NEWSPAPER HISTORY
The Rockland Gazette was established in 1846. In 1874 the Courier was established, and consolidated with the Gazette in 1882. The Free Press was established in 1885, and in 1891 changed its name to the Tribune. These papers consolidated March 17, 1897.

Silks and satins, scarlets and velvets, put out the kitchen fire.—Poor Richard's Almanac.

A communication to the New York Sun from Amesbury, Mass., signed "S. T. P." (we suspect this is our old friend S. T. Pickard, one time of the Portland Transcript) says:

Seventy years ago the roads in Maine were if possible worse than now and there was a line of stage coaches, running northward from Portland owned and operated by the firm of Hall & Bumpas. I have been hauled and bumped on that line.

Colonel Roosevelt's heart continues to beat warm for the farmer. To a company of a hundred who called upon him at the Outlook office last week he said: "I never object to paying more for what I get, if it means more profit to the farmer, more for the wage earner. But I do very much object to paying more if it means nothing but profit to the men who stand between the farmers and wage earners and me." The same day a communication from the colonel was read to the National Conservation Congress, in session at Kansas City, in which he said:

I most emphatically believe that there is no movement in our country at the present time of such importance as the developing of a higher country life. This was the object of the country life commission which I established. What we need most is good citizenship; that is a good family life, a high quality of manhood and womanhood, and above all things we need these things in the country districts, for in the long run every nation's welfare must primarily depend upon the welfare of those who till the soil. The man is greater than his work. The farm can only be made what it should be by paying chief attention to securing the right man and woman on the farm. To develop soil fertility we must develop rural manhood and womanhood. We must have a social life on the farm far better worth living than such life has been in the immediate past.

BAPTISTS REPORT LOSSES

But There's a String to Them—Secretary Mower's Report at State Convention.

Rev. Irving B. Mower, D. D., of Waterville, made the following report as corresponding secretary at the Maine Baptist convention:

"This is the first time for eight years we have failed to report an increase in membership. There have been 415 baptisms, the smallest number since 1899. The number of churches reporting baptisms is 73, and of this number 35 have received convention aid. Of the 415 accessions by baptism, 197, very nearly one-half, have been added to the convention churches. The complete statistics for the year indicate a loss in membership of 257. The York, Piscataquis and Bowdoinham associations alone report gains.

"The Sunday schools report a loss of 1098, more than one-twentieth of the entire membership reported one year ago. York, Oxford and Penobscot alone report gains.

"The benevolences are well sustained although the total is about \$1700 less than the amount last year. "But these lessened figures may indicate losses that are apparent rather than real. We know of one church that dropped 56 names from its roll; another that removed 32, while several others have erased the names of many non-resident members.

"New houses of worship have recently been dedicated at North Trescott, Machias and Lake View. At Ellsworth there has been extensive remodeling of the interior, and the Bradley church in part."

WARREN WANTS CHANGE

Asks State Highway Commissioner to Designate State Road.

The town of Warren has asked the state highway commissioner to designate a new state road in that town and Commissioner Hardison came Friday to Warren to look over the ground.

It is claimed that the old location is about finished and a new location is asked for covering a section in which the municipal officers desire to make improvements. The present location is as follows: "Beginning at a point on the road leading to Lord & Stevens kilns, opposite Kendall Atkins' blacksmith shop, thence continuing in a generally southerly direction along said road to Jason Spear's line, said road being three-fourths of a mile in length."

Matinicus Election Mixup

Gets Further Notoriety at Monday's Meeting of Governor and Council—Clerk Philbrook on the Gridiron.

The people of Maine will be formally notified of the time when the Governor and Council will decide whether or not they can accept any corrected returns of the town clerks of Limestone, Westfield, Athens, Matinicus plantation, in the special State election, held Sept. 11.

At that time all persons interested may appear and be heard either in favor or against allowing such corrections. Until then the vote on the question of repealing Maine's constitutional prohibition of the liquor traffic will remain at doubt. At present the tabulation of the official returns shows a majority of 26 in favor of repealing the constitutional amendment. If the corrections are allowed, this tabulation will be changed to 758 against repealing it.

Monday the time limit of 20 days during which applications for corrections could be filed expired. A meeting of the Governor and Council was held that afternoon to give an opportunity to reveal additional applications for corrections, but none were received further than those for the four towns named.

The records of Ralph E. Philbrook, the plantation clerk of Matinicus plantation, were offered in evidence to support the application for a correction of official returns of that town, changing them from 36 in favor and two opposed to repeal to two in favor and 36 opposed. This was the same procedure as in the cases of Limestone, Westfield and Athens in the last meeting. Clerk Philbrook was examined at length.

Mr. Philbrook stated that he was the plantation clerk and submitted his record book, showing that the town voted 2 for repeal and 36 against. He also submitted a sample ballot on which was a record made in open town meeting, corresponding to his, the record on the book. A memorandum attached to the record book, was offered, making three records.

