The menu included mashed potato, pressed chicken, cold ham, pickles, salad dressing, white bread, lemon and blueberry pie, orange, fruit and devil cake, jelly roll, cheese, and coffee.

PHILLIPS BOY TO MANAGE STORE

**The Old Corner Drug Store Again
Open for Business.**

The residents of Phillips are much pleased to again have the old corner drug store open for business, as it has been closed since April 29.

They are also much gratified to have Floyd E. Parker, son of Mr. and Mrs. C. E. Parker of this town, as the proprietor, Mr. Parker having bought the entire stock. Mr. Parker first started in as clerk for Mr. W. A. D. Cragin, who was in this store for many years, and to learn to be a pharmacist.

After attending school at the U. of M. he passed his examinations and secured a position with the H. H. Hays Co., in Portland which he held until he went to Stratton about two years ago to have charge of a store there for the John F. Perkins Company.

Mr. Parker is a native of the town and popular with all, and we predict a successful business for the young man.

He will carry a first-class stock in all departments, and will have his ice cream from the firm of Simmonds & Hammonds, Portland, which is said to be of fine quality.

The store was opened up for business Wednesday morning of this week. Bruce Davenport will assist him.

"CHUM" ALL AROUND ATHLETE

Many Good Musicians Among the
Hotel Guests

(Special Correspondence.)

Mooselookmeguntic House, Haines Landing, June 17.—"This extended view across the Mooselookmeguntic lake, surrounded by the vast wilderness with the White Mountains in the distance was what appealed to us when on a motor trip last summer, we stopped long enough to enjoy a good dinner and learn the name of this hotel, and that is why we came to Haines Landing for the summer," said a New York lady this morning.

"Raining again!" is the morning greeting, but everyone seems to think that a part of the game this season and on one side of the piazza a party of sportsmen and their guides are talking about going out to try their luck, for the rain does not dampen their enthusiasm. The tennis players are the disappointed ones to-day. In the office around the fire a party of ladies are knitting, some are reading, and in the parlor others are enjoying a game of bridge. Thus everyone is happy while waiting for the clouds to roll by.

Mr. and Mrs. W. R. Marshall and son, Charles R. Marshall of Winchester, Mass., are among the new comers, who will spend several weeks in camp and express themselves as much pleased with their choice for the summer days.

Dr. and Mrs. M. Sturtevant of New York, who have been spending their honeymoon days at one of the Bonney Camps, in company with Mr.

and Mrs. H. B. Josselyn of Boston, were here this week.

Last year Mr. and Mrs. W. D. Moshier, their daughter, Miss Marjorie and son, Phipps G. Moshier of Hopkinton, Mass., came for their first visit and were so much pleased with log cabin life they have returned to remain until September. Master Phipps who is but 14 years of age is well known in Massachusetts as an all-round athlete and has taken cups and medals, of which his friends are very proud. Everyone calls him "Chum," as he and his father are such good chums. "Chum" is manager of the Hopkinton Athletic ball team, who have played 23 games this season and lost but 4. As a member of Boston Midget team of the Boston Athletic club he won the cup in running. For trap shooting he is a wonder, recently taking first medal with a score of 92 out of 100. At the Bampton Gun Club and at Westboro Gun Club, two of the well known Massachusetts clubs he has attracted much attention. "Chum" is also an expert fly fisherman. Fred Fowler, his guide, says and yesterday with a light rod on a No. 10 hook he made a good catch on Dodge Pond the largest a 1½ pound trout. This young gentleman is already a favorite here at Haines Landing.

Garret Hobart of Paterson N. J., and party came up from Poland Springs yesterday in two touring cars and will spend several days at his camp.

Dr. L. A. Dewing, a former Harvard pitcher on the ball team, with Mrs. Lucia Burke and Miss Marion Stareatt are a party of Bostonians who will enjoy a month in Camp Wellmere, and are much pleased with this, their first trip to the Rangeleys.

Mr. and Mrs. H. D. French of Lisle, N. Y., have had a good week's sport and with Jim O'Brien guide, brought in some fine fish.

Mr. and Mrs. James Shaw of New Haven, Conn., who are on their wedding trip have taken rooms for several weeks at this hotel.

Coming on their motor-cycle from Winthrop, Mr. and Mrs. Earl Marshall have enjoyed a stay of several days this week. This is the first time a gentleman and lady on their cycle have come over the country road as far as Haines Landing.

Mr. and Mrs. Grant S. Whitsler of Cleveland, Ohio, who come for their first summer in a log cabin are greatly pleased with life here and hope to have friends join them later.

Friday, a party of ten from Philadelphia and East Orange, N. J., who are spending the summer at Kennebago, came down on the morning train and spent a most enjoyable day here.

There are now over 50 guests, those who came the first of the

season as contented as can be, and the late comers enthusiastic over the place. More than 20 are booked for the coming week.

Prof. J. Kieley of New York City College and wife, Lieut. and Mrs. Charles B. Amory, Jr., U. S. A., who came the first of July find the summer days going by far too quickly.

There are now some fine singers among the guests and the concerts that are given evenings are worthy of unusual mention. Miss Mary Rogers of Boston has a very sweet voice and is heard every Sunday morning at the little church in the woods, "Our Lady of the Lakes." Prof. and Mrs. Kieley, Dr. Dowling and H. L. Welch all have fine voices. Mrs. Laine, Mrs. Kieley are good pianists and Miss Cecil Brown a violinist of ability.

OPENING GAME OF BASE BALL

Women Prove Better Marksmen
Than the Men—Many Outing
Parties Enjoyed

(Special to Maine Woods.)

Kineo, Moosehead Lake, July 17.—There have been many activities of interest to the summer people assembled at this delightful vacation playground. Out of doors interest has been divided between motor boat and canoe picnic parties, golf, base ball, and rifle shooting; indoors, dancing parties have largely filled the time. Each evening the large ball room of the Mt. Kineo House has been a lively scene of gaiety, in which Miss Madeline Francis Gale, of Boston, has been the center. Miss Gale has charge of the dancing at the Mt. Kineo for the summer and by her grace and charm has made herself most popular with the summer guests.

Great enthusiasm was aroused by the opening ball game, in which Kineo defeated a nine of young college men from camp Wildwood, the boy's summer camp on Sandbar Point. The game was close, 5 to 3, and over 200 people gathered at Glendale Field to witness the contest. A special steamer load of 70 came from Wildwood to see the game.

A large group of competitors, the women proving more consistent marksmen than the men, characterized the weekly rifle contest on Hillside range. Although C. M. Clark of New York was high gun with 75, three women were his close contestants for the honor, Mrs. H. J. Genung of Madison, N. J., with 72, Mrs. C. M. Clark and Mrs. C. A. Judkins of Kineo tied at 70. Among other participants were Miss H. Gibson, Miss K. Gibson, Wm. Shaw, Courtenay Shaw of Garden City; Mr. and Mrs. John Reilly, Jr., Irving Williams, New York; John Eynon, Boston; W. O. Rowland, Jr., Philadelphia and H. J. Genung. A pleasing feature of the afternoon was the tea, following the shoot, at the cottage of Mr. and Mrs. Genung on the shore near the range. Mrs. William Wakeman, Mrs. Walter Shaw of London, Dr. and Mrs. T. U. Coe of Bangor and Mrs. J. Arnold Norcross of New Haven being additional guests.

