

GOOD ROADS TALK BY W. L. BUTLER

Church Realizes Neat Little Sum from Supper Proceeds.

The church supper advertised for last Monday evening at the Parish House was very well patronized and pronounced good. The menu consisted of mashed potato, cold pressed beef, cold ham, jelly, hot rolls, mince and cream pie, doughnuts, cheese and coffee. The committee in charge of the supper were Mrs. M. S. Kelley, Mrs. Edward Greenwood, Mrs. N. E. Wells, Mrs. J. W. Brackett, Miss Georgine Wilbur; Mrs. W. V. Larrabee, Mrs. H. B. Austin and Miss Albertine Butterfield were soliciting committee.

The waitresses were Misses Kathleen Noble, Gertrude Stillman, Hortense Butler, Mildred Kempton, Hazel Welber, Janet McKenzie, Hazel Sargent. The ladies serving at the several tables were Mrs. H. H. Field, Mrs. D. F. Field, Mrs. Gladden Parker, Mrs. Carl Beedy, Mrs. W. J. Carter, Miriam Brackett, Rosie Kelley.

The orchestra consisting of W. M. Payson, Harry Hair, Frank Stewart and Miss Irwin furnished excellent

music throughout the supper, which was much enjoyed and appreciated by all.

The talk on Good Roads by Whiting L. Butler of Farmington was also good. Mr. Butler has taken much interest in this work and has made a study of the same and is prepared to furnish much valuable information on the subject. Mr. Butler has been very successful as superintendent of road construction and repairs in Farmington for a number of years and is on the lookout constantly for new ideas and help for the betterment of the town's roads, but he is also much interested in the betterment of good roads for the county and state.

After his talk the gentlemen enjoyed the privilege of asking questions and talking the matter over informally.

The church and townspeople greatly appreciate Mr. Butler's kindness in coming to Phillips and speaking to them on this occasion, and hopes are entertained that there may be many similar evenings in the near future when the people will have the privilege of hearing speakers on various subjects that will be of interest and help to the town and its residents.

Over \$22.00 will be added to the church treasury from the proceeds of the supper.

A BRILLIANT (?) WEDDING

A Unique Entertainment Enjoyed by the King's Daughters.

A regular meeting of the Phillips Circle of King's Daughters was held with Mrs. C. E. Parker Friday evening, April 16, there being 36 members present. For several years it has been the custom of the circle to have an entertainment committee to provide some form of entertainment for the members who attend the regular meetings, to be enjoyed after the routine business has been attended to and the meeting adjourned. The programs are necessarily simple and to give greater variety an occasional costume party of some sort has been introduced, which has proved popular with the members. These have included a Hallowe'en party, a Colonial party, baby party, Mother Goose party, book party, etc. The last and perhaps the merriest of these was the mock wedding given at the home of Mrs. Cheney Parker Friday evening, when she and Mrs. Gladden Parker were hostesses to the circle. The plans for this had been kept as quiet as possible so it was a surprise to nearly all, excepting those taking part.

The affair was a burlesque on the wedding of an impoverished foreign nobleman and a wealthy American heiress and numerous absurdities were introduced to add to the merriment of the occasion. Mrs. Parker's attractive parlors were the scene of the wedding. The decorations were comic and consisted of a bell and festoons of crepe paper in Christmas colors, under which the wedding party stood for the ceremony. The parts were taken with great dignity and precision by sixteen well known Phillips ladies, appropriately costumed. To the inspiring strains of "We won't go home until morning," played upon the piano, the wedding party entered the parlors through an aisle made by white crepe paper ribbons held by four young ladies in white. Leading the bridal procession were two ushers followed by the bride leaning on the arm of her father, next came the little page who held the long trailing veil of the bride, then came the maid of honor and best man and bringing up the rear was the little ring bearer, carrying upon a large cushion a huge brass ring. The bridegroom and clergyman awaited the procession at the altar which was a small table upon which lay a copy of Webster's dictionary and a Farmer's almanac. The bride was given away by her father, after which a very original marriage service was performed by Parson William Sabbath in which the single ring was used.

After the vows were spoken the couple were declared "joined in the iron bands of padlock, whatever Webster's dictionary has joined together, let no Farmer's almanac put asunder." A wedding reception followed immediately after the ceremony. The following were the names assumed for the occasion by those in the receiving line: Gen. Green Montgomery Johnsing, Mrs. Green Montgomery Johnsing, (father and mother of the bride) Miss Virginia Creeper (maid of honor) Prince Brandon Frederick, (best man) the Count Fishchowderowski and his bride, formerly Miss Arabella Rose Geranium Johnsing. The ushers were college friends of the groom, the maid of honor a close friend of the bride and the best man a cousin of the groom. The Johnsing twins "Billie" and "Sister," the small brothers and sister of the bride who served as page and ring bearer also waited upon the guests when refreshments of delicious cake and coffee were served. There was a gaily decorated cake which was cut by the bride each guest receiving a portion. The bride's wedding dress was of white muslin fashionably short and she wore a trailing bridal

veil of mosquito netting held in place with pink flowers and carried a gorgeous shower bouquet of pink crepe paper roses. The maid of honor was gowned in yellow and wore a Panama hat trimmed to harmonize. The gentlemen wore somber conventional costumes with a flower at the coat lapel. Special mention should be made of the groom's tie which in size and color was in keeping with the festive occasion. The page wore a becoming brown Norfolk suit and his little sister was charming in rose colored crepe with white trimmings and white shoes and stockings. The going away costumes of the bride and groom were especially deserving of mention, particularly the bride's hat which was a wonderful example of millinery art being loaded with white feathers and waving plumes. Her dress was hardly as sumptuous as her hat, it being a skirt of blue and green plaid and a coat of green, presumably in the latest fashion(?) The groom wore a light overcoat and extremely large light felt hat. The bride's baggage was contained in a satchel which undoubtedly had seen better days, while the groom carried his belongings in a paper package. They left for their wedding journey amid a shower of confetti. A table in the back parlor held the wedding gifts. These were articles of usefulness rather than beauty. One saw there such practical and useful articles as a dustpan, fly killer, etc. When the wedding festivities being over, the guests were taking their departure each lady was given a piece of wedding cake neatly wrapped to put under her pillow to dream upon; this proved to be Johnny cake.

Those who were present will long remember the merry evening at Mrs. Parker's, which proved that "a little nonsense now and then is relished by the wisest men."

The present entertainment committee are Mrs. Evelyn Currier, Mrs. Mary McKenzie and Mrs. Edith Haley. Mrs. McKenzie being unable to assist on account of illness in her family, Mrs. Currier and Mrs. Haley were assisted by Mrs. Addie Parker and Mrs. Villa Parker in making the arrangements and they are being congratulated upon the success of their novel entertainment.

WELD FREE PUBLIC LIBRARY

The Goodly Number of 515 Vol- umes Added the Past Year.

The report of the Weld Public Library association as given by the librarian, Mrs. Emma Dummer at the annual meeting recently was a source of satisfaction to everyone. The total number of books recorded in the accession book, exclusive of the books of reference is 2,533 volumes. The number purchased in the past year, 135 volumes. The number of volumes given 346. The number received from the State 34, making a total of 515 volumes

FIRST ANNUAL GATHERING

Boys' Conference Will Be Held at Farmington May 14-15-16

In view of the fact that the Boys' conference of Maine has resulted in arousing great interest for the best things in life for boys, both among the boys themselves and among all interested in their welfare, it has been thought a county organization would be of like benefit. Thus it has been arranged to hold the first meeting of this kind in this county at Farmington on Friday, Saturday and Sunday, May 14-15-16. The session will open with a banquet Friday evening.

The entire program for the three days has not been fully arranged but among those taking part will be James Whitmore of New York, international secretary of the Y. M. C. A., who will be the principal speaker; J. C. Smith of Waterville, state secretary of the Y. M. C. A.; A. A. Head of Waterville, Boy Scout master of Maine. Every effort will be put forth to make the session interesting and profitable. The following persons will serve as committees:

Executive Committee—Charles H. Sawyer.

Entertainment—A. M. Thomas.

Banquet—George Dudley Church.

Recreation—Roscoe L. West.

Program—Rev. R. H. Clapp.

Registration—Leon A. Luce.

CONVENTION TO BE HELD

State of Maine Products Exposition Monday, June 7

If arrangements can be made one of the big features of the State of Maine Products Exposition in Portland will be a good roads convention and exhibition to be given under the auspices or with the assistance of the Maine State Highway Commission.

Philip J. Deering, of the State Highway Commission, and Chief Engineer Paul D. Sargent, of the State Highway Department, had a conference with Frederick M. Prescott, manager of the exposition for the Portland Chamber of Commerce, which is to hold it to see if arrangements can be made.

added in the past year besides numerous magazines. There has been given cash to the amount of \$44.02. The fines for the year amounted to \$10.25. The town raises \$125 each year towards the support of the library which is used for the purchase of new books and salary of the librarian, etc.

The present year it will be necessary to add more shelf room and the floor will be refurnished.

SPRING FISHING Will Soon Be Here

THE RANGELEY LAKES AND DEAD RIVER REGION
offers many attractions to the **FISHERMEN.** The numerous Lakes, Ponds and Streams in this territory are well stocked and a continuous supply of fish is provided for by wise laws, well enforced. This region is easily reached in one day from Boston.

You will make no mistake by arranging for your **SPRING FISHING TRIP** to any of these waters. A descriptive booklet with good map, free on application.

F. N. BEAL, General Manager, Phillips, Maine.

HOTEL BLANCHARD
STRATTON MAINE
In the center of the Fish and Game Section. Write for booklet.
HOTEL BLANCHARD,
STRATTON MAINE, E. H. GROSE, Prop.

Master Clock Can Operate Many.
Tests made by an English electrician have shown that it is possible for a single master clock to operate 500 other clocks strung along fifty miles of wire.

Overlooked in Proverb.
The early-bird proverb ignores the fact that the early fish also catches the worm and the hook that goes with it.

How Girls View Them.
One writer says that a freckle "is a wild flower the sun has placed on their cheeks." That is a pretty thought, but many girls will continue to regard the freckle as a thorn in the flesh.—Toledo Blade.

FRED HENDERSON, Prop., Jackman, Maine

Fly Rod's Note Book

BY FLY ROD

St. Anthony's Cottage,
Phillips, Maine,
April 21, 1915.

During the past ten days I have received many letters from friends who go-a-fishing at the Rangeleys asking, "tell us when you think the ice is going out?" "Doubtful things are very uncertain" we are told and the date of the ice leaving the lakes is always on of those uncertain events, that we are sure is to be an important one.

This is an early spring way down here in the state of Maine. The robins have come and the report is "not as much snow in the woods as usual the last of April." Though the blue ice covering the lakes is some 30 inches thick, the water is very low and it is understood the gates at Upper Dam are to be shut this week, and that means the water in Mooselookmeguntic will rise fast, and as soon as there is any open water around the shore and the wind commences its usual merry spring gale it will make quick work with breaking up the ice.

I for one know nothing about it but am willing to give a bit of free advice to the angler, which is, have your fishing tackle in order, pack your warm clothes and the usual outfit and be ready by the third day of May to start for a fishing trip to the Rangeleys.

I think we are to have not only good fishing this season, but more

people than ever before in this region.

The railroads have already made arrangements to give the best possible service, and are doing effective work to make known the attractions of our state and make the way to the most remote places easy to reach, and the thousands that have already found this to be a fact, will this year be multiplied by hundreds.

A long letter from one who recently spent an hour at Haines Landing was crowded with items of interest to the Maine Woods' readers. I always take great pride when a Maine woman makes a success of a great enterprise, and Mrs. Mabel Burns, who manages the Mooselookmeguntic House, has accomplished what few could do, for this hotel with the many log camps connected is one of the largest summer resorts in New England, with a lady for proprietor, and the hundreds of guests who have enjoyed her hospitality are very enthusiastic over the place and I think the New Yorker who wrote me as follows expresses it well: "We are coming back to Haines Landing this year, for we found Mrs. Burns has the ideal place for summer, and such a good table, and everything so well looked after. Our camp fire will be kindled early in the season and we will have a trout for your supper and lots of good stories to tell the Maine Woods." Mrs. Burns, who has been

in Boston for the winter, returned the first of this month and with a big crew of helpers has been rushing work. The new dock is being built and it will be a good one too. There were only two of the log camps without bath, and to these new bath rooms are being added. The guides' camp, store and postoffice have been stained, everything around the hotel and camps improved, boats painted, and the huge wood pile all adding to the homelike attraction of the Landing.

When the ice goes out the teams at the boat landings and the depot will be waiting to meet the guests and all will be ready to welcome them. Although the date of the opening of Mooselookmeguntic House is set for May 15, everything will be in order and even the trout and salmon ready to greet the first comer the very hour the ice goes out.

Garret A. Hobert of Patterson, N. J. son of the late Vice President Hobert has had a good deal of work done about his camp and plans to be among the first this spring to open camp.

It is thought the work which was done last year on the carry road, will be a great help in the time it will take to settle it and have good traveling this spring.

Mr. and Mrs. Herbert L. Welch, who have been visiting in the city are coming home in a few days and the big trout and salmon which are hooked had better look out or they will be so life-like after "Herb" mounts them, some of the city folks will think they are living.

The following invitation that I received this week, will be of interest as Miss Fair is a charming young lady who, with her people have for years each summer, occupied one of the camps at Upper Dam, and a host of friends will offer congratulations for years of happiness, health and prosperity: "Mr. and Mrs. William B. Fair request the pleasure of your company at the marriage of their daughter, Beatrice Emeline, to Mr. George Elliott Patterson, on Wednesday, the twenty-eighth of April at eight o'clock, one hundred and forty-five Harrison street, East Orange, New Jersey." After Wednesday, May 12, Mr. and Mrs. Patterson will be at home at twenty-five Ivanhoe Terrace, East Orange, New Jersey, and we hope to greet them at Upper Dam later in the season.

Fly Rod.

JACKMAN AND THEREABOUT

Directly west from Moosehead Lake and reached via Somerset Junction and the Canadian Pacific Railway, is Jackman, and fast becoming a center for sportsmen. The Lake Park Camps, close to the station, furnish excellent headquarters for fishermen and huntsmen. From some of the twelve nearby lakes, brook trout of five pounds have been taken, also landlocked salmon and togue. From one trout pool an angler, in twenty-eight minutes, took on the fly eleven trout of more than thirteen pounds. This is the source of the Moose River trip, one of the best short canoe cruises in upper Maine. Twin Island Lake offers excellent fly-fishing and around it are comfortable camps.

Parlin Pond, now called Lake Parlin, is well known among sportsmen. One hundred square miles of lake and

forest are contained in the preserve with numerous outlying ponds famous for brook trout, and woods with plenty of moose, deer and small game. A peak four thousand feet above sea level furnishes opportunity for the ambitious mountain climber. In spite of the primeval wilderness, Lake Parlin is on the state road leading from Rangeley Lakes to Quebec. The Canadian line is but twenty-eight miles away.

Thirty miles north from Jackman are the Penobscot Camps, with a location peculiarly wild and offering good hunting and fishing.

"Attean" to the traveled sportsman stands as a magnificent leased territory of some 50,000 acres fairly crowded with sporting advantages. It is about forty miles north of Kincoo, most easily reached by way of Attean Landing, five miles west of Jackman. This tract includes about twenty-five lakes, ponds and streams, separated by mountains wooded in spruce and balsam, with ridges that mark the international boundary. Close at hand on one of the forty islands in the lake, are the Attean Camps, a series of twenty log cabins with a large building, all of which face to the west.

There are man canoe cruises among the lakes and connecting streams. The Moose River headwaters from this point afford thirty miles of splendid canoeing and unsurpassed brook trout fishing. The river may be followed to Moosehead Lake by way of Brassus Lake. Along the banks are bits of wild scenery and several strikingly beautiful waterfalls are passed. Log cabins are available at convenient points and miles of blazed trails are found, many of them lead to view points on the mountains.

Brook trout of four pounds in weight have been taken from this river and in the numerous streams fly-fishing is particularly good. Moose and deer are seen in large numbers.

It is in this section that a well-known Club has its extensive preserve, with camps on both sides of the international boundary. The station at Megantic Lake is across the Canadian line. The lake is a scenic gem, and the steamers give one an opportunity for a trip having few superiors in beauty.

THE UPPER KENNEBEC COUNTRY

For the sportsmen seeking a locality of comparative newness, the Upper Kennebec region will furnish satisfaction. In general this may be described as the country to the southwest of Moosehead Lake and between Lody and Bingham. It is only within a few years that the railroad has been extended north from Bingham to Moosehead Lake; the intervening country previous to that time, being accessible only by buckboard.

Close to Bingham are the famous bodies of water known as Rowe, Carry, Chase, Otter, Pleasant and Pierce Ponds, all with camps, luxuriously equipped. These ponds furnish excellent, brook trout and landlocked salmon fishing. Each has some notable characteristic—one has brook trout exclusively; another is 2200 feet above sea level and another reveals objects thirty feet in its depths. Deer and moose are abundant and bears are frequently found by the careful hunter. For many years Pierce Pond has been stocked with landlocked salmon, providing some of the best sport to be found in the state. A fourteen-pounder of this species was taken recently. Whether some of the nine-pound salmon taken here are of the Quinnet variety of the Pacific coast waters is an interesting question. While hunting near Carry Pond camps, one sportsman was known to kill, in a day, two ten-point bucks and a bear weighing 387 pounds. A three-pound seven-ounce brook trout taken in

August is indication that there is midsummer sport for the fisherman. Chase Pond hunters have sent in a number of fine moose during recent hunting seasons. Many of the camps have daily mails and telephone service so that business men may be in the heart of the wilderness and yet in touch with affairs. Parlin Pond, for years a private preserve of great value has recently been opened to sportsmen. There are fine fishing waters within a short radius of the luxurious central camp; and farther in the wilds is Enchanted Lake, mountain bordered, six hundred feet deep, and all that its name implies. Parlin Pond may be reached either from Bingham, Jackman or Lake Moxie.