"Which record did you make first?"

asked Councilor Patch.

"I made the record on the ballot first," replied the witness.

"Did you sign it?"

"Yes sir."

"Were there any doors on your booths in Matinicus?"

"No sir."

"Did you seal up the ballots?"

"I understood they were to come to me sealed."

"Did they?"

"No sir."

"Did you ever make another record like that?"

"I never was town clerk at any other time."

"Did you write the entire record here at one time?"

Mr. Holway—"Let the witness see his record."

Mr. Patch—"No, I am asking him."

Mr. Holway—"Then the witness need not answer."

Mr. Patch—"All right," starting for his seat.

The Governor—"The witness is here to give information. Mr. Holway should let the witness answer."

Mr. Holway—"I want the witness to know what he is answering."

Mr. Patch—"I'll ask it again." He repeated the question.

Mr. Philbrook—"I wrote part of it then and the rest of it today."

Mr. Patch—"Have any help or instruction?"

Mr. P.—"Only Mr. Holway."

"Where?"

"In Mr. Holway's office."

The Governor—"What caused you to complete your record in Mr. Holway's office?"

The witness—"He thought it would be better."

Mr. Holway—"Have you another record made in open town meeting?"

"Yes," (producing voting list).

"Are these marked 'voted'?"

"Yes."

"And from this you made your record?"

Mr. Patch—"Which record did you make your return from?"

Mr. Philbrook—"The one in the book."

"Did you use ink or pencil in making the record in town meeting?"

"Used pencil."

"Use pencil on all of them?"

"No, used pencil on one. Used assessors' pen on sample ballot."

"Why did you use pencil on record you intended to put in your book and ink on the sample ballot?"

"Don't know, just didn't happen to have pen handy."

"Which record is it you want us to make corrections by?"

"This one right here," (indicating).

The Governor—"The one made a week from the following Wednesday."

Mr. Patch—"Can you give any reason why you made two records at that town meeting?"

"I just picked up the pen and filled in the ballot."

Mr. Patch—"Mr. Holway, which of these records do you wish to offer as the original record?"

Mr. Holway—"All of them."

"There can be but one original record."

"Three parts of the original record."

"Which do you consider the official record?"

"We think the extended record. That is a matter of law that the courts haven't ruled upon."

Mr. Patch—"Do you make any difference between a record and a fair record?"

Mr. Holway—"A fair record seems to mean something more."

The suggestion was made that the memorandum pasted into the book be detached. Scott Wilson of Portland objected to defacing the book.

"This is the only instance in which he has made a scrap book of his record," remarked the Governor.

"This is the only record he ever made," rejoined Mr. Wilson.

An interesting statement of the position taken in the matter of corrected returns by the no-license organization which filed the applications for correcting the returns of the four towns was made by Scott Wilson of Portland, of counsel for that organization.

The Governor and Council went into executive session at the conclusion of the hearing, at which routine business was considered, and when they adjourned it was until the regular meeting on Oct. 20 at 10 a. m.

It was announced that the election matter was not considered in executive session. No date was fixed for the hearing. Gov. Plaisted need not necessarily issue his proclamation, declaring the result until Dec. 1, but he has made it plain that there will be no unnecessary delay.

In a short statement to the Governor and Council, Attorney Wilson expressed his belief that an extended record made afterward from memorandum put down in town meeting by the clerk would hold in court and raised the question of whether or not the council could go back of the record and inquire whether or not it was made in open town meeting or quest in the record. If the meeting in Matinicus plantation was legal, it is known without doubt, he said, that the vote was against repeal. It is the same all over the State, and well known, he declared, that the people of Maine voted against repeal.

If the council does not accept the corrections, then it must declare the constitutional amendment repealed. He suggested that in this case the Governor and Council would be in the position of declaring the amendment repealed when they knew in fact that the people had voted by a considerable majority against such repeal. The only thing for the Governor and Council to do is to determine whether the town record in such case is a correct one.

"The facts are perfectly clear," he said. "There is no doubt but what the vote is 'no.' It does not seem as if irregularities should disfranchise the voters of these four towns."

As was done in the previous cases a attested copy of the record was filed with the council.

CIRCULATION AFFIDAVIT
Rockland, OCTOBER 14, 1911.
Personally appeared Neil S. Perry, who on oath declares: That he is president in the office of the Rockland Publishing Co., and that of the issue of The Courier-Gazette of October 10, 1911, there was printed a total of 4,507 copies.
Before me: F. ENEST HOLMAN
Notary Public.