The activities of the Moosehead Lake Yacht Club will fill a large place in the summer life. Thomas Friant of Grand Rapids, Mich., has been elected vice Commodore to succeed Henry Sheaffer of Pottsville, Pa., and Samuel A. York of New Haven, rear Commodore, to succeed E. H. Outerbridge of New York. Plans are going forward for the

opening motor boat race next week. The annual masquerade ball is set for August 25, and former Commodore Arthur B. Waring of New York has presented the club with a handsomely designed poster commemorating the event. In it is shown Miss Elaine English of Philadelphia, who was awarded first prize at last season's ball.

One of the delightful outing parties was that given by Mr. and Mrs. Charles M. Clark of New York to a group of young people on board their yacht, the Kinnebbah. A cruise to the head of Moosehead with lunch on board was shared by the following: Mrs. J. E. R. Carpenter and her daughter, Miss Marion Carpenter, Miss Katherine Clark, Irving Williams, Winthrop Williams, Miss Jones of New York; Miss K. Gibson, Miss H. Gibson, Courtney Shaw, Miss Gwendolen Shaw, Garden City, L. I.; W. O. Rowland, Jr., Howard L. Rowland, Philadelphia; Miss K. Tetsuka, Plainfield, N. J.

A motor boat sail with campfire dinner on the shore of Deer Island was enjoyed by a happy group consisting of Mr. and Mrs. A. W. Hodgden, Miss Winnifred Thorpe, Miss Vera Young of Boston; Miss Griggs, daughter of Senator Griggs and Mrs. Wildes of Paterson, N. J.; and W. N. Patten of New York.

At Camp Nepahwin on Kineo Bay Mr. and Mrs. A. B. Waring of New York have as guests Mr. and Mrs. John Reding of Boston and William Waring of Yonkers. This is Mr. Reding's 40th summer on Moosehead Lake.

Mr. and Mrs. C. S. Sperry of New Haven, Conn., have as guests at Camp Caribou on the west shore Miss Anna Kinmore, Richard Reed and Edward Hume from their home city.

At Camp Kokadjo, near West Outlet Mr. and Mrs. Samuel A. York of New Haven are entertaining Walter B. Day of New York.

Mrs. Louis Malone of Mobile, Ala.; and Dr. and Mrs. W. C. Wurtemberg of New York have opened their camps on the Moosehead Lake shore near West Outlet.

Mr. and Mrs. Henry Feuchtwanger of Madison, N. J., and Mrs. Myra D. Paterson of New York will open their Kineo cottages this week. Mrs. Paterson has for several years been president of the Metropolitan Woman's Golf Club, and is Kineo's best woman golf player.

Mr. and Mrs. H. G. Campbell of Paterson, N. J., have opened their beautiful place on Sandbar Island, and have chartered the steamer Kineo for the season.

Commander L. M. Josephthal, a prominent military man of New York, and his family are enjoying their first Kineo experiences in one of the shore cottages.

Sir Herbert and Lady Ames of Montreal, Can., spent a few days at the Mt. Kineo on their way to Camp Onaway.

The following people are enjoying the summer at E. G. Stevens' camps at Spencer Narrows: Mr. and Mrs. Matthew Smith of New York, Mr. and Mrs. Wallace E. Easton, Horace Cate, Portland; Mrs. Z. M. Wood and son, Livermore Falls, Me.; Mr. and Mrs. M. F. Detrich, Baltimore; Miss Beatrice Conant, Brookline, Mass.

Recent arrivals at the Mt. Kineo include Mrs. William Wood and family, Mr. and Mrs. S. T. Maddox, P. R. Park, Miss Jeanie Park, Miss Marion Park, H. S. Harding, W. S. Putting Tobacco in Tins is Like "Locking the Stable Door"

—“After the Horse is Gone”

Real tobacco flavor depends upon the leaf being preserved in its natural state, possible only by pressing the leaves into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out so that when you whittle it off it crumbles into dust, but it will burn and smoke smooth and cool as it has all of its original tobacco flavor preserved, unevaporated in Plug Form.

Whittling a pipeful is little trouble, amply repaid in both quality and quantity. Try this experiment and judge for yourself.

MASQUERADE GIVEN IN HONOR

The Thayers Return Home After a Delightful Six Weeks' Stay

(Special Correspondence.)

Lakewood Camps, Middle Dam, July 16.—There is no more effective and sensible method of escaping the noise and heat of the city, and an attack of hay fever, than coming to this attractive spot, at the foot of Wellokennecook Lake, where one takes the auto or buckboard for a ride across to Sunday Cove, then a sail over Umbagog and on through Dixville Notch to the White Mountains.

When Mr. and Mrs. Clinton Jordan of Boston, who are old time favorites arrived Saturday evening, they were greatly surprised to find the office beautifully decorated with wild flowers, ferns and greens from the woods and a masquerade party in their honor. When it was time for the guests of honor to be greeted they were not to be found, but a huge goose and a big black cat were attracting much attention by their silent presence and the laugh went round when later it proved to be

NEWARK PARTY OCCUPIES NEW CAMP

New Comers As Delighted and Contented As Old Timers

(Special Correspondence.)

Bald Mountain Camps, Mooselookmeguntic Lake, July 15.—The middle of July finds an unusually large number here at the foot of the mountain on the lake shore.

To-night everyone is out of doors watching the sunset, for to those who live in the city and see only brick walls, the brilliant colors in the west, reflected over the lake are pictures more beautiful than any artist can paint.

James Richie of Orange, N. J., who came the first of May has been joined by Mrs. Richie and they will be at home in Camp Molona until autumn days. Mrs. Richie thinks her 2½ pound trout is not worth recording even if it made such a fight she thought it an 8 pounder. Mr. Richie comes in daily with fish enough for himself and friends.

Mr. and Mrs. A. E. Verrill and daughter of Auburn were here for over Sunday.

Mr. and Mrs. A. Burrows of New York, who for the first time are spending the summer in the Rangeleys are much pleased with Camp Daisy. They spend hours on the lake and have proved themselves good anglers, having caught a number of two pounders.

One of the new camps which is finely furnished has for the first occupants Mr. and Mrs. Louis Hancock of Newark, N. J., and Mr. and Mrs. W. R. Moore of Chicago, Ill., and the coming week they will be joined by friends. The broiled trout and salmon they have for their table tell of the good luck they are having fishing.

The other new log camp is also taken. A party of nine from Boston are pleasantly located there for several weeks. Mr. and Mrs. P. L. McKenney, two children and maid, E. Frank Williams and three friends. They came by automobile leaving home Wednesday morning, reaching here in time for supper, and plan to spend a month as they are greatly pleased with their first impressions of Bald Mountain Camps. Others of the party come by train to-morrow.

Dr. Albert E. Cook of Brooklyn, N. Y., who came a month ago, never fails to bring in his "limit" each day, and this week his catch included a 4½ pound trout.