TRAPSHOOTING MAY LOOK EASY

Trapshooting may look easy to the casual observer. When it comes to mastering the sport, however, one is pretty often apt to experience a change of mind. It is not as simple as it looks, and while only actual participation in the sport can unravel all the kinks, still perhaps a few words to the beginner may help. Trapshooting, essentially an American sport, recruits its devotees from practically two classes of beginners, field shooters who have been lured to the traps by the irresistible challenge of the flying targets, and true novices, men or women who have never before been accustomed to a gun.

The sport consists of shooting with a shotgun at clay targets thrown into or through the air with incredible rapidity by a machine known as a trap. The trap is located in a house, half buried in the ground, to protect the trap boy. It is boarded with heavy timber on the roof and three sides nearest the shooters. Sixteen feet back of the trap house, and arranged in the form of an arc, is situated the first firing line with five stands for the shooters, placed 10 feet apart. Back of these stands at intervals of a yard are arranged the handicap marks for use in handicap tournaments. As indicated by the number of stands five men form the usual firing squad. These men shoot in rotation, changing their positions at the score after a certain number of shots have been fired by each participant from his original position.

As the shooters take their positions at the score, the first prepares for his shot by "covering" with his gun an imaginary spot just above the roof of the trap-house at a point where he expects the clay target to start. When ready for the target he gives a sharp command, "Pull." The puller springs the trap and the clay pigeon whirls away through the air. If the shooter succeeds in breaking the target he is credited with a "Dead." If he fails he is accordingly charged with a "Lost." If the target is not legal for various reasons prescribed it is termed "No bird," and the shooter is permitted another trial. From the above it might seem that trapshooting was sort of a "lack-luster" affair. But if any one is impressed this way it is only necessary to give the sport a trial.

Perhaps the first thing that bothers the beginner is the fact that he invariably must give the command "pull" while he is holding his gun at his shoulder and "covering" the spot above the trap—from which the target will spring. To the field shooter, at least, this position is unnatural. To the mere novice it is disconcerting. Nevertheless it is an essential if one would become a real trapshooter. The quickness with which the average clay pigeon travels makes it necessary to "cover" the target at the start of its flight. Its flight up to gunshot range is much quicker than that of the fastest bird. To be scored it must be broken before prompt action is necessary. Also it is practically essential that the bird be hit at a time when your pattern is at its best or within about a distance of 40 yards.

Whenever you write to one of our advertisers, don't forget to mention Maine Woods. It is important to you to do so; important to us and the advertiser naturally wants to know where you found his name.

LIVE ANIMAL TRAP The best box trap on the market today.

Designed by an old experienced trapper, upon true scientific principles. Contains compartment for live bait. All working parts inside of trap. The trip action is adjustable to any desired tension.

Putting Tobacco in Tins is Like "Locking the Stable Door" —"After the Horse is Gone"

Real tobacco flavor depends upon the leaf being preserved in its natural state, possible only by pressing the leaves into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out so that when you whittle it off it crumbles into dust, but it will burn and smoke smooth and cool as it has all of its original tobacco flavor preserved, unevaporated in Plug Form.

Whittling a pipeful is little trouble, amply repaid in both quality and quantity. Try this experiment and judge for yourself.

SOME MORE SUGGESTIONS

Helping "Old Camper" Along With That Meal

A TEMPTING AL FRESCO FEAST.

Editor Forest and Stream: Let hospitality abound! May it ever be that the latch-string hangs out at each woodman's cabin and sportsman's camp, thus to invite the passing stranger to shelter and cheer; where, belated on his journey or confused in direction, he will receive the needed aid together with satisfaction for the inner man.

"Old Camper" indeed had a privilege in extending the "honors of the camp," thus being really the representative of the absent hundreds of fellow campers who so thoroughly approve of extending the helping hand.

With a neighborly and friendly hand inscribe with charcoal on a piece of 6 by 8 bark the following menu and obey the appended instruction in its preparation:

Planked Trout
Hot Biscuit
Butter

Roast Partridge with gravy

BIGELOW PASSENGER TRAIN leaves for Farmington at 10.50 A. M. Arrives from Kingfield at 10.00 A. M.

F. N. BEAL, Gen'l Manager,
Phillips, Maine.

Browned mashed potatoes with grate cheese

Coffee Cold Spring Water Tea
Build a good high fire of hardwood, so placed that the heat will be readily reflected. Get out the oft used plank with its groove at both ends, along which so frequently has flowed the juices of the finny tribe, and set it up before the fire to get piping hot.

Put a kettle of cold water where it will come to a boil.

Into the baking pan put a pig pint of flour and thoroughly mix with the baking-powder (taken from among the "fixins"). Read the label for the quantity to use, as brands vary, but one and one-half teaspoonfuls is about right.

Add one-half teaspoonful of salt and mix well, then add one tablespoonful of lard (not melted) and again mix until smooth and no lumps remain. You are now ready to add enough water to make a stiff dough. Do all the mixing with a big spoon or a broad stick of wood but not with the hands, and handle the dough as little as possible. Dust some flour over the dough, rollingpin (glass bottle or round stick of wood with the bark off) and the breadboard, then lift the dough onto the well floured board. Roll the mass to a thickness of a little less than an inch.

Flour the top of the baking-powder can and use as a cutter to cut the rolled dough into pieces. Put these into half the baking pan of the reflector.

Drive two forked sticks into the ground beside the fire, about twelve inches apart and rest a crosspiece stick in the crotches. Tie a stout wet string about the legs of each partridge and have a small piece of bacon secured on the upper part of each bird. Suspend separately in a row from the cross-piece with a pan beneath to catch the drippings which are to be used for basting the birds and making the gravy.

Have them revolve so that all sides receive the heat equally from the fire. Soon as the flesh is tender to a sliver of wood, dust a very small amount of salt and pepper over each bird and remove from the fire. Make a gravy by thickening the drippings with a little flour rubbed quite smooth in a tablespoonful of warm water and add slowly to the drippings.

As soon as the birds have been put to roast take about half of the cold boiled potatoes, completely mash them, add one-quarter cup hot water, thoroughly mix and add butter about size of walnut, in small pieces throughout the mass. Form into a flat, round shape about two inches thick, cover lightly with grated cheese and put into the well greased half of the baking pan and put this pan containing the potatoes and biscuits, into the reflector which has been so placed as to get good strong heat from the fire. Bake until the row of biscuits next the fire turn brown, then reverse the pan so the

front row will be toward the back.

The plank should be sizzling hot by this time, so take four of the trout, which have been split open the full length, onto the board, skin side against the board, and set back before the fire. From time to time baste with a piece of cloth dipped in melted butter or with a piece of fat pork. If they roast unevenly reverse the board, top end down, once or twice.

Have the four plates, from which the food will be eaten, getting warm by standing for a time in the dishpan containing hot water. Never serve any food on cold plates.

Let the coffee be "drip coffee" made as follows: Put ten heaping tablespoonfuls of ground coffee into a thin cheese-cloth bag (large enough to hold the ground coffee very loosely), and suspend it in the empty coffee pot. Five minutes before serving the meal slowly pour ten cups of boiling water over and through the coffee (pour twice if strong coffee is desired), cover the pot tightly and delicious coffee is ready.

The tea may be made in either or both of the following ways. This way, if each of the ladies prefers a different strength of beverage: fill each cup when at the table with boiling water to which is added the quantity of leaves to furnish the strength she desires, then tightly cover the cup.

Or, put loosely within a thin cheese-cloth bag one level teaspoonful of tea leaves and suspend within a covered pail containing ten cups of boiling hot water, keep the pail tightly covered for three or five minutes (according to strength of drink desired), then quickly open the pail, remove the bag of leaves, re-cover at once and serve as wanted.

It only remains to serve the viands to the hungry guests. Take to the table the hot plank with the trout on it and serve from this. After these have been finished, remove the plank and all evidence of the fish, and serve the remainder of the meal.

ELLIS E. W. GIVEN, M. D.

PINE KNOLLS.

R. F. D. No. 1, Neuse, N. C.,

Editor Forest and Stream: I have been an interested and appreciative reader of Forest and Stream for many years and also have had some experience in camping, so accept the invitation to tell what I should do in "Old Camper's" position as entertainer for those unexpected guests. I consider the most acceptable hospitality to hungry people would be shown by preparing as soon as possible what the larder afforded, not troubling to add "frills" to the feast.

First we will assume wood fire to be used, with a supply of kindling convenient. Start the fire, put water to boil for coffee or tea as the guests prefer, cut some cold potatoes for frying. Put a small wedge of pork in each trout for seasoning. Broil three or four, according to size, with a partridge, previously having mixed some flour, for "batter cakes" to bake in the frying-pan—having no griddle.

Quite a task for an inexperienced person cooking several things at once. One might have some merriment by asking the visitors to assist in the preparation if they were not too tired. The host would need to be waiter and bake cakes as the visitors ate. I am certain that hungry people would enjoy such a repast. And quite a romance might result from this chance acquaintance if two of the party were unmarried. Tell us about it. With interest,
MARY L. MILLS.

(To be continued.)

Readers of Maine Woods will be able to obtain much valuable information for their camping trips this summer, from these articles taken from Forest & Stream.

MAINE STATE EXPOSITION.

An appeal has been sent to the heads of the boards of trade and chambers of commerce to help make the Maine state exposition a get-together occasion in June, to hold a quiz every day while it is in progress, advertise wants of various sections and take steps to fill them. One of the best incentives for the timid man who wishes to branch out in business is for a successful man who has done much the same, to tell him how to proceed. Maine has

THE NEW SUMMIT HOUSE

Description of What the New Building Will Be Like

Following is a somewhat detailed description of the new station and restaurant that will be built on Mount Washington this summer, on the site of the famous old Summit house, and will rest on the foundation built three years ago on the site of the Summit house, destroyed by fire in 1908.

The new building will be 38 feet wide, 172 feet long and one and one-half stories high. It will be built entirely of wood in the old-fashioned way—strong, neat in appearance and comfortable.

No plaster will be used, the inside being finished with sheathing. There will be a spacious lobby, with a big open fireplace. Large windows will be used in the lobby and it will be filled with plenty of comfortable chairs. Here will be the office, the postoffice, postcard and souvenir stands and writing tables.

There will be a dining-room and lunch counter; the dining-room will have eight tables and the lunch counter will have 42 stools. Lavatories will be on the main floor off from the lobby.

Upstairs will be twenty guest rooms, each with a dormer window. In each room there will be two single beds. There will also be lavatories on the second floor.

Adjoining the dining-room will be the kitchen, service and store rooms, with eight sleeping rooms above for the employees. Off from the kitchen at the north and facing the Lizzie Bourne monument will be a spacious piazza for the benefit of the employees.

Under this piazza will be the electric light and heating plant, and a room and toilet for the railroad employees. The house will be entirely heated by steam and lighted throughout by electricity.

First-class in every respect, and built in a manner to afford every possible comfort to travelers, the new building will be in every way a credit to New Hampshire's grandest mountain.

The building will be all framed this spring at Lisbon and work of erection will start as early as trains can be run to the summit. It is now planned to have the house up and ready for occupancy by the first of August.

Pure, fresh water coming from the Lakes of the Clouds will supply the new hotel. It will be pumped from the base into a 60,000 gallon tank, located on the highest point of the summit. The pumping plant was installed in 1912, at the base and it is capable of supplying 30 gallons per minute.

Assistant Superintendent Spaulding has just returned from a trip to the summit and reports very little snow and ice and from indications it will be possible to run trains to the summit by May 1. By April 15 the entire force of machinists and trackmen will be sent into the base to get the track and locomotives ready for service.

The Mount Washington railway is owned by the Concord & Montreal railroad. It is an entirely independent corporation and is operated independently by its directors in connection with the Boston & Maine, which corporation directs it as the lessee of the Concord & Montreal road.

By economy and close management the road has acquired a surplus of between thirty and forty thousand dollars which is to be appropriated for the new building.

During the construction of the new building the old Tip Top house will be used by the workmen as a boarding house and after the new house is open the old house will be retained in its original condition as a relic.

—Gorham Mountaineer.

many such men.

Of course the Maine cities, Saco, Biddeford, Portland, Lewiston, Auburn, Waterville, Augusta, Bangor and the others have taken advantage of the general business prosperity of the past few years and say in only rare instances, improvement has been the rule and the gradual growth of the state must be credited to the industrial centers.

Instances of phenomenal growth in

the direction of the development of Maine cities are to be seen.

Where a dense wilderness of timber and undergrowth was the only property in Millinocket a score of years ago a town of 4,000 is thriving now, the water power has been harnessed and put to work, valuation of the town is nearly \$2,000,000 and the whole community has been enlivened and contagious prosperity been spread broadcast.

Rumford in Oxford county shows an increase of almost 1,000 per cent in population in 25 years, it is a thriving town and hard times never annoy the people who live there. The S. D. Warren plant for manufacturing soda paper fiber was established at Cumberland Mills in 1880 and the bustling little city of Westbrook is the result. These examples are merely citations of what hidden gold mines are awaiting the prospector in Maine, who has a good idea and sticks persistently to it in the right time and with the right spirit.

Sanford also might be mentioned. Thomas Goodahl made Sanford of today possible and the big plush mills of the town are the fundamentals of the prosperity which has come to that community. The Maine Products exposition, to be held in Portland June 7-19, is to be conducted solely for the benefit of the state as a whole, to serve as an educational institution, showing what has been accomplished in the past and what can be done by applying the proper amount of will power, initiative and a fair share of capital, always available whenever a favorable opportunity arises for investment.

CAPTURES TWO FINE MUSKRATS

The Sanford Tribune says: "Although it was something which has not happened in recent years at least, if ever, the fact that a local huntsman went "a hunting" in Central Square last Saturday night and bagged some game makes an interesting story and not a "fish story" either. The huntsman was Robert Rankin, the place was Central Square, the time, 11 o'clock and after; the game, two fine muskrats. For several days previous it had been told about that muskrats which made their home in the brook running off Kimball street were wandering about different nights up onto the main street. How the rats should get so far away from their homes is not known, but they did. "Rob" was returning from the barber shop to his market shortly before 11 o'clock last Saturday night when he found a group of young fellows stoning and chasing what they thought was a rat. He joined the group and with a stick killed the animal which proved to be a fine big muskrat with handsome fur. He returned to his market and about half an hour later another one of the animals made its appearance near the curbing in front of Broggi's store. Again he armed himself with a stick and this time added another muskrat to his collection. At last reports he had skinned the animals and was the possessor of two fine furs.

GOLF AND THE SUMMER BUSINESS.

From the Southern resorts come reports of a big season on—wherever golf was played. Where shooting was the principal diversion, the season was not remarkable but where there were links, there you found the people. York is fortunate in possessing one of the finest golf links in New England, if not in the country. And William Wilson, the professional, who has just returned from Pinehurst, states that the greens this year will be in better condition than ever before. The winter has not played havoc with them, as it did a year ago, and under Mr. Wilson's care during the spring, the links will be in perfect shape for the opening.

If golf is proving to be the biggest inducement for a summer resort, then York is unusually fortunate, and it certainly would seem that a golf link is the one of the best assets of any resort, either in the South or the North.—York Transcript.

The Maine Woods thoroughly covers the entire
state of Maine as to Hunting, Trapping, Camp-
ing and Outing news, and the Franklin county
locally.

Maine Woods solicits communications and fish
and game photographs from its readers.
When ordering the address of your paper
changed, please give the old as well as new
address.

THURSDAY, APRIL 22, 1915.

MRS. BARNES A FORMER RESIDENT OF PHILLIPS.

The following was taken from the
Andover notes in the Rumford Falls
Times. Dr. and Mrs. Barnes for-
merly resided in Phillips and the
last year of their residence here
was passed in the house now occupied
by H. F. Beedy, esq:

"Mrs. M. Abbie Barnes after an ill-
ness of one week from bronchial
trouble succumbed suddenly to heart
failure and died at the home of her
sister, Mrs. Lena Bonney, in Somer-
ville, Mass., Friday evening, April
9, at the age of 69 years. She was
the widow of Dr. W. W. Barnes,
who practiced in town for several
years. After his death she went
to Boston and passed several winters
with her sister. Last summer she
was with her son Walter, who is
pleasantly located in Andover, and
enjoyed her visit so much that she
lingered until the late cold weather
when she returned to Boston. She
was a member of the Congregational
church and of the Christian Endeavor
Society from its organization and
ever ready to do her part. Many of
her intimate friends here had passed
on before her but those who are left
will always remember her as a help-
ful friend. She is survived by two
sons, Floyd, of Scamerville, Mass.,
where her funeral was held Sunday
afternoon. The remains were brought
here Monday and a short service
held at the home of her son, Walter,
conducted by Rev. Geo. Graham,
Tuesday afternoon. Many friends
were present. The flowers were
many choice pieces, consisting of
roses, lilies of the valley, pinks, and
a lovely pillow of calla lilies. In-
terment at Woodlawn cemetery."

DISTRICT NO. 2

April 21.

Mrs. Ida Davenport was the guest
of relatives and friends in the village
last week.

Miss Abbie Calden is attending
school in this district and boards
with her grandparents, Mr. and Mrs.
Morrill Wing.

School in this district commenced
Monday with Miss Fannie Hume of
North Anson, teacher. She boards
with Mrs. Bion Wing. Miss Marion
Sargent, who teaches the spring
term in the Reed district boards with
Mrs. G. L. Ross.

Mrs. Ada Haley went to Lewiston
Tuesday, where she will have her
eyes fitted for glasses. She was
accompanied by her son-in-law, El-
win McLaughlin, who is also having

Mrs. F. W. Harnden and two child-
ren went to Dryden Monday for a
week's visit with her daughter, Mrs.
Esma Hewey. They were accompan-
ied by Mrs. Harnden's sister, Mrs.
Ida Davenport, who, after visiting in
Dryden will go to Mexico for a visit
with her brother, Ira T. Wing and
family.

