

# THE COURIER-GAZETTE.

TWICE-A-WEEK . . . TUESDAY AND SATURDAY.

TWO DOLLARS A YEAR.

ROCKLAND, MAINE, SATURDAY, MARCH 21, 1903.

VOL. 58. NO. 23

## The Courier-Gazette.

TWICE-A-WEEK.

ALL THE HOME NEWS.

Published every Tuesday and Saturday morning from 409 Main Street, Rockland, Maine.

**NEWSPAPER HISTORY.**  
The Rockland Gazette was established in 1846. In 1874 the Courier was established, and consolidated with the Gazette in 1882. The Free Press was established in 1890, and in 1891 changed its name to the Tribune. These papers consolidated March 17, 1897.

**BY THE ROCKLAND PUBLISHING CO.**

Subscription \$2 per year in advance; \$2.50 if paid at the end of the year; single copies three cents.  
Advertising rates based upon circulation and very reasonable.  
Communications upon topics of general interest are solicited.  
Entered at the postoffice at Rockland for circulation at second-class postal rates.

**VEREADY-BENJAMIN.** Special Advertising Agency, 150 Nassau street, N. Y., representative for foreign advertising.

"Blessed are the meek." What! Those spiritless fellows with white faces that go about afraid to say their souls are their own?—Beecher.

Luckily for King Edward, the barrel of Bourbon whiskey which is being shipped from Kentucky to his Majesty doesn't have to pass the gauntlet of Maine's vigilant shippers.

The board of revenue has completed the census of China, showing it to have a population of 428,470,000. The numbers of inhabitants in Manchuria, Mongolia, Tibet and Turkestan were only estimated.

The discovery of a German scientist that there are two million microbes in a quart of strawberries will deter people from buying that fruit only as long as the present prices prevail. When the berries get down to 25 cents a box we shall be devouring them, microbes and all.

An encouraging view of our business outlook is taken by that conservative New York financier, Henry Clews, who says in his latest business forecast: "Production in all lines of industry is steadily increasing, and thus far has not caught up with consumption; the only serious menace to continued activity being the probability of renewed labor agitation during the coming spring." If labor is wise it will cease to agitate as the season opens promising a healthy condition of affairs.

Commissioner Bowers, of the Fish Commission, is getting very impatient over the delay in securing a perfect title to the property at Boothbay Harbor, where it is his intention to erect a lobster hatchery this summer. He has urged the matter to the utmost, but the papers have only recently been sent by the district attorney at Portland to the Department of Justice in this city, where they are still further delayed. Mr. Bowers wants to get a designer of the hatchery at work and have the plans completed so that the contract can be let for the beginning of the coming summer.

The United States, through the federal land office at Los Angeles, Cal., will open to settlers within the next 60 days about 1,000,000 acres of land in California. This land is situated between Needles and Mojave, and border on the Colorado river. Much of it is valuable agriculturally. The prospective throwing open of this vast tract of settlement is the result of a recent decision of the United States Supreme Court with respect to the famous grant made to the Atlantic and Pacific railroad by act of July, 1866. In the territory which embraced this great tract the Southern Pacific has selection privilege.

As a result of the unusual demand for smoked herring during the past few months the smoke-houses of Cutler are practically empty. It is said that in all the smoke-houses of the town there are hardly more than 50,000 boxes of herring left. For some time past these fish have been selling for 13 cents per box on the market and at this price those who were fortunate enough to have a quantity of the fish have realized a good margin of profit. The smoke-houses of Cutler now have a capacity of about 500,000 boxes a year, but the great drop in the price last year discouraged some of the fishermen and as a result of these and other unfavorable circumstances the stock on the coast during the past season was hardly more than one-fourth of a full pack. To this condition principally is attributed the great increase in the price of herring, but another factor that has helped to bring about the change is the difference in the quality of the fish as compared with those packed a few years ago. The successful efforts to improve the quality has resulted in increasing the demand and this in turn helps to keep up the price.

**If the Baby is Crying Tetch.**  
Be sure and use that old and well-tried remedy, Mrs. Winslow's Sore Throat Syrup for children's coughing. It soothes the inflamed membrane, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Prominent Democrats from every part of the country gathered in Chicago, Monday, to attend the annual Jackson Day banquet of the Iroquois Club at the Auditorium Hotel. Preceding the banquet many notable in the party held long talks together discussing suggestions for the presidential campaign of next year. The speakers at the banquet made strong pleas for a united party and the adoption of a platform that would meet general approval.

## Ayer's Sarsaparilla

We put the best in it. You get the best out of it. And the doctors approve. Could anything be better? J. C. Ayer & Co., Lowell, Mass.

## Spring Humors

Come to most people and cause many troubles,—pimples, boils and other eruptions, besides loss of appetite, that tired feeling, fits of biliousness, indigestion and headache.

The sooner one gets rid of them the better, and the way to get rid of them and to build up the system that has suffered from them is to take

## Hood's Sarsaparilla and Pills

Forming in combination the Spring Medicine par excellence, of unequalled strength in purifying the blood as shown by unequalled, radical and permanent cures of

Scrofula Salt Rheum  
Scald Head Boils, Pimples  
All Kinds of Humors Psoriasis  
Blood Poisoning Rheumatism  
Catarrh Dyspepsia, Etc.

Accept no substitute, but be sure to get Hood's, and get it today.

## THE PRESIDENT'S TRIP

Mr. Roosevelt Will Do No Hunting, but Will Speak and Rusticate.

Details of the trip of President Roosevelt to the Pacific coast, which will be begun after the adjournment of the Senate, have been completed by Secretary Lusk. Contrary to the long stories which have appeared from time to time describing how the President would hunt in the Rocky Mountains, Mr. Roosevelt will do no hunting whatever. If the Senate should leave Washington on or about next Saturday the President's special will start for the northwest on April 1. The first ten days will be spent in a speechmaking tour which will be begun in Chicago. The first stop of importance will be in Milwaukee. This was to have been the next place the President would have visited on his trip last fall, if it had not come to an untimely end in Indianapolis.

The party will traverse Wisconsin, a part of Iowa, Minnesota, North and South Dakota, Nebraska, Montana and Wyoming. On arriving at Cinnabar the train will be sidetracked. The President and Secretary Root, leaving all other members of the party, will enter Yellowstone park under the escort of the cavalry officers having charge of the park. Two weeks will be spent in the park by Mr. Roosevelt and Mr. Root, who are seeking absolute rest. There will be no hunting, because the law forbids the carrying of arms by sportsmen in the national preserve. It is hardly likely that the President will even get any trout fishing, as the season will not be far enough advanced to get a designer of the hatchery at work and have the plans completed so that the contract can be let for the beginning of the coming summer.

Leaving Yellowstone and boarding the train, about April 20, the speech-making journey will be resumed, and the President will traverse Nebraska, parts of Kansas, Missouri, Illinois and Indiana, arriving at St. Louis just before April 30.

There the President will participate in the dedication of the World's Fair buildings, and on the night of April 30 he will leave over the Atchafalaya road, through Kansas, passing to Colorado and arriving at the city of Denver. From there he will go over the Southern Pacific through New Mexico and Arizona. Mr. Roosevelt will start through California from the south, will spend three days in Yosemite Park, visit San Francisco, Sacramento and other cities, and take a run into Nevada and Utah. Returning to San Francisco, he will proceed north through Oregon and Washington, stopping to attend the exposition in the former state, which celebrates the Lewis and Clarke expedition, or three days in Yosemite Park, and the Rockies by another route and, coming east, will traverse territory which he will not touch on his way west. The entire trip will consume more than two months and on his return the President will remain for a few days and then go to Oyster Bay for the summer.

**What's in a Name?**  
Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago, discovered, some years ago, how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases, DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. W. C. Pooler.

## THE FAIRBANKS BOOM

Indiana Senator with Presidential Aspirations, Is Buying Newspapers.

There is reason to believe that Senator Fairbanks will launch his Presidential boom in a few days. Like all Presidential candidates he is first turning his attention to the South, and will use the newspapers as his most forcible fighting engines. There are very few in the South, but Senator Fairbanks will establish them where they will do the most good. He will soon have a paper in Raleigh. He has secured the North Carolinian, published at Elizabeth City, and will remove it to Raleigh, where it will be published twice a week as a Fairbanks organ. Other Fairbanks papers are to be started at Greenville, Tenn., and at Birmingham, Ala.

It is said that Roscoe Mitchell, now editor of the North Carolinian, is to leave charge of the Tennessee organ. Mr. Mitchell is a picturesque writer. He recently attacked Mr. Roosevelt's administration so bitterly in the editorial columns of his paper that the postmaster at Elizabeth City felt it his duty to come to Washington and explain that he was not responsible for the opinions of the editor of the paper. It is assumed that a fight is to be made in Virginia against Fairbanks. Col. J. S. Browning of Tazewell county, who has been in Washington for several days, had a long conference with Senator Fairbanks, and is an enthusiastic Fairbanks man. Col. Browning said he was going home to begin work for Fairbanks.

## Local Turf Matters.

(Written For The Courier-Gazette by H. J. Tibbets.)

It may interest some readers of The Courier-Gazette to see a list of horses, colts and brood-mares purchased by J. M. Johnson, mayor of the city of Calais, at the December and February auction sales in Madison Square Garden, New York. Mayor Johnson is the owner and manager of one of the most extensive and best equipped stock farms in New England. His stock is bred on the best and most fashionable blood lines, and he has a practical knowledge of the business. It is possible that a Maine two-minute trotter will be produced at this farm in the near future. Following is the name, pedigree and price paid for each animal bought at the December sale:

The Zenith, chestnut gelding, 2 years old, sired by The Coker, dam by Mambrino King, \$150.  
Queen Diana, bay mare, 2 years old, sired by Rex Americus, dam by Chimes, \$125.  
Pathway Belle, bay mare, 2 years old, sired by Rex Americus, dam by Chimes, \$475.  
The Sovereign, bay colt, 1 year old, sired by The Beau Ideal, dam by Chimes, \$1100.  
The Officer, chestnut gelding, 3 years old, sired by Hal-at-Law, dam by Mambrino King, \$125.  
Rescue Belle, bay colt, 1 year old, sired by Chimes, dam by Almont, Jr., \$75.  
Blondin, bay colt, 1 year old, sired by Rex Americus, dam by Chimes, \$150.  
The Carnival, bay colt, 1 year old, sired by Rex Americus, dam by Chimes, \$285.  
Shafsbury, bay colt, 1 year old, sired by The Coker, dam by Chimes, \$225.  
The Post-Mistress, bay mare, 1 year old, sired by Rex Americus, dam by Almont, Jr., \$125.  
Fanny Rex, brown colt, 1 year old, sired by Rex Americus, dam by Prince Regent, \$185.  
The Snowflake, brown mare, 1 year old, sired by The Beau Ideal, dam by Athanio, \$325.  
Leading Lady, bay mare, 1 year old, sired by Rex Americus, dam by Mambrino King, \$125.  
The Watchman, bay colt, 1 year old, sired by The Beau Ideal, dam by Chimes, \$225.  
Sir Adell, chestnut colt, 1 year old, sired by Adell, dam by Robert McGreager, \$400.  
Regal Pandect, bay colt, 3 years old, sired by Regal Wilkes, dam by Pandect, \$280.  
Oakley Baron, bay colt, 2 years old, sired by Baron Oaks, dam by Kingwood, \$600.  
Count Rose, bay mare, 2 years old, sired by The Beau Ideal, dam by Alcazar, \$305.  
Count Rose, bay mare, 2 years old, sired by The Coker, dam by Athanio, \$185.  
Queen Inez, bay mare, 1 year old.

sired by Rex Americus, dam by Hal-at-Law, \$115.  
The Revelation, bay colt, 1 year old, sired by The Beau Ideal, dam by Rex Americus, \$130.  
The Mandarin, chestnut colt, 1 year old, sired by King Lancelot, dam by West Cloud, \$120.  
Mercedes, \$75.

The following were purchased at the February sale by Mayor Johnson:  
Dell McGreager, bay gelding, 3 years old, sired by The Beau Ideal, dam by Rex Americus, \$130.  
Baronade, bay stallion, 10 years old, sired by Baron Wilkes, dam by Kentucky Prince, Jr., \$1000.  
Point McCoy, chestnut gelding, 5 years old, sired by Red Bell, dam by Stathmore, \$285.  
Emily R., bay mare, 11 years old, sired by McKee, dam by Sorento, \$185.  
Princess Lena, brown mare, 4 years old, sired by Alfonso Vincent, dam by West Cloud, \$120.  
King Charles, bay gelding, 7 years old, (I do not know his pedigree) \$235.  
Lucy Pan, pacer record 2:04, chestnut mare, 15 years old, sired by Pan, dam by Blue Bull, \$625.  
Fairview Chimes, bay gelding, 7 years old, sired by Chimes, dam by Hotspur, \$1000.  
Zembla King, black stallion, 8 years old, sired by Mambrino King, dam by Sherman, \$350.

Horace Chenery of Belfast, who has a stock farm near that city, purchased at this sale:  
The stallion Edgemark, record 2:16, by Victor Bismark, dam by Edge-water, price paid, \$450; and the 2 year old colt Talapoosa, sired by Prodigal, dam by Wilton, for \$475.  
B. H. Bisbee, who owned and raced Vermont Chimes last season, giving him a record of 2:20 and then selling him for a large price, purchased at the December sale for \$225 the extremely fast pacing mare Desele Bonhill, record to sulky 2:03, and 2:06 to wagon. She is a gray mare 10 years old sired by Empire Wilkes, dam by Crittenden. She has two-minute speed and should she be in training this season will probably pace a mile over a half-mile track better than 2:10. Mr. Bisbee has the honor of owning a horse with the fastest record of any in Maine.

The popular horseman of Rockland, Capt. M. W. Woodman, bought at the February New York sale two promising and richly bred four-year-old mares. One is Athwold, sired by Wildnut, dam Athena 2:15, by Electioneer; the other Gorse, sired by Gunner, dam by Witchcraft. Capt. Woodman is a member of the Eastern Horse Breeders' Association, recently formed in this state. He owns two fine Baron Wilkes stallions colts which should not be overlooked by those who think of breeding from fine stock this season.

## Let in Sunlight

no matter where, and see how different washday will appear. Linens lily white and washday a delight. No toiling, no boiling necessary [unless you wish to]—just soap and all soap, and that the best.

Use in hot or cold water

## The New Arabian Nights

By Robert Louis Stevenson

will be our next serial story

This is one of the most marvellous creations of the gifted author's imagination, in which he relates in his charming style the adventures of Prince Florizel with the

Suicide Club and the Rajah's Diamond

Aside from his great gifts as a story teller, Stevenson's style is worthy of the study of all who appreciate good English.

The New Arabian Nights Will Begin in a Few Days

## SIMONTON

School closed Friday, the 6th, after a very successful term taught by Miss Caro R. Leland. The following program was greatly enjoyed by a number of visitors: Recitation, Edith Dow; recitation, Guy Annis; recitation, Mille Erickson; song, Ruth Bowden; recitation, Marion Whitney; recitation, Marie Annis; recitation, Gladys Merrill; recitation, Cecil Annis; exercise, several boys and girls. Miss Leland served ice cream and cake to scholars and visitors.

Miss Marie Andrews of Belfast is the guest of her aunt, Mrs. J. P. Simonton. Miss Beatrice Dow recently visited her aunt, Mrs. E. L. Greene at South Simonton. Mrs. Sophia Morton, J. W. Buzzell and Warren Marshall are on the sick list.

Miss Katie Oxten of West Rockport visited in this place last week.

The many friends of Wesley Leland will be glad to learn that he is gaining in health and is expected home soon.

## Working Overtime.

Eight half laws are broken by those tireless, little workers—Dr. King's New Life Pills. Millions are always at work, night and day curing indigestion, biliousness, constipation, sick stomach, headache and all stomach, liver and bowel troubles. Easy, pleasant, safe, sure. Only 25c at Wm. H. Kittredge's drug store.

## DEER ISLE.

Johnson Billings of Sunshine died at his home on March 18, aged about 81 years. He leaves two daughters and one son.

Miss Flora Colby, who has been visiting relatives here has returned to her home in Boston.

Memorial services were held in the Congregational church Sunday afternoon for Theodore and Samuel Scott, who were drowned last February.

Amos Scott and Mrs. Nellie Macomber of Belfast came here Saturday to attend the funeral of their brother Theodore Scott.

Mr. and Mrs. Albert Hall of Camden are visiting relatives here. Mrs. Judson A. Haskell has returned from a visit in Boston.

Mrs. Catherine Manner died at the home of her daughter, Mrs. Edward Greenlaw on March 10, at the age of 64 years, and 7 months.

## UNION.

Mr. and Mrs. C. W. Clark entertained about a dozen of the High school scholars at their home last Saturday evening. Supper was served and all enjoyed a good time.