Dr. and Mrs. M. G. Benedict of St. Johnsbury, Vt., who have been here for a number of weeks regret to say good bye this week, but plan to return another year for a longer stay.

At Lagomonte Lodge, the elegant summer place of Mr. and Mrs. A. S. Hinds, their daughter, Miss Ethel Hinds, is entertaining a house party including Mr. and Mrs. George Burges, Miss Ruth Cook, Miss Gertrude King, Albert Pearson of Portland, Spaulding Bisbee of Rumford and Gard Twaddle of Bethel. The young people are having the best time ever. They have picnic parties, sail on the lake, go fishing and when evening comes there is dancing and music.

Mr. and Mrs. Samuel Boothby of Portland are at their camp for the summer.

Hon. Chas. Sumner Cook of Portland this week also opened his camp for the season. His daughter, Miss Lyda Cook has for her guest, Miss Lena Carr from the same city, and the young ladies have fitted up the small log cabin in a most attractive manner for a tea house, where they are serving all kinds of dainty lunches and from all over the lake the young folks come to enjoy a cup of tea and a social hour.

Mr. and Mrs. Richard Elkins of West Newton, Mass., are this week guests of Mr. Cook.

From now until October there will be a full house here at Bald Mountain Camps.

Bird Well Named.

A hobby is not merely a human dunc, but is a Bahama bird, which is so spiritless that when attacked by other birds it fails to fight and gives up the fish it has caught without resistance.

Pleasant Island Camps, Cupsuptic, July 15.—Mid-summer finds everything on this island in perfect condition, and the foliage, flowers and the garden are more beautiful than ever.

With most of the camps already occupied and other guests coming this week it is a busy place, and everyone is happy.

The fisherman to whom the others are now taking off their hats is Al Denzer of New York, who with Pete Lufkin, came in one day this week wearing a smile that has not come off, and bringing a 7½-pound salmon, which was planked and served for dinner the next day. Mr. Denzer who is a good fly fisherman is very enthusiastic over last evening's fishing on Kennebago stream near Indian Rock where he caught eight trout but killed only one, a 2½ pounder, but larger ones he returned to the water.

A delightful party who enjoyed a week's stay were Mr. and Mrs. W. F. Wilkinson, Frank W. Delano, J. C. Brown of Salem, Mass., and Mrs. A. W. Whitcher of Woburn, Mass. They spent most of their time on the lake, but as they do not care for fishing visited all the different places.

Mr. and Mrs. A. E. Verrill and daughter, Miss Martha J. Verrill of Auburn, who have just returned home after a week in Lake Side Camp, were so much pleased with this their first visit they plan to return in September.

Mr. and Mrs. E. E. Gray, Bostonians, who are in Camp Ideal for a month, have George Robertson for guide, and they are having not only a good outing but good fishing. This week they have brought in some fine salmon, Mr. Gray one 4½ pounder, a 3-pounder and a number of smaller ones. Mrs. Gray also has a number of two-pounders to her credit.

The three ladies in one of the new camps from South Orange, N. J., Misses Elizabeth A. Reese, Mary G. Wells, and Katherine Wells are having a most enjoyable summer. G. W. Fenjoy is their guide. Wednesday the party took a trip to Rangeley and return.

The winter camp is taken for a month by Mr. and Mrs. E. Sterns of New York and friends, Mr. and Mrs. E. Powers of Brooklyn, N. Y. Geo. York is their guide and with Mr. Toothaker's new motor boat "Nora" they are spending most of their time on the lake. One day they brought home as handsome a string of salmon as has been seen for many a day. One weighed 4½ pounds, a 3-pounder and a pair of 2-pounders and last night they repeated a trio of salmon weighing 4½ pounds, 2½ pounds, 1½ pounds, and a number of pound trout.

Camp Catherine is taken for an extended stay by two southern gentlemen from Lynchburg, Va., Messrs. H. L. Moorman and R. S. Lindsay. In their Pierce-Arrow touring car they left home the first of June and spent a while in New York, also at Bretton Woods, then motored through Dixville Notch to Poland Springs and to Rangeley. They are greatly taken with log cabin life up here in the Maine wilderness and have chartered a motor boat, invested in fishing tackle and are even planning for an October hunt.

Mr. and Mrs. Norman C. Walker of Orange, N. J., are having a great outing and nearly every day come in with a good mess of fish.

Thomas O. Rogers of Boston has just had his boat the D. T. refurnished. It was first newly painted and decorated. Mr. Rogers thought it would be a great idea to have an automobile on the lake, and has carried out the original idea in a wonderful manner. He had some trouble in getting an automobile engine, which was set up by Floyd Newton of Rumford who deserves great credit for it has not failed to run perfectly. Then he purchased two leather upholstered auto seats, and with flags flying and John Madden of Auburn as "chauffeur" Mr. Rogers now takes his friends over the lake in automobile style at a speed of 20

miles an hour.

"House-in-the-wood," the summer home of Dr. H. H. Hazen of Washington, D. C., is taken by Mrs. H. W. Hannan and party from New York and "Billy No. 2," the fast motor boat is now often seen at the wharf and making trips to and from Haines Landing.

Last evening a company of 14 from here went down to the opening of the "Little Brown House on the trail" for a waffle party, and from now until September the tea house will continue to entertain the city folks, many of them motoring from the camps and hotels to the Landing for an afternoon cup of tea.

IN AND ABOUT PHILLIPS

Phillip Powers, who spent two weeks in Phillips some years ago and who contributed an article to Maine Woods at the time on his impressions of Phillips, is a member of the Associated Press in Berlin. Mr. Powers was a member of the Boston Herald re-write staff at the time he was offered this position. He has written a friend that he has made several trips about Germany and has once been to Russia. He added that little was known in Berlin of the Lusitania disaster until the New York papers brought the full account. It is safe to assume that many of the stories appearing in the papers under a Berlin date line are the product of Mr. Power's pen, for he has the gift of descriptive writing to a marked degree.

Recently they were joined by their friend, Mrs. George Conway of Pennsylvania who will also be joined by her husband very soon and will remain until the first of August. Mr. and Mrs. Isham plan to be in Phillips until the middle of September, and are much pleased to note the improvement in Mr. Isham's condition. Mrs. Emma Raymond, mother of Mr. Pease decided that there were others who could surprise. She called up Mr. Pease at his home in Avon and asked him to come to the village on business for her. He thought at first that he could not but she told him it was important and that he must come which he finally decided to do. She thought undoubtedly his bride would accompany him so she invited a dozen or more friends in to help receive them when they arrived at her home at the upper village, which they did with a generous quantity of rice, etc. Mr. Pease bought the farm in Avon after the fire which burned the buildings last year and is a very energetic farmer. He already has a barn raised and will probably put up a good house in the near future. Mrs. Pease is the daughter of Mrs. Fred Dyer of this town. Much success is wished for the young people.

It is expected that Mr. and Mrs. Isham and Mrs. Conway, who are boarding at Mrs. Frank Toothaker's will assist in the music at the Union church next Sunday morning. HONOR TO WISCONSIN

State Easily Among the First to Encourage the Building of Automobiles.