No Desire to Be Ray of Sunshine
"These signs on the order of 'Keep
Smiling,' 'Cheer Up,' etc., give me a
large pain," said Sackville McKnutt,
who has a very somber cast of counte-
nance. "Did you ever see a picture of
Abe Lincoln that had a smile on it?
And did you ever see one of George
Washington with a broad grin? I am
proud that I resemble Lincoln and
Washington."—Kansas City Star.

IN AND ABOUT PHILLIPS

Mrs. H. B. Austin accompanied
her husband Tuesday on his weekly
business trip to Augusta.

Automobiles are beginning to ap-
pear frequently on the streets of
Phillips, as nearly everyone owning
a machine has had them out for a
try. Visitors in Farmington last
Saturday stated that you could hard-
ly find a place to cross the street
the autos were lined up so thickly.

Mr. and Mrs. Irving Pottle of Pitt
Street, Portland, passed Patriots'
Day with friends at East Hiram.

There will be a business meeting
of the Epworth League at the close
of the Thursday evening prayer meet-
ing next week, April 29.

D. W. Wells has purchased Mrs.
Ila Ross's place on the west side of
the river about 1-2 mile below the
village and has moved his family
there. Mrs. Ross has lived with
her parents, Mr. and Mrs. W. H.
Babb the past winter, who own a
home directly opposite.

One day last week when postmas-
ter S. G. Haley was on a business
trip to No. 6 and at the Calden
place, he saw two deer, a doe and a
buck not 20 rods away. Both he
and George Mull got a good look at
them before they disappeared up
through the pasture.

Walter Gilson has bought William
Presby's farm in Avon and Mr.
Presby will move onto the farm a-
bove the village known as the
Charles Allen farm.

The ladies are planning a general
cleaning and pick-up campaign on the
interior of the Union church and
Parish House next week, Wednesday
and all who wish can join in a pic-
nic dinner at the Parish House.

An exciting runaway was witnessed
Sunday afternoon when a pair of
spirited horses owned by N. J. Hack-
ett and driven by Natt Ellis of Ran-
geley dashed from the upper village
down through Main street and final-
ly landed in the mill yard of the
International Mfg. Co. On the last
corner turned the carriage was on
two wheels and six spokes were
taken out, but no further damage was
done to either carriage or occupants.
The horses were frightened by an
automobile and as they are large
powerful horses and very spirited it
was no easy task to control them.

Mrs. E. B. Currier received a let-
ter from a relative in Skowhegan,
who stated that there were 800
people under the care of a physician
at the present time, the greater part
of them being afflicted with severe
colds and grip, and there were many
others ill who had not called a phys-
ician.

We are sorry to report the severe
illness of Mrs. Hattie Hoyt. Mrs.
Hoyt has been in very poor health
all winter, but has been worse of
late.

The Christmas Present club will
meet with Mrs. C. F. Chandler next
Tuesday, April 27.

The Phillips Hardware Co. has the
convenience of a motor truck this
spring, as C. E. Parker has remod-
eled his Buick from a four-passenger
into the truck, and it is proving its
usefulness in quick order.

The many friends of Mr. H. H.
Vining will be sorry to learn of his
serious illness.

Rollins & Bean are getting busy
on automobile repairing and their
shop at the upper village is pretty
well filled with cars at the present
time.

Misses Miller and Irwin spent the
holiday at the former's home in
North Jay.

Everett Beedy does not care to re-
peat the tumble he took last Mon-
day. He was up on a pile of lum-
ber taking some measurements and
stepped on a board which caused
him to land 15 feet below, striking
on the edge of a dry goods box. He
was pretty well lamed up but no
broken bones have been discovered
fortunately.

News has been received of the
death of Harry Bean of New York.
He was the son of the late Mr. and
Mrs. David Bean of West Farming-
ton, both of whom died last spring
within a few days of each other.
Mr. Bean's death occurred March 22
from pneumonia.

Of course you are interested in
having the grounds of your church
and Parish House neat and attract-
ive. It is hoped you will show your
interest by helping on clean-up day,
next Wednesday, April 28. There
will be work for everyone.

We trust everyone will be inter-
ested in the clean-up day for the
benefit of the Union church and
Parish that has been set for next
Wednesday, April 28. Those who
are unable to assist that day can
perhaps see that a substitute is sent
in their place.

Herbert McKenzie has been con-
fined to his home by illness the
past few days.

Mrs. Neville Wheeler was called
to New Sharon last week by the
death of her brother, Cyrus S. Gor-
don, who passed away on Friday.

Dr. Valorus White of East Dixfield
was in town last Friday in consulta-
tion with Dr. E. C. Higgins in the
case of Mrs. Octavia Badger, who
has been quite ill for several weeks
past.

The Social Service club will meet
in the Parish House Tuesday after-
noon, April 27 at 2 o'clock. All ladies
come prepared to tack a quilt.

Mrs. Eland Wright is quite ill at
the home of her daughter, Mrs. D.
T. Hamden. Mrs. Wright's illness
is caused from several shocks which
she has suffered from.

Mrs. Nora H. Davenport, who has
been with her nephew, Hon. H. S.
Wing, Kingfield, since last May, was
pleasantly surprised on her birthday,
April 8th, with a letter party and
post card shower. It being impos-
sible to write each friend separately,
she wishes to extend to her many
friends through the columns of the
Maine Woods her sincere thanks
for their thoughtfulness, the cherry
letters, cards and gifts. Mrs. Daven-
port has been very poorly for the
past year, and under the care of a
physician all of the time. She re-
gains her strength very slowly. Her
nephew and family have done every-
thing for comfort and she has been
tenderly cared for by them since
going to Kingfield. She intends to
leave this Monday, April 26, for her
daughter's, Mrs. Ralph E. Gilman,
Old Orchard. Mrs. H. S. Wing will
accompany her.

Are you thinking of buying a car
this year? If so, examine the Metz,
it will pay you.

Hilliard, the little son of Mr. and
Mrs. Everett Beedy has had a severe
cold this week.

A. W. Bean has been more com-
fortable for a few days past.

The Camp Fire Girls will meet in
the Parish House Friday evening at
7.30.

Miss Kathleen Noble has won first
position in her class in the Phillips
High school and Miss Hortense But-
ler in the Grammar school.

It is expected there will be work
with six candidates at the meeting
of Hope Rebekah Lodge this Friday
evening. Refreshments will be served.
The committee are Mrs. Ed-
ward Greenwood and Mrs. A. A.
Jacobs.

Saturday afternoon the third and
fourth degrees will be conferred at
the meeting of North Franklin
Grange. Those who are not solici-
ted from will please bring sandwich-
es or doughnuts.

About 50 from Phillips went to
Kingfield on the special train Wed-
nesday night, the occasion being the
district meeting of the Odd Fellows
with Governor King Lodge. When
the train reached Phillips from Ran-
geley the brothers in town found a
"diner" attached to the special from
Rangeley and they were served to a
fine lunch of sandwiches, frankfurts,
coffee and fruit by their Rangeley
brothers, who were appropriately gar-
bed for the occasion in their white
coats.

Reports from DeBerna Ross are
that he is gaining slowly.

We have received a communication
from "Spiking Hammer" for Maine
Woods but as the name of the writer
was not sent we are withholding it
this week, and will ask that the
writer send in his name, not for
publication but as a guarantee of
good faith, and we will be very glad
to publish the article in next week's
issue.

Mrs. George W. Wheeler of Far-
mington after passing the winter at
the home of her nephew and niece,
Mr. and Mrs. A. M. Greenwood, re-
opened her own residence last week
and is again keeping house there.

Lyde F. Pratt, soon to receive his
Ph. D. degree from Johns Hopkins
university, has accepted the position
of teacher in organic chemistry in
the University of Virginia and will
begin his work there with the open-

ing of the next school year. Mr.
Pratt is a Farmington boy and a
brother of Bert Pratt, who was in
Phillips for several years employed
by the S. R. & R. L. R. R.

The members of Sherburne Chapt-
er, O. E. S., were entertained by the
gentlemen Wednesday evening at
the regular stated meeting and after
the business was concluded ice
cream, fancy crackers and coffee
were served. Whilst was enjoyed
the remainder of the evening and
the gentlemen showed that they are
fully capable of entertaining. Those
on the committee were Worthy Pat-
ron, Carl Beedy, J. Blaine Morrison,
C. M. Hoyt, A. G. Cronkhite, Dr. W.
J. Carter, C. F. Chandler. The com-
mittee appointed for the next meet-
ing are Mrs. J. W. Brackett, Mrs.
E. H. Shepard, Mrs. M. W. Harden.

There will be a grand ball at the
Grange hall, April 30th, with music
by Dyer's orchestra of Strong.

Uncle Eben.

"Some men gets credit foh habbin'
a good disposition," said Uncle Eben,
"mos'ly because dey is so fixed dat
dey's in a position to have purty
much deir own way."

FEDERATED CHURCH

Melvin Sherburne Hutchins, pastor.
Calendar for week ending March
1.

Sunday, April 25: 10.45—Morning
worship. Sermon, "The Way Ever-
lasting." 12.10—Sunday school. 7.30
—People's service. Music by Choral
Club. Address, "Current Events."

Thursday, April 30: 7.30—Prayer
meeting. Mark 4:24; Matthew 18:
21-22, "Measuring Life."

MADRID

April 20.

Voluntine Berry is confined to the
house with grip.

Charles Moore has been quite ill
but is on the gain now.

Mrs. Lizzie Weymouth is still very
ill.

The village school opened Monday
with Daisy Davenport of Phillips,
teacher.

A letter received from C. E. Cross-
man who is in the Sisters' hospital,
Lewiston, states that his leg has
been cut open and the doctors are
hopeful that it can be saved from
amputation.

There is to be an especially inter-
esting meeting of Sandy River
Grange Saturday, May 1st. It is
to be hoped that every member will
be present.

The farmers are ploughing here,
quite a difference from last year. We
were traveling with sleighs, and
now it is very good wagoning.

F. A. Richardson, who has been
confined to the house the past three

weeks is able to be out.

Estelle Smith of Phillips High
school was at home over Sunday.

Mr. and Mrs. Will Berry will be
employed by Cris Vose for the sum-
mer.

Mrs. Dan Huff visited relatives in
Strong last week.

Mrs. Melissa Morrell who has been
one of the sufferers from grip is
about again.

Ray Smith is very busy getting
the Dunham schoolhouse in shape to
open school next Monday.

Charles Dodge is loading pulp for
Haley & Field at Sandy River Sid-
ing.

DIES AT ADVANCED AGE OF 100 YEARS

The death of Mrs. Sylvina Wells,
who was 100 years old last Septem-
ber, removes the oldest person in
Franklin county. Another centen-
arian is Mrs. Sophronia H. White
of New Sharon who will be 100 years
old next August.

Mrs. Wells' death occurred at the
home of her stepson, J. C. Wells in
Madrid, on Wednesday, April 14.
The funeral services were held
Friday at 10 a. m., Rev. M. S. Hu-
chins of Phillips, officiating.

Mrs. Wells was the daughter of
Mr. and Mrs. Reuben Wilbur and
was born at North New Portland
September 6, 1814. Subsequently her
parents moved to Anson and a few
years later returned to North New
Portland. When the daughter Syl-
vina was 20 years old she was mar-
ried to Henry Wilbur of Madrid.
She became the mother of eight
children, of whom but three are now
living, William Wilbur of Chesterville,
Almon Wilbur of Rangeley; Mrs. Le-
ajah Taylor, Rangeley.

Having lost her first husband in
the early 60's, Mrs. Wilbur in 1868
became the wife of Aaron Wells of
Madrid. He died in 1892 and Mrs.
Wells has in her old age made her
home with his son, Joel C. Wells
of Madrid, where she has been kin-
dly cared for. She has generally had
good health and has been an indus-
trious, helpful woman. She had
been as well as usual since the early
part of the winter, Bright's dis-
ease having developed, but she did
not take her bed till the Saturday
before her death.

Mrs. Wells was of Revolutionary
lineage, her grandfather having
served in the war for the indepen-
dence of the Colonies. She herself
was born during the war of 1812.

Besides her children Mrs. Wells
leaves several grandchildren, in-
cluding the stepchild with whom she re-
sided and three others, viz., Chas-
ter and Eben Wells of Worcester,
Mass., and Mrs. Anna Robinson of
Avon.

WHITE HOUSE COFFEE

—SUITS WHEN OTHERS DISAPPOINT—

It's worth something—LOTS—to be ab-
solutely sure you will get your full money's
worth—when you are buying coffee. IF
THE NAME "WHITE HOUSE" is at-
tached to the package of coffee you pur-
chase, THERE'LL NOT BE an iota of
doubt.

Sure Way to Detect a Married Man. "It requires no peculiarly acute deductions to ascertain whether or not a man is married," said Sackville McKnutt. "Nearly every man carries his money in his right hand trousers pocket, consequently if the outer edge of that pocket is in a frayed condition from frequent entrance to the source of supply it is a cinch that the wearer is no bachelor."—Kansas City Star.

STREAM FISHING AT OX BOW

Ice in Aroostook Started and the Drive Will Soon Be On.

Oxbow, Me., April 19.

To the Editor of Maine Woods:

One hundred and forty years ago to-day, "the shot heard around the world," was fired at Lexington and Concord bridge. How young we are as a Nation, and yet how able to stand alone, and do many things well which were not even dreamed of by Nations centuries old when we were born. I have often questioned (secretly), whether some of our 20th century inventions might not rightly be called wonders rather than improvements? As to travel, I'd rather walk on foot (that's Irish) four blocks than to risk my life in an automobile; and as for a flying machine I'd rather keep my feet on "terra cotta," or on the deck of a seaworthy boat however rough the sea. Take the telephone, I can't maintain a decent line of talk and get the gist of the matter in hand although my hearing is just as sound as the best. Locomotives and patent couplers kill many innocent persons suddenly every year, thereby causing great economic loss. The trolley cars I can stand with considerable grace and much patience; they are the poor man's horse and carriage, and are run at a minimum charge for fares. But, after all, I love to walk provided the weather is fine, the going good and the scenery passably grand and attractive. For my part, I'd rather travel in the good old fashioned way, on foot or on horse back. The latter way I have never tried; but, having much leisure time, walking is my favorite exercise with some objective point in view.

All of this is a long way from "Tipperary" and "The Bow." Snow and ice still hold us in winter's grasp. Umculcus and Aroostook are still full of broken rotten ice. Hundreds of log drivers are encamped along their shores, waiting for the ice pack to start. One such camp is located near us, on Umculcus, where fifty to sixty men are quietly waiting for the word, go! Mr. John McLean is the employer, and Brother Hassam presides at the bean hole and the dough board. It looks to-day as if the river ice would start on its run, to the sea at any minute.

Stanwood, Iowa, Box M.

ute, and it is a part of our duty, as well as our pleasure to watch it go. The soil is saturated, like a wet blanket, with water. The melting snow in the forests makes all the downhill hills foaming brooklets; our one and only highway has been under water in many places and the wheeling is simply inconceivably bad to one used to asphalt roads and granolithic walks. Nevertheless, many four-horse wagons filled with rivermen go up to the Flatts every day; also heavy loads of provisions and provender.

Our two public schools will begin next Monday. Mrs. Archie Judkins of "the Bow" will have charge of the school on the ridge, and Miss Emery may preside at the west end of the village.

The new steel bridge over Umculcus is a piece of good work, substantial and useful.

Stream fishing has already begun, but we have yet to see the size and color of the fish. Not a worm has come up anywhere near the surface of the garden; in fact, we are scarcely able to put a spade down hill deep so wet and soggy is the soil.

Our three parishes of Masardis, Squa Pan and Ox Bow are now without a pastor, much to our regret. Who is responsible for a suitable pulpit supply we cannot tell, but probably the Maine Home Missionary Society is alert in all such matters affecting the public welfare. In the absence of any "Moore Theatre" we go to bed at 8 or 9 o'clock, and lay the fire about 5.30 a. m. next day. Hewing wood and drawing water, feeding poultry and going to and fro to the postoffice, besides writing the news for "The Maine Woods" and reading the daily papers, make up the round of duty each day which passes pleasantly in anticipation of splendid fishing now close at hand.

Please accept our heartfelt thanks for extra copies, and for a full set of aperi and stamped envelopes just received. We feel now like a regular "contrib."

P. S. Just as I finished writing the ice in Aroostook started, and the river drive will surely start to-day or to-morrow.

Yours Cordially,
J. C. Hartsborne.

MARRIAGES

NYOIL
FOR GUNS AND FISH-RODS

William F. Nye is the greatest authority on refined oils in the world. He was the first bottler; has the largest business and NYOIL is the best oil he has ever made.

NYOIL HAS NO EQUAL.

Beware of scented mixtures called oil. Use NYOIL on everything where a light oil is needed. It prevents rust and gives perfect lubrication.

Sportsmen, use it liberally on your firearms and your rod. You will find it by far the best. Hardware and sporting goods dealers sell it in large bottles (cheaper to buy) at 25 c. and in trial sizes at 10 c. Made by

WM. F. NYE,
New Bedford, Mass.

DRYDEN

April 21.

Wallace Virgin has hired with H. D. Harnden for the summer doing carpenter work.

Mrs. Florence Fish is working at Arthur Rowe's.

"Uncle" John Pickens is suffering with the grip and cold, which prevail throughout the town.

Mrs. Orin McKeene returned from Madrid last week, where she attended the funeral of her brother, Andrew Keene.

Mrs. N. E. Adams is threatened with pneumonia. A trained nurse from Portland came Tuesday evening. Mrs. Adams is improving slowly.

