## LEFT THE RAILS

### Two Injured In Street Railway Accident

The Atlantic Shore electric due in Biddeford at 2 o'clock from the town house in Kennebunkport jumped the rails just before reaching West street in that city, this afternoon and the forward end plunged down a 12-foot embankment, shaking up and bruising a few of the 25 or more passengers with which it was loaded. As far as learned the one to suffer most was Arthur Eldridge, a young man living in Kennebunkport, who suffered a number of bruises and a cut over his eye; his injuries, however, are not believed to be serious.

The only other passenger to receive more than a shaking up, so far as heard, was Mrs. Mary Littlefield of this village, who suffered a sprained ankle. The accident occurred shortly before 2 o'clock and it is thought it was caused by accumulation of ice on the track. It was just beyond the big sand pits at the head of Westbrook and near the home of John Breen where the car took the plunge. Motorman Renado, who was at the forward end of the car, on feeling the wheels leave the rail, reversed the motor, but owing to ice and snow on the track (the latter was drifted badly across the tracks), it availed little and after sliding a few feet the front of the car left the road bed, which at the point is narrow and plunged over the embankment.

### W. R. C. Entertain

Members of Jesse Webster Womans Relief Corps, and friends met in G. A. R. Hall last Thursday, to observe Washington's birthday. The program was very interesting and was as follows:

Miss Marion Stevens. Singing, The School where Lincoln went.

Reading, The Banner Betsey made.

Mrs. Violet Day.

Reading, Hazel Boston.

Singing, I wonder how the old folks are at home.

Reading, Old Grand Army Boys.

Mrs. Fannie Jackson.

Singing, America.

Remarks, by Rev. Mr. Dickey.

The hall was prettily decorated with flags, streamers of red, white and blue and chachets. Each member was presented with a bunch of cherries by the Patriotic Instructor, Mrs. Nellie Wormwood, who had charge of the entertainment. The supper was in charge of Mrs. Fannie Jackson, and at each plate was a small hatchet. A social hour followed the supper.

### Agreement Reached

The negotiations which have been pending between the officials of the Atlantic Shore railway and the Boston & Maine management looking to the entrance of the electric cars into the city of Portsmouth via the Portsmouth and Kittery bridge over the Piscataqua river, have been brought to successful conclusion and an agreement reached whereby the bridge will be placed at the disposal of the electric.

This co-operation plan between the Boston & Maine, which controls the Portsmouth street railway, will work a great benefit to the travel along the Maine seashore from Kittery to Portland, and with the poor connection of these lines between Maine and New Hampshire which has been a serious drawback since the local line was established. Just what the plans are the railroad officials are not ready to say for the fact that there is much to be done before the cars of the Atlantic Shore line will be seen on Market square, Portsmouth.

### Official

The following letter will settle the question that has been before the town officials, as to whether they could hold both elections at the same time or not.

State of Maine  
Office of the Attorney General  
William R. Pattangali  
Waterville, Me., Feb. 20, 1912.  
Hon. Edgar F. Hanson,  
Belfast, Me.

Dear Sir:  
Replying to your inquiry, there is not the slightest objection to holding a senatorial election on the same day as a town meeting. The municipal officers can arrange the details to best convene the voters, but there is no possible reason why both matters cannot be easily and legally taken care of in one day, thus saving the towns some unnecessary expense.

Yours truly,  
(Signed) W. R. Pattangali.

As towns do not use booths or closed ballot boxes in election of town officers, it will be necessary that each town have closed booths with doors and closed ballot boxes, as required by law, and the two meetings can be conducted at the same time throughout the day. It will be necessary for the proper town officials, to have their check books and conduct the senatorial election, as required by law, while at the same time, the business of the town meeting can be conducted without interfering in the least with those voting at the booths.

This is a very important decision, as it will save the towns the additional expense of holding two meetings. It was contemplated by the Governor at the time the senatorial election was called, that the two meetings should be held together and thus lighten the burden that would otherwise be incurred.—Waldo County Herald.