There seems to be a well defined feeling in the atmosphere that the final verdict in Maine's special election will show the prohibitory amendment to have been repealed. This in spite of the fact that there probably isn't a fair-minded person in the state who does not believe that there were more votes cast in the negative than in the affirmative. Granting that a hostile governor and council can find a technical shield for such a verdict it is not a reflection upon present day political progress that votes, honestly thrown, are not subject to a recount in order that obvious errors may be corrected? Thirty-five of the 38 voters at Matineau were their cross in the "no" column, yet because of the blunder of a young and inexperienced clerk it must go on record that the plantation is overwhelmingly in favor of the saloon, and the hardest battle ever fought in the state must be settled in favor of the side which is conceded to have lost it. This is based on the assumption that the governor and council will decide in favor of repeal. But those gentlemen have shown themselves rather adroit politicians thus far, and The Courier-Gazette is not ready to believe that they are going to "kick over the dish" by resorting to technicalities instead of common sense.

The Courier-Gazette's announcement that the Maine Central Railroad is making the preliminary survey for an extension from Rockland to Belfast, has excited widespread interest. Everybody realizes that "survey" and "construction" are entirely different words, but even the most skeptical persons concede that the Maine Central Railroad is not wasting its time on a survey unless the corporation has some purpose to fulfill. The Portland Express, commenting editorially upon our announcement says: "As President Mellen of the Boston & Maine, and other prominent officials of that road and the Maine Central favor the project it seems reasonable to believe that the extension will be built."

RAISING THE FUNDS

The executive committee of the Board of Trade had a meeting Wednesday and authorized the committee on manufacturers to make a canvass of the business section with a view to securing funds which will clinch the shirt factory proposition. The Storey Manufacturing Co., which has a factory in Rockport at present, wants to move here and erect a building, which will cost with lot about \$7500. The company will furnish all the machinery, fixtures, and \$1250 in funds, and asks that citizens aid the project in the sum of \$6250, secured by mortgage on the property. The committee, which is under the chairmanship of E. B. MacAllister, will begin an immediate canvass, and there is little or no doubt as to the result.

The Storey Manufacturing Co. now employs 50 hands at Rockport, and wants to double its force. The payroll will be from \$800 to \$1000 a week with the factory in full operation. Dreyfus & Son, who handle the products of the Rockport factory have asked the Storey Manufacturing Co. to double its product, and strongly endorse that concern.

CELEBRATED COLUMBUS DAY

Limerock Council Sets Rockland a Good Example—Fr. Flynn the Speaker.

Limerock Council, Knights of Columbus, set the rest of the city a good example Thursday by its observance of the new state holiday, Columbus Day. The celebration was not an elaborate one to be sure, but the exercises were both interesting and appropriate, and will doubtless pave the way for some sort of a general observance in future years.

The hall was profusely decorated with American flags, while over the speakers' table hung the national colors of Italy. The windows were screened with draperies of green, a color very dear to the loyal Knights. Grand Knight C. A. McInnis presided over the exercises. "We have had many heroes in our history," said Mr. McInnis, "but none whose deeds are more deserving of commemoration than those of Christopher Columbus."

Miss Florence Haley read very effectively an original poem prepared by Miss Anna Coughlin of the high school faculty. The poem possessed much merit, as the authorship would indicate, and is presented herewith.

Who, comrade, goes with greatness must walk a lonely way,
Must follow humble footsteps, at the wayside shrine must pray;
Must drink the bitter cup of sorrow, must eat Life's bitter bread,
Must know the stinging sneer and scorn and pride averted head.

So walked Columbus bravely, nor faltered, for he knew
'Twas God that sent the vision of the ocean wide and blue,
Whereon a track of glory due westward trailed away,
The golden sunset road that called him night and day.

He passed where fields of grain were with the harvest wile,
Along the road where home fires flickered in the night;
He passed where blooming vineyards were purpling in the sun,
And by the high, cold mountain peaks whose robes the mists have spun.

He heeded not their beckoning hand, the welcome that they gave,
His mind was fixed forever upon that restless way,
Where trailed a path of glory due westward in the gleam,
The golden sunset road that called him in his dream.

He stood mid kings and courtiers and pleaded for the land,
Whose people sunk in darkness begged light from his hand;
He stood among the schoolmen and told them of the way,
That led to wider knowing and to a broader day.

He walked through crowded streets where even children smiled,
To see the dreamer pass, lost in a vision wild;
He heeded not their jeering! He saw before him the roll
The broad, bright path that called him and answered with his soul!

"'Twas God that sent the vision; his errands Some day upon that liquid road shall strain the waiting sail!"

He stood upon his deck where coward fear And waited for the moment to strike the dastard's blow;
But his timor never wavered, his stout heart never quailed,
For upon the unknown waters he knew God with him sailed.

"Due west!" he gave the order and pointed to the sun,
"Due west!" that shining track until the land be won!
And the carved bows cut the crystal through the darkness of the night,
Till "Land ahead!" was shouted and on the shore a light!

O Pilot of the millions that Columbia calls her Brave Admiral, we salute thee, who kept the track
That from staunch brave keeping our land from sea to sea
Was hanging in the balance and waited word from thee!