E. B. Davenport has hired with the Goodspeeds for the season. This will include the building of the new public library, a gift of the late Agnes Goodspeed.

The family of Mrs. C. M. Chatman are all afflicted with the trip.

Miss Hazel Davenport, who is training for nurse in the Central Maine has been sick for ten days with tonsillitis, Lewiston, and who silitis has again taken up her duties and has also been promoted to ward work.

Mrs. Frank Harnden and children and Mrs. Ida Davenport are visiting the former's daughter, Mrs. E. L. Hewey for a time.

Miss Angie Lovejoy of Salem who has been working for Mrs. N. E. Adams has been obliged to return home on account of sickness.

Gladys Chatman has returned to her studies at Wilton Academy.

Roland Ellsworth came from Weld Monday and is stopping at Mr. Davenport's for a time.

How Self-Starter Works.

The electric starting device used on all Regal cars is extremely simple in operation as in construction. The three requisites are a generator to produce the electricity, a battery which stores the electricity until wanted and a starting motor which turns the flywheel of the engine until the engine is operating on its own power. Incidentally, the generator supplies the current for the lights of the car as well. As soon as the first explosion occurs in the engine, the flywheel revolves at much greater speed which automatically disconnects the starting motor and draws the armature shaft out of mesh with the flywheel gear.

Corn cut at the dent stage of maturity has reached its maximum growth and silage made at this time has its maximum value.

Even under best of conditions calves are inclined to bark apple trees, and should not be turned loose in young orchards.

If milk contains large numbers of blood corpuscles or pus cells, it is an indication that the cow from which it was drawn is diseased.

CORRECT LENGTH FOR LEADERS

Leaders sold in the tackle houses, unfortunately for the anglers, are generally in lengths of three feet or a multiple of that length, three, six and nine. A nine-foot leader is a very inconvenient length to use on a nine-foot single-handed rod, and rods of nine feet are those most usually suggested for trout fishing over clear streams, according to an article recently published in Recreation. When two or three flies are used, a six-foot leader is too short. About the proper length of leader for a nine-foot rod is eight feet. Let us see how we can get around this little difficulty and always have a leader in proper proportion to the length of the rod.

For any rod, if you have your leaders tied to order, make sure that their length is a little less than the distance from the ring of the tip to the reel. But if you buy your leaders in six-foot lengths, tie up for yourself, or have tied up, some extra lengths of stout gut about two feet long for a nine-foot rod. Loop these links into the upper end of your six-foot leaders. If the rod is 10 feet in length, you can purchase heavy three-foot leaders to loop to your six-foot lengths and thus make leaders of nine feet. Of course you can buy nine-foot leaders, but you will find that heavy links of stout gut will outlast three or more of the finer leaders that must be used for work over clear, low streams. Thus by having a few two-foot links of stout gut for a nine-foot rod or similar stout gut links of three feet for a 10-foot rod, you can always use a leader of the correct length.

Waterproof Matches.

Before you go camping, or away on a voyage, prepare some waterproof matches, and see that they are always at hand. In a small tin vessel melt some paraffin, and, while it is still hot, dip the end of each match into this, and lay it out carefully until cool and dry. The coating of paraffin makes the match absolutely waterproof.—McCall's Magazine

Drink Water and Live a Century.

A Roumanian scientist claims that anyone can live to be one hundred years old, barring accidents, if he drinks enough water. He declares he has discovered that old age is due to a decrease in the amount of water in the system and that Father Time may be checkmated by systematic water drinking during middle age.

Ocean's Richest Prize.

Sperm whales are the richest prize of the ocean, yielding spermaceti from the cavities in their heads, ivory from their lower jaws and rich yellow oil from their sides.

PRACTICAL DEER FARMING

Some Points Given by John B. Burnham, President of the American Game Protective Association

I began my deer farm about three years ago. What I shall say will relate simply to my limited experience during this time.

In the first place, I want to say that Iowa would be the last place in the United States where a deer farm should be started. You want cheap land. You don't want expensive and valuable land that is better adapted to farming; and deer wouldn't do well on that character of land anyhow. Waste land brush country is the best. Our common Virginia deer is an animal that grazes very little, but gets its food by browsing. The poorest specimens I have seen have been kept where they could not browse.

We have in this country millions of acres of land particularly in the north and east, which are peculiarly adapted to deer raising. You cannot get any better land than the old hillside farms of New England or northern New York. The heaviest wild deer in the country, as you know, are raised in Vermont.

750 Acres Fenced In.

I began three years ago by fencing in a tract of 750 acres of land. I have a tract of about 4,000 acres in the eastern Adirondacks where I am trying out various experiments along the line of sheep raising, forestry and one thing and another, all with the view of making each experiment carry itself. I have been planting trees, for example, for about ten years, and at the same time getting a revenue from lumbering. I have been raising sheep and have been experimenting in various ways. The requirement in each instance has been that each experiment pay for itself.

This matter of raising deer is an eminently practicable thing. It is a good business proposition. These 750 acres of land which I fenced was of a character that could not have been employed in any other branch of farming. It was not suitable for pasture. It was mostly brush with little clearings. The fence was put up at an expense of a little more than \$200 a mile. It was similar to that Mr. Dieterich has around his park at Millbrook. The fence was nailed so far as possible to growing trees, because a high fence pries out posts and trees are more satisfactory. That, of course, saved a very considerable amount of expense. I carried the fence over a mountain 1,500 feet high. In spite of the fact we had hard conditions, we put up five miles in eight days with fourteen men. The law of New York requires a fence at least seven feet high.

After putting up the fence I stock-

Nothing Better

than bread and butter—when the bread is made from William Tell Flour. Nothing more wholesome, either, or a better food for growing children, because William Tell is made from Ohio Red Winter Wheat, richest in nutritive value.

Milled by a special process, William Tell goes farther. More loaves to the sack in addition to wonderful bread making qualities.

C. H. McKenzie Trading Co.,
Phillips, Maine.

ed the park with deer from various sections of the country. Most of them came from Michigan, from the Cleveland-Cliffs Iron Co., at Negaunee. These put down in northern New York cost me about thirty dollars. I bought them by the carload. I also bought some deer from Austin Corbin, Newport, New Hampshire, which cost approximately the same amount delivered. I bought deer from four or five other men in lesser numbers.

In addition to putting out the white tailed deer I also procured a few European red deer. They are similar to our elk. In fact, the species interbreed. Elk, of course, are heavier but the red deer has better characteristics. It is not quite so pugnacious.

Tract Will Support 100 Deer.

The deer have had nothing but the natural food of the tract, with immaterial exceptions. I think that 750 acres will support one hundred deer in good condition the year round. This winter the deer are in splendid condition. Last winter we had about four feet of snow at one time and even in the face of that condition the deer never got so you could see their ribs. I had no deer die due to weather or lack of food.

I have cut some hay on an old beaver meadow and have made it a little more palatable to the deer by salting in order to induce them to eat it. The only hay naturally acceptable to Virginia deer is clover and alfalfa; must be taught to eat other kinds.

From time to time each winter we cut a certain amount of cord wood on the tract. This is commonly done in February or March, and the deer enjoy browsing around and eating the tops. I have seen sixteen deer feeding around the tops at one time. By cutting over a few acres each year a rotation of sprout growth is furnished.

Evergreen is Necessary.

In selecting land for a deer park care should be taken that it include a certain amount of evergreen as well as hard wood, and the hard wood growth should not be old growth unless the plan of cutting down a certain portion each year is followed. In addition to this, I think it most desirable to have a certain amount of hemlock and cedar and to a lesser extent balsam. Our native deer love above all winter food the white cedar. They will trim that up before they will eat anything else. They like also the so-called juniper, a low bush with a leaf very much like the red cedar. Next of evergreens on their preferred list one might mention the Canada yew, a bush something like the juniper. Next the hemlock is the favorite food. After hemlock, the balsam, and when you mention these you have completed the list of suitable evergreen foods.

Deer travel a long distance to get something that is in the nature of a variety, and if they have the hemlock and other evergreens in addition to the hard wood browse they keep in the best condition. We have some of the deer tamed so that they will come out and eat while we are near. In summer an acre of land will support a deer, but the year round eight or ten acres is probably the least amount of land that will support one of these creatures.

In laying out a deer park care must be taken to select a country that has not too heavy a snow fall. In the central Adirondacks and in portions of Michigan and Maine, otherwise admirable countries, the snow fall is so heavy that the deer in winter are limited to narrow areas.

Poachers a Problem.

Then, too, a location in which one will not be bothered too much by poachers is imperative, as it does not pay to spend money for watchmen. It is necessary, too, to put up a fence that dogs cannot get through.

The Virginia deer I think is probably the most satisfactory for raising for market. After the first year, when the doe drops the fawn, she will generally average two; occasionally she has three. Under favorable conditions one should be able to count on an increase of one and one-half fawns for each doe. The red deer and the elk drop only one fawn at a time. One of my

adult red deer hinds has failed to drop a fawn for two years.

Red Deer Destructive.

I have not been at all satisfied with the red deer because they are the most destructive of their tribe. They eat the tender bark from apple trees and break off the tops of small trees. The browsing of the deer has improved the land from a forestry standpoint with the exception of the depredations of the red species, as noted above.

Our most valuable timber crop is the white pine. This does not flourish in the shade of other trees. It needs lots of sunlight. I have fifty thousand young pine transplants set out. The deer don't hurt these at all and under no condition will they browse on them. They do perform the useful function of destroying the hard wood shoots which would otherwise shade and kill the young pine trees. They open up the soil for the seeding of these trees. Even so far as the browsing on the hard wood is concerned they do no particular damage because hard wood grows too many sprouts from the same stump. From the money standpoint, the land is not suffering at all from the pasturing of deer.

Contrast With Stock Farming.

For other stock a farmer would be put to a great deal more expense than is necessary in carrying deer. He would have to have hay and barns in which to store it. More help in feeding during the winter would be required. In our country stock has to be fed at least six or seven months of the year. The nearest parallel to deer raising among farm animals is to be found in sheep in our country. We turn the latter out during the summer over the hills and in winter bring them up and feed them. Under the most favorable circumstances the wool will not quite pay for the expense of wintering a sheep. Lambs bring us about \$3.50 a head which is the profit. With the deer, if conditions are as I hope they will be, the profit should be at least \$15 or possibly \$20 a head a year. The increase should be one and one-half deer for the doe. Put it at one deer for the doe. When three years old the carcass will bring anywhere from \$30 to \$50 on the New York market.

The expense of conducting the enterprise is light. It costs about \$130 a year for watching. I keep a man in the park every day during the hunting season. The rest of the time he goes around the fence about once a week. The license from the state of New York costs \$5 and I have spent a small amount for cutting hay. The total expense is not much in excess of \$160 a year, and an income of \$1,500 or \$2,000 a year should be realized from my herd of 100 deer this fall.

SWAN LAKE SALMON ARE ANXIOUS TO BE CAUGHT.

Not for ten years, say the Isaac Waltons, has there been such fishing at Swan lake as this year. Although the ice went out only on Sunday of last week some big catches have already been made.

The other morning Dr. Hugh Harris and P. M. Lawrence of Augusta, with L. M. Young of Bangor, took out ten salmon trout before breakfast, the smallest a pound and a half. Before lunch they had landed several more.

On Sunday several salmon running from four to five pounds were landed.

Many claim that the screen, which was recently installed at the dam on the lower end of Swan lake or Goose pond, as it was originally called, is responsible for the increase and size of the fish this year. Years past many of these big fish went down over the dam and many were destroyed by the mill wheels several miles below. Now, with the screen, the fish are kept in the pond with the result, many believe, that there will be better fishing than has been enjoyed for ten or 15 years.

Although nothing as yet has been reported for big catches at Georges lake, Liberty, the ice went out on Sunday. Some of the biggest fish ever caught in this vicinity have been taken from Georges and the pond is a popular resort.

MAYOR VILES' STATEMENT

There have been articles in some of the papers in the state, criticizing Mayor Blaine S. Viles of Augusta for the purchase of fire extinguisher equipment, by him while Forest Commissioner. In a recent edition of the Kennebec Journal Mayor Viles makes the following statement of facts:

Mayor Blaine S. Viles has given out the following statement in regard to the purchase of fire extinguisher equipment by him while Forest Commissioner:

Editor Kennebec Journal:

Considerable has been said recently in regard to the purchase of fire extinguisher equipment. I hope that everyone intends to be entirely fair in this matter, although much that has appeared in print has been untrue and misleading.

When the Legislative order for an investigation of my administration of the office of Forest Commissioner was introduced it seemed to me best for the public to gain its information from that official source, but a Democratic House in open session decided that there was nothing to investigate. The order was unanimously turned down.

Among fair men of all political parties that should have ended the matter, but as certain writers have continued to make reference to matter which the Legislature refused to take up, I have decided to make a plain statement of facts, that my friends who do not know the circumstances may not be misled.

In the beginning it is but fair to state something of the duties of the Forest Commissioner. He is charged with the protection of about nine and one-half million acres of forest land from fire. This property is probably worth between seventy-five and one hundred million dollars. The forests are of the utmost importance to the State. They regulate the flow of rivers, protect water-powers, furnish a home for the fish and game, yield enormous amounts of timber, give employment to thousands of men, and make the State of Maine a good place to live in. The protection of these forests is one of the most important conservation matters before the people to-day.

Up to within a few years the importance of preventing forest fires has not been fully appreciated, but recently as their value has been realized and the timber supply of the State has gradually decreased, a great deal of attention has been paid to the subject.

The wild land owners of the State are assessed a tax of one and one-half mills for fire protective purposes and this fund, amounting to about seventy thousand dollars yearly is at the disposal of the Forest Commissioner.

Improvements are being made each year in the service, for it will be appreciated that the protection of nine and one-half million acres of forest property requires suitable equipment and improved methods.

During the two years that I was Forest Commissioner many improvements were made. The number of lookout stations was increased from 27 to 55. Over 300 miles of telephone line was constructed. Many new features were added and during these two years the forests of Maine suffered very small damage by fire. should be protected and also New steel towers were erected on mountains for lookout purposes, comfortable camps for watchmen and wardens constructed, and the service was brought up to a high degree of efficiency.

Numerous new appliances were considered and it was thought that some form of fire extinguisher should be adopted. It was thought that the camps on the mountains, which had been constructed at considerable expense and are removed from water and liable to destruction by fire, that patrolmen travelling localities where fires are the most likely to occur should have some means of extinguishing small fires.

I shall not here discuss the merits of various extinguishers but will say that the powder form was considered practical for woods use. The purchase was under consideration more than a year, and I had planned last season to buy some extinguishers for use this year. The State administration changed the first of the present year and I deferred purchasing the same thinking that my

successor would be appointed. Time went on and no appointment was made and the time came when it was necessary to place the order as considerable special equipment was to be included, so that everything would be ready for the fire season when it opened this spring.

I then called in State Auditor Sullivan, as a representative of the Democratic administration, and the proper official to take up expenditures with, and explained the circumstances to him. He advised placing the order and approved the same in writing.

Besides the powder the order included 200 knapsacks, 200 metal containers to go inside the knapsacks holding about twenty pounds each, and 100 metal barrels for storage purposes. The price agreed upon between the Auditor, myself and the sellers was ten cents per pound for the extinguisher with equipment included, so that the actual price of the powder was considerably less than ten cents—probably about six cents per pound. This order was placed before I became, or intended to become, a candidate for Mayor of Augusta. There were no politics in it whatsoever.

As to the price paid, I will say that the extinguisher retails for about a dollar a pound, I understand. The City of Augusta, I am informed, paid about sixty cents per pound for a supply under a Democratic administration. I did not have an analysis made of the extinguisher any more than I would have of any other article. The price paid was less, I believe, than any other purchaser has paid.

It is not expected that this will put out forest fires after they have gained much headway. It is a fact, however, that it will effectively put out small fires. Nothing but rain will extinguish a raging forest fire running through the tree tops, and this fact makes it all the more important that forest fires should be put out before they gain much headway.

The extinguisher was not paid for before it arrived in Augusta and the freight bill attests this fact. It is a practice for the retiring Forest Commissioner to pay his bills before leaving office, and the bill for this extinguisher was paid by me before turning over the office to my successor.

This extinguisher has the endorsement of many prominent and reliable men of Augusta and the State who have seen it work.

As to the amount purchased one pound to each five hundred acres of land does not seem to me to be an unreasonable supply.

The facts are that this extinguisher will put out camp and grass fires when taken in time, and forest fires before they have gained considerable headway. One forest fire may cost the State untold loss in timber destroyed and a section ruined in practically every way for many years to come, and if only one large fire is prevented it will prove a good investment.

The transaction was regular in every way.

BLAINE S. VILES.

Perley Lawrence and Charles P. Kinsman of Augusta, who have been enjoying the salmon fishing at Swan lake, near Belfast, returned home and brought with them a good string of fish. Mr. Lawrence had a lot of 15 fish, all but two of which were salmon and the largest of which weighed 5½ pounds.

HEALTH and Happiness

demand a properly functioning body and a clear-thinking brain. Nothing so quickly clogs both brain and body as constipation. Irregular bowels induce sluggishness in mind and muscle.

A teaspoonful of the famous "L. F." Atwood's Medicine, taken before or after meals, relieves the worst case of constipation in the shortest time, as Mr. J. W. Cady's letter tells:

National Military Home,
Togus, Maine.

"I first used 'L. F.' Atwood's Medicine 40 years ago, when I came from the army. It relieves constipation and keeps the bowels regular. For dizziness and loss of appetite, it is a superior remedy. If people would only try it, they'd be convinced."

A New Questions and Answers Department of Interest to Shooters

PLENTY OF INTEREST IN TRAP-SHOOTING.

I have been receiving questions lately in great quantities relating to almost every possible department of trapshooting. One man wants to know what gun to use, another, how to organize a club, a third the rules and regulations.