FACT RECENTLY MADE KNOWN

In the Early Seventies Steps Were Taken by the Legislature to Induce Inventors to Work on the Self-Propelled Vehicles.

A transfer of the files to the new office of the secretary of state at Madison, Wis., brought to light one of the most interesting pieces of automobile news that has been uncovered in the United States in many years.

Indisputable evidence was brought to light to show that the state of Wisconsin was one of the first, if not the very first, states in the Union to anticipate the dawn of the self-propelled vehicle.

J. S. Donald, secretary of state for Wisconsin at the present time, has become so interested in the data he discovered in the old files of his office that he has prepared a formal statement to show when and how the inception of the modern automobile came about.

Wisconsin back in the early seventies, and especially in the year 1875, developed an age of invention, and the state legislature encouraged every sign of progress, and especially along lines of labor-saving devices.

That this enthusiasm was not spasmodic and superficial is borne out by the many inventions brought to light

at that time. However, the greatest interest centered in the self-propelled road vehicle, and in 1875, 1876, 1877 and 1879 the Wisconsin legislature passed laws for the purpose of encouraging the work that was then going on along these lines.

Among the evidence that came to light during the moving of the files in the new capitol of Wisconsin was an act appropriating \$10,000 to the first successful inventor who would produce a self-propelled vehicle that would pass tests, the rules of which were then laid down by the lawmakers, and, when compared to the rules of the modern endurance test, they surely offer the best example of what the A B C of modern automobile competition was like. This award was to go to the winner of what was probably the first endurance race ever held in the world for self-propelled vehicles.

That the state legislature of Wisconsin had foreseen the trend of the times and anticipated wisely, was

shown by the seven self-propelled machines that were introduced to the public in 1878.

Back of the appearance of these machines was the invention of Dr. J. M. Carhart of Racine, Wis., in 1871. He not only invented and built a self-propelled vehicle in 1871 but also operated it and, according to the newspaper files of that time, was indirectly responsible for the activity at Madison, Wis., on the part of the state legislature.

The vehicle itself is no longer in existence, but the State Historical society at Wisconsin has in its files a photograph of this most interesting machine.

Substitute for Valve Lubricant.

Mercurial ointment makes a fairly good substitute for the common mixture of graphite and oil for preventing valve cups from sticking when screwed down tightly. It has this disadvantage, however, it is poisonous, whereas graphite is not.

Duty of Every Farmer.

No man who farms should begrudge the time he spends in grading, dragging and ditching the highways. He must use them 12 months in the year. Every day's work makes them a little better if the work is done intelligently.

In many localities the merchants have aided in the work of road betterment, and it seems ridiculous that their efforts should be distrusted by the farmers.

ENJOYING LIFE AT THE BARKER

Party Take Longer Boat Ride Than Planned

(Special Correspondence.)

The Barker, Mooselookmeguntic Lake, July 16.—It is haying time at The Barker and the perfume of new mown hay fills the air. To the city folks it is a novelty to watch "Sam" and the boys pitch load after load of hay, and old Prince, the horse, as with a long and a hard pull for the barn no doubt thinks of coming winter days with plenty to eat.

Everyone has been fishing the past week, and even if everybody has not caught a record fish, some fine ones have been brought in. It is not uncommon for 20 boats to anchor out in the lake, and it is a pleasant company of friends who seated in their boats near each other "wait for a bite" and talk over the events of the day. Sometimes the ladies take their knitting or a book and after the line has been dropped over the side of the boat take life easy, as they wait for a hungry fish to come for lunch off the bunch of big fat angle-worms waiting. When the fish has taken a worm and finds he is fast to the hook, then the game is on, and the sport of landing him is watched with great interest as everyone guesses the weight.

Mr. and Mrs. Chas. Pollock of New York, after a delightful stay of several weeks have returned home and will look forward to next year when they will return for a longer sojourn. One day just before going home Mr. Pollock with Bob Martin guide, caught three record salmon of which he was very proud. They weighed 4½ pounds and two of them 3 pounds each. Mrs. Pollock was the one to take the honors, for she landed the largest fish, a 5-pound salmon that was a good fighter and it took some time to bring him to net.

The ladies have brought in more record fish than the gentlemen this week.

Miss Anita Myers of New York, Harry Nelson guide, has a 4½ pound salmon to her credit; Miss Harriett Myers one 3½ pounds.

Miss Ruth Goodfriend, a New York young lady, who has spent a number of summers in camp here with her parents, is one of the fortunate anglers and a 3½ pound and a 4-pound salmon she records this week. Her mother, Mrs. Jacob Goodfriend landed one 3½ pounds yesterday. This year the family have Oscar Parker for guide, and with the motor boat "Red Spot" they spend much time on the lake and often take their friends for a picnic.

Mrs. Chas. E. Cohen, a Providence, R. I., lady with Gard Hinkley guide, has a 3½ pound salmon to tell a good story about.

Mrs. K. Gold of New York, with Webb Boulton guide landed one of

the big fellows, a 5-pound salmon.

Emil Heller, the New York gentleman did not lose the art of landing a Mooselookmeguntic salmon during the years he has been enjoying life in Europe, for he has caught a good trio of salmon this week that weighed 4½ pounds and two of them 3 pounds each. Mr. and Mrs. Heller have Cliff McKenney for guide this season. They have chartered "Trixy," Gard Hinkley's boat and not only will the summer days for them be crowded with pleasures but they are always adding to the happiness of others.

Ingomar Goldsmith of New York, with Chas. Pynn guide has brought in one of the best pair of salmon of the week, weighing 4½ pounds and 5½ pounds each.

Anson Eichtenstein is another New Yorker, who caught a 5½ pound salmon, Ernest DeMerritt guide.

J. M. Solomon of Philadelphia, with Gard Hinkley landed a 4½ pound salmon.

Gus Emmerick of New York, Webb Boulton guide, caught a 3½ pound trout and Elihu A. Sanger of Dallas, Texas, Bob Martin guide, a 3-pound trout.

I think besides this record more than 100 trout and salmon that weighed less than three pounds have been taken, for nearly everyone who goes out lands a fish. Coming from Dallas, Texas, to Maine is quite a distance to spend the summer, but Mr. and Mrs. Elihu A. Sanger with their children and maids, who are happily located in Camp Barker think it is well worth the journey. They find this cool mountain air and the many attractions of life in summer time on the lake shore the ideal way to enjoy life.

Mr. and Mrs. Benj. Kalmus and Miss J. Hemeniann are New Yorkers, who have come for their first summer at this hotel.

Mr. and Mrs. James S. Wallasteen of New York are among those who pass July days here.

Mr. and Mrs. F. Rise of Antwerp, Belgium, one of the largest diamond cutters in that country, who, when the war broke out had to leave his home and come to America, reached here last Monday and will spend a peaceful summer here by the lake side.

Mr. and Mrs. A. Ernstlil are among the New Yorkers who come to the Rangeleys and will spend weeks at The Barker; also Mr. and Mrs. E. S. Sykes of the same city.

Mr. and Mrs. Samuel Cohen of Providence, R. I., have taken Camp Nicolai. Mrs. Cohen is most pleasantly remembered by a host of friends as "Peggie Robinson," who spent a number of seasons at The Barker and added much to the social life.