ANNA COUGHLIN
Miss Frances Haley read a selection from "Hiawatha," in a manner that showed much elocutionary ability. President Weymouth of the Common Council spoke briefly in behalf of the city government, mentioning a few of the difficulties which beset the discoverer of America, and the courage with which he faced them. Other members of the city council present were Aldermen Black and Cousins, and councilmen Richardson, Bennett and Sullivan.

The speaker of the evening was Rev. Fr. Flynn, who said that the anniversary now being humbly observed had too long been neglected. Another year the observance will possibly take on a greater color. "It should be non-sectarian," said the speaker, "We are all American citizens. It is useless to celebrate without knowing what the day signifies. It is an abuse of public authority to provide a holiday when young folks do not know what it means. It is the philosophy of the historian which makes history, rather than a mere recital of facts. We have too much parrot knowledge these days. Some people measure the achievements of Columbus by modern standards, whereas his deeds should be measured by the age in which he lived."

Fr. Flynn then proceeded in a delightful manner to describe the several voyages of Columbus; his triumphs and his disappointments; pausing by the wayside to inject a bit of humor and to draw a comparison or a moral. The address was not only very entertaining, but left impressions more lasting than those the average student gleams from history's pages.

Then came adjournment to the dining room where a buffet lunch was set forth very attractively. The evening's pleasure wound up with dancing. Music was furnished by Farnham's Trio, which also interspersed the literary program with music numbers.

The committee of arrangements comprised Rev. Fr. Flynn, M. H. Costello and T. E. McNamara, assisted by a committee from the Ladies of Columbus consisting of Miss Joan McInnis, Miss Rose McNamara, Miss Mary Ball, Mrs. Raymond J. Moulaison and Miss Florence Haley.

Stood By The Massasoit

Freight Steamer's Plight Made the Steamship Camden Five Hours Late—Sch. A. F. Kindberg Ashore.

Steamship Camden arrived five hours late this Friday morning, in consequence of standing by the freight steamer Massasoit, which was encountered at 11 o'clock Thursday night with engines disabled and rolling dangerously in the trough of the sea.

The Camden was asked to stand by, and did so for nearly five hours, steaming around and around the disabled craft. The Massasoit's cargo was mainly gasoline, and the deckload, consisting of 300 barrels, was thrown overboard to lighten the craft.

The Camden's wireless was brought into play and several stations answered, but no assistance could be procured, so at 3 a. m. the Camden started toward Portland for a tug. On the way to that port she fell in with a tug, which discarded her tow as soon as the situation was made known, and started for the Massasoit.

Meantime the freight steamer had evidently made temporary repairs for she was seen limping off toward Portland, under her own steam. The Camden then continued on her way to this port.

The Massasoit's career since she was placed in service on this coast has been marked by frequent accidents.

The two-masted schooner A. F. Kindberg, owned by F. W. Ayer & Co. of Bangor went ashore on Hart's Ledge near Tenant's Harbor early this Friday morning and at low water was high and dry. Tug Cumberland and the Whitehead life saving crew were standing by, and it was thought the craft might be pulled off at next high tide. The schooner is laden with spruce lumber, and bound from Bangor to the westward. She went ashore in the heavy gale.

WHAT EVERY WOMAN KNOWS

Just the same amount of attention, care and discrimination is shown in the selection of our CONFECTIONERY, as in any other larger department of our shop.

While perhaps, the bulk of the candy sold in the world is paid for by MEN, the greater part of it (perhaps) is eaten by women, and just as in all fairness we allow a MAN to be a judge of tobacco we must take the WOMAN'S word for the Confectionery.

The MAN knows candy by the price per pound. The ETERNAL FEMININE by a thousand other ways.

Our candy is sold and selected absolutely by women, and only in bulk.

You do not pay for a beribboned box which cannot be eaten, but the plain little box we give you is clean, whole and white, and contains a selection of candy which is the best that can be bought for the price and what is more important, the WOMAN likes every piece.

GENTLEMEN, the candy realm belongs by right to her. Invade it, but buy the kind SHE likes best. Telephone your order, we will deliver it to YOUR address, and remember, SHE CANNOT EAT THE BOX.

STATE CHAT

Miss Adelaide Munsey of South Dresden recently found in her front yard a coin bearing this inscription: "Empire Français—20 cents—1867—Napoleon III Empereur—Barre."

Dr. George M. Twitchell has this season raised nearly 100 barrels of choice Greenings, Baldwins and Spies from trees at Monmouth that four years ago were pronounced worthless.

It is estimated that not less than \$3,000,000 have been brought into Astorbrook county from the sale of this season's potato crop up to the present date. It is figured that from 25 to 30 per cent of the crop has been marketed.

The present owners of what is known as the Shiloh property have completed arrangements with Howard M. Trafton of Georgetown to make extensive improvements on their buildings. Among them is the building of a piazza ten feet wide on three sides of the house with a general overhauling to the exterior and the laying of new floors and other work.