### Would Preserve Records

A New Yorker advances an earnest plea for the preservation of Maine town records. As an example of the deplorable carelessness with which these important documents are treated he cites the case of Wells. "In the town of Wells, one of the oldest and most important of the county of York, the records were lying in loose leaves, all around, and the edges of the leaves were terribly worn, and no one unless an expert at deciphering writing could make them out. I had only a few moments in which to examine them as the clerk was to close the office, but those few moments were enough in which to ascertain the deplorable condition of the records. Is it not possible to interest the Maine Historical society in their preservation? They are too valuable an addition to be allowed to go to destruction and decay."—Franklin Journal.

## PASTOR RUSSELL'S ADIEU TO INDIA.

### Found Large Hospitals For Deceitful Animals.

Other Observations on India, but No Reference to Missions—Foreign Investigation Committee Will Report Findings in Hippodrome Upon Its Return to New York.

Bombay, Feb. 25.—The Committee of the International Bible Students Association for the Investigation of Foreign Missions have spent three weeks in India and traveled over three thousand miles. The seven members divided the work amongst them at the various stopping points and will co-labor in the report. The committee will report its findings at a meeting to be held in the New York Hippodrome on March 31. A summary of today's discourse of Pastor Russell in the Y. M. C. A. Auditorium is as follows:—

I had a great interest in your land and its people before coming to your shores, but my interest has been greatly increased by what I have witnessed during the past three weeks in India—not only in your largest cities, but also in your towns, villages and agricultural districts. As there are no other extremes in the world so great as between the caps of your Himalaya mountains and the wash of your coral strands, 29,000 feet below them, so likewise there can be found no greater contrast socially and financially than between your wealthy princes and your poverty-stricken lower castes. Although such contrasts are deplorable we have no remedy to suggest, except the Divine one—the establishment of Messiah's Kingdom.

Generous instincts of India's Wealthy. Although I have remarked of your hundreds of millions of hopelessly poor, I have not overlooked the fact that some of your wealthy have shown that they are not without generous instincts. Many of your merchant princes have evidently given largely to the charitable institutions, notably in Bombay, large animal hospitals having been provided for decrepit chickens, donkeys, etc.

However we may consider such benefactions, in view of human need and suffering, we cannot overlook the fact that sympathy is there, only waiting for the proper direction, which Messiah's Kingdom will shortly give.

Our forefathers saw the height of God's love for the holy angels and its condescension to the saintly of men, but they did not see its depths. They did not see that the Redemption accomplished by Jesus is ultimately to reach down to and embrace the very humblest and most degraded of humankind, dead as well as alive. How the precious Scriptures which tell of Jesus as the Savior of the world, as well as of the Church, escaped our notice, who can explain?

But surely glad are we that now we can see clearly that the Redeemer is a Propitiation for our sins, the Church's sins, and not for ours only, but also for the sins of the whole world.

This fuller appreciation of the lengths and breadths and heights and depths of love Divine is coming to Christian people as a benediction from heaven, just at the time when many are High-Critically repudiating the Bible and its God as unworthy of belief. The true view of God's Word we have intimated, namely, that all the families of the earth are to be blessed by Messiah's Kingdom, and that the Church, in process of election, is to be sharer with her Lord in that Kingdom.

"In the Ages to Come."

The heights and depths and lengths and breadths of Divine love toward the elect Church, the Bride of Christ, will not be fully exhibited to angels and to men, even during the glorious period of Messiah's reign. Saint Paul explicitly declares, "that in the Ages to come He might show the exceeding riches of His grace in His kindness toward us through Christ Jesus." (Ephesians II, 6, 7.) Is it asked what opportunity there will be for further favors to be bestowed upon the Church at the conclusion of Messiah's reign?

If our astronomical concepts are correct, all the fixed stars are suns, and around each sun are planets. Are there, then, a thousand blazing suns? Yes, more! Are there ten thousand? Yes, more! Are there ten times ten thousand? Yes, more! Are there ten times a hundred thousand, a million? Yes, more! Are there ten times ten millions, a hundred millions? Yes, more! And if we allow an average of ten planets to each sun this would make more than a thousand million planets, all made not in vain, but eventually to be inhabited.