The sport seems to be vital and to be growing in popularity each year. It isn't necessary to look very far for a reason, any more than it is for the popularity of baseball. Both games make a direct appeal to the red-blooded American. Trapshooting offers good clean snappy sport and recreation in full measure. It is different. Trapshooting has little in common with other sports except in that it trains the nerves and develops a high degree of mental control. Experts have agreed that recreation in the modern sense consists in as complete a change as possible and this trapshooting offers in the greatest possible degree.

C. G. C., Clinton, Ia.

In trapshooting, which is preferable, to sight with one eye, or to shoot with both eyes open?

Ans. Shooting with both eyes open is generally considered the better practice.

2. Would you advise a man to attempt to change his style if he has always been accustomed to sighting with one eye?

Ans. Why not try shooting with both eyes open for a while and see what kind of results you can obtain.

3. Which do you consider the preferable weapon for trapshooting, a single gun or a double gun?

Ans. The consensus of opinion seems to favor a shotgun having one barrel, as it gives more clearly defined sighting and eliminates any chance of cross fire.

4. Is the single trigger feature of some makes of double guns anything more than a novelty?

Ans. Single triggers on double barrel shotguns are, of course, not a fool-proof as two triggers, but they will give satisfactory service.

5. Providing nitro powder is always used, will the barrels of a shotgun suffer any if never wiped out?

Ans. There is but one rule to follow in the handling of firearms—Clean the barrel when the shooting is over. Good results cannot be obtained by any other method. Nitro powder in shot shells is not quite so destructive as black powder, but the barrel will certainly suffer if never cleaned.

6. Will teal ducks plunge headlong into decoys?

Ans. Teal ducks are peculiar in that sometimes they do apparently plunge headlong into the decoys.

7. Do ducks rise from the water with or against the wind?

Ans. Ducks always rise from the water against the wind.

G. G. Pittsburg, Ont.

1. I have a .25 calibre rifle—rim fire—with a Rocky Mountain front sight and open sporting rear sight. How must I adjust the rear sight for the number of yards? It is in the notch now and there are four more in front. The barrel is 24 inches long.

Ans. Owing to the variation in shooters' eyesights, the rifle makers do not adjust the sights for any set range, leaving this to be done by the shooter. I would suggest that you try your rifle out at various ranges and mark on the notches the ranges suited to your own eyes.

2. What is the range of a .25 long cartridge used in this rifle? Or a .25 short?

Ans. The .25 rim fire cartridge has an accurate range of from 200 yds. The .25 short is accurate up

to 50 yds.

3. Which is the most powerful, black or smokeless powder?

Ans. The .25 rimfire cartridges are not furnished loaded with smokeless powder so comparison is therefore impossible.

4. Could you tell me where I could get a book on the shotgun and rifle, dealing with their history, construction, etc.?

Ans. There are a number of good books on the shotgun. "The Gun and Its Development" by W. W. Greener, published in England, is exceedingly good, but of course is somewhat biased in favor of Mr. Greener's own guns. Another book is "Modern Sporting Gun" by Henry Sharp. This book is very good, but is however, suspiciously partial to Westley Richards guns. Of books published in the United States, "The American Shotgun" by Chas. Askins is perhaps the best, and does not favor any particular make.

D. C. Bisher, Mont.

1. I am very much interested in the .22 High Power. How does this arm compare with the 30-30 in killing big game?

Ans. The .22 High power cartridge is a deadly killer if conditions are just right, otherwise erratic results may be expected. The 30-30 cartridge has more energy and is more uniform in effect, although neither of these cartridges can be strictly considered "big game" cartridges, their power being good up to and including deer.

2. They say the .22 Hi-power is an all around gun, then what ammunition of less power can be used in it besides the full powder load for small game, etc.

Ans. The .22 Long Rifle cartridge may be used. The accuracy is not particularly good, however, owing to the rapid twist.

B., Auburn, Me.

1. How many grains of Sharpsnooter will give the same velocity and energy in 38-55 cartridges as in the high power cartridges put out by the factory?

Ans. It is impossible to answer this question definitely, as each lot of smokeless powder will vary slightly, and not only that, but the loads in different lots of cartridges as sent out by the factory may vary owing to the fact as stated above that the powder does not remain constant. It is necessary to carefully test each load. Write to the powder company manufacturing the powder you mention and they will give you complete instructions for using it.

2. Give the address of the National Projectile Co., making a wire patch bullet.

Ans. I cannot find a company of this name listed anywhere. As far as I can recollect, there was a bullet wound with wire made at one time, which worked satisfactorily for mid-range or light work, but did not work properly for full charge work.

C. A., Connecticut.

1. Will the 32-20 Colt Police Positive Special use the 32-20 Hi-velocity cartridges successfully?

Ans. Hi-velocity ammunition is not recommended for use in revolvers, and you would be running great risk in using same.

2. Which cartridge is the most effective as a killer, the 32-20 H. V. or .38 S. & W. or Colt Special cartridge?

Ans. The .38 S. & W. or Colt Special cartridge are more powerful than the 32-20 black powder, or low pressure smokeless powder, and as the 32-20 high velocity could not be used, the .38 S. & W. or Colt's Special cartridge is more powerful.

3. Can you give velocity and trajectories of the .25 Rem. rimless

Spitzer point cartridge at 100 to 300 yds.?

Ans. The height of the trajectory at 50 yds. when fired at 100 yds. is less than one inch. At 100 yds. when fired at 200 yds., it is just over nine inches.

4. Is the .25 Rem. made in the Spitzer bullet with soft point?

Ans. No.

5. Can you give trajectories of a 16 gauge shotgun, cylinder bore, using 16 gauge round balls, at 100 and 200 yds., also 20 gauge.

Ans. I have not the figures at hand for the solid ball load as used in 16 and 20 gauge shotguns. The trajectory at 200 yds., however, would be very high. Accuracy practically does not exist over 50 to 75 yds. No good results could be obtained at 200 yds.

6. Ans. Buffalo, N. Y.

7. What is the lightest weight rifle made handling the .30 cal. '06 cartridge?

Ans. There are two or three foreign bolt action rifles weighing about 7 lbs. I think these are the lightest handling the .30 cal. '06 Government cartridge. These rifles can, of course, not be secured at the present time. The recoil of the Government cartridge makes the Government rifle weighing 8 1/4 lbs., no toy and I should imagine the recoil of a 7 lb. rifle would be quite some.

8. Is the 6 m. m. Lee cartridge made in Spitzer S. P. bullets?

Ans. No.

9. Is the 25-20 H. V. cartridge very accurate? Will it put all the bullets in a 6 inch circle at 100 yds.?

Ans. It is not particularly accurate, but I think it would probably make ten shot groups of 6-inch at 100 yds.

10. Is the 25-20 H. V. powerful enough for deer, up to 100 ds.?

Ans. It is not so considered by the majority of hunters.

Alfred P. Lane

WANT ROAD BUILT THIS SEASON

County Commissioner O. E. Libby was in Skowhegan recently having come here from Augusta, where he had been in conference with the State Highway Commissioners relative to the proposed Jackman-Kineo road. The most of the residents of northern Somerset county it is understood are anxious to have this highway built this season and are desirous of beginning on the same right away, because if the work is not begun until July, the road will not be fit for travel this summer. On good authority it is stated that the towns of Long Pond and Jackman will put all of their appropriations and the Kineo people will come forward with their \$10,000 right away. If the county can put up its share, Landlord Judkins of the Kineo House thinks he can arrange with his people to advance the \$12,000 which the State would furnish in 1916, and thereby make the whole amount available this season. It is to be recalled that the State was to pay \$10,500 this year and \$12,000 next year.

The Highway Commissioners are to take this matter up with Governor and Council.

Commonwealth Hotel Inc.

Opposite State House, Boston, Mass.
Offers room with hot and cold water for \$1.00 per day and up, which includes free use of public shower baths.

Nothing to Equal This in New England

Rooms with private baths for \$1.50 per day and up; suites of two rooms and bath for \$4.00 per day and up.

THE SHY TROUT STILL SLEEP

Springfield Fisherman Will Cast the Hook at Lake Sunapee

The trout season opened the 1st, but the trout have remained singularly unmindful of the fact. There have been some good catches for so early in the season, but in general the trout have shown little inclination to grasp the opportunities so temptingly dangled before them. They have opened one eye, looked up from the holes and hiding places where they have spent the winter, and have decided that the upper waters are too cold and not wet enough for them, and so have rolled over for another nap. That is, all but a few adventurous spirits have acted this way. These few have flirted with the early hooks in sufficient numbers to lead the fishermen to look for a good season when it does really start.

What the fishermen, like the farmers, are looking for is a good soaking warm rain. Trout like to feel the warm water and see it getting higher and higher and rushing along as if something were after it. Then the trout begin to get excited also and decide to climb out of their winter quarters and look into the situation a little. They find all sorts of nice things to eat floating around on top and they forget everything in their eagerness to get some of the free lunch while it lasts. Then all at once they find that they've taken up with a proposition with a string to it, and somebody has trout for supper.

In spite of the fact that all the fishermen complain that the season has been too dry and cold, there have been some good strings brought home. Robert W. Day, for instance, caught 18 one day and 12 the next in the South branch recently. Not bad at all, though of course the fish have not yet the flavor and plumpness that a little of Mother Nature's spring supply of worms and insects will give them later. In fact, there are some fishermen who contend that the season ought not to open before May 1 in order to give the fish a chance to show their interest in the sport by putting on extra weight. Other fishermen besides Mr. Day have had similar luck, but none of them are bragging much. They are saving their strength for later in the season.

Lake Sunapee, to which the thoughts of many fishermen turn at this time of year, is still wearing an overcoat of a foot or so of ice, and according to George H. Graham is not due to shed this winter garment until after the 20th. Then the fishing there will begin and no doubt many Springfield experts with the rod will make the trip north after a creel full of sea food. The members of the Canada fishing clubs also report that their favorite fishing waters are still icebound, but warm weather, combined with warm rain, will soon set a lot of tall stories going the rounds.—Springfield Republican.

YOUNG PUPILS MAKE RAPID PROGRESS

A useful citizen of Newark, N. J., is George W. Amos, who, like his father before him, has trained the citizenry of an important portion of his native State in the proper handling and use of firearms.

Only a few days ago a situation arose in Newark which Mr. Amos helped to adjust, according to the Sunday Call, of that city, which tells the story as follows:

"Recently a group of boys in Central High got together and discussed

the matter of rifle shooting. As a result they sought the sanction and the practical assistance of the public school authorities. This they were unable to obtain. After further discussion of the subject they decided to get the desired instruction through their own efforts. They communicated with Mr. Amos, who has had wide experience in the use of firearms and the giving of shooting instruction and an arrangement was soon made. Anxious to encourage the lads, Mr. Amos agreed to give them the time necessary for their instruction without compensation and to provide the rifles and the targets, and to further their ambitions in the shooting line in any way that he could. The boys agreed to buy their own ammunition and to attend practice meets regularly.

"Use of the shooting range on the third floor of the Third precinct police station was obtained and a few weeks ago the first meet and shoot was held. Some of the lads were familiar with the handling of rifles and others had never undertaken to use one before. Their regular periods for instruction and practice are

GEORGE W. AMOS

Tuesday afternoons, after school hours, usually from 4 to 6 o'clock, and as much later as the light will permit.

"From the first they have done well, but each week there has been an increase in their efficiency, and their scores have improved steadily. Each of the boys fire ten shots at each target, without rest and at the usual indoor rifle range distance. In three months some of the boys have made what Mr. Amos characterizes as wonderful progress. That this is true is shown in a few of the sample targets given herewith. It is expected that they will improve even more as their practice continues. They and Mr. Amos are equally enthusiastic and the Tuesday practice is attended by an average of about fifteen of the seventeen or eighteen boys in the first class or squad to be formed.

"Later it is expected to enlarge the class, and when it grows to sufficient numbers two or more practice squads will be formed. It is expected that eventually there will be a hundred or more of the Central High boys under instruction in rifle shooting. Mr. Amos regards this particular form of instruction as of great value in many ways. He is an expert of long standing, having been a close follower of rifle practice and the shooting game in general for the last thirty-five years.

"His father was one of the founders of the Newark Shooting Society, which was the first of a series of shooting organizations which made their headquarters in the old Shooting Park in this city several generations ago. As a young man he had the benefit of the instruction of his father and association with the best shooters of those days, including the late William Hayes, and of John Coppersmith, August Begerow and others of the days when they were leaders among the target shooters of the country. Mr. Amos has at times during the last few years been connected with military rifle practice in National Guard regiments, and some years ago was the first instructor of police in revolver practice in this city, and inspector of arms."

Mr. Amos shows some remarkable targets made, with Remington-UMC ammunition, by his pupils. Many of these exhibits are worthy of marksmen of long experience.

But That's Serious.

Some girls seem to slip along through life without any more serious worries than how to keep the shoulder straps of their evening gowns in place.—Columbus (O.) Journal.

Where To Go In Maine

Lake Parlin House and Camps

Write for booklet.

H. P. McKENNEY, Proprietor,

Jackman, Maine

Are delightfully situated on shore of Lake Parlin on direct line from Quebec to Rangeley Lakes, popular thoroughfare for automobiles being a distance of 122 miles each way. Lake Parlin and the 12 out ponds in the radius of four miles furnish the best of fly fishing the whole season. The house and camps are new and have all modern conveniences, such as baths, gas lights, open rock fireplaces, etc. The cuisine is unexcelled. Canoeing, boating, bathing, tennis, mountain climbing, automobilizing, etc.

YORK CAMPS, RANGELEY, MAINE J. LEWIS YORK, Prop.

FISHING AT John Carville's Camps at Spring Lake

Salmon, square tailed and lake trout. My camps are most charmingly situated on the shores of Spring Lake, well furnished, excellent beds, purest of spring water and the table is first-class, elevation 1,800 feet above sea level, grandest scenery and pure mountain air. Hay fever and malaria unknown. Spring Lake furnishes excellent lake trout and salmon fishing and in the neighboring streams and ponds are abundance of brook trout. Buckboard roads only 2-12 miles. An ideal family summer resort. Telephone communications with Ellsboro and doctor. References furnished. Terms reasonable. Address for full particulars, JOHN CARVILLE, Flagstaff, Me.

Blakeslee Lake Camps

JOSEPH H. WHITE, Proprietor
A famous resort for anglers and hunters. Write for illustrated booklet and map. Address, Oct. 15 till May 1st, Skinner, Me. Summer address, Eustis, Maine.

WEST END HOTEL H. M. CASTNER, Prop'r. Portland, Maine

Thoroughly first class. The hotel for Maine vacationists, tourists and sportsmen. All farm, dairy products, pork and poultry from our own farm, enabling us to serve only fresh vegetables, meats, butter, cream, eggs, etc. American plan. Send for circular.

BELGRADE LAKES, MAINE. The Belgrade. Best Sportsmen's Hotel in New England. Best black bass fishing in the world, best trout fishing in Maine. CHAS. N. HILL & SON, Managers.

THE ATTEAN LAKE CAMPS

Unsurpassed fishing, hunting, canoeing, bathing and mountain climbing. Separate camps for all parties, with special accommodations for families. Sixteen trout ponds of fly and bait fishing, and a never end of rivers and streams. Automobile tourists wishing to visit ATTEAN CAMPS, may come to Holden's Garage, one mile from camp, where motor boat will meet parties. Map and booklet of my territory on request.
RUEL E. HOLDEN, Jackman, Maine

Central House Belgrade Lakes, Me.

This well-known house will open May 1st to the early fishermen, and the regular summer business under old management.

Round Mountain Lake Camps. Write for free booklet. DION O. BLACKWELL, Proprietor, Round Mountain, Maine

To Let for the Season COTTAGE ON RANGELEY LAKE

Also motor boat. In the heart of good fishing and hunting. Write I. W. MITCHELL, Rangeley, Me.

THE CARRY POND CAMPS

Will be opened May 10, 1915. Best of Trout Fishing. Good accommodations. Write for circular.

HENRY J. LANE,
Carry Pond, Maine, Via Bingham, Me.

OTTER POND CAMPS

Are open to accommodate sportsmen for fishing and hunting. Send for circular.

Best Salmon and Trout Fishing in Maine. Fly fishing begins about June 1. Send for circular. House always open. JOHN CHADWICK & CO., Upper Dam, Maine.

DEAD RIVER REGION

The Sargent. Up-to-date in every particular. Maine's ideal family vacation resort. Good fishing and hunting section Cuisine unsurpassed. E. F. Look, Prop'r, Eustis, Maine.

MOOSELOOKMEGUNTIC HOUSE AND LOG CAMPS. Heart of the Rangeleys. Best fishing region. Special June and September rates. Booklet. MRS. F. B. BURNS.

VAUGHAN CAMPS

The Spectacle Lake Camps, which are known as the Kibby Camps, have been purchased by me and are open for Fishing and Hunting for the season of 1915. An ideal family summer resort. Telephone connections. A most beautiful climate during the summer months; cool, even and invigorating. Finest Deer Hunting in the State of Maine. Good Stream and Lake Fishing. Prices reasonable. For full particulars, address

FRANK R. VAUGHAN, Prop., EUSTIS, MAINE

ROWE POND CAMPS

These camps will be opened in season for the spring fishing. Everything attractive to be found in the Maine woods, will be found here. Great family resort, from June to October, or any time. Try it, and be sure you have found the right spot. Write for booklet to

H. W. MAXFIELD,
Rowe Pond, Me.

IN THE RANGELEY REGION

Saddleback Lake Camps, only one and one-half miles from the railroad and three-fourths mile from good auto road. Trout fishing, both lake and stream. Rates \$12.50 to \$15.00 per week; \$2.50 per day. Booklet and references. For particulars address

HEMON S. BLACKWELL,
Dallas, Maine.

CAMP FIRE GIRLS' ORGANIZED

Another Annual White Ball Successfully Carried Out by Rebekahs.

(Special Correspondence.)