ITCH! ITCH! ITCH!

Scratch and rub—rub and scratch—until you feel as if you could almost tear the burning skin from your body—until it seems as if you could no longer endure these excruciating days of awful torture—those terrible nights of sleepless agony.

Then a few drops of D. D. D., the famous Eczema Specific and, Oh! what relief! The itch gone instantly! Comfort and rest at last!

D. D. D. is a simple external wash that cleanses and heals the inflamed skin as nothing else can. A recognized specific for eczema, Psoriasis, Salt Rheum or any other skin trouble.

We can give you a full size bottle of the genuine D. D. D. remedy for \$1.00 and if the very first bottle fails to give relief it will cost you a cent.

We also can give you a sample bottle for 25 cents. Why suffer another day when you can get D. D. D.?

W. H. Kittredge; C. C. McDonald & Co., Thomaston.

of the interior. These improvements added to the extensive grounds and beautiful view therefrom will make it one of the most desirable summer properties in town.

Unless a prolonged rain storm should come before cold weather, nearly 10,000,000 feet of logs which are boomed on the Saco river above Hiram Falls will be hung up there for the winter, which means a large loss to the industries that are depending on them and will throw many people out of employment.

Elmer Osier of Loudville, last week caught a lobster with four claws, the entire double pair of which were apparently used as readily in defense as one pair. The crustacean curiosity was carried to Damariscotta by smacksman Thomas Osier of Port Clyde, and was given to Deputy Fish Warden E. E. Batley, who preserved it as a specimen.

With ten pullets, Harry W. Dunton of Bedford street, Bath, secured from Dec. 9 last to Sept. 1 last, 1610 eggs. He has over 1700 eggs to the credit of the ten pullets. The pullets were very ordinary birds purchased for 40 cents. The cost of the eggs to Mr. Dunton have ranged from five to seven cents and he has sold them at prices from 20 to 47 cents a dozen.

At the Bath Marine Construction Co., a semi-hydroplane is being built for H. D. Bacon from a design of his own. The craft, which is 20 ft. long, has a regular, sharp-pointed bow and skiff stern, is staunchly built, the frames being of selected oak with cedar planking and copper fastened. A 30 horse-power engine is expected to drive her through the water at a speed of about 25 knots, perhaps even faster. She will be ready for a trial spin in about two weeks.

The mill stream at Damariscotta is reported to be a sad sight. The Leatherboard Co., through no fault or int of its own, is turning out, as a by-product, thousands of gallons of uncooked fish chowder. Alewives coming down the stream pass through the Leatherboard Co's wheel, the shredded fish, in four to six inch lengths, cover the bottom of the stream to the depth of several inches and the shores are dotted with the fragments. It is estimated that tens of thousands of fish have been destroyed in this manner, and the extinction of the alewives in that stream is looked upon as a certain result. How would a screen do?

Complete attendance figures from all of the state normal schools show, at the opening of the fall term, a larger attendance than in previous years. The Gorham Normal school, with an attendance, exceeding 200,

has the largest attendance in the history of the school. The entering class at Farmington numbers 90, with the total attendance larger than ever before. The Castine Normal school opened with 72 in the entering class. The largest number previously recorded in an entering class was 60. The attendance at the opening of the Astorbrook Normal school was 40, this being seven less than last year. It is expected, however, that the deficiency will be made up at the opening of the winter term. The Washington Normal school has a total enrollment of 65. At this the second year of the operation of the school, this large attendance is encouraging. The enrollment of the Madawaska Training school is 105, a gain of 15 over last year.

ARE ALREADY PLANNING

For Waldo County Fair of Next Year
—Retirement of Two Faithful Officials.

By the recently adopted by-laws of the Waldo County Agricultural Society, the annual meetings of the society will in the future be held in the month of September instead of in January. This will give the newly elected officers more time in which to formulate their plans and the success of the society in their annual fairs will be strengthened and assured. At a special meeting held last week following the adoption of the by-laws, the following officers were elected for the ensuing year:

President, Ralph Hayford, Belfast; vice presidents, Harvey S. Cunningham and Giles G. Abbott, Belfast; secretary and treasurer, John W. Jones, Belfast; directors, Charles R. Coombs, George B. Dyer, John W. Jones, Ralph D. Shute, Leslie P. Miller, Bernes O. Norton, Samuel G. Norton, Elijah Ritchie, Selwyn Thompson, Eugene R. Connor, Leslie Simpson, Fred Townsend, Colby Rackliffe, John Pillsbury, Belfast; and Guilford D. Pendleton, Islesboro.

It was voted to hold the annual fair next year on the week preceding the Bangor fair, which is the same as the past two years. Plans were made for a big racing meet which will excel anything ever held here in that line. It is expected that there will be one or more balloon ascensions each day and other attractions. Some attractive purses will be hung out for the horsemen.