Alas! our poor minds are bewildered with such manifestations of Divine Power and Wisdom, even as we have already been bewildered in our attempt to appreciate the heights and depths of Divine Love. Will there not indeed, then, be quite a sufficiency of the Divine Program to be outworked through Christ and the Church to justify the Apostle's statement that in the Ages to come God will manifest the exceeding riches of His grace in His loving kindness toward us in Christ Jesus?

#### Pale Faces Captured

One of the largest gatherings of members of the Improved Order of Red Men at one time in Kennebunkport, assembled Thursday evening at the Farmers club hall, and took part in the district meeting. They were Squando tribe of Biddeford, Shawakotoc tribe of Saco, Wawa tribe of Kennebunk, and Teconet tribe of Kennebunkport, which did the honors of the evening. The visitors, to a man, were loud in their praise of the boys at the 'Port, and claim that they have no equals in the line of entertainers.

It is estimated that there were nearly 300 Red Men present at the pow-wow.

The 'Port boys had been working hard for the big affair for weeks, and when the visitors arrived they found no arrangements for their comfort were overlooked. The exercises were held on the second floor of the Farmers club building, and following came a supper which was served on the first floor. It was a most excellent one. The pow-wow was called to order at 8 o'clock by a picked team made up as follows:

Prophet Gordon, of Wawa tribe, Kennebunk.

Sachem Gonville, of Squando tribe, Biddeford.

Senior Charles Blow, Shawakotoc tribe, Saco.

Junior Cheeney, Teconet tribe, Kennebunkport.

First Senape Towne, Teconet tribe, Kennebunkport.

Second Senape Bridges, Squando tribe, Biddeford.

G. of W. W. Greenwood, Shawakotoc tribe, Saco.

G. of P. Shuffelburg, Teconet tribe, Kennebunkport.

Next in order was the presentation of the pale faces captured, and who were scalped in the adoption degree. There were six pale faces from Biddeford, and two from Kennebunk. Following the adoption came long talks.

M. Harry Whelan did an Indian dance sang, and amused the gathering with recitations. Mr. Costello of Wawa tribe, Kennebunk, sang a solo, and District Deputy Spofford invited the braves to trail to the dining-room on the first floor where corn and venison were served. District Deputy Spofford gave a toast to the memory of Washington, followed by Frank Warren of Wawa tribe, Kennebunk, who amused the braves with his toast.

#### Church Social

Last Thursday evening the social held at the Unitarian church took the form of an Old Folks' gathering and fifty persons appeared in costumes of "Ye Olden Times." Many of the costumes were elaborate and very beautiful. The march around the hall was led by Mr. and Mrs. Wm. Barry. Prof. B. F. Whitcomb led the choir in an "Old Folks' " concert, and he was certainly dressed for the occasion. A. W. Meserve conducted an old-fashioned spelling match. The social was one of the most enjoyable of the winter.

#### Look Out!

Read the following carefully and reserve it for future reference.

Keep a sharp lookout for violators. There are no ambiguous terms in this act. It means no influencing of voters in any way, prohibits the use of money, rum and even promises, under penalty of a heavy fine or imprisonment or both.

Section 11 of the act concerning corrupt practices at elections, caucuses and primaries, is as follows:

Section 11. The following persons shall be guilty of corrupt practices and shall be punished by a fine of not less than fifty nor more than two thousand dollars or by imprisonment for not less than thirty days nor more than two years or by both.

(a) Every person who shall directly or indirectly receive, accept, request, or solicit from any person, committee, association, organization, or corporation any money, gift, advantage, permanent aid, emolument, or any valuable thing whatsoever, for the purpose of inducing or procuring any person to vote or refrain from voting for or against any person, or for or against any measure at any such election, caucus or primary election.

(b) Every person who, in consideration of any money, gift, advantage, preferment, aid, emolument, or any valuable thing whatsoever, paid, received, accepted, or promised to the advantage of himself or any other person, shall vote or refrain from voting for or against any measure at any such election, caucus, or primary election.

(c) Every person, other than the political committees known as the national congressional, state, town, city, or ward who shall solicit from any candidate for the office of elector of president and vice president of the United States, or representative in Congress, or any state, county, city, town, or ward office, any money, gift, contribution, emolument, or other valuable thing for the purpose of using the same for the support, assistance, benefit, or expenses of any club, company or organization, or for the purpose of defraying the cost of expenses of any political campaign election.