Sam, Lautenback and sister of New York have joined their friends, Mr. and Mrs. Ingomar Goldsmith.

Coming from Philadelphia in their Oldsmobile touring car Dr. Albert Scutter and brother Edward, Messrs. Frank M. Ferguson and Paul Farbieger reached here last evening and will remain for a week.

Camp Knickerbocker is taken for another summer by a happy family, Mr. and Mrs. W. Gratz and son, Master Frank and Mrs. Lena Frank.

Mr. and Mrs. Morris Jacoby and daughter are among the old comers, who are welcomed back.

Mr. and Mrs. G. Emmerick of New York are in Camp Comfort for the second summer and Mr. and Mrs. K. Gold of the same city have come with them for their first trip to the Rangeleys.

With over 70 guests now here and others daily arriving, this is one of the merriest summer places in the state.

Every morning the parties start out, some to try their luck fishing, others with walking sticks to climb Bald Mountain, or to tramp to Rangeley village or miles over the country road or follow a trail through the forest, and the tennis court calls those who love the game. Then some one makes up a picnic party and with the guides have dinner cooked on the shore.

If one should discover there are sleepy young people around to-day, the secret is, they started off for an hour's motor boat ride last evening, and the boat refused to go, and as they did not have any oars, or even a tin horn to blow they drifted over the lake until 3 o'clock this morning then found themselves miles from home not far from the shore. But motor boats are much

like some of the pretty summer girls, one can never tell what they will do.

Wednesday evening there was a dance in the casino where to the music of the piano and "fiddle" a gay party danced until midnight and every evening there are musicals, card parties and other entertainment in which all join.

There is one person, a New Yorker, who spends all of his time adding to the happiness of those he meets and thus is always happy himself, Mr. Ingomar Goldsmith, and everyone is glad he will be a summer guest of The Barker.

GREAT IMPETUS IN GOLF AT POLAND

All the Advantages of a European Spa Found Here

(Special to Maine Woods.)

Poland Spring, Maine, July 19.—This year shows many remarkable changes in the great resort which crowns Ricker Hill, the most notable of which are the bath and treatment building adjoining the Mansion House, and the new 18-hole golf course that extends from the hotels to the lakes at the foot of the hill, more than a mile away.

Germany is closed to American tourists, but it is not necessary to go to foreign countries, as far as the "Badens" are concerned. Badenauheim and Baden-Baden are duplicated in the bath and treatment facilities of Poland Spring. In the establishment which is now in operation here, 60 different baths and treatments are given, many of them exactly the same as people used to go abroad for. The results are the same, whether the gas used in the water is naturally or artificially supplied. So all the advantages of a European Spa are now to be found here, with the additional advantage of drinking the purest of all spring waters at its source. These distinct advantages and the fine bracing climate of Maine, the congenial society of a high-class resort hotel, and the many forms of sport the place affords, make a combination of healthy pleasures and physical and mental delights that can hardly be equalled in America or Europe.

Electrotherapy is an especial feature of the equipment at Poland Spring. There are electric light baths, radio-high frequency treatments, vacuum electrode apparatus, galvanic faradic, and sinusoidal currents, electric tub baths, electric vibratory treatments, phototherapy, and blue light treatments. It may not be generally known that this country has developed electrotherapy to a far higher degree than has Europe. Dr. H. H. Roberts who is medical director at Poland Spring is himself an innovator in this field of therapy.

The recent opening of the additional nine holes which made the Poland Spring links a nine-hole course, was an event that had been looked forward to for several years. The additional holes have been two years under construction. They carry the golfer far down over the great hill-slope to the shores of the sparkling lakes, and thence around the foot of the hill, and back up the incline to the old 9th hole—now the 18th, before the Poland Spring House. The new Poland Spring course is extremely picturesque. Its environments are heavily forested with pine and birch and oak. The fourth hole, which is a strip out through a heavy wood, is 425 yards long and 75 yards wide, and leads straight down to the lake. It cannot be surpassed for beauty. The 6th hole is 140 yards from a high elevation to a green beyond an intervening pond. It is a fine iron shot. These and many other holes make the new course interesting and "sporty" enough for anyone, and golf is certain to receive a great impetus at Poland Spring from the opening of these new holes.

A Problem of the Life to Come.

Small Johnny was wriggling and twisting in a vain endeavor to put his arms through the sleeves of an undergarment and then get it over his head. After several futile attempts he called out to his mother: "Say, mamma, when I get to be an angel, and have wings, I don't see how I'll ever get my shirt on!"

A New Questions and Answers Department of Interest to Shooters

G. M. T., Selma, Ala.

I have a .22 Remington rifle and while camping some one spilled salt on the barrel which took the blue enamel off in several places. Kindly advise me if there is any way to re-enamel these places?

Ans. The most satisfactory way would be for you to have the barrel re-browned at the factory. This would cost in the neighborhood of \$1.50.

P. L. H., Waterville, Maine.

1. Do you think the Colt Army Special, 6-inch barrel, .38 cal. would do good work at the target and for general use?

Ans. Yes.

2. I am informed that the trigger pull of the arm in question is 4 lbs. Is not this pull too heavy for good target shooting?

Ans. Four pounds is the regulation military trigger pull and is right for the Army Special.

3. Could I reload the .38 Special shell, black and smokeless with satisfactory results?

Ans. Yes, but I think you will find that the trouble and time hardly make it worth while. Of course reloading shells is rather a dangerous procedure as I have seen men who have done reloading for years make mistakes in loading powders which came near resulting disastrously.

4. In reloading the above mentioned shell, would the shell expand so as to interfere with its free action in the arm? I believe such a shell as the .38 cannot be resized.

Ans. Not for the first four or five times, i. e., if reduced loads are used. If full charge loads are used, the shells will not last long.

5. Could reduced loads in the same shell, black and smokeless charges and lighter bullets give accurate results?

Ans. Proper reduced loads give excellent results.

6. What reloading tools would you recommend?

Ans. All of the tools now made give satisfactory results when properly used. Please understand, while I say reloading can be done satisfactorily, it is a risky job, and I do not wish to go on record as favoring it.

7. I have a .35 cal. Model 1895 bo magazine rifle. Do you think this rifle would be too heavy for deer and black bear?

Ans. No.

J. B. W., U. S. N.

Could you please publish in your column the rear sight elevations in minutes, seconds and fraction, of the Savage 250-3000 rifle and if possible, the ft. sec., velocity at 100, 200, 300, 400 and 500 yd. ranges? The Savage people tell me that

their rear sight is an arbitrary one, fitted to all their rifles of different calibres and only targeted for 100 yds. in each calibre. I intend to fit a rear sight to the rifle at the ranges mentioned, using your figures and then proving at the range.

Ans. I am sure I cannot tell you if the manufacturers themselves cannot. A change of a minute of angle is a change on the target at 100 yds. of 1.047 seconds, which is usually used in figuring as 1 second. To determine the minutes of angle given by the sight now on your rifle, (or the sight you propose to put on your rifle) the figure can be determined by proportion, using the distance between sights, the movement of the rear sight measured by a micrometer, and the distance from the back sight to the target. If 100 yds. is assumed in the equation, the result will be given in minutes of angle. The proportion is—distance from back sight to target is to the distance from back sight to front sight as X is too change in elevation of the rear sight for one step. If as stated above, 100 yds. is used in this equation, the result is, practically speaking, minutes of angle.