Rangeley, April 22.—Mrs. Will Grant was in town the latter part of last week.

Mrs. Ed Lamb was operated on at Dr. Ross' private hospital for appendicitis last Saturday. Mrs. Lamb is rapidly recovering.

A. M. Hoar is building a garage for G. Lafayette Kempton to accommodate the new eight cylinder Cadillac recently purchased by Mr. Kempton.

Mrs. Arthur Gile and Mrs. Walter J. Bush are on the sick list.

The White Ball given under the auspices of the Rebekahs last Wednesday evening was much enjoyed by all who attended. The decorations were pink, green and white. Mr. Zachariah assisted with the light shades which formed the pink and green part of the decoration. Music was furnished by Prof. Cohen's orchestra of Rumford. Refreshments of ice cream, cake, coffee and punch were served. This White Ball is an annual event much anticipated in social circles and this one was up to the standard. The committee in charge consisted of Mrs. E. B. Herrick, Mrs. C. M. Cushman and Mrs. I. D. Hoar.

H. O. Huntoon has entered the employ of O. R. Rowe.

The postoffice has been receiving a fresh coat of paint on the interior at the hands of I. W. Mitchell, the decorator. The outside front has also been touched up.

H. C. Riddle returned from Boston Saturday night.

A local order of Camp Fire Girls has been formed in town. The society is divided into two parts, Everdeen Robbins being one captain and Aletha Childs the other. Miss Katherine Nice is the leader. The following are the members: Elizabeth Oakes, Bessie Huntoon, Miriam Huntoon, Everdeen Robbins, Leora Tomlinson, Pauline Rector, Aletha Childs, Elinor Moore, Lucille Huntoon. President, Elizabeth Oakes; secretary, Elinor Moore. Saturday the girls enjoyed a trip to Ross Cove and prepared the following dinner out of doors: Fried potatoes, bacon and eggs, cake, sandwiches, bananas, chocolate. Miss Beatrice Jones was an invited guest.

E. L. Haley left Tuesday morning for a trip to Florida on business. Mrs. Haley will visit with relatives in Lewiston during his stay.

Mr. and Mrs. W. F. Oakes have returned from their recent trip to Portland.

Miss Mildred Robertson returned Friday to Bates College.

Mr. and Mrs. J. B. Stewart left Tuesday morning for Parkhurst's Camps where they will remain for the coming season.

Rev. W. S. Coleman will preach the annual sermon to the Odd Fellows and Rebekahs Sunday, April 25.

Mrs. W. S. Lovejoy has gone to Strong where she will make her future home. Her son, Albert will remain with Mrs. L. D. Nile until school closes.

Mr. and Mrs. C. B. Harris have returned from Salem where they

have been the past winter. They have rented the Frank Stewart house for the summer. Mr. Harris is working in the mill at present.

Miss Sadie Pickens has gone to Grant's Camps for the summer, where she has employment.

Irving Wilbur has moved his family into the Otto Wilbur house on Main street.

E. C. Hinkley is driving an attractive new grocery wagon.

Samuel E. Clark is boarding at A. L. Oakes'.

Melvin D. Tibbetts has purchased the Chas. Guild, Jr., house on Cross street.

E. B. Herrick is at Hobart's camps this week, getting the spring work done up.

Mr. Dunham, who is to conduct a restaurant in the Munyon building during the summer is in town.

Mrs. Clara Rector is at Phillips, where she has employment cooking.

Mrs. C. H. Neal and son, Maxwell left Tuesday morning for Portland.

Mrs. Austin Hinkley has so far recovered as to be able to ride out.

W. E. Tibbetts is in Portland on business this week.

H. F. Amber was at Grant's Camps for the week end holiday.

Lynwood Ellis has moved his family into the tenement in the Tavern annex.

A. C. Dunton recently employed by S. A. Getchell has returned to Rangeley with his family.

J. B. Madden has purchased the Leon Robbins lot on Pleasant street and will build the coming season.

Capt. F. C. Barker, who was recently ill at the home of his daughter, Mrs. Ray Harnden is much improved in health.

J. D. Vaughan spent the recent school holiday at Portland. Miss Lina C. Weeks and Miss Vera Adams visited at their respective homes.

E. I. Herrick has purchased of W. E. Tibbetts the building formerly occupied by A. M. Hoar & Son and will remodel it in up to date fashion.

Chester Robbins and Wilbur Smith of West Mills were in town the past week.

Norman Huntoon returned from Lewiston Wednesday night much improved in health, after the recent operation which he underwent at the hospital.

Work is being pushed rapidly on the W. A. Garrigues Camp, being built on the shore of the lake. The contract was awarded to A. M. Hoar.

Thursday evening at Lake View Temple, Pythian Sisters, the following were admitted to membership: L. D. Haley, Leon E. Hoar, Frank B. Stewart, Ray Smith, Herman Huntoon, John Ross, Mrs. Bertie Ellis and Mrs. Onie Ross. Ice cream, cake and coffee were served at the close of the work by Mrs. Henry Badger, Mrs. Leslie Abbott, Mrs. H. W. Brown.

A jolly party of ladies tendered Mrs. H. A. Furbish a "White Party" in celebration of her birthday Saturday evening. The affair was certainly a surprise and for once the genial hostess could not find adequate words to express her thoughts. Ladies only were invited but from some mysterious source six "gentlemen" appeared on the scene. Mrs. Furbish was presented with a beautiful bouquet of white carnations to which the following verse was affixed:

Elizabeth:
Your jolly friends dolled up in white,
Bring you sweet flowers of the purest white.

May we play whist with all our might,
And come again some Saturday night?

The ladies present were the Mesdames: Marion Tibbetts, Cora Porter, Alice Herrick, Ada Sprague, Bertha Patterson, Lou Mathieson, Minnie Cushman, Marie Colby, Josie Hoar, Helen Stewart, Lucy Herrick. Delightful refreshments were served during the evening.

Smelts were running at Indian Rock Monday night and a large number went down to avail themselves of the abundance.

Quite a bit of open water may be seen about the shore of the lake and in the small coves. Guides vary some in their opinions as to when the ice will leave. Some say the latter part of this month, others say surely by the early part of May.

At the last meeting of the Summit Rebekah Lodge several candidates were admitted. Refreshments of sandwiches, custard pie, cake and

coffee were served.

G. M. Esty left the latter part of the week for Brunswick, where he will join Mrs. Esty, who has been spending the winter with her daughter, Mrs. G. W. McGraives.

Warren Young of Madrid was a guest of his brother, Geo. Young recently.

Mrs. Ida Morten is visiting her son, Ralph.

Warren Ross is the guest of relatives in town.

H. A. Furbish is having his lawn seeded and the grading completed around his residence.

Ernest Robbins is making preparations for the building of his new house on Dead River road.

Carpenters are busily at work about the Rangeley Lake House, making necessary repairs.

Mrs. Lizzie Freese is working for Geo. Young.

Mrs. Tina Hinkley of North Anson is keeping house for G. D. Hinkley.

Mrs. Elvena Soule, who has been at Phillips the past two months, has returned home.

CONVENTION TO BE HELD

(Continued from page one.)

ments could be made for such a feature in connection with the Maine Products Exposition to be held there in June.

If the plan can be carried out it is proposed to open the State of Maine Products Exposition on Monday, June 7 with a two days' road convention. This will be held in the basement and will be a part of the big convention which is to occupy both floors of the new exposition building. As one of the big features of the road show, it is hoped to get the exhibit of the U. S. Office of Public Roads at Washington. This is an exhibit of about 30 samples of actual road construction dating from the early Roman roads down to the modern type. This will be in charge of an official from the U. S. Government.

The plan as tentatively talked over was to have exhibits of road making machinery, road construction and everything pertaining to improved highways for the entire two weeks of the exposition, but the actual roads convention will continue during only the first and second days. During these two days it is proposed to have addresses by prominent good roads authorities throughout the country, moving picture exhibitions showing road making construction, as well as meetings of all the road commissioners in the State and all others interested actively or incidentally in better highways for Maine.

If the arrangements are made as outlined, the convention as well as the exhibition of road machinery and road making products will be one of the largest ever held in New England. If the United States exhibit is obtained, it will be the first time that it has been shown in its entirety in the New England states.

It is probable that road commissioners throughout Maine will be invited to attend as the guests of the Maine State Highway Commission and it is believed that the feature will attract thousands of people from all over the State as well as from points in New Hampshire, Vermont and Massachusetts who are interested in the present paramount issue of good roads.

June is an excellent month for a highway convention as it is the time of year when everyone is most interested in the subject. Details of the show are to be worked out by the State Highway Commission and the Portland Chamber of Commerce and a meeting will be held at a later date to further perfect the plan.

Balzac's Hatred of Tobacco.

Perhaps no celebrated author was more hostile toward tobacco than Balzac. It is true that Lamartine speaks of the novelist's teeth as blackened by cigar smoke, but Lamartine was not intimate with Balzac. Gautier on the other hand knew him well and wrote eloquently about his hatred of tobacco. Balzac's ruling passion was coffee, which injured him and perhaps killed him. In some of his novels he anathematizes tobacco. When he allows some of his characters to smoke there is veiled contempt. "As for De Marsay, he was busied in smoking his cigars."

MANY CHANGES MADE IN LAWS

Commissioners of Inland Fisheries and Game Issue Statement of Important Ones.

Augusta, April 10.—The following statement was given out Saturday at the office of the commissioners of inland fisheries and game on the changes made in the inland fish and game laws by the legislature which recently adjourned and which have gone into effect:

The fish and game commissioners wish to call the attention of the public to important changes in the general fish laws which were made by the legislature which has just adjourned, and which are now in force, as the act containing these changes carried an emergency clause which made the law effective as soon as approved by the governor.

The most important amendment is that to the black bass law. It is now lawful to take black bass in the lakes and ponds of the state, which are open to fishing, as soon as the ice is out in the spring, with unbaited, artificial fly only, until June 20 following, on which date bait fishing and trolling for bass is allowed; the law on black bass in Sebago lake and Long pond, in Cumberland county, is now the same as on trout and landlocked salmon in those waters, the open season begins April 1.

Open season on white perch in the state now begins June 20 instead of June 15, as formerly.

No Sunday Hunting

All Sunday hunting is now prohibited. Under the new law Sunday is closed season on all wild birds and wild animals. The penalty for hunting or killing unprotected birds and animals on Sunday is not less than \$10 nor more than \$40 and costs for each offense; the penalty for hunting or killing protected birds and animals on Sunday is the same as for hunting or killing them during other closed season.

The public should bear in mind that this amendment also took effect April 1, when this act was signed by the governor. This is a radical change from the former Sunday hunting law, as under the old law the only penalty which could be imposed for hunting unprotected birds and animals on Sunday was for violation of the Sunday law, so-called, the enforcement of which was not vested in the commissioners of inland fisheries and game, but, rather, in the municipal officers of the several cities, towns and plantations of the state. Now, as will be noted, the inland fish and game laws provide a specific penalty for all Sunday hunting, and the commissioners have instructed the wardens to see that the provisions of the new Sunday law are enforced the same as other inland fish and game laws.

Trapping Laws Changed

The attention of trappers is called to the amendment to the trapping laws which requires the full name and address of the owner of traps to be either stamped on the trap or on a metal tag firmly attached to the trap. The former law simply required the owner's name and address, and often times the trapper would mark his traps only with his surname and it was impossible to identify the owner if there happened to be several people in the same town bearing the same surname.

Another new provision of the trapping laws requires a person who sets a bear trap to post a written or printed notice, stating that such trap has been set in a conspicuous place in the immediate vicinity of the trap and no bear trap shall be set at any time unless enclosed in a hut.

Under the new law it is unlawful for any unnaturalized, foreign born person, who is not a tax payer upon

real estate in this state and who has not resided within the limits of this state for two years continuously, prior to the time he desires to hunt, to hunt in any manner, at any time, or pursue, catch, kill or have in possession, any wild animals or birds, within the limits of this state, unless he is annually licensed so to do. Fee for this hunting license, \$15. Under the old law, aliens who had lived in the state and who were tax payers on real estate or personal property, were exempt from the provisions of this law.

It should be borne in mind that these are only the most important changes in chapter 277, above referred to. It is not necessary to quote the full text of this law at this time as it has already been published in full by the newspapers of the state.

None of the changes in the fish and game laws, except those in chapter 277, take effect until July 3, 90 days after adjournment of the legislature. The commissioners have already commenced work on a compilation of the revised fish and game laws, in compliance with an order of the legislature providing for the usual edition of these laws for free distribution.

Effective In July

The following are the principal changes in the fish and game laws, which will become effective July 3:

Guides, in addition to furnishing recommendation of a game warden when required to do so by the commissioners, must file with their application for a license a certificate and affidavit of the municipal officers of the town, city or plantation in which the applicant resides (or the nearest town if the applicant is a resident of an unorganized place.) This provision applies to old guides as well as to persons applying for the first time.

Non-resident hunting license fee reduced to \$13 to hunt during the deer season; closed season placed on moose for four years; foxes protected, closed season from March 1 to Oct. 31, inclusive; commissioners may declare open season on beaver, on complaint of timberland owners of damage to their property, on such lands as are being damaged. Otherwise there is a close season on these animals.

Jurisdiction over birds on seacoast and one mile inland restored to inland fish and game commission; close time placed on deer in Deer Isle and Stonington, Hancock county; fishing and hunting prohibited on southerly point of Swan Island, town of Perkins, Sagadahoc county.

No Night Hunting

Daily closed season on wild birds from sunset to sunrise of the following morning; on wild animals, from one hour after sunset until one hour before sunrise of the following morning.

Month of September taken from open season on rabbits or hares. Open season now, October, November, December, January, February and March.

All special bird laws repealed; general laws only now apply. Bird laws have been modified as follows:

Partridge and woodcock, open season in Aroostook, Penobscot, Piscataquis, Somerset, Franklin, Oxford, Washington and Hancock counties, Sept. 15 to Nov. 15, inclusive.

In Androscoggin, Cumberland, Kennebec, Knox, Lincoln, Sagadahoc, Waldo and York counties, Oct. 1 to Nov. 30, inclusive.

On ducks, geese and brant, Sept.

RHEUMATISM YIELDS QUICKLY TO SLOAN'S.

You can't prevent an attack of Rheumatism from coming on, but you can stop it almost immediately. Sloan's Liniment gently applied to the sore joint or muscle penetrates in a few minutes to the inflamed spot that causes the pain. It soothes the hot, tender, swollen feeling, and in a very short time brings a relief that is almost unbelievable until you experience it. Get a bottle of Sloan's Liniment for 25¢. of any Druggist and have it in the house—against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief.

1 to Dec. 15, inclusive.

On black-breasted and golden plover, Jacksnipe (Wilsonsnipe) and Yellowlegs, Aug. 15 to Nov. 30, inclusive.

On rails, coots and gallinules, from Sept. 1 to Nov. 20, inclusive.

No person shall kill, have in possession or transport in any one day more than five partridge, ten woodcock, ten ducks, five plover and ten snipe.

Close time placed on curlew, woodduck and all shore birds, except blackbreasted and golden plover, Wilson or Jacksnipe, woodcock and greater and lesser yellowlegs.

NOTES FROM ALL AROUND

James J. Pooler of the New Falmouth Hotel, Portland, has been entertaining a house party of friends at his camp at Sebago, where the gentlemen have been enjoying the fishing.

W. D. Spaulding of Augusta had a two-days' fishing trip at Lake Cobosseccontee. He had good luck. Monday he landed two trout weighing 3 pounds and 5½ pounds respectively, and Tuesday he caught two more, weighing 1½ pounds and 6 pounds.

The ice at Taylor Pond has gone out.

A partridge flew through a window into the parlor of Mrs. Carrie Sumner's home in Auburn. A large hole was broken in the window but the bird was apparently uninjured.

While smelting one night recently Everett G. Walker of Auburn, mistook a shadow for a log in Lapham brook and with great deliberation stepped off into the water. The plunge into the icy waters came as a great surprise to himself as well as to the other members of the party. He was rescued without difficulty but lost all of his smelts except five which were buttoned into one of his coat pockets.

GLAD TO BE AT OX BOW AGAIN

"Billy" Is Building a New Kitchen to Complete His Plant.

Ox Bow, Me., April 11, 1915.

To the Editor of Maine Woods:

Well, here we are, right on the job again, and doing business at the same old stand at the Bow. That we are glad to be here goes without saying.

The people are all here, except our former genial friend, Postmaster C. C. Libby, who passed on last January. The office is now held by Mrs. Wm. Currier, the mail being received and distributed at Currier's store, only a short distance from Libby's. The new steel bridge over Umcolcus stream at the Bow, is in place and is a sample of good bridge building.

We claim to have had a hand in bringing this much needed improvement to pass last season, by making the state of things known to the authorities at Augusta.

We arrived in a light rain and rode from Masardis in an open pung, over snow part of the way, but through soft slush and mud much of the way. When occasion suited, we drove around the mud in the open fields, with a pair of husky horses and arrived at Billy's home camp at the Bow about 4.30 p. m., none the worse for our cold two hours' ride. A good lunch at Sabine's Masardis hotel, put us in fine spirits, ready for any experience which might overtake us on the way.

Billy is at the lake building a kitchen to complete his plant there, which will accommodate a dozen or more sports. He will be in "apple pie order" before the ice goes out, which event will come off about the

Our Advice Is:

When you feel out of sorts from constipation, let us say that if

Rexall Orderlies do not relieve you, see a physician, because no other home remedy will. Sold only by us, 10 cents.

R. H. Preble, Phillips.
Marr's Drug Store, Farmington.

THE NEW TREATMENT FOR SOUR STOMACH

Cuts out soda mints and chalk so extensively used in the old-time "dyspepsia tablets." They are too harsh for even strong stomachs, and often do harm if continuously taken. Dys-pep-lets are made by experts who understand these things and have combined the best stomach remedies known to physicians—pepsin, bismuth, mint, rhubarb and other carminatives and correctives—into delicious tablets that not only look good but taste good and do good. They quickly relieve sour stomach, nausea, indigestion, heartburn.