The retirement of Dr. John B. Darling as president and Orrin J. Dickey as secretary and treasurer, after three years' service in which they have been the principal factors in placing the fair among the foremost in the state, is regretted by the public in general, and after the hard work which these officials have done they are certainly deserving of much praise for the excellent and high standing which has been attained by the Belfast fair. With some of the best grounds in the state under development, which has been rapid in the past three years, the management cannot but feel encouraged with what they have to work with, in giving another successful exhibition in the coming year.

THE WORLD'S SERIES
Giants and Athletics Have Their First Championship Clash This Saturday.—The Players and Conditions.

The national commission has decided to play the first of the world's championship games in New York this Saturday. The following schedule for the remaining games was adopted:

Oct. 16, 18 and 20 at Philadelphia; Oct. 17 and 19 at New York. Should any of the games be postponed on account of rain or from any other cause the commission decided that the visiting nine shall remain in the city where the game was scheduled until it can be played. A postponement of any game would necessitate a change in the remainder of the schedule.

The series continues until one club has won four games. In case a seventh game is needed to decide the winner, the commission will determine the grounds on which it shall be played. The players eligible to participate in the world's series games are, by announcement of the committee, the following:

Philadelphia American League club—Baker, Barry, Bender, Collins, Coombs, Davis, Danforth, Derrick, Lord, Martin, Morgan, McInnis, Murphy, Oldring, Plank, Strunk and Thomas.

New York National League club—Devore, Becker, Murray, Snodgrass, Merkle, Doyle, Fletcher, Devlin, Mathewson, Wiltse, Ames, Crandall, Marquard, Latham, McGraw, Meyers, Wilson, Herzog, Drucker, Hartley, Paulsen.

All the games will begin at 2 o'clock p. m. The commission issued a special warning to players that the rule regarding conduct on the ball field would be strictly enforced against any offending player.

Combination Coal and Gas Crawford Ranges

The Crawford Gas Ovens are safe. They are lighted in a new way; there is no dangerous pilot light and explosions are impossible. This improvement is patented and very important.

The Damper is automatically opened by opening oven door to light the burners, which cannot be lighted until the door is opened.

In these Gas Ovens there is an extra set of burners at the top for broiling; a great advantage over the ordinary gas oven, insuring better broiling and great convenience.

The Oven Bottoms and Racks are cast iron, and the outer walls are triple—an interlining of asbestos between two sheets of iron, which assists to retain the heat.

The use of these Gas Ovens does not interfere in any way with the operation of the coal range—both can be used at the same time.

C. L. Ames, Sec., Pleasant River Grange.

The Royal Month and the Royal Disease.

Sudden changes of weather are especially trying, and probably to none more so than to the scrofulous and consumptive. The progress of scrofula during a normal October is commonly great. We never think of scrofula—its bunches, its cutaneous eruptions, and wasting of the bodily substance—without thinking of the great good many sufferers from it have derived from Hood's Sarsaparilla, its radical and permanent cures of this one disease are enough to make it the most famous medicine in the world. There is probably not a city or town where Hood's Sarsaparilla has not proved its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative—consumption.

MRS. FRANCES HUNT

News of the death of Mrs. Francis Hunt, widow of the late Scidmore D. Hunt of Cushing, which occurred in North Anson Sept. 21, at the home of her daughter, Mrs. Edna M. Ellis, brought sadness to many friends. She had been in failing health only a few months, her death being caused by heart disease. Mrs. Hunt was born in Cushing, Feb. 12, 1843, her maiden name being Francis Moody, daughter of Mr. and Mrs. William Moody. She resided in different places during her life, and by her kindness and pleasing manner made friends wherever she went and consequently had a large circle of friends and acquaintances who will miss her. She was a woman devoted to her home and family, ever looking after its comfort and welfare, a kind neighbor, lending a hand wherever it was needed and helping in all ways that she could. Long will the memory of her be cherished by those who knew and loved her, even though she has gone just a little while before where there is no more sickness or pain. Deceased was a member of the Methodist church, Ladies' Relief Corps and the Grange at North Anson.

Mrs. Hunt is survived by three daughters, Mrs. Emma Counce and Mrs. Edna M. Ellis of North Anson, and Mrs. Lilla Webb of Lowell, Mass.; two step daughters, Mrs. Edith Hathorne and Mrs. Inez Fogarty of Cushing; and one sister, Mrs. Sarah Hoffes of Thomaston. Funeral services were held at North Anson, many beautiful flowers showing the love and esteem of friends. The interment was in the family lot at East Friendship.

Three "LIFE MEN" Among the Seven Convicts Brought to Thomaston From Franklin County.

Seven convicts, three of whom are doomed to serve a life sentence, were brought to the state prison Wednesday by Sheriff Small and one of his deputies. This harvest of criminals was the result of one of the most remarkable terms of court ever held in Farmington, and is believed to constitute the largest consignment of long-term convicts ever received at the Thomaston prison at one time.