With regard to ballistics, as I cannot obtain reliable figures on this cartridge, I will have to pass this question up, at least for the present.

Jno. L. W., Cornish, Me.

1. Are the .22 long cartridges, carrying No. 12 shot, sufficiently powerful in a pistol with 3½-inch barrel, to kill rats at eight or ten feet? About what is the limit of their killing power on animals?

Ans. This is certainly a rather ineffective weapon. .22 shot cartridges are weak enough even in a regular smooth bore barrel of 18 to 24 inches, and they will hardly be dangerous in a pistol with a barrel as long as you mention. If you mean a revolver, I should certainly not use them. A pistol might possibly kill a rat at the distance you mention, but I doubt it. What is the object of using such an unusual combination? Why not use regular .22 calibre cartridges? You will obtain better practice, as it will require more skill, and be much more of a sporting proposition, or else obtain a smooth bore miniature shotgun.

2. Is the magazine known as the "Hunter-Trapper" still published at Columbus, Ohio?

Ans. Yes, the address is 55 E. Main Street, Columbus, Ohio.

R. McE., Windsor Locks, Conn.

1. With the .30 Rem. Auto cartridge used in the new Remington slide action rifle give better groups and prove more accurate than the regular 30-30 cartridge used in other rifles? Is it a more accurate cartridge?

Ans. The .30 Remington cartridge and the regular 30-30 cartridge are identical so far as ballistic results go, i. e., velocity and energy at the various distances. In regard to the accuracy, the .30 Remington cartridge has a round point instead of a flat point and may give slightly better accuracy.

2. Is the .30 Rem. sufficiently powerful for moose and other American big game at a range of say 200 yards?

Ans. I would hardly recommend the .30 Rem. on moose at 200 yds. Of this series the .35 Rem. would be best for such hunting.

3. Will you please give the ballistics of the Winchester .22 Automatic and the new Rem. .22 Automatic cartridges at 50 to 100 yds.

Ans. The ballistics of these two cartridges are the same. They are:

Bullet weight 45 grams; velocity 950 ft. seconds; energy 90 ft. lbs.

4. Is the Rem. .22 automatic as accurate as the ordinary .22 short or .22 long rifle at 50 to 100 yds.?

Ans. The .22 long rifle is the more accurate, but the difference is extremely slight.

5. Do you think the slide action rifles will shoot more accurately than the autoloading rifle when both use the same cartridge, say the .30 Rem. cartridge?

Ans. There would be no difference.

A. I., Albany, N. Y.

In a booklet written by you and distributed by the Colt Firearms Co., I read the following: "The pistol shooter cocks his gun with his thumb, holds it out towards the target with his arm extended straight, takes aim along the sights and begins gradually to pull the trigger, watches the gun wave back and forth across the mark and when it is in the middle of one of its trips across the bulls-eye, finishes the pull of the trigger."

In another article by a different author, I read that the pistol shooter brings his gun downward as he pulls the trigger, and thus being in a quandary, I have written to ask you the correct method.

Ans. I have talked with a number of the most expert pistol shots in this country and some of the best pistol shots from other countries, and for regular target work, where considerable time is allowed, the method you mention first is generally used. I do not know of a single shooter who brings the gun down as he pulls the trigger, and secures accurate target results thereby. In rapid fire work where the time is very limited, I have found that bringing the gun up towards the bulls-eye as the trigger pressure is increased gives good results. Bringing it down is bad because the sights obscure the view of the bulls-eye.

1. Is the Colt's Officers Model a good revolver for a beginner?

Ans. Yes.

2. Ans. Yes, for the price.

3. Does it harm a .25 Cal. rim fire Marlin rifle to shoot the .25 cal. rim fire shot?

Ans. This is the old question of shooting short cartridges in a long chamber, and applies equally to .25 rim fire and to the .22 rim fire. Generally speaking, I certainly do not recommend the use of short cartridges in a long chamber.

4. Is the Stevens rifle made any more?

Ans. So far as I know it is.

5. Is the .35 Rem. a good cartridge for bear?

Ans. Very satisfactory.

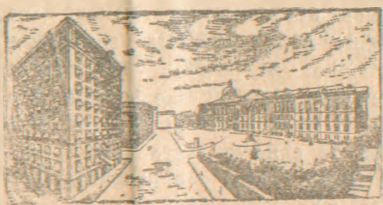

6. Does oiling the bore of a high power rifle make it shoot high?

Ans. The first shot will usually shoot a little high. It depends of course upon the amount of oil in the barrel.

MT. VIEW POET IN EVIDENCE

Author Waters Finds Mountain View an Attractive Spot

(Special Correspondence.)

Mountain View House, Rangeley Lake, July 17.—Delighted are the people who leave the heat swathed city and in a few hours find themselves in this clear, crisp air nearly 2,000 feet above the sea.

Those who come to the Mountain View for their first visit are at once impressed by the homelike atmosphere of the place, and the contentment of those who for years have been among "the big happy family."

There is always so much one can do for amusement, even if they do not care for fishing. They can walk for miles in different directions, take a climb to the top of Bald Mountain, row or canoe over the lake, or enjoy a motor boat sail. Many who have their automobile at home like to take a drive to Rangeley with George Church handling the reins over one of Landlord Bowley's good steppers. Others want to motor over to Stratton or down to Phillips. An hour of good exercise is in the box ball alley at Oquossoc and when evening comes bridge, music and dancing in the big parlor.

Mr. and Mrs. James W. Fay and son, who are here until September, with Eben Harnden, guide spent part of the week at Kennebago.

Mr. and Mrs. W. W. Walker of Hartford, Conn., are among the annual comers who arrived this week.

Dr. and Mrs. Addison W. Baird of New York who came for the first time to the Rangeleys were so much pleased with this place that they have taken rooms to remain until late in the season.

Since the warm days one of the pastimes has been a dip in the lake and those who enjoy bathing in fresh water have a fine chance near the hotel.

Miss Clara Morse of Stockbridge, Mass., who is with her parents at The Birches, spent several days here this week as the guest of Mrs. Barnhart of Grand Rapids, Mich., who, with her family is enjoying life in one of the camps as much as when they came six weeks ago.

Tuesday evening the many friends of A. Montgomery, Jr., of Brooklyn, N. Y., who did not expect to have the pleasure of seeing him until September, were surprised and delighted to have him arrive and this time accompanied by his sons and his wives, Mr. and Mrs. K. R. Montgomery of Brooklyn, and a few hours later coming in their Oakland speedster a distance of 500 miles from their home in Beacon, N. Y., in 49 hours, Mr. and Mrs. DeFoster C. Montgomery arrived and if a party ever received a hearty welcome they did. It has been over ten years since the boys were here, but they love the place as well as ever.