Fred Bessey has been on a boating expedition on the Seven Tree pond for the past few days trying to capture floating lime casks. He had good success.

George E. Freeman, who has been spending the winter in Massachusetts, returned to his town last week and will soon be in the employ of Wingate, Simmons & Co.

Gus Lermond and family are on the sick list with grippe.

Bangor's first cargo of coal for the season of 1903 arrived on Monday from Newport News in the four-masted schooner Maude-Palmer. The cargo of about 5700 tons, is consigned to the Great Northern Paper Co. The following vessels are now on the passage to Bangor with coal: Schooner David P. Davis, from Newport News, March 13; schooner Hannah F. Carleton, from Port Reading, March 12; barge Draper from Philadelphia, March 13, in tow of tug Teaser. Recent coal charters for Bangor include the schooners May V. Neville, Jacob M. Haskell and Edyth H. Symington, all from Newport News at the good rate of \$1.60.

## PREMIUM FOR PENNIES.

Joke of a Washington Clothing Firm Had Wide-Reaching Consequences. The advertisement of a Washington clothing firm to pay "18 cents for 1902 one cent pieces" has convulsed the small towns of North Carolina with the desire to make "easy money," and a mad scramble for the cents has followed. The rumor got abroad that in coining cents a large amount of gold was accidentally placed in the alloy, and that the government desired to withdraw the coins on account of their bullion value.

Three men collected every cent to be had in the stores and banks in Charlotte and sent agents into the country. Edward B. Gresham sold to Mr. Bonner, a baggage agent of the Southern Railway, 330 cents of 1902 coinage for \$35. Mr. Bonner sold them to an Alexandria bank for 15 cents each. News of the transaction went abroad with remarkable rapidity, and pennies went to eight cents, then to ten, and finally changed hands rapidly at 12 cents each. Mr. Gresham sent more than 6,000 pennies to Washington to be redeemed at the 18 cent value. The advertisement stated that the pennies would be redeemed last Saturday, but before the North Carolina shipment reached the capital it was learned that the firm declared it had agreed to pay 18 cents for 1902 pennies and not for every penny of 1902 coinage. Telegrams were sent out recalling orders to buy the pennies, but the excitement was on, and it will take some time to stop it.

The rumor of the chance to make easy money has just struck the small town section of upper South Carolina, and the scramble for pennies is agitating the entire population.

## TRIP TO CALIFORNIA.

In connection with the Nippon-California Tour Co. of Boston, the Maine Central R. R. is arranging a personal trip conducted to California to leave Portland May 2, 1903, at \$20 the round trip, with every necessary expense included. The trip takes in Montreal, Chicago, Denver, Salt Lake City, San Francisco and all principal California points, Texas, Mexico, New Orleans, and other principal cities, with from one-half day to five days stop in these places.

An itinerary giving details of the trip has been issued, and copies may be obtained by addressing F. E. Boothby, General Passenger & Ticket Agent, Portland, Me.

Rev. William Forsyth, for thirty years pastor of the Elm street Congregational church of Bucksport, tendered his resignation Sunday, to take effect as soon as a successor can be secured. He will retire from the ministry.

## THE OLD RELIABLE

## ROYAL BAKING POWDER

Absolutely Pure

THERE IS NO SUBSTITUTE

## Chats on Books.

Douglas Sladen has produced for the edification of a waiting world an Epilepsy called "Edward the Black Prince."

Among the American books which are soon to appear in London are Mr. James Lane Allen's new novel, Mrs. Atherton's collection of Alexander Hamilton's letters, and Mary E. Wilkins's story, "The Wind in the Rose-bush."

Dodd, Mead & Co. will publish on March 25 Max Pemberton's novel "The Gold Wolf." Mrs. Henry Dudeney's novel, "Robin Brilliant"; Emma Rayner's story of negro life in the South called "Handicapped Among the Free," and a volume of short stories by Ian MacLaren called "Our Neighbors."

Dr. R. Mackintosh, professor of apologetics in Lancashire Independent College, Manchester, is the author of a new volume in the "Shibden" "World Epoch Makers" series devoted to "Hegel and Hegelianism." Dr. Mackintosh was the author of a book called "From Comets to Benjamin Kidd" and has been called "Our Neighbors."

David A. Wasson, who was long one of the literary lights of the "Atlantic" school, left a son who, like his father, is a writer. He is also an artist, and this and his studies near the sea in Maine. This George A. Wasson has written a book on the life of deep sea fishermen, and it is to be published next month under the title of "Cap'n Samson's Story."

Lawson will publish through McClure, Phillips & Co. early in the spring a study of "American Industrial Problems" from a British point of view. Mr. Lawson was born in Scotland and has been a writer on financial subjects for several English papers, numbering among his friends such men of affairs as Sir William C. Van Horne, J. J. Hill and Sir Ernest Cassell.

"The Moral System of Shakespeare," by Professor Richard G. Moulton, which the Macmillan Company publishes, is written about the commercial life of the plays, besides the interest of amusement, have also an interest analogous to that of experiments in physical science; that the theatre and the novel are the laboratory of the moralist, in which are given practical demonstrations in philosophy.

The Macmillan Company has among novels on the press one called "Ronald Caranquay, a Commercial Clergyman," by Bradley Gilman. The story is an amiable satire on the relations of the rector and his congregation. The clergyman in point is a commercial traveler who has gone into the church for what he can get out of it, and whose character a charming young widow makes it his business to develop.

Justus Miles Forman, author of "Journey's End," was an artist and contributor of short stories to Harper's and McClure's. Before he died, however, he would write an unusual sort of a novel. He graduated from Yale only five years ago and studied two years with several of the best painters in Paris. His story of a young English nobleman and an American actress is written with evident intimacy. The publishers, Doubleday, Page & Co., have made a beautiful illustration volume and a very large sale is expected.

The following books not previously included in the spring announcements of Houghton, Mifflin & Co. will be published by them this season: "Treasures of the Past," by Alice Freeman Palmer, a Report of a Memorial Service; "Ruskin's Comments on Dante," an Introduction by Charles Eliot Norton; "The Correspondence between Ralph Waldo Emerson and Hermann Grimm," edited by Frederick W. Hollis; "The Confession of John Chandler's Estate," by Andrew M. Davis; and "Of Education," by R. R. Bowker.

No more suitable book for Easter could be imagined than Bishop Lawrence's study of "Phillips Brooks," which Houghton, Mifflin & Co. have just published, bound in white and gold and containing a photograph portrait. The little volume brings out in a masterly way the great preacher's more permanent contributions to the religious thought and life of the time. It is a sketch of his theological position, his attitude towards the intellectual and spiritual movements of the nineteenth century, of the leading features of his own thought, and of his relations to the church. It was delivered as an address from the pulpit of Phillips Brooks in Trinity Church, Boston, January 23, 1903, at a commemorative service held by the two dioceses in the State of Massachusetts on the tenth anniversary of the death of their late Bishop. It is a model of eloquence, good taste, and inspiration which all admirers of Bishop Brooks will desire to possess.

Since the publication of the biography of Darwin there have been found among his papers some notes of his early years which show that as a small boy he had a passion for collecting and observing. He thus candidly records some of his boyish oddities: "I was in those days a very great story teller—for the pure purpose of exciting attention and surprise. I scarcely ever went out walking without saying that I had seen a pheasant or some strange bird (natural history taste); these lies, when not detected, I presume, excited my attention, as I recollect them vividly, not connected with shame, though some of my do, but as something which, by having produced a great effect on my mind, gave pleasure like a tragedy. I recollect when I was at Mr. Case's (a Unitarian school in Shrewsbury) inventing a whole fabric to show how fond I was of speaking the truth! My invention is still so vivid in my mind that I could almost fancy it to be true. I did not memory of former shame tell me it was false."

## YOUR FAVORITE POEM

Spring.  
"Wake, wake! The sun is high.  
Back from the windows of the sky  
The clock curtains roll by many a token,  
Snowdrops and crocus fair,  
I know dear winter's spell is broken.  
Rise up, old Earth, from out thy drowsy lair  
'Mid moss-covered leaves, and sing  
Thy matin song of spring."  
"Nay, nay, I trust thee not,  
Though thy little garden plot  
Thy foolish, firstlings cover, I wait the tidings  
Of snow as by my ways,  
And all at his whispered soft confidings  
The lonesome dark and cold: my bed of leaves  
Is warm. I rise not yet—  
Less trusting bring regret."

The Courier-Gazette.  
TWO-A-WEEK

The discussion of the relative merits of commission and commissioner has not been entirely unattended by some spirit of acrimony, a thing to be deprecated by everybody. The city has just gone to heavy expense in the purchase of road-building machinery. In the manipulation and care of that machinery and its practical application to the permanent rebuilding of our streets the success or failure of this initial expenditure. It will be a good deal easier to misuse the machinery and have the expenditure result in loss and chagrin, than to secure the full measure of its possibilities. Perhaps this oughtn't to be so, but we all know that it appears to be in the nature of things. Because the time is right and public sentiment is united for good streets, because this money has been spent for machinery, there is special anxiety that the next step forward may be a right one that shall call for no retracing. We believe the weight of argument rests on the side of those who favor a commission; we think if a poll was made of the supporters of this plan that it would be shown that they represent in a great preponderance the tax-paying element of the city, upon whom would ultimately fall the chief burden of the expenditures. In such cases we believe it to be a right principle that those who pay should have their say.

It has been suggested, if an amicable arrangement of this matter can be effected, that the experiment be attempted of bringing to our city for the coming year an expert road-builder, one of experience in this business, who shall take the place of a commission of a commissioner, and under direction of the city council have charge of the building of the streets. This proposition has much to recommend it, inasmuch as it provides for expert knowledge and furnishes opportunity for local men to become acquainted with the necessary processes, that afterwards could be carried forward by our own citizens. We suggest that it receive consideration at the hands of citizens and the city council.

The thing always to be borne in mind is—Don't jeopardize the new machinery.

The death of Lemuel H. Cobb, who owned a controlling interest in the Portland Press, and had been its editor for nearly 20 years, removes from Maine newspaper circles a member of worth and ability. In several respects the Press is the most influential daily paper in the state and this fact is due in no small measure to Editor Cobb's keen and judicious policy. The Portland Press, as influenced by his pen, has taken a definite position not only in matters pertaining to Portland but in all state matters where weight and wisdom counted. The sympathy of the whole newspaper fraternity is extended.

The annual spring cleaning of the mud from Main street's paving has been done, and done as well as could be expected, though always some dirt remains to be dried by the sun and blown about to the discomfort of the Main street world. This mud finds its way to the paving chiefly from the abutting side streets. When these streets come in for their treatment by the new road-building machinery it is to be expected that Main street will see an improvement and the expense of its frequent cleaning be perceptibly reduced.

By a vote of exactly two to one the New Hampshire House of Representatives has fallen in line with the state of Vermont, by expressing itself in favor of license as against the existing prohibitory system which has been in force since 1848. There are a number of steps yet to be taken before New Hampshire can have a license law but it seems likely that the wishes of the majority are to be gratified. Assuming such to be the case Maine will then be the only state east of the Mississippi river carrying the prohibition banner.

A natural argument to be urged against hiring from the outside an expert road-builder is that it takes away a salaried position from one of our own citizens. This is true, and to be regretted; but we would assume that the arrangement need not be for any long time, for expert builders of our own could soon be raised up. The thing to avoid so far as possible is costly experimenting with the new machinery. We want to get the best results at the outset and with the smallest possible outlay.

Ex-Mayor Butler's communication upon the street commission matter will be read with great interest by all citizens who have under consideration the bettering of Rockland's streets. His reviving of some matters of history make profitable reading and throw a clear light upon some things apparently not fully understood by all who are now discussing this topic. His defence of the former commissions and their work is particularly to be commended.

Editor of The Courier-Gazette:—

Illness prevented me attending the meeting of the city council on Monday evening last, but I have read with much interest the accounts of proceedings as given in your paper and the Star. I was amazed by what was placed to the credit of Alderman Davies, and stated in large type, I feel that the incident should not be permitted to pass without someone saying a word in behalf of the members of the much maligned road commission, and in behalf of those who were not permitted to be present. It is something to the credit of Mr. Davies that he attempts to make an explanation of his position, weak though the defence may be at the best. The Star, however, nowhere says that he had been misquoted at the time of the meeting.

It was my privilege to be a member of the board of aldermen when the charter was amended making a road commission possible. I was intimately associated with its members, and at a recent daily conversation with the valuable and experienced city clerk, I learned that they did for a period covering four continuous years, and thus believe I am more competent to pass judgment upon the efficient and devoted members of the road commission than I could have done otherwise. I am sure that no one who was not at the time a resident, or if a resident had no interest in or was not active in city affairs, I know less of what occurred than I do of the connection with the city government was severed, but I can say without fear of successful contradiction that A. F. Crockett, C. H. Berry, F. C. Knight and O. L. Farrand gave days and weeks of honest, patriotic, faithful attention to the duty assigned them. They were then and are today among our first and most successful business men, and they gave to the city's interests the same conscientious care that they do to their own affairs.

If Alderman Davies will take the time and trouble to go over carefully the records of the city council in those busy days, and then go to the city treasurer's vault, and search the rolls of accounts, he will find that no important work was undertaken by the road commission without the order and sanction of the city council, and that their monthly accounts were before the committee on accounts and claims and were embraced in the roll of accounts and passed by the city council each and every month. No senatorial critic in the board of aldermen in those days (and they were in the main good men) ever accused the commission of wasting the people's money in an extravagant and foolish way—"which is as bad as stealing." There was in existence then the usual crop of croakers, grumblers and critics, and some who tried to make political capital, but they evaded the issue and were a silent and rather determined opposition among the property owners along Main street against permanent improvement, and it was due to the influence and push of Mr. Crockett, who was chairman of the commission, that this was overcome, for they hadn't the courage to oppose him openly, and the good work began.

Prior to this time our streets, especially in the spring of the year, were a sea of mud. Frequently rock teams sank to the hubs in the mud, and the mud and the residence of Gen. Tillson. The most central business portion of our principal street was a putrid, fettering mass of mud and filth, over which we picked our way upon plank or stone crossings, surrounded by from six to ten inches of mud of different degrees of thickness. Street commissioners carted chips and chips from the quarries, and when ground fine enough the refuse was sometimes hauled out, and sometimes not. A short piece of sewer ran from the Spaulding block to the front of the city hall, and the refuse could no more enter it than from a mortar bed. There was no escape for water except by evaporation. Our property owners, many of them said: "It's no use paving, it won't stand; it's too expensive; let's try something else a

while longer!" and we slumbered on in the mire of contentment while the rats played in and out from under decaying plank walks. Our city was called "a cesspool," and because the subject of derision and contempt to every stranger that entered our borders—and rightly.

One day we awoke from the long sleep and public interest was aroused. The Board of Trade had a "mud meeting." An entering wedge was driven in and a new order of things began. The city council was chosen, and the city council ordered them to build brick sidewalks and pave 800 feet of Main street. When that was done what a transformation it was! Everyone was more than delighted, and the property owners at either end urgently requested more of a good thing, agreeing to promptly pay their part of the assessment. So fourteen hundred running feet were completed the first year, the "kickers" slunk away and peeked around the corners, and swore that they had always been in favor of paving.

Does anyone claim that the average committee on streets, with the road commission given them by the city council, could have done what was done so efficiently as did the commission? It cost a considerable sum, but there was nothing permanent or valuable that doesn't cost in labor and money? And yet the rate of taxation was not raised, and the city debt was not increased, but rather decreased, as the city treasurer's reports will show for the years under discussion. With few exceptions the aldermen paid their assessments cheerfully and promptly.

No one until now has ever accused the members of the commission of receiving anything for their services or of wasting or squandering the money given them to expend. Those of us who knew of their work most intimately, gave them the credit of doing what they did from high and right motives, and they did what they could that our citizens might have a better and more desirable city in which to live and do business. There was necessarily much clerical labor required in the buying of all the materials, such as gravel, granite pavings and curbing, brick and sewer pipe, and the cost of the work was \$100 per year for the first three years, and \$200 per year for the succeeding two years, was allowed for clerk hire. Any Main street merchant who would not object to this sum being paid for the sake of the city, and the good work began.

This is not ancient but very modern history, not fifteen years old, and what I have stated can be proven by abundant testimony. We never regarded the commission as an autocratic body, accountable to no one for their acts, and we never thought of the city council as a committee for a commissioner, who ever the city council might so decide, without taking from that controlling body any of its rights and powers.

