REUNION AT WEST PHILLIPS

Wednesday, Aug. 13, was a red letter day in West Phillips. The people began to assemble quite early in the day and these were soon reinforced by quite a number who came by special train from Phillips village. The number was continually increased during the fore part of the day by those who came from a distance by team.

The forenoon was spent in cordial greetings between old friends, renewing old acquaintances and extending congratulations. At the noon hour all gathered around the tables and refreshed the inner man and inner woman by partaking of a bountiful baked bean dinner furnished by the society supplemented by numerous baskets of pastries, doughnuts, cakes and other edibles brought by the different individuals.

After dinner was over the meeting was called to order by the president, Geo. L. Lakin, Esq., who with a few well chosen remarks introduced the following program:

BOY SCOUTS HAVE FINE OUTING

Take Trip Around the Lake in Motor Boat by Mr. Whitin's Invitation.

The Phillips troop of Boy Scouts hiked to Weld last week, Monday and returned home last Thursday, after a pleasant camping trip. They were in camp on the east shore on D. B. Swett's farm. The party consisted of Herbert McKenzie, Homer Davenport, Bruce Davenport, Revelo Warren, Carl Howland, Henry Lakin, Philip Shepard, Herbert Lakin and Scout Master Rev. M. S. Hutchins.

It was a wet day for the trip and the boys got well drenched but marshaled by Rev. M. S. Hutchins, they arrived in camp happy and none the worse for the wetting. They had lunch before making any preparations for "housekeeping" and the hot tea sent over by Mr. Jenks, who occupied a near by cottage, was much appreciated.

One of the pleasures of the trip was the motor boat ride given them

UNION CHURCH IS CLEANED

Church Is Grateful for Assistance and Member Gives Good Suggestions for Cushioning the Pews.

Tuesday was house cleaning day at the Union church and cheerful workers completed the task at 3 p. m., and the church is now sweet and clean from entry to platform. The management is very grateful to Messrs. Haley and Byron for the gift of lumber to extend the platform across the entire end of the church and thus add to the convenience and attractiveness of the room. The Sunday school and Christmas entertainments and High school graduations have been hampered for room to make the best appearance. There are also many public occasions when room on the platform is desirable. For years no one has been willing to sit in the wing pews and the using of that space for the platform does not really lessen the seating capacity of the room and in the event of a crowd seats on the platform are more convenient than side pews. The church owned all but two and the gentlemen owning these two have exchanged them for other pews. We also extend our thanks to Mr. Pillsbury for freely delivering the lumber. We are to meet some day for sewing the carpet and will give an opportunity for any who would like to help a few hours at that work and soon our church will be as pretty and comfortable as any village needs.

We have only one more glaring need to complete the job for comfort and appearance, viz, new cushions for the entire church of uniform color.

by F. B. Whitin, who has the largest boat on this body of water. They made the entire trip around the lake and was served refreshments in abundance, crackers, sardines, fruit, confectionery, soft drinks, etc., and as one of the boys said, "he gave us the time of our lives." The hospitality of Mr. Whitin was fully appreciated by Mr. Hutchins and the boys. The trip from Phillips to Weld each way was made in about four hours. They returned home through the notch.

HORSE CASE TRIED AT FARMINGTON

N. J. Hackett Arraigned for Cruel Treatment--Appeals to Supreme Court.

The case of Norris J. Hackett, the livery stable keeper, which was heard in Farmington last Monday has created considerable interest among the horsemen as well as others. He was arraigned on the charge of alleged cruelty to a horse, on complaint by several of the citizens of the town to Dr. J. H. Rollins, the state agent. The prosecution was conducted by County Attorney J. Blaine Morrison and the respondent was represented by DeBerna Ross, Esq.

The following were called as witnesses: E. B. Whorff, J. H. Byron, M. W. Harden, R. H. Preble, Oscar Beede, A. O. Frees, Maurice Toothaker, Perley Phillips.

The first witness called was Ed Whorff for the state who testified that Hackett had a stallion tied up with a chain in his stable last Wednesday. Witness saw Hackett whip the horse for seven or eight minutes. He broke up one whip and took another. Witness didn't like the sight and left. Thought the whipping was in excess of reasonable chastisement.

Moses Harden, who conducts a barber shop across the street, heard the noise and started to go over, but was advised not to go. He thought the noise continued for 30 minutes.

A. O. Frees was working in the Beedy building near by and heard the noise in the stable as did Morris Toothaker. Neither saw anything which occurred.

Ralph Preble, the druggist, was on the piazza of his residence and had the noise called to his attention but heard no blows.

Oscar Beedy had never heard of the stallion being ugly.

Chairman Joel H. Byron of the board of selectmen called at the stable at the request of citizens and cautioned Hackett. He saw ridges on the right side of horse.

Perley Phillips, employed by the respondent, explained that they were trying to clip the stallion's foretop and wished to put a twister on him, but he resisted. Hackett used up one whip, a flimsy, rattan one and then took another of rawhide.

Dr. J. H. Rollins of Portland state agent for the society for the pre-

HARNDEN-BARKER

Daughter of Capt. F. C. Barker Wedded to Rangeley Young Man.

Miss Florence E. Barker and Ray Arthur Harnden were quietly married Wednesday by Rev. Herman A. Childs. Only the immediate relatives were present. Miss Barker is the daughter of Capt. F. C. Barker and for the past four years has been attending Bradford Academy. Mr. Harnden is the only son of Mr. and Mrs. Eben Harnden and has attended Hebron Academy and Gray's Business college, Portland and is well known in local musical organizations. The newly married couple left on the noon boat for a short wedding trip including Portland, Old Orchard and the White Mountains. Their many friends extend best wishes.

vention of cruelty to animals, had the case called to his attention on Friday and went to Phillips the next day where he made a careful examination of the horse. There was a ridge on the horse's shoulder and along his flank. He said he considered it cruel to put a twister on a horse's nose.

Attorney Ross argued that a man had a right under the statute to punish a horse reasonably and contended there had been no evidence to show cruel or abusive treatment. He asked for the discharge of the respondent. This was denied by the court. The defense then called the respondent and George Thompson.

Hackett admitted whipping the stallion, but denied he used extreme measures. The first whip was brittle and broke up quickly and thought the horse deserved the treatment it received.

George Thompson, the blacksmith, looked the horse over in the afternoon and saw four or five ridges on him but thought the animal had not been cruelly abused.

The case was not argued. Judge Holman found Hackett guilty and imposed a fine of \$1 and costs of \$34.95. An appeal was taken to the Supreme Court and Hackett recognized in \$100 for his appearance at the September term of court, sureties being furnished by Wallace M. Fellows and Howard N. Gould.

BAIRD AT HEAD OF SUCCESSFUL AFFAIR

Most Popular Entertainment Ever Given at the Rangeley Lake House--Rangeley Village to Reap the Benefit.

Rangeley Lake House, Aug. 13—On Wednesday evening August 6th, at the Casino of the Rangeley Lake House, "The Importance of Being Earnest" was presented. For the last three years under the direction of Stewart Baird the "Follies," have always been of a variety order, music, dancing, etc. This year it was the aim of the participants to depart from the form of entertainment in past years and present a straight society comedy. There can be no comparison between the efforts of former years and this last presentation, they were so very different. Suffice it to say, that it was the opinion of all who attended that this new departure was the greatest of success.