Landlord Bowley has hired men to re-cut the trail which starts from the opposite shore to the top of Bald Mountain, and now it is easy to follow. All the way white cloth has been tied to the near-by trees, and a walk up the mountain will be a popular pastime on pleasant days.

Mr. and Mrs. W. R. Allen of Moylan, Penn., came to-day to spend several weeks in Camp Don't-Worry as the guests of Mrs. W. Roger Fronefield.

Prof. H. W. Dunham of the New England Conservatory of Music, Boston, and Mrs. Dunham, accompanied by Miss Ethel Bolles of Boston, who, last year were in Europe, are glad to be back again to Mountain View, where they have spent many happy summers and a host of old friends are more than pleased to have them return. This season they occupy the second camp from the hotel.

Mr. and Mrs. H. W. Brant of Boston were to-day joined by their friends, C. F. Chapman of Revere, Mass., and Mrs. A. L. Jennings of Scitoville, Mass.

Mr. and Mrs. A. Clarke of Bangor, coming by auto were week-end guests.

Herbert McKenzie of Phillips drove from home his span of handsome ponies and is here for a few days.

Mrs. E. F. Robbins of Greenfield, Mass., made a short stay this week.

Eugene Waters, the writer, seems to find Mountain View an attractive place. With his secretary he spends

hours each day in a camp on the opposite shore of the lake that he has hired for an office. He also has a motor boat and his touring car and the beautiful places he visits in this section, we hope will make pen pictures in his next novel and now and then Mr. Waters drops the hook and the other day came in with a handsome 5-pound salmon. W. E. Waters of Boston to-day joined his mother and brother.

Col. George R. Fearing, a well-known Newport, R. I., gentleman, with his nephew, Geo. Fearing and C. E. Danforth, who came in his big white Crane touring car, is greatly delighted with this, his first trip to the Rangeley Lakes. He cares nothing about fishing except with the fly, and with Walter Wight guide, the party have cast the fly on this and Mooselookmeguntic and Cupsuptic lakes, have been to Dodge and Quimby ponds, and they always catch fish and the Colonel is a true sportsman, who not often kills a fish.

Mr. and Mrs. A. Burgess of New York have returned to pass several weeks.

Mr. and Mrs. E. T. Sawyer of Jersey City were among those to make a few days' stay this week.

Miss Helen E. Chase of Waltham, Mass., one of the "Gordon Trio," who furnished such fine music for the hotel, can handle the fish rod as well as play the piano and her first catch was a 3¼ pound salmon.

Mrs. H. W. Brant of Boston records a 3¼ pound trout.

"Fisherman Hawkins" has not yet brought in a fish weighing over 2½ pounds.

The Mountain View poet is back once more and sends the following:

"Fly Rod we greet you once again Upon fair Rangeley's shore.

We read the fishing tales you write, Same as in days of yore.

You tell about the great big whale, The one that got away,

But we expect that fish and truth Will sometimes go astray.

But when the chilly winter's blast Comes howling past our door,

With feet upon the mantle top That should be on the floor,

We read with pleasure all you write Of places long adored;

You prove to us the golden pen Is mightier than the sword.

But Father Hawkins limbers up, And casts his weather eye

Across the lake and verdant hills, And on the cloudy sky.

And then across his shoulders broad, He swings a great big hoe,

And up behind the barn he digs The fattest worms that grow.

And then he dons his fishing smile, And starts out just for fun.

He's crew and captain of his craft, A whaler built for one.

Then when the sun is sinking low, He glides back on the sly,

And proves to us, the wiggling worm Is mightier than the fly.

WHAT IS HEALTH?

How to Keep Well

Health is ease, sickness is dis-ease. Health is ac-cord, sickness is dis-cord. Bodily harmony means bodily health. When every organ does its share of work, and is in harmony with the other organs, there is robust, joyous health. If you are out of sorts and unhappy, know the joy of living by getting yourself healthy with the aid of "L. F." Atwood's Medicine. It eases the body of common ills and keeps the stomach, liver and bowels in tune.

Oakland, Maine. We have used L. F. Atwood's Medicine for nine years and find it excellent for sick headaches. My husband takes it for gas in his stomach. We give it to our two little girls for biliousness and when troubled with worms.

Mrs. ERNEST L. BOOKER. Buy a 35c bottle at your nearest store, or write for a free sample. FREE—On receipt of a yellow outside wrapper with your opinion of the medicine, we will send one of our Needle Books with a good assortment of high grade needles, useful in every family.

An Old Resident Passes Away---

Carlton Receives Injuries.

(Special Correspondence.)

Rangeley, July 21.—Mr. and Mrs. Daniel F. Judge of Somerville, Mass., are guests of Dr. and Mrs. F. B. Colby.

Mr. and Mrs. Warren Young of Madrid are at George Young's.

Miss Myrtle McKenzie of Boston has been visiting her brothers, Colin and Frank the past week.

While at work recently Wallace Carlton met with a serious accident which he does not care to repeat. He was sitting on the ground directly under a heavy cart body, which was propped up when in some unaccountable way the supports gave way and the cart came directly down on Mr. Carlton, doubling him up, causing bad bruises and damaging several ribs. It was almost a miracle that more serious injuries were not received. Dr. Ross was called and the patient made as comfortable as possible, but it will require some few weeks to recover from the injury.

Mrs. Earl Childs of Simsbury, Conn., is the guest of Mr. and Mrs. H. A. Childs.

The Camp Fire girls enjoyed a delightful camping trip on the shore of Haley Pond, where the Boy Scouts have recently been camping. Mrs. Frank Badger chaperoned the party.

Last week the Boy Scouts tented out and had a fine time, living out in the open and doing their own cooking.

Announcements were received last week notifying the housewives of the opening of the Main Street Cash store in the building formerly occupied by A. M. Hoar & Son. The store will carry a full line of meats, groceries, provisions and grain, having an entirely new stock. No team will be run at present. The manager will give his customers the benefit of this expense in lower prices on goods. The genial proprietor is the son of Senator E. I. Herrick and is a graduate of Bryant & Stratton Business College and has had considerable experience in the grocery business, having assisted his father, who was formerly in the business. The store has been thoroughly remodeled and up-to-date fixtures installed, including a glass front refrigerator, silent salesman show cases and all modern conveniences. All wish Howard great success in his new undertaking.

Mr. and Mrs. Albion Turner of New Vineyard were week-end guests of Mr. and Mrs. G. A. Proctor. On their return Mrs. Proctor and son, Corydon accompanied them and will remain at the Proctor's summer home for a few weeks.

The annual financial canvass of the F. B. church began Tuesday. It is hoped to raise the \$1,000 in four days. The first day's canvass netted about \$200.

Mrs. N. H. Ellis returned from Lewiston the first of the week. Mr. Ellis is expected Saturday.