This commission was created for the purpose of making an argument for or against the road commission, for the result of their valuable service for our city has spoken for them these many years, and they have stood to the test of their belief long after their critics and traducers are dead and forgotten. The temper of the majority of the city council, as expressed in the resolution of the section indicated are desired to be content; but if it be a commissioner the citizens have a right to demand and expect that the man they choose shall have some qualifications for the place; that he shall be bright and intelligent and able to give us better streets, for we are tired, sick and disgusted with having many of our principal thoroughfares full of cradle-holes and flying limberock chips during the best part of the year when strangers and summer visitors come for a season's vacation. We say nothing of their comfort and peace of mind and temper.

Edward A. Butler.

The New Carrier Service

The efforts of Postmaster Fuller to extend the free delivery service of our city met with success to the extent of the department granting one extra carrier to Rockland, making a total of six, the new service to go into effect April 1. Mr. Morris O. Wilson, senior sub-carrier, will be promoted to the position with a salary the first year of \$600. The postmaster has not abandoned his efforts to obtain a seventh carrier, and the department has agreed to send here another inspector with view to granting another carrier if possible.

Rockland covers a large stretch of territory. One part of the city is as fully entitled to carrier service as another, but the carriers can work but eight hours a day and it is possible for them to do only a certain amount of work in that time. A new carrier district has been marked out at the Northend, northward from Maveick square, which never has had a free delivery. Carrier Wilson will have this territory, starting in with Camden and Front streets, of which he relieves "Carrier" Leveley, who is turning in his resignation. The new carrier will have a long route. Wilson will proceed north as far as the Rockport line, returning by Glen street and Waldo avenue. Collection boxes will be set on Camden street at convenient distances, the first one probably in front of Thomas Hawken's residence. Carrier Wilson is now making a directory of his district with view to being fully acquainted when he starts out with his first load of mail a week from next Wednesday. Residents of the section indicated are desired to leave directions at the post office with reference to disposition of their mail matter.

There are other portions of the city that need the carrier service and these can all be covered if by good fortune the seventh carrier can be had. With reference to some of the remoter parts, particularly the West Meadows where carrier service is impossible, Postmaster Fuller hopes to have them reached with a rural free delivery route. This it is proposed shall start from the Rockland office west either from Limerock or Park and Pleasant streets, thence to Morse's Corner and across to the West Meadows, and will make a route between 20 and 25 miles in extent and convenience a large number of families. G. L. Farrand is the carrier for the Highlands. The preliminary steps have been taken in the inspector of the rural delivery service will visit city with view to passing upon the matter and making final selection of the route.

If these contemplated plans can be worked out our city and vicinity will have one of the most thorough mail services in Maine.

Some Telephone Changes

The Knox Telephone Co. now has a strict rule that patrons shall call by numbers, and while this will be tedious at first it is hoped that the service will be better for all concerned, in the end. The company is now fully located in its new building on School street, where a large expenditure has been made in order that patrons may get the best possible service. The company will be pleased to greet any of its friends at the public office, between the hours of 2 and 4 p. m., and show them the workings of the exchange.

The Former Commission

Ex-Mayor Butler Tells What It Accomplished and Resents the Unjustifiable Attacks Made Today Upon Its Work—Facts of Record.

Editor of The Courier-Gazette:—

Illness prevented me attending the meeting of the city council on Monday evening last, but I have read with much interest the accounts of proceedings as given in your paper and the Star. I was amazed by what was placed to the credit of Alderman Davies, and stated in large type, I feel that the incident should not be permitted to pass without someone saying a word in behalf of the members of the much maligned road commission, and in behalf of those who were not permitted to be present. It is something to the credit of Mr. Davies that he attempts to make an explanation of his position, weak though the defence may be at the best. The Star, however, nowhere says that he had been misquoted at the time of the meeting.

It was my privilege to be a member of the board of aldermen when the charter was amended making a road commission possible. I was intimately associated with its members, and at a recent daily conversation with the valuable and experienced city clerk, I learned that they did for a period covering four continuous years, and thus believe I am more competent to pass judgment upon the efficient and devoted members of the road commission than I could have done otherwise. I am sure that no one who was not at the time a resident, or if a resident had no interest in or was not active in city affairs, I know less of what occurred than I do of the connection with the city government was severed, but I can say without fear of successful contradiction that A. F. Crockett, C. H. Berry, F. C. Knight and O. L. Farrand gave days and weeks of honest, patriotic, faithful attention to the duty assigned them. They were then and are today among our first and most successful business men, and they gave to the city's interests the same conscientious care that they do to their own affairs.

If Alderman Davies will take the time and trouble to go over carefully the records of the city council in those busy days, and then go to the city treasurer's vault, and search the rolls of accounts, he will find that no important work was undertaken by the road commission without the order and sanction of the city council, and that their monthly accounts were before the committee on accounts and claims and were embraced in the roll of accounts and passed by the city council each and every month. CITY OF ROCKLAND. Assessors' Notice.

The subscribers, Assessors of Taxes of the City of Rockland, hereby give notice to the inhabitants of said City and other persons having taxable property within said City, to make and bring in to said Assessors, true and perfect lists of their polls and all their estates, real and personal, in writing, including Money on Hand or due, and debts due more than owing, and all property held in trust as Guardian, Executor, Administrator, Trustee or otherwise, (except such as is by law exempt from taxation), which they were assessed on the first day of April, 1902, and to be prepared to make oath to the truth of the same. And they are particularly requested to notify the Assessors of the names of all persons who have bought, or to whom they have sold Taxable Property since the first day of April, 1902.

And for the purpose of receiving said lists and making transfers of all property bought and sold since the first day of April, 1902, the Assessors' Room, No. 1, in City Building, will be open to the public, from 9 o'clock in the morning to 4:30 o'clock in the afternoon of each day, from Wednesday, April 1, to Friday, April 3, 1903, both inclusive, and any personal examination of property by the Assessors will not be considered as a waiver for neglect of any person in bringing in true and perfect lists as required by law.

Any person who neglects to comply with this notice will be deemed to have waived the right to be heard in defense of his property, and will be liable to pay the full amount of taxes, unless such person offer such list with his application and satisfies the Assessors that he was unable to offer that the time appointed. The attention of all corporations is called to Chap. 6, Sec. 30 and 31 R. S.

"Fewer Gallons Wear Longer."

The secret is out and Rockland can go on living just as if the riddle had never been asked.

No it can't either. Rockland is not going to be what it was before. Its houses are going to be brighter; its people a little more prosperous; they are going to have some of their money going to buy other things with. The answer to the riddle is this: you can paint a building with fewer gallons of Devco Lead and Zinc paint than with many other paints, and it will wear several times as long as a building painted with lead and oil mixed by hand. What will people do with the rest of their money? Farrand, Spear Co., sells it.

The Courier-Gazette goes into a larger number of families in Knox county than any other paper published.

ODDS AND ENDS.

Queen Victoria was baptized, married and crowned by Archbishop Howley. It is remarkable that George III. was also baptized, married and crowned by one man—Archbishop Secker.

There is a reminder of the late Dr. Burchard's famous "rum, Romatism and rebellion" alliteration in a remark made by Rev. Mr. Tunnell, of Washington. In discussing the negro problem he said it must be approached with "soap, soup and salvation."

William Boone, a miner, who has come down from Dawson City, Klondike, to spend the winter with relatives at La Plata, says he has dug 225 feet deep into the ground of his claim, but has never been able to reach a point where the ground was not frozen hard.

Chief Kiakuka, last of the once great Delaware Indian tribe, has just died in his little log hut on the banks of the Raritan, near Lebanon, Pa. In compliance with his oft-expressed wish the old man was buried in the shadow of a great elm tree which stood near his cabin door. Under this tree his forefathers used to sit in solemn council. Kiakuka, who was in his ninety-seventh year, was a noted warrior in his youth.

Honors accumulate upon the head of Prof. Simon Newcomb, the oldest and most eminent of living scientists. The degree of doctor of philosophy has just been conferred upon him by the University of Christiania. He had before received similar distinctions from ten or twelve institutions, including the degree of doctor of divinity from Yale, Harvard and Columbia. He is a member of the leading scientific societies of Europe and America, and is the author of many scientific text-books.

Cholera has practically disappeared from Egypt.

Through the liberality of George W. Perkins, of New York, an expedition was sent by the New York Botanical garden to Nova Scotia and Newfoundland. The expedition has secured 12,000 specimens of over 2,000 species of plants. A third of the specimens are marine plants.

The recent expedition sent to north Montana by the New York Botanical garden has done much in the interest of scientific botany. Many Alpine forms of plants were discovered. Ample statistics were secured establishing the variation of plant life caused by temperature and latitude, and of the general vertical distribution of flora.

Recently at an auction sale in London which was judiciously advertised, an egg of the great auk was put up which, after some lively bidding, was knocked down for \$1,200. That is said to be a very good price. But auk eggs have been sold in London for as much as \$1,500. The reason for these enormous prices is naturally to be found in the scarcity of the eggs. The bird is extinct, and not over 70 of its eggs are in existence.

Hungarian dentists and chemists claim to have discovered a valuable local anesthetic, an alkaloid, nervine, the hydrocarbon of which is stated to have similar properties to cocaine, but to produce a much more lasting anesthesia. The base is obtained from an Indian plant, "Gasu Basu," the properties of the leaves of which were first discovered by D. Dalma, who successfully employed them in painful pulpitis with such good results that he reported that the drug might displace arsenic for dental purposes.

SCIENCE SIFTINGS.

Cholera has practically disappeared from Egypt.

Through the liberality of George W. Perkins, of New York, an expedition was sent by the New York Botanical garden to Nova Scotia and Newfoundland. The expedition has secured 12,000 specimens of over 2,000 species of plants. A third of the specimens are marine plants.

The recent expedition sent to north Montana by the New York Botanical garden has done much in the interest of scientific botany. Many Alpine forms of plants were discovered. Ample statistics were secured establishing the variation of plant life caused by temperature and latitude, and of the general vertical distribution of flora.

Recently at an auction sale in London which was judiciously advertised, an egg of the great auk was put up which, after some lively bidding, was knocked down for \$1,200. The base is obtained from an Indian plant, "Gasu Basu," the properties of the leaves of which were first discovered by D. Dalma, who successfully employed them in painful pulpitis with such good results that he reported that the drug might displace arsenic for dental purposes.

ASIATIC NOTES.

The smallest flowering plant is a kind of Indian duckweed, known as Wolffia microscopica. Each plant has two flowers.

Next to coffee the greatest use for lumber in China is in building boats, and it is safe to say that the number of crafts runs into millions.

Water is so scarce in the Japanese island of Oshima that it is the custom for a bride to take a large tub of drinking water with her to her new home as a kind of dowry.

In East Indian schools mental arithmetic is a vastly more serious matter than it is in the schools of this country. Catch questions are numerous, and pupils of ten years are taught to carry the multiplication table up to forty times forty.

There is a reminiscence of a very old epitaph, says the London Globe, in the statement of an Indian newspaper that in northern India a tombstone stands to the memory of a good missionary, with these words: "He translated the Scriptures into Pushtoo, and was accidentally shot by his khitmaghar. Well done, thou good and faithful servant."

FROM THE FATHERLAND.

The prisons of Prussia in 1900 harbored 45,324 males and 11,845 females. A German lawyer has left \$50,000 for the foundation of a school of cookery.

As a substitute for butter, both at table and in the kitchen, goose fat is largely used in Germany.

Bavaria has a special Horse Insurance association, under government control. It paid out last year \$147,000 to members.

Imperial statistics for 1900 show that Germany had 34,569,926 acres of wood; in 1883 there were 34,353,748 acres, and in 1893 34,473,296 acres. The figures for 1900 thus show an increase, as compared with 1883, of 216,178 acres.

April 19—"American Tramp" at Farwell opera house.

April 20—George F. Hall "An American Hustler" at Farwell opera house.

April 23—Fast Day.

Supreme Court convenes Tuesday, April 7.

The atmosphere is laden with the springy flavor of burning brush.

Rockland's Mystic Shriners attended the meeting in Lewiston, Thursday.

The interior of Hastings' dry goods store has been touched up with paint.

E. K. Bowler attended the district Old Fellows' encampment in Portland this week.

E. F. Berry, cashier of the North National Bank, has been commissioned a notary public.

The first shed were in the market Thursday. Henry Higgins retailed them at 40 cents.

The Scottish Rite Masons have important meeting this Friday afternoon and evening.

The Warren degree team exemplified the Rebekah degree at Tuesday night's meeting of Mirlan Lodge.

Steamer City of Rockland went only as far as Bucksport on her up-river trip Thursday, on account of the running ice.

The highest string of candlepins which has been bowled on the local all-star team was 125. The record was made by the old reliable "Uncle Billy."

Elmer Brown is clerking at Henry Higgins' fish market during the illness of Jacob Ludwig. Mr. Ludwig is now convalescent and will soon be on deck again.

The Y. M. C. A. basketball team is playing in a tournament at Portland, for the state championship. Portland, the state champion, and Bar Harbor are the competing teams.

The hearing on the proposed amendment to Rockland city charter, whereby, in case of a street commission, the city government should still have control, takes place this Friday.

The county commissioners were in session Tuesday and approved bills to the amount of about \$75. A petition was received from Vinhaven to inspect a road laid out by the selectmen, and to assess damages.

Miss L. Rita Philbrook is in New York on a 10 day inspection of dress-making styles. Upon her return she will open parlors in what was formerly the Adams store near the corner of Main and Pleasant streets.

Among the Vinhaven men in town Wednesday were Ex-Senator F. S. Wallis and five alarons and W. P. Manson as engineer of the steamer. Both have served previously in those capacities and their worth is known.

## The New Arabian Nights

By Robert Louis Stevenson

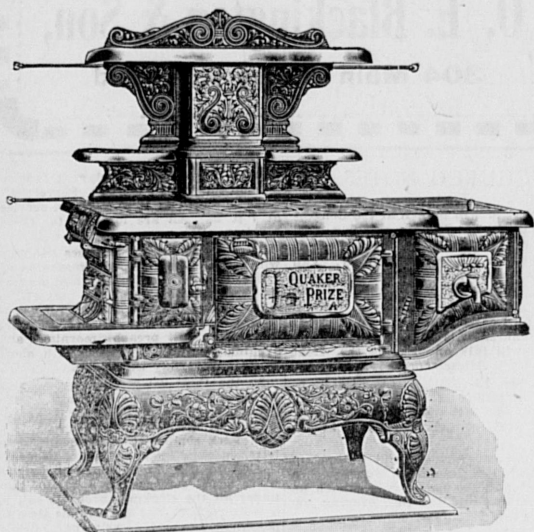

Stevenson confessed he dreamed some of his plots. He must have dreamed this, but it was in his waking hours that he wrought into a fascinating story the adventures of Prince Florizel with the Suicide Club and the Rajah's Diamond, which form the theme of the New Arabian Nights.

No Dull Winter Evenings While the Story Lasts

## Two Splendid Ranges

To Be Given Worthy Housewives in Camden, and Rockport

An Opportunity to Win a Grand Prize With Little Effort

PRIZE QUAKER.

THIS IS THE RANGE WE ARE GIVING AWAY.

### RULES OF CONTEST.

It is essential to the contest that the names of not less than two contestants appear in each class and remain active until the close. In the event of the withdrawal of all active contestants but one, there can be no contest and the prize will be withdrawn. A coupon will be printed in each and every issue of the Courier-Gazette, until and including Tuesday, March 31, 1903, which will contain the last coupon. The contest will close at the paper's business office at 6 o'clock p.m. the following Wednesday, April 1, when the votes will be counted by a committee representing the leading contestants. 1. For every yearly new subscriber to this paper at \$2 two hundred votes will be given. A new subscriber may pay at many years in advance as he wishes and receive votes at the rate of 200 for each \$2 per year paid; but all these payments must be made in advance at one time. 2. For every \$5 paid by present subscribers, either arrearages of accounts or in advance on present subscription, one hundred votes will be given. 3. Changes in subscriptions from one member to another of the same family, etc., made for obvious purpose of securing the increased number of votes given to new subscribers, cannot be permitted. There will be no single votes for sale; votes can only be obtained as above set forth. Votes will be counted each Wednesday and Saturday morning during the contest and the figures of such counting printed in the following issue of the paper. All communications should be addressed to Voting Contest, Courier-Gazette Office, Rockland, Me. Book Premium Coupons.—Persons buying a copy of the humorous book, "What Happened To Wigginsworth," in connection with subscribing to the paper, will be issued vote same as for the paper. Thus, \$2 paid for a new subscription entitles to 200 votes, and \$1.50 paid for the book entitles to 150 votes.

## PRESENT DIFFICULTIES IN THE CATTLE COUNTRY.

COWBOYS ON A RAID.

PEOPLE like the wild and woolly, or rather like to read of adventures, reckless of life and limb, felt a sentimental regret over the passing of the cowboy and the decline of cowboy wars. Today, the great range is again in ferment, and again is the cowboy called upon to be quick with his gun. Which may be interesting to those in the eastern and middle states that read of his exploits, but is demoralizing and devastating to the inhabitants of the region where the lawlessness is in progress.