10th of May we think. If we have a few warm rains and a few more bright sunny days the ice will go out with a rush and the long looked for fun will begin.

A party of seven in Portland are waiting for the word "go." Several others have engaged guides for a later, though somewhat early date. Conditions are all favorable for a busy season, now about to open, and the whole state will doubtless experience the most profitable season for both fishing and hunting in many years.

Yours cordially,
J. C. Hartshorne.

USING THE BALANCED RATION

Tests Conducted at Illinois Experiment Station Show Increased Production of Butterfat.

A balanced ration is "one in which each of the different food materials or nutrients is present in just the right proportion and amount to meet the needs of the animals," says bulletin 159 of the Illinois agricultural experiment station. Tests indicated that cows fed balanced rations yielded a pound of butterfat for each 17 pounds of total nutrients consumed, while 21 pounds were consumed to a pound of butterfat when an unbalanced ration was fed. The use of the balanced ration thus gave four pounds of digestible nutrients for each pound of butterfat produced, or a pound and a quarter of butterfat was produced by the same number of pounds of digestible nutrients in balanced ration as was required for a pound of butterfat when the unbalanced ration was fed.

Not only was the butterfat more economically produced, but the cows given a balanced ration finished the test with better appetites and in much better flesh and general physical condition than the others.

Icing for Layer Spice Cake.

One and one-half cupsful of granulated sugar, one-half cupful of milk, boil until it forms a soft ball when dropped in cold water, take from fire and add one cupful of chopped raisins and beat until it becomes creamy.

Stains on Skirts.

To prevent the stains that often result from muddy skirts dilute sour milk with water and soak the skirt in it over night, then wash in the usual way. The skirt will wash easier and look whiter.

The First Requisite.

There isn't much use in telling a girl you would die for her unless you carry a pretty heavy life insurance.

Olive Oil—Flesh Builder
One of the best known and most reliable tissue builders,

Rexall Olive Oil Emulsion
containing Hypophosphites
is both a flesh builder and nerve tonic. Pleasant to take. Easy to digest.

R. H. Preble, Phillips.

Great Mass of Proof

Reports of 30,000 Cases of Kidney Trouble, Some of Them Phillips Cases

Each of some 6,000 newspapers of the United States is publishing from week to week, names of people in its particular neighborhood, who have used and recommended Doan's Kidney Pills for kidney backache, weak kidneys, bladder troubles and urinary disorders. This mass of proof includes over 30,000 recommendations. Phillips is no exception. Here is one of the Phillips cases.

"I never use any other kidney medicine but Doan's Kidney Pills," says Henry W. True, the well known tailor, of Main St., Phillips. "They answer my purpose. You may continue publishing my former endorsement of this remedy. I have procured Doan's Kidney Pills at Cragin's Drug Store (now Preble's Drug Store,) and they have never failed to give me relief from kidney disorders. I am only too willing to recommend them."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. True had. Foster-Milburn Co., Props., Buffalo, N. Y.

WILD GEESE IN LARGE NUMBERS

The wild geese are coming in great numbers. A man in Saco claimed to have seen a flock last week flying over the city that was strung out for half a mile. A Loudon Hill, Hallowell, man declares the flock that flew over his place early Saturday afternoon was five-eighths of a mile long and not an inch shorter, and one that was heard but could not be seen Saturday evening sounded three-quarters of a mile long. Ought to be a good supply of geese in Maine waters pretty soon.

C. W. Skillings of Farmington reports a flock seen this week numbering 35 or more.

Impression He Makes.

How true it is that the child is father of the man! Whenever a man comes in here for instance, and begins to boast how powerful and important he is in the community, if not the state, the nation and the world at large, our memory goes back to the days of our innocent childhood when we boys used to assure one another that we spat nickels and maybe an occasional dime, though really we didn't at all.—Columbus (Ohio) Journal.

Painting Points.

When preparing paint remember that better results are obtainable from several applications of thin paint than from heavier coats. Of course, it takes longer to do the work. Paint put on in thin coats and allowed to dry, lasts much longer and will not flake off as is often the case when heavier coats are applied. When very fine results are wanted rub down each coat after it has thoroughly dried.

Too Wise a Bird.

"Can you tell me, sir," asked the adroit panhandler, "where an honest man can find hard work in return for a square meal?" "I could," replied the experienced and disillusioned citizen, "but I make it a rule not to answer questions wholly idle and academic." — Richmondville, Times-Dispatch.

NOTICE

The subscriber hereby gives notice that he has been duly appointed administrator of the estate of Benjamin B. Burbank, late of Strong, in the County of Franklin, deceased, and given bonds as the law directs. All persons having demands against the estate of said deceased are desired to present the same for settlement, and all indebted thereto are requested to make payment immediately.

IN AND ABOUT PHILLIPS

G. L. Lakin, esq., is in Bangor this week, and will attend the 33rd session of the Grand Commandery of the United Order of the Golden Cross. He has been State Deputy a number of years for the order, and has written up 1,250 applications for membership to the order. He is one of the charter members of Phillips Commandery No. 402.

That there are fish in Sandy River was demonstrated one day last week when Clyde Mahoney caught one trout 17 inches long in the river back of Mrs. Jennie Smith's house.

Richard Field was the guest of his aunt, Mrs. A. C. Norton in Farmington Sunday and Monday.

Miss Olive Taylor of Bustis, who is attending the Normal school at Farmington was in town over Sunday, the guest of her cousin, Mrs. Carroll Noyes.

The selectmen have re-elected A. D. Graffam road commissioner and the townspeople are well satisfied with their choice. Mr. Graffam's work in the past has been most satisfactory.

The 1913 club will be entertained by Mrs. C. E. Parker this week. Last week Mrs. C. F. Chandler was the hostess. Refreshments were served.

Everett Beedy was home from Lewiston with his family over Sunday. Mr. Beedy, who is employed by the H. P. Cummings Construction Co., has been figuring on some big contracts recently.

C. W. Skillings who is agent for the Metz car has sold a machine to Dr. E. C. Higgins this week. Mr. Skillings has recently sold a touring car to Wilton parties.

Mr. and Mrs. J. W. Brackett of Portland who have been at the Wadsworth for the winter, are to open their home, Greenwood cottage at Brackett point, the latter part of the week.

We are sorry to report Mr. Wilson Beal as quite poorly again.

Governor Curtis has designated May 14th as Arbor Day.

The engagement has been announced of Miss Olive Barnes to Chester Granville Abbott of Lynn, Mass., at a beautifully appointed luncheon at Riverton last Sunday noon. Miss Barnes is the daughter of Mr. Holman Barnes who is salesman for H. S. Melcher & Co., Portland, and has made regular trips to Phillips for many years.

Mrs. J. F. Hough went to Auburn for a few days the first of the week.

Miss Daisy Davenport commenced teaching school in Madrid last Monday.

The daughter of Mr. and Mrs. Bonney Webber has been ill the past week threatened with pneumonia.

Mrs. Ed. Rector of Rangeley is assisting Mrs. Harry Batchelder with the cooking at the Bakery. Tuesday they sent an order of 300 rolls to E. C. Hinkley of Rangeley.

Wm. Ingham has recently arrived from Southern California where he has passed the winter, and is living in a house on Bray Hill and doing his own housekeeping. Mr. Ingham says he weighs more than he has for the past 25 years and is ready to take a hike to Mt. Blue or any other five or six mile trip. He walked to the village Monday a distance of five miles to do some marketing, and undoubtedly would have been good for the walk home, but on account of numerous packages he was taken home in a team from Hackett's stable. Mr. Ingham is 84 years of age.

There were a goodly number from North Franklin Grange who attended the Pomona meeting in Strong last week and all report an enjoyable day passed with Aurora Grange.

Harold Wheeler is in town this week the guest of his grandmother, Mrs. Louisa Wheeler and aunt, Miss Cora Wheeler. He reports his parents, Mr. and Mrs. J. M. Wheeler in very good health.

Miss Blanche Savage, a student at the Farmington Normal school was the guest of Mrs. A. D. Graffam over Sunday and Monday.

Dr. Abner T. Wells, who has been in town for a week or more past left for his home in Cleveland, Ohio, Tuesday noon. Dr. Wells has been in the Cleveland hospital for some time. He informs us that he rather makes a specialty of surgery doing much work for the employees of the New York Central railroad line. It has been about 24 years since he left Phillips, and he has only been back for two or three visits in that time.

It is very desirable to have some teams to help out the work on the grounds of the church and Parish House, and it is hoped that those owning such will feel that they can help a few hours on the 28th, clean-up day.

The little child of Mr. and Mrs. Alfred Weston is quite ill with bronchitis.

AROUND THE LOCAL STORES

Sweet and sour pickles, dandelion and spinach greens, plain and stuffed olives, horse radish at Edgar R. Toothaker's.

Batchelder's Bakery is putting out first-class food. Their Parker House rolls are pronounced A No. 1 by all who have tried them. Cream puffs have also been on the list of good things this week. A team is now run for the convenience of customers.

Preble reports a big sale on his sheet music. He has it in all of the latest popular songs. He is also agent for the Victor talking machine and has a full line of records.

C. M. Hoyt is showing a line of shirt waists in the newest materials and colorings. A big line \$1.00 each.

You can find the best the market affords at George Bean's. Something of an advantage to housekeepers to have garden luxuries at this season of the year. Show your appreciation of his enterprise by patronage. Fresh lot on Wednesday.

In his cut glass goods A. G. Cronkhite can offer a handsome and complete line. Nothing more practical or satisfactory to a lady than a choice piece of cut glass. It is a suitable gift for any occasion when one is required.

D. F. Hoyt has a new tennis shoe for men, made with heavy red rubber soles, heavy duck top high cut, leather stayed eyelets, leather insole and reinforced toe cap.

The Sedgeley store is selling Nemo corsets for \$2.00, \$3.00 and \$5.00.

Give your baby an airing in one of those nifty carriages that C. F. Chandler & Son have in stock. You can get your money's worth as they combine the "cradle" and carriage these days.

NOTICE

I shall be in Rangeley on or about April 11, 1915, at the residence of Mrs. S. B. McCard.

BASE BALL TEAM LOSES BOTH GAMES

Pastor Delivers Farewell Sermon--- Friends Glad to See Dodge in Town.

(Special Correspondence.)

Strong, April 21.—Mr. and Mrs. Frank Crosby of Farmington were in town over Sunday, the guests of relatives.

Mr. and Mrs. Justin McLeary and daughter, Algie of Farmington were callers in town Sunday at the home of D. E. Leighton.

Rev. W. P. Holman preached his farewell sermon Sunday morning to a large audience. It was indeed a sad farewell as Mr. Holman has been the pastor for five years and the ties of friendship and kindly feeling were strong between Mr. and Mrs. Holman and the people. At the close of the sermon the sacrament of the Lord's supper was served in a most impressive manner by Mr. Holman, assisted by Rev. George D. Nade.

Mrs. Ellen Richards, who has been in Farmington the past few months, visited relatives in town recently.

HIGH PRESSURE DAYS

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

Mrs. Elisha Lander was operated on at the home of her daughter, Mrs. Bradford Beal last Saturday afternoon by Dr. C. W. Bell, assisted by Drs. Higgins and Cragin, with Misses Pushee and Buswell as nurses. She is cared for by Miss Buswell. Her many friends hope for her speedy recovery.

Mrs. Marie Harris and daughter, Christeen have returned to New Vineyard, where Mrs. Harris will begin her duties as a teacher in the primary school.

Frank W. Butler and Whiting Butler of Farmington were in town last Friday the guests of their sister, Mrs. Elisha Lander.

Mrs. Emma Hodgman of Phillips spent several days in town recently the guest of friends.

Mrs. Fred Daggett underwent a surgical operation at Bell's hospital last Friday. Her many friends are glad to know she is doing nicely and hope for her speedy recovery.

Mrs. Edgar McPhail accompanied Miss Kate McPhail to Portland last week and visited relatives a few days. Miss McPhail was on her way to her home in Amherst, N. B.

Mrs. Richard Burns has recently returned from a few weeks' visit with relatives in Farmington.

Verne Richardson has been very ill the past week, suffering from a severe cold.

Rev. C. L. Bate of Brunswick preached an able and interesting sermon at the Congregational church last Sunday afternoon in exchange with Rev. T. B. Bitler.

Mr. and Mrs. Merton Hellier are receiving congratulations on the arrival of a baby girl to their home. They are cared for by Mrs. Clara Smith.

Walter Bradford spent Sunday with relatives in Farmington.

Schools in town did not keep Monday, it being Patriots day. Principal Vincent Pottle and assistant, Miss Clarise Flint spent the time with relatives in Farmington.

Lewis Melville Perkins and Lydia H. Morrell were united in marriage Sunday afternoon by Rev. W. P. Holman. They will reside on the Morrell homestead.

Berchard Look has been quite ill for several days past, suffering from bronchitis.

Verne Richardson, who has been quite ill the past week is much better. He is, however, able to resume his work in Daggett & Will's store.

sume his work in Daggett & Will's store.

The friends of Benjamin Dodge were pleased to see him in town last week calling on friends. He is much improved in health and expects this week to move his family back on his farm in Freeman.

Dana Newell moved his family from the upstairs rent in Will Smith's house to the upstairs rent in Henry Allen's house, which was recently vacated by Harry Allen and family. Mr. Allen moved into his newly remodeled home on Upper Main street. Mr. Smith's rent will be taken by Mr. and Mrs. George Beal.

Will Butler of Phillips was in town Saturday, the guest of his sister, Mrs. Elisha Landers.

Mrs. Samuel Gilman was called to Lewiston last week by the illness of her daughter, Mrs. Charles Prescott.

The many friends of Mrs. Dexter Toothaker are sorry to know she is very ill.

Alden Gilman of Wilton spent a few days in town last week, the guest of relatives.

Mrs. Roxana Vining has been quite ill the past few weeks at the home of her son, Leslie A. Vining.

Vincent Pottle and Miss Harriett Smith are taking their meals with Mrs. Ralph Starbird, during the absence of Miss Della Butler.

Miss Ella Fullerton spent the week end with Mrs. Edmund R. Sprague.

Dr. and Mrs. William Lovejoy have returned from a few days' visit with relatives in Rangeley.

John Hellen of Farmington is in town doing some work in the cemetery and is grading lawns.

Mrs. Menzor A. Will has been in Portland the past week visiting friends. Later she goes to Winthrop to visit her parents, Rev. and Mrs. H. A. Clifford.

Miss Wilma Dodge of Farmington was in town the first of the week visiting friends.

The Strong base ball team went to Farmington Saturday afternoon and played their first game of ball this season, against the Abbott school, and Monday morning they went to Farmington and played with Farmington High school. They were defeated in both games.

Vincent Pottle recently visited relatives and friends in Lewiston Portland and Bethel.

Miss Marion Presson spent several days last week at Farmington. While there she gave a most pleasing reading at the reception which was given Rev. and Mrs. Walter Canham. She returned home Monday, accompanied by Mr. and Mrs. Herman Heath and son, Clyde in their automobile.

Miss Faye, daughter of Mr. and Mrs. Henry Mitchell, was given a surprise birthday party at her home Tuesday evening by her school mates, it being her sixteenth birthday.

Miss Hattie Smith was presented with a lovely gold locket and chain by the members of the bible class, which she taught 24 weeks. Those who contributed were: Mrs. Reliance Daggett, Mrs. Mae Lewis, Mrs. Rose Kennedy, Mrs. Mildred Durrell, Mrs. Mabel Lewis, Mrs. Bertha Cook, Mrs. Ella Vining, Mrs. Minnie Whiting, Mrs. Gordon, Misses Della Butler and Hortense Smith.

Mrs. C. V. Starbird has been suffering from a severe cold the past few days.

Mrs. O. B. Head and daughter, Helen of New Sharon were recent guests of their cousin, Mrs. P. D. Stubbs.

Mr. and Mrs. William O'Corner and son, Francis were in the village recently calling on friends.

EUSTIS

April 19.

E. F. Look has commenced driving his logs at Ledge Falls. George Ricker is cooking for him. Mark Daggett went up and cooked a few days but was taken sick and had to return home.

H. O. Lisherness of Strong was in town one day last week.

Hartley Ranger was out from Big Island Camps a few days last week.

Many People In This Town never really enjoyed a meal until we advised them to take a

Rexall

Dyspepsia Tablet

before and after each meal. Sold only by us—25c a box.

R. H. Preble, Phillips.
Marr's Drug Store, Farmington.

His two daughters, Phyllis and Thelma came out with him and he went down river to leave them so they could attend school. He returned Saturday and has gone to Big Island again.

F. L. Cox and son, Valentine and Everett Taylor are working for Sylvester Brothers, finishing a house.

Mrs. Clinton Meader has gone to Mrs. Clarinda Foter's to take care of Dana Foter, who has been operated on by Drs. Brown and Ross for appendicitis.

Miss Marguerite Foter of Stratton is doing table work at "The Sargent."

There wasn't any school last Monday, Patriots day.

Miss Nettie Bemis of Stratton is visiting Mrs. George Ricker.

Miss Rena Davis visited Miss Stella Foter at Stratton over Sunday of last week.

Will Arnold has gone to the Kibby to drive.

J. P. Sylvester has bought the so-called Pease house of T. C. Bate-man.

Elmer Foter has hired Chester Cox's farm and is going to move down there soon.

Will Robinson is sick. Arthur Robertson is driving the stage for him.

EAST MADRID

April 19.

School commenced last Monday with Miss Pearl Buker of Weld as teacher. She boards with Mr. and Mrs. N. D. Wing.

The Obenton League will meet on Wednesday, April 28 with Mrs. Edgar L. Welts.