The casino was packed to its utmost capacity on both nights and not a word of the difficult and clever dialogue, of Wilde's comedy escaped the audience, because of the splendid interpretation given to it by the cast. First mention should be made of the production and remarkable training of the casts by Mr. Baird, who after repeated requests agreed to arrange the production and in ten days' time put on so complete a performance that there was not a slip either in lines or stage management from start to finish. Too much cannot be said of the great beauty of the stage settings. The 1st act showing a morning room in Algernon Moncrieff's flat in Half Moon St. was most attractive. For this scene a special box setting was constructed papered in green striped wall paper and hung with chintz curtains, the furniture carried out in the chintz covering, while beautiful flowers, pictures, a tea table and all the small fixings of an elegant bachelor's apartment were in full detail. The lifting of the curtain on the second act representing the garden at the Manor House, Woolton, brought forth a storm of applause that threatened to interrupt the performance. The stage was surrounded by an English cedar hedge broken on one side by a graceful arbor of crimson rambling roses and on the other by white marble posts, with large urns surmounting them. These in turn were trestled with beautiful pink roses. The stage was a profusion of rose bushes, hollyhocks and garden flowers, while even the grass was represented by a clever made grass cloth on which was placed appropriate garden furniture, real trees filling the background, through which

might be seen the distant landscape. It was a most difficult play to cast because of the subtlety of the lines. In order of their appearance it is only possible in space allowed to give slight mention of each one where unlimited praise is justly due. Mr. Tunis as Lane, the valet was in make up and speech the true English servant. Purser E. Adams as Algernon Moncrieff, is a new comer here but won the audience by his intelligent reading of his lines. Stewart Baird as the would be Earnest, born and bred in a handbag sustained the difficult comedy of this role admirably and lost not a point at humor, either in speech or facial expression. Mrs. Wm. C. Allen as the arrogant Lady Bracknell was perfect. Her scene with Stewart Baird in 1st act bringing great applause on her exit. Here again the comic ambitions of a worldly mother were in the ablest of hands. Miss Marie Chatillon as Hon. Gwendolen Fairfax has never done anything better, the snobbishness of the character being fully brought out while she was the picture at all times to feast the eyes upon. Mrs. Charles F. Pope as Miss Prism, the old maid governess was a revelation. Like Mr. Adams this was her first appearance here in theatricals. Her quaint make up and subdued manner, but with all a flirtatious instinct was immense. Miss Estelle Mulqueen as Cecily Cardew, was a joy. Her fresh girlish manner and clear interpretation of the part was excellent at all points. The scene with Mr. Adams in act 2nd being as pretty a little love scene as can be imagined. Wm. C. Allen as the rector was a handsome enough "sky pilot" to win the heart of a real old maid, while his ministerial consolations to Stewart Baird over the make believe death of his brother was a scream even to the latter's mourning bordered handkerchief. Miss Elsa Schaefer as Dawson the maid was pretty as a picture and her two little scenes were carefully played with just the proper respect of an English maid for her employer.

The costumes were perfect in detail as they have always been in the past. The men in the 1st act wearing smart English morning coats, the butler in full English regulation. Mrs. Allen in this act wore a well tailored blue silk suit and a black hat with plumes. Miss Chatillon's frock was Nell rose ratteen with a chic black hat with large black quills, surmounting a most becoming bronze head.

In 2nd act Miss Mulqueen was a picture of girlish loveliness in dainty lingerie dress and a large picture hat, while Miss Chatillon wore pink and white with a smart white motor coat and black tulle hat. Mrs. Pope was in pearl gray with large black silk apron and her little bobbing curls reminded one of an old daguerreotype. Mr. Allen wore the real garb of an English canon, while Stewart Baird's exaggerated mourning brought a round of applause on his entrance. As the curtain rose on the last act it was evening and Miss Mulqueen in shell pink evening gown standing under the lighted arbor made a beautiful picture, while

Miss Chatillon on her immediate entrance brought a striking contrast in an elegant Worth frock of blue, green and gold with touches of rhinestones and chinchilla fur. Mrs. Pope in this act was in black satin with white lace fichu, looking like a sweet framed "Lady of Cramford," while Mrs. Allen in handsome steel gray satin evening gown and diamond tiara and many jewels was certainly the true member of the mounted aristocracy. Mr. Adams and Mr. Baird wearing evening dress to match that of the ladies, while Miss Schaefer wearing the pale blue maid's uniform in the afternoon and black in the evening, was the correct devoted servant of an English household.

The changes of scenery were made quickly and the lifting of curtains announced by the ringing of chimes. The orchestra played before and between the acts and frappe was served between acts. New Yorkers, who were present and had seen the play in their home city were loud in their praise and said that the production was even more perfect than when given there. Too great credit cannot be given Mr. Baird and Miss Chatillon and Mrs. Baird for the constant hard work in making ready this entertainment for the pleasure of the guests. Miss M. Schaefer assisted as prompter and Messrs. H. Heyl and J. King in the stage changes. The people of Rangeley surely are indebted to the participants, whose object has been to give this play as finished a production as possible. Expenses paid, the net proceeds will be placed to the balance of the Rangeley Improvement fund which already has done so much to add to the attraction of Rangeley village.

OFF BIG SPENCER LAKE, ME.,

Absolute independence of civilization is what Knowles hopes to demonstrate in his own case at whatever cost of hardship and discomfort. Never before has a white man set such a task for himself. Robinson Crusoe, cast away on an isolated island was not confronted by the conditions which this man of the woods sets for himself.

Within his forest domain Knowles will fish without hook or line; in the forest he will conquer with his own wits and agility the animals he will need for food and clothing. He will not have a gun or knife or modern weapon of aid of any kind; nothing but the crude materials he will find in the forest.

That Knowles is able physically to make this change of life is the opinion of Professor Dudley A. Sargent of Harvard. Dr. Sargent, after an examination made last week, declared that if it was possible for any human being to suddenly drop the comforts, the food and the habits of civilized life and live the life of our remote ancestors, Knowles can accomplish the task he has set himself.

Knowles' experiment will have scientific value, said Dr. Sargent, if it is carried out under the severe conditions which such a change would require.

Before leaving his fellow men, Knowles insisted on rigid observation. He was obliged to select for his territory a stretch of timber land in the big game country, where he could be reasonably sure that nature is supreme. But he insisted on a territory the boundaries of which are constantly observed.

Streams and lakes surround the section where he is now living his wild life. Hunting and fishing camps, connected by trails, completely surround his domain. All guides and sportsmen camped in the region have been informed of the conditions of total independence which he has made, and are on the watch. The nearest settlements are 25 miles away.

The man in the forest can have no access to aid without showing himself or being found out by guides or campers.

The confidence of Knowles that he will be able to overcome every problem is remarkable. He laughed at the suggestions of danger and said that when he should come out of the woods he would come out a new man, better physically and mentally, and better equipped to paint his pictures of the wild life. Nothing

but an unforeseen accident would break that two months in the solitudes of the forest, he said.

Knowles has led a life of adventure, has sailed and traveled in many climes, has studied life at its lowest and highest levels. His study of animals has been constant and thorough and the wild life most appeals to him. With the education he has gleaned by uphill work he is going back to that which calls him, the better equipped to master the artistic side as well as the practical side of primeval life.

For Knowles will not be satisfied to simply maintain his existence and secure comforts in the forest. He has planned to accomplish as much else as his time will permit, and this effort will be directed to the field of art. He has planned to make his own paper by grinding pulp on the rocks and pressing it between heavy layers of bark. Water colors he will make from berries, barks and roots, and his brushes from the furs of animals.

Knowles has already gained favorable recognition as a painter of wild life and he has long cherished an ambition to show that he knows the life he paints. He has studios in Boston and at Bradford, Vt.