Three factions are engaged in the present warfare of the range, whereas in former days there usually existed but two, cattlemen against cattlemen, cattlemen against sheepmen; the settler now is an element to be taken into account, the man who has filed a "claim" and is going in for agriculture.

In the days of the big boom in the cattle industry, many of the settlers thought the government's lands would forever continue bringing in to them large incomes, so much of the land being considered unfit for agricultural purposes, and sheep raising not yet carried on extensively in their part of the country. But the high price offered for wool back in the eighties sent fortune-hunters scurrying into the sheep industry, and then the cattle found their rights contested by large bands of woolly intruders. Now both cattle and sheep are finding a common enemy in the shape of the settler. The settler, who has come to cultivate his own little portion of land, it is needless to say, is no friend to the free range.

Several influences have been at work in attracting the homesteader to the country under discussion. The desirability of turning arid lands into fruitful soil by means of artificial irrigation has been much discussed, especially of late years; and has been eagerly considered by the landless. The dissemination of knowledge in the way of other improved methods of agriculture, also has had a considerable effect in this matter. Another influence has been the "boom-er," whose mission it was to advertise the great undeveloped resources of these regions uncrowded by humans.

Not only have the plains of the southwest (the southern portions of Texas and Oklahoma, the eastern portion of New Mexico and localities in Arizona and Kansas) been great feeding grounds for the herds, but herds of flocks have overrun the grazing regions of the northwest. Charles Moreau Harger, writing in the Outlook, says: "The shepherd is in evidence from the Rio Grande to the mountains of Montana and Idaho, the home of the blizzard. Over the vast unoccupied reaches of Wyoming the herders wander, in Texas they have their home, and in Oregon they vie with the cattle owners for the possession of the range." The western states, along the Canadian border, and Wyoming, Nebraska, and Colorado to the south, have offered pasturage for the herds of wandering animals, some of which wander clear from the Pacific coast half-way across the continent.

It would seem, with such a wide territory, there need be little cause to pick quarrels; but we quote some figures which show the territory is becoming narrowed, and that very fast, the settler rushing into regions once entirely given over to grazing. "The fact that something like 200,000 people moved into Oklahoma and northern Texas last year, the immigration of 160,000 to the northwest this spring, and the steady western tide of settlements from the middle states to the territory of Kansas and Nebraska, have been a menace to the cattlemen."

The cattlemen did not at first succumb tamely to the settler's encroachment. With the lawlessness bred of their isolation and occupation, they endeavored to settle matters in a high-handed manner, and without waste of words or time. They made things hot for the newcomer and invited him to leave, but the latter stayed on. They persecuted him with all the skill in their employ, but still the stubborn settler refused to depart. They destroyed crops, and the pioneer farmer went on raising new ones. Then the government stepped in and provided protection for the small farmer, the man who had gone out to develop the country. It gave him lordship over the acres on which he had filed, and the cattlemen at last had to recognize the fact that

the settler had rights they must respect. The government said to the sheepmen (in the "two mile limit"), you, too, must give the homesteader a chance, must not allow your creatures to grab and devastate at will. The "two mile limit" is a statute prohibiting the sheep from grazing within two miles of any inhabited dwellings; and as the dwellings are increasing in number so fast the sheep's struggle for existence is getting to be much more of a struggle than formerly.

The settler and cattlemen war on the sheep because wherever this indefatigable grubber goes, he works great havoc. He leaves nothing behind, no blade of grass, not a thing for any creature that may come after. As he nibbles he makes a clean sweep of everything, biting way down below the blades into the roots. And not only is he ruthless as to getting what he can for himself, but, flocks traveling over in the wake of a leader, everything underfoot is destroyed. To add to his unattractiveness on the range, the odor of a sheep's hoofs is very unpleasant to both horses and cattle, who therefore do not care to browse in his vicinity.

Because of his monopolistic tendencies every man's hand seems against him. Lately he has been prohibited the forest reserves, and now nothing is left for him but to fight the cattlemen for the open range. And fighting it is that is going on out there in the grazing lands of the northwest, cowboys and shepherds in desperate straits to find sustenance for their herds and flocks.

Retribution falls heavily upon the insatiable flocks, occasionally settlers uniting with cowboys in a wholesale slaughtering of the sheep. Shepherds, needing new pastures, will, fully conscious of the danger attending the move, push on into a region where cattle are feeding, or they will, the peaceful, contented thing depicted in fairy tales. The tender of flocks in the disputed lands must be keen on the alert against a human enemy, knows that a sudden attack may end all for both herd and herdsman. It is estimated that in the last ten years 500 herders and 600,000 sheep have lost their lives at the hands of the cowboys. A heavy loss of property, a grievous waste of life!

The methods of slaughter are various. Sometimes a flock is surrounded, the herders on horseback chased away, and the rifles kept cracking until the whole flock is destroyed. Dynamite is occasionally employed in the work of extermination, the bombs being thrown into the midst of the huddled creatures, for whom, and for the herders, there can be no escape.

The government's attention is at present considerably taken up with this cattle-sheep-settler question in the northwest, and it looks as though the doom of free range were at hand. A settlement of the matter may be made among those most nearly concerned, or the government may give out the range in leases, as is done with the school lands in most of the states. The wild picturesqueness of the range may fade away utterly, but perhaps one can be resigned to that in the contemplation of peaceful ranches and of myriads of homesteads for myriads of landless folk. KATHERINE POPE.

Told of Bright Pet Wolf. There is in the Berlin Zoological garden a wolf that has been trained to follow its keeper about like a dog. The keeper who once had it in charge returned to the zoo after a three years' absence the other day and was at once recognized by his old pet.

Camden Anchor-Rockland Machine Co. ROCKLAND, MAINE.

## A Hospital Case

There was a hurry call for the ambulance of the City Hospital. In the course of a few moments a very sick woman was brought in on a stretcher—she was pale as death and evidently suffering keen agony. There was a hasty examination and consultation, and in less than a quarter of an hour the poor creature was on the operating table to undergo an operation for ovaritis.

The above is an accurate account of an incident which occurred in New York recently; the young woman in question had warnings enough of her dangerous condition in the terrible pains and burning sensation low down in her left side. She had no one to advise her, and she suffered torture until it was too late for anything to save her life.

Women should remember that if they do not care to tell a doctor their troubles, they should be willing to tell them to a woman, who stands ever ready to advise and help them. Again we state that Mrs. Pinkham's advice is freely and confidentially given to every one who asks for it. Address, Lynn, Mass.

The following letters prove beyond question that Lydia E. Pinkham's Vegetable Compound has the power to cure, and does cure thousands of cases of inflammation of the ovaries, womb, and all other derangements of the female organism.

### MRS. OTTOSON SAVED FROM A SURGICAL OPERATION.

"DEAR MRS. PINKHAM:—I cannot thank you enough for what your Vegetable Compound has done for me. If it had not been for your medicine, I think I would have died."

"I will tell you how I suffered. I could hardly walk, was unable to sleep or eat. Menstruation was irregular. At last I had to stay in my bed, and I was so badly that they sent for a doctor, who said I had inflammation of the ovaries, and must go through an operation, as no medicine could help me, but I could not do that."

"I received a little book of yours, and after reading it I concluded to try Lydia E. Pinkham's Vegetable Compound, and I am now a well woman. I shall praise your medicine as long as I live, and also recommend the same to any one suffering as I was."—MRS. MINNIE OTTOSON, Otho, Iowa. (June 9, 1901.)

Follow the record of this medicine, and remember that these thousands of cures of women whose letters are constantly printed in this paper were not brought about by "something else," but by Lydia E. Pinkham's Vegetable Compound, the great Woman's Remedy for Women's Ills.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Moral—Stuck to the medicine that you know is Best. Write to Mrs. Pinkham for advice.

INFLAMMATION OF THE OVARIES CURED WITHOUT THE KNIFE. "DEAR MRS. PINKHAM:—I wish to express my gratitude for the restored health and happiness Lydia E. Pinkham's Vegetable Compound has brought into my life. I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it inflammation of the ovaries, and proposed an operation."

"I felt so weak and sick that I felt sure I could not survive the ordeal, and so I told him that I would not undergo it. The following week I read an advertisement in the paper of your Vegetable Compound in such an emergency, and so I decided to try it. (Great was my joy to find that I actually improved after taking two bottles, so I kept taking it for ten weeks, and at the end of that time I was cured." I had gained eighteen pounds and was in excellent health, and am now.

"You surely deserve great success, and you have my very best wishes."—Miss ALICE BAILEY, 50 North Boulevard, Atlanta, Ga., Treasurer St. Francis Benevolent Association.

\$5000.00 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

### VENEZUELA IS DECAYING.

German Traveler States That Mixed Negroes and Indians are Getting an Upper Hand.

Dr. Passarge, the noted traveler, who has just returned from Venezuela, says, according to a Berlin report: "President Castro is a full-blooded Indian and an energetic man without political wisdom. He rose suddenly from magistrate of a remote village at the foot of the Andes to the presidency, and his rapid rise made him overconfident."

"The present situation is due to two factors: Germany suddenly suspended the pressure of the early part of the war, which diminished the respect in which she was held by President Castro; secondly, the attitude of the officials of the great Venezuelan railroad toward President Castro, Germany's first principle must be not to meddle in the internal affairs of Venezuela. But the railroad officials forgot this."

Dr. Passarge describes the state as drifting to certain decay and as following a steadily downward course since Gen. Blanco's presidency. The color question plays an important role in political tendencies. The mixed negroes and Indians, etc., are getting an upper hand in society and politics.

### Egyptian Papyrus.

The National museum at Washington has just received ten papyrus manuscripts, dating from about the birth of Christ. They are mostly bills of lading for camel trains, receipts for goods, etc.

### Industrious Indians.

Col. R. H. Pratt, head of the government Indian school at Carlisle, Pa., reports that the enrollment of Indian students there this year has reached the high-water mark of 1,073. The students are encouraged to earn money by hiring out during vacation, and they made nearly \$32,000 that way last year.

### KIDNEY DISEASES

are the most fatal of all diseases.

FOLEY'S KIDNEY CURE is a Guaranteed Remedy

or money refunded. Contains remedies recognized by eminent physicians as the best for Kidney and Bladder troubles. PRICE 50c. and \$1.00.

### HIGHWAY BUILDING.

IMPROVING EARTH ROADS WITH CLAY AND SAND.

How to Mix and Apply Them to Secure the Best Results—The Use of Road Machines in Building These Highways.

In an interesting address delivered at the Greenville (Mich.) good roads convention Frank F. Rogers, C. E., had the following to say regarding the improvement of earth roads:

If you must always have an earth road and cannot get gravel or stone at a reasonable cost, put clay on the sand and sand on the clay. When these become suitably mixed, they will form a sort of hardpan, making a very good road surface at most seasons of the year. Of course, the clay is good when hard and dry and the sand quite passable when the weather is so wet that nobody wants to travel, but to secure a medium earth road, good the greatest number of days in the year, that it is possible to make it, this is the best method that we can prescribe.

It should be borne in mind that neither improvement is very good until suitably mixed, and clay should be applied to sand in a manner to secure that mixture as speedily as possible and vice versa.

Decide on the width of a given road between ditches—say twenty to twenty-four feet, not much narrower and not much wider. These are economical widths, and the lack of uniformity in this particular is one of the greatest evils of our lack of system in road building all over this country. Bring the road to a suitable crown from twelve to eighteen inches above the side gutters. This, however, will have to be varied to meet the special needs of drainage for the locality, and should a large ditch be required on a narrow road it should be entirely outside the regular gutter, which will protect the vehicles from the danger of tipping over.

To prepare the bed it may have to be plowed toward the center, but if so, do not disturb the old rounded surface absolutely necessary. After plowing, harrow thoroughly, take a road machine and shape the whole bed to a perfectly rounded shape and roll till no more compacting is possible with a roller weighing four tons or more. A farm roller is of little use for this purpose.

After the bed is properly shaped and rolled as described take a road machine and crowd enough earth to each side of a central strip of such width as it may be desirable to cover with clay or gravel. This being done, clay should be applied on sand to the depth of five or six inches where no gravel is used and to the depth of three or four inches where a dressing of as much gravel can be placed upon the clay. After the clay is applied, it may be leveled with

a road machine if well pulverized, or, if lumpy, it may be leveled by first rolling to crush the lumps, then harrowing till smooth, but in each case it must be rolled till hard after a smooth surface has been secured.

Where no gravel is used the clay must be covered with from one to two inches of sand by reversing the road machine and crowding a little of the surplus sand from the sides to the center. This will prevent the roads from becoming muddy at the first wet spell. If a top dressing of gravel is used, it should be applied to the thin coat of clay in much the same way, then be brought to a true surface by the use of a road machine and rolled till it is thoroughly compacted. If the weather is dry, the gravel should be kept sprinkled during the final rolling.

When sand is used on clay, we usually secure as good results as by putting clay in sand, for it does not always prevent mud when the ground is extremely soft. A clay road should always be well piked with good side ditches, which must quickly take the water to its nearest natural outlet, which in turn must always be so well kept as to take the water at once away from the road allowance. Sand should be applied to clay after the piking is done, without forming any depression for its reception, as has been recommended for gravel. Sand should never be applied at a season of the year when a long dry spell is expected, but rather immediately before wet fall weather and winter sets in, so that by the next season it may become sufficiently mixed with clay to produce the condition already referred to. The same practice should be employed when any considerable depth of loose gravel is applied to a clay soil with the expectation that travel will make it hard.

The application of sand and gravel to clay, as above described, can be done in layers, giving time for the first layer to pack before the second is applied. It is often advisable to wait till the next fall before the second layer is applied, thus giving time to watch results and use just the depth required to secure the best effect, as well as to economize material. After all this is done, we have not secured a permanent road suited to heavy traffic, and we shall be obliged to look to the better grades of gravel and broken stone to produce any roads that may really be called permanent.

The Care of Earth Roads. Earth roads should be repaired, particularly in the spring and fall of the year, but the mistake of letting them take care of themselves during the balance of the year should not be made. The greatest need of the common road in this country is daily or weekly care. A road receiving daily attention will require no extensive repairs and instead of becoming worse will gradually improve. It is minute and frequent homoeopathic treatment that the earth road needs.

## PLUCKY GIRL IMMIGRANTS.

Hundreds Are Preparing to Leave England to Seek New Homes in South Africa.

The domestic servant problem is keen in England. It is critical in South Africa—so much so that the high commissioner recently issued an appeal for respectable and healthy English girls willing to work and make South Africa their home. In response to this appeal 50 plucky young women from various parts of the British Isles have sailed for South Africa, says a London Report.

These girls have been selected for their physical fitness by the South African expansion committee, and it is the present intention to send out 100 girls a month until the needs of the households of the Transvaal, Rhodesia, Cape Colony and Natal are satisfied.

There were many affecting leave-takings at the committee's "hostel" in Upper Westbourne terrace, where most of the girls lived until the time of their departure, but the girls were full of hope for the future. An escort matron will accompany them all the way, and see them installed in the committee's "hostel" at Johannesburg.

In view of the expected increase of women emigrants to South Africa, the horticultural college at Swanley, Kent, which is under the supervision of the Kent county council, has opened a branch for the training of women for colonial life. The course will occupy about a year. The syllabus includes seed sowing, fruit packing, jam making, cooking, dairy work, carpentering, household management, colonial hygiene and native language.

## GOATS FURNISH THE MILK.

The People of Malta Derive Their Entire Supply of Lactical Fluid from the Animals.

The population of the island of Malta, situated in the Mediterranean sea, amounting to some 200,000 souls, derives its entire milk supply from the goat herds that abound in that little speck of rock. It is estimated that there are about 20,000 goats on the island. There are no regular grazing fields for goats, but every morning the herds are driven out along the roads and hillsides, where they pick up whatever they can find in the way of weeds or any other edible matter, which, however, seldom includes grass. This is supplemented by carob beans when the herd is driven back to shelter at night.

How the Maltese goat can give the quantity and quality of milk which it does upon this food is a matter of frequent conjecture and it is out of the question to get anything but thin and watery milk from cows under the same conditions. An average goat produces 4½ pints of milk per day and the animals cost from \$10 to \$25 each. No special effort seems to be made by the natives to preserve strains, but, nevertheless, the Maltese goat manages to keep up its reputation for looks and productive-ness.

## How's This?

## CUTICURA PILLS

For Cooling and Cleansing the Blood and Skin

In Cases of Itching, Burning, Scaly Humours,

And for Renovating and Enriching the Blood.

The Best and Most Economical Yet Compounded.