In the party were: Giuseppe Castiglioni, murder, life sentence; Giovanni Noto, murder, life sentence; Marshall Taylor, murder, life sentence; Audubon S. Wilson, manslaughter, 15 years; Ernest H. Upham, alias Ernest H. Swain, manslaughter, five years; Angelo Furco, alias Angelo Nocelli, assault with intent to kill, eight years; Alton Weed, breaking, entering and larceny, 18 months.

While at Bath the men were taken to the police station to await the arrival of the Rockland train. In the afternoon about 1:30 Officer Aderton, who happened to go into the weighing room at the station, heard one of the prisoners say: "You can do it all right," and heard a sound of metal against metal and he at once notified Deputy Sheriff Richardson, who was in the watch house. Mr. Richardson quietly went in and found Nocelli and Weed making an attempt to break the handcuffs by which they were hitched together. The deputy read the riot act.

These prisoners, together with the recent commitment of long-term men from Cumberland county, make a total of more than 200 convicts in the state prison at the present time.

OTIS-FARWELL

A prettier October wedding is rarely seen than that which united Ensign Otis and Miss Elizabeth Adams Farwell at the bride's home on Lindsey street Tuesday evening. Rev. W. H. Mousley of the Congregational church was the officiating clergyman, and the Episcopal single ring service was used. The ceremony was made especially beautiful and impressive by the manner in which the couple carried out their part of the ritual without prompting. The surroundings formed an ideal setting for an October wedding. The bride, in large quantities, tinted with the delicious hues of an Indian summer, was used in decorating all the rooms, entwined with it being the vines and berries which go to make autumn verdure a thing of beauty. The ceremony was performed beneath a bower of maple leaves, which was extended to include the entire side of the room. Mrs. A. W. Decrow, who has won considerable fame as a decorative artist on such occasions, had charge of this feature.

The wedding music was furnished by an orchestra consisting of Miss Mary Jordan of Thomaston, violin, T. Jenness French of Camden, cello, Mrs. French and Miss Faith Greenhalgh pianists. Mendelssohn's wedding march was rendered as the bridal party assembled, and throughout the ceremony the orchestra continued to play softly.

The bride was given in marriage by her brother, Nathan A. Farwell, who came home from Dartmouth college to officiate in that capacity. The maid of honor was a cousin, Miss Elizabeth L. Field of Boston. Sidney M. Bird, a former schoolmate of the bridegroom, was groomsmen. The ushers were Alan L. Bird and Frank M. Tibbetts. The bride's gown was white satin, with overdress of chiffon and net, embroidered with bugle and silver trimmings. She wore a tulle veil fastened with a wreath of orange blossoms, and carried a shower bouquet of lilies of the valley. Miss Field's gown was French blue marquisette over white satin, embroidered in silver and gold. She carried pink roses.

The wedding reception proved an occasion of much social pleasure. In the receiving line with the members of the bridal party were Mr. and Mrs. Oliver Otis, parents of the groom; Mrs. Nathan Farwell, mother of the bride; Mrs. E. A. Burpee, Miss Frances Burpee and Miss Ada Burpee. Refreshments were served by Misses Faith Greenhalgh, Emily Webb, Katherine Spear, Helen and Sarah Hull, Edith Dwyer and Maria Louise Cobb, the catering being under the personal supervision of the last named young lady. The cutting of the bride cake was attended with the usual happy attentions on the part of the guests. Finally breaking their way through showers of confetti and streamers that entwined the stairway Mr. Otis and bride boarded a waiting automobile which was soon spinning on its way to a summer cottage within the confines of Knox county. From there after a few days' stay they departed on their honeymoon trip, which begins with a visit to the bridegroom's relatives in Salem, Mass. They will visit New York and Philadelphia and both being baseball enthusiasts will witness one or more games of the world's championship series if the opportunity offers. Upon their return they will reside at 21 Lindsey street.

The bridegroom is secretary of the Opinion Publishing Co., being associated with the editorial as well as the business management. He was class prophet, R. H. S., '03, and had a prominent share in the literary affairs of Bowdoin college during his course there. He has been twice honored under the present adminis-

AT THE THEATRES

NEW EMPIRE THEATRE

All records were broken at the New Empire Theatre this week, crowded houses being the rule and persons who did not make an early start were obliged to wait for the second performance. The program has been of the highest standard in the vaudeville line and the pictures are among the best ever seen in this city. For the last half of this week there is the usual new line of vaudeville which more than pleased the large audience yesterday afternoon and evening. The famous Dunn Sisters in songs and dances furnish one of the best sister acts ever seen in Rockland and one which is sure to a big hit with the people. The Raymonds in a novelty wire caving act differ from anything ever offered the public and received a cordial welcome from the large audience. If you are looking for bargains just drop into the New Empire Theatre today or Saturday. It is certainly the biggest bargain you will find in the show line for 5 and 10 cents. Saturday afternoon there will be two performances, the first starting at 2 and the second at 3.30. School children 5 cents. Always a big night at the New Empire Theatre. Doors open afterwards at 1.30 and evenings at 6.30.