His rise in art is the story of a hard struggle. His boyhood was spent under hard conditions, in a clearing in the Maine woods. He never had a toy until he was able to make one, and the distance to the nearest school shut him off from education. He worked among men and did a man's work. At 16 he ran away to sea and shipped in all kinds of craft until he reached the full-rigged ship. The navy next appealed to him and he served two enlistments. It was through Uncle Sam he received his education.

Later he returned to Maine and guided parties of sportsmen in the woods. These men were different from what he had known. He had seen only the rough side of life. He liked these men from the city, and he started out to try that side of life. The sportsmen encouraged him in his art work, which he had been slowly developing, and in Boston Knowles went into art with such extreme industry and ambition that he made a success.

At the age of 44 he is now entering a new life, to gain a more complete education in nature, which is his life study and his life work in art.

When You Want a Thing Done Right, Do It Yourself

The man who wants his tobacco cut up for him *months before* he smokes it, just to save a minute's time, cannot blame the manufacturer because the tobacco gets *dried up*, burns fast in his pipe and scorches his tongue.

There's only *one* way to get *fresh* tobacco—cut it up yourself *as you use it*, from the Sickle plug. Then you get all the original flavor and moisture that have been *pressed into* the plug and *kept there* by the natural leaf wrapper—and you are rewarded by a *cool*, sweet, satisfying smoke.

Every day more smokers are coming back to the good old Sickle plug and *satisfaction*. Buy a plug of Sickle at your dealer's—and note how much *more tobacco* you get, when there's no package to pay for.

Fly Rod's Note Book

BY FLY ROD

St. Anthony's cottage Phillips, Aug. 5—"God bless our friends" and as time goes on we love them more and more. Those we have known from childhood, those we first met in the woods, those who across the lake called "what luck, are the trout rising to the fly this morning?" Those who love the forest, the birds and wild flowers and the animals whose home is in the woods, they are the ones who never forget "Fly Rod" when the wind howls and blows the snow around the little country home when but for sweet memories and our book we should be alone. To-day I have placed a little sign over my home that reads "St. Anthony's Cottage," It is the gift of my dear old friends Hon. and Mrs. F. E. Boothby, who have made many a life brighter, better and happier by their kind deeds. The latch string is always out at my

home, give it a pull and God bless my friends.

Five years ago I met a charming couple on their honeymoon trip at Pleasant Island Camps Dr. and Mrs. H. H. Hazen of Washington, D. C., and one day this week I was their guest at their summer home "The House in the Woods," above Pleasant Island on Capsuptic lake in Toothaker cove. Here high on the rocks overlooking the lake and forest is their summer home nest, one of the most attractive, cozy camps in the Maine woods." It is so home-like and comfortable no wonder they come from Washington in summer time" remarked a friend. This season the pet of the camp is Master Henry Jr. the cunning 20 months old baby boy, who is the idol of the home and not every youngster spends his childhood so near to nature. In the camp is everything

for comfort and on the wall hangs a 4½ pound salmon that Mrs. Hazen caught close to camp and the Dr. who is an expert fly fisherman has a panel of eight trout he took one evening on the fly that weighed 7 pounds. While sitting on the broad piazza with only the music of the wind that blew through the spruce and pine trees that grow close to the camp, after dinner as the Dr. smoked his cigar we chatted of country and city life and of the changes time has brought to this wilderness. "Camping life used to be roughing it, but now camp life means having every comfort and luxury in camp in the woods and friends to enjoy it with you." Miss Isabel Macdonald of Glasgow, Scotland is their guest this summer and said, "This is the only place I have seen in America that can compare in beauty and climate with our Scotch Lochs and hills." Dr. Henry A. Polkinhorn a distinguished Washington, D. C., oculist and personal friend of Dr. and Mrs. Hazen has just returned home from a two weeks' visit. While here the Dr. had good fly fishing and has caught the "Rangeley fever" that we hope will attack him annually. Robert Walton, one of the well known guides and wife have the care of the place and spent last winter in camp. That "Bob" was not idle can be plainly seen, for he built a new ice house, added a den for the Doctor to the camp and built over the dining room, cleared up the woods, etc. No wonder the Dr. has a clear head and steady nerve for he lives out in the open.

"Whose new boat is that?" asked a stranger at Haines Landing. "That is Dr. Hazen's flyer" said a guide as "Billy II" that had made a 4½ mile trip from camp in 12 minutes came up to the wharf. "Billy II" is a 26 foot speed boat with a 4 cylinder high power automobile engine that Dr. Hazen launched a few days ago. The boat is a beauty, the hull is made of natural wood and the deck of mahogany. To sit in an easy chair with the Doctor at the wheel and fly through the water as I did on Saturday morning was one of the pleasures not soon to be forgotten or the welcome received and the happy day at camp. May the coming days and years bring only health, happiness and prosperity to the delightful friends whose latch string is out at "Little House in the Woods."

"Did anyone say the women of Maine are not inventors?" One day recently I called at a camp on the lake shore where Mrs.—had been entertaining a card party for the afternoon and the ladies were all telling about the refreshments which were served. "Do tell me what it was" I asked and one of them said, "The best old fashioned New England baked Indian pudding with real whipped cream that you ever had and our hostess baked it in a fireless cooker." "A fireless cooker," I exclaimed, "Will you please tell me about it Mrs.—" Then we all had such a hearty laugh as she told me how she baked the pudding in the "fireless cooker." "I made my pudding in the good old fashioned way, just as our mothers and grandmothers have made before us, when I was getting supper last night and when it was boiling hot I covered the pail I had it in, set it inside another pail, packed it tight and solid with papers I had heated very hot in the oven and put the cover on. This pail I set into my wash boiler and around it. I had packed firmly the feather bed which my mother gave me when I went to housekeeping. That was you know yesterday and this afternoon after the game was over I went to the boiler, took out the feather bed, uncovered both pails and there was my Indian pudding, as red as a cherry, good and hot and ready to serve the ladies." Surely the proof of the pudding is in the eating.

NOTES FROM THE CAMPERS AT WELD.

(Continued from Page 2.)

Plans are being made for a subscription dance for the benefit of the library which will be held at the Grange hall at Webb on Thursday evening, Aug. 14.

Mr. Dunning and family of Cambridge, Mass., arrived in town last week for the rest of the season and are occupying one of Al Tainter's large camps.

Leon Wing of Boston is in town staying with his cousin, Dr. Abner Wing, for a few weeks.

The first ball game for several weeks was played Wednesday in Conant's field between Weld and Farmington. Weld won 9 to 4. Pratt pitched for Weld and Morrill began the game for Farmington, but McLellan went in the 5th and finished the game. Weld made 7 hits with a total of 11. A. Sweat got a home run in the first inning which brought in one run. Farmington made six hits with a total of seven. Pratt gave three bases on balls and struck out five men. Morrill gave two bases on balls and hit Buker and struck out one man. McLellan struck out three, gave one base on balls, but had very fine support. In the second inning there was one double play, Conant to A. Sweat to Buker. L. Pratt batted in place of C. Sweat in the 6th and C. Masterman in place of Schofield in the 7th. Weld made two scores in the first inning and one in the third and in the fifth. Farmington tied on uneven innings. Weld made one in the fifth, three in the seventh and two in the eighth while Farmington scored nine more in the ninth. The attendance was fairly large, considering the short time the notices had been posted about the game.

Harry B. Lowell and Mrs. Lowell of Portland arrived at the Maples Monday for the rest of August.

Mrs. King and son, Geo. King, of Melrose, Mass., joined the Stillman party Monday.

Samuel Lufkin of Everett, Mass., is the guest of his sister, Miss Abbie Lufkin.