Cuticura Resolvent Pills (chocolate coated) are the product of twenty-five years' practical laboratory experience in the preparation of remedies for the treatment of humours of the skin, scalp and blood, with loss of hair, and are confidently believed to be superior to all other remedies as well as liquid blood purifiers, however expensive, while enabling all to enjoy the curative properties of precious medicinal agents without consuming needless expenses and often injurious portions of alcohol in which such medicines have heretofore been preserved.

Cuticura Pills are alternative, antiseptic, tonic and digestive, and beyond question the purest, sweetest, most successful and economical blood and skin purifier, humour cures and tonic-digestives yet compounded. Medium adult dose, one pill.

Complete external and internal treatment for every humour may now be had for one dollar, consisting of Cuticura Soap, to cleanse the skin, Cuticura Ointment, to heal the skin, and Cuticura Resolvent Pills, to cool and cleanse the blood. A single set, costing but one dollar, is often sufficient to cure the most torturing, disfiguring skin, scalp and blood humours, eczemas, rashes, itches and irritations, with loss of hair, from infancy to age, when physicians and all other remedies fail.

## BRIEF POINTERS.

Of every 1,000 men accepted for the United States army, 884.97 are native born.

On the south coast of England there is a hotel in which a tropical temperature is constantly maintained by means of steam pipes. The guests are mostly pensioned officials and officers who cannot endure the climate of England.

The London Express comments on the fact that an American publication mentions the hundredth birthday anniversary of several great English authors as being close at hand, but apparently forgets that of an American, Ralph Waldo Emerson, which comes next year. Here are some others that are not far distant: Bulwer-Lytton (1803), Beaconsfield (1804), Hawthorne (1804), Whitaker (1807), Longfellow (1807), Tennyson (1809), Thackeray (1811), Dickens (1812). Those of Balzac, Hugo and Dumas have been celebrated within a short time.

Wishing to obtain some special information regarding the Philippines, Secretary Root gave a breakfast at the Arlington to two men who were thoroughly posted on the matter. Being unusually absent-minded that morning he breakfasted alone, and then went into the lobby, where he found his two friends. He invited them into his office, and there talked with them for a couple of hours, forgetting all about his breakfast invitation until his guests departed. His apologies were profuse, but he has been the subject of much raillery on the subject.

## PEOPLE AND EVENTS.

The late duke of Sutherland is said to have left 92 wills.

Messrs. Chamberlain and Chaffee, the original Tennessee and his partner of Bret Hart's romance, "Tennessee's Partner," are still living at Groveland, Cal.

Col. Henry D. Capers, a brother of Gen. Ellison Capers, now Episcopal bishop of South Carolina, is the oldest living confederate, and this is shown by his commission.

When Dr. Lorenz was in Philadelphia a roofing firm in that city put the following advertisement in street cars: "Dr. Lorenz holds the same place in his profession that our friends say we hold in ours. Clinics daily. Blank & Blank, Roofers."

In connection with the report that Mene, Patti contemplates one more American tour next summer this story is told: Baron Cedarstrom, the diva's youthful husband, called on an American manager in London some months ago and said he thought it would be a good idea for Patti to tour the country in concert, adding that it might be announced as her farewell appearance.

The manager gazed mildly at the young man and seemed making a mental calculation. Then he said: "I was going to say that your wife must have made her first farewell tour of the United States before you were born, but that would have been an exaggeration. But it must have been while you were learning your letters in Sweden. So, you see, the plan's not altogether original."

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia, which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption.

Foley's Honey and Tar will stop the cough, heat and strengthen the lungs and prevent pneumonia. La grippe cures yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." W. C. Pooler, Rockland; Atkins & McDonald, Thomaston.

AS A HOUSEHOLD remedy for cuts, burns, sores of any kind, bruises, nothing equals Widow Gay's Ointment. Once tried always used. Take home a box. It is handy to have in the house.

BANNER SALVE

the most healing salve in the world.

## IN THE REALM OF POETRY.

Hassan's Proverb.

King Hassan, well beloved, was wont to say: "When aught went wrong or any labor failed: 'To-morrow, friends, will be another day!'" And in that faith he slept and so prevailed.

Long live this proverb! While the world shall roll To-morrow fresh shall rise from out the night And new baptize the indomitable soul With courage for its never-ending fight.

No one, I say, is conquered till he yields, And yield he need not will, like mist from glass, God wipes the stain of life's old battles from Every morning that He brings to pass.

New day, new hope, new courage! Let this be, O soul, thy cheerful creed! What's yestere's day, With all its shards and wreck and grief, To thee? Forget it then! Here lies the victor's way.—Christian Endeavor World.

To a Belated Autumn Leaf.

Poor little leaf, so brown and dead, I almost think I see a tear Upon your cheek.

As on the sodden sward you lie, Beneath the cold autumnal sky That seems to have no pitying eye, Your face to seek.

But little leaf, why should you care, While sweeps around the husky air, And little have you died? While all that made your life serene Has vanished from the festive scene, And fields are gray that once were green, Your beauty dead?

Dear little leaf, be still and rest, With memories of the summer blest, Nor weep, nor sigh: Some things that are of wondrous worth, That in the inner life have birth, Grow old and die.

—George W. Crofts, in Christian World.

The Blind Lover.

They tell me that her love is true, Her cheeks display a wild rose hue— What need is there to tell! The traces of her smile remain, The peeping dimples that entrance, I feel their beauty's spell.

When first I heard her singing, How swift the shadows flew! While yet the strain was ringing I felt her heart was true.

I cannot view her locks of gold, Her little ear's enticing mold, Whereon no gem is hung, But when her fingers nest in mine, What they reveal none can divine— No poet ever sung!

To me a sense is granted Unknown to other men, And by its light enchanted I see beyond their ken. —Samuel McIntire Peck, in Boston Transcript.

The One-Talent Man.

While some with talent laden began, He started out with only one. "With this," he said, "I'll do my best, And trust the Lord to do the rest."

His trembling hand and tearful eye Gave forth a world of sympathy. When all alone with one distressed, He whispered words that calmed that breast:

And little children learned to know, When grieved and troubled where to go. He loved the birds, the flowers, the trees, And loving him, his friends loved these.

His homely features lost each trace Of homeliness, and in his face There beamed a kind and tender light, That made surrounding features bright.

When illness came, he smiled at fears, And bade his friends to dry their tears. He said "Good-by," and all confessed, He made of life a grand success.

—Presbyterian Journal.

The Hour-Glass and Life.

The sand that lies within the glass And marks the minutes as they pass By dropping through the narrow space That links each curving crystal vase Diminishes in faint degree. The atom in the bowl above Scarce seem to lessen as they move Toward the depths that lie below.

To catch them in their silent flow, But mark! how fast they sink from sight As the last minutes take their flight!

Like to the hour-glass is our life, In youth with hope and pleasure rife, Thoroughly posted on our years, And slow the passing of the years; But as we near our journey's end, How years with hours seem to blend. —C. E. F., in Chicago Record-Herald.

The Hand That Used to Spank My Pa.

When I go down to grandma's, Pa. There's always lots of cake and pie, I spread my bread with jelly there And stuff up till I nearly die.

The greatest fun you ever saw Is slidin' from their steep-roofed shed, And the hand that used to spank my pa Is the hand that pats me on the head.

I fear around and yell and make All kinds of noise, and they don't mind; They have no time to take to wake, And both of them are awful kind.

The greatest fun I ever saw Is grandpa, with his hair all gray, And the hand that used to spank my pa Sews up my trousers every day. —S. E. Kiser, in Chicago Record-Herald.

The Mantle of Winter.

As the frost beads weep from branches That are bare, And the music of the sleigh bells breaks As the air;

As the snowflakes with their crystals all are gemmed, And the vessels in the harbors all are hemmed;

As the ice-king cracks his whip across the lakes, And the Log upon the hearth his vengeance takes;

And when no green stem of leaf or flower is found, Then has Winter thrown her mantle to the ground. —W. F. Dickens-Lewis, in N. Y. Observer.

The Time of Turning.

December's dome is dark and bleak; December's floor is cold and white; Yet through December's darkness seek The harbinger of life and light.

The waning sun, whose dwindling days Shrink to the eyes of darkened men, Turns in its path, the while he prides And sings that earth is born again.

So if your house of life be dark, Throw open now its windows wide; Look out, look up, and joyous mark The solstice of the Christmas-tide! —Edmund Vance Cooke, in Youth's Companion.

The Bravery of the Little.

We do not call the strong man brave Who does not dread the darkened room, But there is courage in the child Who, filled with fear and fancies wild, Goes stumbling upward through the gloom.

A thousand things are done each day By men whose talents are obscure That should command the world's high praise: We pass them in our thoughtless ways, Forgetting they are weak and poor. —S. E. Kiser, in Chicago Record-Herald.

Would that we could SHOUT FROM EVERY HOUSE-TOP with the strength of a million voices.

Dr. King's New Discovery

Cures Coughs, Colds, Consumption, Whooping Cough, Bronchitis, Asthma, Pleurisy, Pneumonia, Grip, Sore Throat, Money Back if it Fails.

Price 50c and \$1.00. Trial Bottle Free.

## An Emergency Call

When *croup* enters the home there's no time to send for remedies. Keep Johnson's Anodyne Liniment on hand and use it in any emergency till the doctor arrives. It has saved hundreds and thousands of lives. It is the remedy for *internal or external use to cure colds, croup, catarrh, bronchitis, la grippe, laryngitis, muscle soreness and pain and inflammation in any part of the body.*

Johnson's ANODYNE LINIMENT

has been for nearly a century the favorite remedy for mothers and many many physicians. You can safely trust a medicine that has stood such a test of time. Two size bottles, 25c, and 50c. The latter is more economical. Write for book on "Treatment for Diseases and Cures of the Sick Room."

I. S. JOHNSON & CO., 22 Custom House St., Boston, Mass.

You remember the delight with which you read the Arabian Nights. Our next Serial Story will be

## The New Arabian Nights

By Robert Louis Stevenson

Stevenson confessed he dreamed some of his plots. He must have dreamed this, but it was in his waking hours that he wrought into a fascinating story the adventures of Prince Florizel with the Suicide Club and the Rajah's Diamond, which form the theme of the New Arabian Nights.

No Dull Winter Evenings While the Story Lasts

Attractive Ways of Dressing the Hair

With a lock brought roughly down in dashing pliancy, is becoming to the maiden of lofty brow and reasonably regular features.

A high big tuft, extending the length of the top of the head, with puffs to either side, is liked for a large and somewhat short face. Picturesqueness is to be had for the small featured woman by putting the coil high and letting the hair fall in a low pompadour almost to the eyes.

Irregularity of features is often corrected by somewhat high hair-dressing with a dip more or less marked, extending onto the forehead. By making the dip the right length and arranging the hair on either side with proper fullness rare effects can be brought out.

Large features usually require a softening frame of hair about the face. How full and how low depends upon the contours. A large brow is effectively decorated with a curl or with short locks on either side.

When a plain part is not becoming the effect may be soothed by a soft waving or fluffy puffed design. A part with the side hair well thrown out by "roughing it" and the coil put on the top well to the fore suits the rotund visage.

The ear hidden with a soft large pompadour extending like a halo about the face is youthful and pretty for the medium face. For each side of the coil to have some finishing touch of its own is a late fancy for the elaborate coils.

But the modern woman says upon this important subject, and proceeds to arrange her coiffure in the manner best suited to her individual style of beauty, or to help out a plain face.

There are so many varieties of faces, and so many different shapes of heads and styles of beauty that to attempt to describe a mode for each would involve one in an endless task, and one that when completed would be unsatisfactory to the great majority for whom the task was undertaken. It must necessarily remain with the individual to determine what best suits her, and but a few suggestions may be given here together with the illustrations. A talented and authoritative writer on this subject recently said:

"Just putting a mite of willful hair this way or that, just raising or lowering the site of the coil, making it long or short, tight or loose, wreathing the face with fluffiness, or allowing the features to stand out in unrelieved beauty—they need to be beautiful to let them do so—massing the hair upon the brow or drawing it high above or coqueting with it in whimsical fashion in any of the numberless betwixt and between degrees; each has its value in determining the effect of the whole."

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. W. J. Coakley, Thos. H. Donahue, C. H. Pendleton.

THE DEVELOPMENT OF THE PACIFIC COAST

is remarkable, business opportunities never better, climate unsurpassed. The Nickel Plate Road will sell daily Feb. 15th to April 30th, 1903, special one way tickets Buffalo, N. Y. to common Pacific coast points at rate of \$42.00, with berth tickets, also valid in their famous Transcontinental tourist cars leaving Boston every Monday, Wednesday and Friday noon via B. & M. and W. S. railroads; passengers can join these cars en route. A postal card to L. P. Burgess, N. E. P. A., 258 Washington street, Boston, Mass., will bring you rates, etc. to any desired point. Write now.

Woman's Way.

"Yes, they were married secretly and agreed to live apart a year before telling of it."

"Did they keep the secret?"

"No, indeed. She sued him for a divorce in three months, charging him with willful absence."—Cleveland Plain Dealer.

Pure Charity.

"I had no idea that old Graspit was a philanthropist until I saw him circulating a petition yesterday for the purpose of raising money to enable a poor widow to pay her rent."

"Oh, Graspit is all right. He owns the house the poor widow lives in."—Modern Society.

A Handicap.

Tommy—Yeh, his pop's a "medium." He kin tell yer past an' yer future.

Chimble—Gee! I'd hate to be his kid. He could tell right off if you was in the pantry or if you was goin' to be.—Philadelphia Press.

## ENGLAND'S GREAT BACHELORS.

Four Leading Men of the British Kingdom Are Unmarried at Middle Age.

This is the age of bachelors in England. The women are discussing with keen interest the fact that four of their great men are unmarried. Arthur Balfour is a bachelor, and indeed the first bachelor to become premier since the time of William Pitt.

Lord Kitchener, England's most notable soldier, and Lord Milner, her most prominent administrator, are both unmarried.

Completing the notable four is the bishop of London, who is not far from being the most prominent man in the church.

The men on the other side, says the Philadelphia North American, are declaring that France "has long been cursed with petticoat influence in politics, and England has had some experience of the plague of women behind the scenes at the war office." They believe that "the triumph of the four great bachelors points to a quiet and effective revolt of man."

A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Penner, Marlboro, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 145 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." W. C. Pooler.

CHEAP RATES TO PACIFIC COAST.

The Nickel Plate Railroad will sell daily Feb. 15th to April 30th, special one way tickets Buffalo, N. Y. to Pacific coast points at \$42.00, special rates also to other points in far West side of Pacific coast. L. P. Burgess, N. E. P. A., 258 Washington street, Boston, Mass., will be pleased to give rates and full information to any desired point. A postal card will do, write today.

### THOMASTON.

Mrs. W. G. Jones of Hartford, Conn. is visiting at Miss Kate Brown's. The ladies of the Congregational church and society will have a 25 cent supper and entertainment in their vestry Wednesday evening.

Edna Watts is learning to be a nurse in the office of the New England Telephone & Telegraph Co.

Dr. F. O. Bartlett, of Tenants Harbor was in town on business Thursday.

Albert Marsh left Thursday morning for Boston, where he will spend several days.

The parts of the graduating class of 1903 have been assigned as follows: Valdictory, Jessie Stewart; history, Frank Jacobs; first oration, Celia Roney; prophet, George Dunn; salutatory, Edith Russell. The class consists of ten members. They have engaged Brigham's orchestra for the graduation, which takes place in June.

Ward was received Wednesday that the schooner C. S. Glidden had gone ashore in the fog on Cape Look-out shoals. The crew of the schooner were taken off. No further particulars have been received. The Glidden was a four masted schooner of 1,245 tons, built in Thomaston in 1888, by Dunn & Elliot, and commanded by Capt. James T. Fales of Boston.

William G. Washburn went to Boston on business Thursday morning.

After several postponements the ladies of the Baptist church and society held their annual old-fashioned bazaar at the school house Wednesday evening. The hall was attractively decorated with flags, bunting of various colors, and evergreen trees. Quite a display of potted plants was made on the front of the stage. Mrs. A. Washburn, Mrs. H. R. Linnell, Mrs. W. E. Vinal and Mrs. C. H. Cushing were in charge of the work.

In different parts of the hall were five tables tastefully decorated and made attractive by the different goods on sale. Mrs. J. E. Walker presided over a table upon which was a large and rich looking "Queen cake," which proved a great revenue raiser. Five different persons guessed the exact weight, 10 pounds. As a happy way of settling the different claims it was presented to P. Rice of New York, who was present. In charge of a table loaded with aprons and other articles were Mesdames A. O. Keene, C. H. Washburn, H. H. Williams, Ira Vinal, Walter Currie Linnell, Eva B. Hyler. During the evening hand chowder, hulled corn, ice cream and other edibles were sold. The general management was in charge of Mrs. E. B. Bump, who had in aid a large number of experienced helpers. A musical and literary program was given at intervals during the evening. A graphophone aided reading of the program: Shaw and Misses Tinae and Emily Wilson were the committee on entertainment. The program consisted of instrumental solos and duets by Mr. Shaw and Misses Tinae and Emily Wilson. The program consisted of instrumental solos and duets by Mr. Shaw and Misses Tinae and Emily Wilson.