Funeral services for the late Mrs. Elias Brackett were held from her late home Monday afternoon at two o'clock. For several years past she has been in poor health, but until the past three months was able to attend to her regular duties. Maria Brackett, as she was known to her friends was born in Dallas, the daughter of Mr. and Mrs. John Oakes September 22, 1843. Fifty-three years ago, June 30, she became the wife of Elias Brackett and of this union 14 children were born. All are living except one daughter, Gertrude, who died about 10 years ago. Mrs. Brackett was an industrious, hard-working woman, a kind neighbor and friend. Besides her husband she leaves to mourn her loss seven daughters and six sons, Mrs. Ella Dill, Mrs. Ella Oakes, Mrs. W. S. Lovejoy, Mrs. L. D. Nile, Mrs. Fred Lamb, Mrs. George Garland, Mrs. Phil Huntoon, Walter, Alfred, Roderick, James, Sylvester and Sampson Brackett, one sister, Mrs. Wm. Moore and three brothers, Warren, Lucian and Levi Oakes and a large number of grandchildren. The four oldest sons acted as bearers. Rev. H. A. Childs officiated. Interment at Evergreen cemetery. The flowers were many and beautiful.

CARD OF THANKS.

To our many friends and neighbors who so kindly assisted us during our recent sorrow, also for the beautiful flowers, we wish to express our sincere thanks and appreciation.

Mrs. Agnes Morrison,

Mrs. Ella Blanchard,

Mr. and Mrs. Fred Abbott, Rangeley, July 21, 1915.

MAINE WOODS REPORTER ON TRIP

Many Camps Visited and Courtesies Shown By Proprietors.

Its not far from Kineo to West Outlet Camps and before we could take in all of the view we wanted to of the lake and mountains on the way over, the little motor boat had carried us across and we were shaking hands with Mr. Gilbert, the proprietor. Looking at the camps from the wharf they appear like a little rustic village, with rustic bridges, seats and pergolas, from which a fine view is afforded of Spencer Mountain, Mt. Kineo and other points of interest.

We eagerly accepted Mr. Gilbert's invitation to show us around and he led us into the main camp which he claims is the largest single log cabin in the world. Once on the inside it is hard to realize that you are in a log cabin for it has fine hard wood floors and all modern conveniences. From the office we went through the fine large dining room, which seats 110 guests, into the kitchen, and it is here that you forget entirely that you are in a log cabin for you can find every economical and sanitary device.

We next inspected the single camps, some of which have four sleeping rooms and some two. They all have a fine large living room and piazza. Besides the camps Mr. Gilbert has fitted out tents for those who prefer them. They have good floors and carpets and are walled up three feet on the sides.

After having thanked Mr. Gilbert for his courtesy we again embarked and headed the boat for the lower end of the lake.

Our next stop was the Outlet House and camps, of which A. J. Wilson is the proprietor. Here is situated the famous trout pool of Moosehead, at the "Outlet," the source of the Kennebec river. Besides the hotel with its large airy rooms there is a set of camps which are comfortable in every way. From the hotel a view of Spencer Mountain is afforded and also of Katahdin, the king of them all.

From the "Outlet" we went to Capens and were met at the wharf by the proprietor, H. C. Capen, formerly of the Augusta House, Augusta. This modern fine hotel with the cottages and bungalows accommodates about 80 people. The hotel is situated on Deer Island, which contains about 2,500 acres of virgin forest. In front of the hotel is a fine tennis court.

After sampling the excellent products of the culinary department and smoking a pipe on the veranda which surrounds the hotel on three sides, we again headed down the lake and arrived at Camp Greenleaf.

The proprietor was absent and we missed the opportunity to inspect his camps. The camps, all of which are built of logs are attractively situated on Sugar Island, and accommodate about 30 people. From here to the Thorofare Camps, takes only a few minutes and here we found Mr. Greenleaf having a Sunday chat with T. E. Heald of the Thorofare Camps.

The striking thing about these camps is the large stone fireplaces and brick chimneys. The fireplaces are built in the wall of the camp in each case and the large red brick chimneys rise far above the roofs of the camps. They are all built near together and one long piazza runs in front of them with a single floor and roof.

The Thorofare which connects Beaver Neck and Lily Bay is claimed to be one of the best fishing grounds in the lake, but as we were shown and told of large catches in nearly every place visited, we were forced to believe that one place was as good as another.

After a half hour chat with Mr. and Mrs. Heald we spun the wheel of the boat and chugged away to Crow's Nest. On our way over we picked up a buoy and investigating found it was attached to a fish can full of bait. We were somewhat surprised to find it so far out in the lake but supposing that the owners knew their business best, we let it sink back to the depth of the lake and went on our way to Crow's Nest.

We found the proprietor, B. R. Palmer taking a sun bath on the piazza. This is the present proprietor's first year at the camps. For the last few years they have been run as a Boys' Camp but have this year been leased by Mr. Palmer. Besides the large home camp there are three smaller

camps, Camp Cozy, Camp Bowdoin and the Birches which contain six sleeping rooms.

Our next and last stop before Greenville was Squaw Mt. House, opened this year by Arthur A. Crafts of Greenville Junction. This place was formerly run as a sanatorium but for the past few years has been vacant. Naturally, considering the purpose for which the house was built, the rooms are light and airy. Every sleeping room is fitted with excellent furniture and no expense is being spared in getting it ready for the summer business. Besides the main house there is a large log cabin of eight rooms and two sleeping porches suitable for a large family.

As we were sitting on the piazza after supper admiring the view of the lake and the opposite mountains, we saw a deer come out of the woods only a short distance from the hotel and walk slowly across the clearing. We were informed that it was not unusual for three or four to be there at once. We expressed our fear for the fine garden that had been planted and advised the proprietor to fence it if he wished to save it.

The last lap of our journey from Squaw Mountain to Greenville was the most pleasant of all, for it was just at twilight and the dim mountains with the shadows playing upon them made a beautiful picture.

As we neared Greenville we commenced to overtake a motor canoe but as we came alongside they let out and easily distanced us, and to make matters worse, they commenced to run circles around us. As we were already doing our best we paid no attention to them and chugged steadily toward Greenville. We reached there about 7.30 and after dressing the boat for the night in her canopy, moored her securely, and went home well pleased with our day's trip.

Make Our Own Wrong.

We make ourselves more injured than are offered to us; they many times pass for wrongs in our own thoughts, that were never meant so by the heart of him that speaks. The apprehension of wrong hurts more than the sharpest part of the wrong done.—Feltham.

A Sustaining Diet.

These are the enervating days, when, as somebody has said, men drop by the sunstroke as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic,—say, a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep, and will without any doubt avert much sickness at this time of year.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process.

Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's today.

The many old friends of Mrs. C. E. Tedford were delighted to hear her last Sunday morning at the Union church when she assisted Hon. N. P. Noble and Miss Wilhelmine Skolfield in the singing and also presided at the organ. Mrs. Tedford was a member of the choir during the years that her husband was pastor of the Free Baptist church in this town and was of much assistance in other musical lines, also having several music pupils. Sunday evening Mrs. Tedford gave a talk on her work in the Washington Street Baptist church of Lynn, Mass., where she has a position as assistant to the pastor. She does much work among the young people and has a class of young ladies in the Sunday school. It was 26 years ago that Mr. Tedford was pastor of the Phillips church and 16 years since Mrs. Tedford visited here. She left town Wednesday for Topsham, where she will visit her husband's relatives for a few days, but will be obliged to be back to her work in Lynn next Sunday as the pastor of that church leaves Monday for his vacation.