Col. Bisbee of Jacksonville, Florida, who has a summer home in Dixfield, is at Bert Brown's for a few days.

Rev. Charles A. Hayden of Oakland, formerly of Augusta, preached at the Congregational church Sunday evening. He gave an eloquent

address on the subject of "Faith." Miss Althea Parlin sang a very pleasing solo.

Dr. and Mrs. O. S. Haines of Philadelphia, who spent last season here, have with them a large party this year, including Mr. and Mrs. T. Warren Brooks, Dr. and Mrs. J. W. Dilwuth and Dr. and Mrs. C. Albert Bigler, Jr., all of Philadelphia. Dr. Bigler is one of the most noted surgeons of that city, also Mr. and Mrs. J. W. Wilson of Camden, N. J., and Helen and Ruth Wilson of Morristown, N. J.

Miss Viola Sullivan of Somerville, Mass., a classmate of Miss Mendum's at Smith, who has been a guest at Cohasset returned home Saturday.

Dr. Lewis Hayden, Mrs. Hayden, and Philip Hayden of Livermore Falls were callers at Camp Recreation Sunday.

Recent arrivals at the Maples are: R. J. Thomley and family, Pawtucket, R. I.; Mr. and Mrs. A. T. Kittredge, Albany, N. Y.; Mr. and Mrs. S. A. Moulton, Miss Olive R. Moulton, Portland; Dr. and Mrs. O. S. Haines, Mr. and Mrs. T. Warren Brooks, Philadelphia; D. W. Brunton, F. L. Bartlett, J. E. Crane, Denver, Col.; Viola E. May, Providence, R. I.; Arthur C. Parker, New York, N. Y.; O. Wilson and wife, Camden, N. J.; Helen and Ruth Wilson, Morristown, N. J.; Dr. and Mrs. J. W. Dilwuth, Philadelphia; R. H. Stowe, Boston; Dr. and Mrs. A. Albert Bigelow, Jr., Philadelphia, Pa.

Whenever you write to one of our advertisers, don't forget to mention Maine Woods. It is important to you to do so; important to us and the advertiser naturally wants to know where you found his name. Tell him, and thus do a good turn for all concerned.

True Anglers Use The Williams Barbles Hook

Because it is guaranteed to catch and hold better than a barbed hook, yet you can remove the little fish without injury. Yearlings, spawn, and their killing wastes thousands of eggs, this means certain ruin to a glorious sport. The Williams Barbles hook is a scientific and a practical lure, no mechanism, just its ingenious shape. It stands for a SQUARE deal to the future of the sport: a SQUARE deal to the little fish and a SQUARE deal to yourself as a sportsman. Imported standard flies, \$1.60 per dozen, bait hooks 25 cents.

Orig. of Popular Saying.
The origin of the saying that it
takes nine tailors to make a man is
thought by some to be a corruption of
"nine tellers make a man," the "tel-
lers" being another name for "tolls"
of a bell. The English custom was to
strike three times three tolls or "tel-
lers" on the passing bell for the death
of a man. It was three times two for
a woman.

IN AND ABOUT PHILLIPS

Mrs. Claudia Fuller returned to
her home in Boston last Friday af-
ter a few weeks' visit with her
mother, Mrs. Eva Bradbury.

Mrs. Henry Badger of Rangeley
came Tuesday night to pass the
week with her husband's relatives.
Mr. Badger will spend Sunday in
town.

Thomas Allen of Boston returned
home Wednesday, after spending his
vacation of several weeks with
Mrs. Allen's parents, Hon. and Mrs.
N. P. Noble. Mrs. Allen will re-
main for a few weeks longer. Mr.
Allen very kindly contributed to the
enjoyment of their friends on sev-
eral occasions and his music was
much appreciated. He is a gentle-
man of much talent in the musical
line and composes the words as
well as the music for his produc-
tions.

Mrs. Edgar Toothaker, who was
operated on a few weeks ago at
the Maine General hospital in Port-
land is expected home this week.
Dr. E. B. Currier called at the
hospital last week and found her
sitting up and getting along finely.

Guy Everett of Skowhegan was
in town over Sunday and returned
home Monday, accompanied by his
wife and little daughter, who have
been visiting relatives in town for
a short time.

Laforest Boston and daughter,
Mrs. Diah Sweet, of Strong were in
town for the day Wednesday guests
at J. L. Borden's.

Dr. E. B. Currier has been at-
tending Gertrude Dunham, daughter
of Mr. and Mrs. John Dunham, who
has been ill the past week.

Quite a number from Phillips at-
tended the dance at Strong Satur-
day evening.

Mr. and Mrs. F. M. Hammond are
guests of Mr. and Mrs. H. H. Field
at their cottage at Weld this week.

Miss Edna True left this morning
to pass her vacation with her broth-
er, W. Henry True, and wife in
Brookline, Mass.

Miss Helen Kimball of Auburn is
the guest of her cousin, Mrs. J. L.
Boston, for a week or two.

Misses Thelma and Ernestine
Whittemore of Portland, Marguerite
Williams of Worcester, Mass., and
Evangeline Atherton of Bethel are
the guests of their aunt, Mrs. L. A.
Worthley.

Mr. and Mrs. R. L. Francis and
son of Everett, Mass., returned home
Tuesday morning after a few days'
visit with their niece, Mrs. A. G.
Cronkrite.

Mrs. Orren A. Young and son of
Greenville are the guests of her
father, Judge James Morrison, sis-
ter, Mrs. Harold Worthley and
brother, J. Blaine Morrison.

Miss Florence Knowlton of Low-
ell, Mass., is a visitor at the home
of Mr. and Mrs. W. W. Small in
Farmington.

George C. Wheeler of Portland
passed Saturday night in Farming-
ton making the trip in his auto. His
parents, Mr. and Mrs. George W.
Wheeler, returned to Portland with
him on Sunday and are passing this
week in that city.

The Bangor News of Aug. 12
says: "130 years ago Saturday,
Franklin county was visited by a se-
vere frost that destroyed the grow-
ing crops, especially the corn and
wheat upon which the few families
then living there were so dependent.
The loss entailed great suffering and
and from Hallowell was all that pre-
vented a famine."

Miss Mabel Starbird chaperoned a
party of Farmington girls at
Clearwater lake last week.

As the birthday of Miss Miriam
Brackett and her friend Miss Elise
Vinal, who was her guest fell on
the same date, August 11, a few
friends were invited to dine with
them Monday evening at the Hilton
House. Those seated at the table
were: Mr. and Mrs. D. F. Field,
Miss Mabel Starbird, Dr. E. C. Hig-
gins, R. H. Trecartin, Mrs. J. W.
Brackett and J. Scott Brackett. Lat-
er in the evening coffee and birth-
day cake were served at the home
of Miss Brackett. Solos by Miss
Starbird and readings by Miss Vin-
al were also much enjoyed.

Mrs. G. H. Hamlin got burned bad-
ly with hot water recently. She
was carrying a kettle of water when
she slipped and fell and was burn-
ed from her hand to the elbow. Her
face was also badly bruised. She is
however recovering nicely from the
accident we are glad to know.

A. D. Graffam has added a piazza
to his residence which gives it a fine
appearance. The piazza is a great
addition and the view from it one
of the best in the country.

Mr. and Mrs. J. W. French of Ja-
maica Plain, Mass. and little grand-
son are at the Hilton House for a
week or two and have rooms at Mrs.
Emma Shepard's. Mr. French is
an uncle of C. N. French of this
town.