At the Congregational church Sunday evening the pastor will give a short sermon on "Identification."

Rehearsals for the baseball minstrel show are progressing finely. The next will be held Tuesday evening in Good Templars' hall. The minstrel entertainment will take place about the 5th of April.

Miss Lella Miller and Mrs. Eva Marsh leave Saturday morning for a short visit in Portland.

Mrs. H. L. Bryant of Brockton, Mass. is guest at E. O. B. Burgess.

William Benson has been in town for several weeks has returned to Worcester, Mass.

R. W. Walsh went to Lewiston Thursday to attend the session of the Mystic Shrine.

Mrs. Charles Walker left Thursday morning for Lynn, where she will spend several weeks with her daughter. Hattie Boardman is spending a week in Boston.

Harry Putnam, who has spent several weeks with his mother returned to Eastport, Thursday.

Miss Clara Adams, Maud Leonard have returned from a visit with their aunt in East Waldboro.

The Knox Telephone & Telegraph Co. have placed instruments in the Thomaston brick yard and the residence of T. B. Wyllie.

Fred Brown, while chopping wood Wednesday cut his knee so badly that it was found necessary to take several stitches.

The frame for the three-masted schooner to be built by Dunn, Elliot & Co. will probably arrive here about the middle of May.

Frank Harris, who has employment in town, rigging, was obliged to spend several days at his home in Glenmere on account of illness.

Mrs. A. J. Spaulding, Rockland, entertains the McKinley Cooking Club this Friday afternoon and evening.

### SOUTH THOMASTON

Frank Wade and Robert Harrington have gone to Waldboro, where they have employment in the granite quarries of Book Bros. and the Hurricane Isle Granite Co.

### SCHOOLMASTER WHITMORE

Mrs. Grace D. Hunt, who assaulted Forest D. Whitmore, (of North Haven) principal of the Highland Park Grammar School in Providence, last week, was placed under bonds of \$300, and her trial will take place March 23. Readers of last Tuesday's paper are familiar with the circumstances.

**Foley's Honey and Tar** cures colds, prevents pneumonia.

### CAMDEN.

Henry Robbins returned to Portland this week after a visit in town. Miss Clara E. Ordway and Mrs. Fred Hanson have returned from their New York and Boston trip.

Mrs. Fred Gilchrist, Misses Ellen Grover, Margaret Annis and Sadie Drinkwater of this place, were among guests entertained by Miss Louise Kallach in Rockland, Tuesday evening.

Mrs. H. P. Burdette has returned from an extended visit in Washington, D. C.

C. Augustus Ellis has taken the agency of the Metropolitan Life Insurance Co.

Frank Simonton died Tuesday night at his home on Oak street, of a long illness. He leaves to mourn his loss, a wife, Bertha, three brothers, Charles and Everett of Camden and Edwin of Bath, also two sisters, Mrs. W. R. Gill and Mrs. Columbia Bissell, of this place. Mr. Simonton was 55 years old. He was a man of sterling principles and a good and respected citizen of the town. The funeral services were conducted at his home Thursday afternoon at 2 o'clock by Rev. L. D. Evans.

A very pleasant entertainment was held in the High school rooms Tuesday evening for the benefit of the musical instruction of the High school. About \$5 was realized. The program which was very interesting and well rendered, included a fine address by Principal F. C. Mitchell. The program: Selection by High school orchestra; reading, Julia Annie; vocal solo, Miss Florence Towle; reading, Emma Harrington; vocal solo, Clarence Flah; vocal solo, Ethel French; address, Principal Mitchell; reading, Lole Jacobs; violin solo, George Spencer; reading, Mildred Perry; singing, girls' quartet, C. H. S. orchestra.

Miss Anne Kittredge read for the Rockland Rebekahs Tuesday evening, when they entertained the Warren lodge.

William Grinnell left for Boston Wednesday on a business trip.

Steamer City of Rockland came in Tuesday night for the first time since being caught in the ice up river, Sunday.

Mrs. A. H. Bickmore returned to New York, Monday, after visiting her parents, Capt. and Mrs. T. D. French. Capt. French accompanied her to New York, where he will soon sail for Georgetown, S. C. in the schooner Sarah D. J. Rawson.

Steamer Percy V. for the Islesboro route, is awaiting the government inspectors in charge of the Maine, Water, Railway & Yacht Building Co. It is expected the steamer will go on the route sometime next week.

Lovers of chafing dish dinners will be glad to know that a chafing dish supper will be served in the Congregational vestry Tuesday, March 21. "A Business Meeting of the Rosedale Sewing Society" will be held at 4 in the afternoon and 8 in the evening. There will be booths where fancy articles and candy will be on sale.

The Wednesday evening Whist Club met by a card evening with Mrs. W. S. Hobbs, Free street. Mrs. J. P. Norwood won first prize and Mrs. E. N. Duffy won consolation prize.

The Epworth League held their fair and card evening this afternoon and evening at the Methodist church. Aprons, stocks, ice cream and candy were on sale in the vestry during the afternoon. The sale will be continued during the evening. The entertainment will be given in the church this evening at 7.45. Atwood G. Cilley of the 1st Battalion Band and Tunnis orchestra, the Guitars of Paradise, Grace Mitchell, C. H. S. orchestra; solo, H. Small, Jr.; cornet solo, The New Born King, Mr. Cilley; reading, Julia Annis; violin solo, Gertrude Marshall; solo, "Beyond the Gates of Paradise," Grace Mitchell; reading, Emma Harrington; solo, "Sweetly Rest," Mrs. L. S. Robinson; cornet solo, "Holy City," Mr. Cilley; solo, George Sackville, C. H. S. orchestra.

Mr. and Mrs. Gilbert Patten leave Monday for New York and Baltimore. Mrs. Patten will also visit in Pennsylvania before returning home.

Mrs. C. Wilkes Babb left Thursday to visit her sister, Mrs. Minnie Parker Talbot, Milton, Mass.

Miss Edna Upson entertained a few friends Monday evening.

Fred Osborne has been in town this week.

The Temple Club held another of their enjoyable ladies' nights at Macomber's Tuesday evening. In good number enjoyed the dance.

Mrs. John Paul returned from a short visit in Rockland, Thursday. Andrew Sides left last night for Boston.

Fred Buzzell returned from Boston, Thursday.

### CUSHING

Mrs. Enos Pressey of Rockport is spending the week with her son, Rev. G. L. Pressey.

Mrs. William Payson has chickens over a month old.

E. D. Hathorn has taken the contract to build a cottage at Crescent Beach, South Thomaston, for A. A. Fales of Charlestown, Mass. and will commence work upon it soon as the weather permits.

Andrew M. Kellerman has sold his horse to Eldred Off, and bought Wm. S. Farnham's horse.

Miss Templea Pease celebrated her twelfth birthday Thursday, March 12 with a birthday party. Misses Lottie Robinson, Marjorie Marshall, Sarah Young, Eula Young, Lillian Orr and Misses Goveva received several pretty gifts, among them being a gold watch from her parents.

The entertainment which was held at the school house Tuesday evening to raise funds to purchase new carpets for the church was a great success. Considering the traveling the sum of money raised exceeded the expectations of all. Each number on the program was very good, the different parts being very creditably filled. The first article was "The Great Melon Case" with the characters as follows:

Judge Adelphe, O. H. Woodcock; Lawyer Reynard, for prosecution, G. L. Pressey; Lawyer Boone, for defense, Everett Young; Ebenezer Wiggin, defendant, Donald Rivers; Deacon Job Moses, plaintiff, J. W. Norton; Hans Blauen, witness for prosecution, Wm. S. Page; Huldah Moses, wife of Job, Miss Martha L. Young; Patience Jones, witness for defendant, Mrs. Edith Hathorne.

Recitation—"The pants, Jimmie made. A neighborly call, Mrs. N. W. Fogarty, Carrie Wallace and Clarice Fegerty. Great Granddaddy's gun. Mrs. Edith Hathorne and Ernest Conde. Recitation—"Wanted—A Minister's Wife. M. Rita Marshall.

**CAMDEN LUCKY AGAIN**

A number of postal clerks in Maine will receive larger salaries after July 1 of this year. The adjustment of salaries has been completed in the post-office department and the increases have been decided upon. The postmasters themselves made the recommendations some little time ago and as rule those recommendations have been complied with. Before long the postmasters will be notified of what increases are authorized. Camden gets an additional clerk at \$500 per year, four promotions—two from \$400 to \$500, one from \$300 to \$500, and one from \$200 to \$300.

And still Camden does not want to be a city!

**CAMDEN'S SUBSCRIPTION BALL**

The sale of seats for Camden's concert and ball went into effect Thursday night and the eagerness with which the desirable chairs were sought indicated a very large attendance next Tuesday evening. Music to be furnished by Harry E. Brigham's famous orchestra of Marlboro, Mass., and the concert program will be as follows:

March—"Dixieland" Haines; Overture—"Zampa," Harold; Cornet solo—Selmer.

String Quintet—"Dance of the Bambi," Bartley; Selection—"Prince of Pilsen," Leaders; Trombone solo—"The Sleeping Beauty and the Beast," Chantay.

**WARREN**

Fifty members of Mystic Lodge, Daughters of Rebekah, visited Miriam Lodge of Rockland last Tuesday night and worked the degree. They all speak in the highest terms of the manner in which they were entertained by their sister lodge. A fine collation and an excellent time is reported.

Miss Clara Hosmer has been confined to the house with an attack of erysipelas.

Quite a number at the village have been and are now ill with grippe.

Georges River Lodge, Knights of Pythias, conferred the degree of Odd Fellows on eleven candidates on Tuesday evening last. This order is alive and in a flourishing condition. A new hall is talked of soon.

The funeral of Frank Gordon, who died on Monday last, occurred on Wednesday afternoon at 2 o'clock, from his home, Rev. A. C. Hussey of the Baptist church officiated and spoke words of consolation to the relatives and friends. Mr. Gordon leaves a wife and one son to mourn his loss. The floral tributes were profuse and beautiful. The interment was at the Newcomb cemetery.

St. George Lodge, F. & A. M. conferred the degree on two candidates on Monday evening last.

R. C. Clark, who has been very ill with neuralgia, is now convalescing. Joseph Newbert is quite ill with the grippe. George Walker has been confined to the house with the same disorder.

Mrs. Emily Berry, who was called here by the illness of Mr. Gordon, returned to her home in Seabrook on Thursday.

The friends of Mrs. Mary Eastman will be sorry to hear of her illness at the residence of her daughter in Wollaston, Mass., Sidney Copeland.

**FRIENDSHIP**

Owen Wincup and wife attended the Advent conference at Port Clyde last week.

Owen Simmons, who left home last week has employment on steamer Gov. Dingley.

Harry Bickmore of North Nobleboro is visiting Capt. Albion Murphy.

Ladies' Aid Society will meet with Mrs. Henry Cook next Wednesday evening.

The W. C. T. U. will meet this week with Mrs. Jessie Thompson.

J. S. Walter of Waldboro spent Saturday and Sunday in town.

Mrs. Josie Stanley of Southwest Harbor, is visiting at Capt. Eugene Stanley's.

The many friends of Edwin Cook are sorry to learn of his continued ill health.

Mertland Gray, who has been spending several months with relatives here, will leave soon for North Dakota, where he hopes to regain his health.

Town meeting was held here Monday, March 16 and elected the following officers: Moderator, Samuel Davis; clerk, R. B. Morton; selectmen, R. L. Thompson, Riley Bradford, W. J. Whitney; assessors, Riley Bradford, George Potte, W. Thompson; constables, Austin Simmons, Ralph Davis; school committee, Herbert Parsons, Rufus Condon, W. J. Whitney; supervisor of schools, C. J. Whitson.

**Notice to Jurors and Court Officers.**

All Jurors and attaches of the court are hereby notified that the next term of Supreme Judicial Court for Knox County will be held on the first Tuesday of April, 1903, and you will, therefore, give your attendance at court at that time at 10 o'clock in the forenoon.

GILFORD B. BUTLER, Clerk.

S. J. COIT for Knox County. 19-27

### ROCKPORT.

An "Old Folks Concert" and "New England Supper" will undoubtedly be the event, in the way of entertainment in Rockport this season. It has been a long time since a concert of this description has been heard here, and it is safe to predict that it will draw a big house. Rehearsals of "Ye greater choir" are held two nights a week, under the instruction of N. W. Littlefield of Bangor, and a program is being made.

The entertainment is in the charge of the following committee: Mrs. O. P. Shepherd, Mrs. E. A. Morrill, Mrs. H. J. Thibault, Mrs. A. F. Piper, Mrs. G. H. Bennett, Mrs. L. H. Loverly, Mrs. A. C. Moore, Mrs. G. F. Dunbar. The concert is to be given under the auspices of the ladies of the Baptist church, April 7.

Miss Lida Greenlaw has resumed her duties in S. E. & H. L. Shepherd Co's store.

Mrs. Fred Priest and Miss Annabel Grayham, who returned from a short visit in North Haven with Mrs. H. T. Crockett.

Mrs. M. A. Packard, who is spending the winter in Warren, has been home for a few days.

Miss Olive Libby, who has been dangerously ill, is improving.

Mrs. Herbert Clough is in Rockland, the guest of her mother, Mrs. Frank Colman.

The fireman's dance was well patronized and a large house enjoyed the entertainment.

Quite a number of the people from here attended the Chapman concert Tuesday night.

Robert Maguire arrived Wednesday night from New York.

Mrs. George S. Bennett left Monday morning for Boston.

Barge No. 3 arrived with coal for the Rockland-Rockport Lime Co.

### VINALHAVEN.

Mrs. Henry Smith visited Rockland, Vinal Haven, and F. S. Walls were in Rockland, Wednesday.

Dr. E. H. Lyford and F. S. Walls were in Rockland, Wednesday.

Mr. and Mrs. Willard Gross and Little son are guests of Mr. and Mrs. Joseph Gerish, they came here from Lake au Haut so that the little one who has broken his arm might receive medical treatment.

Miss Bertha Dolham and Miss Sada Coyne visited Rockland, Wednesday.

Messrs. Leach and Turner representing W. O. Hewett & Co., are exhibiting spring styles in suits at the Company store.

Mr. and Mrs. Edgar Roberts of Bar Harbor are visiting relatives here.

C. S. Libby has recently purchased a new Foster piano.

Willis Thurlow Chillis celebrated his fourth birthday by entertaining his young friends Tuesday afternoon from 2 until 4, at the home of his parents, Mr. and Mrs. Charles Chillis. Refreshments, cakes, nuts and ice cream were served. The young host received a number of pretty presents. Those present were Maud Coombs, Evelyn Lavry, Clarence Smith, Mauda Smith, Everett Libby, James Sanderson, Homer Gray, Neal Smith, Hazel Rogers, Walter Field, Gilman Holbrook, Clyde Gerish, Ralph Robinson, Ivan Cunningham, Dana Smith. Some of the mothers also were present.

Four candidates were admitted to membership in Marguerite Chapter at the regular meeting last Monday evening. At the close a very pleasing entertainment was given in the banquet hall by the gentlemen who comprised the committee, B. L. Lane, Freeman Roberts, S. Libby, E. A. Grindle, C. Lane, W. H. Merritt, Solos by Patterson, Grindle and Lane preceded the slight of hand and mesmeric performance by Prof. Merritt and his assistants. Home-made candies were served.

At the annual meeting of the Union church circle, Mrs. G. W. Phillips was elected president.

The funeral of Marsh of Bucksport is at J. H. Sanborn's.

Misses Mae Pendleton, Dora Vinal, Alice G. Lane, Linda Jones, Laura Sanborn, Gertrude McIntosh attended the Chuman concert in Rockland, Tuesday evening. Miss Albra Vinal, who is a member of the Wight Philharmonic society sang in the chorus.

Mrs. Charles Chillis returned Monday from a visit with her friend, Miss Annie Thurlow, Stonington.

Mr. and Mrs. T. M. Coombs visited Rockland, Tuesday.

J. I. Gilman and T. E. Libby were in the city Tuesday.

### SOUTH DEER ISLE

Guy Cleveland got his leg badly jammed on the foot of Melonak pond, was carried away. This bridge is some half mile from the postoffice here and about the same distance from the Washington line and is on the mail route from Waldboro to Liberty. Two teams are necessary to transport the mail, one on each side of the river and the mail and passengers are carried across in a boat. Tommy Orr is ferryman.

News was received Monday that Thomas D. Hall of this place is very sick at a Mr. Boggs' and his recovery is doubtful.