Master Roland Welch of Temple is boarding at N. D. Wing's and attending school.

Almon Pease of Phillips was a guest of his sister, Mrs. Ray Welts over Sunday.

Sixteen nice horses at Barnjum, went out last Sunday, en route for Auburn.

Fred Harris, who is working at Barnjum spent Sunday in Phillips.

Ardene Sweetser of Phillips was the guest of friends in town on Sunday.

REED'S MILL.

April 19.

Austin, young son of Mr. and Mrs. Herman Sargent, who has been so seriously ill with pneumonia is convalescing. The other sick ones in the place are gaining.

Mrs. Jennie Beedy has been seriously ill of heart trouble, but is somewhat better at this writing.

Mr. and Mrs. Milford Dunham were recent guests of relatives and friends in Farmington.

"Aunt" Sylvia Wells, who had reached the advanced age of 100 years and 7 months, passed away April 14, after a brief illness. The funeral was held at the home of her step-son, J. C. Wells, with whom she lived, on Friday, April 16, Rev. M. S. Hutchins officiating.

Mr. and Mrs. Harlan White and baby, Stanton were recent guests of Mrs. White's mother, Mrs. Ida Webber.

Miss Ella Conant was called to Phillips the latter part of the week on account of the illness of Stanton, the young son of Mr. and Mrs. Harlan White.

Gilbert Voter recently sold a very nice Holstein cow to W. R. Leavitt for a good price.

Schools will be held in both the Dunham and Stowers schoolhouses on account of the inability of the school-board to procure conveyance for the pupils at a reasonable price.

WEST FARMINGTON

April 19.

Nettie and Laura Norton, who have been stopping with their grandparents, have returned to their home in Temple.

Mrs. Mary Norton has been very sick with bronchitis. Dr. Nichols attended her.

Mrs. Bessie Hardy is suffering with

TONE UP THE BLOOD

Hood's Sarsaparilla, a Spring Tonic-Medicine, is Necessary.

Everybody is troubled at this season with loss of vitality, failure of appetite, that tired feeling, or with bilious turns, dull headaches, indigestion and other stomach troubles, or with pimples and other eruptions on the face and body. The reason is that the blood is impure and impoverished.

Hood's Sarsaparilla relieves all these ailments. Ask your druggist for this medicine and get it today. It is the old reliable medicine that has stood the test for forty years,—that makes pure, rich blood,—that strengthens every organ and builds up the whole system. It is the all-the-year-round blood-purifier and health-giver. Nothing else acts like it, for nothing else is like it; so be sure to get Hood's.

a very bad cold and sore throat.

Carroll Wing is progressing finely with his new house.

Dana Hamlin and family visited Mrs. Norton's parents, last Sabbath.

S. R. Norton has sold his two pigs on the foot for nearly \$40.

We missed Mr. Hines' grocery wagon last week.

MILE SQUARE

April 20.

Burnham True of Strong is working for S. H. Beal.

Mr. and Mrs. Frank Dunham of Madrid were recent guests of Mr. and Mrs. John Dunham.

A. S. Pratt of Phillips was at D. W. Toothaker's the last of the week.

Mr. and Mrs. E. H. Whitney of Phillips were visitors in town Sunday. Mrs. Mabel Kinney was the guest of her daughter, Mrs. George Dunham in Phillips Saturday.

Mrs. Fred Bemis and daughter, Corinne of Phillips were visitors at Fred Ellsworth's Monday.

April 13.

Mr. W. C. Beal is ill. Dr. E. B. Currier attends him.

Grangie Marden is visiting in Rangeley.

Miss Lillian Toothaker is teaching the Mile Square school and boarding at John Dunham's.

B. F. Beal of Phillips was at W. C. Beal's Sunday.

Mrs. G. F. Beal has been quite ill with grip. Miss Belle Wilbur is working for her.

Mrs. Bert Furbish, who recently underwent a surgical operation in Boothbay hospital, is slowly recovering.

STRATTON

April 20.

The Pythian Sisters had a very enjoyable entertainment in Lander's hall Friday evening. There was a farce entitled, "30 Minutes for Refreshments" and a mock initiation of a sister; also a motion song of spring by eight little girls; reading, Mrs. E. J. Voter; lecture and slide pictures by Rev. Mr. Gilpatrick. The entertainment was followed by a dance with music by the Peerless orchestra of Kingfield. A large crowd was present and a good time is reported.

Mrs. Lydia Wyman visited relatives in Freeman last week.

L. P. Hinds of Kingfield was a business caller in town last week.

Monday being Patriots day the schools all enjoyed a holiday.

Bradford Gordon, who was seriously ill last week is better.

Mrs. Bernard Taylor has a nice line of millinery goods belonging to Mrs. Roxy Merchant of Kingfield for sale.

Mrs. Emma McCard of Rangeley was in town the first of the week with a nice line of trimmed and untrimmed hats.

Dr. A. M. Ross of Rangeley was in town last week to see Bradford Gordon in consultation with Dr. E. J. Brown.

H. O. Lisherness of South Strong was a caller in town last week.

Dana Foter is resting comfortably at his home on Eustis road after an operation for appendicitis. The operation was performed by Dr. Brown and Dr. Ross. Mrs. Clinton Meader is the nurse.

GOVERNOR KING TO ENTERTAIN

The Base Ball Schedule--Holding Potatoes for Better Prices.

(Special Correspondence.)

Kingfield, April 20.—L. L. Mitchell moved his stock of drugs to his new store across the street Friday. It will be several days before he will be completely settled in the new stand.

O. C. Dolbier has a four-year old Jersey heifer weighing 840 pounds, which last month produced 912 pounds of milk or 27 pounds more than her own weight.

The ice has been reported out of Tufts Pond but such is not the case, and O. C. Dolbier who has been working there reports that present indications are that it will take a week to clear the pond.

Asa Small was remembered on his 12th birthday, Tuesday, April 13 with some fine presents and a beautiful frosted cake.

The K. H. S., '15, base ball schedule is as follows: April 17, North New Portland High school at Kingfield; April 19, North New Portland High school at North New Portland; April 24, Strong High school at Strong; May 1, Bingham High school at Kingfield; May 8, Bingham High school at Bingham; May 15 not closed; May 22, Strong High school at Kingfield; May 29, not closed. Leland Page is the captain of the team and L. P. Hosley manager.

Automobiles are taking advantage of the fine condition of the streets.

Lyman Johnson has returned from Dallas where he has been working in the birch mill.

Alton Wilber has recently been to Auburn where he purchased a heavy horse.

S. J. Williamson has sold one of his heavy horses to Al Williamson of New Portland.

A. A. Berry and Omer Durrell, Stratton, of the Stratton & Eustis Telephone Co., were here Thursday changing over telephones for L. L. Mitchell, and Wood, Lander & Libby at West Kingfield, and putting in a new telephone for Oscar Jones. They also connected up Geo. Crocker with their line.

"Judith of Bethulia," a famous Jewish Easter play from the Apocryphal book Judith was given in pictures by Mr. French at his hall Friday night to a full house. The staging of this piece occupied months and employed hundreds of people, the views being taken in a field of twelve acres in Southern California.

As announced the District meeting of the Independent Order of Odd Fellows of this jurisdiction will convene with Gov. King Lodge at this place on Wednesday evening, April 21. There will be special trains from Rangeley, Phillips and Strong.

Councilman Dr. O. W. Simmons attended the regular meeting of the Governor's Council held at Augusta on Thursday.

H. S. Wing has been in Massachusetts, Connecticut and New York for a week visiting the various mills in the interest of the Huse Spool & Bobbin Co.

F. L. Hutchins, who is at present in Stratton will shortly return to the fire station of the Forestry Dept. at Tumbledown Mountain. During the past summer season at this station Mr. Hutchins found leisure to indulge his passion for water color painting and sketching from nature.

H. O. Lisherness of Strong visited his brother, Herman Monday. He was on his way to Stratton.

A reception was given the High school teachers at Eldridge's hall Thursday evening. Mr. and Mrs. L. P. Hosley, Miss Emma Maxey and Miss Lillian Brown were in the receiving line. The ushers were Misses Esther Savage, Eva Thomas, Emma Dolbier, Sylvia Woodcock, Barbara Benson. Refreshments of fruit punch and fancy crackers were served. Music for dancing was furnished by Peerless orchestra. The Ma French, Lou Carville and Clarice Weymouth served punch.

Loss of Appetite is also loss of vitality, vigor, tone. To recover appetite and the rest take Hood's Sarsaparilla,—that strengthens the stomach, perfects digestion, makes eating a pleasure. It also makes the blood rich and pure, and steadies the nerves.

Geo. Townsend still has two or three cars of potatoes which he has been holding for at least 40¢ a bu., and the advanced price of the past week seemed about to realize his expectations. The coming season he will plant 15 acres, five less than last year, and 40 acres of grain. He will use 20 tons of phosphate on this ground. The fertilizer will be without potash for that ingredient is mined in great commercial quantities only at Stussfurt, Prussia. In other respects fertilizer is pronounced a little better than formerly. It is even claimed that too much potash has been used heretofore, but Mr. Townsend is of the opinion that it is still needed.

C. F. Boyle of the Kingfield House will return to his position as clerk of the Sargent Hotel, Eustis, the first of May.

Mrs. Warren Dunton and two children visited her parents at North New Portland last week, returning Friday.

Mrs. Guy Gordon, who has been sick for several days has been cared for by her mother, Mrs. Oscar Record.

TORY HILL

April 19.

Mr. and Mrs. Leo Smith and little son, Roscoe of Grant, N. Y., are visiting the latter's father, Roscoe Cushman and sisters, Lillian and Mertie for a time.

Miss Lona Moore, who has been working for her aunt, Mrs. Wesley Tash in Salem for some time, has finished work and returned home.

Miss Lucille Mitchell entertained a few of her friends last Saturday in honor of her birthday. All report a very enjoyable day.

School in the Cushman district began April 19, Miss Patia Moores teacher.

Mrs. Chas. N. Plaisted has been quite ill for several days past, but is better at this writing.

Mrs. Alden Moores and son, Gerald are visiting her parents, Mr. and Mrs. Lewis Reed in the village for a short time.

We are having unusual warm, fine weather for April. The roads are practically settled and farmers are commencing their spring work. If the warm weather continues stock can be turned to pasture in another week.

M. T. Toothaker, special selling agent for the De Laval cream separator and Mr. Clifford of Waterville, general agent were business callers on the hill recently.

E. E. Russell, veterinarian of Farmington, was on the hill recently, and tested W. E. Gates' and W. W. Mitchell's herds of cows, finding all the animals in good health.

An unusually large flock of wild geese were seen flying North last Saturday.

Mrs. Chas. Smith visited her parents, Mr. and Mrs. Geo. Hood one day the first of the week. We are sorry to report Mrs. Hood very ill yet, not being as well for several days past.

MOORE WINS THE GOLD MEDAL

The fifth triangular prize speaking contest, between Rumford, Mexico and Dixfield was held in the Baptist church at Rumford last Friday evening, resulting in the first and second prizes going to pupils of the Rumford High school, Nahum Moore winning the first cup for Rumford High for a year and a gold medal for himself.

Mr. Moore was employed in the office at Mingo Springs Hotel last season by Mr. C. A. Cole.

MILLIONS OF SALMON

A United States Bureau of Fisheries car was at the Union station in Bangor Monday, having just returned from Farmington, where a large number of brook trout were distributed at various points. This work will be kept up at various points throughout the state until all are distributed, the source of supply being the Green Lake station.

IN REGARD TO DEAR "OLD MOOSEY"

Located In the Heart of the Rangeleys.

Waltham, Mass., April 13, 1915.

To the Editor of Maine Woods:

In one of the recent editions of the Maine Woods I was attracted by a small item, relating to the charm of the Mooselookmeguntic House as a summer resort, speaking particularly of the "homey atmosphere" which pervades the Landing and of the equally charming hospitality extended by the brave little proprietor, Mrs. F. B. Burns.

Inasmuch as I personally have enjoyed for several seasons past, the many pleasant days spent at this particular spot, I could not resist telling those who may not know, a few facts about it.

From early spring until late fall there are many different forms of recreation possible. As a fishing centre, particularly in the spring, it is a well known fact that the place is the best ever every season. Regularly as the house opens a great number of prominent sportsmen arrive and a more jolly, congenial crowd is hard to find, many of them remaining the season with their respective families.

It is the oldest hotel in the Rangeleys and has an ideal location being the nucleus from which all sorts of trips may be had, either by land or water and judging from the large number of parties who start from there daily on various outings, the trips are many and wonderful. The lake and mountain views from the hotel veranda are unsurpassed. Launches, row boats or canoes are obtainable at the hotel landing and there is also a finely equipped stable in connection with the hotel.

The camps are very attractive, most of them containing several bedrooms, large living room, open fireplaces and bath, all furnished in good taste and with same service as in hotel. The food is excellent, and while the house is very unpretentious, it has an air of simple dignity which is very satisfying.

Tennis, swimming and dancing are entered into heartily by the younger folks and when they tire of these the big old fashioned hotel parlor is thrown open for an informal party and the spirit shown by the management cannot fail to impress one with the idea that he or she is very much at home and everything possible is being done to make one both comfortable and happy.

Much more could be said in regard to the advantages of the place but suffice to say that I and many of its regular patrons are counting the days until we are free to share its hospitality for the coming season 1915 which I feel certain will be the best ever.

A Lover of Maine.

RESOLUTIONS OF RESPECT

Whereas, a member of our Grange has been transferred from this earthly home to a haven of rest in the great beyond,

Resolved: That in the death of Brother William L. Dunham, Sandy River Grange has lost a most worthy member;

Resolved: That to show our respect and esteem for him, that our charter be draped in mourning for thirty days, a copy of these resolutions be spread upon our records and a copy be sent to the Maine Woods for publication, and one be sent to the bereaved family.

Committee on resolutions, R. Ellen Smith, Chas. McKinney, Bion Wing.

WHOOING COUGH

Well—everyone knows the effect of Pine Forests on Coughs. Dr. Bell's Pine-Tar-Honey is a remedy which brings quick relief for Whooping Cough, loosens the mucous, soothes the lining of the throat and lungs, and makes the coughing spells less severe. A family with growing children should not be without it. Keep it handy for all Coughs and Colds. 25¢. at your Druggist.

Electric Bitters a Spring Tonic.

Worms Sap Children's Health

Mothers often wonder why their children are not rugged and hardy. In a vast number of cases the trouble is—Worms.

Signs of worms are: Indigestion, variable appetite, craving for sweets, nausea, vomiting, swollen upper lip, sour stomach, offensive breath, hard and full belly, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red points sticking out on tongue, starting during sleep, slow fever.

Dr. True's Elixir, the 60 years time-tried Family Laxative and Worm Expeller, will expel the worms and restore the vim and vigor to your child. Good for adults also. Discovered by my father over 60 years ago. 35¢, 50¢, and \$1.00 at all dealers'. Advice free. Special treatment for tapeworms. Send for book.

Auburn, Maine

Dr. True

REGISTRATION OF AUTOMOBILES

The busiest place in all Maine at the present time is the office of the secretary of State, where over a dozen girls are at work on the registration of automobiles. And these girls work all the time, in fact, it is so quiet in this office nowadays, that it is outside of the clicking of the typewriters, that some of the callers liken it to a school. This is the busy time of the year for the registration of automobiles as they begin to come in right after the first of April. It is said that there are a number of persons in Maine who would not buy an automobile until after the first of April so as to escape the municipal taxation on the car due at that time. The office force was right up to the minute on the work at noon Saturday and thus far over 700 machines have been registered since the first of the present year. It is believed that before the year is finished that over 17,000 automobiles will have been registered.

Hon. John E. Bunker of Bar Harbor, the secretary of State, is on the "job" from about 7 o'clock or so in the morning until 11 or 12 o'clock at night. He says that he likes to work and he has lost no flesh at all as a result of plenty of the hard variety of work. Mr. Bunker has been so busy since he was elected secretary of State after a number of ballots last January that he has not once made the trip to his home at Bar Harbor.

CAMPS MADE INTO A CLUBHOUSE

Great Fishing and Scenery Around Jackman and Vicinity.

Jackman, April 14, 1915.

To the Editor of Maine Woods:

The Twin Island Camp at Skinner, owned by E. A. Boothman has been made into a club house by Springfield and Northampton, Mass., parties. Without doubt these camps have some of the best fly fishing in Maine.

Mr. Boothman still holds his Lake Park Camps at Jackman as public camps. Jackman offers great inducements to the summer vacationist. Its lakes, rivers, mountains and forest scenery, fine canoe trips and trout fishing is second to none.

Atonement.

"I hate the smell of mothballs and there's the woman next door hanging up the clothes she has had put away with them." "Why object to that? She's doing you a neighborly kindness in airing your grievances."

BENEFITS LOCAL PEOPLE

Phillips people have discovered that A SINGLE DOSE of simple buckthorn bark, glycerine, etc., as compounded in Adler-Lka, the German appendicitis remedy, removes gas on the stomach and constipation AT ONCE. E. H. Whitney, druggist.

NEW BAKERY

We are nicely located on Main Street next to M. E. church and are prepared to furnish bread, hot rolls, pies, cakes, etc. Will take lunches to trains. Also accommodations for lodging. Quick lunch or meals served at any time. Ice cream every day.

H. E. BATCHELDER, Phillips, Me.

LAKE AUBURN CLEAR OF ICE

The ice had left the northern half of Lake Auburn at noon Tuesday and was breaking up slowly, only a slight wind being needed to clear the entire surface. Several men who claim to know something of the conditions at the lake say that a motor boat would be able to push through the ice anywhere owing to its honeycombed condition.

Some Climates.

The northern parts of Norway and Sweden extend well up into the Arctic circle, while the southern parts come down to the latitude of Glasgow; so there is a wide range between the winter temperatures in those countries. The same applies to Canada.