(d) Every person who shall, directly or indirectly, pay, give, contribute, or promise any money or other valuable thing to defray, or towards defraying, the cost or expenses of any campaign or election to any person, committee, company, club, organization, or association, other than to a treasurer or a political agent; but this sub-section shall not apply to any expenses for postage, telegraphs, telephones, stationery, printing, express, or traveling incurred by any candidate for office or for nomination thereto.

(e) Every person who, in order to secure or promote his own nomination or election as a candidate for public office, shall directly or indirectly, promise to appoint or promise to secure or assist in securing the appointment, nomination, or election

of any other person to any public position, or to any position of honor, trust or emolument; provided, however that any person may publicly announce his own choice or purpose in relation to any appointment, nomination, or election, in which he may be called to take part, if he shall be nominated for, or elected to any public office.

(f) Every person who shall directly or indirectly, by himself or through another person, make a payment or promise of payment to a treasurer or political agent in any other name than his own, and every treasurer or political agent who shall knowingly receive a payment or promise of payment, or enter or cause the same to be entered in his accounts in any other name than that of the person by whom such payment or promise of payment is made.

This is one of the most drastic acts for the prevention of corruption at the polls, or the using of influence over the voters, that has ever been enacted.

The fines run from \$50.00 to \$2,000. Imprisonment from 30 days to two years. Both may be given to the same person.

It prohibits direct or indirect action, intended to evade that which it prohibits.

It includes every possible inducement that might be offered from money to a promise to aid.

It covers every office from the smallest in the town, to the president of the United States.

Friends of a candidate, or measure, cannot expend money, or do any of the things prohibited, and cannot pay money to promote the election of any person, or success of any measure, except to the treasurer or political agent of the party they wish to aid.

Candidates for public office are prohibited from promising to appoint, secure, or assist in securing, any position of honor, trust, or emolument.

This act has got teeth in it. Look out it doesn't bite you.

#### POSTMASTER FAIRFIELD'S ADDRESS

"Mr. President, Officers and Members of the York County Rural Carriers Association,

GENTLEMEN:—

"Your honorable servant has been privileged to extend the word of welcome to you on this, your seventh annual meeting, and in the name of the good old town of Kennebunk I bid you welcome and extend to you the 'glad hand' and as far as in my power lies, the key of 'special privilege' for the day, and further, invite you to visit our town whenever you can find it convenient and as sure you a hearty welcome on each and every occasion.

"It gives me great pleasure to be associated with you in this branch of 'Our Uncle Samuel's' family, and consider it a privilege to be a co-worker with you in our united efforts to better the Postal service.

"It has not been my privilege to meet you before as an organization, although I have met, and am acquainted with several of your number, and for the past nine years have been in close touch with your president, and have always found him honest, temperate, punctual, thoroughly reliable and painstaking in the discharge of his duties, accommodating, almost to the very limit of human endurance, yet always a gentleman in his habits, quiet and unassuming.

ing; and I have discovered in Bro. F. A. Small many sterling qualities, worthy of emulation, and personally hold him in high esteem, as a worthy citizen, trusty carrier and faithful co-worker in our Postal service; and judging you all by the standard of efficiency he has attained I surely think your organization represents one of the most efficiently managed as well as one of the most important branches of the Postoffice department. And meriting as you do the appreciation of those you daily serve on your several routes, I trust in the near future you will receive the further consideration of congress in the matter of apportionment of salaries, and that such action may be taken as shall cause your salaries as carriers to be increased until such a time as your pay shall be more nearly commensurate with the expense you are under and the service you render. But, my friends and fellow-workers, in the discharge of your duties, do not let your past record suffice, do not 'slack up,' but, if possible REDOUBLE your efforts to do BETTER work in the days to come. No man can afford to do less than his very best in his daily work, whether appreciated or not. So let us look unto God for help and strength and right manfully perform every known duty day by day and thus better the service and increase our own efficiency and usefulness in our own chosen vocation.

"Thanking you for the privilege of addressing you and wishing you God-speed in your labors, I again bid you welcome to Kennebunk.