Miss Lura Mank spent a few days last week with Mrs. Edythe E. Walter.

Miss Jennie Belle Price of Carmel delivered a temperance address at the M. E. church here Sunday evening to a very fair and appreciative audience considering the horrid traveling. Miss Price is a very interesting and pleasing speaker and her address was timely, ripe, logical, cogent and forceful.

**Dr. Agnew's Catarrhal Powder.**—Rev. W. H. Main, pastor of the Baptist Church, Buffalo, gives strong testimony for and is a firm believer in Dr. Agnew's Catarrhal Powder. He has tried many kinds of remedies without avail. "After using Dr. Agnew's Catarrhal Powder I was benefited at once," are his words. It is a wonderful remedy. 50 cents. Sold by W. J. Coakley, C. H. Moor & Co.

**Tragedy Averted.**—"Just in the nick of time our little boy was saved" writes Mrs. W. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound, and well." Every body ought to know, it's the only sure cure for Coughs, Colds and all Lung Diseases. Quaintly by Wm. H. Kitchredge, Druggist. Price 50c and \$1.00. Trial bottles free.

**After La Grippe—What?** Usually a hacking cough and a general feeling of weakness, often leading to fatal results after the patient is supposed to have passed the danger point. Foley's Honey and Tar is guaranteed to cure the "grippe cough" and make you strong and well. It never fails to stop a cough if taken in time. Take no substitutes.

**NORTH DEER ISLE.**—Merced Ellis has a full-blooded Newfoundland pup only six months old, which weighs 85 pounds.

**Waltham and EGIN WATCHES** in 20 Year Filled Cases. \$10.00 Warranted, —AT— OREL E. DAVIES

301 MAIN STREET, Opposite Park St. Rockland.

The Courier-Gazette goes into a larger number of families in Knox county than any other paper published.

**BRONCHITIS**

We Know is Hard to Control.

Our Vinol is Making a Wonderful Record in Curing This Dangerous Disease.

CALL AND LET US TELL YOU ABOUT IT.

Here is a letter that has just come to our attention. It will interest people suffering from bronchial troubles. It is from Mr. Geo. W. Brown, of So. Hanover, N. H., and reads as follows:

"I have suffered with bronchial troubles for over a year; tried two doctors and have taken three or four kinds of medicine, none of which did me any good. At times I was so hoarse I could not speak. Then I heard of Vinol. After taking three bottles of it my voice has perfectly returned to me. I can see that in a short time I will be all right. When I began to take it I was very weak, but it has built me up and given me a good appetite."

This is what Vinol always does. This is the way Vinol accomplishes its mission of doing good.

Vinol, as we wish every one to know, is a scientific process, the necessary curative effects of which it is the fact that it contains the most wonderful medicinal elements known to science for the cure of all wasting diseases, as well as all other ailments.

These medicinal properties exist and have heretofore been found only in cod-liver oil. Vinol contains these elements. For by a scientific process the necessary curative properties of the cod-liver oil have been separated from the fat and grease which formerly made cod-liver oil preparations so objectionable.

As long as Vinol does not contain any of the vile-smelling oil, and is prepared by combining the sought-after properties with a delicate table wine, it is a most delicious and palatable preparation.

We know of what we speak when we recommend Vinol, and because we do know that Vinol does all we claim for it, we unhesitatingly endorse it, and guarantee at any time to refund the money paid for the remedy if you are not satisfied it will do all we claim for it.

**Willard C. Pooler** DRUGGIST, ROCKLAND, ME

**NORTH WALDBORO**

Miss Ruby Walter, daughter of W. R. Walter and wife, who is attending school at Augusta, is at home during vacation.

A large number of the voters of this vicinity attended town meeting at the village Monday.

Miss Jennie B. Price of Carmel visited friends in this place the past week.

Miss Lida Overlock spent Saturday and Sunday with her sister, Mrs. Mary Kennedy, East Jefferson.

The mills have started up again which were obliged to shut down on account of lack water.

Joshua Mank is on the sick list and is attended by Dr. Nash of East Jefferson.

During the spring months the Central Cornet Band will meet but once a week, Saturday evenings.

The farmers are engaged in preparing their firewood for the ensuing year.

G. Cleve Walter, Caleb Conno and Edwin Shuman have lately been employed at the stone quarry at the village.

Rev. H. W. Collins of Eastport, preached at the M. E. church here Sunday forenoon.

During the heavy rain last week the bridge at the foot of Melonak pond was carried away. This bridge is some half mile from the postoffice here and about the same distance from the Washington line and is on the mail route from Waldboro to Liberty. Two teams are necessary to

## In Social Circles

Mrs. Floretta Packard is seriously ill with pneumonia at the home of her sister, Mrs. L. N. Thorndike, Thomaston Road. Her son, Leonard Packard, arrived Wednesday evening, having been summoned from Harvard College, where he is a student.

The M. P. P. Club gave a supper at the home of Misses Ruby and Jennie Thorndike Thursday evening in honor of Miss Nettie Knight, who has been teaching school in Bartlett, N. H., and who has just been elected a teacher in Rockland's fourth grade. Lobster stew and lobster salad, with numerous other delicacies were included in the bill of fare, and pretty menu cards were laid out on each plate. In the evening the club had work in the 8th degree.

Frank P. Libby went to Boston, Wednesday, accompanying his son Everett, who will receive hospital treatment.

Clarence E. Daniels is in charge of his store again after a siege of grippe. The Methebeses Club meets this Friday afternoon with Mrs. H. A. Buffam, P. W. Collins returned Wednesday from a six weeks' trip to the West Indies.

The Congregational circle Wednesday evening had an unusually large attendance and was a most pleasant event from all standpoints. The housekeepers were Rev. and Mrs. C. A. Moore, Mr. and Mrs. S. M. Yearis, Mr. and Mrs. H. A. Buffam. The after-supper entertainment included piano solos by Miss Faith Greenhalgh and vocal solos by Mrs. Eleanor Cole Howard, Miss Alice Webb. The report that Mr. Archambault was to be present and sing in the evening raised expectancy to a high point, but developed that the distinguished baritone had another engagement. An important feature of the evening was the contribution of \$50 to the organ fund by Mrs. A. S. Rice. The amount to be raised on this fund is now quite small.

Ralph Wyllie of Fitchburg, Mass., visited his former home in this city early this week.

Mr. and Mrs. Ernest C. Davis returned Tuesday night from a fortnight's trip to New York.

Miss Frances Bachelder is spending the week in Boston.

Mrs. John De Winter was called to New York Tuesday by news of an accident to her son, John.

The annual meeting of the Waverock Club was held at the home of Mrs. May Snow Monday evening. The following officers were elected: Mrs. Everett Sawyer, president; Mrs. Hattie Hayden, vice president; Mrs. Bertha Meserve, secretary and treasurer; Mrs. Hattie Keating, chairman of executive committee; Lella Benner, chairman of social committee. They decided to study France next year, and they voted to give \$5 toward the piano fund for the High school. A paper on Gladstone was read by Mrs. Almada Kallioch.

Miss Arlette Smalley is having a short vacation from the clerk of courts' office and is visiting relatives in Portland and Portland.

The birthday anniversary of Miss Louise Kallioch was observed in a very pleasing manner at the home of that young lady on Willow street, Tuesday evening. Whist and other games formed the evening's diversion, and refreshments of punch, cake and ices were served. Among the numerous birthday gifts was a picture from the M. P. P. Club, to which she belongs. Among the out of town guests were Mrs. Carrie Gilchrist and Misses Ellen Greville, Margaret Annis, Sadie Drinkwater, Nellie Payson, Lottie Calkwood, Minnie Wallace.

Mr. and Mrs. R. W. Messer entertained a few friends at their home Tuesday afternoon and evening, March 19.

## New Arrival

We call special attention to our Dress Goods Dept., which is overflowing with all the new and popular fabrics known in the market this season. We would request a call from you or any dress maker to see samples to any dress made to order.

## Dress Stuffs

These new goods include the new Nun's Veilings, Granite Cloth, Albatross, Wool Crashes, Venetians, Etc., and in wash goods are Muslins, Lawns, Meres, best Cheviots, Dimities, Silk Novelties, Figures, Scotch Ginghams, Etc.

Mention THE C. G. when ordering.

**SIMONTON'S** 410 & 412 Main Street, 14 Lincolnton, Rockland, Me.

17, the occasion being Mr. Messer's 74th birthday. A turkey supper was served. This being St. Patrick's Day, green furnished the color scheme for the table decorations. A large bouquet of jonquils with their large green leaves set off the brightly laid table with a touch of green, and added much to its beauty. After a pleasant evening the guests departed wishing Mr. Messer many more such happy birthdays.

Mrs. M. S. Kimball has gone to Boston and New York, where she will visit until about the middle of May. Miss Lillian Gray and Miss Lida Hocking of St. George have been visiting this week. Miss Louise Kallioch, Wednesday evening they were members of a theatre party which attended the performance of "Man's Enemy," in the opera house.

Miss Frances Welch of Belfast is the guest of her sister, Mrs. R. W. Messer. Eliza Tower of Lincolnville was in town the first of the week, visiting relatives. He left Tuesday for Boston. Miss Alena Young, who has been at home the past month on account of the serious illness of her mother, Mrs. Henry Young, returned Saturday to Radcliffe, where she will resume her studies.

Mrs. L. R. Campbell is visiting in Cambridge, Mass.

Mr. and Mrs. P. W. Fuller entertained a small company at ping-pong Thursday evening.

Miss Georgia Henderson and Miss Lena Fogg left this Friday morning on an excursion to Washington, D. C.

Miss Alice Henderson accompanied them to Falmouth, Mass., where they will spend the week. Mrs. H. W. Healey and sons Milton and Oscar of Belfast are visiting Mrs. E. W. Thurlow.

Mrs. R. C. Hall, Mrs. Joshua Bartlett, Mrs. Frank Post and Mrs. J. P. Cilley were the housekeepers of the First Baptist circle Wednesday evening. The evening program included reading by Gordon Van Kirk, cornet solos by Eaton Simmons and a vocal duet by Miss Sarah M. Hall and Miss Grace Emery. There will probably be but more circle at the First Baptist church this season.

**FREEMAN-PHILBROOK.** William O. Freeman of Cranberry Isle and Miss Ollie M. Philbrook of this city, were united in marriage by Rev. C. A. Moore at the home of the bride in this city last Thursday evening. The beautiful and impressive ring ceremony was used, but otherwise the service was from an old-fashioned wedding. After the ceremony the newly married couple left the city on a short wedding tour, visiting relatives in Bangor and Corinth. Mr. Freeman is a young man of excellent character and reputation, and is highly respected in the town of his residence. Mrs. Freeman was born in this city, educated in the city schools, and has always resided here. Their many friends extend sincere congratulations to them, and wish them much prosperity.

## THE PHILHARMONIC CONCERT

Mr. Chapman's New York Artists Gave Rockland a Delightful Evening.

William R. Chapman, director of the Maine festivals, came to Falmouth opera house Tuesday evening and with his trio of wonderful New York artists assisted Wight Philharmonic Society in giving our music-loving population a delightful concert. The unavoidable absence of Miss D'Oresell, the soprano, who had been called home by the critical illness of her father, wrought havoc with the program which became subject to so much revision that the uninitiated in the audience followed it with a great deal of difficulty.

Three artists called upon to do the duty for four responded most nobly, however, and there was nothing left to regret which quantity or quality would satisfy. Mr. Archambault was a favorite because of the delightful memories which his visit of a year ago occasioned, and the gusto with which he bowed himself onto the stage showed that he had lost none of his energy or enthusiasm. "Don Juan's Serenade," rendered with the young baritone's wonderful power and control was but the beginning of what awakened new admiration of his splendid gift. Miss Corinne Welsh, the contralto, sang with conscious power, and certainly deserved the applause which followed her from the stage and coaxed her on again.

Mr. Raben had a wonderful violin and a wonderful knowledge of the properties of the instrument, and his fine music, in every drawing of the bow and his style while perhaps not as graceful as some violinists we have seen, was lost to sight in view of the splendid harmony he produced. His six appearances on the stage during the evening did not outwear his welcome.

Wight Philharmonic Society presented a fine appearance on the raised platform and the chorus numbers well merited the praise which Mr. Chapman saw fit to bestow. After the first part of the program Mr. Chapman, the director, yielded the baton to Mr. Chapman, and the chorus responded faithfully to his impetuous and inspiring leadership. "The Heavens Are Telling" introduced an appreciative trio by Miss Hall, Mr. Purinton and Dr. Tibbets, while the waltz song "The Magic of Spring" gave a well-grasped soloist's opportunity to Mrs. Copping. The chorus showed evidence of its conscientious work under its beloved and veteran director, James Wight. Mrs. Wight performed at the piano in an able manner.

In the course of his remarks Mr. Chapman paid an earnest tribute to the Philharmonic Society, to its leader, Mr. Wight, and to "Aunt Emma, God bless her."

Mr. Chapman found time in the course of his strenuous travels throughout the state to devote his matter of music extension in the public schools and he wasn't satisfied until he had a bill before the state legislature providing for such instruction.

"The state of Maine," he said, "has 60,000 children, most of whom do not know a note of music from a C (h) and of wood. Think of it! a state which has produced such famous artists as Mme. Lillian Nordica, and Mme. Eames."

Mr. Chapman described amusingly his struggles with the Legislative committee and of his success in having the bill reported on a unanimous vote. "The Legislators will tell you that you are a good fellow," said he, but that isn't enough. You've got to camp on their trail until they agree to vote for your bill." And the musical man from Bethel and New York heaved a sigh of relief as he thought of the persuasiveness he had used and its ultimate success.

The bill is far from being a law as yet, but Mr. Chapman has done more toward it the first year than some of our powerful lobbies could have accomplished.

Mr. Chapman described amusingly his struggles with the Legislative committee and of his success in having the bill reported on a unanimous vote.

## LADIES:

## INFLUENZA AGAIN

## ANOTHER EPIDEMIC OF THE GRIP IS ANTICIPATED.

Many Cases Reported Already in This Part of the Country - A Common-Sense Remedy for the Disease and Its Effects.

Owing to the climatic conditions this year many physicians fear another epidemic of the grip, that form of influenza which so many have cause to remember. In some cases this disease has run its course with but little severity than a hard cold, in others it has caused acute sickness. In nearly every case it has left a train of after-effects more troublesome than the disease itself. It is characteristic of the grip that ordinary medicines will not cure it permanently. The patient seems to have recovered and then suffers a relapse more severe than the first attack. The trouble in such cases is that the disease was not thoroughly eradicated from the system by the treatment employed.

Miss C. A. Peck, of No. 633 East Fourteenth street, Minneapolis, Minn., had a very severe attack of grip in 1899, and it left her prostrated. "I could not get over that feeling of utter exhaustion," she says, "I had no ambition to do anything and any little exertion made me out of breath and tired out. I grew thin, nervous and irritable. Then I decided to try Dr. Williams' Pink Pills for Pale People and the first box made me feel better. Four boxes restored me to my natural health."

The after-effects of the grip are often worse than the disease and many times they battle all efforts of the best physicians to drive them out of the system. Health is shattered—the blood becomes poor, the flesh falls away, the sufferer grows nervous and irritable, and even slight exertion causes shortness of breath. These are dangerous symptoms and indicate that the system is in a state that invites pneumonia, bronchitis or even consumption. Dr. Williams' Pink Pills for Pale People will quickly restore the health after an attack of grip and expel the lingering germ, and prevent the blood from will render the system proof against the disease. Dr. Williams' Pink Pills for Pale People may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company, Schenectady, N. Y., fifty cents a box; six boxes for two dollars and fifty cents.

**H. KOTZSCHMAR RETIRES.** It will not be a great surprise to Maine people to learn that Hermann Kotzschmar has decided to retire from the active musical life which he has led in Portland for more than 50 years. Says the Portland Advertiser: He has earned a rest from the pressing demands of a regular engagement as church organist and though everybody is reluctant to let him go, yet they will cheerfully part with him, since it is his own judgment that the time for his retirement has come. The following letter to the chairman of the music committee of the State street church will be read with utmost interest.

Portland, March 12, 1903.

T. J. Little, Chairman of State Street Church Music Committee: Dear Sir, Owing to my present state of health I deem it advisable to give up my position as organist of State street church, so I herewith tender my resignation, to take effect April first. Very truly yours, Hermann Kotzschmar.

It was 53 years ago that Hermann Kotzschmar came to Portland, and in all that time he has been foremost in the musical life of the town, and it is largely through his work and influence that Portland now enjoys the reputation far and near of an exceptionally musical city.

Mr. Kotzschmar has had many pupils from Rockland.

Had to Get up Several Times Every Night.