E. M. Worthley's mill at Barnjum
will start up the 26th of this month.

We have received a very interest-
ing letter from Miss Celia Whitney
who is abroad and regret that we
are unable to publish it this week.
It will appear in our next week's
edition.

A. W. Bean, who is in very poor
health, has been more comfortable
for the past few days. Dr. C. W.
Bell of Strong was called in consul-
tation with Dr. E. C. Higgins last
week in his case.

Mrs. J. M. Wheeler returned to
her home in Cambridge this morn-
ing after a visit with Mrs. Louisa
Wheeler and daughter, Miss Cora.
Their many friends are much pleas-
ed to know that Mr. and Mrs. Wheel-
er contemplate returning to Phillips
to reside in two years, after their
sons, Prince and Harold finish
their course at Harvard college.

Surely Justified.

Lady Motorist—"Oh, Mr. Policeman,
when I tell you why I speeded you'll
let me go." Officer—"Why were you
speeding?" Lady Motorist—"I was
trying to catch up to that car ahead
to see how the lady had her but trim-
med."—New York Globe.

BAR THE FIT FROM COLLEGE

Traditional Requirements Are Un-
fair to Many Persons Who Should
Be Sought and Welcomed.

I suspect we are likely to underesti-
mate the number of naturally fit men,
now barred out of college by the tra-
ditional requirements, who could
readily enough prepare themselves to
enter with quite as promising an
equipment as that possessed by the
regular high school candidates. They
are to be found in every walk of life.
Some are on farms, many are teach-
ing rural schools, others are clerking
in banks and commercial offices or
working at the trades. These promis-
ing men should not merely be wel-
comed. They should be sought out.
All colleges and especially those con-
nected with state universities should
bear torches in the search. It is a
phase of conservation which trans-
cends in importance the conservation
of the forests, the water powers and
the coal. Why should there not be
"state surveys" for this higher ob-
ject, something after the plan pro-
posed by Jefferson for the discovery
of geniuses in Virginia?

Not all naturally brilliant youth
will desire to enter the professions,
and this is well, for they are needed in
the other walks of life also and will
ever be found in goodly numbers, as
now, in business, in the trades, on the
farms. Those preferring these occu-
pations ought to prepare for them at
the vocational schools or in other ef-
fectual ways. The college course
would be open to them for the pur-
pose, but they would be expected to
pursue it under the severe intellectual
regimen prescribed for those looking
forward to the professions.—Joseph
Schafer in the American Review of
Reviews.

Long and Honorable Career.

Sir Ralph Williams, who has re-
signed as governor of Newfoundland,
has had a long diplomatic career,
during which he has been in many im-
portant situations. For a time he
was treasurer of Gibraltar and sat on
the gate to the east. Then he was
secretary at Barbadoes and saw a
quarter of the population swept off
the earth by a hurricane. But it
was in Africa that he had his largest
experience, ruling over blacks and
Boers. He first saw the Dark Con-
tinent in 1882, during a hunting trip.
In 1901 he was made governor of
Bechuanaland, with C. M. G. as a
decoration of merit. Sir Ralph was
appointed governor of Newfoundland
about three years ago. He is sixty-
four years of age, and in retiring does
so to spend the remainder of his life
in leisure.

Growing in Kind.

An agricultural expert, who had
been invited to address a state grange,
expressed opinions with which a local
farmer, a plain, uncultured man, found
fault.

After some discussion, in which the
sense of the meeting was clearly with
the farmer, the expert lost his tem-
per.

"Sir," he said to his opponent, striv-
ing to speak coolly, "do you realize
that I have been at two universities,
one in this country and one in Ger-
many?"

"What of that?" demanded the farm-
er, with a faintly flickering smile.
"I had a calf that nursed two cows,
and the observation I made was, the
more he nursed the greater calf he
grew."—Youth's Companion.

arrangements for the annual outing
of the Piscataquis Historical Socie-
ty, has been in Monson for several
days completing the plans for the
event which is to be held August 20,
at that town. Arrangements have
been made whereby the Bangor and
Aroostook and Monson railroads will
sell round trip tickets for one fare,
the tickets being good for two days.
The Athena club of Dover and Fox-
croft will join with the historical so-
ciety in this outing.

FISH HATCHERY, CAMDEN.

Fish and Game Commissioner Neal
has returned from Camden, where he
made a special visit to the Camden
hatchery. The special appropria-
tion of the last Legislature has
caused to be built a concrete pond,
which is nearly completed and will
be 15 x 33 feet. It will hold quite
a number of fish, some of which will
be used for breeding.

The grounds about the hatchery
have been improved until it is one
of the finest in the State. Many
of the visitors to Lake Meguncook,
near which the hatchery is situated,
are continually visiting the hatchery.

AUGUST TRAVEL EXCEEDS THAT OF JULY.

According to a later census taken
by the Maine Automobile Association,
the August travel over the Kittery-
Portsmouth road will exceed that of
July considerably. Sunday 806 cars
passed over the road at York Corn-
er, the point where the census was
taken, between 8 a.m. and 10 p. m.
The tourist travel coming into the
state over this road shows a mark-
ed increase for August. On Aug-
ust 1, 269 out-of-state cars came in
over this route, bringing 946 tourists.
On the 3rd, 294 foreign cars came
in over the Fryeburg-Bridgton route
with 877 tourists. About five cars
came in over the Kittery-Portsmouth
road to one over the Fryeburg-Bridg-
ton road.

The census so far taken by the
Association demonstrates that there
will come into the state by auto over
the different approaches fully 100,000
tourists during July and August, and
it is estimated that, during that
time, they will spend more than
\$7,000,000.

AVON

Aug. 13.
Mr. and Mrs. C. W. Cook returned
from their trip to Portland Monday.
While there they were the guests
of Mr. and Mrs. John Bump.
Arthur Sweet and family from
Bath are expected to arrive in town
next Saturday and will visit
at the home of his father, Timothy
Sweet.

KEEP HOUSE IN AUTOMOBILE

Company of School Boys Camp by the Road Side—Orchestra Returns for August.

(Special to Maine Woods.)

Mooselookmeguntic House, Haines Landing, Aug. 9.

On Thursday Mr. and Mrs. E. B. Rogers of Albany, N. Y., who for several weeks have been traveling in their Ford car reached here and are taking their meals at the hotel. Their "summer home" is their automobile which now stands in the woods, by the roadside. It is so arranged in a most wonderful compact manner that they "keep house" wherever they go. The rear of the car is so made as to hold all their conveniences and opened up makes a comfortable bed. The mattress is pneumatic and they "blow it up" every night with a pump made for the purpose, but one day they lost it and spent their breath for more than one hour before they had air enough in it for the night. They carry with them their cooking outfit and from the farm houses always buy a supply of cream, butter and fresh eggs. They found the wise laws of Maine do not allow them to build a fire out in the open without a guide. Mr. and Mrs. Rogers have had a great trip coming through the Adirondacks and Berkshire hills. They planned only to pass through the Rangeley region but were so much charmed with the country that they will tarry for some time.

The pitcher, Geyer, was out of the game on account of a bad eye, but the team is still practicing hard and with their players once more on duty they have nothing to fear.

ALMOST A RECORD FISH

Proprietor Chadwick Returns With His Family—Many Picnic Dinners.

(Special to Maine Woods.)

Upper Dam, Aug. 7—Everyone seems to be taking a vacation and life easy. Although every camp is taken and most of the rooms in the hotel, this has been an unusually quiet week. If the fish are in the pool the fishermen are not for they seem to take life easy on the piazza.

