**HOMEMAKERS' COLUMN.**  
LADIES' ENGLISH SWEATER.  
Materials.—Three-quarters of a pound of German knitting yarn, 1 pair of No. 15 long steel needles; 1 pair of rubber needles 1-1/2 inch in circumference. This garment is knit from the back to the front. Begin with steel needles, knitting evenly. Cast on 63 stitches; knit 2, purl 2, until the band is two inches deep. With rubber needles purl 2, knit 2, purl 2, knit 2, repeat pattern to end of row, purling the last two stitches on the steel needles together, in order to give the required number of 61 stitches. 2d Row. Knit 2, purl 2, knit 2, purl 2. Repeat these two rows 6 times. 11th Row. Purl 2, knit 2, purl 2, knit 2. The center of broad stripes, making 6 stitches in each broad stripe. Knit pattern as before until the 33d Row. Knit pattern, increasing 1 in each broad stripe, increase 1 in each broad stripe in 35th row. After this there will be no more increasing in the back. Knit 8 rows of pattern. 44th Row. Purl 1, knit 2 together, knit 1. Knit across row according to pattern until within 3 stitches of end, knit 2 together, purl 1. 45th Row. In this way in every row when knitting on the outside or right side of the sweater, but not on the wrong side. Do this until 5 stitches are taken up each end. This ends the decreasing. Knit 42 rows according to pattern.

**THE NECK.**  
Knit and purl 24 stitches according to pattern; bind off 18 for neck; knit remaining 24. Slip one of these sides to a spare needle, and continue the pattern on the other side for 42 rows. Make the other side to correspond.

**THE FRONT.**  
Knit across shoulder. Cast on 74 stitches, and knit pattern off the spare needle. Knit 12 rows of pattern then cast on 17 stitches on each end. This is for width under the arm. Make the front 42 rows from this point.

With the steel needles knit 18 stitches plain. Knit 2 together 14 times, knit 3 together 7 times, knit 4 together times, knit 5 together 7 times, knit 6 together 14 times, knit 8 plain, making 84 stitches for band. Rib this as at beginning, 2 and 2, until 2 inches deep. Sew the seam on one side over and over, leaving the arm holes for sleeves. Fasten the other side with hooks and eyes. With a worsted needle run a thread around the neck to draw it into shape, and crochet a band very tight about an inch deep. This is pretty with a band knit 2 and 2, narrowed at the two front corners from this point.

**THE SLEEVES.**  
Pick up 90 stitches with rubber needles, making the seam come under the arm. Knit 72 rows according to pattern. Then narrow in the sleeve on the edge, as was done on the back of the sweater, until there are 64 stitches on the needle. Make the sleeve the proper length. Knit a two-inch band, and sew the sleeve into the cuff. Sew up on wrong side.

This makes a low neck sweater which is extremely pretty and comfortable, but requires a good deal of work. It can be opened down the front by dividing the stitches and on the left side adding eight stitches, knit plain for 2 inches on both sides of the opening. If the garment is wanted high neck follow directions to the neck. Knit and purl 24 stitches according to pattern, bind off 18 for neck. Knit 12 rows of pattern for front and knit 30 rows of pattern. Cast on 17 on each end for the underarm part. Follow directions from here.

**COLLAR.**  
Cast on the steel needles 120 stitches and knit a band 2 and 2 until 7 inches deep. Sew together and fasten to neck so that the seam will come a little back of one shoulder. Roll over and the garment is complete.

The pattern may be varied to suit the taste of the maker. Many are knit 1 and 1, while others are "cable-twisted." This is done by taking half of the broad stripe on a spare needle, knitting the remaining half, then knitting the first half. This is done every 12 rows and is effective. When this is done the increasing on the back is done when the cable twist is made. I have seen one recently with 5 cable twists down the back, 7 down the front, and 3 on the outside of each sleeve column. did knit 3 and 2. This was made of a bright scarlet for a dark-haired girl. I have also seen them knit and purl 2 and 2 to make a small check. I am unable to give directions for this, but doubtless an experienced knitter could easily do so.

White, scarlet, and forest green are the good colors for this sweater. It is very useful. Sometimes they are buttoned up the front with tiny brass buttons. But whatever the fastening or the color they are warm and useful for young girls and pretty old girls too.

**THANKSGIVING DISHES.**  
CRANBERRY SAUCE, SIFTED.  
Pick over one quart of cranberries, wash and cook them with one cup of water twenty minutes or till soft and broken. Drain them, add one cup of sugar and one cup of water, and cook five minutes and turn into molds. This will be more like a marmalade than a jelly, and is liked by many tastes, because the seeds and skins are removed.

**CRANBERRY JELLY.**  
Cook the cranberries without water in a double boiler, till soft, or put them in a preserving kettle with water to barely cover the bottom, and mash them as they cook, adding more fruit as soon as you have syrup enough to keep them from burning. When all are soft turn them into a square of cheese cloth and squeeze out the juice. Allow an equal measure of sugar and boil the juice and sugar five minutes, then turn into wet glasses and set away to cool.

**CRANBERRY SAUCE.**  
Put into your preserving kettle one quart of cranberries, two cups of sugar and one and one-half cups of water; cover closely and cook ten minutes from the time of boiling till water is barely over the berries. Do not stir. It will be jelly when cold and the skins will be tender.

**CHESNUTS A LA LYONNAISE.**  
Shell, blanch and boil the chestnuts twelve minutes, or till soft. Drain and toss them about in hot butter in a chafin dish with a bit of fried onion and serve at once.

**BOILED CHESNUTS.**  
Shell, blanch and boil the chestnuts twelve minutes. Mash, moisten with hot cream and season with salt and pepper, or serve whole eaten simply with salt.

**FRIED SCALLOPS.**  
Wash, drain, dry thoroughly, cover with fine bread crumbs, beaten egg and seasoned crumbs and cook, a few at a time, in deep hot oil. Drain on paper, and serve with a sauce of Mayonnaise dressing with one-fourth cup of mixed olives, capers, onions, pickles and parsley all chopped fine.

**WINTER SQUASH.**  
If the shell be soft peel the squash, remove the seeds and cook in boiling water till tender. Drain dry and season with salt and pepper. One pint of squash needs one tablespoon of butter, a few grains of pepper, one-half teaspoon of sugar and salt to taste, scraped out, mashed and seasoned as above.

**Very hard shelled squashes like the dark green Hubbard variety, may be split in small pieces, cooked in water, and the seeds removed. These are considered better than the watery varieties. The latter should be pressed through a cloth strainer before adding the seasoning.—Good Housekeeping.**

Paraffin wax is often used in starch to give it added lustre and to make the work of ironing easier. Kerosene oil is sometimes used in washing.

"No, indeed! All soldiers say that."  
"What did the soldier do when you said that?"  
"Oh! He good."
