

Woolton July 25th 1862

Hon. Isaac Washburn

Governor of Maine

Sir

Augustus W. Ingusoll and Warren Mansur
from this town. now members of the Band in the 1st
Maine Cavalry Regiment are to be discharged
from that service, and they being desirous
of entering the service in one of the new Regiments
now forming in this State in the Capacity of Lieutenants
a position which I think they are worthy of, and will
qualified to discharge the duties of the office. They are
both young men of good habits and with their
experience in Camp life for the last eight months
would render their services of more value to the Government
than those that have seen no service. Young
Ingusoll is possessed of strong physical ability and
every way calculated for a soldier. would you
find it consistent with your feeling to appoint
these young men to a position reserved to you
would confer a favor on their numerous friends
in this vicinity

I am Most Respectfully
Yours Most Obedt Servt