ROCKLAND THEATRE

The four big pictures combined with the two excellent vaudeville acts which are at the Rockland Theatre for the mid-week bill were certainly accorded a good reception from the audience which were in attendance at all the shows yesterday. The Bramsons, European novelty electrical hoop rollers, present an act that is something out of the ordinary; they are expert hoop rollers, and the rolling of electrical hoops being a feature. Brinkman and Steele Sisters in singing, dancing and costume changes, present to the public an act that is neat and up to date. The costumes worn are very pretty, especially the Hunting costumes. Mr. Brinkman's rendition of the Fireman song was easily a feature. This trio has appeared in all the leading theatres of the world, Australia, New Zealand, India, Ceylon, China, Japan and Canada. All next week the Taylor Stock Company, with that ever popular comedian, Harry Moore. Monday night's play is "In Arizona."

IN SPORTING CIRCLES

The Y. M. C. A. and Street Railway Teams Play Final Game of the Season Today—Other Sports.

The Y. M. C. A. and Street Railway baseball teams took advantage of the Indian summer weather Tuesday afternoon and renewed hostilities on the Oakland diamond. The carmen won the game by a score of 17 to 16, thereby bringing the series to a tie. The rubber game will be played this Friday afternoon, and trenches are now being dug to carry off the flood which is expected to flow Tuesday's attendance was not much larger than the average national league crowd of the past week, owing to the fact that the "fans" had not been warned of the encounter. "Sandy" Hurl, who has been coaching used to be such a feature of the game, will be back in the harness this Friday afternoon, getting up an appetite for the unlimited supply of hot biscuits which his better half will doubtless prepare during his absence. Humphrey is also having his voice manicured for the occasion.

The two teams Tuesday were practically the same ones which have opposed each other all the season. The Y. M. C. A. aggregation missed the wonderful baserunning of Whitney, whose place behind the bat was supplied by Lorraine, who put up a star game for Damariscotta this summer, during the rainy season. Carver was a bit shaky after several weeks' absence from the game, but his remarks indicated that he is still cooking up material for Miller's Joke Book. Stewart figured in a double play, besides starting for one fly ball without waiting for it to strike. This ought to supply him with reminiscent material enough to last him through the winter. Willis Ayer appeared in his 14th new uniform of the season.

The Frost brothers again did their great double act, seldom having to be named in person and 36 by letter or message. The business part of the meeting brought out discussions that were very interesting. An amendment to the by-laws, which has been under consideration for some time past, was adopted by the requisite two-thirds vote, increasing the dues from \$5 per year to \$6, payable quarterly. This step is made necessary by the increasing demands for sick benefits, which naturally grow larger as the years pass. Knox Lodge is now over 36 years of age and has a membership approaching the 500 mark. A proposed amendment very slightly reducing the benefits was ruled out on a point of order as unconstitutional.

The general sentiment was for maintaining beneficial and relief payments as heretofore, even should it be necessary to raise the dues still more, which, however, is not apprehended. The lodge still has an invested fund of some \$15,000 to fall back upon if required, though this will not be touched except from urgent necessity, as it is producing a considerable income. It is however quite likely that the by-laws regulating sick benefits may be readjusted in some respects to make them more satisfactorily meet the needs of the members. At the close of the meeting a delicious supper was served.

"Bush" Ladd, who had a brief experience with the big league last spring, picks the Athletics to win the world's series, but concedes that the Giants will make a great fight.

By the way, what about that banquet?

After illness or loss of weight from any cause, it brings strength and flesh quicker than anything else.

ALL DRUGGISTS

Here's Something New

No more ashes to lug. No clumsy pan to spill dust and dirt on the kitchen floor.

The Glenwood Ash Chute

solves the problem. It is located just beneath the grate and connected by a sheet iron pipe straight down through the kitchen floor to ash barrel in cellar. No part is in sight. Not a particle of dust can escape. Just slide the damper once each day and drop the ashes directly into the ash barrel.

The Dust Tight Cover

to barrel is another entirely new Glenwood Idea and is very ingenious. The Ash Chute is sold complete with barrel and all connections, as illustrated, at a moderate price to fit any cabinet style Glenwood. This is only one of the splendid improvements of the Plain Cabinet Glenwood the Range without ornamentation or fancy nickel, 'The Mission Style' Glenwood. Every essential refined and improved upon.

Up-To-Date Gas Attachments

This Range can be had with the latest and most improved Elevated or End Gas Range attachments. It has a powerful hot water front or for country use a Large Copper Reservoir on the end opposite fire box. It can be furnished with fire box at either right or left of oven as ordered. When the Ash Chute cannot be used an improved Ash Pan is provided.