Mrs. Wm. B. Fair of East Orange, N. J., who casts the fly over the pool with much grace, caught a very handsome trout that the guide Ernest Grant was sure was a "record." Alas, when the speckled beauty was put on the old steelyards that for half a century have done duty weighing the trout and salmon from the pool, it was found a little less than two ounces of the required 3 pounds weight. Eugene F. Van Dusen of New York also landed a 3 pound, 1 ounce salmon. Mr. and Mrs. Van Dusen are great lovers of the birds and wild flowers that they find in profusion around here. Since they came in July they have already seen about eighty different kind of birds.

The flag is out at Camp Kirk. Mrs. Geo. F. Brown of Germantown, Penn., has returned for another season and Mr. Brown will come in a few days. Mrs. Brown's friend, Mrs. F. D. Barksdale of Richmond, Va., is with her and greatly pleased with this her first visit to the Maine woods.

Mrs. Walter H. Sawyer and little daughter, Miss Elizabeth of Auburn are now at their camp for a stay of several weeks.

Tuesday evening Walter Chadwick returned from a few days' trip to Bangor and his wife, little daughter and son and the "dear little baby sister" came with him. Many friends had a glad welcome for the family.

Mr. and Mrs. Edward Atlee and daughter, Miss Margaret Atlee of Philadelphia arrived today for another season and received a hearty greeting from old friends.

Dr. and Mrs. Charles A. Service of Bala, Penn., have been here for a ten days' sojourn.

It seems like the good old summer time, to have Mrs. F. R. Baker and her daughters, Florence and Elizabeth Baker again. Miss Pettengill of Rumford is their guest.

Mrs. Brown has this week been joined by her niece, Mrs. D. English Dallam, Jr. of Philadelphia, who with her husband is much pleased with this their first visit.

E. G. Boughton and sister, Miss L. Boughton of Hartford, Conn., are also among the new comers.

Tom Miner has returned to New York, but will join his family again in September.

Picnic parties with a sail on the lake and a shore dinner are now quite the thing for these warm days.

A PROSECUTION.

Chief Warden Frank Durgin of The Forks, July 30, reported a fine of \$200 for illegal possession of two deer by four Italians, namely, Salvatore D. Miele, Salvatore Virgilliere, Toscano, Giovanni and Francisco Bonette of Moquito, where they were employed.

CAMP LIVELY AT PRESENT TIME

"Bridge of Promise" Completed—Diving Platform Will Be Enjoyed by the Guests.

(Special to Maine Woods.)

York Camps, Loon Lake, Aug. 11—The fish, which at this time of the year frequent the deepest places in the lakes, are sure to get caught if the fisherman is only patient and keeps busy as has been proven by the fine 4½ pound salmon brought in yesterday by Mr. Fairchild, who is a firm believer that Loon Lake still contains plenty of the gamey members of the finny tribe.

The camp is very lively at present and has been reinforced by many new arrivals among whom are Miss Nancy Barrows and Miss Margaret Smiler, both ladies of New York city, Mrs. Harvey Clark and Miss Mary G. Clark of Port Chester, N. Y., the latter ladies being annual visitors to York Camps. Mr. and Mrs. Henry M. Taylor, the Misses Mildred R. and Dorothy M. Taylor and Master Theodore Taylor with Miss Eleanor Rupert of Wilmington, Del., are again visitors at the camp this season.

Mr. and Mrs. J. H. Collier of Providence, R. I., Mrs. James Birdsall of East Orange, New Jersey, and Mrs. Woolsey Hopkins of Boston are occupying one of the cabins on the south side of the lake.

Mr. and Mrs. Francis D. Libby of Portland, Maine, and Mr. and Mrs. Alfred J. McClure of Concord, New Hampshire, who are friends of Howard Bartram are enjoying the hospitality of the camp as Mr. Bartram's guests. The party including Mr. Bartram and guide start on a short tramp on Tuesday from here to Kennebago and round via Oquossoc and over Rangeley lake to Rangeley and from there back to the camps.

On Sunday we had the pleasure of a visit with Messrs. Oscar S. Pickles, K. A. Wood and L. E. Wood, who are guests at the Lake House. After supper these gentlemen joined the merry throng in the office where were gathered the young people of the camp and song and story were the order of the evening. In the morning the jolly trio started on the five mile walk out to Rangeley even before some of their newly made friends were out of their cabins. We all hope to see these gentlemen again before the season is over that they may be given some of the "bouquets" which were thrown the next day.

The "Bridge of Promise" is completed all but the railing which Mr. York deems necessary as the walk is about six or seven feet above the water. The workmen are getting out the timber for a new float which we understand is to extend from the bridge to the boat house thus allowing sufficient room for all the boats to land and be hauled out of the water when not in use. A diving platform is being placed on the bridge for the guests who like high diving and deep water swimming.

Truthful James.

DOG DAYS BRING COOL WEATHER

Days Are Well Filled With Picnic Parties and Drives--Miss Flint Has Birthday.

Bald Mountain Camps, Mooselookmeguntic Lake, Aug. 9.—The sky is overcast as "dog days" have come and if one thinks in the morning it is going to rain, they are mistaken, for these are not rainy days, but delightful, cool and comfortable even if it is mid August.

Dr. E. G. Flint of North Attleboro, Mass., is keeping up his reputation as a good angler, for in answer to "what luck?" he said "let me see, I have saved just eight fish, three trout and five salmon, weighing from a pound to 3½ pounds each, and I have not had much time to spend on the lake."

That reminds us, that here in camp the days are not half long enough for those who love outdoor life. A climb to the top of Bald Mountain, a walk over to Oquossoc, a row on the lake, a motor boat ride and picnic up Cupsuptic, a tramp in the woods for ferns, mosses and wildflowers. The latest books remain in camp unopened and the long letters one promised to write friends are forgotten, for "there is not half time enough."

The fine horses do not stand in the stable, only long enough to eat their peck of oats, for more than ever before have the horses been in demand for drives all over the country. One man said, "it is all automobiles at home and I like to take a drive over these hills, after a good span of horses—just as we used to do."

Miss Harriett Hubbell and friend, Miss Fanny M. Osborne of New York who have been coming here for the past six summers are again happily located in camp. This season they have Birch Bower and no one who comes here spends more time in the woods and most beautiful are the

decorations of their camp.

Camp Portland is taken for a number of weeks by Mr. and Mrs. C. M. Horton and son Harold W. Horton and friend, Mrs. C. A. Gardner of Providence, R. I.

To-day Mr. and Mrs. Amos Ellis received an invitation to attend the wedding of Mrs. Ellis' nephew, Rev. Ralph L. Kimball formerly of Rangeley to Miss Mabel Blanche Davis at the Methodist church in Vienna, Maine on Wednesday, August 20, 1913. Rev. and Mrs. Kimball are to make their home in Newport, Me.

Mr. and Mrs. Clarence W. Fisher of North Attleboro, Mass., after a delightful stay, returned home this morning.

On Thursday evening as it was her birthday, Miss Kathryn Flint received congratulations from more than fifty friends, the guests and campers, nearby who gathered in the new office and made merry the evening hours. Dr. and Mrs. Flint served punch and the young folks danced to the music of the victrola from the little Brown Tea House on the Trail and all wish a long and happy life to this charming Massachusetts girl who spends her summers here.

Mr. and Mrs. E. L. Hixon of North Attleboro, Mass., who have their touring car, almost daily take a motor ride for miles over the country.

Mrs. Lila C. MacMillan of Pittsburg, Penn., after a pleasant stay of a month started homeward via the Chain of Lakes and Dixville Notch on Thursday. Her sister, Mrs. C. R. Hoopes of Philadelphia returned home via rail.