Mr. F. Arnold of Arnold, Ind., writes: "I was troubled with kidney disease about three years. I was nervous and all run down, and had to get up several times during the night, but three bottles of Foley's Kidney Cure effected a complete cure. I feel better now than I ever did and recommend it to my friends." W. C. Pooler, Rockland; Atkins & McDonald, Thomaston.

**Little Braves.**—Old time a quarter a box "Purges" is getting the field in whole battalions. Dr. Agnew's Little Pills at 10 cents a box are driving them out at all points. Because they act gently, more effectively, never pain, and are easy to take. Sick Headache succumbs to one dose. Sold by W. J. Coakley, C. H. Moor & Co.

## NEW ENGLAND INDIAN PUDDING.

Blend a half tumbler of fresh cornmeal in milk. Put a quart of milk on the stove and when it boils add the blended meal and stir constantly until it is smoothly scalded. Add half a cup of molasses, half a cup of sugar, butter the size of a walnut, half a teaspoon of cinnamon, quarter of a teaspoon of cloves, half a nutmeg grated, a quarter of a pound of finely chopped suet, two eggs thoroughly beaten, raisins and currants to taste. If it seems thick, add milk. Bake in a buttered tin, cooking more than an hour.—Good Housekeeping.

## Spiced Grapes.

Pulp the fruit, putting the skins aside. Boil the pulp and put through a colander to separate from the seeds. Add the skins to the strained pulp, and also sugar, vinegar and spices as follows: To every seven pounds of fruit add four and a half pounds sugar and one pint of good vinegar. Spice highly with ground cloves, allspice and cinnamon. Boil till about the consistency of marmalade.—N. Y. Post.

## Raw or Inflamed Lung.

Yield rapidly to the wonderful curative and healing qualities of Foley's Honey and Tar. It prevents pneumonia and consumption from a hard cold settled on the lungs. "My daughter had a terrible cough which settled on her lungs," says N. Jackson, of Danville, Ill. "We tried a great many remedies without relief, until we gave her Foley's Honey and Tar which cured her." W. C. Pooler, Rockland; Atkins & McDonald, Thomaston.

You should not feel tired all the time—healthy people don't—you won't if you take Hood's Sarsaparilla for a while.

## FASHION'S FANCIES.

Notes of the Modes for Feminine Followers of the Latest in Dress.

Plaid silk petticoats are much in favor, reports the Brooklyn Eagle. Pannet cloth is enjoying an unprecedented amount of fashionable favor.

Wool lace dyed to match is extensively used for trimming wool gowns.

For children the fashionable furs are white fox, ermine and chinchilla. Another of gray zibeline is strapped with panne and fastened with pendants and tassels of black silk braid.

A less expensive type of automobile coat is of russet brown and black leather, box shape and lined with fur.

Any sum may be expended for long coats for wear on automobile trips. One of mink with sable collar and cuffs costs \$3,200.

In white taffeta is a beautiful petticoat with coffee-pointed lace insertion and Van Dyke details of the same lace over chiffon frills.

A new set of furs in baby lamb consists of a long flat stole with big French mink lined with ermine and trimmed with mink tails.

Black pearls and Renaissance scroll work figure in all the beautiful embroideries which are an essential part of the dress of today.

Decorations of Irish gauze and bands of mink fur lend an effective touch to a costume of white panne just completed for a debutante.

One of the prettiest of the new white wash waists is fashioned of heavy canvas cheviot, with embroidery in conventional patterns in pastel shades.

A lovely coat for a little girl is of cloth in a deep shade of cream and yoke and collar applied with velvet and chenille in pastel shades. The buttons are of pearl and gold.

On the kimono order is another graceful and pretty negligee of delicate blue china silk, showing insertions of ecru lace and finished with deep collar of white liberty silk.

A fleece-lined mererized cotton shirt waist in which the color tone is a charming blending of green and blue is trimmed with big green buttons of enamel and silver deposit.

## LESSON FOR TRAVELERS.

Notable Instance of the Inexorable Enforcement of Uncle Sam's Customs Laws.

Smuggling is a crime much more serious in the eyes of the government officials than in those of many persons that cross the Atlantic every summer or so. How serious it is was illustrated in New York, when a United States district court judge ordered a jury to find a verdict for the government against wealthy Mrs. Dulles, charged with bringing a pearl necklace into this port surreptitiously, writes a correspondent of the Pittsburgh Gazette. The result of the judge's order is that Mrs. Dulles lost to necklace, which cost \$5,000 in Paris, and is valued in this country at \$36,000.

The defendant wore the necklace ashore from the steamer under a shirt waist, and did not declare it until she was asked about it by a customs officer. Then she brought it forth and declared that she intended to smuggle it. Her husband, who, obviously, is a rich man, was indignant that there should be any doubt thrown upon his wife's or his own integrity, and fought the case vigorously in court. The judge believed it was a clear case, however, and did not even leave it to the discretion of the jury, but ordered them to decide against the defendant, which means that the United States takes the necklace as punishment of the attempt to evade the payment of duty.

On jewelry the duty is very high—60 per cent ad valorem. The temptation to bring it into the country without paying the import charges to the revenue department is very great, therefore, and unless passengers' consciences are exceedingly tender, the customs authorities believe they have strong reason to be suspicious of nearly everybody. It is probable that Mrs. Dulles' decision will be appealed to another court, but if the case is as clear as the judge to-day considered it was, there is little if any hope of any relief for the day. The loss of a \$36,000 article is something to make would-be smugglers hesitate, and there is a strong hope in the customs house that this case will have a deterrent effect on other Atlantic voyagers who might try to save money at the expense of Uncle Sam.

**New England Indian Pudding.** Blend a half tumbler of fresh cornmeal in milk. Put a quart of milk on the stove and when it boils add the blended meal and stir constantly until it is smoothly scalded. Add half a cup of molasses, half a cup of sugar, butter the size of a walnut, half a teaspoon of cinnamon, quarter of a teaspoon of cloves, half a nutmeg grated, a quarter of a pound of finely chopped suet, two eggs thoroughly beaten, raisins and currants to taste. ## Marine

Sch. Mary Brewer, Mason, arrived Wednesday from Boston, with salt to the Rockland Fish Co.

Sch. Thos. B. Garland, Nickerson, arrived Wednesday with stone from Stonington for New York.

Sch. Melville, Perry, sailed Thursday for Calais, with coal from Norfolk.

Sch. John I. Snow, Johnson, is chartered to load plaster at Red Beach for Richmond, Va.

Sch. Adella T. Carleton, Lane, is chartered to load pine planks at the Bahamas for Baltimore.

Sch. Fannie & Fay, Webster, is chartered to load coal at South Amboy for Rockland, for A. J. Bird & Co.

Sch. Charlie & Willie, Hinckley, is chartered to load stone at Frankfort for Portsmouth, N. H., at \$1 per ton.

Sch. Telegraph, Martin, is chartered to load plaster at Red Beach for Boston.

Schs. Ella G. Ellis and Geo. H. Mills are chartered to load paving at Sullyville for New York at \$1 per ton.

Capt. John O. Hall, formerly of the schooner Mabel Hall will command the schooner Belle O'Neal of Bath and run in the hard pine lumber trade.

Capt. Cyrus B. Averill will command the schooner Mabel Hall and will go to Providence with plaster, thence to Milledgeville, N. C. and load lumber for Port Maria, Jamaica.

## "D. D. D." the astonishingly effective new Skin disease prescription

Eczema, Salt Rheum, Barbers' Itch, Erysipelas—all eruptions, scaly diseases and parasitic affections of the skin positively cleared away in a hurry. A clean, pleasant liquid (non-greasy) externally applied—sponged or soaped over the parts. Instantly stops all irritation. Soon clears out absolutely all affected conditions.

(Here is a case cleared away with two bottles.)

(Case of daughter of Mr. Moss Hartman, permanently cured of a skin disease after two bottles only of this D. D. D. prescription.)

### I vouch for these facts.

They have been proven to me beyond the possibility of doubt.

**WILLARD C. POOLER, Druggist,  
364 Main St., Rockland, Me.**

Some weeks ago the astonishing record of this prescription—proven to me by indisputable evidence—induced me to give it my unqualified recommendation to the public. Since then D. D. D. has cured so many who obtained it that its record with me has been fully equal to its previous history. I have not seen a single instance of disappointment. It seems to do the work every time. In nine cases out of ten, manifestations on the skin are skin diseases—not blood diseases. Many purchasers formerly miserable, thinking they had blood diseases, have found it was merely a skin affection and have cleared it all away with this prescription.

Among all the known reliable specific medical remedies for different ailments I know of very few discoveries so certain in effect as this D. D. D. prescription in its quick conquest of skin diseases of all kinds.

### A FEW CURES OF WELL-KNOWN PARTIES.

Chicago, April 1, 1902. "About six months ago my daughter began getting sores all over her body and was gradually getting worse. Nothing seemed to do her any good, although we tried different medicines but without success. She would scratch continually and was a sight to look at. I was asked to try a bottle of your D. D. D. remedy, which I did, and to my surprise the sores cleared up on her second day, and before the second bottle was empty she was almost cured. The second bottle completely cured her. I will highly recommend your remedy to any one suffering with skin disease. The fact is I cannot say enough for it."

Wishing you every success, I am, yours very truly,  
F. KLINKHAMER, 201 Filmore Street.  
"I am glad to say that the bottle of medicine furnished you in July had been of great benefit to me. I am now free from the annoyance heretofore suffered from Eczema on my ankles. I have also cured a friend of mine who had two or three sores on his face."

W. J. FORTIN, St. Paul, Minn.  
"This wonderful discovery, the D. D. D. remedy, cured me of a bad case of Eczema of long standing, which the physicians could not cure. I cheerfully give the credit to the D. D. D. remedy and to the fact that it is the best of all skin diseases."

C. H. WOODARD.  
Chicago, April 1, 1902. "I have been troubled for years with Eczema of the skin and tried a great variety of remedies and, with no apparent relief, doctors were unable to benefit me in any way. A friend of mine gave me a bottle of your D. D. D. remedy to try. Before the contents of the first bottle were consumed I am glad to say my remedy had proved entirely satisfactory and had cured me."

I take great pleasure in recommending it to all and everyone suffering from any disease of the skin. Sincerely yours,  
JOHN D. BAGGOT.  
(A well-known Chicago business man.)

"The D. D. D. remedy cured me of Eczema of the skin in two weeks. I had failed and treated at the expense of \$100. My body was covered with eruptions from head to foot."

GEO. GIERER, No. 29 1/2 St. St. Paul, Minn.  
"I got some kind of a skin disease in a barber shop and tried a half bottle of your D. D. D. remedy. I must say it cleared my skin. I am glad to say that I am now free from the annoyance heretofore suffered from Eczema on my ankles. I have also cured a friend of mine who had two or three sores on his face."

W. J. FORTIN, St. Paul, Minn.

## This Week

TWENTY-FIVE YEARS AGO

A review, from the columns of The Rockland Gazette, of some of the events which interested Rockland and vicinity for the fortnight ending April 21, 1878.

Salutary—"Alps of Life," Oscar Perry Erskine Essay—"Orchestra of Nature," Mary Etta Young Essay—"When My Ship Comes In," Emily Keene Oration—"Responsibility of the Citizen," Charles Isaac Marston Essay—"The Jewel and the Casket," Nora Howe Oration—"Worth vs. Birth," Walter Greenough Tibbotts Essay—"Silent Influences," Helen Margaret Snow Oration—"Advantages and Disadvantages of Wealth," William Tullam Essay—"The Marble Stands Waiting," Vase Greenhalgh Essay—"The Real and Ideal," Hattie Laura Frost Oration—"The Nineteenth Century," Woodbury Hix Spaulding Essay—"Old Maid," Sell-Daniel an Element of Power," Merritt Austin Johnson Essay—"The Great Question," Herbert Mayhew Lord

The Gazette said the tallest member of the class was a credit alike to the talents of the students, and to the competent and faithful training of Principal Fletcher and his assistants, Misses Hills and Rhodes. The tallest member of the class was 6 feet, 3 inches, and the heaviest member was 175. (Perhaps some of our readers recall who they were.)

Among the officers elected by the new city council were the following: City marshal, F. H. Ulmer; city solicitor, Fred A. Pierce; chief engineer of fire department, M. P. Smith; city treasurer, Leander Weeks; road commissioner, D. M. Mitchell; city physician, S. H. Boynton; assessors, Allen Bowler, C. L. Allen and Phil Thurston; overseers of poor, A. F. Crockett, O. P. Hix and G. L. Farrand; school agent, A. L. Tyler; member of school committee, John Lovejoy; board of health, George Gregory, F. H. Ulmer, S. H. Boynton and Dr. Benjamin Williams; assistant assessors, A. J. Bird, Aaron Howes, Francis Cobb, J. S. Willoughby, John T. Berry, John Mahan and Cornelius Hanrahan. (Some of the members of the city council of 1903 will smile to learn that four ballots were required to elect a harbor master—an office which today goes begging.)

City Marshal Ulmer made the following appointments: Deputy marshal, G. A. Spear; patrolmen, William H. White and Charles H. Clark; specialists, Samuel W. Hewett, Alfred T. Crockett, John H. Cables, Moses T. Dow, Edward E. Ulmer, P. A. Tower, James Robbins and A. J. Thomas.

Schooner Hunter was bought by Gen. Davis Tillson and others, and was to be commanded by Capt. E. R. Nash. The schooner, which was built by T. S. Lindsey had secured pledges to the amount of \$17,000 for the purchase of a steamboat to take the place of the Ullyses. They had in view the steamer City of Newport.

Dr. A. F. Piper moved from Thomaston to this city and rented an office over Hix & Rawson's store.

The North National Bank moved into quarters over the rooms occupied by the Rockland Savings Bank. This bank had occupied rooms in the Crockett building since 1854. It was a national bank with \$50,000 capital until Oct. 1877, when its capital was increased to \$100,000 and it was converted into a national bank.

The annual report of the lime inspector, Capt. A. F. Ames, showed a total output of 545,530 cases, of which the Cobb Lime Co. contributed 318,276. The other companies and persons then burning lime in Rockland were as follows: David Ames & Co., A. F. Crockett & Co., White & Case, F. G. Cook, Pharr & Spear, Harvey Barnes, Ephraim Gay & Son, C. R. Whitney, George L. Snow, George S. Wiggin, Joseph Abbott, Sumner Whitney, Charles Sherer, William & Dean, James Tolman, John M. Sherer, Thomas Walsh, Benj. C. Clark and Allen Bowler.

Henry M. Wise, E. W. Pendleton, Sanford Sturtevant and K. C. Rankin were drawn as jurors to attend U. S. district court in Portland.

The following births were recorded: Rockland, March 27, to Mr. and Mrs. S. M. Bird, a son.

Camden, March 20, to Rev. and Mrs. J. H. Cox, twin daughters.

Camden, March 19, to Mr. and Mrs. Orrin L. Moulton, a daughter.

Camden, March 14, to Mr. and Mrs. J. V. Craggell, a daughter.

The marriages of the two weeks were as follows: Camden, March 23, Leander M. Watts of Thomaston, and Miss Emma N. Pisk of Rockland.

Vinalhaven, March 19, Howard Damon and Miss Anna M. Richards, both of Vinalhaven.

Vinalhaven, March 24, William E. Haskell and Miss Lizzie O. Dyer, both of Vinalhaven.

Camden, March 14, A. S. Rollins and Miss Emma J. Harden, all of Camden.

## THEATRICAL GOSSIP.

Gertrude Coghlan, who will appear at the Farwell opera house Tuesday, March 31, has a natural equipment for the stage that is equalled by few. She has individuality and temperament together with beauty, grace and intelligence. The play, "Alice of Old Vincennes," was dramatized from the stirring romance of Maurice Thompson's, and not only has the dramatic interest of the book been preserved, but new climaxes have been added to the interest. Ernest Gross has painted four scenes of unusual beauty, and the original New York production that will be brought here in its entirety is the most elaborate ever put on the American stage.

The great war drama, the big success of the year and best of the year written, Edw. McWade's massive production, "Winchester," a romance of Virginia in '63, has been booked by the Farwell opera house for its first week in May. There will be a car-load of stage settings, two thoroughbred race horses, calcium lights and properties and the strongest cast ever seen in a melodramatic production headed by Margaret May as Virginia Randolph.

The Campbell Stratton Company is giving excellent satisfaction at the opera house this week and the plays presented are mostly new to Rockland. The specialties are all good, the scenery new and lots of it. Campbell Stratton is a good actor and has surrounded himself with a first class company and every play presented is put on with every attention to detail. The bill this Friday evening will be "The Great Question" and tomorrow afternoon "Bar Harbor" will be given and the closing performance, "Tracy the Bandit" Saturday night. Don't miss the closing performances as the Campbell Stratton company will be seen in this city this season. The prices are 10, 20, 30 evening and 10, 20 matinee.
