GREEN CASTLE, Ind., Oct. 13.—At Bedford Mr. Blaine said, "It is the effort of the Democratic party to persuade the West-

States that a protective tariff is all for the benefit of the East. The town of Bedford and county of Lawrence are very largely interested in building stone. I have seen it in many cities of the Union, one of the most beautiful stones known in the United States. Heretofore you have had a protective duty against stones from Canada. They have various valuable stones in the Dominion. The

If that bill becomes a law all the building stones of Canada, along the St. Lawrence and along the Great Lakes will have cheap transportation to the great cities and can reach those points cheaper than you can who have to transport your building stones by rail. They will have cheaper transportation and therefore, instead of putting yours on an equality with the building stones of Canada, the Mills bill

gives preference to Dominion stones and puts yours at a disadvantage."

After leaving Bedford the next morning, the stop was Bloomington, the seat of the State University. Between 2000 and 3000 greeted the statesman, who spoke briefly. "God bless your old bones," was the remark of an enthusiastic admirer, as Mr. Blaine stepped on the platform in answer to cries "Blaine, Blaine."

At Stansville, "Is this county Democratic or Republican?" asked Mr. Blaine. "Re-

At Gosport and Cleverdale crowds cheered the passing train which arrived at Gree Castle at 11.50.