Mr. and Mrs. John Stevens of Rumford are at their camp for the remainder of the season.

After a few days at their city home in Portland, Mr. and Mrs. A. S. Hinds are again at their cottage.

Mr. and Mrs. Chas. W. Fitz of Newton, Mass., are entertaining a house party at their camp.

CAMBRIDGE ROD AND GUN CLUB

West Gardiner, Me., Aug. 10.—The Cambridge Rod and Gun club, who for 19 years have been coming to lake Cobbosseecontee are at the F. E. Wakefield camp on the south shore. During the past 19 years they have occupied the same cottage which speaks excellent for the courtesy extended them by the proprietor. The club has only lost one member by death during the past 20 years, but only one member has the record of yearly attendance, and that one is Dr. I. L. Roberts, the president of the club. The club made up of business and professional men of Boston and vicinity. The trip to Cobbosseecontee is made on the Kennebec division of the Eastern Steamship Co. to Gardiner where they are met by Mr. Wakefield and conveyed to the lake. This year it required four doul horse teams and three light tea to haul the members and invited guests to camp. They bring all of their provisions with them and also all kinds of musical instruments which includes a piano. The members who are present this year are: Dr. I. L. Roberts, president; J. E. Jacobs, vice president; William H. Hamilton secretary; D. R. Blevins, assistant secretary; William A. Henning, treasurer; F. A. Robinson, W. D. Vaughn, J. Godsell, C. V. Miller, D. Subscription Bridge Arranged by Guests--Old Timer of Quarter of a Century Returns.

(Special to Maine Woods.)

Mountain View House, Aug. 10.—As a party of boys returned from a camping trip the other evening, one of them quoted the following from Kipling:

"Who hath smelt wood smoke at twilight?

Who hath heard the birch log burning?

Who is quick to read the noises of the night?

Let him follow with the others, for the young men's feet are turning

To the camps of proved desire and known delight."

And all who love the out of doors surely love the birch log burning.

On Thursday evening a delightful subscription bridge was arranged by Misses Bolles and Hawkins. There were five tables in the music room. The prizes were won by Miss Ira Kempshall and Mrs. W. W. Walker. Messrs. Harry Fisher and E. B. Hawkins and after the card playing was dancing. Mrs. C. C. Gould of Brooklyn, N. Y. kindly played the piano.

One big fish has been landed this week by the "lone fisherman" of Mountain View, R. B. Hawkins of Providence, R. I. It was a handsome 7 pound salmon that made a good fight for his life. The fish was a wonder when planked by Chef Reynolds, who is an artist in his line. It was presented to Mr. and Mrs. W. W. Walker of Hartford, Conn., and "was such a huge fellow it was walked all over the dining room for friends to partake of and enjoy."

GREAT DOINGS AT LOON LAKE

Florida Man Is Guest at Camps---
Guests Are Coming and Going
but the Camps Are
Always Full.

(Special to Maine Woods.)

Rangeley, Me., York Camps, Loon Lake, Aug. 4—York Camps, Loon Lake is not only on the map but this month there are great doings in this particularly desirable spot in the beautiful woods of Maine. As soon as a party, though unwillingly, leaves for the outside world another comes and the cosy cabins are filled with those who meet perhaps for the first time and in the few weeks' stay for lasting friendship.

On Sunday the Kilburns left for their home in Portland and on Monday Mr. and Mrs. Fred Small were obliged to return to Boston. Both parties were loath to leave but "business is business" and vacations are too soon over for one to more than get "real friendly" and from the pleasantries which were passed round all those who have a few more days at the camps were certainly the losers.

Among the new arrivals at the camps are Fred J. Bonnet of Hoboken, N. J. and friends of New York city, who came on the 28th of July. Mr. and Mrs. Clinton Jordan of Boston and W. B. Gresham of New York city came on the next day. On the same day Messrs. J. Schon and M. J. Mulqueen both of New York visited the camps walking to and from Rangeley. On Aug. 1 Mr. and Mrs. F. L. Wilcox with their two children, Miss Margaret W. and Samuel C. Wilcox of Berlin, Conn., made their return visit to the camps.

On Sunday Miss Adelaide Wood of Buffalo, N. Y. and Miss Fonda Cunningham escorted by Miss Cunningham's father, Wm. M. Cunningham of Tarpon Springs, Florida, rode from Mr. Cunningham's summer home on the border of Rangeley lake. Beneath the stars and stripes and Mr. York's camp pennant the party reined into line and their manservant took a snap shot before they dismounted and joined the guests in the dining hall.

Mr. and Mrs. W. F. Holt of New York city, Mr. and Mrs. Joseph S. Fay of Boston, Dr. R. N. Long and Mrs. Long of Jamaica, Long Island, Dr. and Mrs. J. E. Lombard of New York city, the Misses Parkins of Washington and Turner of New York city are also among the new faces at the camps.

Mr. and Mrs. C. E. E. Whiteley of Brooklyn and Dr. and Mrs. M. K. Elmer of Bridgeton, New Jersey are now occupying the two new cabins on Birch Point having joined the lovers of the Maine woods last week. Miss Peters and Miss Bainbridge are still holding their afternoon teas and social chats in the "Boys' cabin" from the porch of which they have a fine view of Loon Lake. **Truthful James.**

WILL LIVE LIKE ADAM IN FOREST

Knowles Starts Upon Novel Experiment In Maine Off Big Spencer Lake.

(Special to Maine Woods.)

Some weeks ago we published an article to the effect that Joseph Knowles of Boston, a painter of wild life would go into the Maine woods for two months, stripped of all clothing, without food or implements of any sort to aid himself. Under date of August 4th, Boston Post states that Knowles will leave for the woods that day, plunging into the woods on the shower of Big Spencer Lake. Several sportsmen and guides were present to see the forest close upon him.

And to further prove that he remains constantly in the section, he has decided to come twice a week to a trail and deposit communication to the outside world. This is also his safety device, for if such communications fail to appear at any time, guides will immediately start into the territory from all directions.

It is the opinion of guides in this section that Knowles will be able to complete his two months of wild life. They declare that all of the methods he has planned for the securing of food and protection are practical and they can see no extreme hardship ahead for him after he has secured his first covering for his body.

UNION CHURCH IS CLEANED.

(Continued from page four.)

has racked its brain to devise the means of furnishing that luxury and beauty of having the pews all cushioned alike of a brown tone to match the decorations. It is estimated that a very respectable cushion can be furnished for \$2 each by those who make that work a business.

There are many who do not own a pew but do attend church regularly or occasionally and like a comfortable seat and the ushers are often disturbed that there is nothing better to offer. We hope that many of that class will gladly pay for a cushion so that when they do come the seat will be comfortable and the uniformity will please the eye. We also believe that there are many boys and girls who will gladly pledge the price of a cushion and will take pleasure in earning the money and every young man and woman who reckons that for his church home will take pleasure in contributing the price of one cushion or more and when they invite their friends to church for any occasion they will not be ashamed of its bare seats or ragged cushion. A bare seat is not undesirable if it is built to be so used, but these pews were designed for cushions.

Will every man, woman and youth interested in the church and its work think carefully of what he is willing and able to do and report to

the janitor, M. Sewell Kelley or to the minister, Rev. M. S. Hutchins. Some of the Sunday school classes may like to try to buy one cushion and give it as a class. Please everyone interested give a little thought to how we can do this and make our church complete in attractiveness and comfort.

VISION OF TITANIC

Great Disaster Pictured by W. T. Stead in 1886.

