the oldest man present. He with his daughter, Miss Harriet of Pleasant street, Farmington, attended.

## ONLY A MASK.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which, as we know, "builds up the whole system."

## ATTACK LIKE TIGERS.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Calif., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c. at W. A. D. Cragin's; Chas. E. Dyer's of Strong; L. L. No Reason For It

When Phillips Citizens Show the Way.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of serious kidney ills when relief is so near at hand and the most positive proof given that these ills can be cured. Read what a Phillips citizen says:

John A. Frazer, Main St., Phillips, Maine, says: "The statement I gave in praise of Doan's Kidney Pills some years ago was correct, and I gladly confirm that endorsement. I suffered from pains in my limbs and across the small of my back, so severe at times that I could hardly endure them. I was unable to get relief until I procured Doan's Kidney Pills at Cragin's Drug Store. They disposed of my trouble and in a short time after taking them, I was restored to much better health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

#### THIRTY YEARS TOGETHER.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by W. A. D. Cragin; Chas. E. Dyer of Strong; L. L. Mitchell of Kingfield; Riddle's Pharmacy of Rangeley.