Enormous Loss of Life Predicted by the Distinguished English Journalist in His Own Newspaper.

London.—An investigator, searching for material for a biography of W. T. Stead, the Englishman who went down with the Titanic, has discovered a strange prediction of his own doom made by Mr. Stead in the Pall Mall Gazette on March 22, 1886.

This article, written by Mr. Stead, was headed, "How the Mail Steamer Went Down in Mid-Atlantic."

The article appeared a couple of days after the Oregon was lost, and purported to give a description of the scene of horror that ensued on the then biggest Atlantic liner, when at last the passengers realized the ship was doomed. In a footnote, Stead wrote:

"This is exactly what might take place and what will take place if the liners are sent to sea short of boats."

Here are some extracts from Stead's grim prediction:

"From below there came a queer sucking sound, with an occasional long gurgle, and I saw that the ship seemed to 'hang' as the seas met her.

"The boats were made fast to stand heavy weather, and only skilled sailors could launch them.

"I calculated that, by loading all the eight boats down to the water's edge and by packing the children along the bottom boards, we might accommodate 300 people. We were carrying 916 altogether.

"A loud crack, followed by a yawling noise like a thunder, rendered all other sounds insignificant, and a captain who was going out to New York, said: 'The bulkhead's gone. We must take our chance.' The ship stopped nearly dead, and began to tremble curiously, but it was only the river of water pouring aft, and we soon saw the firemen driven up like rats from a burrow. 'Stand by the boats!'

"The order was given, and the boat-swain's call rose in a long, tremulous screech. One of the starboard boats was successfully launched, and the officer stood, revolver in hand. 'Women first here. Thompson, you will steer her. Take four men and no more.' The young English lady was lowered down, although she clung to her father and begged him to let her stay. 'No, darling, goodbye. Be happy,' he said, and then stood composedly amid the hurly-burly."

By an extraordinary coincidence Stead describes the girl as "a dark beauty, about eighteen years of age." One could almost fancy that he saw as in a glass darkly the then yet unborn Mrs. John Jacob Astor.

"At last only one light boat remained, and still there were over 700 of us jammed in the narrow space left by the awful list. The captain has dropped his hands—he could do no more. One sailor said: 'We've stood it long enough, Tom. Let's have our turn!'

"And he, with three sturdy Swedes, managed to get at the davits. They were just in time, for the steamer began to sway as they floated, and they were all but swamped by the charge and leap of a crowd who flung themselves into the water. Then I was left with a great multitude, whose agonized clamor stunned me.

"I felt a mighty convulsive movement, then the sea seemed to flash down on me in one mass, as if the wall of water fell from a high crag. Then I heard a humming noise in my ears, and with a gasp I was up amid a blackened, wriggling sheet of drowning creatures.

"A boat came past me and I struck out lustily. I raised myself to the gunwale. 'Shall I hit his fingers?' said a man. 'No, let him come,' and I laid, sick and dizzy, on the bottom boards of a crowded boat. You know that we were picked up after a nasty time."

The great journalist's friends would have wished that last sentence of his vivid forecast could have applied to his own case, when the mammoth White Star liner's "great multitude" were hurled to their ocean tomb.

Symbolism.

Symbolism is all right if the thing you have to say is not worth saying in good, plain English.

FOLEY KIDNEY PILLS

WISHES TO HAVE CORRECTION MADE.

Phillips, August 11.
To the Editor of Maine Woods:
I wish to correct an error or misleading statement in your paper of August 7, in regard to the land question between Byron and Haley and myself. The land I pointed out to them as being called Howland land and I supposed belonged to William Howland, belonged to a Briggs Howland, who once owned lot 10, range 10. This I found out by getting a back deed to locate my land and found that I owned all of lot 10 and this land never belonged to William Howland nor he never claimed that it did, as their deeds just given by Mrs. Howland, specified that their land was in lots seven eight and nine. A. W. Davenport, who surveys nearly all the lines in Phillips and Avon run out the lines, read my deeds and explained to them that the land belonged to me. I forbid their cutting over this line Davenport had made before there had been one stick of wood or lumber cut. OPENING OF ALLEN CAMPMEETING

Rev. Weston Holman to Be Leader and Rev. A. F. Ingler to Act as Chorister.

The Allen campmeeting which will be held at Strong has every indication of being a decided success this year. It will be conducted more after the style of the early campmeeting more of a strong Evangelistic character. The association is fortunate again in having for its leader Rev. W. P. Holman, pastor of the Methodist church at Strong, who is himself a young man of ability and enthusiasm for such an undertaking. Mention should also be

made of the most efficient secretary the association has in the personage of Mr. Nelson Walker, who has spared no pains in helping make the arrangements.

The Ladies' Aid society of the M. E. church is to have charge of the

where the meeting will be held, is being put in splendid order and with the electric lights must be very attractive. This is an ideal spot for a campmeeting and the people are always glad to visit it at least once a year and that time is during the encampment.

This year there will be a special attraction in Rev. Arthur F. Ingler. He is pastor, evangelist and composer. His song, "The Pearly White City," which is number 28 in the book, Songs of the Blood-Washed, has been sung around the world. This book will be used during the meetings and will be on sale. He has already compiled three hymn books and is at work on another. When the people have once heard this sweet song singer, they will want to be present at all the meetings. He will have a special choir, which will sing the popular songs, with special music on violin and cornet.

There will be good preaching, for ministers are coming from near and far to help make these meetings a success.

Remember that the meetings open Friday evening, August 15, at 7.30 o'clock and services throughout all the days of the encampment are as follows: 9 a. m. and 10.30 a. m., 1.30 and 2.30 p. m.; evening, 6.30 and 7.30 except Sundays. These meet-

Utterly Wretched

Nervous Prostration Long Endured Before Remedy was Found.

Miss Minerva Reminger, Upper Bern, Pa., writes: "For several years I had nervous prostration, and was utterly wretched. I lived on bread and beef tea because my stomach would not retain anything else. I took many remedies, but obtained no relief until I took Hood's Sarsaparilla, when I began to gain at once. Am now cured." Pure, rich blood makes good, strong nerves, and this is why Hood's Sarsaparilla, which purifies and enriches the blood, cures so many nervous diseases. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

ings last over two Sundays. A cordial invitation is extended to all to attend. Your presence will encourage us and we shall do our best to help you. Make your plans now to attend as many days as you possibly can. Come and bring all your friends.

ONLY A MASK.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which, as we know, "builds up the whole system."—Advt.

HEED THE WARNING.

Many Phillips People Have Done So.

When the kidneys are weak they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Weak kidneys usually expel a dank, ill-smelling urine, full of "brickdust" sediment and painful in passage. Sluggish kidneys often cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and frequent rheumatic twinges.

Doan's Kidney Pills are for the kidneys only. There is no better recommended remedy.

Phillips people endorse Doan's Kidney Pills.

Mrs. E. A. Kennedy, Phillips, Me., says: "My back had pained me constantly for six months and was very stiff and sore. I was tired most of the time. On a friend's advice, I got Doan's Kidney Pills. After using two boxes, the pains and tired feeling left me. Doan's Kidney Pills have my highest endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Fred M. Furbish of Auburn passed through Phillips with a party of friends Saturday a week bound for Camp Eothen, Long pond. Mr. Furbish thinks he holds the record time from Auburn to Long pond, just three hours. They stopped at Phillips for gasoline and had been two hours and 20 minutes, leaving Auburn at 12.30 reaching Phillips at 2.50. 37 minutes after leaving Phillips Hdw. Co's. store they were in Sid Harden's garage. People who saw them go through Phillips village won't doubt it any.
